___ (40)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631).

____ (ii) Alternate I (APR 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

__X__ (1) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

__X__ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act--Price Adjustment (Multiple Year and Option Contracts) (NOV 2006) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act--Price Adjustment (February 2002) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (5) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (6) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (7) 52.237-11, Accepting and Dispensing of $1 Coin (AUG 2007)(31 U.S.C. 5112(p)(1)).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vi) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $550,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (SEP 2006) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

(vi) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

(vii) 52.222-50, Combating Trafficking in Persons (AUG 2007) (22 U.S.C. 7104(g)). Flow down required in accordance with paragraph (f) of FAR clause 52.222-50.

(viii) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(ix) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(x) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than $3,000.00 per ship visit, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract. This restriction is because these items can be bought with the Government Wide Purchase Card below the aforementioned threshold.

(b) Maximum order. The Contractor is not obligated to honor:

(1) For ALL port areas covered herein, any order to husband in excess of six (6) vessels. The six vessels in any one port. The mix shall be undefined; or

(2) Unless contractor agrees to accept service provisions for additional vessels; or

(3) A series of orders from the same ordering office within one (1) day that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within one (1) day after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-21 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after the last day of the contract dictated in the period of performance .

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor, anytime prior to commencement of the option.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

FAR Clauses http://acquisition.gov/comp/far/index.html
DFAS Clauses http://www.acq.osd.mil/dpap/dars/dfaras/index.htm

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (MAR 2008)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

__X__ 52.203-3, Gratuities (APR 1984) (10 U.S.C. 2207).

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

(1) ___ 252.205-7000, Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).

(2) ___ 252.219-7003, Small Business Subcontracting Plan (DoD Contracts) (APR 2007) (15 U.S.C. 637).

(3) ___ 252.219-7004, Small Business Subcontracting Plan (Test Program) (APR 2007) (15 U.S.C. 637 note).

(21) ___ 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5), the Contractor shall include

the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

(1) 252.225-7014, Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).

(2) 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Public Law 108-375).

(3) 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(4) 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(End of clause)

5252.232-9000 SUBMISSION OF INVOICES (FIXED PRICE) (JUL 1992)

(a) "Invoice" as used in this clause does not include Contractor requests for progress payments.

(b) The Contractor shall submit original invoices with three (3) copies to the address identified in the solicitation/contract award form (SF 26 - Block 10; SF 33 - Block 23; SF 1447 - Block 14), unless delivery orders are applicable, in which case invoices will be segregated by individual order and submitted to the address specified in the order (DD 1155 - Block 13 or SF 26 - Block 10).

(c) The use of copies of the Material Inspection and Receiving Report (MIRR), DD Form 250, as an invoice is encouraged. DFARS Appendix F-306 provides instructions for such use. Copies of the MIRR used as an invoice are in addition to the standard distribution stated in DFARS F-401.

(d) In addition to the requirements of the Prompt Payment clause of this contract, the Contractor shall cite on each invoice the contract line item number (CLIN); the contract subline item number (SLIN), if applicable; the accounting classification reference number (ACRN) as identified on the financial accounting data sheets, and the payment terms.

(e) The Contractor shall prepare:

____ a separate invoice for each activity designated to receive the supplies or services.
____ a separate invoice for each shipment to the activity designated to receive the supplies or services.
____ a consolidated invoice covering all shipments delivered under an individual order.
____ any of the above.

(f) If acceptance is at origin, the Contractor shall submit the MIRR or other acceptance verification directly to the designated payment office. If acceptance is at destination, the consignee will forward acceptance verification to the designated payment office.

SUP 5252.243-9400 AUTHORIZED CHANGES ONLY BY THE CONTRACTING OFFICER (JAN 1992)

(a) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(b) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(c) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and telephone number of the Contracting Officer is:

Name: (b)(6), (b)(7)(C)
Address: Contracting Department (Code 200)
FISC Norfolk
1968 Gilbert Street, STE 600
Norfolk, VA 23511
Telephone
Email: (b)(6), (b)(7)(C)

SUP 5252.216-9402 Oral Orders (Indefinite Delivery Contracts) (JAN 1999)

Oral orders may be placed provided the following conditions are complied with:
(a) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.
(b) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract; date order was placed, name and title of person placing order; an itemized listing of supplies or services furnished; unit price and extension of each item; and, delivery or performance date.
(c) Invoices for supplies or services furnished in response to oral orders will be accompanied with a received copy of each related delivery ticket.
(d) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.
(e) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one oral order is consolidated for a single confirmation.
(End of Clause)

5252.216-9403 NAVSUP Written Orders (Indefinite Delivery Contracts) (JAN 1992)

Written orders (on DD Form 1155) will contain the following information consistent with the terms of the contract:
(a) Date of order
(b) Contract number and order number.
(c) Item number and description, quantity ordered, unit price and contract price.
(d) Delivery or performance date.
(e) Place of delivery or performing (including consignee).
(f) Packaging, packing, and shipping instructions, if required.
(g) Accounting and appropriation data.
(h) Any other pertinent information.
(End of Clause)

ISSUANCE OF ORDERS

(a) Orders may be issued orally, or by telephone, or by facsimile, or by electronic mail, or by a LOGistic REQuirement (LOGREQ) message or by any other means available.

(b) The order may be passed to the contractor by any method identified in paragraph (a) above by a United States Defense Attache' Office, United States Embassy or Consulate, United States Navy Liaison Officer, a United States Navy Port Services Officer, or other ordering officer.

CANCELLATION OF ORDERS

(a) Unless otherwise provided herein, in the event an order is canceled at least 48 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 48 hours prior to the required delivery time, the Ordering activity shall be responsible for any termination costs in accordance with paragraph (h) entitled "Termination for the Government's Convenience" of the clause entitled "CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS". Any disagreements shall be subject to the Disputes clause in the contract.

(b) In all cases, the contractor is responsible for taking all necessary steps to mitigate any damages/termination costs on behalf of the U.S. Government.

(c) For services priced under the contract with a unit of issue of "DAY", the contractor will be entitled to receive the percentage indicated by the offeror under CLIN Husbanding Services Cancellation Fee. This percentage will be applied to each unit price with a unit of issue of "DAY" and for one day only.

VEHICULAR AND GENERAL PUBLIC LIABILITY INSURANCE (APR 1984) (FAR 52.228-10) TAILORED

(1) The Contractor, at the Contractor's expense, agrees to maintain, during the performance of this contract, all insurance required by the county in which the Contractor is performing. At a minimum, this insurance shall include vehicular liability and general public liability insurance with limits of liability for (1) bodily injury and (2) property damage.
(2) The Contractor also agrees to maintain worker's compensation and other legally required insurance with respect to the Contractor's own employees and agents.
(3) Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interests shall not be effective for 30 days after the insurer or the Contractor gives written notice to the Contracting Officer.

LIMITED RISK OF LOSS

(4) The Contractor shall not be liable under this contract for any loss suffered by the U. S. Government including, but not limited to, loss, destruction of, or damage to, Government property or for expenses incidental to such loss, destruction, or damage, except as provided in item b below.
(5) The Contractor shall be responsible for loss to the U. S. Government including, but not limited to, loss, destruction of, or damage to, Government property under this contract (including expenses incidental to such loss, destruction, or damage) that results from a risk expressly required to be insured under this contract, but only to the extent of the insurance required to be purchased and maintained or to the extent of insurance actually purchased and maintained, whichever is greater; or

a. That results from a risk that is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement; or
b. For which the Contractor is otherwise responsible under the express terms of this contract; or

c. That results from willful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(6) Nothing in this clause or in this contract shall preclude or limit recovery by the U. S. Government from a subcontractor or a subcontractor's insurer for any loss suffered by the U. S. Government including, but not limited to, loss, destruction of, or damage to, Government property caused by the subcontractor, its employees or agents.

____ (ii) Alternate I (APR 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

__X__ (1) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

__X__ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act--Price Adjustment (Multiple Year and Option Contracts) (NOV 2006) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act--Price Adjustment (February 2002) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (5) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (6) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (7) 52.237-11, Accepting and Dispensing of $1 Coin (AUG 2007)(31 U.S.C. 5112(p)(1)).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available

for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vi) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $550,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (SEP 2006) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

(vi) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

(vii) 52.222-50, Combating Trafficking in Persons (AUG 2007) (22 U.S.C. 7104(g)). Flow down required in accordance with paragraph (f) of FAR clause 52.222-50.

(viii) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(ix) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(x) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than $3,000.00 per ship visit, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract. This restriction is because these items can be bought with the Government Wide Purchase Card below the aforementioned threshold.

(b) Maximum order. The Contractor is not obligated to honor:

(1) For ALL port areas covered herein, any order to husband in excess of six (6) vessels. The six vessels in any one port. The mix shall be undefined; or

(2) Unless contractor agrees to accept service provisions for additional vessels; or

(3) A series of orders from the same ordering office within one (1) day that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within one (1) day after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-21 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified

in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after the last day of the contract dictated in the period of performance .

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor, anytime prior to commencement of the option.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

FAR Clauses http://acquisition.gov/comp/far/index.html

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (MAR 2008)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

__X__ 52.203-3, Gratuities (APR 1984) (10 U.S.C. 2207).

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

(1) ___ 252.205-7000, Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).

(2) ___ 252.219-7003, Small Business Subcontracting Plan (DoD Contracts) (APR 2007) (15 U.S.C. 637).

(3) ___ 252.219-7004, Small Business Subcontracting Plan (Test Program) (APR 2007) (15 U.S.C. 637 note).

(4) __X_ 252.225-7001, Buy American Act and Balance of Payments Program (JUN 2005) (41 U.S.C. 10a-10d, E.O. 10582).

(5) _X__ 252.225-7012, Preference for Certain Domestic Commodities (MAR 2008) (10 U.S.C. 2533a).

(6) ___ 252.225-7014, Preference for Domestic Specialty Metals (JUN 2005) (10 U.S.C. 2533a).

(7) ___ 252.225-7015, Restriction on Acquisition of Hand or Measuring Tools (JUN 2005) (10 U.S.C. 2533a).

(8) ___ 252.225-7016, Restriction on Acquisition of Ball and Roller Bearings (MAR 2006) (Section 8065 of Public Law 107-117 and the same restriction in subsequent DoD appropriations acts).

(9) ___ 252.225-7021, Trade Agreements (MAR 2007) (19 U.S.C. 2501-2518 and 19 U.S.C. 3301 note).

(10) ___ 252.225-7027, Restriction on Contingent Fees for Foreign Military Sales (APR 2003) (22 U.S.C. 2779).

(11) ___ 252.225-7028, Exclusionary Policies and Practices of Foreign Governments (APR 2003) (22 U.S.C. 2755).

(12)(i) ___ 252.225-7036, Buy American Act--Free Trade Agreements--Balance of Payments Program (MAR 2007) (41 U.S.C. 10a-10d and 19 U.S.C. 3301 note).

(ii) ___ Alternate I (OCT 2006) of 252.225-7036.

(13) ___ 252.225-7038, Restriction on Acquisition of Air Circuit Breakers (JUN 2005) (10 U.S.C. 2534(a)(3)).

(14) ___ 252.226-7001, Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns (SEP 2004) (Section 8021 of Pub. L. 107-248 and similar sections in subsequent DoD appropriations acts).

(15) ___ 252.227-7015, Technical Data--Commercial Items (NOV 1995) (10 U.S.C. 2320).

(16) ___ 252.227-7037, Validation of Restrictive Markings on Technical Data (SEP 1999) (10 U.S.C. 2321).

(17) ___ 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports(MAR 2008) (10 U.S.C. 2227).

(18) ___ 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Public Law 108-375).

(19) ___ 252.243-7002, Requests for Equitable Adjustment (MAR 1998) (10 U.S.C. 2410).

(20)(i) ___ 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(ii) ___ Alternate I (MAR 2000) of 252.247-7023.

(iii) ___ Alternate II (MAR 2000) of 252.247-7023.

(iv) ___ Alternate III (MAY 2002) of 252.247-7023.

(21) ___ 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

(1) 252.225-7014, Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).

(2) 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Public Law 108-375).

(3) 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(4) 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(End of clause)

5252.232-9000 SUBMISSION OF INVOICES (FIXED PRICE) (JUL 1992)

(a) "Invoice" as used in this clause does not include Contractor requests for progress payments.

(b) The Contractor shall submit original invoices with three (3) copies to the address identified in the solicitation/contract award form (SF 26 - Block 10; SF 33 - Block 23; SF 1447 - Block 14), unless delivery orders are applicable, in which case invoices will be segregated by individual order and submitted to the address specified in the order (DD 1155 - Block 13 or SF 26 - Block 10).

(c) The use of copies of the Material Inspection and Receiving Report (MIRR), DD Form 250, as an invoice is encouraged. DFARS Appendix F-306 provides instructions for such use. Copies of the MIRR used as an invoice are in addition to the standard distribution stated in DFARS F-401.

(d) In addition to the requirements of the Prompt Payment clause of this contract, the Contractor shall cite on each invoice the contract line item number (CLIN); the contract subline item number (SLIN), if applicable; the accounting classification reference number (ACRN) as identified on the financial accounting data sheets, and the payment terms.

(e) The Contractor shall prepare:

____ a separate invoice for each activity designated to receive the supplies or services.
____ a separate invoice for each shipment to the activity designated to receive the supplies or services.
____ a consolidated invoice covering all shipments delivered under an individual order.
____ any of the above.

(f) If acceptance is at origin, the Contractor shall submit the MIRR or other acceptance verification directly to the designated payment office. If acceptance is at destination, the consignee will forward acceptance verification to the designated payment office.

SUP 5252.243-9400 AUTHORIZED CHANGES ONLY BY THE CONTRACTING OFFICER (JAN 1992)

(a) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(b) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(c) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and telephone number of the Contracting Officer is:

Name: (b)(6), (b)(7)(C)
Address: Contracting Department (Code 200)
FISC Norfolk
1968 Gilbert Street, STE 600
Norfolk, VA 23511
Telephone
Email: (b)(6), (b)(7)(C)

SUP 5252.216-9402 Oral Orders (Indefinite Delivery Contracts) (JAN 1999)

Oral orders may be placed provided the following conditions are complied with:
(a) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.
(b) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract; date order was placed, name and title of person placing order; an itemized listing of supplies or services furnished; unit price and extension of each item; and, delivery or performance date.
(c) Invoices for supplies or services furnished in response to oral orders will be accompanied with a received copy of each related delivery ticket.
(d) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.
(e) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one oral order is consolidated for a single confirmation.
(End of Clause)

5252.216-9403 NAVSUP Written Orders (Indefinite Delivery Contracts) (JAN 1992)

Written orders (on DD Form 1155) will contain the following information consistent with the terms of the contract:
(a) Date of order
(b) Contract number and order number.
(c) Item number and description, quantity ordered, unit price and contract price.
(d) Delivery or performance date.
(e) Place of delivery or performing (including consignee).

(f) Packaging, packing, and shipping instructions, if required.
(g) Accounting and appropriation data.
(h) Any other pertinent information.
(End of Clause)

ISSUANCE OF ORDERS

(a) Orders may be issued orally, or by telephone, or by facsimile, or by electronic mail, or by a LOGistic REQuirement (LOGREQ) message or by any other means available.

(b) The order may be passed to the contractor by any method identified in paragraph (a) above by a United States Defense Attache' Office, United States Embassy or Consulate, United States Navy Liaison Officer, a United States Navy Port Services Officer, or other ordering officer.

CANCELLATION OF ORDERS

(a) Unless otherwise provided herein, in the event an order is canceled at least 48 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 48 hours prior to the required delivery time, the Ordering activity shall be responsible for any termination costs in accordance with paragraph (h) entitled "Termination for the Government's Convenience" of the clause entitled "CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS". Any disagreements shall be subject to the Disputes clause in the contract.

(b) In all cases, the contractor is responsible for taking all necessary steps to mitigate any damages/termination costs on behalf of the U.S. Government.

(c) For services priced under the contract with a unit of issue of "DAY", the contractor will be entitled to receive the percentage indicated by the offeror under CLIN Husbanding Services Cancellation Fee. This percentage will be applied to each unit price with a unit of issue of "DAY" and for one day only.

VEHICULAR AND GENERAL PUBLIC LIABILITY INSURANCE (APR 1984) (FAR 52.228-10) TAILORED

(1) The Contractor, at the Contractor's expense, agrees to maintain, during the performance of this contract, all insurance required by the county in which the Contractor is performing. At a minimum, this insurance shall include vehicular liability and general public liability insurance with limits of liability for (1) bodily injury and (2) property damage.
(2) The Contractor also agrees to maintain worker's compensation and other legally required insurance with respect to the Contractor's own employees and agents.
(3) Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interests shall not be effective for 30 days after the insurer or the Contractor gives written notice to the Contracting Officer.

LIMITED RISK OF LOSS

(4) The Contractor shall not be liable under this contract for any loss suffered by the U. S. Government including, but not limited to, loss, destruction of, or damage to, Government property or for expenses incidental to such loss, destruction, or damage, except as provided in item b below.
(5) The Contractor shall be responsible for loss to the U. S. Government including, but not limited to, loss, destruction of, or damage to, Government property under this contract (including expenses incidental to such loss, destruction, or damage) that results from a risk expressly required to be insured under this

contract, but only to the extent of the insurance required to be purchased and maintained or to the extent of insurance actually purchased and maintained, whichever is greater; or

a. That results from a risk that is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement; or
b. For which the Contractor is otherwise responsible under the express terms of this contract; or
c. That results from willful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(6) Nothing in this clause or in this contract shall preclude or limit recovery by the U. S. Government from a subcontractor or a subcontractor's insurer for any loss suffered by the U. S. Government including, but not limited to, loss, destruction of, or damage to, Government property caused by the subcontractor, its employees or agents.

CLARIFICATIONS
Questions:

1. **CHT – There is no Mob/Demob Sub-CLIN. Can this be added to the the Pricing Spreadsheet?**

No. In accordance with the Performance Work Statement 2.0(b)(1):
"(1) The Contractor is responsible to provide a service solution for the entire cycle necessary to Collect, remove, dispose, and transport the Collection Holding Transfer (CHT) bacteriological / Chemical liquids from ships throughout the area covered by this contract."

2. **Security Boat Escorts: Will the vessel require 24 hrs picket boat service for their duration of the Port Visit or just an escort in and out of the channel?**

Only escort in and out of the channel is required at this time. This is the known requirement indicated on Attachment I – Pricing Spreadsheet.

3. **Shore Power: What is the estimate for number of KW/HR that will be used by the vessel?**

The estimate will be 927 KW/HR for the duration of the port visit. The pricing spreadsheet has been changed to reflect this estimate.

4. **Port Visit Cost Reporting Tool: Is this a requirement for this contract?**

This requirement is not for this contract.

5. **Port Tariffs: Is the contractor required to indicate which items are Port Tariffs (PT)?**

Yes, we expect offerors to identify PT items as listed above. Ensure that the item is somehow identified as a PT. This is informational only so the U.S. Navy can better capture all port visit costs. No PT items are evaluated for award determination.

6. **Force Protection Requirements: The PWS includes considerable FP requirements. However, the proposed pricing schedule only includes a security boat escort. Does the government expect the contractor to provide all FP requirements as stated in the PWS and include within their management services CLIN?**

No. The only FP items required are indicated on Attachment I – Pricing Spreadsheet.

7. **Pilotage services: Providing a price for the unit of issue "Job" does not take into consideration any delays and other unforeseen circumstances. Can you change the unit of issue to "HR"?**

The unit of issue will remain "job." This is a firm fixed price performance based contract.

8. **Tug Boat Services: Providing a price for the unit of issue "Job" does not take into consideration any delays and other unforeseen circumstances. Can you change the unit of issue to "HR"?**

The unit of issue will remain "job." This is a firm fixed price performance based contract.

CODE QB341 FACILITY CODE	X	10B. DATED (SEE ITEM 13) 01-Mar-2006

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
X	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzbkf010614371

1. This is an administrative modification issued to change the total estimated quantity and unit price for the base and option periods. This change in the quantities and unit price are required as to allow PD2 program to generate individual delivery orders against the contract. The Total estimated price for the base and each of the option periods remain unchanged. Individual delivery orders will reference the Exhibit A for actual CLINs and SUB-CLINs ordered. Estimated quantities and actual unit prices for CLINs and SUB-CLINS will provide in the Exhibit A as part of each individual order.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

1.2.13.4 Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.2.13.5 The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.2.13.6 Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.2.13.7 The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

The replaced attached pages show the revised paragraph highlighted in yellow under this contract.

2. There is no change in the prices as a result of this modification.

3. All other Terms and Conditions remain unchanged.

SECTION SF 1449 - CONTINUATION SHEET

SOLICITATION/CONTRACT FORM
The offeror bid date 24-Jan-2006 has been deleted.

The following have been modified:

STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether prepriced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services:

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: The Contractor shall provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services: The U.S. Navy has an information, tickets and tours (ITT) contractor specifically for the purpose of providing visiting military personnel with opportunities to book hotel rooms, tour packages and distributing information about local places of interest. Any action on the part of the Husbanding Contractor to offer information or to sell or book recreational, off-duty activities or hotel rooms would be considered interference with the ITT contractor's functions and is prohibited under this contract. Neither the contractor nor any of its subcontractors at any tier shall advertise or offer such opportunities to the crew members of the vessel serviced by the Contractor. Questions and requests for such information and opportunities shall be referred to the ITT contractor.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.2.13.4 Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.2.13.5 The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.2.13.6 Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.2.13.7 The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative

1.3 GENERAL ASSISTANCE

1.3.1 The Contractor shall coordinate, assist with supplies and provide logistical support for Community Relations (COMREL) Projects as identified by the United States Defense Attache Office (USDAO) Bangkok. All information related to the COMREL Project will be forwarded to the contractor directly from the USDAO by fax or email. (All questions regarding COMREL projects will be entertained by the USDAO). Responses related to inquiries for COMREL projects, official visits and courtesy calls will be answered by separate correspondence by the USDAO.

1.3.2 As required, the contractor shall provide "Military Personnel Assistance". This support requires the contractor to transport, escort and assist military or civilian personnel in obtaining a (2" X 2" Matte finish) Passport picture, American passport and Air Ticket before existing Thailand. The individual supporting this function must speak and read English to access the JUSMAGTHAI compound "Joint Administration Office" and American Embassy in Bangkok. Assistance will be required to meet personnel at the airport if coming from Phuket or to transport personnel from Pattaya if ship is in port there. The charges for ground transportation shall be consistent with the hourly rates in the contract. Procedures are provided, see Attachment 3. The service member will be responsible for his/her own food and lodging expenses.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2 Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW OF CONTRACT Section, Paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

6.8. The Contractor shall not charge more than what the Thai Government charges per gallon.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

The Contractor shall arrange for landlines to be installed for Beach Guard. The installation charges shall be inclusive of all costs for installatoin and deactivation of landlines and for unlimited usage for local calls.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE – (CLIN XX09) – The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) : The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must coordinate all aspects of FP planning and services with U.S.Navy FP officials, NCIS, Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up

on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent – (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may be required to provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Perimeter (CLIN XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Perimeter (FPM) to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The size of the perimeter will depend on the class of ship. Pierside, the FPM should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the perimeter will be positioned as far as possible from the ship. At anchorage, the FPM will be positioned 330 feet (100 meters) outside the swing radius of the ship.

12.5.3. There are two types of FPMs:

12.5.3.1. Continuous Line FPM: (CLIN XX12AC)

12.5.3.1.1. The FPM must fully enclose ships at dockside or at anchorage. The perimeter will have an Entry Control Point (ECP) where the perimeter may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the perimeter at the ECP.

12.5.3.1.2. Specifications:

12.5.3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20 mm) with at least one connectable ECP for access.

12.5.3.1.2.2. Floatation devices positioned every meter on the line. Sufficient to keep line afloat and visible on the surface of the water.

12.5.3.1.2.3. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

12.5.3.1.2.4. Weights positioned at intervals along the line to anchor the line to the seabed and stablize the perimter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

12.5.3.2. **RESERVED** - Floating Buoy System (FBS) (CLIN XX12AD)

12.5.3.2.1. The Contractor shall provide a FBS per the specifications provide below:

12.5.3.2.1.1. The Contractor shall provide a Floating Buoy System (FBS) to identify a restricted area around ships. The purpose of the FBS is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The picket boats will patrol outside of this visual reference. The FBS shall have an Entry Control Point (ECP)

where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the FBS at all times.

12.5.3.2.1.2 Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

12.6. Perimeter Fencing – (CLIN XX12AE)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material:	Chain link of aluminium or other durable metallic material
Height:	Minimum height of 2.5 meters (7 feet)
Base:	Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point:	Entry available for vehicles and personnel.

12.7. Physical Security Barriers – (CLIN XX12AF, XX12AG and XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used, as well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

The Contractor shall comply with Attachment 4 for picket boat operations.

12.8.3. The Contractor shall provide a translator fluent in both English and Thai to translate for the driver of the picket boat at all times. The translator shall provide all communication between the ship personnel and the picket boat driver.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting – (CLIN XX12AL)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guard Services – (CLIN XX12AM, XX12AN and XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats/security boats and at pierside/liberty area to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guard (XX12AM, XX12AN and XX12AP) shall be armed.

12.12. Two Way Radios (CLIN XX12AQ): The Contractor shall provide two way radio sets capable of communicating with the ship, picket boat and to the shore patrol/liberty area with designated individuals.

12.13. X-Ray Machine Airport Type with Operators (CLIN XX12AR): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.14. Walk-Thru Metal Detector (CLIN XX12AS): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.15. Hand Held Wand Metal Detector (CLIN XX12AT): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. RESERVED - FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board (F.O.B.) the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS – (CLIN XX16)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. RESERVED - MATERIAL HANDLING (CLIN XX19)

20. RESERVED - MISCELLANEOUS (CLIN XX20)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a floatation device at the top, a skirt below, a tension device and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. RESERVED - PAINT FLOAT (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED - PRATIQUE (CLIN XX26

27. RESERVED - REEFER CONTAINER (CLIN XX27)

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED - SHORE STEAM (CLIN XX29)

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (XX35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship’s departure.

35.2. QUARTERLY REPORT (XX35AB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in U.S. dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed againt this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

(End of Summary of Changes)

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES

STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether prepriced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services:

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: The Contractor shall provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services: The U.S. Navy has an information, tickets and tours (ITT) contractor specifically for the purpose of providing visiting military personnel with opportunities to book hotel rooms, tour packages and distributing information about local places of interest. Any action on the part of the Husbanding Contractor to offer information or to sell or book recreational, off-duty activities or hotel rooms would be considered interference with the ITT contractor's functions and is prohibited under this contract. Neither the contractor nor any of its subcontractors at any tier shall advertise or offer such opportunities to the crew members of the vessel serviced by the Contractor. Questions and requests for such information and opportunities shall be referred to the ITT contractor.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.2.13.4 Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.2.13.5 The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.2.13.6 Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.2.13.7 The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship’s Supply Officer and courtesy copy to FISC Det Singapore Contracting Office who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer’s or Contracting Officer’s order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship’s departure from the visited port. The Contractor’s responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, Overview, paragraph 14, Standards for Professional Services; sub-paragraph 14.1.

1.4 GENERAL ASSISTANCE

1.4.1 The Contractor shall coordinate, assist with supplies and provide logistical support for Community Relations (COMREL) Projects as identified by the United States Defense Attache Office (USDAO) Bangkok. All information related to the COMREL Project will be forwarded to the contractor directly from the USDAO by fax or email. (All questions regarding COMREL projects will be entertained by the USDAO). Responses related to inquiries for COMREL projects, official visits and courtesy calls will be answered by separate correspondence by the USDAO.

1.4.2 As required, the contractor shall provide "Military Personnel Assistance". This support requires the contractor to transport, escort and assist military or civilian personnel in obtaining a (2" X 2" Matte finish) Passport picture, American passport and Air Ticket before existing Thailand. The individual supporting this function must speak and read English to access the JUSMAGTHAI compound "Joint Administration Office" and American Embassy in Bangkok. Assistance will be required to meet personnel at the airport if coming from Phuket or to transport personnel from Pattaya if ship is in port there. The charges for ground transportation shall be consistent with the hourly rates in the contract. Procedures are provided, see Attachment 3. The service member will be responsible for his/her own food and lodging expenses.

1.5. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.5.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be from approved sources and must be in accordance with Quality Assurance Provisions in Attachment 9. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.5.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Singapore Contracting Officer within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.5.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Corps. A listing of approved sources is available via the U.S. Army Veterinary Command (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided per Attachment 10. The U.S. Army Veterinary Command requires 90 days advance notice to arrange for inspection of new facilities.

1.5.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.5.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2 Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW OF CONTRACT Section, Paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

6.8. The Contractor shall not charge more than what the Thai Government charges per gallon.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

The Contractor shall arrange for landlines to be installed for Beach Guard. The installation charges shall be inclusive of all costs for installatoin and deactivation of landlines and for unlimited usage for local calls.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide

mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE – (CLIN XX09) – The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) : The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must coordinate all aspects of FP planning and services with U.S.Navy FP officials, NCIS, Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent – (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may be required to provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Perimeter (CLIN XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Perimeter (FPM) to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The size of the perimeter will depend on the class of ship. Pierside, the FPM should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the perimeter will be positioned as far as possible from the ship. At anchorage, the FPM will be positioned 330 feet (100 meters) outside the swing radius of the ship.

12.5.3. There are two types of FPMs:

12.5.3.1. Continuous Line FPM: (CLIN XX12AC)

12.5.3.1.1. The FPM must fully enclose ships at dockside or at anchorage. The perimeter will have an Entry Control Point (ECP) where the perimeter may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the perimeter at the ECP.

12.5.3.1.2. Specifications:

12.5.3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20 mm) with at least one connectable ECP for access.

12.5.3.1.2.2. Floatation devices positioned every meter on the line. Sufficient to keep line afloat and visible on the surface of the water.

12.5.3.1.2.3. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

12.5.3.1.2.4. Weights positioned at intervals along the line to anchor the line to the seabed and stablize the perimter. The number of weights, size and intervals will be

determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

12.5.3.2. **RESERVED** - Floating Buoy System (FBS) (CLIN XX12AD)

12.5.3.2.1. The Contractor shall provide a FBS per the specifications provide below:

12.5.3.2.1.1. The Contractor shall provide a Floating Buoy System (FBS) to identify a restricted area around ships. The purpose of the FBS is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The picket boats will patrol outside of this visual reference. The FBS shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the FBS at all times.

12.5.3.2.1.2 Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

12.6. Perimeter Fencing – (CLIN XX12AE)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material:	Chain link of aluminium or other durable metallic material
Height:	Minimum height of 2.5 meters (7 feet)
Base:	Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point:	Entry available for vehicles and personnel.

12.7. Physical Security Barriers – (CLIN XX12AF, XX12AG and XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used, as well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

The Contractor shall comply with Attachment 4 for picket boat operations.

12.8.3. The Contractor shall provide a translator fluent in both English and Thai to translate for the driver of the picket boat at all times. The translator shall provide all communication between the ship personnel and the picket boat driver.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting – (CLIN XX12AL)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guard Services – (CLIN XX12AM, XX12AN and XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats/security boats and at pierside/liberty area to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guard (XX12AM, XX12AN and XX12AP) shall be armed.

12.12. Two Way Radios (CLIN XX12AQ): The Contractor shall provide two way radio sets capable of communicating with the ship, picket boat and to the shore patrol/liberty area with designated individuals.

12.13. X-Ray Machine Airport Type with Operators (CLIN XX12AR): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.14. Walk-Thru Metal Detector (CLIN XX12AS): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.15. Hand Held Wand Metal Detector (CLIN XX12AT): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. RESERVED - FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board (F.O.B.) the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS – (CLIN XX16)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. RESERVED - MATERIAL HANDLING (CLIN XX19)

20. RESERVED - MISCELLANEOUS (CLIN XX20)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a floatation device at the top, a skirt below, a tension device and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. RESERVED - PAINT FLOAT (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED - PRATIQUE (CLIN XX26

27. RESERVED - REEFER CONTAINER (CLIN XX27)

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED - SHORE STEAM (CLIN XX29)

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (XX35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship’s departure.

35.2. QUARTERLY REPORT (XX35AB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in U.S. dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed againt this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether prepriced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services:

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship’s laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: The Contractor shall provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services: The U.S. Navy has an information, tickets and tours (ITT) contractor specifically for the purpose of providing visiting military personnel with opportunities to book hotel rooms, tour packages and distributing information about local places of interest. Any action on the part of the Husbanding Contractor to offer information or to sell or book recreational, off-duty activities or hotel rooms would be considered interference with the ITT contractor’s functions and is prohibited under this contract. Neither the contractor nor any of its subcontractors at any tier shall advertise or offer such opportunities to the crew members of the vessel serviced by the Contractor. Questions and requests for such information and opportunities shall be referred to the ITT contractor.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.2.13.4 Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.2.13.5 The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.2.13.6 Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.2.13.7 The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Det Singapore Contracting Office who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, Overview, paragraph 14, Standards for Professional Services; sub-paragraph 14.1.

1.4 GENERAL ASSISTANCE

1.4.1 The Contractor shall coordinate, assist with supplies and provide logistical support for Community Relations (COMREL) Projects as identified by the United States Defense Attache Office (USDAO) Bangkok. All information related to the COMREL Project will be forwarded to the contractor directly from the USDAO by fax

or email. (All questions regarding COMREL projects will be entertained by the USDAO). Responses related to inquiries for COMREL projects, official visits and courtesy calls will be answered by separate correspondence by the USDAO.

1.4.2 As required, the contractor shall provide "Military Personnel Assistance". This support requires the contractor to transport, escort and assist military or civilian personnel in obtaining a (2" X 2" Matte finish) Passport picture, American passport and Air Ticket before existing Thailand. The individual supporting this function must speak and read English to access the JUSMAGTHAI compound "Joint Administration Office" and American Embassy in Bangkok. Assistance will be required to meet personnel at the airport if coming from Phuket or to transport personnel from Pattaya if ship is in port there. The charges for ground transportation shall be consistent with the hourly rates in the contract. Procedures are provided, see Attachment 3. The service member will be responsible for his/her own food and lodging expenses.

1.5. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.5.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be from approved sources and must be in accordance with Quality Assurance Provisions in Attachment 9. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.5.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Singapore Contracting Officer within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.5.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Corps. A listing of approved sources is available via the U.S. Army Veterinary Command (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided per Attachment 10. The U.S. Army Veterinary Command requires 90 days advance notice to arrange for inspection of new facilities.

1.5.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.5.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2 Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW OF CONTRACT Section, Paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

6.8. The Contractor shall not charge more than what the Thai Government charges per gallon.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

The Contractor shall arrange for landlines to be installed for Beach Guard. The installation charges shall be inclusive of all costs for installatoin and deactivation of landlines and for unlimited usage for local calls.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE – (CLIN XX09) – The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) : The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must coordinate all aspects of FP planning and services with U.S.Navy FP officials, NCIS, Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent – (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may be required to provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Perimeter (CLIN XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Perimeter (FPM) to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The size of the perimeter will depend on the class of ship. Pierside, the FPM should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the perimeter will be positioned as far as possible from the ship. At anchorage, the FPM will be positioned 330 feet (100 meters) outside the swing radius of the ship.

12.5.3. There are two types of FPMs:

12.5.3.1. Continuous Line FPM: (CLIN XX12AC)

12.5.3.1.1. The FPM must fully enclose ships at dockside or at anchorage. The perimeter will have an Entry Control Point (ECP) where the perimeter may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the perimeter at the ECP.

12.5.3.1.2. Specifications:

12.5.3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20 mm) with at least one connectable ECP for access.

12.5.3.1.2.2. Floatation devices positioned every meter on the line. Sufficient to keep line afloat and visible on the surface of the water.

12.5.3.1.2.3. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

12.5.3.1.2.4. Weights positioned at intervals along the line to anchor the line to the seabed and stablize the perimter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

12.5.3.2. **RESERVED** - Floating Buoy System (FBS) (CLIN XX12AD)

12.5.3.2.1. The Contractor shall provide a FBS per the specifications provide below:

12.5.3.2.1.1. The Contractor shall provide a Floating Buoy System (FBS) to identify a restricted area around ships. The purpose of the FBS is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The picket boats will patrol outside of this visual reference. The FBS shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the FBS at all times.

12.5.3.2.1.2 Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

12.6. Perimeter Fencing – (CLIN XX12AE)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material:	Chain link of aluminium or other durable metallic material
Height:	Minimum height of 2.5 meters (7 feet)
Base:	Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point:	Entry available for vehicles and personnel.

12.7. Physical Security Barriers – (CLIN XX12AF, XX12AG and XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft

shipping containers may also be used, as well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

The Contractor shall comply with Attachment 4 for picket boat operations.

12.8.3. The Contractor shall provide a translator fluent in both English and Thai to translate for the driver of the picket boat at all times. The translator shall provide all communication between the ship personnel and the picket boat driver.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting – (CLIN XX12AL)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guard Services – (CLIN XX12AM, XX12AN and XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats/security boats and at pierside/liberty area to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guard (XX12AM, XX12AN and XX12AP) shall be armed.

12.12. Two Way Radios (CLIN XX12AQ): The Contractor shall provide two way radio sets capable of communicating with the ship, picket boat and to the shore patrol/liberty area with designated individuals.

12.13. X-Ray Machine Airport Type with Operators (CLIN XX12AR): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.14. Walk-Thru Metal Detector (CLIN XX12AS): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.15. Hand Held Wand Metal Detector (CLIN XX12AT): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. RESERVED - FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board (F.O.B.) the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS – (CLIN XX16)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. RESERVED - MATERIAL HANDLING (CLIN XX19)

20. RESERVED - MISCELLANEOUS (CLIN XX20)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a floatation device at the top, a skirt below, a tension device and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. RESERVED - PAINT FLOAT (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED - PRATIQUE (CLIN XX26

27. RESERVED - REEFER CONTAINER (CLIN XX27)

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED - SHORE STEAM (CLIN XX29)

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (XX35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship’s departure.

35.2. QUARTERLY REPORT (XX35AB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in U.S. dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed againt this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

36. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 3) (CLIN XX36)

36.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

36.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

36.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

36.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

36.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

36.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
36.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
36.5.3. current innoculation records
36.5.4. possess a valid up-to-date passport.

37.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor team shall consist of a minimum of two personnel per location that the OOTW and/or Exercise/ Logistic Support is being conducted. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

38.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

39.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

37. OOTW COST REPORT (CLIN XX37)

37.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

37.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure

(End of Summary of Changes)

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether prepriced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services:

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship’s laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: The Contractor shall provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services: The U.S. Navy has an information, tickets and tours (ITT) contractor specifically for the purpose of providing visiting military personnel with opportunities to book hotel rooms, tour packages and distributing information about local places of interest. Any action on the part of the Husbanding Contractor to offer information or to sell or book recreational, off-duty activities or hotel rooms would be considered interference with the ITT contractor’s functions and is prohibited under this contract. Neither the contractor nor any of its subcontractors at any tier shall advertise or offer such opportunities to the crew members of the vessel serviced by the Contractor. Questions and requests for such information and opportunities shall be referred to the ITT contractor.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.2.13.4 Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.2.13.5 The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.2.13.6 Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.2.13.7 The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship’s Supply Officer and courtesy copy to FISC Det Singapore Contracting Office who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer’s or Contracting Officer’s order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship’s departure from the visited port. The Contractor’s responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, Overview, paragraph 14, Standards for Professional Services; sub-paragraph 14.1.

1.4 GENERAL ASSISTANCE

1.4.1 The Contractor shall coordinate, assist with supplies and provide logistical support for Community Relations (COMREL) Projects as identified by the United States Defense Attache Office (USDAO) Bangkok. All information related to the COMREL Project will be forwarded to the contractor directly from the USDAO by fax

or email. (All questions regarding COMREL projects will be entertained by the USDAO). Responses related to inquiries for COMREL projects, official visits and courtesy calls will be answered by separate correspondence by the USDAO.

1.4.2 As required, the contractor shall provide "Military Personnel Assistance". This support requires the contractor to transport, escort and assist military or civilian personnel in obtaining a (2" X 2" Matte finish) Passport picture, American passport and Air Ticket before existing Thailand. The individual supporting this function must speak and read English to access the JUSMAGTHAI compound "Joint Administration Office" and American Embassy in Bangkok. Assistance will be required to meet personnel at the airport if coming from Phuket or to transport personnel from Pattaya if ship is in port there. The charges for ground transportation shall be consistent with the hourly rates in the contract. Procedures are provided, see Attachment 3. The service member will be responsible for his/her own food and lodging expenses.

1.5. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.5.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be from approved sources and must be in accordance with Quality Assurance Provisions in Attachment 9. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.5.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Singapore Contracting Officer within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.5.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Corps. A listing of approved sources is available via the U.S. Army Veterinary Command (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided per Attachment 10. The U.S. Army Veterinary Command requires 90 days advance notice to arrange for inspection of new facilities.

1.5.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.5.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2 Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW OF CONTRACT Section, Paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

6.8. The Contractor shall not charge more than what the Thai Government charges per gallon.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

The Contractor shall arrange for landlines to be installed for Beach Guard. The installation charges shall be inclusive of all costs for installatoin and deactivation of landlines and for unlimited usage for local calls.

8. **CRANE** (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. **DOCKAGE AND WHARFAGE FEE** – (CLIN XX09) – The Contractor shall provide pier and wharf usage.

10. **FENDERS** (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. **FLEET LANDING** (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. **FORCE PROTECTION** (CLIN XX12)

12.1. **General**: (CLINs XX01 & XX02) : The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must coordinate all aspects of FP planning and services with U.S.Navy FP officials, NCIS, Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent – (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may be required to provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Perimeter (CLIN XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Perimeter (FPM) to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The size of the perimeter will depend on the class of ship. Pierside, the FPM should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the perimeter will be positioned as far as possible from the ship. At anchorage, the FPM will be positioned 330 feet (100 meters) outside the swing radius of the ship.

12.5.3. There are two types of FPMs:

12.5.3.1. Continuous Line FPM: (CLIN XX12AC)

12.5.3.1.1. The FPM must fully enclose ships at dockside or at anchorage. The perimeter will have an Entry Control Point (ECP) where the perimeter may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the perimeter at the ECP.

12.5.3.1.2. Specifications:

12.5.3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20 mm) with at least one connectable ECP for access.

12.5.3.1.2.2. Floatation devices positioned every meter on the line. Sufficient to keep line afloat and visible on the surface of the water.

12.5.3.1.2.3. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

12.5.3.1.2.4. Weights positioned at intervals along the line to anchor the line to the seabed and stablize the perimter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

12.5.3.2. **RESERVED** - Floating Buoy System (FBS) (CLIN XX12AD)

12.5.3.2.1. The Contractor shall provide a FBS per the specifications provide below:

12.5.3.2.1.1. The Contractor shall provide a Floating Buoy System (FBS) to identify a restricted area around ships. The purpose of the FBS is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The picket boats will patrol outside of this visual reference. The FBS shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the FBS at all times.

12.5.3.2.1.2 Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

12.6. Perimeter Fencing – (CLIN XX12AE)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material:	Chain link of aluminium or other durable metallic material
Height:	Minimum height of 2.5 meters (7 feet)
Base:	Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point:	Entry available for vehicles and personnel.

12.7. Physical Security Barriers – (CLIN XX12AF, XX12AG and XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft

shipping containers may also be used, as well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

The Contractor shall comply with Attachment 4 for picket boat operations.

12.8.3. The Contractor shall provide a translator fluent in both English and Thai to translate for the driver of the picket boat at all times. The translator shall provide all communication between the ship personnel and the picket boat driver.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting – (CLIN XX12AL)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guard Services – (CLIN XX12AM, XX12AN and XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats/security boats and at pierside/liberty area to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guard (XX12AM, XX12AN and XX12AP) shall be armed.

12.12. Two Way Radios (CLIN XX12AQ): The Contractor shall provide two way radio sets capable of communicating with the ship, picket boat and to the shore patrol/liberty area with designated individuals.

12.13. X-Ray Machine Airport Type with Operators (CLIN XX12AR): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.14. Walk-Thru Metal Detector (CLIN XX12AS): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.15. Hand Held Wand Metal Detector (CLIN XX12AT): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. RESERVED - FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board (F.O.B.) the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS – (CLIN XX16)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. RESERVED - MATERIAL HANDLING (CLIN XX19)

20. RESERVED - MISCELLANEOUS (CLIN XX20)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a floatation device at the top, a skirt below, a tension device and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. RESERVED - PAINT FLOAT (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED - PRATIQUE (CLIN XX26

27. RESERVED - REEFER CONTAINER (CLIN XX27)

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED - SHORE STEAM (CLIN XX29)

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (XX35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship’s departure.

35.2. QUARTERLY REPORT (XX35AB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in U.S. dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed againt this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

36. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 3) (CLIN XX36)

36.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

36.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

36.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

36.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

36.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

36.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
36.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
36.5.3. current innoculation records
36.5.4. possess a valid up-to-date passport.

36.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The POC or his representative is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

36.8 If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. The Contractor may be required to support multiple operations at the same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.9. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

37. OOTW COST REPORT (CLIN XX37)

37.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

37.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure

ATTACHMENT 11
FLOATING LINE OF DEMARCATION SPECIFICATIONS (CLIN XX12)

The following are Floating Line of Demarcation (FLD) Specifications used for this contract:

1. The Contractor shall provide a FLD to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. The FLD is to help identify a safe standoff zone.

2. The size of the FLD will depend on the class of ship. Pier side, the FLD should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the FLD will be positioned as far as possible from the ship. At anchorage, the FLD will be positioned 330 feet (100 meters) outside the swing radius of the ship.

3. There are two types of FLDs that are currently authorized.

    3.1. Continuous Line FLD - If allowed by the Port, the Contractor shall provide a Continuous Line FLD per the specifications listed below.

        3.1.1. The FLD must fully enclose ships at dockside or at anchorage. The FLD will have an Entry Control Point (ECP) where the FLD may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the FLD at the ECP.

        3.1.2. Specifications:

            3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable ECP for access.Floatation devices positioned every meter on the line.

            3.1.2.2. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

            3.1.2.3. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the FLD. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the FLD intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

    3.2. Buoy System FLD - This is an acceptable alternative to the Continous Line FLD requirement. Some Ports may require the buoys to be temporarily moved and replaced if a commercial ship requires the water space.

        3.2.1. The Contractor shall provide a Buoy System FLD per the specifications provided below.

3.2.2. The Contractor shall provide a Buoy System FLD to identify a restricted area around ships. The purpose of the Bouy System FLD is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The Picket Boats will patrol outside of this visual reference. The Buoy System FLD shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the Buoy System FLD at all times.

3.2.3. Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

OVERVIEW SECTION III

OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to husband U.S. Navy ships visiting Pattaya/Sattahip (Chuk Samet/Mahidol/Tung Prong/Leam Chabang) and Phuket in Thailand.

2. SCOPE

2.1. This contract is for Husbanding Services (HS). It is to provide services and supplies requested by the ships while in port.

2.2. The contract may be subdivided into Lots. Lots may be for individual Ports or they may include several Ports under one Lot. For this contract there are two Lots. Lot 1 is for the ports in Pattaya/Sattahip (Chuk Samet/Mahidol/Tung Prong/Leam Chabang) and Lot 2 is for the port in Phuket, Thailand.

2.3. The individual HS items provided under this contract are listed in Exhibit A, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.4. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to Husbanding of the ship in port.

2.5. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for one base year and four option periods of one year each. The base year starts on 01 March 2006 and ends on 28 Feb 2007. The Option Year dates are listed in The Schedule. Additionally, the government may extend the contract for up to six months duration. Thus the total contract could be for a maximum 66 months.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 3.

5.2. Optional Users - The following types of U.S.ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.

- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of ten (10) ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. RESERVED.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calender days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be $1,300 ($300+$900+$100) for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officier, Ordering Officer and/or AGR as unncessary; and shall continue to provide only those services specifically authorized by the Contracting/Ordering Officer via verbal and/or written modification of the delivery order (CHT, trash removal, potable water etc).

11. RESERVED - SHIPYARDS

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and are for items such as vehicles and phones.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command

duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. COOPERATION - The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED - GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM)

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in United States Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of all costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. Local Government taxes and Value Added Taxes (VAT) are included in the unit cost when applicable.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs) Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and/or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a water barge at 1300 hrs, the barge arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

DY Day
EA Each
FPD Force Protection Detachment (U.S. Embassy, Thailand)
GL Gallon (3.785 Liters)
HR Hour
JB Job
LO Lot
NSP Not Separately Priced
PT Port Tariff
TP Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- DELIVERY ORDER (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Car and/or truck tires are not to be used as Fenders or Camels.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax (Value Added Tax) is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

§ Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

§ Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPARATELY PRICED (NSP): Item that is not separately priced. Cost of the item should be factored into the Management Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- TASK ORDER (T.O.): A task order is an order for services placed againt an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual: Leonard G. Francis

Title of Individual: Managing Director

Mailing Address: Glenn Defense Marine (Asia) Pte Ltd
Glenn Building, 404 Telok Blangah Road
Singapore 098840

Tel No. (Work) (65) 62727937

Fax No. (Work) (65) 62729481

Mobile: (65) 97983155/97983163

E-mail address: leonard@glennmarinegroup.com

STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether prepriced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services:

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: The Contractor shall provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services: The U.S. Navy has an information, tickets and tours (ITT) contractor specifically for the purpose of providing visiting military personnel with opportunities to book hotel rooms, tour packages and distributing information about local places of interest. Any action on the part of the Husbanding Contractor to offer information or to sell or book recreational, off-duty activities or hotel rooms would be considered interference with the ITT contractor's functions and is prohibited under this contract. Neither the contractor nor any of its subcontractors at any tier shall advertise or offer such opportunities to the crew members of the vessel serviced by the Contractor. Questions and requests for such information and opportunities shall be referred to the ITT contractor.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.2.13.4 Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for

services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.2.13.5 The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.2.13.6 Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.2.13.7 The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Det Singapore Contracting Office who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, Overview, paragraph 14, Standards for Professional Services; sub-paragraph 14.1.

1.4 GENERAL ASSISTANCE

1.4.1 The Contractor shall coordinate, assist with supplies and provide logistical support for Community Relations (COMREL) Projects as identified by the United States Defense Attache Office (USDAO) Bangkok. All information related to the COMREL Project will be forwarded to the contractor directly from the USDAO by fax or email. (All questions regarding COMREL projects will be entertained by the USDAO). Responses related to inquiries for COMREL projects, official visits and courtesy calls will be answered by separate correspondence by the USDAO.

1.4.2 As required, the contractor shall provide "Military Personnel Assistance". This support requires the contractor to transport, escort and assist military or civilian personnel in obtaining a (2" X 2" Matte finish) Passport picture, American passport and Air Ticket before existing Thailand. The individual supporting this function must speak and read English to access the JUSMAGTHAI compound "Joint Administration Office" and American

Embassy in Bangkok. Assistance will be required to meet personnel at the airport if coming from Phuket or to transport personnel from Pattaya if ship is in port there. The charges for ground transportation shall be consistent with the hourly rates in the contract. Procedures are provided, see Attachment 3. The service member will be responsible for his/her own food and lodging expenses.

1.5. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.5.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be from approved sources and must be in accordance with Quality Assurance Provisions in Attachment 9. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.5.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Singapore Contracting Officer within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.5.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Corps. A listing of approved sources is available via the U.S. Army Veterinary Command (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided per Attachment 10. The U.S. Army Veterinary Command requires 90 days advance notice to arrange for inspection of new facilities.

1.5.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.5.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2 Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW OF CONTRACT Section, Paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

6.8. The Contractor shall not charge more than what the Thai Government charges per gallon.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

The Contractor shall arrange for landlines to be installed for Beach Guard. The installation charges shall be inclusive of all costs for installatoin and deactivation of landlines and for unlimited usage for local calls.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE – (CLIN XX09) – The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines. Any additional fenders that may be required to provide additional protection during other than calm seas are separately priced.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) : The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must coordinate all aspects of FP planning and services with U.S.Navy FP officials, NCIS, Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state “Restricted Area & Do Not Enter”
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent – (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may be required to provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Perimeter (CLIN XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Perimeter (FPM) to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The size of the perimeter will depend on the class of ship. Pierside, the FPM should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the perimeter will be positioned as far as possible from the ship. At anchorage, the FPM will be positioned 330 feet (100 meters) outside the swing radius of the ship.

12.5.3. There are two types of FPMs:

12.5.3.1. Continuous Line FPM: (CLIN XX12AC)

12.5.3.1.1. The FPM must fully enclose ships at dockside or at anchorage. The perimeter will have an Entry Control Point (ECP) where the perimeter may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the perimeter at the ECP.

12.5.3.1.2. Specifications:

12.5.3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20 mm) with at least one connectable ECP for access.

12.5.3.1.2.2. Floatation devices positioned every meter on the line. Sufficient to keep line afloat and visible on the surface of the water.

12.5.3.1.2.3. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

12.5.3.1.2.4. Weights positioned at intervals along the line to anchor the line to the seabed and stablize the perimter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

12.5.3.2. **RESERVED** - Floating Buoy System (FBS) (CLIN XX12AD)

12.5.3.2.1. The Contractor shall provide a FBS per the specifications provide below:

12.5.3.2.1.1. The Contractor shall provide a Floating Buoy System (FBS) to identify a restricted area around ships. The purpose of the FBS is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The picket boats will patrol outside of this visual reference. The FBS shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the FBS at all times.

12.5.3.2.1.2 Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

12.6. Perimeter Fencing – (CLIN XX12AE)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material:	Chain link of aluminium or other durable metallic material
Height:	Minimum height of 2.5 meters (7 feet)
Base:	Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point:	Entry available for vehicles and personnel.

12.7. Physical Security Barriers – (CLIN XX12AF, XX12AG and XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used, as well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

The Contractor shall comply with Attachment 4 for picket boat operations.

12.8.3. The Contractor shall provide a translator fluent in both English and Thai to translate for the driver of the picket boat at all times. The translator shall provide all communication between the ship personnel and the picket boat driver.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting – (CLIN XX12AL)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guard Services – (CLIN XX12AM, XX12AN and XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats/security boats and at pierside/liberty area to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guard (XX12AM, XX12AN and XX12AP) shall be armed.

12.12. Two Way Radios (CLIN XX12AQ): The Contractor shall provide two way radio sets capable of communicating with the ship, picket boat and to the shore patrol/liberty area with designated individuals.

12.13. X-Ray Machine Airport Type with Operators (CLIN XX12AR): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.14. Walk-Thru Metal Detector (CLIN XX12AS): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

12.15. Hand Held Wand Metal Detector (CLIN XX12AT): This item will be provided free of charge by the Force Protection Detachment (FPD) from the U.S. Embassy, Thailand.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. RESERVED - FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board (F.O.B.) the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS – (CLIN XX16)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. RESERVED - MATERIAL HANDLING (CLIN XX19)

20. RESERVED - MISCELLANEOUS (CLIN XX20)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a floatation device at the top, a skirt below, a tension device and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. RESERVED - PAINT FLOAT (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED - PRATIQUE (CLIN XX26

27. RESERVED - REEFER CONTAINER (CLIN XX27)

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED - SHORE STEAM (CLIN XX29)

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (XX35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship’s departure.

35.2. QUARTERLY REPORT (XX35AB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in U.S. dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed againt this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

36. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 3) (CLIN XX36)

36.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

36.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

36.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

36.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

36.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

36.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
36.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
36.5.3. current innoculation records
36.5.4. possess a valid up-to-date passport.

36.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The POC or his representative is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

36.8 If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. The Contractor may be required to support multiple operations at the same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.9. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

37. OOTW COST REPORT (CLIN XX37)

37.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

37.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) - ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) Ordering Items on Contract. Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are:

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any NRCC Singapore warranted KO or their authorized representative.
- SUBGROUP SEVEN Authorized Ordering Officers

(c) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(d) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(e) Ordering Non-Contract Items (NCI)

(1) NCIs may be requested using standard procurement procedures. Once requested, the contractor will assist in obtaining the item.

(2) The Contractor shall provide a separate invoice for all Non-Contract Items with supporting documentation to the ship SUPPO for payment in accordance with standard procurement procedures.

(3) If payment is to be made by NRCC Singapore on behalf of the procuring vessel, the Contractor shall obtain all required documentation from the ship in order for payment to be effected.

(f) Short Notice Orders. Occasionally, there may be short notice orders of less than 48 hours, which the contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

(g) Substitutions. Substitution of ordered CLINs shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20-pax bus was ordered, but was not available and substituted with two 10-pax vans. The Contractor will only be able to charge for one 20 pax bus not two 10 pax vans

(h) Cancellation Of Orders (NRCC SINGAPORE) (MAR 2003)

(1) Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled "Termination for the Government's Convenience (FAR 52.212-4) Addendum (Feb 2002)", as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

(2) In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government's Convenience clause as stated above.

(3) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(i) Invoices And Payments (NRCC SINGAPORE) (MAR 2003)

(1) Payment will be made by the ship prior to departure from the port.

(2) If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Office, U.S. Naval Regional Contracting Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury Check.

(3) It is the Contractor's responsibility to provide documents with all required information. Payment will only be made after delivery and acceptance of services.

(4) The Contractor must accept the U.S. Government Commercial Purchase Card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is Mastercard.

(j) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(k) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(l) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(m) Contract Type (NRCC SINGAPORE) (MAR 2003). The resulting contract will be a Fixed Price Requirements contract.

(n) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(o) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(p) Option To Extend The Term Of The Contract (FAR 52.217-9) (MAR 2000)

(1) The Government may extend the term of this contract by written notice to the Contractor within 15 days prior to the expiration of the current performance period of the contract; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least sixty (60) days before the contract expires. The preliminary notice does not commit the Government to an extension.

(2) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(3) The total duration of this contract, including the exercise of any options under this clause, shall not exceed sixty-six (66) months.

(q) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(r) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(s) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(t) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(u) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address:	U.S. Fleet and Industrial Supply Center, Det Singapore PSA Sembawang Terminal Deptford Road, Building 7-4, Unit 2-9 Singapore 759657
Military Address:	PSC 470, Box 2100 FPO AP 96534-2100
FAX Numbers:	(65)-6-750-2639 or 2382

(v) Provision for Wood Products (NRCC SINGAPORE) (MAR 2003) - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material

(1) Definition. 'Pinewood nematode' as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(w) Freedom of Information Act (FOIA) (U.S. CODE/552) (NRCC SINGAPORE) (MAR 2003) – Contract prices may be released under a FOIA request.

(End of Summary of Changes)

OVERVIEW
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services U.S. Navy ships visiting Bangladesh.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in the port of Chittagong.

2.2. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.3. The Contractor is required, when requested, to assist the ship in obtaining additional items the vessel may require while in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for four months. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is ten months (10) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of 2 ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. RESERVED - MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and Management fees will be based on the total fee for the pair of boats. Attachment 2 provides details.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. RESERVED - SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The

contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs) Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start

pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

APPROX	Approximately
AMPS	Amperes
CU	Cubic
DY	Day
EA	Each
FT	Foot
GL	Gallon (3.785 Liters)
HR	Hour
IDD	International Direct Dialing
ITT	Information, Tickets and Tours
JB	Job
KG	Kilogram
LB	Pound
LO	Lot
M	Meter
MIN	Minimum
MT	Metric Ton
NCIS	Naval Criminal Investigative Services
NSP	Not Separately Priced
PAX	Passenger
PK	Packet
PR	Pair
PT	Port Tariff
QTY	Quantity
BN	Bangladesh Navy
SVCS	Services
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Car and/or truck tires are not to be used as Fenders or Camels.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not seperately priced. Cost of the item should be factored into the Mangement Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs,

security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual: LEONARD G. FRANCIS
Title of Individual: MANAGING DIRECTOR

Mailing Address: GLENN DEFENSE MARINE (ASIA) PTE. LTD.
GLENN BLDG, 404 TELOK BLANGAH ROAD
SINGAPORE 098840

Tel No. (Work): +65 62727937
Fax No. (Work): +65 62729481
Mobile phone: +65 97983155 / +6597983163

E-mail address: leonard@glennmarinegroup.com

Section C - Descriptions and Specifications

STATEMENT OF WORK
SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The Contractor shall furnish to each ship a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the Contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1. The Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available forthe ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: The Contractor shall provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. RESERVED - Moral Welfare and Recreation (MWR) Services:

The Contractor shall refer all inquiries about tours, travel, recreation or entertainment to the NRCC Singapore Morale, Welfare & Recreation (MWR) Office or designated ITT contractor. Only MWR may sell, offer to sell, or collect a fee for booking or providing accommodations, tours, travel, recreation or entertainment to the ship's crew.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall facilitate the ship's timely departure.

1.2.12.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.12.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.12.3. The Contractor shall remove all provided equipment.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to

allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The Contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. RESERVED - The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and pre-paid cards for hand phones.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. RESERVED - DOCKAGE AND WHARFAGE FEE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The Contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The Contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC DET SINGAPORE KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at FISC DET SINGAPORE and COMLOGWESTPAC. Once a decision is made then the Contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of five (5) people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The Contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO_2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED - Floating Line of Demarcation (CLIN XX12AC - AE)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 4.

12.6. Perimeter Fencing (CLIN XX12AF)

12.6.1. The Contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point: Entry available for vehicles and personnel.

12.7. RESERVED – (CLIN XX12AG, XX12AH, XX12AJ, XX12AK - Physical Security Barriers)

12.8. Picket Boats (CLIN XX12AL)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations.

12.9. Portable Latrine (CLIN XX12AM)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AN)

12.10.1 The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Armed and Unarmed Security Guard Services (CLIN XX12AP, XX12AQ)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pier side to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.14. Two Way Radios (CLIN XX12AR) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

12.15. Handheld Wand Metal Detectors (CLINXX12AS) The Contractor shall provide handheld metal detectors capable of detecting metal.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS Contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC DET

SINGAPORE and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.5. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 6 – Fuel Specifications.

14.6 The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.7. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.8 The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.9. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. LINESBOATS (CLIN XX16) The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED - MANLIFT (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. If an operator is not provided, the Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19) LIGHTERAGE (CLIN XX19AJ)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. Material Handling

19.5.1. Packages under 150 lbs (68.18 KG) will normally be priority airmailed via a government contract called WWX utilizing FEDEX, UPS, or DHL companies. The WWX contractor will bring the package into the country, clear customs, and deliver to the HS Contractor. The package might also be sent by regular airmail or by ship whereby the Contractor will have to clear the package through customs.

19.5.2. Packages over 150 lbs (68.18 KG) up to 20 tons will be sent via any commercial means but not by WWX. The Contractor will have to clear the package through customs.

19.5.3. The Contractor shall receive the package from the carrier and clear it through customs if other than WWX. Any damages must be noted prior to acceptance.

19.5.4. The Contractor shall store the package so that it will not be damaged.

19.5.5. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

19.5.6. The Contractor shall deliver the package to the ship after arrival in port.

19.5.7. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

20. MISCELLANEOUS (CLIN XX20)

20.1. TOILET CLEANING (CLIN XX20AA)

20.1.1. The Contractor shall provide toilet cleaning three times daily at Clifford Pier.

20.1.2. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

20.2. INTERPRETER SERVICES – (CLIN XX20AB)

20.2.1. The Contractor shall arrange for interpreter/translator services.

21. RESERVED - OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The Contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste Barges / Trucks when necessary, in accordance with Force protection or other requirements.

23. RESERVED - PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED - PRATIQUE (CLIN XX26) The Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

27. RESERVED - REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide diesel generators with fuel along side the ship to supply shore power to the vessel. Generators shall emit sound levels of less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED - SHORE STEAM (CLIN XX29) - The Contractor shall provide Shore Steam to the ship.

30. RESERVED - STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC DET SINGAPORE LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (CLIN XX 35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the FISC DET SINGAPORE Contracting Officer or designated representative within five working days of each ship's departure.

35.2. QUARTERLY REPORT (CLIN XXAB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in the currency of the contract, and in U.S. Dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed against this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

CLAUSES INCORPORATED BY REFERENCE

52.212-4	Contract Terms and Conditions--Commercial Items	SEP 2005
52.252-2	Clauses Incorporated By Reference	FEB 1998

CLAUSES INCORPORATED BY FULL TEXT

52.212-4 CONTRACT TERMS AND CONDITIONS-- COMMERCIAL ITEMS (SEP 2005)

(a) Inspection/Acceptance. The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Assignment. The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(c) Changes. Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(d) Disputes. This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) Definitions. The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) Excusable delays. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement or any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(g) Invoice. (1) The Contractor shall submit an original invoice and three copies (or electronic invoice, if authorized) to the address designated in the contract to receive invoices. An invoice must include--

(i) Name and address of the Contractor;

(ii) Invoice date and number;

(iii) Contract number, contract line item number and, if applicable, the order number;

(iv) Description, quantity, unit of measure, unit price and extended price of the items delivered;

(v) Shipping number and date of shipment, including the bill of lading number and weight of shipment if shipped on Government bill of lading;

(vi) Terms of any discount for prompt payment offered;

(vii) Name and address of official to whom payment is to be sent;

(viii) Name, title, and phone number of person to notify in event of defective invoice; and

(ix) Taxpayer Identification Number (TIN). The Contractor shall include its TIN on the invoice only if required elsewhere in this contract.

(x) Electronic funds transfer (EFT) banking information.

(A) The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g., 52.232-33, Payment by Electronic Funds Transfer--Central Contractor Registration, or 52.232-34, Payment by Electronic
Funds Transfer--Other Than Central Contractor Registration), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(2) Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR part 1315.

(h) Patent indemnity. The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) Payment.--

(1) Items accepted. Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.

(2) Prompt payment. The Government will make payment in accordance with the Prompt Payment Act (31 U.S.C. 3903) and prompt payment regulations at 5 CFR part 1315.

(3) Electronic Funds Transfer (EFT). If the Government makes payment by EFT, see 52.212-5(b) for the appropriate EFT clause.

(4) Discount. In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date which appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(5) Overpayments. If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall immediately notify the Contracting Officer and request instructions for disposition of the overpayment.

(j) Risk of loss. Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon:

(1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or

(2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) Taxes. The contract price includes all applicable Federal, State, and local taxes and duties.

(l) Termination for the Government's convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) Title. Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(p) Limitation of liability. Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) Other compliances. The Contractor shall comply with all applicable Federal, State and local laws, executive orders, rules and regulations applicable to its performance under this contract.

(r) Compliance with laws unique to Government contracts. The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 18 U.S.C. 431 relating to officials not to benefit; 40 U.S.C. 3701, et seq., Contract Work Hours and Safety Standards Act; 41 U.S.C. 51-58, Anti-Kickback Act of 1986; 41 U.S.C. 265 and 10 U.S.C. 2409 relating to whistleblower protections; 49 U.S.C. 40118, Fly American; and 41 U.S.C. 423 relating to procurement integrity.

(s) Order of precedence. Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order: (1) the schedule of supplies/services; (2) the Assignments, Disputes, Payments, Invoice, Other Compliances, and Compliance with Laws Unique to Government Contracts paragraphs of this clause; (3) the

clause at 52.212-5; (4) addenda to this solicitation or contract, including any license agreements for computer software; (5) solicitation provisions if this is a solicitation; (6) other paragraphs of this clause; (7) the Standard Form 1449; (8) other documents, exhibits, and attachments; and (9) the specification.

(t) Central Contractor Registration (CCR). (1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at http://www.ccr.gov or by calling 1-888-227-2423 or 269-961-5757.

(End of clause)

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) - ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(c) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(d) Cancellation Of Orders

(1) Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled "Termination for the Government's Convenience", as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

(2) In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government's Convenience clause as stated above.

(3) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(e) Invoices And Payments

(1) Payment will be made by the ship prior to departure from the port.

(2) If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Office, FISC DETACHMENT SINGAPORE, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury Check.

(3) It is the Contractor's responsibility to provide documents with all required information. Payment will only be made after delivery and acceptance of services.

(f) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(g) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(h) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(i) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(j) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(k) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(l) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(m) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(n) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(o) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(p) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address:	FISC DETACHMENT SINGAPORE PSA Sembawang Terminal Deptford Road, Building 7-4, Unit 2-9 Singapore 759657
Military Address:	PSC 470, Box 2150 FPO AP 96534-2150
FAX Numbers:	(65)-6-750-2639 or 2382

(q) Provision for Wood Products - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material

(1) Definition. ‘Pinewood nematode’ as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(r) Freedom of Information Act (FOIA) (U.S. CODE/552) – Contract prices may be released under a FOIA request.

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (FEB 2006)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

(1) 52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

(2) 52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Pub. L. 108-77, 108-78).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

___ (1) 52.203-6, Restrictions on Subcontractor Sales to the Government (JUL 1995), with Alternate I (OCT 1995) (41 U.S.C. 253g and 10 U.S.C. 2402).

___ (ii) Alternate I (AUG 2000) of 52.223-9 (42 U.S.C. 6962(i)(2)(c)).

___ (23) 52.225-1, Buy American Act--Supplies (JUNE 2003) (41 U.S.C. 10a-10d).

___ (24)(i) 52.225-3, Buy American Act--Free Trade Agreements--Israeli Trade Act (JAN 2006) (41 U.S.C. 10a-10d, 19 U.S.C. 3301 note, 19 U.S.C. 2112 note, Pub. L. 108-77, 108-78, 108-286).

___ (ii) Alternate I (JAN 2004) of 52.225-3.

___ (iii) Alternate II (JAN 2004) of 52.225-3.

___ (25) 52.225-5, Trade Agreements (JAN 2006) (19 U.S.C. 2501, et seq., 19 U.S.C. 3301 note).

___ (26) 52.225-13, Restrictions on Certain Foreign Purchases (FEB 2006) (E.O.s, proclamations, and statutes administered by the Office of Foreign Assets Control of the Department of Treasury).

___ (27) 52.225-15, Sanctioned European Union Country End Products (FEB 2000) (E.O. 12849).

___ (28) 52.225-16, Sanctioned European Union Country Services (FEB 2000) (E.O. 12849).

___ (29) 52.232-29, Terms for Financing of Purchases of Commercial Items (FEB 2002) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).

____ (30) 52.232-30, Installment Payments for Commercial Items (OCT 1995) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).

____ (31) 52.232-33, Payment by Electronic Funds Transfer--Central Contractor Registration (OCT 2003) (31 U.S.C. 3332).

____ (32) 52.232-34, Payment by Electronic Funds Transfer--Other than Central Contractor Registration (MAY 1999) (31 U.S.C. 3332).

____ (33) 52.232-36, Payment by Third Party (MAY 1999) (31 U.S.C. 3332).

____ (34) 52.239-1, Privacy or Security Safeguards (AUG 1996) (5 U.S.C. 552a).

____ (35)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631).

____ (ii) Alternate I (APR 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: [Contracting Officer check as appropriate.]

____ (1) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005) (41 U.S.C. 351, et seq.).
____ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act--Price Adjustment (Multiple Year and Option Contracts) (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act--Price Adjustment (February 2002) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (5) 52.222-47, SCA Minimum Wages and Fringe Benefits Applicable to Successor Contract Pursuant to Predecessor Contractor Collective Bargaining Agreements (CBA) (May 1989) (41 U.S.C. 351, et seq.).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vi) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (April 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (December 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

(vi) 52.222-41, Service Contract Act of 1965, as Amended (Jul 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (FEB 2006) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (MAR 2006)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

____ 52.203-3 Gratuities (APR 1984) (10 U.S.C. 2207). X

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

____252.205-7000 Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).

____252.219-7003 Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan (DoD Contracts) (APR 1996) (15 U.S.C. 637).

____ 252.219-7004 Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan (Test Program) (JUN 1997) (15 U.S.C. 637 note).

____ 252.225-7001 Buy American Act and Balance of Payments Program (JUN 2005) (41 U.S.C. 10a-10d, E.O. 10582).).

____ 252.225-7012 Preference for Certain Domestic Commodities (JUN 2004) (10 U.S.C. 2533a).

____ 252.225-7014 Preference for Domestic Specialty Metals (JUN 2005) (10 U.S.C. 2533a).

____ 252.225-7015 Restriction on Acquisition of Hand or Measuring Tools (JUN 2005) (10 U.S.C. 2533a).

____ 252.225-7016 Restriction on Acquisition of Ball and Roller Bearings (MAR 2006) (Section 8065 of Public Law 107-117 and the same restriction in subsequent DoD appropriations acts).

____ 252.225-7021 Trade Agreements (FEB 2006) (19 U.S.C. 2501-2518 and 19 U.S.C. 3301 note).

____ 252.225-7027 Restriction on Contingent Fees for Foreign Military Sales (APR 2003) (22 U.S.C. 2779).

____ 252.225-7028 Exclusionary Policies and Practices of Foreign Governments (APR 2003) (22 U.S.C. 2755).

____ 252.225-7036 Buy American Act--Free Trade Agreements--Balance of Payments Program (JUN 2005) (---- -- Alternate I) (JAN 2005) (41 U.S.C. 10a-10d and 19 U.S.C. 3301 note).

____ 252.225-7038 Restriction on Acquisition of Air Circuit Breakers (JUN 2005) (10 U.S.C. 2534(a)(3)).

_____ 252.226-7001 Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns (SEP 2004) (Section 8021 of Public Law 107-248 and similar sections in subsequent DoD appropriations acts).

____ 252.227-7015 Technical Data--Commercial Items (NOV 1995) (10 U.S.C. 2320).

____ 252.227-7037 Validation of Restrictive Markings on Technical Data (SEP 1999) (10 U.S.C. 2321).

____ 252.232-7003 Electronic Submission of Payment Requests (JAN 2004) (10 U.S.C. 2227).

_____ 252.237-7019 Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).

____ 252.243-7002 Requests for Equitable Adjustment (MAR 1998) (10 U.S.C. 2410). X

____ 252.247-7023 Transportation of Supplies by Sea (MAY 2002) (_____Alternate I) (MAR 2000) (_____Alternate II) (MAR 2000) (____Alternate III (May 2002).

____252.247-7024 Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (Federal Acquisition Regulation 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014 Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).

252.237-7019 Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).

252.247-7023 Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

252.247-7024 Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

Section J - List of Documents, Exhibits and Other Attachments

Exhibit/Attachment Table of Contents

DOCUMENT TYPE	DESCRIPTION	PAGES	DATE
Exhibit A	Schedule of Supplies/Services	3	12-Jun-2006
Exhibit B	Port Tariff	1	12-Jun-2006
Exhibit C	CRAFT Report	3	12-Jun-2006

ATTACHMENT 1

REFUSE SERVICE DEFINITIONS

The following are Refuse Definitions used for this contract:

(A) **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

(B) **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

(C) **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

(D) "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

(E) "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

(F) "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

(G) "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

(H) "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

CVN 68-77	39 (11.9)	1,092 (332)	134 (41)	102,000	6,275

1. The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

2. Displacement is expressed in tons and represents fully loaded displacement.

3. The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

4. There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

ATTAHMENT 3

FLOATING LINE OF DEMARCATION SPECIFICATIONS

The following are Floating Line of Demarcation (FLD) Specifications used for this contract:

1. The Contractor shall provide a Floating Perimeter (FPM) to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. The FPM is to help identify a safe standoff zone.

2. The size of the perimeter will depend on the class of ship. Pier side, the perimeter should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the perimeter will be positioned as far as possible from the ship. At anchorage, the perimeter will be positioned 330 feet (100 meters) outside the swing radius of the ship.

3. There are two types of FPMs that are currently authorized.

3.1. Continuous Line FPM - If allowed by the Port, the Contractor shall provide a Continuous Line FPM per the specifications listed below.

3.1.2. The FPM must fully enclose ships at dockside or at anchorage. The perimeter will have an Entry Control Point (ECP) where the perimeter may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the perimeter at the ECP.

3.1.3. Specifications:

3.1.3.1. Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable ECP for access.

1. Floatation devices positioned every meter on the line.

3.1.3.3. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

3.1.3.4. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the perimeter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be

sufficient to keep the perimeter intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

3.2. Floating Buoy System (FBS) - This is an acceptable alternative to the FPM requirement. Some Ports may require the buoys to be temporarily moved and replaced if a commercial ship requires the water space.

3.2.1. The Contractor shall provide a FBS per the specifications provided below.

3.2.2. The Contractor shall provide a Floating Buoy System (FBS) to identify a restricted area around ships. The purpose of the FBS is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The Picket Boats will patrol outside of this visual reference. The FBS shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the FBS at all times.

3.2.3. Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

ATTACHMENT 4

PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

1. The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

2. The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

3. Ships at anchorage will normally require two Picket Boats.

4. The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

5. The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

6. The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

7. The Picket Boat will meet the following requirements:

7.1. Licensed for commercial operations by local country Department of Transportation.

7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

7.11.4. Portable Spotlight

ATTACHMENT 5
SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

1.2. Security guards may be provided through private security firms or through local police officials.

1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside: (CLIN XX12AQ)

2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.6. The following equipment will be required as a minimum for each guard:

2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.5.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.6. Flashlight for nighttime inspections.

2.6.7. Any locally required equipment to perform their job.

2.7. ROEs Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

2.7.1.2 If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats: (CLIN XX12AP)

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN

XX12AL. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

3.8.1.2. If the first warning is ignored, the security guard will immediately notify the ship of the threat.

3.8.1.3. The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

3.8.1.4. As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

ATTACHMENT 6

The following are the Fuel Specifications for this contract:

SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of visible particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/

Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium Vanadium	 1.0 0.5 1.0 0.5	D 3605 9/
Additive Names and Dosages	Record	

1/ If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2/ The demulsification text shall be conducted in accordance with the following exceptions:

(a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

(b) The test temperature shall be 25ºC.

(c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3/ As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4/ The flash point value is the absolute and no value less than 60ºC is permissible.

5/ A one-liter minimum sample shall be used.

6/ ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7/ When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8/ Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9/ Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST	METHOD	REQUIREMENTS
1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min
5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)
7. Viscosity @ 40ºC	ASTM D 455	1.7 - 4.5 CST
8. Color	ASTM D 1500	3 max
9. Gravity	ASTM D 1298, D 287	Record
10. Carbon Residue	ASTM D 524	0.35% max
11. Ash	ASTM D 482	0.01% max
12. Sulfur	ASTM D 129, D 1552 D2622	1.00% max
13. Copper Corrosion	ASTM D 130	3 max

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

	TEST REQUIREMENTS	METHOD	
1.	Cetane Number	ASTM D 613	42 min
	or		
	Cetane Index	ASTM D 976	43 min
	NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338^{O}C.		
2.	Appearance @ 21^{O}C or ambient temp. (whichever higher)	Visual	Clear & Bright
	or		
	Water & Sediment	ASTM D 2709	0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357^{O}C max.
4.	Flash Point	ASTM D 93	60^{O}C min
	NOTE: The flash point value is absolute and no value less than 60^{O}C is permissible.		
5.	Cloud Point	ASTM D 2500	-1.1^{O}C (30^{O}F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40^{O}C	ASTM D 445	1.7 - 4.5 cst
7.	Color	ASTM D 1500	3 max.
	NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted <u>if</u> red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.		
8.	Density @ 15^{O}C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524	0.35 mass % max.
		ASTM D 189	
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294,	1.0 mass % max.
		ASTM D 1552, or ASTM D 2622	
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	**GRADE RMB-10 (IFO 60)**	**GRADE RME-25 (IFO-180)**	**GRADE RMG-35 (IFO 380)**	**TEST METHOD**

Density @15°C, kg/m^3, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

ATTACHMENT 7
POTABLE WATER SPECIFICATIONS

The following are Potable Water specifications used for this contract.

NATIONAL PRIMARY DRINKING WATER REGULATIONS (NPDWR) BUREAU OF MEDICINE AND SURGERY (BUMED) TREATED WATER QUALITY STANDARDS /ENVIRONMENTAL PROTECTION AGENCY

CONTAMINANT	MCLG (mg/L) 1	MCL (mg/L)	AL (mg/L 2)

FLUORIDE	4	4	

(1) Maximum contaminant level goal (MCLG). The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are no enforceable health goals.
(2) Action level (AL). Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.
(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the “90th percentile” copper level is greater that 1.3 mg/L).
(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the “90th percentile” lead level is greater than 0.015 mg/L).

Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

Legionella	0	TT3
Total Coliforms (including fecal coliform and E. Coli)	zero	5.0%4
Turbidity	n/a	TT3
Viruses (enteric)	zero	TT3

Note:
1 Definitions:
Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to MCLGs as feasible using the best available treatment technology and taking cost into consideration. MCLs are enforceable standards.
Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety and are non-enforceable public health goals.
Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
Treatment Technique - A required process intended to reduce the level of a contaminant in drinking water.
2 Units are in milligrams per liter (mg/L) unless otherwise noted. Milligrams per liter are equivalent to parts per million.
3 EPA's surface water treatment rules require systems using surface water or ground water under the direct influence of surface water to (1) disinfect their water, and (2) filter their water or meet criteria for avoiding filtration so that the following contaminants are controlled at the following levels:

- Cryptosporidium: (as of January 1, 2002) 99% removal/inactivation
- Giardia lamblia: 99.9% removal/inactivation
- Viruses: 99.99% removal/inactivation
- Legionella: No limit, but EPA believes that if Giardia and viruses are removed/inactivated, Legionella will also be controlled.
- Turbidity: At no time can turbidity (cloudiness of water) go above 5 nephelolometric turbidity units (NTU); systems that filter must ensure that the turbidity go no higher than 1 NTU (0.5 NTU for conventional or direct filtration) in at least 95% of the daily samples in any month. As of January 1, 2002, turbidity may never exceed 1 NTU, and must not exceed 0.3 NTU in 95% of daily samples in any month.
- HPC: No more than 500 bacterial colonies per milliliter.

4 No more than 5.0% samples total coliform-positive in a month. (For water systems that collect fewer than 40 routine samples per month, no more than one sample can be total coliform-positive). Every sample that has total coliforms must be analyzed for fecal coliforms. There may not be any fecal coliforms or E. coli.
5 Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Disease-causing microbes (pathogens) in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. These pathogens may pose a special health risk for infants, young children, and people with severely compromised immune systems.

Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites which are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Sampling requirements for the Navy public water system apply.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Auto analysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the Multiple-Tube Fermentation (MTF) Technique; and the Membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use applies.

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, unless the Contracting Officer on a case-by-case basis waives this requirement.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the Contracting Officer may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before.

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms, or E. coli testing on total coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements which apply when a sample is fecal coliform-positive.

Turbidity: The MCL for turbidity applies to both community water systems and non community water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at Contracting Officer option).

b. Five turbidity units (maximum) average for 2 consecutive days.

The MCL for Radiological Contaminants are:

Gross alpha particle activity including radium 226 but excluding radon and uranium . . . . . 15 pCi/L

Beta particles and photon emitters ……4 millirems / year

Combined radium 226 and radium 228 . . . . . .5 pCi/L

Tritium . . . . . 20,000 pCi/L

Strontium-90. . . . . 8 pCi/L

Uranium …….. 30ug/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

National Secondary Drinking Water Regulations (NSDWR) The Secondary Maximum Contaminant Levels (MCLs)

CONTAMINANT	MCL (mg/L)
ALUMINUM	0.05 TO 0.02
CHLORIDE	250
COLOR	15 COLOR UNITS
COPPER	1
CORROSIVITY	NONCORROSIVE
FLUORIDE	2
FOAMING AGENTS	0.5
IRON	0.3
MANGANESE	0.05
ODOR	3 THRESHOLD ODOR NUMBER
PH	6.5 - 8.5
SILVER	0.10
SULFATE	250
TOTAL DISSOLVED SOLIDS (TDS)	500
ZINC	5

Note: The contaminants covered by this regulation are those that may adversely affect the aesthetic quality of the drinking water. These secondary levels represent goals for drinking water quality but are not Federally enforceable.

(3) The reception, handling, storage, and delivery of potable water to ship's water systems shall be carried out under completely sanitary conditions.

(4) For pierside berthing, delivery shall be made by hose from the pier whenever possible. If barge service is deemed necessary, the Contractor shall ascertain from the ship's Supply Officer the exact amount needed prior to making delivery.

(5) The Contractor shall make deliveries during normal working hours, unless otherwise approved by the ship's Supply Officer or his/her authorized representative.

(6) All equipment, trucks and barges used by the Contractor in performance of these services shall be subject to inspection and test by an authorized representative of the U.S. Government as the Contracting Officer may specify. Final inspection/acceptance shall be subject to approval by the ship's Chief Engineer or his/her authorized representative. The U.S. Government inspectors shall be entitled to inspect the equipment, trucks, and barges at all reasonable times, as often as they may deem necessary, and at such reasonable place or places as the U.S. Government may specify.

(7) The Contractor shall, without cost to the U.S. Government, furnish the necessary personnel and facilities to conduct such test and examination of samples of water and barges used hereunder as the Government inspector may designate, to determine the extent or possibility of contamination of such water, equipment, and barges. The Contractor may, at its option and cost, have the tests conducted by a recognized Sanitary Inspector provided that the performance of the tests and examinations by such Sanitary Inspection has been approved in advance and in writing by the U.S. Government Inspector.

(8) All tests and examinations, whether performed by or on behalf of the Contractor, shall be conducted in the presence of the U.S. Government Inspector.

(9) The Contractor agrees to furnish such reports and execute such forms as the U.S. Government may require in connection with services performed under this contract and further agrees that requests for such reports and execution of such forms will be executed promptly.

ATTACHMENT 8
WATER TAXI SPECIFICATIONS

The following are Water Taxi specifications used for this contract.

1. **Compliance** - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2**. Quality of Equipment** - All equipment provided must be in sound mechanical condition, free of rust, meet all safety standards required by local law and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3**. Quality of Services** - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. **Inspection and Acceptance** - The Contractor shall pre-inspect the boats he provides using the specifications set forth below and provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the Contracting Officer (KO). The KO will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the KO shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor and report the discrepancy to the ship's Supply Officer and the NRCC KO, and by message info COMLOG WESTPAC and the operational chain of command up to and including COMPACFLT. The specifications are as follows:

4.1. Boats furnished under this contract shall be watertight, strong, seaworthy, in sound mechanical condition, free of debris, and properly fitted for the safe and efficient transport of passengers. Maintenance, safety, and other periodic inspections shall be performed as required by local laws and regulations.

4.2. The following shall be readily available for inspection, in English:

4.2.1. Current operator's/captain's license and qualifications.
4.2.2. Current local Government inspection.

4.3. The following shall be conspicuously posted/stenciled/labeled, in English:

4.3.1. Passenger/weight capacity.
4.3.2. Location and number of life jackets.
4.3.3. Location of life saving equipment.
4.3.4. Location of exits (if not obvious).
4.3.5. Emergency Procedures

4.4. Material condition of vessel:

4.4.1. Satisfactory structural and watertight integrity.
4.4.2. Railings, guardrails and lifelines effective and soundly attached to the hull.
4.4.3. Seating properly attached.
4.4.4. Satisfactory provision for drainage of water over the side **(**may not be applicable to all boat sizes and designs (e.g., speedboats)**)**.
ii. Adequate number of and unobstructed locations for access/egress points, with suitable and accessible handrails.
iii. All material effectively stowed. Free of potential flight hazard (missile hazards), gear adrift and trip hazards.

4.5. Machinery:

4.5.1. Main propulsion and pertinent auxiliary machinery/equipment essential to boat operation in satisfactory condition and operational..
4.5.2. Sea and bilge suction valves working (if installed).
4.5.3. Bilge plug installed (if applicable to particular boat design).
4.5.4. Bilge and suction strainers/dewatering equipment test satisfactorily (if appropriate for particular boat design).
4.5.5. Steering apparatus operational.
4.5.6. Bilges free of flammable liquids.

4.6. Electrical:

4.6.1. Cables and wiring in satisfactory condition, free of crimping and no exposed bare wires and connections.
4.6.2. Navigation lights operational.
4.6.3. Deck lights operate (if appropriate for particular boat design).
4.6.4. All lighting and electrical fixtures properly mounted and connected.
4.6.5. Emergency lighting appropriate to boat's size and design is readily available and functions properly. (hand held battery powered light may be adequate).
4.6.6. Rotating electrical machinery in satisfactory condition and working order (if applicable).
4.6.7. Storage batteries properly vented, securely strapped and properly connected.

4.7. Lifesaving equipment:

4.7.1. Life preservers/jackets
4.7.1.1. Sufficient number for maximum passenger capacity plus crew.
4.7.1.2 Stowed in accessible and identifiable locations.
4.7.2. First aid kit(s) readily identifiable (minimum of one per boat)
4.7.3. Life rings with automatically activated distress light -
4.7.3.1 Readily deployable.
4.7.3.2 Sufficient number for size of boat (minimum of one per boat).
4.7.4. Distress signaling device (portable air horn, flares, etc.)

4.8. Firefighting equipment:

4.8.1. Portable fire extinguishers -
4.8.1.1 Properly charged.
4.8.1.2 Accessibly mounted.
4.8.1.3 Sufficient number for size and configuration of vessel (minimum one located near engine compartment and at least one extinguisher for each passenger area).

4.8.2. Installed systems in operational.

4.9. Operator qualifications:

4.9.1. Boat operators shall have all certifications required and issued by the local Government for the operation of the type, class, or size of boat being operated by such personnel.
4.9.I.2. Boat operators shall have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

4.10. Operational requirements:

4.10.1. Operation of the boat will be in a safe and seaworthy manner and shall be manned by a crew of no less than two persons at all times.
4.10.2. Consumption or sale of alcoholic beverages will not be permitted board the boat.

4.11. Miscellaneous:

4.11.1. Anchor and rope/chain sufficient for size of vessel.
4.11.2. Low visibility signaling device (whistle/bell/horn) operational
4.11.3. Area charts (where available) and either a lighted compass and/or a boat compass with sufficient portable lighting available.
4.11.4. Two-way radio capable of bridge-to-bridge communications plus a battery back-up.
4.11.5. Access to a safe shore landing (as determined by the KO, Technical, and/or the ship's Commanding Officer) is available for loading and unloading of passengers.
4.11.6. Hand held battery powered emergency lighting.

4.12. Optional equipment as required:

4.12.1. By local law, port specific, and/or environmental.
4.12.2. Operational Radar.

4.13. Contractor reports: The Contractor shall provide the Commanding Officer of serviced ship a copy of the most recent contract specifications and Contracting Officer's inspection.

4.14. Commanding Officer's Authority/Right Of Refusal

4.14.1. Boats offered for service to ships on pre-approved lists will have been inspected as part of the contracting process. However, the condition of the offered boat may change after the inspection. Therefore, pre-approval notwithstanding, the final decision to use a boat rests with the ship's Commanding Officer.

4.14.2. The Commanding Officer, or his designated representative, will inspect all boats prior to accepting them for service and daily thereafter. If the boat's condition is not in accordance with the requirements of the contract, the ship's Commanding Officer, or his designated representative, may reject the boat.

4.14.3. In the event an item of critical safety equipment listed above is missing from the boat offered for service, the ship's Commanding Officer, or his designated representative, will have the option of either furnishing the missing item(s), with adequate consideration, or rejecting the boat.

5. **Onboard Security**: During the term of this contract, the ship to be serviced agrees to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and other personnel who may be transported. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

6. **Boat Capacity**: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

7. **Inspection/Acceptance:** Each boat to be used in the performance of this contract shall be inspected by the Contracting Officer and/or an authorized Government Inspection Team prior to acceptance. The inspector(s) will use the guidelines set forth in the provision entitled "Inspection and Acceptance" (subsection 4). Notwithstanding the above inspection requirements, the Commanding Officer or his designated representative shall make an initial inspection in all cases to ensure boats meet contract specifications. Failure to meet applicable requirements will be reported in accordance with subsection (4) above. Additionally, at least daily thereafter, a representative designated by the Commanding Officer will inspect the boats being utilized to ensure their safety.

8. **Deficient Boat** - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price.

9. **Government Furnished Property** - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the KO should be notified immediately of the circumstances surrounding the deficiency so that appropriate action, which could include an adjustment in contract price, can be taken. If the KO is not on site, notification will be sent by message.

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nyssns01069289

1. The purpose of this modification is to add Class IA - III management fees/modify Fender language in Overview Section of the above-numbered contract.

a. The attached revised Exhibit A incorporates the changes and estimated amount in management fees totalling $6,300.00. The estimated total of the contract, inclusive of port tariffs, is increased from $39,465.00 to a new estimated total of $ 45,765.00.

b. Under Section B, Supplies or Services and Prices, Overview, the following sub-paragraph is deleted:

FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Car and/or truck tires are not to be used as Fenders or Camels. See replaced paragraph highlighted in yellow under that section.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) (b)(6), (b)(7)(C) CONTRACTING OFFICER TEL: (b)(6), (b)(7)(C)

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by $6,300.00 from $39,465.00 to $45,765.00.

SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0001

The unit price amount has increased by $6,300.00 from $39,465.00 to $45,765.00.
The total cost of this line item has increased by $6,300.00 from $39,465.00 to $45,765.00.

The following have been modified:

OVERVIEW

OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services U.S. Navy ships visiting Bangladesh.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in the port of Chittagong.

2.2. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.3. The Contractor is required, when requested, to assist the ship in obtaining additional items the vessel may require while in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for four months. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is ten months (10) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of 2 ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. RESERVED - MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and Management fees will be based on the total fee for the pair of boats. Attachment 2 provides details.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. RESERVED - SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs) Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

APPROX	Approximately
AMPS	Amperes
CU	Cubic
DY	Day
EA	Each
FT	Foot
GL	Gallon (3.785 Liters)
HR	Hour
IDD	International Direct Dialing
ITT	Information, Tickets and Tours
JB	Job
KG	Kilogram
LB	Pound
LO	Lot
M	Meter
MIN	Minimum
MT	Metric Ton
NCIS	Naval Criminal Investigative Services
NSP	Not Separately Priced
PAX	Passenger
PK	Packet
PR	Pair
PT	Port Tariff
QTY	Quantity
BN	Bangladesh Navy
SVCS	Services
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Car and/or truck tires are not to be used as Fenders or Camels.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not seperately priced. Cost of the item should be factored into the Mangement Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS
Title of Individual:	MANAGING DIRECTOR
Mailing Address:	GLENN DEFENSE MARINE (ASIA) PTE. LTD. GLENN BLDG, 404 TELOK BLANGAH ROAD SINGAPORE 098840

OVERVIEW SECTION III
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services U.S. Navy ships visiting Maldives.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in the port of Maldives.

2.2. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.3. The Contractor is required, when requested, to assist the ship in obtaining additional items the vessel may require while in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for six months. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. RESERVED - MULTIPLE SHIP VISITS

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. RESERVED

10. RESERVED

11. RESERVED - SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

14.6. The Contractor shall cooperate in the reporting and investigation of any environmental or health incident connected with the services provided under the contract.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. COOPERATION - The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. CONTRACTOR PROVIDED EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs) Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

DY	Day
EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
JB	Job
LO	Lot
NSP	Not Separately Priced
PT	Port Tariff
TP	Trip

21. ORDERING ITEMS ON CONTRACT

21.1. Authorized Ordering. Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are;

Warranted ship Supply Officers (SUPPOs) of the ship visiting the port.
FISC Det Singapore Logistics Support Center (LSC) personnel authorized to issue Logistics Requirements (LOGREQs)
Any FISC Det Singapore warranted Contracting Officer.

21.2. Written Orders. All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155. Orders should be given as soon as possible but no later than 48 hours prior to ship arrival.

21.3. Oral Orders. AGR oral orders are authorized for less than $100,000.00. Written confirmation of the oral order must be provided to the Contractor within ten (10) working days.

21.4. LOGREQ Orders. Issuance of a LOGREQ shall constitute placement of an order. The AGR will need to confirm the LOGREQ order with a Task or Delivery Order prior to invoicing.

21.5. Short Notice Orders. Occasionally, there may be short notice orders of less than 24 hours which the Contractor should support if possible. If the Contractor cannot support these requirements then AGR may solicit other companies to perform the work.

21.6. Method of Ordering. Orders may be issued by phone, facsimile or by E-mail.

22. ORDERING NON-CONTRACT ITEMS

22.1. Non-Contract items may be requested using standard procurement procedures. Once requested, the contractor will assist in obtaining the item.

22.2. The contractor will provide a separate invoice for all Non-Contract Items with supporting documentation to the ship SUPPO for payment.

23. CANCELLATIONS

23.1. Orders may be cancelled orally or in writing. Oral cancellations will be followed-up with a written confirmation to the Contactor within ten (10) working days.

23.2. An order may be cancelled 24 hours before the start of the service or delivery of the supply item and the government will not be liable for any charges. For an order not cancelled at least twenty-four (24) hours in advance, the AGR is responsible for cancellation costs to be negotiated under the “Termination for the Government’s Convenience” (FAR 52.212-4 (1)) section included in this contract. In all cases, the HS contractor is responsible for mitigating any damage or termination costs incurred because of the cancellation.

23.3. In extreme cases where an order was cancelled 24 hours in advance but the contractor incurred costs because the item had to be ordered early due to a long lead time, then the Contractor may request reimbursement of those costs. This will also be negotiated under the FAR 52.212-4 (1) clause.

24. PAYMENTS

24.1. The ship SUPPO or Disbursing Officer will pay all bills prior to ship departure with the exceptions listed below.

24.2. The Contractor shall prepare the invoice with supporting documentation for contract items and present it to the ship SUPPO with sufficient time prior to departure to allow payment. The Contractor will estimate usage for PT or To Be Determined (TBD) items if not known. The ship will pay the invoice using a U.S. Treasury check, cash, or credit card.

24.3. Credit Cards - The contractor must accept the U.S. Government Commercial Purchase Card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPR is MasterCard.

24.4. In some cases, such as where the ship had to depart early or bills came in after the ship departed, NRCC Singapore will pay unpaid invoices (for U.S. Navy ships only). However, it is the Contractor’s responsibility to

ensure that the proper information is on the invoice and supporting documentation is provided. The Contractor must contact the ship to get missing information.

25. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Car and/or truck tires are not to be used as Fenders or Camels.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not separately priced. Cost of the item should be factored into the Management Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

- TRIP – From one point to another and back (round trip)

26. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual: LEONARD G. FRANCIS

Title of Individual: MANAGING DIRECTOR

Mailing Address: GLENN BLDG, NO. 404 TELOK BLANGAH ROAD

SINGAPORE 098840

Tel No. (Work) (65) 6272-7937
Fax No. (Work) (65) 6272-9481
Mobile: (65) 97983155/97983163
E-mail address: Leonard@glennmarinegroup.com

CLAUSES INCORPORATED BY FULL TEXT

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1 Arrange for laundry and dry cleaning services for the ship. Service will be available for the ship’s laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2 Provide assistance in resolving vendor billing discrepancies.

1.2.8. Interpreter Services: Provide interpreter services using personnel fluent in both the local language and English.

1.2.9. Mail Delivery Services: Provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. The Contractor shall refer all inquiries about tours, travel, recreation or entertainment to the NRCC Singapore Morale, Welfare & Recreation (MWR) Office or designated ITT contractor. Only MWR may sell, offer to sell, or collect a fee for booking or providing accommodations, tours, travel, recreation or entertainment to the ship's crew.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS contractor.

1.2.12. The Contractor shall facilitate the ship's timely departure.

1.2.12.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.12.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.12.3. The Contractor shall remove all provided equipment.

1.2.13. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.14. Invoicing. The Contractor shall meet the following invoicing objectives:

1.2.14.1 Provide accurate invoices of delivered supplies and services rendered to the ship. Invoices shall be submitted to ship's SUPPO no later than 24 hours prior to the ship's departure.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. RESERVED (BROW) (CLIN XX04)

5. RESERVED (CAMELS) (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. The Contractor shall pre-position CHT barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

7.4 The Contractor shall arrange for landlines to be installed for Beach Guard. The installation charges shall be inclusive of all costs for installation and deactivation of landlines and for unlimited usage for local calls.

8. RESERVED (CRANE) (CLIN XX08)

9. RESERVED (DOCKAGE AND WHARFAGE FEE) (CLIN XX09)

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB and CLIN XX12AC)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED (FLOATING PERIMETER) (CLIN XX12AD and CLIN XX12AE)

12.6. Physical Security Barriers – (CLIN XX12AF)

12.6.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.6.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.6.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.6.4. A personnel entry point must be established through the barriers.

12.6.5. Barriers may also be used to seal off secondary Port gates.

12.6.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points

12.7. Picket Boats (CLIN XX12AG)

12.7.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.7.2. The Contractor shall comply with Attachment 3 for picket boat operations.

12.7.3. Provide a translator fluent in English to translate for the driver of the picket boat at all times. The translator shall provide all communication between the ship personnel and the picket boat driver.

12.8. Armed and Unarmed Security Guard Services (CLIN XX12AH and XX12AJ)

12.8.1. The Contractor shall provide security guards to patrol in picket boats and at pier side to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.8.2. The Contractor shall comply with Attachment 4 for security guard operations.

12.8. Two Way Radios (CLIN XX12AK) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol/liberty area with designated individuals.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.5. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 5 – Fuel Specifications.

14.6 The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.7. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.8 The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.9. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED – (LINESBOATS) (CLIN XX16)

17. RESERVED - (LINE HANDLERS) (CLIN XX17)

18. RESERVED – (MANLIFT) (CLIN XX18)

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

20. CARGO LIGHTERAGE (CLIN XX20). The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

21. OIL BOOMS (CLIN XX21)

21.1. Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste Barges / Trucks when necessary, in accordance with Force protection or other requirements.

23. RESERVED – (PAINT FLOAT) (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 6.

26. RESERVED – (PRATIQUE) (CLIN XX26)

27. RESERVED – (REEFER CONTAINER) (CLIN XX27)

28. RESERVED – (SHORE POWER) (CLIN XX28)

29. RESERVED – (SHORE STEAM) (CLIN XX29)

30. RESERVED – (STEVEDORES) (CLIN XX30)

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 7.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. REPORTS (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the FISC Det Singapore Contracting Officer within five working days of each ship's departure.

52.212-5	Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items	SEP 2005
252.212-7001	Contract Terms and Conditions Required to Implement Statutes or Executive Orders Applicable to Defense Acquisitions of Commercial Items	SEP 2005

CLAUSES INCORPORATED BY FULL TEXT

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) - ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) Ordering Items on Contract. Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are:

- Warrented ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Det Singapore warranted KO or their authorized representative.

(c) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(d) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;

(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(e) Cancellation Of Orders

(1) Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled "Termination for the Government's Convenience", as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

(2) In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government's Convenience clause as stated above.

(3) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(f) Substitutions. Substitution of ordered CLINs shall not be allowed unless authorzed and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20-pax bus was ordered, but was not available and substituted with two 10-pax vans. The Contractor will only be able to charge for one 20 pax bus not two 10 pax vans.

(g) Invoices And Payments

(1) Payment will be made by the ship prior to departure from the port.

(2) If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Office, U.S. Naval Regional Contracting Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury Check.

(3) It is the Contractor's responsibility to provide documents with all required information. Payment will only be made after delivery and acceptance of services.

(4) The Contractor must accept the U.S. Government commercial Purchase Card (GCPC). It will be up to the AGR to decide what payment method they use. Currently, the U.S. Navy GCPC is Mastercard.

(h) Payment by Third Party (FAR 52.232.36) (MAY 1999) - This clause is incorporated by reference.

(i) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(j) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount.* The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(k) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(l) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(m) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(n) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(o) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(p) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(q) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(r) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address: U.S. Naval Regional Contracting Center
PSA Sembawang Terminal
Deptford Road, Building 7-4, Unit 2-9
Singapore 759657

Military Address: PSC 470, Box 2100
FPO AP 96534-2100

FAX Numbers: (65)-6-750-2639 or 2382

(s) Provision for Wood Products - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material

(1) Definition. 'Pinewood nematode' as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(t) Ordering Non-Contract Items (NCI)

(1) NCIs may be requested using standard procurement procedures. Once requested, the contractor will assist in obtaining the item.

(2) The Contractor shall provide a separate invoice for all Non-Contract Items with supporting documentation to the ship SUPPO for payment in accordance with standard procurement procedures.

(3) If payment is to be made by NRCC Singapore on behalf of the procuring vessel, the Contractor shall obtain all required documentation from the ship in order for payment to be effected.

(u) Freedom of Information Act (FOIA) (U.S. CODE/552) Contract prices may be released under a FOIA request.

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Apr 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) In addition to the clauses listed in paragraph (b) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5 (JUL 2005) (DEVIATION), the Contractor shall include the terms of the following clause, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014	Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).
252.232-7019	Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).
252.247-7023	Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631)
252.247-7024	Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

EVALUATION-COMMERCIAL ITEMS (JAN 1999) (FAR 52.212-2) (TAILORED)

(a) Evaluation Factor: The Government will award a contract resulting from this solicitation to the lowest price offeror.

(b) Complete Proposal Determination. The Government will first determine if a proposal is complete and has met all submittal requirements. An offer is complete when it manifests the offeror's assent, to comply with the terms and conditions of the solicitation including attachments. If an offeror takes exception to the terms and conditions, then the Government may consider its offer to be unacceptable. The Government reserves the right to change the terms and conditions of the solicitation by amendment any time prior to contract award.

(c) Proposal Evaluation. Offerors proposals will be evaluated as follows:

(1) Price Evaluation:

a. The Government will evaluate the proposal price to determine that it is fair and reasonable. The Government should be provided the best price available.

b. The Offeror is responsible for submitting correct prices. Government provided spreadsheets with calculation formulas are for information purposes only. They may be used by the Offeror but at their risk. The Offeror must ensure that calculations and totals are correct before submittal.

c. The Government may determine that an offer is unacceptable if:
(i) any CLIN or SUBCLIN extended line item price is not included in the proposal.
(ii) any individual item prices are significantly unbalanced.

d. The Contracting Officer shall calculate any Port Tariff, TBD or other controlled price line items and add the estimated total to the contract award price. Offerors will not be evaluated on these prices.

(d) Award. A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party.

ATTACHMENT 1

REFUSE SERVICE DEFINITIONS

The following are Refuse Definitions used for this contract:

- **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

- **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

- **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

- "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

- "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

- "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

- "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

- "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

ATTACHMENT 2

SHIP CLASSIFICATIONS (DESCRIPTION OF U.S. NAVY SHIPS BY CLASS AND TYPE)

The following are Ship Classifications used for this contract.

Class IA	Draft ft (mt)	Length ft (mt)	Beam ft (mt)	Displ tons	Maximum Crew Members
HSIC	5 (1.4)	82 (24.99)	17.5 (5.33)	57	21
PC 2-8	8 (2.4)	179(54.6)	26(7.9)	354	52
Class I					
ARS 50-53	18 (5.5)	255 (77.7)	51 (15.5)	3,181	99
MCM 1-14	13 (4)	224 (68)	39 (12)	1,373	100

- The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

- Displacement is expressed in tons and represents fully loaded displacement.

- The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

- There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

- The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

- The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

- Ships at anchorage will normally require two Picket Boats.

- The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

- The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

- The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

- The Picket Boat will meet the following requirements:

  7.1. Licensed for commercial operations by local country Department of Transportation.

  7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

  7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

  7.4. If a deckhand crewmember is required, only qualified personnel are used.

  7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

i. Portable Spotlight

ATTACHMENT 4

SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

    1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

    1.2. Security guards may be provided through private security firms or through local police officials.

    1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

    1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

    1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside: (CLIN XX12AJ)

    2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

    2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

    2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

    2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

    2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.6. The following equipment will be required as a minimum for each guard:

2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.5. Flashlight for nighttime inspections.

2.6.6. Any locally required equipment to perform their job.

2.7. ROEs Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.
2.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.
2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.
2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats: (CLIN XX12AH)

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN XX12AJ. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow

unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.
3.8.1.2 If the first warning is ignored, the security guard will immediately notify the ship of the threat.
3.8.1.3 The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.
3.8.1.4 As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

ATTACHMENT 5

FUEL SPECIFICATIONS

The following are the Fuel Specifications for this contract:

SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of visible particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/
Density, @ 15ºC, kg/m^3 (max)	876	D 1298 (R), D 4052, D 287
Distillation, 10 % point, ºC 50% point, ºC 90% point, ºC, (max) end point, ºC, (max) Residue º Loss, % vol., (max)	 Record Record 357ºC 385ºC 3.0	D 86 3/
Cloud Point, ºC, (max)	-1ºC	D 2500
Color, (max)	3	D1500
Flash Point, ºC, (min)	60ºC	D 93 4/
Particulate Contamination, mg/liter, (max)	10	D 5432 5/
Pour Point, ºC, (max)	-6ºC	D 97
Viscosity, @ 40ºCm mm^2/second	- 1.7 - 4.3	D 445
Chemical Requirements		
Accelerated Storage Stability, total insolubles, mg/100ml, (max)	1.5	D5304 (R), D 2274 6/
Acid Number, mg KOH/100 ml, (max)	0.30	D 974 (R), D 664
Aniline Point, ºC, (min)	60ºC	D 611
Ash, % wt., (max)	0.005	D 482
Carbon Residue, on 10% bottoms, % wt., (max)	0.20	D 524 (R), D4530, D 189 7/
Corrosion, @ 100ºC, (max)	No. 1 ASTM	D 130
Hydrogen Content, % wt., (min)	12.5	D 4808
Ignition Quality, Cetane Number, (min) Cetane Index, (min)	42	D 613 (R), D 976 8/
Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 2622
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium Vanadium	 1.0 0.5 1.0 0.5	D 3605 9/
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

   (a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

   (b) The test temperature shall be 25ºC.

   (c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST	METHOD	REQUIREMENTS
1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90%

Distillation Point does not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min
5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)
7. Viscosity @ 40ºC	ASTM D 455	1.7 - 4.5 CST
8. Color	ASTM D 1500	3 max
9. Gravity	ASTM D 1298, D 287	Record
10. Carbon Residue	ASTM D 524	0.35% max
11. Ash	ASTM D 482	0.01% max
12. Sulfur	ASTM D 129, D 1552 D2622	1.00% max
13. Copper Corrosion	ASTM D 130	3 max

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

	TEST REQUIREMENTS	METHOD	
1.	Cetane Number	ASTM D 613	42 min
	or		
	Cetane Index	ASTM D 976	43 min

NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338^{O}C.

2.	Appearance @ 21^{O}C or ambient temp. (whichever higher)	Visual	Clear & Bright
	or		
	Water & Sediment	ASTM D 2709	0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357^{O}C max.
4.	Flash Point	ASTM D 93	60^{O}C min

NOTE: The flash point value is absolute and no value less than 60^{O}C is permissible.

5.	Cloud Point	ASTM D 2500	-1.1°C (30°F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40°C	ASTM D 445	1.7 - 4.5 cst
7.	Color	ASTM D 1500	3 max.
	NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted if red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.		
8.	Density @ 15°C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524	0.35 mass % max.
		ASTM D 189	
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294, ASTM D 1552, or ASTM D 2622	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	**GRADE RMB-10 (IFO 60)**	**GRADE RME-25 (IFO-180)**	**GRADE RMG-35 (IFO 380)**	**TEST METHOD**
Density @15°C, kg/m^3, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

ATTACHMENT 6

POTABLE WATER SPECIFICATIONS

(1) **Maximum contaminant level goal (MCLG).** The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are no enforceable health goals.

(2) **Action level (AL)**. Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90th percentile" lead level is greater than 0.015 mg/L).

Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

TOTAL TRIHALOMETHANES (THE SUM OF THE CONCENTRATIONS OF BROMODICHLOROMETHANE, DIBROMOCHLOROMETHANE, TRIBROMOMETHANE (BROMOFORM), AND TRICHLOROMETHANE (CHLOROFORM)		0.10(1)

Note:
(1) The MCL for total trihalomethanes applies only to water systems serving 10,000 or more individuals and which add a disinfectant to the water. For systems serving less than 10,000 individuals, individual States or BUMED (in overseas locations) may adopt an effective date for the MCL.

Microorganisms	**MCLG[1]**	**MCL or TT[1]**

	(mg/L)[2]	**(mg/L)[2]**
Cryptosporidium	as of 01/01/02:0	as of 01/01/02:TT 3
Giardia lamblia	0	TT[3]
Heterotrophic plate count	n/a	TT[3]
Legionella	0	TT[3]
Total Coliforms (including fecal coliform and E. Coli)	zero	5.0%[4]
Turbidity	n/a	TT[3]
Viruses (enteric)	zero	TT[3]

Note:
[1] Definitions:
Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to MCLGs as feasible using the best available treatment technology and taking cost into consideration. MCLs are enforceable standards.
Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety and are non-enforceable public health goals.
Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
Treatment Technique - A required process intended to reduce the level of a contaminant in drinking water.

[2] Units are in milligrams per liter (mg/L) unless otherwise noted. Milligrams per liter are equivalent to parts per million.

[3] EPA's surface water treatment rules require systems using surface water or ground water under the direct influence of surface water to (1) disinfect their water, and (2) filter their water or meet criteria for avoiding filtration so that the following contaminants are controlled at the following levels:

- Cryptosporidium: (as of January 1, 2002) 99% removal/inactivation
- Giardia lamblia: 99.9% removal/inactivation
- Viruses: 99.99% removal/inactivation
- Legionella: No limit, but EPA believes that if Giardia and viruses are removed/inactivated, Legionella will also be controlled.
- Turbidity: At no time can turbidity (cloudiness of water) go above 5 nephelolometric turbidity units (NTU); systems that filter must ensure that the turbidity go no higher than 1 NTU (0.5 NTU for conventional or direct filtration) in at least 95% of the daily samples in any month. As of January 1, 2002, turbidity may never exceed 1 NTU, and must not exceed 0.3 NTU in 95% of daily samples in any month.
- HPC: No more than 500 bacterial colonies per milliliter.

[4] No more than 5.0% samples total coliform-positive in a month. (For water systems that collect fewer than 40 routine samples per month, no more than one sample can be total coliform-positive). Every sample that has total coliforms must be analyzed for fecal coliforms. There may not be any fecal coliforms or E. coli.

[5] Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Disease-causing microbes (pathogens) in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. These pathogens may pose a special health risk for infants, young children, and people with severely compromised immune systems.

Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites which are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Sampling requirements for the Navy public water system apply.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Auto analysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the Multiple-Tube Fermentation (MTF) Technique; and the Membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use applies.

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, unless the Contracting Officer on a case-by-case basis waives this requirement.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the Contracting Officer may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before.

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms, or E. coli testing on total coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements which apply when a sample is fecal coliform-positive.

Turbidity: The MCL for turbidity applies to both community water systems and non community water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at Contracting Officer option).

b. Five turbidity units (maximum) average for 2 consecutive days.

The MCL for Radiological Contaminants are:
Gross alpha particle activity including radium 226 but excluding
radon and uranium . . . . . 15 pCi/L
Beta particles and photon emitters ……4 millirems / year
Combined radium 226 and radium 228 . . . . . .5 pCi/L
Tritium . . . . . 20,000 pCi/L
Strontium-90. . . . . 8 pCi/L
Uranium …….. 30ug/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

National Secondary Drinking Water Regulations (NSDWR) The Secondary Maximum Contaminant Levels (MCLs)

CONTAMINANT	MCL (mg/L)
ALUMINUM	0.05 TO 0.02
CHLORIDE	250
COLOR	15 COLOR UNITS
COPPER	1
CORROSIVITY	NONCORROSIVE
FLUORIDE	2
FOAMING AGENTS	0.5
IRON	0.3
MANGANESE	0.05
ODOR	3 THRESHOLD ODOR NUMBER
PH	6.5 - 8.5
SILVER	0.10
SULFATE	250
TOTAL DISSOLVED SOLIDS (TDS)	500
ZINC	5

Note: The contaminants covered by this regulation are those that may adversely affect the aesthetic quality of the drinking water. These secondary levels represent goals for drinking water quality but are not Federally enforceable.

(3) The reception, handling, storage, and delivery of potable water to ship's water systems shall be carried out under completely sanitary conditions.

(4) For pierside berthing, delivery shall be made by hose from the pier whenever possible. If barge service is deemed necessary, the Contractor shall ascertain from the ship's Supply Officer the exact amount needed prior to making delivery.

(5) The Contractor shall make deliveries during normal working hours, unless otherwise approved by the ship's Supply Officer or his/her authorized representative.

(6) All equipment, trucks and barges used by the Contractor in performance of these services shall be subject to inspection and test by an authorized representative of the U.S. Government as the Contracting Officer may specify. Final inspection/acceptance shall be subject to approval by the ship's Chief Engineer or his/her authorized representative. The U.S. Government inspectors shall be entitled to inspect the equipment, trucks, and barges at all

reasonable times, as often as they may deem necessary, and at such reasonable place or places as the U.S. Government may specify.

(7) The Contractor shall, without cost to the U.S. Government, furnish the necessary personnel and facilities to conduct such test and examination of samples of water and barges used hereunder as the Government inspector may designate, to determine the extent or possibility of contamination of such water, equipment, and barges. The Contractor may, at its option and cost, have the tests conducted by a recognized Sanitary Inspector provided that the performance of the tests and examinations by such Sanitary Inspection has been approved in advance and in writing by the U.S. Government Inspector.

(8) All tests and examinations, whether performed by or on behalf of the Contractor, shall be conducted in the presence of the U.S. Government Inspector.

(9) The Contractor agrees to furnish such reports and execute such forms as the U.S. Government may require in connection with services performed under this contract and further agrees that requests for such reports and execution of such forms will be executed promptly.

ATTACHMENT 7

WATER TAXI SPECIFICATIONS

The following are Commander 7th Fleet (COMSEVENTHFLT) Water Taxi specifications used for this contract.

1. Compliance - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2. Quality of Equipment - All equipment provided must meet COMSEVENTHFLT water taxie specifications, meet all safety standards required by local law, and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3. Quality of Services - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. Inspection and Acceptance - The Contractor shall pre-inspect the provided boats using the COMSEVENTHFLT specifications set forth below. Boats failing the inspection will not be used. The Contractor shall provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the designated NRCC Singapore Logistics Support Center (LSC) Water Taxi Inspector. The LSC Inspector will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the LSC Inspector shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor, the NRCC Singapore Contracting Officer (KO), and the LSC Inspector. An info message will be sent to Commander Logistics Western Pacific (COMLOGWESTPAC) and the operational chain of command up to and including COMPACFLT.

5. COMSEVENTHFLT Specifications:

5.1. Boat requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris, and fitted for service required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of (insert country). Notwithstanding compliance with local laws and regulations, the contractor shall meet all additional requirements as set forth throughout Section 5.

5.1.1. Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

5.1.2. Each boat shall be capable of transporting a minimum of (see Schedule of Services) passengers. (Weight restrictions may also be set forth, if appropriate.)

5.1.3. The following information shall be conspicuously posted in both English and (the appropriate foreign language):

5.1.3.1. Current Operator's/Captain's license and boat names.

5.1.3.2. Passenger/weight capacity limit notice.

5.1.3.3. Location of life jackets and other life saving equipment.

5.1.3.4. Location of all exits indicated in large letters.

5.1.3.5. Emergency procedures

5.1.4. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

5.1.5. Operation of the boat shall be in a safe and seaworthy manner.

5.1.6. The consumption of alcoholic beverages shall not be permitted aboard the boat.

5.2. Operator qualifications: All personnel or employees of the contractor operating boats providing subject services shall have all certification required and issued by (insert country) for the operation of the type class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

5.3. Security: During the term of this contract the ship(s) to be serviced (insert ship name if purchase order) agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat--SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He/she will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

5.4. Boat capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

5.5. Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the (Contracting officer or Husbanding Agent, as appropriate), or authorized representative prior to acceptance. This inspection shall include but not be limited to:

5.5.1. Hull

5.5.1.1. Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures.

5.5.1.2. Superstructure, including masts and stacks.

5.5.1.3. Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines.

5.5.1.4. Provisions for drainage of sea water from exposed decks over the side and not into the bilges.

5.5.1.5. Access/egress points- adequacy of number and location.

5.5.2. Machinery

5.5.2.1. 2-way radio or other reliable means of electronic communications (i.e., cellular phone) plus an additional battery back-up is required.

5.5.2.2. Main propulsion and auxiliary machinery essential to operation of boat.

5.5.2.3. Sea and bulkhead closure valves.

5.5.2.4. Bilge auction strainers and dewatering systems-bilge pump to be tested by operation

5.5.2.5. Bilges free of flammable liquids

5.5.3. Electrical

5.5.3.1. Cables.

5.5.3.2. Navigation, deck, and emergency lights.

5.5.3.3. Rotating electrical machinery; e.g., generators and motors --Storage batteries

5.5.4. Lifesaving equipment

5.5.4.1. Life preservers - sufficient number for maximum capacity of boat, accessible and in satisfactory condition.

5.5.4.2. Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity.

5.5.4.3. First aid kits, life rings and distress lights.

5.5.4.4. Distress signaling devices

5.5.5. Fire fighting equipment

5.5.5.1. Fire pump - test by subjecting fire hose(s) to fire pump pressure.

5.5.5.2. Portable fire extinguishers.

5.5.5.3. Fixed systems, e.g., C02 cylinders.

5.5.6. Steering apparatus

5.5.7. Miscellaneous systems and equipment

5.5.7.1. Harbor charts.

5.5.7.2. Ground tackle and mooring lines.

5.5.7.3. Whistle/fog horn, bell.

5.5.7.4. Lighted compass.

5.5.7.5. Radar.

5.5.7.6. 2-way radio capable of Bridge-to-Bridge communications.

5.5.7.7. Current license.

5.5.7.8. Operator qualifications.

5.6. Only approved boats shall be used in performance of this contract. The (LSC Inspector or Husbanding Services contractor, as appropriate) will provide each ship with a list of pre-approved boats. If the LSC Inspector or Husbanding Services contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement-is that contained in paragraph 4.7 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

5.7. Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

5.7.1. Safety of operations. Insure the following are present and in working condition:

5.7.1.1. Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.

5.7.1.2. Fire extinguishers sufficient for the size of the vessel operated.

5.7.1.3. Radio (with battery backup) capable of Bridge-to-Bridge communications.

5.7.1.4. Anchor/chain sufficiency for the size of the vessel operated.

5.7.1.5. Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

5.7.2. Hazards to passengers. Conduct topside visual inspection for safe conditions of the following:

5.7.2.1. Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

5.7.2.2. Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.

5.7.2.3. Ensure no bare or exposed electrical wires or connections are located in the passenger area.

5.7.2.4. Validate that sufficient unobstructed exits are present and marked in English.

5.7.2.5. Verify that no missile hazards, gear adrift, or trip hazards exist.

5.7.3. The following shall be conspicuously displayed, in English:

5.7.3.1. Passenger/weight capacity.

5.7.3.2. Location and number of life jackets.

5.7.3.3. Location of life saving equipment.

5.7.3.4. Locations of exits (if not obvious).

5.8. Critical safety equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or designated representative will have the option of furnishing the missing item. In all cases where government furnished property is provided due to the contractor's failure to meet requirements of the contract, the Contracting officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting officer is not on site, notification will be by message.

5.9. If applicable, FAR 52.245-4, Government-furnished Property (short form) (APR 1984), is incorporated by reference into this (contract or purchase order, as appropriate).

6. Onboard Security: The ship being serviced may provide security personnel for the purpose of maintaining the orderly transportation of their personnel. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

7. Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

8. Deficient Boat - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price or termination of the contract for default.

9. Government Furnished Property - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contractor shall notify the KO and provide information about the circumstances surrounding the deficiency. If appropriate, a reduction in contract price may be made.

SECTION J - LIST OF ATTACHMENTS AND EXHIBITS

Applicable documents, exhibits, and attachments for this contract are:

ATTACHMENT NO.	DOCUMENT	NO. OF PAGES

6. ISSUED BY	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
U.S. FLEET AND INDUSTRIAL SUPPLY CENTER DET SINGAPORE BUILDING 7-4 PSA SEMBAWANG TERMINAL DEPTFORD ROAD SINGAPORE 759657	N40345	See Item 6	

8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		
GLENN DEFENSE MARINE (ASIA) PTE LTD. LEONARD FRANCIS 404 TELOK BLANGAH RD SINGAPORE 098840		9A. AMENDMENT OF SOLICITATION NO.
		9B. DATED (SEE ITEM 11)
	X	10A. MOD. OF CONTRACT/ORDER NO. N40345-06-D-0003
CODE QB341 FACILITY CODE	X	10B. DATED (SEE ITEM 13) 20-Jun-2006

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
X	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: OPTION TO EXTEND SERVICES (FAR 52.217-8) (NOV 1999) (MODIFIED)
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzsnk02075178

1. The purpose of this modification is to extend the performance of services for the above numbered contract through six months. The expiration date of the contract is changed from 01 Jan 2007 through 30 Jun 2007.

2. There is no increased in the estimated total amount of the contract as a result of this extension.

3. All Other Terms and Conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:
SECTION C1
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services U.S. Navy ships visiting Singapore.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in Singapore.

2.2. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.3. The Contractor is required, when requested, to assist the ship in obtaining additional items the vessel may require while in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for one (1) base year. Also, the contract will have four options available under FAR 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is sixty-six (66) months if all available options are exercised under FAR 52.217-9 for the maximum duration, and the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting Singapore are required to use this contract if Husbanding Services are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.

- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of 10 ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels shall be exempt from all Management Fees at Sembawang Port and shall only be charged Class IA Management Fees for First and Subsequent days at Changi Naval Base or other Singapore government controlled locations. Attachment 2 provides details.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. Singapore Goods and Services Tax (GST) are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices – (See Exhibit B – Port Tariff Type Costs) Items listed as PT for Port Authority or other government type organizations will be paid at the current published rates. For example, at Sembawang Wharves the Royal Navy Liaison Officer (RNLO) is the relevant authority for the management of some

Sembawang Naval Basin berths. RNLO will provide items such as tugs, line handlers, brows, landline telephones, and cranes. They will be listed as PT in The Schedule. The Contractor can only charge the U.S. Government at what was charged by RNLO.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

DY	Day
EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
JB	Job
LO	Lot
NSP	Not Separately Priced
PT	Port Tariff
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOODS AND SERVICE TAX (GST): GST is a tax on the supply of goods and services made in Singapore by a taxable person carried in the course of their business and on the importation of goods into Singapore. A taxable person is a person who is required to register or is registered for GST. A taxable person includes an individual, partnership, company, club, association, society, management corporation or non-profitable organization. A person is usually required to register for GST when their annual taxable supplies exceed or is expected to exceed S$1 million. In general, all goods sold or services performed in Singapore are taxable.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

§ Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

§ Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not seperately priced. Cost of the item should be factored into the Mangement Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS
Title of Individual:	MANAGING DIRECTOR
Mailing Address:	GLENN DEFENSE MARINE (ASIA) PTE LTD 404 TELOK BLANGAH ROAD, GLENN BLDG. 098840 SINGAPORE

Option One Year – 1 Nov 2004 to 31 Oct 2005
Option Two Year – 1 Nov 2005 to 31 Oct 2006
Option Three Year – 1 Nov 2006 to 31 Oct 2007
Option Four Year - 1 Nov 2007 to 31 Oct 2008).

All modifications issued and pricing schedules are available on “P” drive and hard copies on file.
Total estimated quantity and unit price for the base and option periods are changed in order for PD2 program to issue individual delivery orders. The total estimated price for the base and each of the option periods remain unchanged. Individual delivery orders will reference the pricing schedules for actual CLINs and SUBCLINs ordered. Estimated quantities and actual unit prices for the CLINs and SUBCLINs are available on “P”drive and hard copies on file as part of each individual order.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

☐ A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

☐ B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).

☐ C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

X D. OTHER (Specify type of modification and authority)
FAR 52.217-8, Option to Extend Services

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nyspnt010828700

1. The purpose of this modification is to extend the contract performance of services under this contract from 01 Nov 08 to 30 Apr 09 in accordance with the clause FAR 52.217-8, Option to Extend Services.

2. There is no change in the estimated total contract price as a result of this extension.

3. All other terms and conditions shall remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been modified:

STATEMENT OF WORK

36. OPERATIONS OTHER THAN WAR (OOTW) AND CONTINGENCY EXERCISE/ LOGISTIC SUPPORT FEES (LOT 3) (CLIN XX36)

36.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

36.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

36.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

36.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

36.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

36.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
36.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
36.5.3. current innoculation records
36.5.4. possess a valid up-to-date passport.

36.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The POC or his representative is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

36.8. If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. The Contractor may be required to support multiple operations at the same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.9. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

STATEMENT OF WORK

36. OPERATIONS OTHER THAN WAR (OOTW) AND CONTINGENCY EXERCISE/ LOGISTIC SUPPORT FEES (LOT 3) (CLIN XX36)

36.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

36.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

36.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

36.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

36.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

36.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
36.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
36.5.3. current innoculation records
36.5.4. possess a valid up-to-date passport.

36.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor team shall consist of a minimum of two personnel per location that the OOTW and/or Exercise/ Logistic Support is being conducted. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

36.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

37. OOTW COST REPORT (CLIN XX37)

37.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

37.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure

PERFORMANCE WORK STATEMENT

SCHEDULE OF SUPPLIES/SERVICES AND PRICES

Note 1: U.S. FISC YOKOSUKA - The official command name for U.S. Fleet and Industrial Supply Center (FISC) Yokosuka changed 1 July 2011. As of 1 July 2011, the official command name for U.S. Fleet and Industrial Supply Center (FISC) Yokosuka will be: NAVSUP Fleet Logistics Center Yokosuka (FLCY). Accordingly, all references throughout the contract have been updated to reflect this name change.

Note 2: This contract is limited to Region 4 (East Asia), Lots 82-99.

A. GENERAL

This contract is for performance of maritime husbanding support for U.S Navy ships visiting ports and operating in Region 4 of the Western Pacific and Indian Ocean. Additionally, the husbanding contractor may be called upon to provide services in support of Operations Other Than War (OOTW) within a Region's territorial boundaries. The Regions, countries and major ports included in each region are as follows:

Region 1 – South Asia (7 countries, 4 major ports)	
Bangladesh	Maldives • Male
Bhutan	Nepal (OOTW)
Burma	Sri Lanka
India • Chennai • Goa • Mumbai	
Region 2 – Southeast Asia (12 countries, 19 major ports)	
Brunei • Muara	Philippines • Manila • Puerto Princesa • Subic Bay
Cambodia • Sihanoukville	Malaysia • Kemaman • Kota Kinabalu • Penang • Sepangar
China • Hong Kong	Singapore • Changi • Sembawang
Indonesia • Bitung • Jakarta • Surabaya	Taiwan
Laos (OOTW)	Thailand • Laem Chabang • Phuket • Sattahip
Palau	Vietnam • Da Nang
Region 3 – Australia and the Pacific Islands (17 countries, 8 major ports)	
Antarctica	New Caledonia • Noumea
Australia • Brisbane	New Zealand

• Darwin • Fremantle • Sydney	
East Timor • Dili	Papua New Guinea
Fiji	Solomon Islands • Honiara
French Polynesia	Tonga • Nuku Alofa
Kiribati	Tuvalu
Marshall Islands	Vanuatu
Micronesia	Western Samoa
Nauru	
Region 4 – East Asia (4 countries, 12 major ports)	
Japan • Fukuoka • Kagoshima • Maizuru • Nagasaki • Osaka • Shimoda • Tokyo	South Korea • Chinhae • Pohang • Busan • Donghae
Mongolia (OOTW)	Russia • Vladivostok

Region Item and Price Structure

Major ports are indicated by name of port (e.g., Goa, Vladivostok, Sydney, etc.). A fully priced proposal must be received for ALL line items in a Region for it to be considered acceptable. For OOTW, a proposal only for Management Fees is required.

The contract is sub-divided into Lots. Targeted lots are identified in bold print below and by highlighted tabs in Attachment 2, Pricing Schedule. Lots may be for individual ports or they may include several ports under one Lot. For this contract, the following Lots apply:

Region 1 – Lots 01 – 15 (7 countries, 4 major ports)

Lot 01 – Bangladesh, All Ports, Husbanding Services and OOTW
Lot 02 – Burma (Myanmar), All Ports, Husbanding Services and OOTW
Lot 03 – India, Chennai, Husbanding Services and OOTW (*)
Lot 04 – India, Goa, Husbanding Services and OOTW (*)
Lot 05 – India, Mumbai, Husbanding Services and OOTW (*)
Lot 06 – India, All Other Ports, Husbanding Services and OOTW
Lot 07 – Maldives, Male, Husbanding Services and OOTW (*)
Lot 08 – Maldives, All Other Ports, Husbanding Services and OOTW
Lot 09 – Sri Lanka, All Ports, Husbanding Services and OOTW
Lot 10 – Nepal, OOTW
Lot 11 – Bhutan, OOTW
Lot 12 – 15, Reserved

Region 2 – Lots 16 – 51 (12 countries, 19 major ports)

Lot 16 – Brunei, Muara, Husbanding Services and OOTW (*)

Lot 17 – Brunei, All Other Ports, Husbanding Services and OOTW
Lot 18 – Cambodia, Sihanoukville, Husbanding Services and OOTW (*)
Lot 19 – Cambodia, All Other Ports, Husbanding Services and OOTW
Lot 20 – China, Hong Kong, Husbanding Services and OOTW (*)
Lot 21 – Indonesia, Bitung, Husbanding Services and OOTW (*)
Lot 22 – Indonesia, Jakarta, Husbanding Services and OOTW (*)
Lot 23 – Indonesia, Surabaya, Husbanding Services and OOTW (*)
Lot 24 – Indonesia, All Other Ports, Husbanding Services and OOTW
Lot 25 – Palau, All Ports, Husbanding Services and OOTW
Lot 26 – Philippines, Manila, Husbanding Services and OOTW (*)
Lot 27 – Philippines, Puerto Princesa, Husbanding Services and OOTW (*)

Lot 28 – Philippines, Subic Bay, Husbanding Services and OOTW (*)
Lot 29 – Philippines, All Other Ports, Husbanding Services and OOTW (*)
Lot 30 – Malaysia, Kemaman, Husbanding Services and OOTW (*)
Lot 31 – Malaysia, Kota Kinabalu, Husbanding Services and OOTW (*)
Lot 32 – Malaysia, Penang, Husbanding Services and OOTW (*)
Lot 33 – Reserved
Lot 34 – Malaysia, Sepangar, Husbanding Services and OOTW (*)
Lot 35 – Malaysia, All Other Ports, Husbanding Services and OOTW
Lot 36 – Singapore, Changi, Husbanding Services and OOTW (*)
Lot 37 – Singapore, Sembawang, Husbanding Services and OOTW (*)
Lot 38 – Taiwan, All Ports, Husbanding Services and OOTW
Lot 39 – Thailand, Laem Chabang, Husbanding Services and OOTW (*)
Lot 40 – Thailand, Phuket, Husbanding Services and OOTW (*)
Lot 41 – Thailand, Sattaship, Husbanding Services and OOTW (*)
Lot 42 – Thailand, All Other Ports, Husbanding Services and OOTW
Lot 43 – Vietnam, Da Nang, Husbanding Services and OOTW (*)
Lot 44 – Vietnam, All Other Ports, Husbanding Services and OOTW
Lot 45 – Laos, OOTW
Lot 46 – China, OOTW
Lots 47 – 51, Reserved

Region 3 – Lots 52 – 81 (17 countries, 8 major ports)

Lot 52 – Australia, Brisbane, Husbanding Services and OOTW (*)
Lot 53 – Australia, Darwin, Husbanding Services and OOTW (*)
Lot 54 – Australia, Fremantle, Husbanding Services and OOTW (*)
Lot 55 – Australia, Sydney, Husbanding Services and OOTW (*)
Lot 56 – Australia, All Other Ports, Husbanding Services and OOTW
Lot 57 – East Timor, All Ports, Husbanding Services and OOTW (*)
Lot 58 – Reserved
Lot 59 – Fiji, All Ports, Husbanding Services and OOTW
Lot 60 – French Polynesia, All Ports, Husbanding Services and OOTW
Lot 61 – Kiribati, All Ports, Husbanding Services and OOTW
Lot 62 – Marshall Islands, All Ports, Husbanding Services and OOTW
Lot 63 – Micronesia, All Ports, Husbanding Services and OOTW
Lot 64 – Nauru, All Ports, Husbanding Services and OOTW
Lot 65 – New Caledonia, Noumea, Husbanding Services and OOTW (*)
Lot 66 – New Caledonia, All Other Ports, Husbanding Services and OOTW
Lot 67 – New Zealand, All Ports, Husbanding Services and OOTW
Lot 68 – Papua New Guinea, All Ports, Husbanding Services and OOTW
Lot 69 – Solomon Islands, Honiara, Husbanding Services and OOTW (*)
Lot 70 – Solomon Islands, All Other Ports, Husbanding Services and OOTW

Lot 71 – Tonga, Nuku Alofa, Husbanding Services and OOTW (*)
Lot 72 – Tonga, All Other Ports, Husbanding Services and OOTW
Lot 73 – Tuvalu, All Ports, Husbanding Services and OOTW
Lot 74 – Vanuatu, All Ports, Husbanding Services and OOTW
Lot 75 – Western Samoa, All Ports, Husbanding Services and OOTW
Lot 76 – Antarctica, OOTW
Lots 77 – 81, Reserved

Region 4, Lots 82 - 99 (4 countries, 12 major ports)

Lot 82 – Japan, Fukuoka, Husbanding Services and OOTW (*)
Lot 83 – Japan, Kagoshima, Husbanding Services and OOTW (*)
Lot 84 – Japan, Maizuru, Husbanding Services and OOTW (*)

XX31	Port Dues
XX32	Cost Reporting
XX33 – XX39	RESERVED
XX40	OOTW Fees
XX41	Provisions
XX42	Fuel
XX43	Incidentals

B. PRICING

Except for Port Tariffs, unit prices for all contract items described below shall be inclusive of all necessary equipment, licensed operators, all liability insurance as required by local law, holiday and overtime costs, customs clearances, and fuel and operating expenses.

1) Fixed Prices are required in the Pricing Schedule except where Port Tariff (PT) prices, To Be Determined (TBD) prices, or Not Separately Priced (NSP) have been identified. Services with an estimated quantity of 'No Estimate' are required to be priced in the Attachment 2 schedules and shall be treated as pre-priced items. Pricing for all services other than pre-priced items, PT items, and NSP items shall be arranged using the online pricing application procedures described in Attachment 8. Unless otherwise provided, these Fixed Prices shall also include performance at night, overtime, Saturdays, Sundays, and Holidays; and services performed under heavy rain, other inclement weather, or service to tankers and ships carrying explosives. These requirements do not include performance during cyclones or typhoons except where ships are required to depart in advance of cyclones or typhoons as part of a typhoon or cyclone evasion plan. They also include all operating expenses including tugs, barges, trucks, personnel, and customs clearances and any other charges unless specifically exempted by the Government.

2) Port Tariffs will apply to those services which are based on Port Tariff rates established and controlled by Port Authorities. English translated copies of the Port Tariffs must be submitted to the Supply Officer of

the ship entering a specific Port and to the NAVSUP Fleet Logistics Center Yokosuka(FLC) email address specified at the time of contract award.

3) Fees for Husbanding Services cover regular and overtime labor of contractor personnel supporting the ships plus indirect expenses, including all management, overhead and office expenses. The husbanding fees also include costs for arranging supplies and services described herein, costs associated with attendance at periodic meetings and pre-deployment briefings. The husbanding fees represent total compensation for the contractor except for supplies and services with Fixed Prices.

4) OOTW Fees will constitute an all inclusive fixed fee based on a daily fee (per contractor person providing support) for "husbanding" the OOTW effort/logistics support.

5) Purchase Card Surcharge. The U.S. Government reserves the right to make payment by purchase card. All purchase card surcharges will be identified as a separate entry on each invoice. The Government will reimburse administrative surcharges for the lesser of actual fees or 5% for non-priced items only. Applicable purchase card surcharges shall be included in the quoted prices for pre-priced items.

6) If items are made available free of charge or at less than the quoted price by the Government, host nation, or port authority, only mobilization/demobilization charges, not to exceed the quoted unit price, may be charged. If, for any reason, an item that would otherwise be provided by the Host Nation, Government, or port authority is not available, that item shall be provided by the HSP at the unit price quoted in Attachment 2.

C. PRICING SPREADSHEETS

Pricing spreadsheets are provided by Region as an attachment to this solicitation. The Lots marked in bold print in paragraph A above will be used for price evaluation purposes.

Important Notes

1) Pricing for supplies and services for all countries will be expressed in U.S. dollars and shall be billed in the units of the respective LINE ITEMs.

2) Definitions for the "Unit" abbreviations are as follows:

CM = Cubic Meter
DY = Day (refers to a 24-hour period beginning at start of service unless stated otherwise)
EA = Each
GL = Gallon
HR = Hour
JB = Job
LOT (LT) = A lot (LT) is a deliverable item or group of items with a separate and distinct unit price.
MT = Metric Ton
NSP = Not Separately Priced
PK = Package
PT = Port Tariff
TBD = To Be Determined

3) The Line Item Numbers consist of four numeric digits. XX replacement of any numeric digits make the descriptor generic and applicable to all LINE ITEMs in that series.

4) For pricing sheets identifying "All Other Ports" (AOP) or "All Ports" (AP), prices will be required, if not identified otherwise. Each price shall be a single, per-unit price for the specified supply or service that will apply to any of the ports included in the lot.

5) Historical port visit data for FY07, FY08, and FY09 (partial) has been provided as Attachment (3).

D. Definitions

Barge = Flat-bottomed displacement ships used for carrying or storing cargo, for separation between vessels and other structures, or as a work platform. Barges may or may not be self-propelled.

DESCRIPTION OF CONTRACTUAL SCOPE

This contract is for the provision of maritime husbanding support. It is not for husbanding agency. The holder of this contract is a U.S. Navy contractor. The holder of this contract is not an agent of the U.S. Navy and does not have the authority to bind the U.S. Navy.

Maritime Husbanding Support is defined as: Providing supplies and services as defined in the Performance Work Statement of the contract in support of Naval forces within a port area.

i. This support is provided by a Husbanding Services provider from a standard list of services under contract.
ii. For "Exceptions" items not supported by existing supply chains: e.g. fuel, subsistence, etc.
iii. Includes "Non-Priced" incidentals that cannot be identified in advance, but are in the scope of the contract.

1. The contract is for performance of Maritime Husbanding Support services at any berthing or anchoring location specified in the Attachment 2 schedules. Ordering officers of the United States Coast Guard (USCG) ships, United States Navy (USN) ships, Military Sealift Command (MSC) ships, U.S. Army vessels/ships operating in the Western Pacific and Indian Ocean are authorized to use this contract. The contract may also be used to support other U.S. Government organizations (e.g., National Oceanic and Atmospheric Administration (NOAA) that may require maritime husbanding support services.

For purposes of this paragraph, a U.S. Navy ship is any naval vessel, craft, ship, or service craft included within the scope of subparagraphs 2 and 4 of Article 0406, United States Navy Regulations, 1990. Ship size classifications that are used in the price schedules are listed as an attachment.

2. Husbanding services requirements that may be received by FLC Yokosuka from the other activities identified in paragraph 1 above are within the scope of this contract.

3. This is a Firm-Fixed-Price Indefinite-Delivery, Indefinite-Quantity (IDIQ) type contract for husbanding logistics services, services in support of Operations Other Than War (OOTW), and maritime husbanding support to Government teams visiting ports in connection with a ship visit. These service requirements are and defined in the Performance Work Statements (PWS). The "minimum" and "maximum" to be established per FAR Clause 52.216-22 are as follows:

Region	Minimum Quantity ($)	Maximum Quantity ($ Base and all option years)
Region 1, South Asia	$100,000	Sum of CLINs 0002, 1001, 2001, 3001, and 4001
Region 2, Southeast Asia	$100,000	Sum of CLINs 0003, 1002, 2002, 3002, and 4002

Region 3, Australia/Pacific Islands	$100,000	Sum of CLINs 0004, 1003, 2003, 3003, and 4003
Region 4, East Asia	$100,000	Sum of CLINs 0005, 1004, 2004, 3004, and 4004

The minimum contract dollar quantities per contract are for each contract as a whole and there are not separate additional contract dollar quantities for the option periods and/or individual LINE ITEMs.

4. The HS Contractor agrees to furnish the services or supplies at the fixed price listed in the schedules.

5. This contract is for a period of twelve (12) months, effective 30 days after award of the contract, with four (4) one-year options. The contract also includes the clause entitled FAR 52.217-9 Option to extend the Term of the Contract. If all options are exercised under FAR 52.217-9, the duration of this contract is 66 months.

6. The contract will not start for the following countries until the option expires under existing contracts:

Contract becomes effective on 1 Jun 2012 for South Korea.

7. In the event of contingencies in the open ocean such as submarine rescue, the Contracting Officer may issue an order to the contractor that is awarded the husbanding logistics contract in the nearest country in which there is capability to satisfy the requirement.

8. The contract will include the clause entitled FAR 52.237-7023 (Class deviation 2009-00010) Continuation of Essential Contractor Services. Contractors providing services designated as essential contractor services by a DoD component are expected to use their best efforts to continue providing such services, in accordance with the terms and conditions of their contracts even during periods of crisis.

9. For lots identified as “All other Ports” or “All Ports”, the geographic scope of the lot, for Purposes of Lot Line Item XX40, OOTW is the entire country listed in the lot. The geographic scope of the lot, for all Lot Line Items other than XX40, is the port locations listed in each lot of the Attachment 2 schedules.

10. Incidentals within the scope of this contract may be classified within one of the following categories:
- Charter and Hire
- Utilities
- Anti-terrorism Force Protection
- Communications
- Transportation
- Lodging
- Port Handling Services
- Other Port Services (Reception Supplies and Services)
- Administrative Supplies

Performance Work Statement (PWS) for Husbanding Services

A. GENERAL OVERVIEW

1. OBJECTIVE

The primary objective of this contract is to obtain Maritime Husbanding Support for U.S. Navy ships and other Government teams supporting ship visits at the locations specified in the Attachment 2 schedules. In addition, the contract may be used to support Operations Other Than War (OOTW) in a respective Region.

2. SCOPE

a. The general scope of this contract and its general conditions are described above. This section provides the detailed Performance Work Statement (PWS) descriptions for applicable Line Items.

b. General Requirements

i. The HS Contractor shall provide timely delivery of quality goods and services at fair and reasonable prices to ships making port visits;

ii. The HS Contractor shall provide timely delivery of supplies and services conforming to this PWS.

iii. The HS Contractor shall assure that supplies and services arranged on behalf of the ship's Supply Officer (SUPPO) or authorized ordering officer conform to the general requirements of the contract and shall assist the SUPPO or authorized ordering officer with resolving any problems in meeting the requirements.

iv. The HS Contractor shall identify representatives to act as the principal points of contact between the HS Contractor and NAVSUP Fleet Logistics Center Yokosuka representatives concerning price and performance issues throughout the Region. These individuals shall facilitate communications among ships, Defense Attaché Offices (DAO), Port Services Officers and FLCY.

v. The HS Contractor shall obtain any necessary insurance, licenses and permits, and comply with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the U.S. Government.

vi. The HS Contractor shall ensure that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

vii. The HS Contractor shall ensure that subcontractors comply with these requirements.

3. PRICING

a. Except for Port Tariffs, To Be Determined (TBD), and Not Separately Priced (NSP) items, unit prices for all contract items described below shall be inclusive of all other costs including, but not limited to, all necessary equipment, licensed operators, liability insurance as required by local law, holiday and overtime costs, customs clearances, fuel and operating expenses. In those cases where prices are by Ship Class, Attachment # 1 applies. All contract prices are in U.S. Dollars (US$). All taxes and surcharges are included in the unit cost.

b. Fixed prices are required in the pricing schedule except for Port Tariffs, TBD items, or Not Separately Priced (NSP) items. Unless otherwise provided, these prices shall also include performance at night, in overtime, Saturdays, Sundays, and Holidays; and services performed under heavy rain, or service to tankers and ships

carrying explosives. They also include all operating expenses including, but not limited to, tugs, barges, trucks, personnel, and customs clearances.

c. The pricing for all services requiring the use of transportation type conveyances (i.e., trucks, barges for LINE ITEMs for trash removal, CHT removal, potable water, landing barges, oily waste removal, etc) shall include the use of the equipment as required to complete the service in the statement of work without any additional charges for detention or demurrage.

d. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate LINE ITEM in the Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

e. All pre-positioning or pre-staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

f. Repositioning is defined as: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions. Where a ship is at anchorage and the Ordering Activity requests repositioning of equipment, the HS Contractor shall be entitled to additional fees for repositioning to be determined by use of:

   a. Priced sub lot line items, or

   b. Prior agreement of the Ordering Officer in cases where the total repositioning costs do not exceed $25,000

   c. Prior agreement of the FLCY Contracting Officer in cases where the total repositioning costs exceed $25,000.

   In the case of (c) above, the repositioning cost shall be reported and confirmed using the online pricing application procedures described in Attachment 8.

g. When the HS Contractor obtains a supply or service from a port or local government-type organization and the price of that item is set by a published price list (e.g. port tariff), then the HS Contractor shall be reimbursed for the published price of the item. The HS Contractor shall not be paid an amount in addition to the published price of the item. A copy of the published price list (e.g. port tariff) shall be provided to the Supply Officer at the time of initial boarding and to the FLCY email address specified at the time of contract award for each region with the pre-arrival cost estimate.

h. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and/or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged. For the purposes of this contract, one (1) day is equal to 24 hours and begins with the performance of service. For example, service from 1800 until 1800 the next calendar day is equal to one (1) day of service. In cases where the billing unit is ‘day’ and a full day of service is not used by the Ordering Activity, the HS Contractor shall be entitled to bill for one day of service. For example, if a sub lot line item with a billing unit of day were ordered and used for 30 hours, the HS Contractor would be entitled to bill for two days of service. In cases where the ship does not arrive at the time specified in the ordering LOGREQ and services are made available based upon the time requested in the ordering LOGREQ, billing for services may commence at the time requested by the Government unless notice of cancellation is provided by the Ordering Activity or the organization authorized to pass this information on behalf of the Ordering Activity.

i. Demurrage charges shall only be charged if the HS Contractor’s service is unduly delayed due to the fault of the U.S. Government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but, due to the fault of the government, was not attended to until 1500 hrs when pumping begins. The HS Contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs).

j. Port Tariffs will apply to those services that are based on the Port Tariff rates established and controlled by the Port Authorities. The abbreviation "PT" in the pricing schedule identifies the port tariff items that the HS Contractor is not required to price.

k. Fees for husbanding services cover regular and overtime labor of HS Contractor personnel supporting the ships plus all indirect expenses, including all management, overhead and office expenses. The husbanding fees also include costs for arranging supplies and services described herein, costs associated with attendance at periodic meetings with the exception of travel expenses described in this paragraph. The husbanding fees represent total compensation for the HS Contractor except for supplies and services with fixed prices or incidentals. Travel expenses incurred by the HS Contractor in support of a LRT or advance ship detachment will be reimbursed based upon actual receipts and in accordance with the JTR guidelines. Travel expenses will be reimbursed upon presentation of documentation to the ordering activity. Any air transportation will be reimbursed at the economy class fare.

l. OOTW will constitute a fixed fee based on a daily rate (per HS Contractor person providing support) for "husbanding" the OOTW effort/logistical support.

m. The U.S. Government reserves the right to make payment by purchase card.

n. The services at anchorage shall be provided at all anchorage points assigned by the local port authority.

o. As part of the husbanding service provider's proposal, a purchasing process and system for pricing items along with an Online Pricing Application(see Attachment 8 for the PWS for the Online Pricing Application requirements) was proposed and accepted by the Government which included sufficient safeguards so that the Contracting Officer or Authorized Government Representative may determine the prices as fair and reasonable. Pricing of supplies and services for items not pre-priced within a lot line item (e.g., incidentals, OOTW supplies or services, fuel, and provisions) shall be in accordance with the husbanding service contractor's proposed purchasing/pricing process (implemented by the online pricing application) that was accepted by the Government upon contract award.

p. The HS Contractor will be fully compensated for all services including pre-priced, port tariff, TBD, fuel, provisions, and incidentals. Port tariff items will be reimbursed at actual cost. Provisions (XX41) and fuel (XX42) shall also be invoiced and reimbursed at actual cost. Any HS Contractor fee for acquiring and arranging for these items shall be included in the corresponding Line Items XX41AA (for provisions) and XX42AA (for fuel).

q. Several Lot Line Item services are based on volume (e.g. trash removal, CHT, potable water, and oily waste removal). Volume-based services shall be priced at the same unit price specified in the Attachment 2 schedules, regardless of the class of vessel requiring the services. For example, a class V vessel requiring 1000 CM of CHT removal would be charged the same unit price as a class II vessel requiring 100 CM of CHT removal.

4. QUALITY

a. The HS Contractor shall provide the timely delivery of goods and services at fair and reasonable prices to ships making port visits, provide continuous oversight of costs and performance throughout the area covered by this contract, and make meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. The HS Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning price performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Operations Officers, and FLCY. The contract will not specify how the HS Contractor is to perform, but measurable performance standards are established in the Quality Assurance Surveillance Plan (QASP) to monitor contract performance during each ship's visit.

b. The quality of all services or supplies provided shall conform at least to commercial standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

c. The performance standards are explained in the Quality Assurance Surveillance Plan (QASP), Attachment 10. The performance standards are:

i. Timely submission of pre-arrival cost estimates (described para.5 (a) below) NLT 48 hours after receipt of the ordering logisitics requirement (LOGREQ) message. In the event that the LOGREQ is received after 48 hours prior to the ship's arrival, the pre-arrival cost estimate shall be provided as soon as practicable, but in no case later than 48 hours after receipt of the ordering LOGREQ;

ii. Timely submission of Logistics Support Services Repository (LogSSR) cost report within seven (7) calendar days from the completion of the ship's visit;

iii. Accuracy of the actual (final) LogSSR report and pre-arrival cost estimate;

iv. Ship's satisfaction with the contractor's services during the port visit as identified in the ship's port visit cost report; and

v. Adherence to the pricing process proposed and accepted by the Government for non-priced items and timely submission of all information and documentation within the Online Pricing Application.

vi. HS Contractor Suggestions for cost savings and/or cost avoidance.

d. The percentile goals are fixed for each factor within the QASP. The failure of the HS Contractor to meet the percentile goal for any factor will be investigated and evaluated by the Contracting Officer. The HS Contractor will be given the opportunity to refute an adverse assessment prior to finalizing the metric for a quarter.

5. LOGISTICS RESPONSE TEAM

In the event that a Logistics Response Team for a ship arrives in port prior to the ship's arrival, the HS Contractor will assist the logistics response team by providing logistical support and coordinating all requirements.

When the HS Contractor provides support for a Logistics Response Team so that it can perform its mission, the HS Contractor is entitled to bill at the "Subsequent Days" daily rate for husbanding services for each day of support provided "in person" to the logistics response team.

a. Pre-arrival Cost Estimate - The HS Contractor shall furnish to each ship and FLCY email address specified at the time of contract award, a pre-arrival cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the Attachment 2 spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-priced items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff." This estimate shall be provided to the ship and FLCY Yokosuka email address specified at the time of contract award for each region within 48 hours after receipt of the LOGREQ. This report shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs. The LOGREQ, when submitted by, under authority of, or on behalf of an Ordering Activity, is an order under this contract for pre-priced items. Non-priced items ordered on the LOGREQ become orders only after prices have been determined fair and reasonable and are agreed upon by the Ordering Officer or by a FLCY Contracting Officer. For non-priced items with an extended cost less than $25,000, either the Ordering Officer or the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended cost greater than $25,000, only the FLCY

Contracting Officer may determine if a quoted price is fair and reasonable. Required approvals and determinations of fair and reasonable pricing by the FLCY Contracting Officer (>$25,000 extended price) will be made by confirming the prices and documentation posted to the online pricing application. Approvals and fair and reasonable determinations that may be made by either the Ordering Officer or FLCY Contracting Officer (<$25,000 extended price) may be confirmed orally, in writing, or by email by the Ordering Officer or FLCY Contracting Officer. Regardless of the approval method, reporting and documentation of all non-priced items other than port tariff items ordered under this contract must be made using the online pricing application. Orders placed by a LOGREQ may be cancelled in whole or in part as described in the Cancellation of Orders paragraph of this contract.

b. The LOGREQ cost estimate does not replace the HS Contractor's requirement to respond (i.e., info addressees on responses to the Ordering Officer) to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U.S. Defense Attaché's Office.

c. The HS Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

d. The HS Contractor shall coordinate with other U.S. Government Contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

e. The HS Contractor shall assist the ship's Logistics Response Team to include planning and coordination meetings.

f. Travel expenses incurred by the HS Contractor in support of a LRT or advance ship detachment will be reimbursed based upon actual receipts and in accordance with the JTR guidelines. Travel expenses will be reimbursed upon presentation of documentation to the ordering activity. Any air transportation will be reimbursed at the economy class fare.

6. SHIPS'S (LOGREQ) LOGISTIC REQUIREMENTS

U.S. Navy ships and/or FLCY Logistic Support Representative (LSR) or other activity authorized to pass LOGREQ requirements on behalf of Ordering Officers will provide, via e-mail, a copy of the unclassified "logistics requirements" (LOGREQ) message directly to the husbanding HS Contractor as described under "ISSUANCE OF ORDER" in Contract Terms and Conditions – Commercial Items (FAR 52.212-4 Addendum). This LOGREQ will contain the majority of supplies and services required by the ship, and will represent the order, for pre-priced items, upon which the HS Contractor shall begin performance.

a. A ship, an activity authorized to pass a LOGREQ on behalf of the ship (i.e. Port Service Office or DAO), or an authorized ordering activity may notify the HS Contractor of a forthcoming visit requiring husbanding services. Upon notification of a visit, the HS Contractor shall make such preliminary arrangements as necessary with port authorities, other U.S. Government Contractors, and other commercial firms to provide supplies and services requested by the ship. The HS Contractor shall confirm receipt of the ordering LOGREQ (to the activity who provides the LOGREQ to the HS Contractor) within 24 hours. Confirmation of receipt may be made by email to the activity passing the LOGREQ to the HS Contractor.

b. Ships will not provide force protection requirements in unclassified LOGREQ messages. The force protection requirements are specified in a classified LOGREQ issued by the ship to U.S. Government activities. The activity to which this message is addressed will contact the Contractor and pass the ship's force protection requirements for action. The HS Contractor shall confirm with the ship that these force protection requirements received have been actually ordered by the ship prior to beginning performance. The ship's Supply Officer (SUPPO) or Commanding Officer may also request additional force protection requirements not covered by the classified LOGREQ by email, telephone, or personally upon ship's arrival. The HS Contractor shall coordinate with the SUPPO before providing any additional force protection. If any other activity or individual orders force protection services (i.e. NCIS, etc) not covered in the ship's

classified LOGREQ, the HS Contractor is required to immediately inform the ship and receive confirmation prior to beginning performance of these services. Organizations such as NCIS and DAO are not the actual Ordering Officer and have no contractual authority to place orders. Only the Ordering Officer or the FLCY Contracting Officer has the authority to confirm or change an order.

c. LOGREQ Pre-arrival Cost Estimate. The HS Contractor shall provide each ship or ordering activity an estimate in response to an LOGREQ message issued to the HS Contractor by any method identified under "OC-7 ISSUANCE OF ORDER" clause. The pre-arrival cost estimate shall be submitted in accordance with Attachment (8)-PWS Cost reporting. The LOGREQ message is not an order for non-priced items until priced by the contractor and confirmed by an authorized ordering officer. The requirements shall be provided to the HS Contractor by ships, activities and individuals identified in the contract. This estimate shall be sent within 48 hours after receipt of the LOGREQ message and will explain any anticipated "additional" costs and include cost savings or avoidance recommendations. In a situation where the HS Contractor receives a LOGREQ message with less than 48 hours prior to the arrival of the ship, the HS Contractor shall make every effort possible to provide the required documentation and price estimate prior to the ship's arrival, but in no event later than 48 hours after receipt of the LOGREQ message.

7. INITIAL BOARDING

a. The HS Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival. Upon initial boarding the HS Contractor shall provide all emergency telephone numbers, i.e. police, hospitals, firefighters, etc. In addition, the HS Contractor is required to provide the emergency telephone numbers for shipboard generated industrial waste (SGIW) disposal and hazardous material (HAZMAT) and oil spill response and reporting procedures to all ships upon initial boarding or in a LOGREQ reply. The HS Contractor shall visit the ship at least once per day and shall be available on call at all times (24 hours per day, seven days per week) to assist the ship with requirements and to resolve problems.

b. The HS Contractor shall brief the designated ship representative about Contractor-provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. The HS Contractor shall provide its POC information with 24-hour contact phone numbers.

c. The HS Contractor shall provide the SUPPO with copies of applicable port tariffs and current prices for frequently ordered services, and with any other information provided by FLCY for distribution. Copies of applicable port tariffs and current prices for services shall be in English. The HS Contractor shall be prepared to take additional ships' orders for supplies or services not placed in the ordering LOGREQ. All orders placed after the ship's arrival shall be reported and prices confirmed (if non-priced items) using the LogSSR reporting requirements and online pricing application procedures described in Attachment 8.

8. POINT OF CONTACT

a. Based upon the ship's orders, the HS Contractor shall ensure the timely filling of all ship's requirements. The HS Contractor shall designate at least one senior company official to be the Point of Contact (POC) under this contract for logistic and contractual support. The POC shall be fully fluent in English. The HS Contractor is required to designate the POC at the time of contract award.

b. All HS Contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port. All correspondence shall be in English. All electronic communication between visiting vessels and the HS Contractor shall be copied to the FLCY Contracting Officer and Logistic Support Representative emails specified at the time of contract award. The HS Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer from the HS Contractor.

9. ORDERING SUPPLIES AND SERVICES & PROVIDING GENERAL ASSISTANCE

The ship(s) will submit LOGREQs that include requests for a variety of services and supplies. The first obligation of the HS Contractor is to verify if any of the requested services and supplies can be provided free of charge by the host nation.

DELETED.

If services and supplies are not available free of charge from the host nation, they must be provided if within the scope of this contract. The Contracting Officer will be notified if there is a question regarding the scope of the contract. If these services and supplies are not priced in the contract, or if these services and supplies are available under other U.S. Government contracts, the following applies:

a. Passing Requirements to other U.S. Government Contractors: The HS Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts (e.g., Prime Vendor or Defense Energy Supply Center (DESC)) for various supplies and services required. This husbanding service includes all necessary actions to facilitate the acceptance of supplies or services rendered under U.S. Government contracts. Any disputes or discrepancies arising from the order will be resolved directly between the SUPPO and the other Contractor(s). The HS Contractor shall also facilitate any necessary force protection vetting requirements so that other U.S. Government contractors can perform their contractual requirements.

b. The U.S. Government will not pay the HS Contractor for any personal requests from individual crewmembers, whether military or civilian.

c. The HS Contractor shall install all ordered equipment upon the ship's arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

d. Money Exchange Services: The HS Contractor shall arrange for authorized moneychangers to exchange U.S. dollars for ship personnel into local currency. Money Exchange services shall be made available onboard ship to crewmembers at least two hours daily with buy-back service on the day before the ship's departure. The moneychangers may include a commission of not more than plus or minus 1.5% difference from the Official Exchange Rate. A locally-available and verifiable currency exchange rate may be used as the Official Exchange Rate. Verification of the exchange rate shall be provided to the Ordering Activity at the time of service. The HS Contractor shall maintain adequate records justifying its basis for determining the Official Exchange Rate and shall make those records available to the U.S. Government upon request. This Official Exchange Rate will be used for financial conversions not covered by payments in U.S. dollars.

e. Laundry Services: The HS Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Laundry and dry cleaning services that are required by the ship from the laundry and dry cleaning vendor will be ordered from the vendor by the ship. Payment for services will be made by the ship to the vendor rather than through the HS Contractor. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure. The HS Contractor shall assist in resolving vendor billing discrepancies.

f. Interpreter Services: The HS Contractor shall provide interpreter services to assist the Supply Officer to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract. This limited set of interpreter services is required under the Management Services LINE ITEM and is separate from the interpreter services required under LINE ITEM XX18.

g. Mail Delivery Services: The HS Contractor shall provide daily mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

h. Morale Welfare and Recreation (MWR) Services: The HS Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) Contractor servicing the ship. If an ITT contract has been awarded which covers the location of the ship's visit then the HS Contractor must refer all MWR requests to the authorized ITT Contractor. If there is an ITT contract, the ITT Contractor is the U.S. Navy's sole representative for this service. Under no circumstances will the HS Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship. In the absence of an MWR contract, the HS Contractor shall provide advance information on all recreational/liberty activities available in local area. Information (with associated costs) shall include, but is not limited to, sightseeing tours, entertainment, sporting events, transportation, lodging and visitor tips. The HS Contractor shall coordinate all recreational/liberty requirements communicated by the ship. The HS Contractor shall disseminate information on the full scope of recreational/liberty opportunities, sightseeing tours, entertainment, sporting events, local area transportation and lodging. The HS Contractor shall plan, coordinate and assist as necessary, in port requests for entertainment, athletic competitions, sightseeing tours and unit parties/picnics.

i. Immigration, Customs and Visa: The HS Contractor shall assist ship personnel with immigration, customs and visa requirements into the country of the port visit.

j. Medical Emergencies: If requested, the HS Contractor may be required to make arrangements for emergency medical treatment of ship's crewmembers while the ship is in port. In cases where a member is airlifted into a port by the ship, the HS Contractor, in coordination with the U.S. Consulate/Embassy, will arrange for proper medical care until the member can be returned to the ship, or evacuated to the United States. If there are costs associated with arranging these services, the HS Contractor shall obtain approval from the SUPPO/Contracting Officer prior to providing the support.

k. The HS Contractor shall facilitate the ship's timely departure. The HS Contractor shall provide timely invoices of provided services and supplies to the Supply Officer at the time of the pre-sailing visit. The HS Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided. The HS Contractor shall remove all provided equipment.

l. Pre-Sailing Visit: The HS Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the HS Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. Written receipt for acceptance of all services shall be obtained during this visit. The Ordering Activity shall provide a check or DD1155 for all finalized invoices prior to departure where the content of the invoice is not disputed. The HS Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The HS Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The HS Contractor's point of contact for this information shall be the Commanding Officer, Command Duty Officer, Operations Officer, or the Officer of the Deck.

10. UNIQUE / PARTICULAR SITUATIONS

a. Assisting two ships: If a ship, not in port, requests assistance from the HS Contractor, the ship will pay the husbanding services subsequent days' fee. However, if at the same time, using the same helo or other transport, the HS Contractor provides service to two ships (e.g. delivery of fresh fruits and vegetables (FFV) at one time for two ships using the same helo), the HS Contractor is entitled to bill for only one subsequent day.

b. Under Class I size vessels (based on the number of personnel): If two small vessels, under the size of Class I, IA or IB come into the port together, submit consolidated requirements, and have approximately the same schedule, the HS Contractor will only charge for one Class I, IA, or IB vessel vice two. However, if only one such vessel comes into port, the HS Contractor will charge full Class I rates.

c. Frequent ship visits between ports: If a ship is frequently visiting two or more ports, it will be charged the first day rate for the first day in each port. If the ship returns to one of the ports within 3 days (i.e. prior to the fourth calendar day), subsequent visits to that port will be charged at the subsequent day rate. On the fourth day or subsequent day, the ship will be charged the first day rate (example: If the ship departs Friday and comes back on Saturday, Sunday or Monday, it will be charged subsequent day fees. If the ship comes back Tuesday, it will be charged the first day rate).

d. If a ship comes into port and does not notify the HS Contractor or request any assistance, there will be no fees (e.g. if just dropping off passengers). If vessels request assistance of any kind, they will be charged first or subsequent days, subject to the conditions in paragraphs (b) and (c) above.

e. Ship Repair: If ship repair is required and performed in one of the ports covered by this contract, husbanding services will be provided only if requested by the ship. U.S. Navy Ships in shipyards at locations covered by this contract may order supplies and services from this contract without the requirement to also order Management Services.

f. The HS Contractor is required to be able to simultaneously husband thirty (30) ships throughout the Region, including up to two (2) Class V and two (2) Class IV ships in a single port simultaneously.

g. Order of Priority of Usage: The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities if the port requires use of port-provided supplies and services or, if the port-provided supplies and services are less expensive than similar services provided by the HS Contractor or its subcontractors, or finally provide it themselves to include subcontractors. Where the reasonable cost of mobilization/demobilization for U.S. Government owned equipment exceeds the quoted price of the sub lot line item it is intended to replace, the HS Contractor shall use the least cost alternative to meet the requirement. Information on availability of host nation provided services, where available, is annotated on the Attachment 2 pricing schedules. If, for any reason, an item that would otherwise be provided by the Government, host nation, or port authority is not available, that item shall be provided by the HS Contractor at the price quoted in the Attachment 2 pricing schedules.

h. MARK V High-Speed Interceptor Craft (HSIC): MARK V (HSIC) Special Operations Craft may be in port or in the vicinity for up to 90 days conducting operations. The HS Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and only one Management fee shall be charged when husbanding two MARK V vessels at the same time.

i. For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The HS Contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit.

j. Hazardous Material Disposal (HAZMAT)/Shipboard Generated Industrial Waste (SGIW): The HS Contractor shall not dispose/offload any hazardous waste requirements unless approval has been provided by the appropriate Navy Environmental office. Currently the only authorized locations approved to offload HAZMAT are Apra Harbor, Guam; Yokosuka, Japan; Sasebo, Japan; Hong Kong SAR and Singapore.

k. Other Personnel - Other U.S. personnel conducting business at locations covered by this contract may order off the contract without incurring Management Service Fees. Support of 'Other Personnel' is limited to Logistics Response Teams and ship detachments (e.g. ship's beach detachment, site survey team, advance force protection teams) in direct support of a ship visit. These orders do not involve continuous management of husbanding services and may be for items such as vehicles, phones or other services. For example these services may be ordered from the HS Contractor when hotels, transportation and rental of cellular phones are required for the personnel described above.

l. Short Notice Orders: The contractor shall perform all orders that are issued within the minimum order lead time annotated for each lot in the Attachment 2 schedules. If orders are issued with less than the required minimum order lead time prior to the start of performance, the contractor shall use its best efforts to provide the required supplies and services in accordance with the order's delivery schedule but shall promptly inform the government if it will not be able to meet the delivery schedule.

m. The minimum order lead time applies to all Lot Line Items with the exception of XX40, Operations Other than War, which remain subject to the requirements stated in Attachment 9. The HS Contractor shall provide all requested services, to include mobilization of required equipment, when the Ordering LOGREQ is received from the Ordering Officer or their representative with a lead time greater than the number of days specified in the Attachment 2 schedules for the Lot location where performance is to take place.

11. LINE ITEM DESCRIPTIONS

a. LINE ITEM XX01/XX02 - FIRST DAY/SUBSEQUENT DAY HUSBANDING SERVICES (ANCHORAGE AND PIERSIDE)

The HS Contractor shall provide husbanding services to ships visiting the ports in the Region covered by this contract. Line Items XX01 and XX02 require that the HS Contractor perform all services and provide all supplies necessary to fully comply with the tasks and responsibilities described at paragraphs 1-10 above unless a task or responsibility is specifically included in a separately-priced Line Item below. The HS Contractor's responsibilities under these Line Items start prior to the arrival of the ship and continue after the ship's departure.

The price for Line Items XX01 and XX02 covers all regular and overtime labor of HS Contractor's personnel supporting the ships plus indirect expenses, including all management, overhead, office expenses, and profit for performing tasks required by these Line Items.

The husbanding fee is based on the Class of the ship and broken down by the First Day and Subsequent Day of the ship visit. A husbanding fee may be provided to the HS Contractor for services rendered prior to the ship's visit, i.e. assistance to the ship's logistics response team.

b. LINE ITEM XX03 - TRASH REMOVAL

1. Trash removal service is the collection and disposal of refuse (i.e., trash) including liquid, semi-liquid, or solid garbage. Refuse does not include explosives and incendiary waste, or waste contaminated by medical and radiological processes.

2. The HS Contractor shall remove and dispose of "refuse" from the ship and areas surrounding trash bins, as well as any spilled refuse. The HS Contractor shall provide dedicated refuse bins to the ship. The HS Contractor shall collect all loose refuse placed adjacent to refuse bins. The HS Contractor shall immediately clean up any spilled refuse. The HS Contractor shall properly dispose of all collected refuse.

3. For ships at pier side, the HS Contractor shall place containers or trucks within twenty-five (25) meters of the ship or as permitted by port regulation, or barges alongside the ship. The HS Contractor shall empty the containers or barges when full and shall assure their continuous availability for trash disposal.

4. For ships at anchorage, the HS Contractor shall remove trash at the times agreed to by the HS Contractor and Supply Officer. The frequency of removal shall be as follows:

SHIP CLASS	DAILY FREQUENCY
I, IA, IB	1
II	2
III	3
IV and V	Continuously Via Dedicated Barge when permitted

5. For trash collection at anchorage, the trash barge shall be available 24 hours a day (where not contrary to law or port regulation) with suitable self-fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

6. For trash collection by barge, the HS Contractor shall provide trash barges/scows (with tug service if barge is not self-propelled) for ships at anchorage. The barges shall be completely empty at time of arrival at the ship. In situations where an empty barge is not available, the contractor shall provide a system to measure the volume of trash deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of the trash. All trash barges/scows shall be properly fendered to prevent damages to U.S. Government vessels. The HS Contractor shall have ready access to sufficient barges and equipment to support at least two (2) ships at anchorage simultaneously. The barge's crew shall be entirely responsible for the tending of lines and for barge's security. The movement of trash from the ship to the barge shall be performed with care by the ship's sailors and in the manner ensuring the safety of the HS Contractor's crew and barges. Any instances of unsafe practices shall be brought to the attention of the ship's Commanding Officer, to ensure that corrective and preventive action is taken.

7. In instances of bad weather or emergency where the ship must depart on short notice, the HS Contractor shall remove barges within four hours of being directed to do so by the ship. Should a vessel with a trash barge alongside experience an emergency where the ship must depart, the SUPPO will advise the HS Contractor at least four (4) hours in advance for the barge pick-up at no additional cost to the U.S. Government.

8. The HS Contractor shall submit, as an attachment to the invoices, a document that certifies the quantity collected and the name of the disposal plant where the trash will be disposed. The HS Contractor is also responsible to follow any environmental regulations required by each country. The HS Contractor is required to keep all disposal certificates and shall make them available to FLCY upon request.

9. Whether at anchor or pierside, U.S. Government personnel will dump the trash on the barges or in the containers.

10. Any spillage of refuse in the course of the removal operations shall be cleaned up immediately by the HS Contractor. Refuse containers, when used and when emptied, shall be returned to their original position with the lids (if any) replaced thereon.

11. The HS Contractor shall be paid based on the ACTUAL CUBIC METERS of trash removed. The HS Contractor shall be entitled to bill for 60 CM under sub lot line items XX03AC and XX03AD where the actual volume of trash removal is less than 60 CM (per order).

12. Where trash is required to be segregated, the Ordering Activity shall be required to segregate the material at the time of disposal. The HSP shall be responsible for providing separate containers for each vessel, clearly marked with the required categories and for informing the Ordering Activity, upon arrival, that segregation is required. If the Ordering Activity does not segregate trash as required, the HSP shall inform the Ordering Activity and Logistic Support Representative (LSR) prior to departure and bill for the cost of trash segregation under Line Item XX43, Incidentals within 48 hours after the vessel's departure.

c. LINE ITEM XX04 - COLLECTION, HOLDING, AND TRANSFER (CHT)

1. The HS Contractor is responsible for the entire cycle necessary to collect, remove, and dispose the Collection Holding Transfer (CHT) bacteriological/chemical liquids from ships throughout the area covered by this contract. The HS Contractor shall provide all necessary equipment, personnel and facilities to perform the services including pumps, hoses and connections compatible with the ships being serviced. The HS Contractor shall be responsible for the supervision of the collection, transportation and disposal services to avoid any overflow of waste on the barge and at the pier. Services shall commence upon ship's arrival whether, at anchor or pierside. The HS Contractor shall pre-position CHT barges, when necessary, in accordance with force protection or other requirements.

2. The HS Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

3. The HS Contractor shall remove sewage from the ship in HS Contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

4. The HS Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT. The Government reserves the right to use its own metering device to verify measurement of sewage discharge. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

5. The HS Contractor shall provide CHT hoses of sufficient length from HS Contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6. The HS Contractor shall properly dispose of all sewage. CHT collection, removal and disposal shall be priced based on the following conditions:

    a. (XX04AA) – CHT BY TRUCK: The husbanding HS Contractor shall provide services when the visiting ship is at pierside.

    b. (XX04AB) – CHT BY BARGE: The husbanding HS Contractor shall provide services when the visiting ship is at anchorage or the port authority has issued a directive stating that service must be performed by barge or the barge has been ordered by the ship. The HS Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

7. The CHT service shall be a dedicated service. The term "dedicated service" means a service provided exclusively to the U.S. Government. In those limited number of cases where this is not possible, the contractor shall provide a system to measure the volume of sewage deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of CHT.

8. The HS Contractor will be guaranteed a minimum daily quantity of 60 cubic meters for providing these services even if the actual cubic meters of CHT removed is lower than 60 cubic meters. Note: 264.2 gallons = 1 CM (cubic meter).

9. The HS Contractor shall submit, as an attachment to the invoices, a document (certified by the ship's personnel) that indicates the quantity collected and the name of the disposal plant where the CHT will be disposed. The Government reserves the right to independently verify the actual volume of CHT discharged using a certified flow measuring device.

10. The HS Contractor shall request the ship's personnel to verify all removal figures at time of CHT collection. The HS Contractor shall follow any environmental regulations required by each country. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped or 60 cubic meters per day, whichever is greater. The HS Contractor shall submit a request to FLCY for the difference, accompanied by disposal certificates. FLCY will investigate and arrange for payment of any additional amounts that are determined to be due.

11. The ship's personnel shall verify all removal figures at time of CHT collection and the ship duty engineer shall certify the accuracy of the HS Contractor's report in writing. The HS Contractor is also responsible to keep all disposal certificates and shall make them available to Contracting Officer upon request.

12. Deleted

d. LINE ITEM XX05 - YOKOHAMA OR COMPARABLE TYPE FENDERS

1. The HS Contractor shall furnish Yokohama or comparable type fenders for all classes of ships in accordance with the Schedule of Supplies and Services. Fender size is not specified as this is a performance based service. Fenders provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX05AB). The fenders quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee PER Yokohama or comparable type fender, and there is another SUBLINE ITEM for all costs associated with installation, and removal of one fender, as well as round trip costs associated with transport of the fender from another port, if required.

2. Rental is on a daily(24-hour) basis, per fender. Installation, removal, and transportation are charged as a "lot" per fender. The HS Contractor shall be responsible for securing the fenders to the pier.

3. The HS Contractor shall provide fenders with a minimum of two (2) mooring lines.

4. Fenders shall be provided free of charge by Royal Navy Liaison Office (RNLO) in Sembawang port to ships berthed at piers 5,6, and 7.

5. Sub lot line item XX05AG is applicable only to submarine fenders. Sub lot line item XX05AA shall be used for all other class 1 vessels. Recognizing that mobilization/demobilization costs for submarine fenders (XX05AG) vary significantly from those of other type fenders, transportation charges for submarine fenders shall not be subject to the quoted transportation charges of XX05AF. Instead, all transportation, storage, setup, mobilization and demobilization charges associated with submarine fenders (XX05AG) shall be included in the quoted price of this sub lot line item.

e. LINE ITEM XX06 - FRESH POTABLE WATER

Potable water is defined as fresh drinking water of a quality not less than that prescribed in:

1. Current Drinking Water Standards, as published by the United States Environmental Protection Agency, Office of Water and shall comply with specifications of the National Primary and Secondary Drinking Water Regulations (NPDWR). See Attachment #18.

2. Code of Federal Regulations Title 21, Volume 2, Part 165.110 (21CFR165).

    a. These documents are incorporated by reference with the same force and effect as if they were given in full text. Full text may be accessed electronically at these websites: http://www.epa.gov/OGWDW and http://www.tdh.state.tx.us/bfds. The HS Contractor shall be responsible for identifying and providing water from a source that meets U.S. Government requirements. The U.S. Government reserves the right to accept deliveries of potable waters that do not comply with above specifications, and to bring the water up to specification standards through chlorination.

    b. The HS Contractor shall provide for the delivery of fresh potable water to the ships as ordered. The HS Contractor shall be paid for the amount of water ordered by the vessel. The barges, tankers or trucks and equipment used for transfer, storage and transportation of potable water shall not be used for cargo other than potable water, and must be equipped with independent pipe systems and working, CERTIFIED METERING DEVICES.

    c. Source of Water. Water deliveries are to be made from sources that meet the requirements of paragraphs (2)(a) and (2)(b) above. If the water source does not meet the requirements of potable water, the HS Contractor shall be required to provide water from an alternate approved source at no increase in the contract price.

    d. Potable water pierside shall be delivered by pipeline if available. If pipeline is not available, potable water pierside shall be delivered by truck or barge and the ship will be charged in accordance with SUBLINE ITEM XX06AB. If a vessel is at anchorage SUBLINE ITEM XX06AC applies.

3. The HS Contractor shall be paid based on the ACTUAL METRIC TONS of potable water received on the ship. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities provided to the ship.

4. If potable water delivery is via barge, the HS Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position water Barges, when necessary, in accordance with Force protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

f. LINE ITEM XX07, XX08, XX09 – PILOTS, TUGS, LINEHANDLERS

1. The HS Contractor shall arrange pilots, tugs, and line handlers as ordered. The HS Contractor shall coordinate with port authorities, as necessary, to ensure that the services are available at the times requested. It should be noted that the port authority or other authorized sources provide these services, and are, therefore, to be priced in accordance with current tariff rates.

2. The HS Contractor shall provide tugs to bring ships to and from berthing locations. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

3. Only if pilots, tugs, or line handlers are not available through the port authority, the HS Contractor shall use commercially available sources and priced in accordance with the unit quantities indentified in the pricing schedule (LINE ITEMs XX07AA, XX08AA, XX08AB and XX09AA).

g. LINE ITEM XX10 - WATER FERRY/TAXI SERVICES

1. The HS Contractor shall provide water taxis to transfer ship personnel to and from the ship and the fleet landing in accordance with Attachment 16 - Water Taxi Specifications. At the commencement of service, the HS Contractor is required to advise the ship of scheduled breaks and any changes to the taxi service schedule. The HS Contractor shall provide water taxi service when the vessel is expected to be at anchorage for twenty-four (24) hours or more. Water taxi service shall be always available, with the exception of inclement weather, during the two (2) one-hour meal breaks and during refueling. At the commencement of service, the HS Contractor is required to advise the ship of scheduled breaks and any changes to the taxi service schedule.

2. The hourly rate for taxi water service shall include a minimum of two (2) qualified operators (a driver and one other operator), any other helpers or crew members required by local authorities, all insurance, fuel, holiday surcharges, overtime, and other operating expenses. Operator qualifications are set forth in paragraph (16) below.

3. Service begins when the first water taxi is alongside the designated pick-up point and ends when the last passenger disembarks from the water taxi at the designated drop-off point as ordered by the ship. However, when required to arrive early for inspection as a force protection measure, service begins at time of inspection. The HS Contractor shall be entitled to a six (6) hour minimum rental fee in cases where actual usage is less than 6 hours (per order).

4. Deleted

5. If the HS Contractor cannot provide the size of water taxi ordered, the HS Contractor shall provide a larger size water taxi, or a combination of water taxis, that in total capacity equates to the size of the water taxi ordered. In any event the ship will be charged for the size of the water taxi ordered. For example, if one (1) 250-pax water taxi is ordered and is not available, then two (2) 125-pax water taxis shall be provided for the rate of one (1) 250-pax water taxi if acceptable to the Ordering Officer.

6. The HS Contractor shall ensure that the water taxi is in sound mechanical condition and meets all safety standards required by local laws and regulations to preclude breakdown and injury. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of the port or the country in which the port is located. Apart from compliance with local laws and regulations, the HS Contractor shall meet all additional requirements as set forth throughout the PWS. Water taxi shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, and fitted for service required. Further, water taxi shall be in a clean condition when presented for service and shall be free of debris. The water taxi shall be sufficiently clean so as not to soil passengers, their clothing, or possessions with dirt, grease, oil, or other matter. If the water taxi does not meet the requirements of this paragraph as determined by the Ordering Officer, the U.S. Government shall have the right to reject the water taxi for performance of services.

7. The HS Contractor shall ensure that all water taxis are fully licensed, registered, and insured, including adequate liability insurance, in accordance with local laws and regulations.

8. Each water taxi shall be equipped with at least one clean and serviceable life jacket for each passenger and crewmember, and all jackets shall be stowed in a readily accessible place.

9. Except as otherwise specified herein, the service shall include all equipment needed to transport personnel between the vessel anchored in the outer harbor, or in the inner harbor, fleet landing, or any designated pier or berth within the port. If it becomes necessary to change the landing point of the water taxi (pier or berth) within the port, the HS Contractor shall dock at the new landing point. In the event this occurs, it will be considered to be a "Change" to the contract. Any entitlement to and any amounts of additional or reduced charges shall be determined pursuant to the clause entitled "Changes" that is part of Contract Terms and Conditions – Commercial Items (FAR52.212-4)".

10. All water taxis used by the HS Contractor shall provide overhead covering.

11. Before the commencement of any services under this contract, the HS Contractor shall make the water taxi available to the Ordering Vessel's Commanding Officer or designated representative for inspection.

12. The following information shall be conspicuously posted in English and the language of the country in which the port is located:

    a. Current operator's/captain's license.
    b. Passenger/weight capacity limits notice.
    c. Location of life jackets and other life saving equipment.
    d. Location of all exits indicated in large letters.
    e. Emergency procedures.

13. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

14. 'Adverse weather' conditions are weather conditions in which operations of water taxis are unsafe for passengers and shall be determined by the Commanding Officer, Command Duty Officer, Operations Officer, Officer of the Deck, or local port authority. Operation of the water taxi shall be in a safe and seaworthy manner. Operation of water taxis is not allowed under adverse weather conditions.

15. The consumption of alcoholic beverages shall not be permitted aboard the water taxi.

16. Operator Qualifications: All personnel or employees of the HS Contractor operating water taxis, shall have all certification required and issued by the law of the country in which the port is located for the operation of the type, class, or size of water taxi being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the water taxis are to be operated to ensure the water taxis are operated in a safe and seaworthy manner. At least one operator on each boat must speak English. The HS Contractor is required to provide a minimum of two (2) qualified operators for each water taxi at all times.

17. Security: During the term of this contract, the ship(s) to be serviced will provide adequate and sufficient security personnel for maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the ship's Commanding Officer or designated representative. When such naval personnel are embarked in a HS Contractor-operated water taxi, he will be responsible for the good order and discipline of naval personnel.
18. In the event of a water taxi breakdown, immediately prior to, or during a trip, the HS Contractor shall immediately provide a replacement water taxi that complies in all respects with this contract, at no additional cost to the U.S. Government. If a water taxi is not operable when required under this contract, the HS Contractor shall immediately provide at no additional expense to the U.S. Government, a replacement water taxi which complies in all respects with this contract.

19. Any personal articles or items found on the water taxi after completion of each trip shall be turned over to the ship's Security Officer or his direct representative.

20. To verify a claim by the HS Contractor for any damage or destruction caused by the U.S. Government, it shall be the responsibility of the HS Contractor to ensure that the water taxi is jointly inspected before and after each trip by the HS Contractor and an authorized representative of the U.S. Government.

21. When providing water taxi service to aircraft carriers and amphibious helicopter carriers, the water taxi height depends on carrier deck overhang and pontoon width, i.e., the wider the pontoon the farther out the water taxi will be located with subsequent increased clearance. The requirement is that pontoon width/water taxi height/deck overhang dimensions must be such that the water taxi is able to make aft, port and starboard side approaches with adequate clearance between water taxi superstructure and carrier deck overhang.

22. Inspection and acceptance criteria for water taxi services. The Commanding Officer or his designated representative of the ARMY/USS/USNS/USCG ship shall inspect and accept all liberty boats/water taxis prior to transporting any personnel. Each order for liberty boat/water taxi services is made on the basis that the request is to be considered a final order/obligation of the US Government only after each water taxi has been inspected and accepted by the ship's representative. The ship's Commanding Officer is solely responsible for the safety of his crew and the subsequent acceptance of liberty boat/water taxi services. Upon ships, Commanding Officer's security personnel can inspect the water taxi's personnel. The following features or components may be inspected prior to acceptance.

    a. HULL
        i. Watertight integrity of weather decks, bulkheads, watertight closures and interior hull structure.
        ii. Superstructure (including masts and stacks).
        iii. Railings, bulwarks and their attachment to hull, especially guardrails and lifelines.
        iv. Provisions for drainage of seawater from exposed decks.

    b. MACHINERY
        i. Main propulsion and auxiliary machinery essential to operation of craft.
        ii. Sea and bulkhead closure valves.
        iii. Bilge suction strainers and dewatering systems bilge pumps to be tested by operation.
        iv. Bilges free of flammable liquids.

    c. ELECTRICAL
        i. Cables.
        ii. Navigation, deck and emergency lighting.
        iii. Rotating electrical machinery, e.g., generators and motors.
        iv. Storage batteries.

    d. LIFESAVING EQUIPMENT
        i. Life preservers sufficient number for maximum capacity of craft, accessible and in satisfactory condition.
        ii. Life raft(s) and hydrostatic release (where applicable) sufficient for maximum capacity.
        iii. First aid kits, life rings and distress lights.
        iv. Distress signaling devices.

    e. FIRE FIGHTING EQUIPMENT
        i. Fire pump subject fire hose to fire pump pressure.
        ii. Portable fire extinguishers.
        iii. Fixed systems, e.g., CO2 cylinders

    f. STEERING APPARATUS

g. MTSC SYSTEMS AND EQUIPMENT
   i. Harbor charts.
   ii. Ground tackle and mooring lines.
   iii. Whistle/fog horn, bell.
   iv. Compass.
   v. Radar.
   vi. 2 way radio capable of bridge to bridge communications.
   vii. Current licenses.

23. In the event the U.S. Government rejects a water taxi, the U.S. Government shall not be liable for any costs the HS Contractor incurs in presenting said water taxi for inspection.

24. Deleted

25. The HS Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times. Logs must be available upon request for U.S. Government review and inspection.

h. LINE ITEM XX11 - TRANSPORTATION SERVICE (BUS SERVICE AND VEHICLE RENTAL SERVICE)

1. GENERAL REQUIREMENTS :

   a. All drivers must be fully qualified and possess valid driving licenses. Drivers shall be familiar with local area and conversant in English. All vehicles shall be registered, licensed and insured (including adequate passenger liability insurance). The HS Contractor is responsible for delivering all cargo and personnel to the correct location on schedule.
   b. Deleted

   c. The HS Contractor shall provide vehicles that have been properly maintained and serviced. If a vehicle does not meet the requirements of this contract as determined by the Ordering Officer, the U.S. Government shall have the right to reject the vehicle for performance of services. The HS Contractor shall ensure that each vehicle is jointly inspected before and after a trip by the HS Contractor and an authorized representative of the U.S. Government. The U.S. Government will not consider any claim for damage to a vehicle which has not been inspected.

   d. If a vehicle is not operable when required under this contract, the HS Contractor shall provide, at no additional expense to the U.S. Government, a replacement vehicle within three (3) hours that complies in all respects with this contract.

   e. All vehicles shall include drivers.

2. BUS SERVICE

   a. The HS Contractor shall provide air-conditioned bus services on an hourly rate basis and bill under LINE ITEM XX11AA. The hourly rate shall include one driver or operator, any additional helpers or crew required by local authorities, all insurance, fuel, holiday surcharges, overtime, and all other operating

expenses. Any additional driver, if required, shall be priced separately. Any tolls for long distance trips (over 50 kilometer radius) will be reimbursed at cost.

b. The HS Contractor shall ensure that the bus is in sound mechanical condition and meets all safety standards required by local laws and regulations. Further, the bus shall be in a clean condition when presented for service and shall be free of debris. The bus shall be sufficiently clean so as not to soil passengers, their clothing or possessions with dirt, grease, oil, or other matter.

c. In the event of a bus breakdown, the HS Contractor shall provide within two hours, at no additional expense to the U.S. Government, a replacement bus complying in all respects with this contract.

d. Any personal articles or items found on the bus after completion of each trip shall be turned over to the ship's Ordering Officer.

e. The HS Contractor shall be responsible for ensuring that the HS Contractor and an authorized representative of the U.S. Government jointly inspect before and after a trip each bus. The U.S. Government will not consider any claim for damage to a bus, which has not been inspected.

f. The minimum bus capacity shall be 40 passengers.

g. A minimum daily price of four (4) continuous hours shall apply for each bus ordered less any time associated with bus breakdown or getting lost.

h. Drivers must be familiar with the area, have an appropriate driver license, and speak English. In the event the driver is unable to speak English, the contractor shall furnish an English speaking rider on the bus.

3. VEHICLE RENTAL SERVICE

a. Vehicle Specifications, Maintenance, and Malfunctions

(i) The HS Contractor shall furnish "new" air-conditioned vehicles (i.e., not more than five years old), in good order and condition and otherwise in full compliance with best commercial practices and local laws and regulations.

Sedans or SUVs shall have a minimum capacity of four (4) passengers and 1600cc engine.

In the event a "new" vehicle is not available in certain countries, the contractor shall contact the Contracting Officer to request a waiver from the requirement and provide background information as to why a waiver would be appropriate. The Contracting Officer will consider, and grant or refuse, the request. Vehicles shall be priced on a daily rate, except as noted below. They shall be equipped with front and back seat belts, an emergency triangle, spare tire, jack and complete set of tools for changing a flat tire, as well as any other equipment required by local authorities. Upon initial rental, the gasoline tank shall be full. The prices for vehicles rented are based upon an assumption that the vehicles will be returned with an empty tank of gas. Therefore ships will be charged for a full tank of gasoline at the time of rental. There shall be no surcharge applied to the commercial price of the fuel. Vehicles can be returned with any amount of gasoline. Ships shall not be responsible for returning the vehicle with a full tank of fuel, and the HS Contractor shall not be obligated to credit the ship for the remaining fuel.

(ii) The HS Contractor shall provide vehicles that have been properly maintained and serviced, including all motor oils, lubricants, antifreeze, coolants and other fluids such as windshield washer fluid, and be responsible for all emergency repairs and services.

(iii) Should any vehicle break down while in the U.S. Government's possession, the HS Contractor shall replace it with another vehicle of the same or larger size as quickly as possible, but in any case no more than

three (3) hours later. The replacement shall take place either at the point of breakdown or at the HS Contractor's office closest to that point; whichever is more convenient for the U.S. Government. All repair or replacement costs, including transportation, shall be at the HS Contractor's expense. The U.S. Government shall be credited an hourly rate, pro-rated on the daily rate, for the rental cost between breakdown and vehicle replacement.

b. Substitution of Vehicles

(i) If the HS Contractor does not have available the type of vehicle ordered and the vehicle has been ordered at least 24 hours in advance, the HS Contractor shall substitute a vehicle type equal to or better than the vehicle ordered at the price listed for the type of vehicle originally ordered. EXAMPLE: If a Group B car is ordered but unavailable, and if no other Group B vehicle is available, the HS Contractor shall furnish a higher group vehicle at the price listed for the Group B vehicle originally ordered.
(ii) In the case of passenger or cargo vans, there shall be no substitution without the approval of the ship placing the order.

c. Deleted.

d. General Description of Vehicle Types

(i) The vehicles shall meet the general description set out below:

Medium-size Sedan (Group “B”): 2 - 4 doors; 4 - 5 passenger capacity; air conditioning; minimum 1600 cc engine sedan.

Passenger Van (Group “M”): 9-passenger capacity; air conditioning; minimum 2000cc engine (except for Hong Kong where capacity is 7 passenger).

Cargo Van (Group “X”): 12 Cubic Meter volume capacity, air conditioning; minimum 2000cc engine.

Executive Sedan with Driver (Group “Y”): 4 doors; 5-passenger capacity; air conditioning; minimum 1600 cc engine sedan. This group requires an executive sedan and shall be provided with a driver. Drivers must be familiar with local area, and must speak English. Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the ship's personnel of his arrival. No individual driver shall be required to drive more than 8 hours. Drivers must not have been driving within the previous 8 hours. Rentals less than 24 hours will be charged on an hourly pro-rata basis, based on the daily rate, with the HS Contractor entitled to a minimum charge of 4 hours. The HS Contractor shall be responsible for payment of any fines and legal costs incurred as a consequence of the violations of traffic laws or regulations by the provided driver. The daily rate shall be inclusive of the first 250 kilometers per day, all necessary equipment, licensed drivers, all liability insurance as required by local law, holiday and overtime costs, fuel, all other operating expenses, and all other incidentals. Any additional kilometers per day beyond the initial 250 kilometers will be priced under SUBLINE ITEM XX11AG. The U.S. Government will reimburse the HS Contractor for additional costs in two cases: for highway tolls, and for the driver’s overnight accommodation up to $120.00 or equivalent local currency, when required by U.S. Government business such as travel to another city, and upon presentation of an original invoice (using the online pricing application).

15-Passenger Buses with Driver (Group “Z”): All requirements concerning the rental of a vehicle with the driver described above in the “Executive Sedan with Driver” shall apply to this paragraph also.

e. Deleted.

f. Insurance and Liability.

(i) The prices for vehicle rental services, as set forth in the schedule, shall be subject to the conditions below.

(ii) The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cause, except where the loss or damage is caused by the willful and wanton negligence of the U.S. Government employee.

(iii) The HS Contractor and any Subcontractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, resulting from the fault, negligence, or wrongful act or omission of the HS Contractor, its subcontractors, its agents, or employees.

(iv) The HS Contractor shall provide and maintain at its expense, all vehicle operator's insurance required by the law of the country in which the vehicle is to be operated. All necessary insurance certificates shall be provided with the rental vehicle. Such insurance shall include all coverage required by law for bodily injury, collision, and property damage liability. The HS Contractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, within the required policy limits, arising out of or in connection with the rental or use by the U.S. Government, its agents or its employees of any vehicle under this contract.

(v) Paragraph (iv) shall not be construed as limiting the HS Contractor’s liability to the amounts of the required minimum insurance coverage specified therein.

g. Traffic Violations and Fines. Each vehicle operator shall be responsible for payment of fines and legal costs incurred as a consequence of the violations of traffic laws or regulations.

h. Mileage and Deposit Charges. There are no mileage or deposit charges for the vehicles rented under this contract for all mileage travelled within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor). Outstation charges, surcharges, or additional mileage rates shall not be assessed for travel within the 250 kilometer radius as the vehicle is rented on a daily basis with usage in accordance with the ordering activity’s needs. The HS Contractor shall be entitled to an additional half days’ rental fee at the daily rate for each day in which vehicle trips are required beyond the 250 kilometer radius described above.

i. Time Periods of Rental. Rental time shall begin once the vehicle and driver are available for use alongside the Ordering Activity. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than 8 hours straight. Drivers must not have been driving within the previous 8 hours.

4. LIGHT TRUCKS (LOT LINE ITEM XX11AI)

a. The HS Contractor shall provide covered, lockable trucks with a driver to load/off load cargo and mail. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and offloading.

b. The HS Contractor shall be responsible for security and prevent loss/damage/destruction of cargo and mail.

c. The HS Contractor shall return all items left in rental vehicles to the ship’s Ordering Officer.

d. The HS Contractor shall obtain written acknowledgement of vehicle service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

e. The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cost, except where the loss or damage is cost by the willful and wanton negligence of the U.S. Government employee.

f. Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the ship's personnel of his arrival. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than eight (8) hours. Drivers must not have been driving within the previous eight (8) hours. Rentals less than 24 hours will be charged on an hourly pro-rata basis, based on the daily rate, with the HS Contractor entitled to a minimum charge of four (4) hours. The HS Contractor shall be responsible for payment of any fines and legal costs incurred as a consequence of the violations of traffic laws or regulations. The daily rate shall be inclusive of all mileage travelled within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor) , all necessary equipment, licensed drivers, all liability insurance as required by local law, holiday and overtime costs, fuel, all other operating expenses, and all other incidentals.

g. The HS Contractor shall provide vehicle service with qualified drivers for official government business.

h. The HS Contractor shall provide one-way transfer vehicles with drivers to transfer cargo between a designated pick-up point and a specified destination within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor). Outstation charges, surcharges, or additional mileage rates shall not be assessed for travel within the 250 kilometer radius as the vehicle is rented on a daily basis with usage in accordance with the ordering activity's needs. The HS Contractor shall be entitled to an additional half days' rental fee at the daily rate for each day in which vehicle trips are required beyond the 250 kilometer radius described above.

i. The HS Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

j. The HS Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

k. If the unit of issue is by "Day", then the rental period shall constitutes 24 hours.

i. LINE ITEM XX12 - FORCE PROTECTION SERVICES AND SUPPLIES

1. Heightened Vigilance: The HS Contractor shall be alert at all times in order to contribute to the protection of the ship and its crew. The HS Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The HS Contractor shall report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

2. The HS Contractor shall fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the HS Contractor shall identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the HS Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The HS Contractor shall arrange

introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

3. Contractor/Subcontractor Identification: The HS Contractor shall identify how contractor and subcontractor personnel will be recognizable to ship's personnel. This may be accomplished by a combination of picture ID, badges, uniforms, access lists, etc. The HS Contractor shall also identify how support vehicles/vessels will be marked so that they are readily identifiable to ATFP/ship's personnel.

4. See Attachments 7, 12, 13, and 14 for specific Force Protection requirements and procedures.

j. LINE ITEM XX13 - CAMELS, BREASTING, AND FENDERING BARGES

1. The HS Contractor shall furnish camels in accordance with the Schedule of Supplies and Services. The camels shall be flat surface platforms to be placed alongside the pier and sufficiently capable of breasting the ship away from the pier or from other ships.

2. The HS Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

3. The HS Contractor shall place additional fenders between the breasting barge and the ship when requested.

4. Breasting barge size is not specified as this is a performance-based service. The HS Contractor is responsible, as part of its understanding of the requirement, for determining the appropriate barge size for each combination of vessel class and berthing configurations required at each lot. Barges provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX13AD). The barges quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee for the barge, and there is another SUBLINE ITEM for all costs associated with installation, and removal of the barge, as well as round trip costs associated with transport of the barge from another port, if required.

5. Rental is on a daily (24-hour) basis, per barge. Installation, removal, and transportation are charged as a "lot" per barge.

k. LINE ITEM XX14 - LANDING BARGES

1. The HS Contractor shall furnish landing barges (i.e. pontoons) in accordance with the Schedule of Supplies and Services. The landing barges shall be flat surface barges for positioning at the stern or side of the vessel to serve as a loading/unloading platform for water taxi personnel or cargo; they shall not interfere with the operations of the ships' elevators or other equipment. Although landing barges are primarily used for class IV and V vessels, they may be ordered for use with any class vessel.

2. Landing barge size is not specified as this is a performance-based service. The HS Contractor is responsible, as part of its understanding of the requirement, for determining the appropriate barge size for each combination of vessel class and berthing configurations required at each lot. Barges provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX14AD). The barges quoted for each sub lot line item shall be safe and useable for the intended class of ship

at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee for the barge, and there is another SUBLINE ITEM for all costs associated with installation, and removal of the barge, as well as round trip costs associated with transport of the barge from another port, if required.

3. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

4. Rental is on a daily (24-hour) basis, per barge. Installation, removal, and transportation are charged as a "lot" per barge.

l. LINE ITEM XX15 - FLEET LANDING

1. When ordered by the ship, the HS Contractor shall furnish services/supplies for the fleet landing area. The following is a list of the basic supplies and services that a ship may need. It doesn't cover all the services that may be ordered by a ship for fleet landing.

2. FLEET LANDING. HS Contractor shall provide the sub-line items specified in this Line Item and shall provide a unit price for each sub-line item. The unit price shall be per day for each item. Mobilization/demobilization charges shall be included in sub-line item price.

   The Fleet Landing LOT consists of the following:
   a. One (1), 40-feet refrigerator unit or two, 20-feet refrigerator units, with required power to operate the units.
   b. PORTABLE TOILET UNIT SERVICES. The unit price shall be for a single commode and one (1) urinal. The daily rate shall include pumping and cleaning as many times as necessary to ensure clean, sanitary condition and providing all chemicals, cleaning products and toilet paper. The HS Contractor shall check toilet facilities at least every six (6) hours to ensure cleanliness.
   c. PORTABLE ELECTRIC GENERATORS. The HS Contractor shall provide a portable, gasoline powered, electric generator capable of supplying power to portable lighting and miscellaneous portable electrical equipment (radios, stereos, hand tools, etc.). Generator shall be at least 5KW with circuit breaker protector. Daily rate includes fuel, oil, and necessary consumables to operate the generator, transportation, set-up, dismantling and labor.
   d. Chairs (each per day)
   e. Long tables - approximately 2 meters in length (each per day)

   Any other supplies, services or quantities of supplies and services other than those listed above shall be provided in accordance with the procedures set forth in LINE ITEM XX43.

m. LINE ITEM XX17 - OILY WASTE REMOVAL (TRUCK AND BARGE)

1. Oily Waste is defined as any liquid petroleum product mixed with wastewater and/or oil in any amounts, which, if discharged overboard, would cause or show sheen on the water. The HS Contractor shall dispose of any combination of oily waste and grey water as oily waste.

2. Oily Waste is measured by Cubic Meter (1CM = 264.2 Gallons). The HS Contractor shall submit, as an attachment to the invoices for disposal services, a document verifying the quantity collected and the name of the disposal plant where the oily waste have been or will be disposed. The HS Contractor shall include a written

statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

3. The HS Contractor shall comply with the environmental requirements of each country where oily waste is disposed and shall be liable for any costs incurred as a result of the HS Contractor's failure to comply with such requirements. The HS Contractor shall keep all disposal certificates and shall make them available to FLCY upon request. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped. The HS Contractor will submit a request to FLCY for the difference, accompanied by disposal certificates. FLCY will investigate and resolve the issue, and will arrange for the ship to pay any amounts determined to be due.

4. Oily Waste Removal involves the collection of Oil and Aggregate Water generated by the ships. The requiring vessel will pump this waste into HS Contractor-provided tanks or barges. The HS Contractor shall provide all equipment and facilities required to remove oily waste, including hoses and connections compatible with the ship being serviced. The HS Contractor shall provide hoses of sufficient length from equipment to the ship with either 2.5" or 4" quick disconnect cam lock fittings.

5. In all cases when a ship orders oily waste disposal services, the HS Contractor shall invoice and will be paid the contract schedule's minimum daily quantity of 60 CM for providing the disposal services, even if the oily waste quantity pumped and disposed that day is less than the 60 CM minimum quantity. Payments over the minimum daily quantity of 60 CM shall be for the amount of oily waste cubic meters removed at the appropriate per CM rate in the schedule. The HS Contractor shall not invoice any charge (either the daily minimum or the additional per CM rate) for ships that do not order disposal services.

6. In the event the HS Contractor subcontracts oily waste disposal, the HS Contractor shall be liable for any costs incurred as a result of the disposal operator's failure to comply with local requirements.

7. The HS Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed. The Government reserves the right to independently verify the volume of discharge using certified flow measuring devices.

8. When removal is done via barge, the HS Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

n. LINE ITEM XX18 - UNIQUE PORT SERVICES

1. LOGISTIC SUPPORT TO GOVERNMENT TEAMS

   a. Note: This Line Item is for logistics support in connection with ship visits to a port area. U.S. Government teams conduct surveys in a variety of ports in the Region. The U.S. Government may require the assistance of the HS Contractor in the ports to be surveyed.

   b. The HS Contractor shall assign an individual to participate in and assist with logistical arrangements for a team that will perform the survey. This team may visit a variety of ports in advance of ships' visits to assess the force protection levels of the port and to perform related functions. The HS Contractor's assistance shall include providing logistical support as requested by the U.S. Government, coordinating access and interviews with local officials, local husbanding services, and support Contractors,

coordinating necessary translation services for the team, and assisting in the development of a final assessment report.

c. The HS Contractor shall invoice port surveys at the subsequent day husbanding fee for a Class II ship in the port. In addition, the HS Contractor shall be reimbursed for economy class air transportation and daily per diem rate that includes lodging, meals and other related expenses. The per diem rates shall be those set forth in the Joint Travel Regulation (JTR).

d. Other HS Contractor out-of-pocket expenses related to the service(s) and anticipated by the HS Contractor will be invoiced and reimbursed at cost. The HS Contractor shall submit all receipts, invoices or other valid documents to support the incurred expenses. The HS Contractor shall not pay for hotels, meals, rental vehicles, telephone expenses and any other expenses that the U.S. Government team members may incur and for which they can be reimbursed under their U.S. Government travel orders.

e. If a delivery order with a "Not to Exceed " (NTE) amount is issued for the logistic support services, the HS Contractor shall promptly advise the FLCY Contracting Officer and withhold performance if he expects to exceed this amount.

2. PAINT FLOAT

The paint float shall be no less than 5M in length but, in all cases, large enough to provide a safe and stable working platform for the occupants. Scaffolding may be of any height less than 3.5M from the deck, so as to provide a working platform at least 4M from the waterline. The paint float shall be equipped with suitable self-fendering to prevent damage to the ship. The price of these fenders shall be included in the quoted price of the paint float. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge’s self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge. Rails shall be no less than 1M from the working platform. The working platform shall be equipped with anchor points for harnessing. The Ordering Activity shall be responsible for providing safety harnesses, for obtaining permission from local authorities prior to all work on the paint float, and for cleanup/disposal of all hazardous material generated or released outside the paint float. The HSP shall notify the Ordering Activity of local regulatory requirements concerning paint floats, assist the Ordering Activity in submitting requests and passing required documentation to the local authority where permission is required to work on the paint float, and arrange for required cleaning of the paint float upon return. The ordering activity is responsible for securing the paint float from the time custody has been transferred to them until returned to the HSP or the ship departs, whichever is earlier.

3. INTERPRETER SERVICES

The HS Contractor shall provide interpreter services when ordered. The interpreter shall be fluent in both spoken and written local language and English.

4. PRATIQUE

The HS Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

5. STEVEDORE SERVICES

The HS Contractor shall provide stevedores for general labor. Billing shall be at the hourly rate for worker.

6. SHORE STEAM

The HS Contractor shall provide shore steam to the ship. This sub lot line item is performance-based. Shore steam provided to the ship may be provided by any means (boiler or generator) so long as the pressure of steam delivered to the vessel is approximately 100 PSI (standard commercial pressure) and of acceptable quality for the vessel. Pricing for provision of shore steam shall be on a TBD basis and should include the boiler or generator, fuel for the generator, mobilization/demobilization, hoses, and adapters appropriate to the vessel type, and water (where required) for the generator or boiler. This item shall be billed on a daily basis.

o. LINE ITEM XX19 - OIL BOOMS

The HS Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom. Billing for LINE ITEM XX19 shall be per meter. For example, a 300-meter oil boom would be billed at 300 meters per day.

Oil Booms are intended to act as a precautionary measure in case of inadvertent leakage from equipment otherwise in sound operating equipment. Oil booms are also intended to mitigate the environmental damages that may otherwise result from inadvertent leakage. The HS Contractor shall notify the Ordering Activity, upon receipt of a LOGREQ request, if deployment of an oil boom at the proposed mooring location is contrary to host nation or port authority regulation so that the order for the oil boom service can be cancelled. Cleanup and disposal of oil is a port authority function. If the HSP incurs charges for these services, they shall be billed as port tariff items on a reimbursable basis.

p. LINE ITEM XX20 - MATERIAL HANDLING (UP TO 150 LBS)

1. The HS Contractor shall provide material handling services for the ship. They will receive material shipped to them, clear the material through customs, store the material, report the status of the material, deliver the material to the ship, and forward the material if unable to deliver.

2. The HS Contractor shall use counter-to-counter delivery and charge by each Bill of Lading. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship's arrival.

3. Shipping documents shall be labeled "SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the HS Contractor.

4. The HS Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel. The HS Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

5. The HS Contractor shall receive the package from the ship and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

6. The HS Contractor shall deliver the package to the ship the day of arrival in port or the following morning. The HS Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

7. The HS Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship. The HS Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

q. LINE ITEM XX21 - TENT WITH EQUIPMENT FOR SPECIAL EVENTS (INCLUDES TABLES, CHAIRS, LIGHTING AND FANS

The HS Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels. The HS Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills. The HS Contractor shall remove all provided equipment upon completion of services.

r. LINE ITEM XX22 - SHORE POWER (INCLUDES CABLES, CONNECTION, FUEL, AND OPERATORS) 450-480V, 60 HZ

The HS Contractor shall provide shore power to the ship using a port-provided, permanent connection system or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels. The HS Contractor shall provide all cables and make all power connections between the generator and ship. The availability of shore power shall be in accordance with the schedule established by the ship.

Sub Lot Line Items XX22AA, XX22AB, and XX22AC are to be used only if/when shore power provided by port authorities is, for any reason, not available or inadequate.

s. LINE ITEM XX23 - MANLIFT (WITHOUT OPERATOR)

The HS Contractor shall provide a manlift (without operator) and a full fuel tank. The HS Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning. The HS Contractor shall conduct training on safety and operating procedures for ship personnel. The HS Contractor shall maintain documentation of ship personnel acknowledgement of the training.

t. LINE ITEM XX24 – BROWS

1. Most US Navy vessels carry brows. However, the use of their own brows is dependent upon the type of mooring obtained and other vessel considerations. The HS Contractor shall provide the brows specified in the schedule as ordered by the ship. A range of brow sizes is provided in each of the sub lot line items of lot line item XX24. All brows provided by port authorities, host nation, or US Government shall be billed at cost as port tariff items. Mobilization, demobilization, setup and placement shall be included in the proposed unit price of all XX24 sub lot line items. In cases where brows are provided by port authorities, host nation, or US Government free of charge, at reduced cost, or for mobilization/demobilization costs only; these costs will be reimbursed without additional fees or markup.

2. Due to the height difference between the submarine deck and pier, the HS Contractor provided submarine brow (must afford personnel a smooth and safe transit when entering or exiting the submarine deck. The submarine brow must be capable of supporting shore power cables without damaging the cable.

3. Brows shall be provided free of charge by Royal Navy Liaison Office (RNLO) in Sembawang port for ships berthed at piers 5, 6 , and 7.

4. The HS Contractor shall be entitled to bill for 4 hours of usage under this line item when actual usage is less than 4 hours (per order). Billing for brows shall be calculated up until the scheduled time of departure. Discrepancies, if any, between the number of hours billed at the pre-sailing visit and the actual number of hours used shall be invoiced and paid in accordance with the procedures in OC-1, Invoices and Payments, and the PWS paragraph 9.l. The order of priority of usage in paragraph 10.g. applies.

u. LINE ITEM XX25 - BOTTLED POTABLE WATER

The HS Contractor shall provide for the furnishing of fresh, potable water in bottles. The husbanding Contractor is responsible for ensuring that the U.S. Army Veterinary has approved the products recommended to the ship's Supply Officer. Information on how to request and obtain sanitary inspection is provided as Attachment #17. The minimum order quantity for this line item is 100 liters.

v. LINE ITEM XX26 - MOBILE CRANE SERVICES

The HS Contractor shall provide mobile crane services (shore crane) with operator(s). The HS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The HS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each mobile crane ordered.

Crane services under this Line Item are for land cranes only. Floating cranes are to be provided and billed under Line Item XX43 procedures if required.

w. LINE ITEM XX27 - FORKLIFT SERVICES

The HS Contractor shall provide forklift services with operator(s). The HS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. Upon the Supply Officer's request, the HS Contractor shall provide information concerning forklift/lifting capacity. The forklifts provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The forklifts shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The HS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each forklift ordered.

x. LINE ITEM XX28 - TELEPHONE SERVICES AND COMMUNICATIONS EQUIPMENT

1. Landlines (LINE ITEM XX28AA): Whether installed on a permanent or temporary basis, sufficient landlines shall be made available for official, local, and international use. Installation charges shall be inclusive of all costs for installation and removal of landlines. Usage charges and port tariff fees associated with landline connections (LINE ITEM XX28AB) will be the actual charges computed in accordance with the local or national tariff.

2. Cellular Telephone Services (LINE ITEM XX28AC): Daily charges shall be inclusive of delivery, removal, provision of 110V to 220V transformers, adapters and extra batteries. Activation, auto roaming, and long distance accounts shall be included under LINE ITEM XX28AC. The HS Contractor shall have readily available a minimum of 10 cellular telephones at a given time. Each mobile phone provided shall include an operating manual/instruction with published rates for usage. Airtime for mobile phones shall be included under LINE ITEM XX28AD. Usage charges associated with mobile phones (LINE ITEM XX28AD) will be the actual charges computed in accordance with the local or national tariff.

3. The HS Contractor shall provide pre-paid International Calling Cards for official use (LINE ITEM XX28AE).

4. SIM cards with prepaid airtime shall be provided where the ship or operating unit has mobile phones and desires only SIM cards for use in the specific port area. SIM cards provided under LINE ITEM XX28AF shall include

activation of the SIM card. HS Contractors shall not be obligated to provide quantities of sub lot line item XX28AF in excess of quantities permitted by host nation law or regulation.

5. PWS paragraph 9.h. details the priority in providers to MWR support to Ordering Activities. Calling cards ordered under sub lot line item XX28AE shall be billed in the denomination of the card, adjusted to USD using the OANDA exchange rate for the date of the order as outlined in the PWS paragraph 9.f. without additional markup or fee.

y. Deleted

z. LINE ITEM XX30 - RESERVED

aa. LINE ITEM XX31 - PORT DUES

1. In some countries, the port authority or concessionaire charges port dues to the visiting ship. The port dues may be based on the length or based on the gross tonnage of the ship. Only 'FINAL' invoices will be accepted for payment.

2. Attachment (19) of the solicitation lists some of the unclassified agreements. However, this is not a complete list of all the relevant countries.

3. Clause OC-10, titled Host Country Agreements, outlines the limitation of the U.S. Government to pay for certain port dues, fees, or use fees.

4. Sub lot line item XX31AB is intended to provide a suitable landing area for ship's boats or water taxis, when ordered. XX31AB is also intended to provide a suitable area, adjacent to the ship berth or water taxi point of debarkation, for placement and operation of the fleet landing lot items ordered under lot line item XX15. The fleet landing sub lot line items are detailed in the PWS paragraph 11.L.

5. Sub lot line item XX31AD shall only be used when the port is not publicly owned/operated.

bb. LINE ITEM XX32 - COST REPORTING

1) See Attachment (8) PWS Cost Reporting, for specific reporting instructions.
2) All billing and cost reporting shall be made in the units specified in the respective LINE ITEMs.
3) HS Contractor shall enter and report ALL expenditures under this contract (regardless of customer or ordering activity) into LogSSR and all non-priced expenditures other than port tariff (PT) items using the online pricing application in accordance with Attachment (8) PWS Cost Reporting.
4) The pre-arrival cost estimate is part of the Cost Reporting Lot Line Item. Requirements for the pre-arrival cost estimate report are described in Attachment (8).

cc. LINE ITEMs – XX33 – XX39 - RESERVED

dd. LINE ITEM XX40 - OPERATIONS OTHER THAN WAR (OOTW FEES)

* See attachment (9) PWS OOTW, for specific instructions.

ee. LINE ITEM XX41 – PROVISIONS

(1) Provisions

Note: Orders for fuel and provisions are primarily ordered under other U.S. Government contracts. Use of these contracts for fuel and provisions (eg. DESC fuel contracts and DSCP-Pacific provisions contracts) is mandatory when available. If U.S. Government contracts are either unavailable or cannot make delivery within ship scheduling constraints the HS Contractor must receive prior permission from the FLCY Contracting Officer before providing these services to the ship, including mobilization. When requested by the ship, the HS Contractor shall pass these orders to the other U.S. Government Contractors involved. The ship's Supply Officer or FLCY Contracting Officer may award contracts or purchase orders for these non-priced items to other U.S. Government contracts.

a. When requested by a ship, the husbanding HS Contractor shall assist in arranging for the timely provision of subsistence items. LINE ITEMs XX41AA through XX41AC identify the fees that will be paid the HS Contractor for arranging subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using night soil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be in accordance with Attachment #11. The husbanding services HS Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and local currency; and total price in U.S. dollars and local currency as indicated in the "INVOICING AND PAYMENT CLAUSE". (Example: 10 pounds tomatoes @ 2,50 euro/$1.00 USD per Pound = 25,00 Euro/$10.00 USD). Any delivery charges shall be shown separately. The HS Contractor shall use the conversation rate to convert Kilogram (KG) into US pounds (LB) is: 1 KG = 2.2046 LB.

b. If the total cost of FF&V and subsistence items ordered and received by a ship under this contract exceeds $10,000.00 for a port visit, the HS Contractor shall submit a report via e-mail to FLCY within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the HS Contractor shall provide copies of all quotes obtained. This report is in addition to the LogSSR report.

c. The husbanding HS Contractor shall ensure that the sources recommended to the ships Supply Officer for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement.

d. Information on how to request and obtain sanitary inspection by the U.S. Government is provided as Attachment #17.

e. The HS Contractor shall retain documentation of inspection of sources recommended or selected as suppliers of subsistence items. Under no circumstances shall the HS Contractor recommend or offer for acceptance subsistence items from non-approved sources.

f. All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

g. The fee specified in sub lot line item XX41AA has a unit of issue of 'EA' (each). This fee is for the arrangement of one line item of provisions, not for a quantity of one provision. For example, if one provisions order contained ten different line items and a quantity of five for each line item, the HS Contractor would be entitled to bill under sub lot line item XX41AA for a quantity of ten with a unit of issue 'EA'.

ff. LINE ITEM XX42 - FUEL

1. Orders for fuel and provisions are primarily ordered under other U.S. Government contracts. Use of these contracts for fuel and provisions (eg. DESC fuel contracts and DSCP-Pacific provisions contracts) is mandatory when available. If U.S. Government contracts are either unavailable or cannot make delivery within ship scheduling constraints the HS Contractor must receive prior permission from the FLCY Contracting Officer before providing these services to the ship, including mobilization. When requested by the ship, the HS Contractor shall pass these orders to the other U.S. Government Contractors involved. The ship's Supply Officer or FLCY Contracting Officer may award contracts or purchase orders for these non-priced items to other U.S. Government contracts.

2. Other procedures apply as follows:

(a) Fuel (MGO/F76)

(i) Ships may order fuel, as described in paragraph 1 above, with the assistance of the HS Contractor. The HS Contractor shall advise the Supply Officer of available bunkers, or existing fuel contracts issued by Defense Energy Support Center (DESC) or Navy Operational Logistics Support Center. If requested by the Supply Officer, the HS Contractor shall pass fuel orders to the appropriate fuel supplier, and will coordinate delivery. The DESC Overseas Ships' Bunkers Contract Bulletin SP0600-02-0013 may be accessed at http://www.desc.dla.mil/DCM/DCMPage.asp?PageID=227 . Disagreements between any DESC Contractor and the HS Contractor shall be forwarded to the DESC Contracting Officer through Logistic Supply Center Fuel Manager specified at the time of award for each region. HS Contractors who buy fuel through other than government sources when available without express authority in writing from the FLCY Contracting Officer do so at their own risk. If the HS Contractor is authorized to provide fuel, U.S. Government shall not reimburse the HS Contractor for more than what the U.S. Government cost through approved DESC contracts would have been unless authorized by the Contracting Officer. The HS Contractor is required to provide any security vetting for DESC contractors in order to facilitate performance.

(ii) In the event that no U.S. Government or foreign Government owned bunker is available, or no DESC or NPO available contracts meets a ship's fuel requirement, or as directed in writing by the Contracting Officer, the HS Contractor shall assist the ship in arranging the procurement of fuel. The HS Contractor shall not provide any fuel or fuel-related service e.g., fuel barge or fuel truck, without first receiving specific advance approval to do so from a FLCY Contracting Officer. This fuel shall be provided in accordance with Attachment # 15. The HS Contractor shall provide a fuel barge or truck to transport fuel to the ship, if required. LINE ITEMs XX42AA through XX42AD identify the fees that will be paid the HS Contractor for arranging fuel requirements. The HS Contractor shall be liable for any costs should the fuel provider fail to properly employ oil spill booms as required by local authorities or fails to comply with any local laws or regulations relating to the provision of fuel. Fuel caught in oil booms will be properly disposed. The HS Contractor shall be liable for any costs should the fuel provider fail to employ properly oil spill booms as required by local authorities or fails to comply with any local laws or regulations relating to the provision of fuel. The HS Contractor shall deliver fuel "free on board" the ship whether at pierside or at anchor. The invoice shall indicate the unit and total price for the fuel and the price for the delivery of fuel to the ship. The contractor shall also include a statement with each invoice entry for fuel purchased from the contractor that identifies who directed it to provide the fuel and the preliminary steps taken by the contractor to ensure that government-owned fuel or fuel from a DESC contract was not available to satisfy the ship's requirement.

(iii) Other than the price specified under LINE ITEM XX42AA Fee for Acquiring Fuel and LINE ITEM XX42AC Fuel Delivery/Other, no additional fees shall be added to the price of LINE ITEM XX42AB Fuel, TBD. The HS Contractor shall be reimbursed at cost for the TBD purchase price of fuel and for delivery without additional markup.

(iv) In recognition of the fact that fuel is sold by weight (metric tons) and by volume (gallons or liters), the HS Contractor shall ensure all United States ships are provided with a fuel invoice and the appropriate customs certification demonstrating the quantity of fuel provided in metric tons and in gallons or liters. In the event that the HS Contractor is ordered to provide fuel, all terms and conditions of the fuel provider shall be provided to the Ordering Officer in the pre-arrival cost estimate or prior to the order being finalized if the fuel services are ordered after the pre-arrival cost estimate has been provided. For example, if a ship places an order for fuel and the fuel provider has a term or condition that requires the full quantity to be pumped into the requiring vessel without return of any fuel to the provider, this condition must be disclosed to the Ordering Officer in the pre-arrival message.

(v) The HS Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier. The cost for all barge inspections will be included in the fee for LINE ITEM XX42AC.

(vi) The HS Contractor shall load the ordered fuel and transport to the ship. The HS Contractor shall transfer the fuel from the fuel barge or truck to the ship. The HS Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

(vii) The HS Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

(viii) Excess Fuel Procedures: Demurrage charges accrue when the entire quantity of fuel ordered cannot be delivered on or before the date and time specified in the fuel order. Demurrage charges do not accrue when fuel cannot be delivered due to the fault of the service provider (e.g. pumping rate of the barge inadequate to deliver fuel within the time specified by the order). See PWS paragraph 3.i. for further details. Pricing of XX42AD is in units of DAY and the compensation covers the daily cost of the barge used to deliver the fuel (regardless of the amount of fuel remaining in the barge). Since the great majority of fueling evolutions are via barge, the price of demurrage by barge should be used vice the demurrage price by truck. All required customs clearances are to be included in item XX42AA, Fee for Acquiring Fuel. If the ship does not offload all of the fuel ordered, the HS Contractor shall store the excess fuel and diligently attempt to sell it as soon as practicable. The HS Contractor shall receive a storage fee (demurrage) for no more than three (3) days. The HS Contractor shall receive a fuel disposal fee on a reimbursable basis upon presentation of vendor invoice for disposal services.

(ix) All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

gg. LINE ITEM XX43 – INCIDENTALS

1. Incidentals: The HS Contractor shall arrange for incidentals using the Online Pricing Application, as further described in Attachment 8 and paragraph 3(o) above. Incidentals are supplies and services not priced on the Schedule of Supplies and Services or Port Tariff schedule that are within the scope of the contract, and are required during the course of the husbanding visit. Historical examples of items ordered that would be considered incidentals are listed at the bottom of each schedule in Attachment 2. Incidentals shall not exceed $50,000.00 per port visit unless prior permission is granted from the FLCY Contracting Officer. The HS Contractor shall not be separately or additionally compensated for profit or mark-up on the prices of these items or for any other charges or fees associated with acquiring the supplies or services other than the price the HS Contractor pays its supplier for the supply or service except as the HS Contractor chooses to include allowances for any such profit, charges, or fees in the daily price for the Management Services or as part of the process proposed by the HS Contractor for implementation of the Online Pricing Application methodology for offering incidentals at fair and reasonable prices. The HS Contractor shall arrange for incidentals as described below:

a. Providing supplies and services. At the request of an Ordering Activity, the HS Contractor shall arrange for incidentals that are within the scope of the contract, are not pre-priced on the Schedule of Supplies and Services (Attachment 2), and are required during the course of the husbanding visit. In cases where sub lot line items do not exist under the corresponding lot line item in some lots, but exist under line items in other lots of the Attachment 2 schedules, the Government reserves the right to order these items within the scope of the contract, if required, as incidentals using the online pricing application. The contractor shall conduct necessary market research, contact potential suppliers, obtain price quotations, and, based on the information, provide an estimated price for the supply or service to the Ordering Activity and the FLCY Contracting Officer using the Online Pricing Application. The HS Contractor shall not provide any incidental supplies or services until the HS Contractor and the Ordering Activity or FLCY Contracting Officer agree on a fair and reasonable price for the supplies or services. For non-priced items with extended price less than $25,000, either the Ordering Officer or the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended price greater than $25,000, only the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. At that point the Ordering Activity shall issue an order to the HS Contractor directing that it provide the supply or service in support of the husbanding visit at the agreed price. For supplies or services having an extended price (unit price multiplied by quantity) over $3,000, the HS Contractor must provide documentation to the Ordering Activity or FLCY Contracting Officer, via the Online Pricing Application, that it has promoted competition to the maximum extent practicable. If the HS Contractor proposes the use of organic assets (HS Contractor-owned assets) at an extended price (unit price multiplied by quantity) over $3,000, the HS Contractor must additionally provide documentation to the Ordering Activity or FLCY Contracting Officer, via the Online Pricing Application, that the price for use of the organic asset does not exceed the price for locally available assets that could be used to otherwise satisfy the requirement. When proposing to use an organic asset, the HS Contractor shall also provide a commercial pricelist, if available, showing the daily or hourly rates, inclusive of all operational and maintenance costs, that the HS Contractor charges other customers for use of the organic assets. Prices charged to the Government shall not be higher than the price for the same or similar services provided to other customers. The HS Contractor's use of the Online Pricing Application in accordance with Attachment 8 will be evaluated based on the criteria established in QASP and agreed upon as part of the HS Contractor's proposed process for determining fair and reasonable prices.

b. All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting Officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

c. Incidentals considered within the scope of this contract are defined at the description of contractual scope, paragraph 10.

CLAUSES INCORPORATED BY FULL TEXT

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (SEP 2009)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

(1) 52.222-50, Combating Trafficking in Persons (FEB 2009) (22 U.S.C. 7104(g)).

Alternate I (Aug 2007) of 52.222-50 (22 U.S.C. 7104(g)).

(2) 52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

(3) 52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Pub. L. 108-77, 108-78).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

__X_ (1) 52.203-6, Restrictions on Subcontractor Sales to the Government (SEP 2006), with Alternate I (OCT 1995) (41 U.S.C. 253g and 10 U.S.C. 2402).

___ (2) 52.203-13, Contractor Code of Business Ethics and Conduct (DEC 2008)(Pub. L. 110-252, Title VI, Chapter 1 (41 U.S.C. 251 note)).

___ (3) 52.203-15, Whistleblower Protections under the American Recovery and Reinvestment Act of 2009 (MAR 2009) (Section 1553 of Pub. L. 111-5). (Applies to contracts funded by the American Recovery and Reinvestment Act of 2009.)

__(4) 52.204-11, American Recovery and Reinvestment Act—Reporting Requirements (MAR 2009) (Pub. L. 111-5).

___ (5) 52.219-3, Notice of Total HUBZone Set-Aside (Jan 1999) (15 U.S.C. 657a).

___ (6) 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns (JUL 2005) (if the offeror elects to waive the preference, it shall so indicate in its offer) (15 U.S.C. 657a).

___ (7) [Reserved].

___ (8)(i) 52.219-6, Notice of Total Small Business Set-Aside (JUNE 2003) (15 U.S.C. 644).

___ (ii) Alternate I (OCT 1995) of 52.219-6.

___ (iii) Alternate II (MAR 2004) of 52.219-6.

___ (9)(i) 52.219-7, Notice of Partial Small Business Set-Aside (JUNE 2003) (15 U.S.C. 644).

___ (ii) Alternate I (OCT 1995) of 52.219-7.

___ (iii) Alternate II (MAR 2004) of 52.219-7.

___ (10) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637 (d)(2) and (3)).

___ (11)(i) 52.219-9, Small Business Subcontracting Plan (APR 2008) (15 U.S.C. 637(d)(4)).

___ (ii) Alternate I (OCT 2001) of 52.219-9

___ (iii) Alternate II (OCT 2001) of 52.219-9.

___ (12) 52.219-14, Limitations on Subcontracting (DEC 1996) (15 U.S.C. 637(a)(14)).

___ (13) 52.219-16, Liquidated Damages--Subcontracting Plan (JAN 1999) (15 U.S.C. 637(d)(4)(F)(i)).

___ (35) 52.226-4, Notice of Disaster or Emergency Area Set-Aside (Nov 2007) (42 U.S.C. 5150).

___ (36) 52.226-5, Restrictions on Subcontracting Outside Disaster or Emergency Area (Nov 2007) (42 U.S.C. 5150).

___ (37) 52.232-29, Terms for Financing of Purchases of Commercial Items (FEB 2002) (41 U.S.C. 255(f), 10 U.S.C. 2307(f))

__X_ (38) 52.232-30, Installment Payments for Commercial Items (OCT 1995) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).

_X__ (39) 52.232-33, Payment by Electronic Funds Transfer--Central Contractor Registration (OCT 2003) (31 U.S.C. 3332).

___ (40) 52.232-34, Payment by Electronic Funds Transfer--Other than Central Contractor Registration (MAY 1999) (31 U.S.C. 3332)

___ (41) 52.232-36, Payment by Third Party (MAY 1999) (31 U.S.C. 3332).

___ (42) 52.239-1, Privacy or Security Safeguards (AUG 1996) (5 U.S.C. 552a).

___ (43)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631).

____ (ii) Alternate I (APR 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

____ (1) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

____ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act--Price Adjustment (Multiple Year and Option Contracts) (SEP 2009) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act--Price Adjustment (SEP 2009) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.)

____ (5) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (6) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (FEB 2009) (41 U.S.C. 351, et seq.).

____ (7) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations (Mar 2009) (Pub. L. 110-247).

____ (8) 52.237-11, Accepting and Dispensing of $1 Coin (SEP 2008)(31 U.S.C. 5112(p)(1)).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1)in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(i) 52.203-13, Contractor Code of Business Ethics and Conduct (DEC 2008) (Pub. L. 110-252, Title VI, Chapter 1 (41 U.S.C. 251 note).

(ii) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $550,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(iii) Reserved.

(iv) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

(v) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (SEP 2006) (38 U.S.C. 4212).

(vi) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(vii) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

(viii) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

(ix) 52.222-50, Combating Trafficking in Persons (FEB 2009) (22 U.S.C. 7104(g)).

Alternate I (AUG 2007) of 52.222-50 (22 U.S.C. 7104(g)).

(x) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(xi) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (FEB 2009) (41 U.S.C. 351, et seq.).

(xii) 52.222-54, Employment Eligibility Verification (JAN 2009).

(xiii) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations. (MAR 2009) (Pub. L. 110-247). Flow down required in accordance with paragraph (e) of FAR clause 52.226-6.

(xiv) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from **date of award** through **contract expiration .**

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than $3000.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single line item in excess of $1,220,000; or
(2) Any order for a combination of items in excess of $7,000,000; or
(3) A series of orders from the same ordering office within one (1) day that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any combination of orders exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 1 day after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY. (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 90 days beyond the expiration of the contract.

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor at any time prior to the extension of the contract.

(End of clause)

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor prior to the expiration of the contract, provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 15 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 66 months.

(End of clause)

52.228-10 VEHICULAR AND GENERAL PUBLIC LIABILITY INSURANCE (APR 1984)

(a) The Contractor, at the Contractor’s expense, agrees to maintain, during the continuance of this contract, all insurance required by the host country in which the Contractor is performing. At a minimum, this insurance shall include vehicular liability and general public liability insurance with limits of liability for (1) Bodily injury of not less than $1,000,000 for each occurrence and (2) Property damage of not less than $1,000,000 for each accident.

(b) The Contractor, at the Contractor’s expense, agrees to maintain, during the continuance of this contract, vessel collision liability, and, protection and indemnity liability insurance in the amount of $1,000,000 per (Government) vessel or for any one incident.

(c) The Contractor also agrees to maintain worker’s compensation and other legally required insurance with respect to the Contractor’s own employees and agents.

(d) Before commencing work under this contract, the Contractor shall certify to the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interests shall not be effective for 30 days after the insurer or the Contractor gives written notice to the Contracting Officer.

Limited Risk of Loss

(a) The Contractor shall not be liable under this contract for any loss suffered by the U.S. Government including, but not limited to, loss, destruction of, or damage to, Government property or for expenses incidental to such loss, destruction, or damage, except as provided in paragraph (b).

(b) The contractor shall be responsible for loss to the U.S. Government including, but not limited to, loss, destruction of, or damage to, Government property under this contract (including expenses incidental to such loss, destruction, or damage) that results from a risk expressly required to be insured under this contract, but only to the extent of the insurance required to be purchased and maintained or to the extent of insurance actually purchased and maintained, whichever is greater, or
(1) That results from a risk that is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement; or
(2) For which the Contractor is otherwise responsible under the express terms of this contract; or
(3) That results from willful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(c) Nothing in this clause or in this contract shall preclude or limit recovery by the U.S. Government from a subcontractor or a subcontractor's insurer for any loss suffered by the U.S. Government including, but not limited to, loss, destruction of, or damage to, Government property caused by the subcontractor, its employees or agents.

52.233-1 DISPUTES. (JUL 2002)

(a) This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613).

(b) Except as provided in the Act, all disputes arising under or relating to this contract shall be resolved under this clause.

(c) Claim, as used in this clause, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to this contract. However, a written demand or written assertion by the Contractor seeking the payment of money exceeding $100,000 is not a claim under the Act until certified. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim under the Act. The submission may be converted to a claim under the Act, by complying with the submission and certification requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

(d)(1) A claim by the Contractor shall be made in writing and, unless otherwise stated in this contract, submitted within 6 years after accrual of the claim to the Contracting Officer for a written decision. A claim by the Government against the Contractor shall be subject to a written decision by the Contracting Officer.

(2)(i) The contractors shall provide the certification specified in subparagraph (d)(2)(iii) of this clause when submitting any claim exceeding $100,000.

(ii) The certification requirement does not apply to issues in controversy that have not been submitted as all or part of a claim.

(iii) The certification shall state as follows: "I certify that the claim is made in good faith; that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Government is liable; and that I am duly authorized to certify the claim on behalf of the Contractor.

(3) The certification may be executed by any person duly authorized to bind the Contractor with respect to the claim.

(e) For Contractor claims of $100,000 or less, the Contracting Officer must, if requested in writing by the Contractor, render a decision within 60 days of the request. For Contractor-certified claims over $100,000, the Contracting Officer must, within 60 days, decide the claim or notify the Contractor of the date by which the decision will be made.

(f) The Contracting Officer's decision shall be final unless the Contractor appeals or files a suit as provided in the Act.

(g) If the claim by the Contractor is submitted to the Contracting Officer or a claim by the Government is presented to the Contractor, the parties, by mutual consent, may agree to use alternative disput resolution (ADR). If the Contractor refuses an offer for ADR, the Contractor shall inform the Contracting Officer, in writing, of the Contractor's specific reasons for rejecting the request.

(h) The Government shall pay interest on the amount found due and unpaid from (1) the date the Contracting Officer receives the claim (certified, if required); or (2) the date that payment otherwise would be due, if that date is later, until the date of payment. With regard to claims having defective certifications, as defined in (FAR) 48 CFR 33.201, interest shall be paid from the date that the Contracting Officer initially receives the claim. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the Contracting Officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

(i) The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under the contract, and comply with any decision of the Contracting Officer.

(End of clause)

52.233-3 PROTEST AFTER AWARD (AUG. 1996)

(a) Upon receipt of a notice of protest (as defined in FAR 33.101) or a determination that a protest is likely (see FAR 33.102(d)), the Contracting Officer may, by written order to the Contractor, direct the Contractor to stop performance of the work called for by this contract. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Upon receipt of the final decision in the protest, the Contracting Officer shall either--

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled either before or after a final decision in the protest, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if--

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to an adjustment within 30 days after the end of the period of work stoppage; provided, that if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon a proposal at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

(e) The Government's rights to terminate this contract at any time are not affected by action taken under this clause.

(f) If, as the result of the Contractor's intentional or negligent misstatement, misrepresentation, or miscertification, a protest related to this contract is sustained, and the Government pays costs, as provided in FAR 33.102(b)(2) or 33.104(h)(1), the Government may require the Contractor to reimburse the Government the amount of such costs. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the Contractor under any contract between the Contractor and the Government.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

(End of clause)

252.201-7000 CONTRACTING OFFICER'S REPRESENTATIVE (DEC 1991)

(a) "Definition. Contracting officer's representative" means an individual designated in accordance with subsection 201.602-2 of the Defense Federal Acquisition Regulation Supplement and authorized in writing by the contracting officer to perform specific technical or administrative functions.

(b) If the Contracting Officer designates a contracting officer's representative (COR), the Contractor will receive a copy of the written designation. It will specify the extent of the COR's authority to act on behalf of the contracting officer. The COR is not authorized to make any commitments or changes that will affect price, quality, quantity, delivery, or any other term or condition of the contract.

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (JUL 2009)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

__X_ 52.203-3, Gratuities (APR 1984) (10 U.S.C. 2207).

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

(1) ___252.203-7000, Requirements Relating to Compensation of Former DoD Officials (JAN 2009) (Section 847 of Pub. L. 110-181).

(iii) ____ Alternate II (MAR 2000) of 252.247-7023.

(iv) ____ Alternate III (MAY 2002) of 252.247-7023.

(24) ____ 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

(1) 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Public Law 108-375).

(2) 252.247-7003, Pass-Through of Motor Carrier Fuel Surcharge Adjustment to the Cost Bearer (JUL 2009) (Section 884 of Public Law 110-417).

(3) 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(4) 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(End of clause)

252.216-7003 ECONOMIC PRICE ADJUSTMENT--WAGE RATES OR MATERIAL PRICES CONTROLLED BY A FOREIGN GOVERNMENT (JUNE 1997)

(a) The Contractor represents that the prices set forth in this contract--

(1) Are based on the wage rate(s) or material price(s) established and controlled by the Government of_____(Offeror insert name of host country); and

(2) Do not include contingency allowances to pay for possible increases in wage rates or material prices.

(b) If wage rates or material prices are revised by the government named in paragraph (a) of this clause, the Contracting Officer shall make an equitable adjustment in the contract price and shall modify the contract to the extent that the Contractor's actual costs of performing this contract are increased or decreased, as a direct result of the revision, subject to the following:

(1) For increases in established wage rates or material prices, the increase in contract unit price(s) shall be effective on the same date that the government named in paragraph (a) of this clause increased the applicable wage rate(s) or material price(s), but only if the Contracting Officer receives the Contractor's written request for contract adjustment within 10 days of the change. If the Contractor's request is received later, the effective date shall be the date that the Contracting Officer received the Contractor's request.

(2) For decreases in established wage rates or material prices, the decrease in contract unit price(s) shall be effective on the same date that the government named in paragraph (a) of this clause decreased the applicable wage rate(s) or material price(s). The decrease in contract unit price(s) shall apply to all items delivered on and after the effective date of the government's rate or price decrease.

(c) No modification changing the contract unit price(s) shall be executed until the Contracting Officer has verified the applicable change in the rates or prices set by the government named in paragraph (a) of this clause. The Contractor shall make available its books and records that support a requested change in contract price.

(d) Failure to agree to any adjustment shall be a dispute under the Disputes clause of this contract.

(End of Clause)

252.222-7002 COMPLIANCE WITH LOCAL LABOR LAWS (OVERSEAS) (JUN 1997)

(a) The Contractor shall comply with all—

(1) Local laws, regulations, and labor union agreements governing work hours; and

(2) Labor regulations including collective bargaining agreements, workers' compensation, working conditions, fringe benefits, and labor standards or labor contract matters.

(b) The Contractor indemnifies and holds harmless the United States Government from all claims arising out of the requirements of this clause. This indemnity includes the Contractor's obligation to handle and settle, without cost to the United States Government, any claims or litigation concerning allegations that the Contractor or the United States Government, or both, have not fully complied with local labor laws or regulations relating to the performance of work required by this contract.

(c) Notwithstanding paragraph (b) of this clause, consistent with paragraphs 31.205-15(a) and 31.205-47(d) of the Federal Acquisition Regulation, the Contractor will be reimbursed for the costs of all fines, penalties, and reasonable litigation expenses incurred as a result of compliance with specific contract terms and conditions or written instructions from the Contracting officer.

(End of clause)

252.225-7041 CORRESPONDENCE IN ENGLISH (JUNE 1997)

The Contractor shall ensure that all contract correspondence that is addressed to the United States Government is submitted in English or with an English translation.

(End of clause)

252.229-7000 INVOICES EXCLUSIVE OF TAXES OR DUTIES (JUNE 1997)

Invoices submitted in accordance with the terms and conditions of this contract shall be exclusive of all taxes or duties for which relief is available.

(End of clause)

252.232-7008 ASSIGNMENT OF CLAIMS (OVERSEAS) (JUNE 1997)

(a) No claims for monies due, or to become due, shall be assigned by the Contractor unless—

(1) Approved in writing by the Contracting Officer;

(2) Made in accordance with the laws and regulations of the United States of America; and

(3) Permitted by the laws and regulations of the Contractor's country.

(b) In no event shall copies of this contract of any plans, specifications, or other similar documents relating to work under this contract, if marked “Top Secret,” “Secret,” or “Confidential” be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive such documents. However, a copy of any part or all of this contract so marked may be furnished, or any information contained herein may be disclosed, to such assignee upon the Contracting Officer's prior written authorization.

(c) Any assignment under this contract shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment may be made to one party as agent or trustee for two or more parties participating in such financing. On each invoice or voucher submitted for payment under this contract to which any assignment applies, and for which direct payment thereof is to be made to an assignee, the Contractor shall—

(1) Identify the assignee by name and complete address; and

(2) Acknowledge the validity of the assignment and the right of the named assignee to receive payment in the amount invoiced or vouchered.

(End of clause)

252.233-7001 CHOICE OF LAW (OVERSEAS) (JUNE 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

DOCUMENT TYPE	DESCRIPTION	PAGES	DATE

OTHER CLAUSES REGIONAL

52.237-7023 Continuation of Essential Contractor Services

(a) The Contracting officer has identified all or a portion of the contractor services provided under this contract as essential contractor services in support of mission essential functions. The contractor-provided services that have been determined to be essential contractor services in support of mission essential functions are listed in the Performance Work Statement LINE ITEM XX40 Operations Other Than War.

(b) The contractor shall have a plan after award of this contract or incorporation of this clause in a contract by modification, for continuing the performance of essential contractor services identified in (a) above during a crisis.

(1) The Contractor shall identify in the plan provisions made for the acquisition of necessary personnel and resources, if necessary, for continuity of operations for up to 30 days or until normal operations can be resumed;

(2) The plan must, at a minimum, address-

(i) Challenges associated with maintaining contractor essential services during an extended event, such as a pandemic that occurs in repeated waves;

(ii) The time lapse associated with the initiation of the acquisition of necessary personnel and resources and their actual availability on site;

(iii) The components, processes, and requirements for the identification, training, and preparedness of personnel who are capable of relocating to alternate facilities or performing work from home; and

(iv) Any established alert and notification procedures for mobilizing identified “essential contractor service” personnel, and

(v) The approach for communicating expectations to the contractor employees regarding their roles and responsibilities during a crisis.

(c) The Contractor recognizes that the services under this contract are vital to the Government and must be continued without interruption. In the event the contractor anticipates not being able to perform due to any of the clauses enumerated in the excusable delay clause of this contract, the Contractor shall notify the Contracting Officer or other designated representative as expeditiously as possible and use its best efforts and cooperate with the Government’s efforts to maintain the continuity of operations.

(d) The Government reserves the right in such crisis situations to use federal employees of other agencies or contract support from other contractors or to enter into new contracts for essential contractor services. Any new contracting efforts would be conducted in accordance with OFPP letter, "Emergency Acquisitions" May 2007 and FAR and DFARS Subparts 18 and 218 respectively or any other subsequent emergency guidance issued.

(e) This clause shall be included in subcontracts for the essential services.

OTHER CLAUSES

OC-1 Invoices and Payments

(a) Invoice Content

The Contractor shall submit to the ordering officer an invoice that lists all the costs incurred by the ship under the contract during the port visit. The contractor's invoice shall list items priced under this contract and include subcontractor invoices for all other items not priced in the contract. All invoices submitted shall have all supporting documentation (i.e. trash and CHT certificates, delivery tickets signed by ship's personnel, with a legible signature and printed name and rank, port tariff invoices, invoices for items not pre-priced in the contract, and any other documentation that the supplies/services have been delivered and accepted) and must be submitted in accordance with the paragraph below. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from or on-loaded to the ship. **All items listed on the invoices must be detailed as to quantity, contract unit of issue and unit price. Lump sum entries will not be accepted**.

The Contractor shall keep copies of all documentation submitted to the ship for each visit for all supplies and services rendered and quantities invoiced. The Contractor shall keep a copy of all such documentation in one place that will be indicated to the Contracting Officer at the time of contract award. FLCY and its detachments contracting personnel may examine these files at any time during the performance of this contract.

The invoices must be easily identifiable as original (i.e. original signature or stamped as ORIGINAL). If an electronic invoice is authorized, the Contractor must certify on the invoice that it is the first time that the invoice is submitted. If the original invoice has been lost, a copy of the invoice may be submitted. This invoice must be marked as "DUPLICATE COPY" and a signed and dated statement with a contractor's stamp must be made on the duplicate invoice confirming that payment has not been received.

Each invoice must include—

(1) Name and address of the Contractor;
(2) Invoice number and date issued;
(3) Contract number, Contract Line Item Number, Lot Line Item and , if applicable, the Order Number;
(4) Description, quantity, unit of measure, unit price and extended price of the items delivered;
(5) If appropriate, the shipping number and date of shipment including the bill of lading number and weight of shipment if shipped on a Government bill of lading;
(6) Terms of any prompt payment discount offered;
(7) Name and address of the official to whom payment is to be sent;
(8) Name, title, and phone number of the person to be notified in the event of a defective invoice;
(9) Supporting documentation (i.e. trash and CHT certificates, delivery tickets signed by the ship's personnel, with a legible signature and printed name and rank, and any other documentation that the supplies/services have been delivered and accepted);
(10) The invoice must be correct and complete and without handwritten figures.
(11) Electronic funds transfer (EFT) information.

The Contractor shall include EFT banking information on the invoice only if required elsewhere in this contract.

If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the Contractor shall have submitted correct EFT banking information in accordance with the applicable solicitation provision, contract clause (e.g. FAR 52.232-33, Payment by Electronic Funds Transfer – Central Contractor Registration), or applicable agency procedures.

EFT banking information is not required if the Government waived the requirement to pay by EFT.

Invoices will be handled in accordance with the Prompt Payment Act (31 U.S.C. 3903) and Office of Management and Budget (OMB) prompt payment regulations at 5 CFR Part 1315.

If an item is not included on the original invoice, a supplemental invoice shall be issued with the same number followed by alpha suffix (e.g. Invoice No. 0001/03-A). The same requirements for submittal of the original invoice apply to the supplemental invoice.

If an invoice for an item is not available prior to the ship's departure (e.g. cell phone charges, port tariff items, port dues, etc.), the item shall be listed on the invoice with the words "TO BE DETERMINED (TBD)". Once the invoice has been received and the exact amount is known, the Contractor shall issue a supplemental invoice (with all supporting documentation attached) as "FINAL" for the final payment. TBD invoices shall not be paid until a 'FINAL' invoice is submitted.

It is the Contractor's responsibility to verify with port authorities and concessionaires that there are no pending charges prior to the ship's departure. This is to avoid any possible future invoices that may be submitted for unknown services to the U.S. Government.

When preparing an invoice the term "Miscellaneous" or any similar type description should be avoided. If this is not possible and the Contractor must use the term "Miscellaneous" when submitting an invoice, the Contractor shall provide a detailed list of items purchased and item prices on the invoice.

Invoices not in compliance with these instructions are not considered to be proper invoices and may be rejected.

(b) Invoice Submission

The invoice must be submitted to the listed activities in the following order:

(1) To the ship's Supply Officer or his designated representative one day prior to its sailing date. In the event the Contractor is unable to present any invoice to the ordering ship for payment prior to the departure of the ship, the Contractor shall submit invoices and attempt to obtain payment at the ship's next port of call before the ship leaves the Region.

(2) If unsuccessful, to the Administrative Contracting Officer. In the event the Contractor is unable to present any invoice to the ordering ship prior to its departure from the Region, the invoice must be promptly submitted to the ACO assigned at the time of contract award for each region for payment through DFAS Yokota. In no case should the invoice be submitted beyond 90 days after the ship's departure from the port. The Disbursing Officer will annotate the date the invoices are received for the purpose of calculating any interest due. An exception to the 90-day limit will be given only for charges made by the port authorities or concessionaires, or the host nation authorities, including military authorities. It is the Contractor's responsibility to verify that there are no pending charges and to obtain the invoices from these authorities no later than six months after the ship's departure.

(3) Alternatively, whenever a non-Navy ordering authority orders services under the contract, the Contractor shall submit invoices and all supporting documents to that ordering activity.

(c) Payment of Invoices

Payments under this contract will be made in accordance with the clause FAR 52.232-33 Payment by Electronic Funds Transfer – Central Contractor Registration (Oct 2003).

Payment will be made after delivery and acceptance of supplies or performance and acceptance of services.

"Acceptance" means the act of an authorized representative of the Government by which the Government, for itself or as an agent of another, assumes ownership of existing identified supplies tendered or approves specific services rendered as partial or complete performance of the contract (from FAR 46.101 Definitions).

Bill payment shall be disbursed through one of the following methods, check, purchase card, submission of invoices to a Defense Finance and Accounting Command (DFAS) via regular mail or electronically through Wide Area Work Flow (WAWF).

The Contractor shall present to the ordering officer or SUPPO all pricing that is firm and finalized one-day prior to the ship's sailing or the ordering activity departure. At that time, the Contractor shall relay any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for these functions shall be the ordering officer or the ordering officer's designated representative. In addition, the Contractor shall present all documentation and invoices from other Contractors subject to provision of services under this contract.

The Contractor shall obtain a signed delivery order (DD 1155) to verify that the services were received and that charges presented in the port visit cost reporting program are correct for payment. This may be accomplished via email from the Ordering Officer or the SUPPO of the ship. The ordering officer shall pay for all supplies and services accepted during the period of performance by one of the aforementioned methods of payment.

In the absence of a delivery order, forward invoices and all documentation regarding inspection and acceptance of supplies and services by the ship's representative with appropriate accounting data to the Administrative Contracting Office.

(d) The Government will not make direct payments of VAT to the host nation nor will it withhold taxes, including VAT, from invoices for orders that are submitted to the husbanding services contractor by the Government. Payment of appropriate taxes required as part of conducting business in the specific country at which a port visit takes place are a responsibility of the husbanding services contractor. Offerors are further directed to FAR 52.229-6, Taxes-Foreign Fixed-Price Contracts (JUN 2003), which is included in the solicitation.

OC-2 Indemnity (Government Negligence Excepted)

The Contractor shall indemnify and hold the Government harmless in connection with any loss or liability from damage to or destruction of property (including Government furnished property) or from injuries to or death of persons (including the agents and employees of both parties) if such damage, destruction, injury, or death arises out of, or is caused by performance of work under this contract, unless such damage, destruction, injury, or death is caused solely by the negligence of the Government's employees, agents, or representatives. The Contractor agrees to include this clause, appropriately modified, in all subcontracts to be performed in the port areas covered under this contract in whole or in part.

OC-3 Activities Authorized to Place Orders (FLC Yokosuka)

(a) Pursuant to the clause entitled "Ordering", the following activities are authorized to place orders:

(1) Authorized ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port
(2) Any FLC Yokosuka (including sites/detachments) warranted Contracting Officer or their authorized ordering officers
(3) Authorized Military Sealift Command personnel

(4) Authorized U.S. Coast Guard ship Supply Officers

(b) Although these activities are responsible for issuing and administering any orders placed hereunder, no authority to modify any provision of this contract is granted. Any proposed deviation from contract terms must be submitted to the Contracting Officer.

(c) The Contractor shall coordinate and pass orders from the ordering activity, to include transmission via fax or email, to other contractors holding U.S. Government contracts for various supplies and services, as required. This coordination and passing orders includes all necessary actions to facilitate the acceptance of supplies or services ordered under Government contracts.

OC-4 Reserved

OC-5 Oral Orders (Indefinite Delivery Contracts)

(a) Oral orders may be placed provided the following conditions are met:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.
(2) The Contractor will furnish to the ordering officer with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date the order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.
(3) Invoices for supplies or services furnished to the ordering officer in response to oral orders will be accompanied with a document verifying receipt.
(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the contractor.

(b) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

OC-6 Cancellation of Orders

(a) Unless otherwise provided herein, in the event an order or portion of an order is cancelled prior to the number of days specified for the 'Port Minimum Order lead Time' for each lot in the Attachment 2 schedules, the U.S. Government will not be liable for any charges. For any order, or portion of an order, not cancelled prior to the number of days specified for the 'Port Minimum Order lead Time' for each lot in the Attachment 2 schedules, the Ordering activity shall be responsible for any termination costs in accordance with paragraph (h) entitled "Termination for the Government's Convenience" of the clause entitled "Contract Terms and Conditions – Commercial Items". Any disagreements shall be subject to the Disputes clause of the contract.

(b) The Contractor shall take all necessary steps to mitigate any damages or termination costs.

OC-7 Issuance of Orders

(a) Orders may be issued and confirmed orally, or by telephone, or by facsimile, or by electronic mail, or by a Logistics Requirements (LOGREQ) message or by any other means available.

(b) The LOGREQ message is not an order for non-priced items until priced by the contractor and confirmed by an authorized ordering officer. For non-priced items with extended cost less than $25,000, either the Ordering Officer or the FLC Yokosuka Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended cost greater than $25,000, only the FLC Yokosuka Contracting Officer may determine if a

quoted price is fair and reasonable. When the contractor submits its invoice for payment, the contractor shall provide evidence that the portion of the LOGREQ ordering non-priced items was confirmed by the Ordering Officer or Contracting Officer as appropriate.

(c) The Order may be passed to the contractor by any method identified in paragraph (a) above by a United States Defense Attache' Office, United States Embassy or Consulate, United States Navy Liaison Officer, a United States Navy Logistics Support Office, or by an Ordering Officer.

OC-8 Workers' Compensation Insurance (Defense Base Act) (Apr 1984)

The Contractor shall:

(a) Provide, before commencing performance under this contract, such workers' compensation insurance or security as the Defense Base Act (42 U.S.C. 1651, *et seq.*) requires; and

(b) Continue to maintain it until performance is completed. The Contractor shall insert, in all subcontracts under this contract to which the Defense Base Act applies, a clause similar to this clause (including this sentence) imposing upon those subcontractors this requirement to comply with the Defense Base Act.

OC-9 Possible Use of Government Property

In the event that the Contractor is required to use Government property or equipment, the Contractor shall be responsible for all loss or damage to, or the destruction of, Government property or equipment in its possession. The Contractor shall not be responsible for damage due solely to normal wear and tear.

OC-10 Host Country Agreements

The HS Contractor shall not be reimbursed, paid, or otherwise compensated for any port use charges, fees, dues or similar costs at ports at which existing host country agreements exempt vessels of the United States from such charges, fees, or dues. This restriction applies regardless of whether requirements that involve such port use charges, fees, or dues, such as requirements for dockage and wharfage space or fleet landing space, are ordered under a specific contract line item or through the contract's provisions for ordering otherwise unspecified supplies and services. See additional information at Attachment (19).

Notwithstanding the paragraph above, the contracting officer or an authorized government official may direct the Husbanding Service Contractor to request that the appropriate local authority provide items from which an agreement exempts payment by vessels of the United States such as Dockage and Wharfage space or Fleet Landing space at a port for the U.S. Government's use at no cost to the U.S. Government. If the Husbanding Service Contractor receives a response that the requested Dockage and Wharfage space or Fleet Landing space is available for use by the U.S. Government at no cost to the U.S. Government, the Husbanding Service Contractor shall reserve or otherwise arrange for use of the space and notify the contracting officer or authorized government official that directed the Husbanding Service Contractor to submit the request. If the Husbanding Service Contractor receives a negative response from the cognizant authority, thereby indicating that there is a cost or expense associated with use of the space by the U.S. Government, the Husbanding Service Contractor shall notify the contracting officer or authorized government official that directed the Husbanding Service Contractor to submit the request. The Husbanding Service Contractor shall perform and be compensated for the tasks included in this paragraph as part of its responsibilities under the Management Services LINE ITEM.

OC-11 Ordering

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to the final day of the contract.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) Deleted

(d) Items marked as 'TBD' or 'PT' are items whose price cannot be determined in advance and/or depend on the level of usage. Prices for these items cannot, therefore, be pre-priced. PT items will be reimbursed at cost to the husbanding service provider without additional markup. Pricing for all items not pre-priced, other than PT items, shall be arranged using the Online Pricing Application terms described in Attachment 8.

(e) The contractor shall perform all orders that are issued prior to the number of days specified for the 'Port Minimum Order lead Time' for the corresponding lot in the Attachment 2 schedules before the start of the port visit. If orders are issued that provide less than the number of days specified for the 'Port Minimum Order Lead Time' for the corresponding lot in the Attachment 2 schedules before the start of the port visit, the contractor shall use its best efforts to provide the required supplies and services in accordance with the order's delivery schedule but shall promptly inform the government if it will not be able to meet the delivery schedule.

Attachment 4 - PAST PERFORMANCE MATRIX

A. CONTRACT NO. AND TYPE	B. CUSTOMER	C. DESCRIPTION OF SERVICE AND PERIOD OF PERFORMANCE	D. DOLLAR VALUE OF CONTRACT	E. DESCRIBE RELEVANCE OF THE CONTRACT TO THE PROPOSED CONTRACT	F. IDENTIFY ANY QUALITY, DELIVERY OR COST PROBLEMS IN PERFORMING THE CONTRACT. DESCRIBE CORRECTIVE ACTION AND ITS EFFECTIVENESS

NOTE: Additional pages may be used, but needs to follow the format of this form.

Attachment 5 - PAST PERFORMANCE
REFERENCE INFORMATION SHEET

THE FOLLOWING ADDITIONAL INFORMATION SHALL BE PROVIDED FOR AT LEAST THREE (NOT MORE THAN FIVE) CONTRACTS LISTED ON THE PAST PERFORMANCE MATRIX.

1. CONTRACT NO:
2. NAME AND ADDRESS OF THE CUSTOMER FOR WHICH THE CONTRACT WAS PERFORMED
3. NAME OF CUSTOMER'S POINT(S) OF CONTACT WITH DIRECT KNOWLEDGE OF THE CONTRACT
4. COMPLETE TELEPHONE NUMBER(S) (WITH COUNTRY AND CITY CODE)
5. FAX NUMBER (WITH COUNTRY AND CITY CODE)
6. INTERNET E-MAIL ADDRESS

Note to Offerors: Ensure that phone/Fax/E-Mail numbers that you provide are/have been called and verified by your company prior to sending and that they are <u>legible</u>. Please bear in mind that faxing handwritten numbers often blurs them.

<u>Attachment 6 – PWS (See PWS section of contract above)</u>

Attachment 7 - Performance Work Statement (PWS) for Force Protection

CLIN XX12 - FORCE PROTECTION SERVICES AND SUPPLIES

(a) Only the ship's Commanding Officer, the ship's Supply Officer, or the FLC Yokosuka Contracting Officer is authorized to order Force Protection (FP) services under this contract. If any other activity or individual attempts to order FP services (e.g., NCIS, DAO, etc), the Husbanding Service (HS) Contractor is required to immediately inform the ship and receive a proper order prior to beginning performance of these services.

(b) The HS Contractor is responsible for providing or coordinating listed FP services as part of their Husbanding Services under Lot Line Item XX01 and XX02. The HS Contractor shall develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The HS Contractor must coordinate all aspects of FP planning and services with Port Authorities, host nation agencies, and U.S. Embassy security staff. If the host nation is supplying FP assets the HS Contractor must verify they are available and are scheduled to show up on time.

(c) The HS Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer. The HS Contractor shall not add any requirements without prior approval.

(d) The HS Contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FLC Yokosuka Contracting Officer. The HS Contractor must explain what the added FP service will include and why it has been requested. The FLC Yokosuka Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the HS Contractor will be authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

(e) FP is considered a combination of practices and procedures, including the use of specific material, equipment, and personnel, having the objective of improving security to personnel and ships while in port. FP services or supplies may be provided by the host nation at no cost or may be billed at the public tariff rate. The HS Contractor is required to verify what services will be provided by the host nation. For the services that cannot be provided by the host nation, the HS Contractor is required to arrange these services by obtaining them from commercial sources at the prices indicated in the pricing schedule.

(f) The HS Contractor shall protect ship schedule information, both paper-based and electronic, from disclosure to individuals and contractors that are not directly involved in providing service to the Navy in response to a verbal or written order from an authorized ordering official under the contract. This requirement to protect ship schedule information shall be flowed down to all individuals and contractors that are directly involved or may be directly involved in providing service to the Navy under this contract. The HS Contractor's written policy shall describe the required measures to protect ship schedule information.

(g) The HS Contractor shall provide as many services identified below as ordered by the ship or FLC Yokosuka Contracting Officer. These services do not include other related services not listed, but may be required and separately ordered to attain a higher level of security in a port.

(h) Personnel providing force protection services must be responsive to instructions from the ship. This does not authorize force protection personnel to violate any local regulations, any Port Authority ordinances, or local decrees. The equipment and material used for the force protection services will be inspected by the ship's force to ascertain that they meet force protection requirements.

(i) Access Points: The HS Contractor shall establish a single entry and exit point to the pier area.

(j) Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

(k) Personnel Identification: The HS Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify personnel while they are working.

(l) Background Checks: The HS Contractor shall conduct security background checks on employees and subcontractor employees with local or national police departments or other government organizations. The HS Contractor shall not use employees if the results of their background investigation indicate they may be a security risk to the ship or its crewmembers. The HS Contractor shall issue photo identification badges to its personnel and ensure subcontractor personnel have photo identification badges. Badges shall be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge so that it is visible at all times. The HS Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as Contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing. In addition, the HS Contractor will be required to provide vetting services for third party contractors such as DESC contractors.

(m) Access Lists: The HS Contractor shall develop a daily list of authorized personnel, vehicles and vessels that may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work. For vehicles, the list will include a description of the vehicle, license plate number, driver's name, time and duration of visit, and purpose of their work. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

(n) Inspections: The HS Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled area. If they go outside the controlled area they must be re-inspected before continuing their work.

(o) Stand-Off Distances:

Objects: To the maximum extent practicable the HS Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship.

Unloading Zones: To the maximum extent practicable the HS Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship.

Warning Signs: The HS Contractor shall provide FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen. The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. The signs must include a clear warning that the use of deadly force may be authorized by the local security guards or police force.

Sign Specifications:
- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area, Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

(p) The unit price for force protection services shall include all costs associated with providing transportation, mobilization/installation and demobilization/de-installation, or arranging the requested services below unless the

transportation, mobilization/installation and demobilization/de-installation is identified as a separate Lot Line item number. The HS Contractor's invoice shall set forth the unit of issue identified for each service, total quantity ordered for each service, unit price, and the total price.

(q) The force protection services that the ships may order are:

(1) Jersey-type security barriers and CONEX box barriers capable of stopping a vehicle (automobile). (Price per meter per day)

(i) Concrete barriers
(ii) Water filled barriers (completely filled with water). Price must include water.
(iii) CONEX box barriers.

Mobilization, installation and demobilization will be billed under a separate contract line item number.

The HS Contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used as well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zigzag patterns to control the speed of access.

A personnel entry point must be established through the barriers. Barriers may also be used to seal off secondary Port gates. All barriers must be placed prior to a ship's arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

(2) Armed or unarmed security guard to control vehicle and personnel access to pier. (Price per guard per hour) Must be English speaking, and equipped with own handheld radio (not ship's radio) to communicate with ship. Duties and responsibilities will be coordinated with the ship upon arrival.

The HS Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas. The HS Contractor shall comply with Attachment 14 for security guard operations.

Sub Lot Line Item XX12AB shall not be ordered where private, armed security guards are contrary to host nation law or regulation. In such cases, sub lot line item XX12AC, XX12AD, or XX12AE shall be substituted and the Ordering Activity notified at the time of the order.

(3) Floating Line of Demarcation (FLD) at pierside, equipped with anchors and lighting (for night visibility). (Price per meter per day) The floating FLD must be anchored at least 30 meters from ship. Oil booms are acceptable. Mobilization, installation and demobilization will be billed under a separate contract line item number.

The HS Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers but is to help identify a safe standoff zone. The HS Contractor shall comply with the specification of the FLD in Attachment 12.

(4) Unarmed and manned picket boat or waterborne patrol (motorized patrol craft, approximately 5-10 meters in length), with own radio to communicate with ship and local authorities. Continuous coverage is required for the period of performance ordered by the ship or by the Contracting Officer. (Price per patrol craft per hour) Duties and responsibilities will be coordinated with the ship upon arrival. If the period of performance ordered by the ship is less than 4 continuous hours, the HS Contractor is entitled to a minimum daily amount of four (4) continuous hours for each patrol craft ordered.

The HS Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone. The HS Contractor shall comply with Attachment 13 for picket boat operations and specifications.

(5) Unarmed and manned motorized patrol craft, approximately 5-10 meters in length, with own radio to communicate with ship and local authorities, to escort ship from pilot pickup point to mooring location. (Price per craft per hour) Duties and responsibilities will be coordinated with the ship upon arrival. If the period of performance ordered by the ship is less than 4 continuous hours, the HS Contractor is entitled to a minimum daily amount of four (4) continuous hours for each patrol craft ordered.

(6) Unarmed and manned waterborne patrol (motorized patrol craft, approximately 5-10 meters in length), with own radio to communicate with ship and local authorities, on call (available within 15 minutes). (Price per craft per hour) Duties and responsibilities will be coordinated with the ship upon arrival. If the period of performance ordered by the ship is less than 4 continuous hours, the HS Contractor is entitled to a minimum daily amount of four (4) continuous hours for each patrol craft ordered.

(7) Tire-shredding strips, equipped with metal spikes, to be placed across the entry to pier access. (Price per one strip per day) The strips shall be capable of disabling a vehicle, which drives over the strips in the wrong direction. Strips shall be at least one meter in length.

(8) Metal pedestrian-control fences (perimeter fences). (Price per 2x2 meters fence per day) The fences shall be at least two (2) meters high, two (2) meters wide, and sturdy enough to withstand wind and other inclement weather.

The HS Contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the HS Contractor will provide portable chain link fencing with vehicle and walk up entrances.

The perimeter fence provided by the HS Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point: Entry available for vehicles and personnel.

(9) Portable fluorescent lighting capable of illuminating 300 meters by 100-meter area. (Price per portable unit per day) The HS Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Port's installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

(10) Weather resistant guard shacks, capable of holding at least two persons. Guard shack shall be enclosed, and shall have, at a minimum, one door and one window. (Price per unit per day)

(11) Hand held metal detectors, similar to those used in commercial airports. Must be certified by the local certifying entity and in good working condition. (Price per unit per day)

(12) Walk-through metal detectors, similar to those used in commercial airports. Must be certified by the local certifying entity and in good working condition. (Price per unit per day)

(13) Trained metal detector operators. (Price per hour per operator). Operators shall search host nationals and host national vehicles. Operators must have proper authorization/certification to conduct searches, and be in an official uniform. Operators must also have their own handheld radio to contact ship or local authorities.

(14) Hand held explosives detectors, similar to those used in commercial airports. Must be certified by the local certifying entity and in good working condition. (Price per unit per day)

(15) Walk-through explosive detector, similar to those used in commercial airports. Must be certified by the local certifying entity and in good working condition. (Price per unit per day)

(16) Trained explosives detector operators. (Price per hour per operator) Operators shall search host nationals and host national vehicles. Operators must have proper authorization/certification to conduct searches, and be in an official uniform. Operators must also have their own handheld radio to contact ship or local authorities.

(17) X-ray baggage scanning machines, similar to those used in commercial airports. Must be certified by the local certifying entity and in good working condition. (Price per unit per day)

(18) Trained X-ray baggage scanning operators. (Price per hour per operator) Operators shall search host national baggage. Operators must have proper authorization/certification to conduct searches, and be in an official uniform. Operators must also have their own handheld radio to contact ship or local authorities. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

(19) Explosives disposal-trained diving services capable of inspecting pier before ship arrival. Must have obtained all applicable licenses and/or certifications from host nation prior to diving. (Price per hour)

(20) Battery operated bullhorns, new batteries included. (Price per unit per day)

(21) Sturdy tables with dimensions of at least two (2) meters long and one (1) meter wide, with four folding chairs. (Price per unit per day)

(22) Tents or awnings to shelter personnel conducting inspections and/or designated medical area. Must be at least three (3) meters by three (3) meters, and open on all sides. Must be anchored down and strong enough to withstand inclement weather. (Price per unit per day)

(23) Tents or awnings to shelter personnel conducting inspections and/or designated medical area. Must be at least three (3) meters by three (3) meters, and closed on all sides. Must be anchored down and strong enough to withstand inclement weather. (Price per unit per day)

(24) 800 MHz radios. Must be in excellent condition, and battery operated, with batteries included. (Price per unit per day).

(25) The HS Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ship's personnel while performing security checks on personnel, baggage, and vehicles. The office or tent will be large enough to accommodate a minimum of five (5) people. The tents shall

have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The HS Contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 LB, CO2 fire extinguisher shall be provided and kept fully charged. (Price per unit per day)

(26) The HS Contractor shall provide two-way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals. (Price per set per day)

(27) The HS Contractor shall provide an under carriage vehicle scanner to scan vehicle undercarriages. (Price per unit per day)

(28) Dive and Vetting: The HS Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities. The pier will be vetted prior to the ship's arrival. To the maximum extent practicable the HS Contractor shall inspect all watercraft at least 400 feet (125 meters) from the ship. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel. The HS Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in picket boats. (Per team per hour, minimum four (4) hours)

Attachment 8 - Performance Work Statement (PWS) for Cost Reporting

LINE ITEM XX32AA – COST REPORTING

A. Pre-arrival Cost Estimate Report

(1) The Contractor shall prepare an Initial Cost Estimate Report (referred to in this solicitation as the 'pre-arrival cost estimate') in response to all orders issued to the Contractor by any method identified under "ISSUANCE OF ORDER" in Contract Terms and Conditions – Commercial Items. The orders will be provided to the Contractor by ships, activities and individuals identified in the contract. The Initial Cost Estimate will include estimated prices for all items ordered. It will not be sufficient to simply state that the estimated price is "per contract" or "per Port Tariff".

(2) The Contractor shall send the Initial Cost Estimate Report by email to the requiring customers authorized to use this contract and to the and to the email address specified at the time of contract award for each region within **48 hours** after receipt of the LOGREQ/order. In the situation where the Contractor receives the logreq with less than two working days prior to the arrival of the ship, the Contractor shall make every effort possible to provide the cost estimate prior to the ship's arrival, but in no case, more than 48 hours after receipt of the LOGREQ.

(3) Any changes to an Initial Cost Estimate Report shall be forwarded by email to the requiring customers authorized to use this contract and to the email address specified at the time of contract award for each region .

(4) These estimates shall be provided to any other requiring customers authorized to use this contract based on the customer's request.

(5) In addition to the initial cost estimate, the Contractor shall provide any additional information and respond to the activity authorized to act on behalf of the ship, such as the Port Services office or the DAO.

B. LogSSR Reporting

The Contractor shall fully participate in the use of the Logistics Support Services Repository (LogSSR) web-based system. LogSSR replaces all previously used reporting processes such as legacy web-based systems like Cost Reporting and Forecasting Tool (CRAFT).

Upon award, the Contractor shall utilize the LogSSR to submit all reports and documentation related to the ship's visit. LogSSR can be accessed through the NAVSUP One Supply website at https://www.navsup.navy.mil/onesupply, redirected through www.navsup.navy.mil/logssr or directly at the official website of https://www.navsup.navy.mil/portal/page/portal/logssr/index.jsp.

(1) LogSSR access and input.

(a) At the start of the contract period of performance, the Contractor shall enter the final itemized port cost information directly into the LogSSR database (Actual Cost Report) and email all corresponding documentation (Initial Cost Estimate Report, final invoices, and supporting documentation required by the contract). External Certification Authority Public Key Infrastructure (ECA PKI) is not required for entry, but no access to the contractor's information is accessible unless obtaining an ECA PKI.

(b) Contractors can obtain access to their submissions by obtaining an ECA PKI per the NAVSUP One Supply guidelines and requesting access through the website. Information can be obtained through the LogSSR website at https://www.navsup.navy.mil/portal/page/portal/logssr/index.jsp.

(2) LogSSR functionality.

(a) This system is designed to gather all reports and documentation related to the ship's visit, beginning with the Initial Cost Estimate (referred to in this solicitation as the 'pre-arrival cost estimate') to the Actual Cost Report. All supporting documentation will be submitted by email to navsup_hq_logssr@navy.mil in PDF format (Adobe Acrobat) when the port visit information is entered into LogSSR. Although the pre-arrival cost estimate is a separate reporting requirement, a copy of this report shall also be submitted as part of the Actual Cost Report documentation described in paragraph (b) below. The Documentation is discussed below:

(b) Actual Cost Report:

(1) The Contractor shall create the Actual Cost Report in the LogSSR website directly, **within seven calendar days from completion of the ship's visit** . The contractor shall also send a copy of the order (i.e. SF 1155 or 1449), a copy of any Initial Cost Estimates, a copy of the logreq, and all the contractor's invoices and supporting documentation required by the contract as PDF files to theLogSSR email address of **navsup_hq_logssr@navy.mil** and to the email address specified at the time of contract award for each region concurrent with the creation of the Actual Cost Report in LogSSR.. The Contractor shall identify the line items as actual or estimated. This option is for those line items where the Contractor has not received the actual invoice before the ship leaves port, i.e. telephone bills. The Contractor shall include all port costs paid by each ship for which the Contractor provides husbanding services. The term "port costs" includes all supplies or services identified in the section of the contract titled, SUPPLIES/SERVICES AND PRICES, supplies or services furnished under another FLC contract, and any other charge paid by the ship during the port visit.

(2) For ships that do not have payment capabilities, the Contractor shall send the signed

DD Form 1155, invoices and the additional documents required clearly indicating that a payment is pending to the and to the email address specified at the time of contract award for each region and to the LogSSR email address of **navsup_hq_logssr@navy.mil.**

(3) Any changes to an Actual Cost Report (i.e. finalize the charges made on an estimated amount) shall be forwarded by e-mail to and to the email address specified at the time of contract award for each region and to **navsup_hq_logssr@navy.mil** email account as PDF file within seven calendar days of the change. The FLC Yokosuka contracting office will update changes to the LogSSR.

(4) The Actual Cost Report and supporting documentation will be visible in the LogSSR website by the government personnel with validation authority. Final reports of an HSP representative can be accessed through the website only by obtaining an ECA PKI that will provide access only to the HSP's submitted information.

NOTE: Before submission of reports or any other data to the FLC Contracting Office via electronic transmission or any other data media, the Contractor shall scan all documents with current anti-virus software to ensure computer virus free transmission. The LogSSR server scans all reports for computer viruses before inclusion in the databases. Any reports received containing computer viruses will be immediately returned to the Contractor.

LINE ITEM XX32AB – ONLINE PRICING APPLICATION

Online Pricing Application. The contractor is responsible for providing an On-Line Pricing Application to assist the Government in the estimating, tracking, forecasting and reporting of maritime husbanding support non-priced services. The On-Line Pricing Application will assist the Ordering Officer or Contracting Officer with requests for non-priced supplies and services. The online pricing application is the technology that implements the process for review and approval of non-priced item purchases. Therefore, the technology used to implement the non-priced item pricing process must be both reliable and accurate. The On-Line Pricing Application will also allow the Ordering Officer or Contracting Officer to review and approve the offered price for the non-priced item before the contractor provides the supply or service. The contractor will be required to upload accurate pricing data for all non-priced items requested or made available to the users of the contract where pre-priced items do not meet user requirements. The contractor shall not provide any non-priced supplies or services other than PT or NSP items unless they have been approved in accordance with paragraph (iii) below. All non-priced items requested or ordered under this contract shall be reported in the On-Line
Pricing Application. The On-Line Pricing Application is separate from the contract requirements for reporting pricing and costs in LogSSR.

The Contractor shall provide a web-based secure access to their program via secure user login and password no later than the beginning of the contracts period of performance. This program may be developed by the Contractor or procured as a commercial item. The program shall allow multiple simultaneous users to access the tool. Access shall be coordinated through the FLC Yokosuka Contracting Officer in order to limit access. Only authorized users will have access to the program. A common secured access shall be made available to the Fleet in order to allow access to all Ordering Officers in a particular area of operation. Any reports downloaded from the program are property of the U.S. Government and data rights are considered unilateral for the Navy portal into the program. All reports shall be downloaded into Microsoft Excel format. This application should be available for use through a web-based application without installing additional software onto Government computers. The HS Contractor's program should allow a computer with the following minimum configuration to access their system:

- Intel 2.8 GHz Pentium 4 processor
- a DVD Read Only and CD writable drive
- a 3.5 inch floppy
- SoundMAX Integrated Digital Audio with external speakers
- 1 Gigabyte of Memory and expandable to 4 Gigabytes
- 80 GB Hard Drive
- Windows 2000
- MS Office 2003 Pro with Word, Excel, Access, Ppoint, Outlook, Infopath
- Smartcard Reader Keyboard
- Wired Network Card

Note 1: The online pricing application requires internet access but is not a Navy IT system. Security of the HSP's data within the online pricing application is the responsibility of the HSP. All data in the online pricing application should be unclassified data.

Note 2: All reports provided under lot line item XX32 are not separately priced (NSP). Costs for submitting required reports under this lot line item should be included in the husbanding services fee. Separate cost reimbursement for development or purchase of the application is not authorized.

Note 3: The HS contractor shall provide a secure user login and password for all authorized Government users no later than the beginning of the contract's period of performance. A list of required government users will be provided at the time of contract award. If new Government user requirements become known to the Government after the initial list is provided to the HS contractor, the HS Contractor shall add new users and provide login and password within seven days of receipt of the request.

Note 4: Common secured access shall be provided to Ordering Officers and Fleet representatives for all port visit data. Any authorized Government user should have access to all historical data and pricing information.

At a minimum, the online pricing application must perform the following functions:

(i) Non-priced Item Cost Reporting:

(1) The Contractor shall maintain 'real-time' pricing data for all non-priced items ordered in all ports for which the Contractor provides husbanding services.

(2) The Contractor shall input and keep updated the programs' 'real-time' pricing via the Internet, using the online pricing application. The Contractor shall update this report at least once per day of performance between the hours of 0700 and 2300 while ship is in port until the completion of the ship's visit.

(ii) Final Price Report:

(1) A summary disbursement account must be itemized in detail, with the appropriate price shown against each item in a format similar to Attachment 2 within forty eight (48 hours) after a ship leaves port. Alternatively, it is acceptable for the Contractor to scan and attach suppliers' invoices to the online pricing application's disbursement account where this facilitates the process. The Contractor will in any event be required to retain all pricing data and invoices relating to non-priced items for review, future visit reference, and official audit purposes. These final reports may be provided to other ships or ordering activities visiting ports covered by the contract.

(iii) Non-priced Item Review Process

In accordance with Paragraph 3(o) of the performance work statement the HS shall develop and implement a process by which it will input the documentation and arrangements for non-priced lot line items into the "Online Pricing Application". The contractor shall mirror the competitive process found in the FAR/DFARS (Parts 13/15). For the purpose of evaluation and analysis, the HS Contractor shall provide the results (contractor written quotations) of competing the requirement with at least two commercial contractors, or provide catalog prices lists or tariff schedules with the contractor catalog or tariff schedule that confirms the stated prices are valid from that source, or provide invoices from previous commercial purchases other than the Navy. The HS Contractor is not precluded from adding an allowance for profit and/or an allowance for its administrative costs to acquire the non-priced items to the reported prices from suppliers. Such additions will also be shown in the Online Pricing Application. The HS contractor shall input the information into the Online Pricing Application for the review and approval of the authorized Ordering Officer or FLC Yokosuka Contracting Officer prior to arranging for the non-priced item. For non-priced items with an extended price of less than $25,000, either the Ordering Officer or the FLC Yokosuka Contracting Officer may determine if a quoted price is fair and reasonable prior to an order being issued for the non-priced item. For non-priced items with an extended price greater than $25,000, only the FLC Yokosuka Contracting Officer may determine if a quoted price is fair and reasonable. All purchases of non-priced items other than port tariff items must be documented using the online pricing application. Items with an extended price <$25,000 will be reviewed and validated by the FLC Yokosuka Contracting Officer, but may be provided to the Ordering Activity at any time after a price is agreed upon by either the Ordering Officer or FLC Yokosuka Contracting Officer. Items with an extended price >$25,000 may not be provided or mobilized until the FLC Yokosuka Contracting Officer has agreed to the price and confirmed the price using the online pricing application. Using this process, all products and services arranged on behalf of the Ordering Officer shall be billed and reported under LOT Line Item XX43, Incidentals. The process will be monitored and evaluated using Attachment 10, Quality Assurance Surveillance Plan.

NOTES:

1. “All data obtained by the Government through the use of the contractor’s online pricing application during the course of the contract is for the Government’s use and shall be treated as ‘limited rights’ as described in DFAR 252.227-7013(13) after the contract expires”.

2. Failure to provide required reports in a timely manner as outlined in the PWS will result in penalties as outlined in Attachment (10) Quality Assurance Surveillance Plan.

Attachment 9 - Performance Work Statement (PWS) for Operations Other Than War (OOTW) Support

A. INTRODUCTION

(a) OOTW Support shall by rendered by or supervised directly by individuals fully qualified and licensed in the relevant profession, trade, or field. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses, and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety environmental and health precautions are taken to protect the work, the workers, the public, and the property of others.

(b) Operations Other Than War (OOTW) refers to a "Contingency operation" as that term is defined in FAR 2.101 and includes emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. For the purpose of this contract, OOTW support will be "First Responder" support for U.S. Navy or other forces authorized to order under this contract and will generally be limited to the initial support for a contingency operation lasting no more than thirty (30) days. In addition, it is anticipated that the estimated cost of supplies and services that may be ordered under this Line item during a single 'contingency operation' will not exceed $1,000,000. The supplies and services necessary to support these type of contingencies will include but be not limited to potable water, blankets, tents, transportation, interpreters, drivers, construction materials, medical supplies, trucking support and other logistics support necessary to support the first responder teams.

(c) In addition to rescue and humanitarian relief missions, contingency operations can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property. For purposes of this contract, it also includes Non-combatant Evacuation Operations (NEO's), or an unplanned, real world deployment of troops for an period of time not to exceed thirty (30) days. The provisions of FAR part 18, Emergency Acquisitions (effective 5 July 2006), apply in full to the OOTW requirements of this contract.

B. ORDERING AND PRICING

(a) Lot Line Items XX40AA and XX40AB are used to order Management Services in support of Operations Other Than War.

(b) Recognizing that the specific Management Services that may be required will likely vary depending on the particulars of the individual Operation Other Than War, the Lot Line Items are priced on a per person/per day basis. All orders for specific supplies or services shall be ordered under Lot Line Item XX43, Incidentals and shall be arranged using the online pricing application described in Attachment 8. The $1,000,000 maximum dollar limit per OOTW contingency replaces the $50,000 maximum dollar limit that otherwise applies to Lot Line Item XX43. The management services ordered under Lot Line ItemXX43 are separate from the specific services outlined below.

(c) Management Services in support of an Operation Other Than War in all situations will be ordered under Management Services Lot Line Item XX40.

(d) (Deleted)

(e) At the time the Government orders services under the Lot Line items it will provide the Contractor a detailed list of tasks that the Contractor shall perform. The tasks shall be within the scope of the tasks further described below. The Contractor shall use its best efforts to fully perform the set of tasks within the limitation of the number of persons/number of days of service ordered by the Government.

(f) The Contractor shall promptly notify the Government if it believes that it will be unable to fully perform the specified tasks because the Government has not ordered sufficient services under these Lot Line Items.

(g) The Contractor shall furnish personnel who are familiar with the manner in which the U.S. Navy operates, speak the local language that is normally used at the site of the OOTW, and speak and read English. The Contractor shall ensure that the personnel provided under these Lot Line Items arrive at the OOTW site by the date and time specified in the order. The First Day and Subsequent Day Management Fee rates shall include any costs for the Contractor employees to travel to and from the OOTW site, and the costs of food and lodging for the Contractor while at the OOTW site. Contractor employees will not normally be provided meals or lodging at U.S. Government expense nor will they typically be entitled to Government-furnished lodging and meals on a reimbursable basis.

(h) The Contractor shall have a network familiar with the different political and commercial infrastructures, cultural and lingual background, and business practices either throughout the Region or in each country covered by the contract. In order to assist the Navy's response to OOTW, the Contractor shall furnish personnel with the following qualifications:

(i) Ability to speak the local language in the country where OOTW is being conducted
(ii) Capacity to travel to the OOTW or forward logistic site within 24 hours of notification
(iii) Current inoculation records
(iv) Possess a valid up-to-date passport

(i) For each increment of one person for one day that the Government orders, the Contractor shall provide one qualified employee to work on tasks identified at the time the order is issued for a period of at least 12 hours per day. The Contractor employee will perform those tasks at the OOTW site. The Contractor shall provide the Government a point of contact for questions and issues that arise in connection with the tasks identified at the time the order is issued who can be contacted during the portion of the 24-hour day that the Contractor's employee is not at the OOTW site.

(j) These are not personal services. Contractor employees performing services under these Lot Line Items will perform the tasks identified by the Government at the time the order is issued. The Contractor employees performing the services are under the supervision and direction of the Contractor. Should the Government have concerns with the manner in which the tasks are being performed or have a need to modify the tasks, it shall contact the Contractor.

(k) Services that may be required under this Lot Line Items include, but are not limited to, providing interpreter support, providing expertise on locally-sensitive cultural issues, liaison with local political and police authorities, and providing technical assistance in acquiring necessary supplies and services.

(l) The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government Contracting Officer shall place the order. As with the Management Services Lot Line Items for Husbanding Services, the Government may also direct the Contractor to acquire necessary supplies and services in accordance with Lot Line Item XX43, Incidentals as outlined in the Husbanding Services PWS. All supplies and services ordered in support of OOTW contingencies shall be arranged and reported using the online pricing application described in Attachment 8.

(m) If an operation is not associated with a ship, or if the Contractor's services are required inland (i.e., more than 100 Km from the nearest port), OOTW fees under this Lot Line Item will apply. If the service is provided in a port vicinity (within 100Km of the port) and the requirement is received from the ship or a contingent on the ship, the Contractor's husbanding fees under Lot Line Item XX01 and Lot Line Item XX02 shall apply.

(n) Management Services for Operations Other than War (OOTW) Lot Line Item . When supplies or services are ordered under the Operations Other than War (OOTW) Lot Line Item , the Government will clearly identify the days

during the performance period for which it is ordering Management Services. Because of the range of situations under which the Government may order supplies and services under the OOTW Lot Line Items, there is less certainty that the Government will order Management Services for each day of an Operation Other Than War than when the Government orders husbanding services. The Contractor is not required to provide any services described under the OOTW Management Services Lot Line Items on those days for which services are not ordered. Regardless of whether Management Services are ordered for a particular day, the Contractor shall still provide a point of contact to address Government concerns about supplies or services to be delivered on that day. Assistance by the Contractor in providing status and/or rescheduling deliveries will not in itself constitute an order for Management Services.

(o) If an advance party arrives in a country for OOTW and requires services under these Lot Line Items prior to the start of the OOTW event, the Contractor shall be compensated for the services provided at the subsequent day rates for these Lot Line Items. The Contractor is not required to provide any services to an advance party under these OOTW Lot Line Items without first receiving an order for such services. The Contractor may be required to support multiple operations at the same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the HS Contractor's services are ordered.

(p) The Contractor's POC for Husbanding Services, or an alternative designated in writing to the Contracting Officer, shall be available (either in person or by telephone) twenty-four (24) hours a day, seven days a week, during the time frame of the OOTW operation. The POC or the alternative shall assist the on-site Government representative in fulfilling OOTW logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements.

(q) If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

(r) The Navy may require identification of potential sources and/or delivery for supplies and services such as:

Bottled potable water, portable latrines and services, floodlights, billeting services (hotel/motel rooms, services), meal services, tents, shower trailer and related services, refuse collection services, laundry and dry-cleaning services, forklifts, clothing, construction material, parts for vehicles, air conditioners, refrigerators, cell phones, IT equipment, repair parts, medical supplies, generators, commercial vehicles, pest extermination services, plumbing services, fuel, expediting or delivery services, MWR support, mortuary services, cultural awareness training, dietician support, translators, office supplies, boat ramps, pier/wharf/pontoon space, security fencing, security services, light trees, and Internet services (e.g., WI-FI services).

(s) In addition, the Navy may require either the identification of potential sources or delivery of any other types of supplies/services that will be unique and specific to the OOTW situation involved. Due to the unique nature of OOTW situations the range and depth of requirements will potentially be extensive. Normally, the Contractor shall not be required to perform until the Contracting Officer issues an IDIQ order for additional OOTW support.

(t) In very unique time sensitive situations the Contractor may be tasked to source and provide a large variety of supplies and services on a very compressed delivery schedule in support of large scale operations like NEOs, etc or other real world events.

C. SUPPLIES AND SERVICES

The items listed below are examples of what may be ordered under the OOTW portion of this contract. Prior to ordering OOTW supplies or services, a warranted Contracting Officer authorized to place orders under the contract will review any descriptions or statements of work to ensure they adequately describe the Government's needs and all terms and conditions are properly defined.

1. BOTTLED POTABLE WATER

The Contractor shall provide for the procurement and delivery of potable water to a specified site(s). The Contractor shall provide for the furnishing of fresh, potable water in 1.5 liter-sized bottles. Potable Water is defined as fresh drinking water of a quality not less than that prescribed in:

(a) Current Drinking Water Standards, as published by the United States Environmental Protection Agency, Office of Water and shall comply with specifications of the National Primary and Secondary Drinking Water Regulations (NPDWR). See Attachment #18.

(b) Code of Federal Regulations Title 21, Volume 2, Part 165.110 (21CFR165).

EXAMPLE OF GENERAL PRICING FORMAT FOR POTABLE WATER:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
XXXX	Bottled Potable Water (1.5 liter)	bottle	_____	$_____	$_____

2. PORTABLE LATRINES & SERVICES

(a) PORTABLE LATRINES (Specifications) - The services to be rendered consist of the rental of latrines (toilets), all labor, transportation, delivery, pick-up, dismantling, repair and maintenance, tools, materials, supervision and servicing of latrines.

(1) The Contractor will provide portable, chemical latrines (one seat) that are of the standard commercial-type, a single cabin unit in the approximate size of 1.25 m (wide) x 1.25 m (deep) x 2.0 m (tall). The cabin is to be equipped with a hand cleaning agent (dispenser) if available, a urinal, a holding tank (minimum capacity of 250 Liters), one toilet paper holder, a clothing hook, ventilation outlet, a lockable door, and a translucent roof.

(2) The Contractor will provide all labor, material, transportation and equipment required for the delivery and installation of the latrines, emptying/servicing, removal of sludge as necessary to the appropriate sewage disposal point and the pickup of the Latrines at the expiration of the rental period. In addition. the Contractor must provide all chemical agents to include antifreeze during freezing weather.

(3) The Contractor must implement a quality assurance program that will ensure that his work and the work performed by his employees is accomplished in such a manner that is in conformance with applicable standards of the trade and is in compliance with local and federal host nation Ecology Laws and Directives. The Contractor must obtain, and hold current, all necessary permits for the operation of his service and disposal vehicles on Saturdays, Sundays and local national/US holidays.

(b) SERVICING OF LATRINES

(1) The servicing of EACH latrine must be accomplished DAILY, TO INCLUDE ALL WEEKENDS, AND LOCAL/US HOLIDAYS. Servicing will include the replenishment of all chemical agents. Each cabin interior will be completely cleaned with a disinfectant agent, and the exterior walls will be cleaned as appropriate to give a well-maintained appearance. The hand cleaning agent will be replaced as needed, and the latrine will not be allowed to be without cleaning agent or toilet paper.

(2) The cleaning/servicing will be accomplished between the hours of 0700-1900 hours daily or as otherwise directed by the Contracting Officer or a Contracting Officer Representative (COR).

(c) DELIVERY OF LATRINES

(1) The latrines will be delivered operational and ready-for-use. The Contractor will provide a document written in ENGLISH (in duplicate), which provides the user a means of inspecting the condition of the latrines. The Contractor and the US Government Representative will jointly inspect each latrine for damages (dents, scratches) and completeness. The document must be signed and dated by both the COR and the Contractor as acknowledgment that the latrines were actually delivered and in the condition described/annotated. A copy of the document will be retained by the Contractor and the COR for use during the joint Inspection that must again be conducted at the end of the rental period. Both the COR and the Contractor will sign the document to acknowledge the return of the equipment in the described/annotated condition. Reasonable wear and tear, as well as damages which are not annotated on the turn-in document will not be considered as valid if the Contractor later submits a claim against the government.

(2) When re-locations are specified in the contract, the Contractor must perform the required services as specified below:

(i) When the Contractor is notified prior to 12:00 hours, the work must be accomplished on the same day.

(ii) When the Contractor is notified after 12:00 hours, the work must be accomplished not later than 10:00 hours the following day.

EXAMPLE OF GENERAL PRICING FORMAT FOR LATRINE RENTAL/SERVICES:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT OF PRICE	TOTAL
xxxx	Latrine Rental	Each/Day	___	$_____	$_____
xxxx	Servicing	Each/Day	___	$_____	$_____
xxxx	Emptying	Each/Day	___	$_____	$_____

3. FLOODLIGHTS

(a) FLOODLIGHTS (Specifications)

The services to be rendered consist of rental, delivery, set-up, maintenance and removal of floodlights to and from a specified site(s).

(1) The Contractor shall provide portable, wheel mounted, self contained lights of a commercial type that meets and/or exceeds the following specifications:

(i) The unit/s must be completely self contained, to include an on board generator capable of providing the required electrical power on a sustained basis (12 hours without interruptions). The noise-level of the generator shall not exceed 75 DBA, measured at a distance of 7 meters from the unit.

(ii) The unit/s shall be equipped with an on-board fuel tank which has a minimum fuel capacity to operate the unit for a 12 hour period without interruption.

(iii) The unit/s shall be equipped with six 1500 watt halogen lights which are to be mounted on a telescoping mast that can be adjusted from 7 to 9 meters in height. The lights are to be separately mounted on the mast and must be both horizontally and vertically adjustable to permit changes in the direction they can be aimed.

(iv) All fixtures, to include light bulbs, must be weather resistant to allow their operable use outdoors during periods of rain, wind, snow and inclement weather conditions in general.

(2) The Contractor shall provide all cables, cords and operating accessories, to include spare light bulbs (2 per light unit) , fuel and operational manuals in the English language.

(b) FLOODLIGHTS (Delivery, Maintenance & Removal)

(1) The Contractor is responsible for the delivery site placement, and an operational test of each unit. The Contractor must further ensure that the equipment and its installation meet the requirements of all applicable VDE regulations and the Trade Unions (UVV) accident prevention regulations. The unit/s will be delivered, installed and completely operational not later than 14:00 hours on the first day of the rental period.

(2) The Contractor shall provide a point of contact for "on call" maintenance and/or replacement of equipment. The point of contact must be available from 08:00 to 20:00 hours daily, to include Saturday, Sunday and all local and American holidays. In addition, the Contractor shall provide all labor, materiel and supervision required to keep the equipment in a serviceable and safe operating condition. Repair and maintenance may be performed on site, subject to coordination with the COR. If a light unit becomes inoperable, the Contractor will be notified immediately. The Contractor must respond within 6 hours after notification, to perform the required repair and maintenance services. Equipment that remains inoperable for more than a 24 hours period shall be considered not available for use and rental fees shall cease until the equipment is repaired to a fully operable condition or replaced with a serviceable unit. The pick-up and removal of inoperable equipment shall be accomplished at Contractor expense.

EXAMPLE OF GENERAL PRICING FORMAT FOR FLOODLIGHTS:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
xxxx	Floodlights	Each	___	$_____	$_____
xxxx	Set-Up	Each	___	$_____	$_____
xxxx	Rental & Maintenance	Week/Month	___	$_____	$_____
xxxx	Break-down & Removal	Each	___	$_____	$_____

4. BILLETING SERVICES—HOTEL/MOTEL ROOMS, SERVICES

(a) HOTEL/MOTEL ROOMS: The services to be rendered consist of both the rental of lodging accommodations, which are considered to be a hotel, motel or inn which provides sleeping facilities to the traveling public and various Contractor-furnished items described as follows:

(1) CONTRACTOR FURNISHED ROOMS: The Contractor shall furnish the following living spaces for single and double occupancy rooms. Each shall contain adequate living and sleeping areas. No more than two people shall be normally assigned to a room. Additional people assigned per room shall be agreed to in advance by the Contracting Officer (or his/her designated representative) and the Contractor. The following standards apply:

(i) Rooms shall be constructed and finished to provide good light and sound attenuation. All windows shall be provided with blackout lining, shades or blinds. If drapes are provided, they must screen out the light.

(ii) Sufficient electrical outlets shall be available and in good working condition.

(iii) All entrance doors to rooms shall have interior security locks, either deadbolt or double locking locks. At least one room occupant shall be provided with a room key.

(iv) Bathrooms must be constructed to provide convenient sanitary facilities. Bathrooms must contain a functioning shower and/or tub combination with a wash basin, a properly functioning toilet, and a mirror. Additionally, bathrooms should have adequate lighting and grounded electrical outlets for use of electrical razors, hair dryers etc. The shower or shower/tub combination shall have shower doors or curtains and hot and cold running water.

(v) A telephone in the room is desirable; if not available due to location, have telecommunication devices in the immediate area.

(vi) A television in the room is desirable; if not available due to location, have information as to where television is available to patrons.

(vii) Rooms shall have adequate heating and cooling capabilities.

(2) Furnishing and Equipment: Must be clean and in good repair. The following minimum furnishings are required:

Lamp --1 per desk or writing table
Adequate clothes storage drawers and closet space
Desk or writing table with chair
Trash Container
Bed

Additional desirable amenities:

Radio
Working tables and chairs
Restaurant within the facility
Refrigerators or ice machines in hallway
Chair, occasional
Alarm clock

(b) HOTEL/MOTEL SERVICES: The services rendered shall consist of the following contractor furnished services.

(1) ASSIGNMENT OF QUARTERS/ROOMS: Government personnel should not be billeted under this contract arrangement without presenting proper authorization to the Contractor. The Contractor must be adequately manned to provide a 24 hour check-in and check-out service, 7 days a week. Individuals of the same sex, designated for double room occupancy, shall be billeted in rooms with two beds. Normally, if these rooms are not available, single rooms shall be used. Any changes to this procedure will be agreed to in advance between the Contractor and the Contracting Officer (or his/her designated representative).

(2) CUSTODIAL/SANITATION SERVICES: Daily custodial services shall include, but is not limited to, room cleaning, bed making, linen change (as required), adequate quantities of soap, a minimum of four bath towels, four hand towels, sanitized drinking glasses, facial tissues, and a cloth bath mat.

(3) LINEN SERVICE: Linen service shall be provided once a week or when occupancy changes, whichever occurs first. Additional blankets shall be made available if requested by occupant. All linen and blankets shall be clean, freshly laundered, without any objectionable odors, and in good repair, free from tears, rips, holes, stains, and extensive wear. Pillows shall be at least six inches thick to provide proper support.

(4) ADDITIONAL DESIRABLE AMENITIES:

24 hour wake up service
Message service
Shuttle service

(5) COMMON USE AREAS: The Contractor shall keep all hallways, corridors, grounds, and other adjacent areas under the Contractor's control in a clean, neat and safe condition.

(6) "DO NOT DISTURB" SIGNS: All rooms shall have such signs available. Contractor's employees shall understand and respect them when displayed.

(7) LAUNDRY DROP OFF/PICK UP: Contractor shall provide required laundry service as agreed to in a separate contract (see contract # _____).

(8) BARBER SERVICES: Contractor will provide access in hotel area for barber/beautician services as needed.

(9) INFORMATION SERVICES: Customer service representatives shall be able to explain to occupants' miscellaneous charges not covered by this statement of work, i.e., telephone charges. The Contractor shall provide, where applicable, information on bus schedules, taxis and other local transportation, dining facilities and locations, and commercial telephone directory service.

(10) Business Services: Hotel will provide space for meetings as well as phone, copier and fax services as required.

(11) Meal Service: Contractor shall provide required meal service as agreed to in a separate contract (see contract # _____).

EXAMPLE OF GENERAL PRICING FORMAT FOR HOTEL/MOTEL, SERVICES:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
xxxx	Rooms (1 person)	Each/Day	___	$_____	$_____
xxxx	Rooms (2 persons)	Each/Day	___	$_____	$_____
xxxx	Additional Persons per room	Each/Day	___	$_____	$_____

5. MEAL SERVICES

(a) MEAL SERVICES (Programs/Hours of Operation)

The services rendered consist of providing all the personnel, supervision, and any other items necessary to operate a full food service management facility as defined in this Statement of Work at ____*_____ Hotel, located in _____*_____.

(b) The Contractor will provide for a Quality Control Program, Quality Assurance Program and a Sanitation Inspection Program as well as complying with Hours of Operation as described in (1) through (4) below.

(1) QUALITY CONTROL: The Contractor shall establish and maintain a complete quality control program for the performance requirements of this contract.

(2) QUALITY ASSURANCE: (INSERT METHOD OF CONTRACTOR SURVEILLANCE, IF ANY.)

(3) SANITATION INSPECTIONS: The Contractor shall ensure that there is a Sanitation Inspection program established internally and in addition to any government performed surveillance, medical services personnel

(Director of Base Medical Services), will also inspect for compliance with sanitary conditions. If there is a conflict the Contractor shall comply with the more restrictive regulation.

(4) HOURS OF OPERATION: The Contractor shall maintain the operating hours for the dining facilities as listed in _____*_____.

(c) DEFINITIONS

The Contractor will be familiar with and understand the following definitions:

(1) Director of Base Medical Services (DBMS): The installation medical authority who defines and monitors sanitation standards and procedures for food service activities.

(2) Equipment: Items used to store, prepare, cook, serve and transport food and supplies. Equipment also includes items used in cleaning and sanitizing.

(3) Food Handlers: Food service personnel who handle, process, prepare or serve food and who touch food or food contact surfaces in any way.

(4) Food Service Officer (FSO): Individual responsible for matters relating to food service.

(5) Installation Menu: Specifies installation menu choices (except leftovers), including, but not limited to, entrees, salads, desserts, and soups, to be served at each meal during a menu cycle.

(6) Leftovers: Leftovers are unserved portions of any item prepared for a specified meal period.

(7) Meal Serving Hours: Hours that the Government requires the dining facility to be open for service.

(8) Potentially Hazardous Foods: Any perishable food which consists in whole or in part of dairy products, eggs, meat poultry, fish, shellfish. These foods are likely mediums for bacterial growth and are potential causes of food-borne diseases especially if creamed, ground, mixed or handled often.

(9) Progressive Food Preparation (BATCH COOKERY): The preparation of food items at selective time intervals during an entire meal period matching the flow of patrons through the serving lines.

(10) Serving Line: This term refers to the location and equipment used in dining facilities to serve food cafeteria style.

(11) Subsistence: Food items, including beverages and condiments.

(12) Supplies: Expendable items such as paper and plastic products, cleaning and janitorial materials, kitchen utensils, and tableware.

(13) Trash: Any non-salvageable waste material other than garbage, rocks, or dirt. The waste includes metal, paper, glass, cardboard, floor sweepings, cartons, and similar materials.

(d) SPECIFIC TASKS

The Contractor will provide for and comply with the following Specific Tasks:

(1) MENU PLANNING AND POSTING: The Contractor shall coordinate meal planning with site representatives. The Contractor shall post daily menus before the breakfast meal in an appropriate location at each dining facility.

(2) REQUISITIONING SUBSISTENCE: The Contractor shall coordinate with Government personnel to requisition, pick up, deliver and off-load food at various food-service facilities.

(3) STORAGE AND ISSUE:

(i) Proper Storage: Upon receipt the Contractor shall promptly store perishable and semi-perishable subsistence. Store frozen and chilled items at specified temperatures.

(ii) First In-First Out: The Contractor shall ensure the oldest food items are issued first, except when the condition of an item dictates earlier use.

(4) SUBSISTENCE INVENTORY:

(i) Month-end Inventory: The Contractor shall take a physical inventory of all subsistence following the last meal on the last day of each month. The Contractor must reconcile the book inventory with the physical inventory and must submit proof of this to the government.

(ii) Other Inventories: The Contractor shall perform other inventory measures, i.e., annual inventory, equipment inventory before and after contract completion, etc., as required by the Contracting Officer. The government also reserves the right to conduct an independent inventory at any time during the performance of the contract.

(5) FOOD PREPARATION AND SERVICE.

All meals provided shall be “American-type” meals. Examples follow:

Breakfast:
Cereals: corn flakes, wheat flakes, chocolate flakes
Fresh fruits: bananas, grapefruit, oranges, pears, grapes...
Eggs: fried, scrambled.. Hash browns
Meat: Ham, sausage, bacon
Bread: White bread, toast, wheat, rye
Butter & Jam
Pastry: croissants, apple pie
Beverages: Coffee, orange juice, milk, water

Lunch:
Soup: vegetable, mushroom, tomato, chicken, beef, turkey...
Sandwich: ham, turkey, roast beef
Cheeses: American, Swiss
Fruit

Dinner:
Roast beef, roast/baked/fried chicken, roast pork, roast turkey, grilled fish, BBQ, roasted lamb
Beef/chicken stew
Rice, pasta (spaghetti, macaroni, lasagna) potatoes (baked, mashed...)
Boiled or Steamed Vegetables: corn, green beans carrots, peas, etc.
Pizza, hamburgers, hotdogs, tacos
Soups
Bread
Salad: lettuce, tomato, cheese, onions, dressing, etc.
Juice, water, milk

All food services items listed above are subject to approval by the U.S. Government medical personnel.

(i) Approved Menu: The Contractor shall follow the approved installation menu when planning and preparing all meals.

(ii) Progressive Food Preparation: Progressively prepare food items to yield optimum freshness, flavor, color, and texture.

Cook short-order breakfast items to order.

Prepare short-order items such as hamburgers, hot dogs, and french fries. Ensure an adequate flow of patrons through the line.

(iii) Serving Lines: Set up serving lines by the scheduled opening time. Food on the serving line shall be logically arranged and all foods shall be maintained at the specified temperatures. Replenish all foods, tableware, beverages, and condiments as necessary to ensure they are available to all patrons throughout the meal. Remove all food from the serving line within 15 minutes after the serving line is closed and cover, label and properly store all food, unless disposal of a leftover is appropriate.

(iv) Table Clearing: The Contractor shall be responsible to clear and clean all dining room tables and chairs or benches within five minutes after they are vacated to ensure a timely flow of patrons.

i. ****SAMPLE****

Breakfast Meal will be served in the ___*_____ Hotel restaurant as a buffet during established hours as posted. Dinner Meal will be served daily from _*__ hours to _*___ hours in the conference room adjoining the lobby or as otherwise coordinated. Actual headcount will be coordinated daily or as needed. Menu will consist of beef, poultry, or fish, salads and various fresh/canned vegetables, desserts, water, coffee, and soft drinks as coordinated with the chef and hotel staff by the ordering officer.

EXAMPLE OF GENERAL PRICING FORMAT FOR MEAL SERVICES:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
XXXX	Breakfast	Each	____	$_____	$ _____
XXXX	Lunch	Each	____	$_____	$_____
XXXX	Dinner	Each	____	$_____	$_____

(6) SANITATION REQUIREMENTS:

(i) Personal Hygiene. The Contractor shall ensure all employees meet all personal hygiene requirements to include but not limited to; clean hands and fingernails at all times, proper hair and facial grooming, hair restraints, proper smoking restraint, etc.

(ii) Food Storage and Preparation: The Contractor is responsible for preventing all food-borne diseases by properly storing and preparing food in accordance with AFI 48-116, Control of Food-Borne Illnesses. This includes, but is not limited to: storage of bulk foods, refrigerated food, leftovers, perishables, etc. The Contractor shall prepare foods on surfaces that are cleaned and sanitized. All meats and poultry shall be cooked and prepared at the proper temperatures ensuring the food is thoroughly cooked throughout. (FOR PROPER TEMPERATURE RANGES ON VARIOUS FOODS, CONSULT AFI 48-116 OR YOUR MEAL SERVICES REPRESENTATIVE)

(iii) Equipment and Utensil Cleaning: The Contractor shall clean and sanitize all food service equipment and cookware to remove food particles, other soil, grease and cleaning or sanitizing agent residue to the standards set forth in this contract.

(7) HOUSEKEEPING.

(i) General: The Contractor shall furnish general housekeeping services in food service facilities before, during (if necessary) and after the serving of meals. The Contractor shall provide all equipment necessary to perform these services. The cleaning standards and housekeeping charts are intended to produce an acceptable level of performance.

(ii) Lavatories: The Contractor shall clean all lavatories in food service facilities.

(iii) Insect and Rodent Control: The Contractor shall take appropriate actions directed by the government to assist in the control of insects and rodents.

6. TENTS

(a) TENTS - SUMMER

(1) The services to be rendered consist of the rental, erection, dismantling and maintenance of all tentage and associated equipment.

(2) The Contractor shall provide ____*_____ square meters of billet tents to be erected at the site(s) and in the configurations as stated in the contract schedule and the plot plans provided.

(3) The tentage shall be constructed of PVC or polyester fire resistant canvas. The Contractor must ensure that all tent flaps and openings are adequately secured so as to prevent rain from entering the tent.

(4) Floors: The entire usable space within the tent must be covered with floors that are constructed of wood or other equally hard material (the material used must offer a nonskid surface). The floors must be installed in such a manner as to alleviate uneven surfaces that could cause personnel to stumble or trip. The floors must be elevated a minimum of 10 cm above the ground and capable of supporting 250 kg per square meter.

(5) Entrances/Exits: Each tent shall be equipped with at least two (2) lockable entrance/exit doorways. These doorways shall be constructed of wood, metal or plexiglass (no glass). The doors shall be a minimum of 100 cm wide and 210 cm high. (The Contractor will furnish the COR with a minimum of two keys per door.)

(6) Partitions/Dividers: Shall be made of canvas and/or other suitable fire resistant material. They must be a minimum of 2.40 meters in height and 3 meters long (unless otherwise specified).

(7) Lighting: Each tent shall be equipped with fluorescent lighting sufficient to provide lux measured at 80 cm off the floor (subject to be measured at any place within the tent).

(8) Electrical Installations: A JP54 or equivalent fuse box shall be installed in each tent. The box shall be equipped with at least one connector to accommodate a single 38OV/16AMP male plug, CEE NORM. All wiring within the tent will originate from this fuse box and all circuits shall be properly fused. The specified quantities of electrical outlets, 22OV/16AMP, wires on floors shall be installed within the tent. The location of the outlets shall be coordinated with the COR. The Government will provide the required electrical power and will be responsible for the cables and connections from the Contractor’s fuse box to the government furnished power source.

(9) Furniture: The specified number of tables and benches, capable of seating (6) six adults shall be provided. The Contractor shall place the furniture in the tent at the locations determined by the COR.

(10) The Contractor shall have ___*_____ each, designated maintenance personnel stationed on-site. These persons will be available 24 hours a day, 7 days a week, in order to perform the repairs and/or replacement actions as necessary. These persons shall be qualified to perform emergency tent maintenance.

(b) TENTS - WINTERIZED

(1) The services to be rendered consist of the rental, erection, dismantling and maintenance of all tentage and associated equipment.

(2) The Contractor shall provide _____*_____ square meters tentage to be erected at the site(s) and in the configurations as stated in the contract schedule and the plot plans provided.

(3) The tentage shall be constructed of PVC or polyester coated fire resistant canvas. In addition to the tentage, an exterior wall shall be constructed to enclose each tent to the height of the tent eaves. The exterior wall is to be constructed of wood that has a minimum thickness of 20 mm, or hard plastic/fiberglass that has a minimum thickness of 3 mm, or aluminum material which has a minimum thickness of .75 mm. The Contractor must ensure that all tent flaps and openings are adequately secured so as to prevent wind and/or snow from entering the tent.

(4) Floors: Unless otherwise specified the entire usable space within the tent must be covered with floors that are constructed of wood or other equally hard material (the material used must offer a nonskid surface). The floors must be installed in such a manner as to alleviate uneven surfaces that could cause personnel to stumble or trip. The floors must be elevated a minimum of 10 cm above the ground and capable of supporting 250 kg per square meter.

(5) Entrances/Exits: Each tent shall be equipped with at least two (2) lockable entrance/exit doorways. These doorways shall be constructed of wood, metal or plexiglass (no glass). The doors shall be a minimum of l00 cm wide and 210 cm high. (The Contractor will furnish the COR with a minimum of two keys per door.)

(6) Partitions/Dividers: Shall be made of canvas and/or other suitable fire resistant material. They must be a minimum of 2.40 meters in height and 3 meters long (unless otherwise specified).

(7) Heating: The Contractor must furnish sufficient forced air, fuel operated heaters capable of maintaining a minimum temperature of ___*____ C (+/-3 degrees C). Each heater will be installed on an appropriate drip pan. When partitions/dividers are installed the Contractor must ensure that adequate heaters are provided to heat each area. The heater installations shall be in accordance with the applicable with commercial standards for safety. Heaters are to be installed on the outside of the tents with heating ducts leading into the tents properly insulated. Fuel tanks: The Contractor shall furnish at least one 150 liter fuel tank per installed heater. The tank must be clean and fully operational at time of delivery. In addition, the Contractor will be responsible for the maintenance of the fuel tanks. The fuel tank installations shall be in accordance with the applicable VDE and Trade Union safety standards. The tanks must be installed on the outside of the tents.

(8) Fuel: After initial testing and set up of heaters, the Government will provide fuel oil as required during the performance of the contract.

(9) Lighting: Each tent shall be equipped with fluorescent lighting sufficient to provide lux measured at 80 cm off the floor (subject to be measured at any place within the tent)

(10) Electrical Installations: A JP54 or equivalent fuse box will be installed in each tent. The box will be equipped with at least one connector to accommodate a single 38OV/16Amp male plug, CEE NORM. All

wiring within the tent will originate from this fuse box and all circuits will be properly fused. The specified quantities of electrical outlets, 22OV/16Amp, wires will be installed within the tent. The location of the outlets will be coordinated with the COR. The Government will provide the required electrical power and will be responsible for the cables and connections from the Contractors' fuse box to the government furnished power source.

(11) Furniture: The specified number of tables and benches, capable of seating six (6) adults will be provided. The Contractor will place the furniture in the tent at the locations determined by the COR.

(12) The Contractor shall have __*___ each, designated maintenance personnel stationed on-site. These persons will be available 24 hours a day, 7 days a week, in order to perform the repairs and/or replacement actions as necessary. These persons shall be qualified to perform both emergency tent and heater maintenance.

(13) The US Government will provide:**

(i) Fuel upon completion of the erection of each tent.
(ii) The equipment and labor for snow removal (on top and in the vicinity) of each tent shall be the responsibility of the Government.

** Note to requiring activity - the Government should only commit itself to the furnishing of fuel when it is certain it can do so with proper additives to prevent freezing. This has been a problem in the past.

EXAMPLE OF GENERAL PRICING FORMAT FOR TENTS:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
xxxx	Tents				
xxxx	Erection/Installation	Each	____	$_____	$_____
xxxx	Rental and Maintenance	Month	____	$_____	$_____
xxxx	Dismantling and Removal	Each	____	$_____	$_____

7. SHOWER TRAILER & RELATED SERVICES

(a) SHOWER TRAILER with US Government-Furnished Utilities/Cleaning

The services to be rendered consist of the rental, installation, maintenance, cleaning (as specified) of the shower units and associated equipment and the removal of all Contractor furnished equipment upon completion of the rental period.

(1) The Contractors shall provide _*___ each trailer/s. The shower trailer/s are to be delivered and installed at the site(s) and in the configuration/s as stated in the contract schedule and the attached plot plans.

(2) The shower trailer/s shall be constructed in such a manner as to meet, or exceed, the applicable VDE and trade standards.

(3) The Contractor shall furnish the required hoses and power cables to connect the shower trailer/s to government provided utilities, i.e. water, electrical, and sewage. (In situations where the-hookup for government utilities exceeds 20 meters in distance, that distance must be specified in the requirement).
(4) The shower trailer/s shall meet or exceed the following minimum specifications:

(i) Size
6 meters in length
2.4 meters in width
2.4 meters in height

(ii) Shower Configuration: Shower room with a minimum six (6) shower heads. Dressing room with a minimum of four (4) wash basins equipped with hot and cold water faucets, four (4) mirrors and shelves, four (4) electrical outlets, and twelve (12) clothes hanging pegs/hooks.

(iii) Heaters: Electrical, constant controlled and adequate to maintain + or - 3 degrees.

(iv) Fan: Electrical, adequate size to ventilate the enclosure.

(v) Hot Water System: Electrical adequate to sustain a mixed water temperature of 450 degrees C + or - 3 degrees for a continuous period of 40 minutes or 20 individual showers prior to requiring a recycling. The hot water storage tank shall be a minimum of 400 liters and have a control system that will prevent scalding. The hot water system shall be able to provide a water flow rate to each shower head of 18 GPM.

(vi) Lighting: Each trailer shall be equipped with fluorescent lighting sufficient to provide lux measured at 80 cm above the floor.

(vii) Electrical Installation: Each trailer shall be equipped with a fuse box, with each-circuit within the trailer being appropriately fused to meet the applicable VDE standards. All electrical wiring within the trailer will originate from this fuse box. All outlets will be wired with an appropriate ground to ensure that personnel are not endangered by electrical shock.

(viii) Floors: All floors within the shower room shall be covered with a non-skid surface and/or aerated matting.

(5) The Contractor shall have __*__ each designated maintenance personnel stationed on-site. These persons will be available 24 hours a day, 7 days a week, in order to perform the repairs and/or replacement actions as necessary. They shall also be qualified to perform all types of shower trailer maintenance.

(6) The US Government will provide:

(i) Utilities with the completion of the installation of each shower trailer.
(ii) Cleaning of the shower trailer/s including the removal of trash, sweeping, mopping, cleaning of wash basins and shower stalls, and spot cleaning of interior/exterior of shower trailer/s. The Contractor shall ensure that the trailer/s are delivered clean and disinfected and the US Government shall return the trailer/s in the same condition.

(iii) The equipment and labor for snow removal (on top and in the vicinity) for each shower unit shall be the responsibility of the US Government.

(b) SHOWER TRAILER with Contractor-Furnished Utilities and Cleaning

The services to be rendered consist of the rental, installation, maintenance, cleaning (as specified) of the shower trailer/s and associated equipment; to include the removal of all Contractor furnished equipment upon completion of the rental period.

(1) The Contractor shall provide __*__ each shower trailer/s. The shower trailer/s are to be delivered and installed at the site(s) and in the configuration/s as stated in the contract schedule and the attached plot plans.

(2) The shower trailer/s shall be constructed in such a manner as to meet, or exceed, the applicable VDE and trade standards.

(3) The Contractor shall furnish all utilities to include, electricity, water and waste water disposal. Waste water shall be disposed of in accordance with the Host Nation Government ecology rules, regulations and laws.

(4) The shower trailer/s shall meet or exceed the following minimum specifications:

(i) Size (inside dimensions)
6 meters in length
2.4 meters in width
2.4 meters in height

(ii) Shower Configuration: Shower room with a minimum six (6) shower heads. Dressing room with minimum of four (4) wash basins equipped with hot and cold water faucets, four (4) mirrors and shelves, four (4) electrical outlets, and twelve (12) clothes hanging pegs/hooks.

(iii) Heaters: Electrical, constant controlled and adequate to maintain + or - 3 degrees.

(iv) Fan: Electrical, adequate size to ventilate the enclosure.

(v) Hot Water System: Electrical, adequate to sustain a mixed water temperature of 450C + or - 3 degrees for a continuous period of 40 minutes or 20 individual showers prior to requiring a recycling. The hot water storage tank shall be a minimum of 400 liters and have a control system that will prevent scalding. The hot water system shall be able to provide a water f low rate to each shower head of 18 GPM.

(vi) Lighting: Each trailer shall be equipped with fluorescent lighting sufficient to provide lux measured at 80 cm above the floor.

(vii) Electrical Installation: Each trailer will be equipped with a fuse box, with each circuit within the trailer being appropriately fused to meet the applicable VDE standards. All electrical wiring within the trailer will originate from this fuse box. All outlets will be wired with an appropriate ground to ensure that personnel are not endangered by electrical shock.

(viii) Floors: All floors within the shower room will be covered with a non-skid surface and/or aerated matting.

(ix) Cleaning Services: Cleaning services shall be provided by the Contractor. Cleaning of the shower trailer/s shall include the removal of trash, sweeping, mopping, cleaning of wash basins and shower stalls, and spot cleaning of interior/exterior of the shower trailer. The Contractor shall ensure that the shower trailer/s are delivered clean and disinfected.

(x) The Contractor shall have _*__ each designated maintenance personnel stationed on-site. These persons will be available 24 hours a day, 7 days a week, in order to perform the repairs and/or replacement actions as necessary. They shall also be qualified to perform all types of shower trailer maintenance.

(xi) The US Government will provide: The equipment and labor for snow removal (on top and in the vicinity) for each shower unit shall be the responsibility of the Government.

EXAMPLE OF GENERAL PRICING FORMAT FOR SHOWER TRAILER/S:

8. REFUSE COLLECTION SERVICES

(a) TRASH, GARBAGE & WASTE COLLECTION (Specifications)

(1) The services to be rendered consist of the providing of refuse containers to be located at specified sites, the emptying of said containers and the proper disposal of the trash, garbage and waste.

(2) CATEGORIES OF REFUSE: The Contractor shall be responsible for handling various categories of refuse as described below:

(i) Regular Trash: All solid waste material, with the exception of those types listed in (i) through (vii) below:

- Typical size of containers: 1, 5, 10, 16, 20 or 24 cubic meters (cbm)
- Frequency of servicing (emptying): To be determined requiring activity.

(ii) Edible Garbage: All food waste that is generated by food service facilities.

- Typical size containers: 200 liters, 1, 5 or 10 cbm.
- Frequency of servicing: Daily emptying is mandatory.

(iii) POL Waste: Oils, antifreeze, brake fluid and any other vehicle related liquids.

- Typical size of containers: 500 or 1000 liters
- Frequency of servicing: To be determined by the requiring activity.

(v) Contaminated Soil: Dirt removed from around oil tanks or soil that has been contaminated by the accidental spillage of POL and/or chemical agents.

- Typical size containers: 10, 20, or 24 cbm
- Frequency of servicing: To be determined by the requiring activity.

(vi) Medical Waste: Solid waste generated by medical laboratory facilities which requires controlled disposal.

- Typical size containers: 200 liters, I or 5 cbm
- Frequency of servicing: Daily emptying is mandatory.

(vii) Liquid waste: Chemical agents and liquids generated by X-ray laboratories.

- Typical size tanks: 400 or 1000 liters
- Frequency of servicing: To be determined by the requiring activity.

(3) The Contractor shall provide all labor, material, transportation and equipment required for the delivery, installation, removal of trash and the pickup of the containers at the end of the rental period. In addition the Contractor is fully responsible for obtaining and holding current permits with approved dumping and disposal points. (Unless Government disposal points are specifically identified in the contract schedule)

(4) The emptying of each container includes the complete removal of all refuse from the container and the removal of all bagged refuse at the container location. In addition the Contractor is responsible for cleaning up all refuse that is spilled during the servicing/emptying process.

(5) The Contractor must implement a quality assurance program that will ensure that his work and the work performance by his employees is accomplished in such a manner that conforms with applicable standards of the trade and is in compliance with local and federal host nation ecology laws and directives. The Contractor must obtain and hold current all necessary approvals and permits for the lawful performance of the prescribed services. In addition, the Contractor must obtain the necessary permits for the operation of his service and disposal vehicles on Saturdays, Sundays and holidays.

(6) All refuse containers will be delivered, installed, and ready for use no later than 08:00 hours on the first day of the specified rental period.

(7) When on-call servicing/emptying of refuse containers and/or relocation of refuse containers are specified in the contract, the Contractor must perform the required services as specified below:

(i) When the Contractor is notified prior to 12:00 hours the work must be accomplished on the same date.

(ii) When the Contractor is notified after 12:00 hours, the work must be accomplished no later than 10:00 hours on the following date.

EXAMPLE OF GENERAL PRICING FORMAT FOR REFUSE COLLECTION:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
xxxx	Refuse Container	Each/Month	____	$ _____	$_____
xxxx	Set-up/Distribution	Each	____	$ _____	$_____
xxxx	Emptying of Containers	Each/Day	____	$ _____	$_____
xxxx	On-Call Servicing	Each	____	$ _____	$_____
xxxx	Relocations	Each	____	$ _____	$_____

9. LAUNDRY AND DRY-CLEANING

(a) LAUNDRY & DRY-CLEANING (Specifications)

The services to be rendered consist of complying with the Scope of Work below and providing Quality Control, Inspection of Services and maintaining the Hours of Operation as delineated in (1) through (4).

(1) SCOPE OF WORK: The Contractor shall furnish all management, labor, transportation, pickup and delivery service, housekeeping and facility operation in accordance with the terms and conditions of this contract. This contract includes all laundry, dry cleaning, and all other tasks and responsibilities deemed necessary and spelled out in this contract. The Contractor shall receive, account for, process, and return all organizational and individual items tendered for cleaning. Technical Exhibit XX--Workload Estimate lists the estimated quantities of work (as a SAMPLE).

(2) QUALITY CONTROL: The Contractor is responsible for establishing and having an active quality control plan.

(3) INSPECTION OF SERVICES:

(i) Inspection Service: The Contractor shall provide and maintain an inspection system that must be accepted by the government covering the services under this contract.

(ii) Inspection and Testing: The Government has the right to inspect and test all the services called for by the contract, to the extent practicable, at all times and places during the term of the contract.

(iii) Nonconformance with Contract Requirements: If any of the services do not conform to the contract requirements, the government may require the Contractor to re-perform the services in conformity with the contract requirements, at no additional expense to the government.

(4) HOURS OF OPERATION: The Contractor shall maintain the following customer service hours: Drop-offs will be in the ____*____ Hotel Lobby before 0900 Mondays and Thursdays. Contractor will deliver clean laundry by 1800 Mondays and Thursdays.

(b) DEFINITIONS

The Contractor will be familiar with and understand the following definitions:

(1) Clean: Finished articles are dry and free of visible soil, lint and objectionable odor. Spots and stains are removed where practical to do so without damaging the fabric.

(2) Contracting Officer Representative (COR): an individual appointed in writing by the Contracting Officer to perform expressed contract administration functions.

(3) Dry Cleaning: Dry cleaning involves the immersion of garments in dry cleaning solvents and cleaning them by use of mechanical action and soaps or synthetic detergents. Dry cleaning removes some soluble and some insoluble soils and dissolves grease stains through the combined actions of dry cleaning solvents, mechanical action, soaps, synthetic detergents, and other cleaning aids.

TYPES OF DRY CLEANING

- Small - an item requiring the approximate time, effort, and cost to process as a sleeveless sweater and /or blouse.
- Medium- an item requiring the approximate time, effort, and cost to process as a pair of trousers and /or jacket.
- Large - an item requiring the approximate time, effort, and cost to process as a coat and or overcoat.

(4) Laundering: The process by which soiled fabric items are cleaned and treated. The term includes cleaning by mechanical action and by hand in appropriate temperature water solutions of detergents and other additives.

TYPES OF LAUNDRY

- Small - an item requiring the approximate time, effort, and cost to process as a pillowcase or wrapper.
- Medium- an item requiring the approximate time, effort, and cost to process as a sheet or bedspread.
- Large - an item requiring the approximate time, effort, and cost to process as a sleeping bag.

(5) Packaging: The process by which clean garments or other items are placed on hangers and placed in protective paper or plastic film bags. Small items of clothing and other clothing which are not

customarily placed on hangers shall be wrapped in protective poly-wrap in accordance with commercial or local practice.

(6) Pressing: Pressing is the process for insertion of required crease and removal of undesirable wrinkles from clean garments or items.

(c) SPECIFIC TASKS. The Contractor will provide for and comply with the following Specific Tasks:

(1) Services Provided: The Contractor shall provide services to individuals and organizations of _____*_____ at _____*_____. Services shall be provided in accordance with the terms and conditions of this contract. The Contractor shall process and finish all clothing and other items in accordance with the requirements contained in the workload data in Technical Exhibit XX. (See Sample)

(2) Workmanship and Sanitation: Delivered articles shall conform to the generally accepted industry and local standards of quality, cleanliness, finish, appearance, and packaging. The items shall not only be clean in the sense of being free from soil and stains, but also free from bacteria, fungi and micro-organisms, including pathogens and disease producing organisms. All work performed shall be done under sanitary conditions. The contract facility shall be open to inspection of conditions at any time by a representative of the US government, and the government reserves the right to perform or cause to have performed any test necessary to determine the sanitary condition of the articles delivered by the Contractor.

(3) Classification of Items: Clothing or linen articles received by the Contractor shall be individually inspected for condition of serviceability and classified as to the type of service required.

(4) Re-performance: Any items found to have been unsatisfactorily cleaned shall be re-cleaned by the Contractor at no additional cost to the government.

(5) Repair: The Contractor shall repair, at his expense, all damages to individual garments which occur while in the custody of the Contractor, to include rips, tears, holes, open seams, and replacement of buttons and repair or replacement of zippers.

(6) Organizational Bulk Items: Organizational items shall be returned in bulk unless another method is specified. Items shall be counted from baskets into waiting vehicles or across the counter to the customer.

(7) Linen Exchange Activity: The Contractor shall operate a linen exchange activity. The Contractor is responsible for receiving, collecting, exchanging, and distributing linen exchange articles to and from organizations, activities, or authorized individuals and accomplishing the tasks below:

(1) Receive, collect, exchange and distribute linen exchange articles to and from organizations, activities, or authorized individuals.

(2) Verify count or weight of items received against receiving and shipping documents.

(3) Store items in storeroom and linen exchange points.

(4) Keep items properly segregated to comply with local safety, fire prevention and other storage regulation.

(8) Stockage Inventory System: The Contractor shall establish a stockage inventory system to track all incoming and outgoing linen. The Contractor shall perform a search for missing items in order to reconcile inventory with stock records.

(9) Exchange Items: Items that have been identified for direct exchange shall be exchanged for like items at time of turn-in. Items that are not direct exchange shall be identified separately and processed to be ready for pickup by the customer within a 72-hour period. Sheets, pillowcases, mattress pads, mattress covers, towels and blankets received from organizations may be intermingled (except for medical, if applicable) and processed for reissue to any organization or individual.

(10) Pick-up & Delivery Service: The Contractor shall provide pickup and delivery service. This service shall include loading, unloading, segregating, transporting, counting and obtaining necessary documentation for items picked up or delivered.

(11) The Contractor shall provide his own vehicles and they shall be maintained in safe operating condition at all times.

(12) Weighing/Counting of Articles: Weighing/counting of articles, including the laundry bag, shall be done by government personnel prior to pickup. The laundry that the Contractor picks up may be dirty/wet. The Contractor shall verify weight or count and sign a pickup ticket for the items being picked up. Such a signature constitutes an agreement to the government's weight/count unless a specific exception is noted on the ticket.

(13) Verification: The Contractor shall record the number of pounds/pieces delivered on the delivery ticket and the government rep will verify the amount. The Contractor must provide a list for items not delivered on scheduled.

10. FORKLIFTS

(a) FORKLIFT (Specifications): The services to be rendered consist of rental, delivery, maintenance and removal of a specified type and size of forklift(s).

(1) Contractor shall provide forklift(s) for the stated rental period which will be of a commercial type that is equipped for outdoor use. The lifts must have the capability of lifting the specified weight (Kilos), to a minimum of 2.5 meters in height. In addition the equipment shall be capable of maintaining stability on a 6% incline, while handling a load of the specified amount.

(2) At the time of delivery the forklifts shall be in a sound mechanical condition free of all known defects, ready for immediate use. The equipment must meet all the applicable VDE and Trade Union requirements for safe operations.

(3) In addition to the above, the forklifts will be equipped with the following:

(i) Gas/diesel powered engine
(ii) Self-sustained electrical system to include an electric starter
(iii) Pneumatic tires (snow chains to be provided during winter months)
(iv) Spark proof exhaust system
(v) Front and rear lights that will facilitate on-road operations during periods of darkness.
(vi) Driver protection roll bar
(vii) Adjustable forks
(viii) Warning device (automatically activated when the lift is placed in reverse gear)

(4) The Contractor shall furnish all the transportation, labor, material and supervision required for the delivery, operational test, repair and maintenance and removal of the equipment at the end of the rental period. In addition the Contractor shall furnish all POL products, (with the exception of fuel). This is to include distilled water for batteries.

(5) The Contractor shall provide a point of contact for “on call, maintenance and/or replacement of equipment. The point of contact must be available from 08:00 to 20:00 hours to include Saturdays, Sundays and all local and American holidays. The Contractor shall provide all the labor, material and supervision required to keep the equipment in a serviceable and safe operating condition. Repair and maintenance may be performed on site, subject to coordination with the COR. If a forklift becomes inoperable due to the need for repair and/or maintenance, the Contractor will be notified immediately. The Contractor must respond, within six (6) hours after notification, to perform the repair and maintenance services. If repair and maintenance services cannot be performed within the same day, the Contractor shall furnish a replacement unit. Equipment that remains inoperable for more than a 12 hour period will be considered not available for use and rental fees will cease until the equipment is repaired to a fully operational condition or replaced with a serviceable unit. The pick-up and removal of inoperable equipment will be accomplished at.-Contractor expense.

(b) FORKLIFTS—ACCEPTANCE & RETURN

(1) Acceptance for forklifts by the Government: At the time the forklifts are delivered to the Government, the Contractor shall issue in duplicate a document, written in English, for each fork-lift, which provides the user a means to annotate the conditions of the equipment. In addition, general operating instructions, to include the refueling procedures, how to check and add oil, proper operating techniques and preventive maintenance procedures will be provided by the Contractor. The Contractor and the COR will jointly inspect the equipment for completeness and will list all damage (such as, but not limited to, scratches, dents, etc.) on the document. The document must be signed and dated by both the COR and the Contractor as acknowledgment that the forklift was received by the Government in the condition described/ annotated. A copy of the document shall be retained by the Contractor and the COR for use during the joint inspection that must again be conducted at the end of the rental period.

(2) Return of forklifts to Contractor: Upon expiration of rental period, forklifts will be returned to the Contractor, clean and complete with all accessories. Utilizing the document, a joint inspection will be conducted and all discrepancies will be noted. Both the COR and the Contractor, or his authorized representative must sign the document to acknowledge the return of the equipment in the described condition. Reasonable wear and tear, as well as damages which are not annotated on the turn-in document shall not be considered as valid if the Contractor later submits a claim against the Government.

EXAMPLE OF GENERAL PRICING FORMAT FOR FORKLIFTS:

ITEM	DESCRIPTION	UNIT OF ISSUE	QTY	UNIT PRICE	TOTAL
xxxx	FORKLIFT 3 TON	EACH	____	$_____	$_____

11. FORCE PROTECTION

(a) During an OOTW support event, the HS Contractor may be requested to provide force protection in non-hostile environments. Support required may include, but not limited to, security personnel, escorting (sea and land), barriers, fencing, lighting, or equipment.

(b) If there is a requirement for force protection, a specification or statement of work will be provided to the HS Contractor for pricing prior the receiving an order from an authorized Contracting Officer.

12. LOGISTICS SUPPORT

(a) During an OOTW support event, the HS Contractor may be requested to provide logistics support. Support may include, but not limited to, assistance with customs and air, ground, or rail transportation for pre-deployment and site surveys in remote areas.
(b) If there is a requirement for logistics support, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

13. SUPPLIES

(a) During an OOTW support event, the HS Contractor may be requested to provide various types of supplies when not readily available from the U.S. Government supply system. General supplies are classified as follows:

Class I – Food, Rations, and Water (e.g., bottled water, ice, reefers, etc.)
Class II – Clothing (e.g., foul weather gear, poncho liners, boots, etc.)
Class III – Petroleum, Oils, and Lubricants
Class IV – Construction Material (e.g., lumber, gravel, barriers, haul assets, yellow gear, fasteners, concrete mix, etc.)
Class VI – Personal Items (e.g., parts for commercial vehicles, camp equipment, air conditioners, cell phones, computers and peripheral equipment, coffee makers, microwave ovens, etc.)
Class VIII – Medical Supplies (e.g., medicines, medical supplies, veterinary medicines)

Class IX – Repair Parts
Class X – Miscellaneous Supplies

(b) If there is a requirement for supplies, the bill of materials or specifications will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

14. REPAIR SERVICES

(a) During an OOTW support event, the HS Contractor may be requested to provide repair services. Services may include, but not limited to, repair of generators, light suites, environmental control units, vehicles (e.g., commercial trucks and cars) and material handling equipment (MHE).

(b) If there is a requirement for repair services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

15. CAMP AND FIELD HABITABILITY SERVICES

(a) During an OOTW support event, the HS Contractor may be requested to provide camp and field habitability services. Services may include, but not limited to, rental of toilet/bathing facilities, berthing trailers, rental of pre-existing hard structure buildings or hotel rooms, garbage collection services, potable water, vehicle rental, laundry services, cell phones, fuel, food service, power generation/distribution, pest extermination services, plumbing services, and administrative support.

(b) If there is a requirement for habitability services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

16. TRANSPORTATION SERVICES

(a) During an OOTW support event, the HS Contractor may be requested to provide transportation services. Services may include, but not limited to, providing vehicles/trucks/buses (with and without drivers), tactical level transportation (air, ground, rail, and sea) in remote areas when military transportation isn't available, and express delivery services (e.g., DHL, FEDEX, etc.).

(b) If there is a requirement for transportation services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

17. INFORMATION OPERATION/SYSTEMS SUPPORT

(a) During an OOTW support event, the HS Contractor may be requested to provide information operation/systems support.

(b) If there is a requirement for information operation/systems services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

18. MORTUARY AFFAIRS SUPPORT

(a) During an OOTW support event, the HS Contractor may be requested to provide mortuary affairs support.

(b) If there is a requirement for mortuary affairs support services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

19. CULTURAL AWARENESS TRAINING

(a) During an OOTW support event, the HS Contractor may be requested to arrange cultural awareness training.

(b) If there is a requirement for cultural awareness training, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

20. DIETICIAN SUPPORT

(a) During an OOTW support event, the HS Contractor may be requested to provide dietician support.

(b) If there is a requirement for dietician support, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

21. COMMUNICATIONS

(a) During an OOTW support event, the HS Contractor may be requested to provide communications services. Services may include, but not limited to, providing cell phones, satellite phones, internet connectivity, calling cards, land lines, and Wi-Fi services.

(b) If there is a requirement for communications services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

22. TRANSLATION SERVICES

(a) During an OOTWsupport event, the HS Contractor may be requested to provide translation services.

(b) If there is a requirement for translation services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

23. MORALE, WELFARE, AND RECREATION (MWR) SERVICES

(a) In the absence of an existing U.S. Government authorized Information, Ticket and Tours (ITT) contract, during an OOTW support event, the HS Contractor may be requested to provide MWR services. Services may include, but not limited to, providing arranging trips, tours and hotel accommodations.

(b) If there is a requirement MWR services, the specification or statement of work will be provided to the HS Contractor for pricing prior to receiving an order from an authorized Contracting Officer.

Attachment 10 - QUALITY ASSURANCE SURVEILLANCE PLAN (QASP)

Husbanding Services
Western Pacific & Indian Ocean Regional Contracts

1.0 INTRODUCTION

This Quality Assurance Surveillance Plan (QASP) is pursuant to the requirements listed in the performance-based Performance Work Statement (PWS). This performance-based plan sets forth the procedures and guidelines the U.S. Fleet & Industrial Supply Center, and its detachments will use to monitor contractor's performance, evaluating port visit cost reporting, non-priced item pricing performance, and ship's overall satisfaction with the of the husbanding service contractor's port visit services.

1.1 PURPOSE

1.1.1. The purpose of the QASP is to describe the systematic methods used to measure performance and to identify the reports required and the resources to be employed. The QASP provides a means for evaluating whether the contractor is meeting the port visit cost reporting requirements, adhering to the non-priced item pricing performance standards, and meeting the ship's task order requirements as identified in the PWS.

1.1.2 This QASP is designed to define roles and responsibilities, identify the performance objectives, define the methodologies used to monitor and evaluate the contractor's performance, describe quality assurance reporting, and describe the analysis of quality assurance monitoring results.

2.0 PERFORMANCE MANAGEMENT APPROACH

2.1 The performance-based PWS structures the acquisition around "what" service is required as opposed to "how" the contractor should perform the work. This QASP will define the performance management approach taken by the Contracting Officer to monitor, manage, and take appropriate action on the contractor's performance against expected outcomes or performance objectives communicated in the PWS. Performance management rests upon developing a capability to review and analyze information generated through performance metrics. The ability to make decisions based on the analysis of performance data is the cornerstone of performance management. The data generated in a performance management approach provides information that indicates whether or not expected outcomes for required services are being achieved adequately by the contractor.

2.2 Performance management also represents a significant shift from the more traditional Quality Assurance (QA) concepts in several ways. Performance management focuses on assessing whether or not outcomes are being achieved and migrates away from scrutiny on compliance with the processes and practices used to achieve the outcome. The only exceptions to process reviews are those required by law and compelling business situations such as safety and health. An outcome focus provides the contractor flexibility to continuously improve and innovate over the course of the contract as long as the critical outcomes expected are being achieved at the desired levels of performance.

3.0 PERFORMANCE MANAGEMENT STRATEGY

3.1 The contractor will develop and utilize staffing and procedures, for use on a continuous basis, for self inspecting the quality, timeliness, responsiveness, customer satisfaction, and other performance requirements in the PWS.

3.2 The Contracting Officer will monitor performance and review performance reports furnished by the contractor to determine how the contractor is performing against communicated performance objectives. The Government will make decisions based on performance measurement metric data and notify the contractor of those decisions. The contractor will be responsible for making required changes in processes and practices to ensure performance is managed effectively.

4.0 ROLES AND RESPONSIBILITIES

4.1. Procuring Contracting Officer (PCO). The PCO is the individual who performs preaward functions and awards or executes a contract. The PCO will retain post award functions. Accordingly, the PCO performs assigned post award functions related to the administration of the contract. Ensures performance of all necessary actions for effective contracting, monitors compliance with the terms of the contract, and safeguards the interests of the Government. The PCO is ultimately responsible for the final determination of the adequacy of the contractor's performance.

4.2. Contracting Officer Representative (COR). The Government personnel who perform quality assurance functions for a contracted service.

- Provide technical assistance to the contracting office
- Provide functional continuity and stability
- Maintain proficiency in contract surveillance procedures
- Perform surveillance in accordance with the surveillance plan and provide documentation of surveillance observations to the PCO, as required
- Notify the PCO of any significant performance deficiencies
- Prepare input to the Contractor Performance Assessment Reporting System (CPARS)

4.3 Ordering Officers (e.g., Ship SUPPO) are responsible to

- Issue the orders in accordance with the terms and conditions
- Monitor, assess, and communicate the performance of the contractor. Government surveillance may occur under authority of the Inspection/Acceptance paragraph of clause 52.212-4, Contract Terms and Conditions – Commercial Items, for any supply or service relating to the contract.

5. PERFORMANCE OBJECTIVES AND METHOD OF SURVEILLENCE

The contractor shall provide husbanding service support in accordance with the PWS. While the contractor is fully expected to comply with all requirements in the PWS, the government's assessment of contractor performance will focus mainly on the performance objectives that are also listed in the Attachment 10a. QASP Matrix. The level of the acceptance for each objective is also established

5.1. Performance Objective #1:

Submit pre-arrival cost estimate to ship and Contracting Officer within 48 hours after receipt of LOGREQ. The estimates must be itemized in detail, with the appropriate price shown against each contract line item in a format the same as Attachment 2 schedules provided as part of the RFP. The On-line Pricing Application Tool may be utilized for the creation of the estimate.

Method of surveillance: E-mail received from the contractor; PVCRs received by the ships, or customer's complaints to verify that the estimate has been provided.

Level of acceptance:

- On time	100%
- Up to 2 working days late, but before ship's arrival	80%
- 3-4 working days late, but before ship's arrival	60%
- Over 4 working days late but before ship's arrival	40%
- None before ship's arrival	0%

5.2. Performance Objective #2:

Submit final LogSSR within seven (7) days of each ship's departure (includes entering data into LogSSR and submitting all supporting documentation).

Method of surveillance: Periodically check the LogSSR database to verify that the contractor has input all costs associated with the visits and submit all documentation related to the ship's visit.

Level of acceptance:

- Within 7 calendar days after ship's departure 100%

- Within 08-14 calendar days after ship's departure 80%

- Within 15-30 calendar days after ship's departure 50%

- Over 30 calendar days after ship's departure 0%

5.3. Performance Objective #3:

LogSSR submittals are accurate and complete (as validated with invoices and/or port visit cost report messages).

Method of surveillance: Compare the LogSSR data and PVCR/invoice data.

Level of acceptance:

- No errors 100%

- 1 error 80%

- 2 errors 60%

- 3 errors 40%

- Over 3 errors 0%

5.4. Performance Objective #4:

In Port Pricing. The HSP shall maintain the online pricing application's 'real-time' pricing capability and update non-priced item pricing and ordering data during the actual performance period the ship is in port. The HSP shall continue to input documentation into the application during the entire port visit.

The HSP shall update this report at least once per day of performance between the hours of 0700 and 2300, if applicable, while ship is in port until the completion of the ship's visit.

Method of surveillance: check the on-line pricing tool during the ship's visit and after the ship's departure to verify that the contractor updates the On-line Pricing Application with the additional requirements and for the non-priced item the procedure established has been followed.

Level of acceptance:

- Satisfied 100%

- Not Satisfied 0%

5.5 Performance Objective #5

Final Price Report. A Final Price Report must be reported in On-line Pricing Application Tool and itemized in detail, with the appropriate price shown against each contract line item in a format the same as Attachment 2 within forty eight (48 hours) after a ship leaves port. The HSP shall include all paid and unpaid invoices to the report.

Any changes to final prices paid shall be updated within the On-line Pricing application within one (1) calendar day of the change.

Method of surveillance: periodic checks of the On-line Pricing Application during port visits and forty eight (48 hours) after a ship leaves port.

Level of acceptance:

- Satisfied 100%

- Not Satisfied 0%

5.6 Performance Objective #6:

Ship's satisfaction of the contractor's services during the port visit as identified in the ship's port visit cost report.

Method of surveillance: After each ship visit, the ship submits a port visit cost report indicating performance of the contractor. Areas normally addressed are timeliness, quality, costs, and customer service. This will be the primary means to measuring contractor performance for customer satisfaction.

Level of acceptance:

- Satisfied 100%

- Not Satisfied 0%

6.0 METHODOLOGIES TO MONITOR PERFORMANCE

6.1 In an effort to minimize the contract administration burden, simplified methods of surveillance techniques shall be used by the Government to evaluate contractor performance. The Contracting Officer will use the On-line Pricing Application, the LogSSR and any input from the requiring activity as sources of comments on the contractor's performance.

6.2 The ships always have the option to communicate complaints to the Contracting Officer as opposed to the contractor. The complaints can be submitted during or after the visit; however the primary document that reports the complaints is the Port Visit Cost Report (PVCR). The Contracting Officer will accept the ships complaints and will investigate.

7.0 QUALITY ASSURANCE REPORTING

7.1. Within 30 days following the end of each quarter, the COR/PCO will prepare a report that shows the level of acceptance for each performance objective reached throughout the quarter. An overall average of the performance area objective area scores will be tracked for each port visit and for all port visits within the quarter. 80% is the overall goal for performance in each of these areas.

8.0 ANALYSIS OF QUALITY ASSURANCE MONITORING RESULTS

8.1 The Government shall use the observation methods cited to determine whether the AQLs have been met. The Government will evaluate the results which then may be translated into the specific negative incentives should performance not meet the AQL (for failure performance, see paragraph 9.0)

8.2 The PCO may require the contractor's project manager, or a designated alternate, to meet with the Government personnel as deemed necessary to discuss performance evaluation. The PCO will define a frequency of in-depth reviews with the contractor. However, if the need arises, the contractor will meet with the PCO as often as required or per the contractor's request. The agenda of the reviews may discuss:

- Performance measured by the metrics and trends
- Issues and concerns of both parties
- Recommendations made by the KO based on contractor information
- Issues arising from independent reviews and inspections

8.3 The PCO and contractor should jointly formulate tactical and long–term courses of action. Decisions regarding changes to metrics, thresholds, or service levels should be clearly documented. Changes to service levels, procedures, and metrics will be incorporated as a contract modification at the convenience of the PCO.

9.0. FAILURE TO PERFORM

9.1 The contractor may be contacted for consideration, may receive negative past performance ratings or may be terminated based on failure to perform.

Consideration: The KO will negotiate consideration in instances where the HSP fails to meet performance requirements.

Negative Past Performance Ratings: The COR may submit negative performance information into the Contractor Performance Assessment Reporting System (CPARS).

Termination. If the KO determines that the contractor has failed to perform to the extent that a termination for cause is justified, the KO shall issue a notice of termination, consistent with FAR Part 12.

LIST OF ATTACHMENTS

Attachment 10a. QASP Matrix

Attachment 10a: QASP Matrix

Attachment 4a	Required Service		Levels
Required Service	Performance Standards	Method Of Surveillance	Goals
Timely submission of estimates within 48 hours after receipt of the order.	Submit pre-arrival cost estimate to ship and Contracting Officer within 48 hours after receipt of LOGREQ. The estimates must be itemized in detail, with the appropriate price shown against each contract line item in a format the same as Attachment 2. The On-line Pricing Application Tool may be utilized for the creation of the estimate.	E-mail received by the contractor; PVCRs received by the ships, or customer's complaints to verify that the estimate has been provided..	- On time 100% - Up to 2 working days late, but before ship's arrival 80% - 3-4 working days late, but before ship's arrival 60% - Over 4 working days late but before ship's arrival 40% - None before ship's arrival 0%
LogSSR and final cost reports	Periodically check the LogSSR database to verify that the contractor has input all costs associated with the visits and submit all documentation related to the ship's visit.	LogSSR Data-base	- Within 7 calendar days after ship's departure 100% - Within 08-14 calendar days after ship's departure 80% - Within 15-30 calendar days after ship's departure 50% - Over 30 calendar days after ship's departure 0%
LogSSR report accuracy	LogSSR submittals are accurate and complete (as validated with invoices and/or port visit cost report messages)	Compare the LogSSR data and PVCR/invoice data.	- No errors 100% - 1 error 80% - 2 errors 60% - 3 errors 40% - Over 3 errors 0%

In Port Pricing	(1) The HSP shall maintain the online pricing application's 'real-time' pricing capability and update ALL pricing and ordering data during the actual performance period the ship is in port. The HSP shall continue to scan support documentation into the application during the entire port visit. (2) The HSP shall update this report at least once per day of performance between the hours of 0700 and 2300, if relevant, while ship is in port until the completion of the ship's visit.	On-Line Pricing Application	- Satisfied 100% - Not Satisfied 0%
Final Price Report	(1) A Final Price Report must be reported in On-line Pricing Application Tool and itemized in detail, with the appropriate price shown against each contract line item in a format the same as Attachment 2 within forty eight (48 hours) after a ship leaves port. The HSP shall include all paid and unpaid invoices to the report (3) Any changes to final prices paid shall be updated within the application one (1) calendar day of the change.	Online Pricing Application	- Satisfied 100% - Not Satisfied 0%
Ship's satisfaction of the contractor's services during the port visit as identified in the ship's port visit cost report.	After each ship visit, the ship submits a port visit cost report to indicating performance of the contractor. Areas normally addressed are timeliness, quality, costs, and customer service. This will be the primary means to measuring contractor performance for customer satisfaction.	Ship's port cost visit report, observations, complaints	- Satisfied 100% - Not Satisfied 0%

Attachment 11 - QUALITY ASSURANCE FOR PROVISIONS

September 2006

SECTION I. GENERAL REQUIREMENTS

1. **SANITARILY APPROVED SOURCES:** All subsistence items shall be from approved sources as authorized, or exempted in NAVSUPINST 4335.4F/AR 40-657/AFR 161-32/MCO P10110.31G. Name and address of processing facility shall identify any subcontracting entities utilized other than the primary contractors. FLC Yokosuka has available approved source listings of authorized subsistence incorporated into VETCOM Circular 40-1, Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement (Hawaii and Pacific) and other regions maintained and published by HQ, US Army Veterinary Command, Fort Sam Houston, Texas (http://vets.amedd.army.mil/vetsvcs/approved.nsf). The U.S. Army Veterinary Representative, prior to commencing a contract/Blanket Purchase Agreement (BPA), shall inspect all required potential sources identified. Failing to pass inspection shall be grounds for not issuing a BPA and grounds for cancellation if the facility fails inspection after a BPA has commenced. This applies to all contractors and subcontractors. Documents cited here shall be provided to the contractor upon written request.

2. **DELIVERY VEHICLES:** The supplies delivered under this contract/BPA shall be transported in a sanitary enclosed/covered or open flatbed vehicle. Semiperishable items delivered in open flatbed vehicle shall be covered with a tarp to protect products from rain or foreign objects. Vehicles shall be equipped to maintain the appropriate temperature for the subsistence being delivered. Vehicles shall be maintained in a sanitary condition to prevent contamination of the food and shall be subject to inspection by the government at all reasonable times. Supplies submitted for acceptance in vehicles, which are not sanitary, may be rejected without further inspection. Concurrent transportation of bulk contained pesticides, rodenticides, petroleum products, inedible products, household chemicals, or other caustic or volatile compounds are undesirable but occasionally necessary. When a carrier jointly transports subsistence and cleaning agents or hazardous products, the cleaning agents or hazardous products shall be segregated from the subsistence to the greatest extent. Segregated to the greatest extent means that all cleaning agents or hazardous products shall be unitized, loaded completely lower and horizontally from the subsistence to the maximum distance allowed by the physical configuration of the carrier. Shrink-wrap shall be used to secure items to pallets and provide stabilization.

3. **CODE DATING:** Master-shipping boxes shall be stamped or embossed with code dates, except Fresh Fruits and Vegetables, (FF&V). Coding must represent the date of slaughter, production, pasteurization, manufacture, or expiration/pull date. Open code shall have the date, month and year or Julian date, (last number of the year with the number of days). Closed code, such as letters and numbers, shall have an accompanying letter from the manufacturer explaining the code and shelf life.

4. **PACKAGING:** Standard commercial packaging is acceptable as long as it meets the requirements set forth in this agreement, product is protected from contamination, and quality is preserved. Products shall be packaged in non-returnable commercial containers that do not exceed 55 pounds or 25 kilograms per container. The use of a plastic shrink-wrap to secure items to the pallet shall be minimized.

5. **SHELF LIFE REQUIREMENTS:** Unless otherwise specified in this agreement, products shall be delivered with not less than one-half (1/2) or fifty percent (50%) of their guaranteed shelf life remaining. If the supplies delivered DO not have the minimum number of days of shelf life remaining as set forth in this agreement, the government shall have the right to reject and/or require replacement.

6. **TEMPERATURE REQUIREMENTS:** Unless otherwise specified in this agreement, all perishable products shall be delivered between 32^{o}F-41^{o}F (0^{o}C-5^{o}C) for chilled and 0^{o}F (-18^{o}C) or below for frozen. Temperatures shall be checked between the primary container and the outer container to reduce product damage. If a discrepancy is suspected, internal temperature shall be checked prior to rejection or acceptance of the products.

7. **REJECTED ITEM:** Any item recommended for rejection by the U.S. Army Veterinary Representative or receiving activity shall be annotated on the invoice or delivery receipt. The Contracting Officer Representative shall negotiate on price adjustment for quality or short shelf life defect as requested by receiving activity based on the U.S. Army Veterinary Representative inspection results. Replacements shall be coordinated with the Contracting Officer Representative as requested by the receiving activity.

8. **FOREIGN ORIGIN PRODUCTS:** Foreign establishments DO not have to be Directory listed if the prepackaged finished items they produce are imported by distributors or brokers into the continental United States, Hawaii or Alaska for sale to U.S. Armed Forces. This exemption Does not apply to establishments importing food directly into the U.S. territories of American Samoa, Guam, or the Mariana Islands without entering the continental United States, Hawaii or Alaska.

9. **CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD:** See Appendix B below.

SECTION II. QUALITY ASSURANCE PROVISIONS BY ITEM

1. **DAIRY PRODUCTS:**

a. Milk products shall be from approved sources and meet the raw, pasteurized, bacteriological and chemical requirements of the United States Public Health Service (USPHS) Publication 229 (Grade A Pasteurized Milk Ordinance). Frozen deserts and novelties shall be from approved sources in accordance with applicable military or local specifications or in the absence of applicable specifications, good manufacturing practice. Bacteriological and chemical testing may be accomplished at origin or destination. The U.S. Army Veterinary Representative shall submit non-conforming results to the Contracting Officer and provide a copy furnished to the contractor with a letter of explanation. The letter shall inform the contractor that unreliable quality controls may result in suspending further deliveries in accordance with NAVSUPINST 4355.6A/AR 40-70. NAVSUPINST 4355.6/AR 40-70 sets forth the microbiological testing program and suspension procedures for dairy products.

b. Temperature on delivery: Fresh dairy products shall be delivered between 32^{o}F and 41^{o}F (0^{o}C and 5^{o}C). Frozen products shall be delivered at 0^{o}F (-18^{o}C) or below.

c. Cheese Related Products:

(1) Soft cheeses such, as mozzarella, natural provolone, cream cheese, and etc., shall be delivered between 32^{o}F and 41^{o}F (0^{o}C and 5^{o}C).

(2) Hard cheeses such as natural cheese, natural Swiss, Swiss and American processed cheddar and processed natural Swiss, etc., shall be delivered between 32^{o}F and 50^{o}F (0^{o}C and 10^{o}C).

2. **FRESH FRUITS AND VEGETABLES (FF&V): See Appendix A.**

a. All FF&V shall be freshest product available. FF&V shall have eye appeal and shall be a minimum of 90% free from quality defects and 100% free of decay or loss. The Contracting Officer Representative shall negotiate a downward price adjustment for quality defects based on the U.S. Army Veterinary Representative inspection results and confirmed by receiving activity.

b. FF&V shall be delivered in an enclosed vehicle, equipped to maintain the temperature required for the type of FF&V. Mixed loads of FF&V shall be between 35^{o}F and 55 °F (2^{o}C and 12^{o}C).

c. FF&V such as bananas that are sensitive to ethylene oxide shall not be palletized and wrapped with items that are ethylene oxide producers such as apples. Plastic wrapped around the product inside the boxes shall be removed to allow air circulation.

d. Fresh mushrooms shall not be packaged airtight. Packages that are wrapped in plastic shall have air hole cut into plastic 1/8 inch in diameter or larger.

e. FF&V such as bananas, potatoes and onions that are sensitive to chill damage shall be delivered without refrigeration or not less than 56 °F (14°C). FF&V delivered in an open flatbed vehicle shall be protected with a tarp.

f. For repacked FF&V, the recycled boxes shall be clean and odorless; weigh not more than 45 pounds, (20 kilograms); labeled with the name and weight of the item on two adjacent sides of the box and legibly handwritten or printed.

3. **FROZEN MEAT AND POULTRY**

a. Unless otherwise requested, all frozen meat and poultry products must be USDA inspected or USDA certified. They must be listed in one of the following publications: "Meat and Poultry Inspection Directory", or "Directory of Sanitarily Approved Food Establishment for U.S. Armed Forces Procurement. ".

b. Temperature at delivery shall be 0°F (-18°C) or below. If the product is frozen to the point that a bimetallic thermometer cannot be pushed into the product and there does not appear to be significant surface thawing or crystallization the product shall be considered acceptable. These factors shall be considered due to the lack of proper equipment for drilling frozen item.

c. Age at delivery in the frozen state:

(1) Beef shall be delivered no more than 12 months after the date of pack.

(2) Poultry shall be delivered no more than 12 months after the date of pack.

(3) Pork shall be delivered no more than 12 months after the date of pack.

(4) Lamb and veal be delivered no more than 12 months after the date of pack.

NOTE: If the manufacture, slaughter or expiration date is stamped, not embossed on the box, the Health Certificate from origin shall be available for verification by the inspecting U.S. Army Veterinary Representative.

4. **FROZEN WATERFOODS:**

a. Temperature at delivery 0°F (-18°C) or below and shall be checked using the guidance reference previously in paragraph II.3.a.

b. Age at delivery in the frozen state:

(1) Seasonal packed items shall be delivered no more than 12 months after the date of pack.

(2) Oysters shall be delivered within 6 months of shucking/freezing.

(3) Shrimp shall be delivered within 180 days, of packaging/freezing.

c. General Guidance: All items shall be delivered in excellent condition, practically free of parasites, and show no evidence of mishandling.

5. **SHELL EGGS:**

a. Shell eggs shall be cleaned and free of damage (broken, cracked, leaker, etc.,). The U.S. Army Veterinary Representative shall recommend rejection of eggs with excessive dirt or feces.

NOTE: A small quantity of dirt is allowed on eggs delivered from plants that are only approved for unwashed eggs, small defined as having relatively little size or slight dimension.

b. Fresh shell eggs delivered directly from the farms within 48 hours of production may be delivered in unrefrigerated vehicles that are covered. The vehicles must meet all the requirements listed in Section I, par. 2. Boxes shall be marked with the date of production with the vendor's name and address.

c. Chilled fresh shell eggs that are procured from food distributors shall be delivered in refrigerated vehicles and shall be delivered within 15 days from the date of packaging. Internal temperature of eggs at delivery must be 41°F (5°C) or below.

6. **BAKERY PRODUCTS:**

a. Commercial labeling and/or coding shall be acceptable provided that the day or date of baking and packaging can be easily determined.

b. Bakery products shall be delivered within 48 hours from the date of production. Frozen bakery products shall be delivered within 6 months from the date of production, (SL 12 months), and in a refrigerated truck with a temperature of 0°F (-18°C).

SECTION III. SPECIFIED ANCHORAGE DELIVERIES

1. Due to the special circumstances associated with anchorage deliveries, the following exceptions are authorized, but shall not relieve the contractor or the BPA holder of any other requirements in the Quality Assurance Provisions unless specifically listed below:

a. Dairy products may be delivered in non-refrigerated containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. When a refrigerated unit is not used, the dairy products shall be packed in special containers that hold multiple units of product (bi-wall/tri-wall boxes), with dry ice based on the product weight to maintain internal temperature of 41°F (5°C). The special container shall be packed to allow air circulation within. Dairy products shall be given the highest priority for loading/off-loading upon receipt.

b. FF&V may be delivered in unrefrigerated containers in the most expeditious manner to ensure the least amount of exposure to high temperatures.

c. Miscellaneous frozen products may be delivered in non-freezer containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. Frozen items shall be packed with dry ice based on the product weight to maintain frozen state. The special container shall be packed to allow air circulation within. Although slight temperature deviations may occur, proper packaging and sufficient quantities of dry ice shall preclude excessive temperature deviations and thawing. Any item showing sign of thawing shall be rejected.

2. Although special considerations are authorized in anchorage deliveries, no exceptions have been authorized or shall be accepted for reduced sanitary standards, including the sanitation of the vehicles, boats, and shipping containers. The reuse of containers to transport products with dry ice is authorized as long as the container is sanitary and serviceable.

3. No deviations to these Quality Assurance Provisions are authorized without prior written approval from the Contracting Officer and U.S. Army Veterinary Representative. Deviations shall be granted prior to quotes being accepted and only for the particular delivery in question.

APPENDIX A, PERISHABLE FOODS, TO ATTACHMENT 8 (QA PROVISIONS)

The following are requirements that apply to this contract:

PERISHABLE SUBSISTENCE COMPATABILITY GROUPS
(Extracted From DLAM 4145.12/ TM 38-400, April 1994)

Group 1

Temperature: 32° to 34°F (1° to 1°C).
Relative humidity: 90 to 95 percent.
Atmosphere: Normally used on berries and cherries only -10 to 20 percent CO_2.
Ice: Never in contact with commodity.

Note: Most members of this group not compatible with Group 6a or 6b because ethylene production by Group 1 can be high, and thus harmful to members of Group 6a or 6b.

Apples (except those varieties listed in Group 3)
Apricots
Berries (except cranberries) Cherries.
Figs (not with apples, danger of odor transfer to figs; also see Group 6a)
Grapes (not fumigated with surfer dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages).
Peaches
Pears
Persimmons Plums and Pomegranates
Quinces

Group 2

Temperature: 55^o to 65^oF(13° to 18°C)
Relative humidity: 85 to 95 percent.
Ice: Never in contact with commodity.
Avocados
Bananas
Eggplant {also see Group 5)
Grapefruit [1]
Guava
Limes
Mangoes
Muskmelons, other than cantaloupes
Casaba
Crenshaw
Honey Dew
Persian
Olive, fresh
Papayas
Pineapples {not with avocados, danger of avocados' odor absorption)
Tomatoes, green
Tomatoes, pink {also see Group 4)
Watermelons (also see Group 4 and 5)

Group 3

Temperature: 36° to 41°F (2°to 5°C).
Relative humidity: 90 to 95 percent: cantaloupes about 95 percent.

Ice: In contact with cantaloupes.
Apples (Grimes Golden and Jonathan (both, certain areas), Yellow Newton (California) and Mclntosh
Cantaloupes
Cranberries
Lemons [1] (use 50 to 55°F for more than a month)
Lychees (also see Group 4)
Oranges 1(Florida or Texas)
Tangerines

Group 4

Temperature: 40° to 45°F (4° to 7°C): beans 38° to 42°F (3° to 6°C).
Relative humidi1y: About 95 percent
Ice: Never in contact with commodity.
Beans snap
Lychees (also see Group 3)
Okra
Oranges [1] (California or Arizona)
Pepper; green (not with beans)
Pepper, red (if with green peppers, temperature adjusted toward top of range)
Squash, summer
Tomatoes, pink (also see Group 2)
Watermelons (also see Groups 2 and 5)

Group 5

Temperature: 50° to 55°F (10° to 13°C): ginger not below 55°F.
Relative humidity: 85 to 90 percent.
Ice: Never in contact with commodity.
Cucumbers
Eggplant (also see Group 2)
Ginger (not with eggplant, also see Group 7)
Potatoes (late crop)
Pumpkin and Squashes, winter
Watermelon (temperature adjusted for other members of the group; also see Groups 2 and 4),

Group 6a

This group, except for figs, grapes and mushrooms, is compatible with Group 6b
Temperature: 32° to34°F (0° to 1°C)
Relative humidity: 95 to 100 percent.
Ice: Never in contact with asparagus, figs, grapes, and mushrooms
Artichokes
Asparagus
Beefs, red
Endive and escarole
Figs (also see Group 1)
Grapes (not furnished with sulfur dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages)
Greens
Leek (not with figs or grapes)
Lettuce
Mushrooms
Parsley

Parsnips
Peas
Rhubarb
Salsity
Spinach
Sweet Corn
Watercress

Group 6b

This group is compatible with Group 6a, except for figs, grapes and mushrooms.
Temperature: 13°to 13°F (0° to l°C)
Relative humidity: 95 to 100 percent
Ice: Contact acceptable for all
Broccoli
Brussels sprouts
Cabbage
Cauliflower
Celeriac
Celery
Horseradish Kohlrabi
Onions green (not with rhubarb. Figs, or grapes; probably not with mushrooms or sweet corn)
Radishes
Rutabagas
Turnips

Group 7

Temperature: 5° to 65°F (13° to 18°C)
Relative humidity: 85 to 90 percent.
Ice: never In contact with commodity.
Ginger (also see Group 5)
Potatoes, early crop (temperatures adjusted for others)
Sweet Potatoes

Group 8

Temperature: 32°to 34°F (0° to 13°C)
Relative humidity: 65 to 70 percent.
Ice: never in contact with commodity.
Garlic
Onions dry

[1] Citrus fruits -Biphenyl fungicide may impart off odors to other commodities

The above information was extracted from Lipton, W.J. and J. M. Harvey, Compatibility of Fruits and Vegetables During Transport in Mixed loads, US Department of Agriculture Research Service, ARS51- 48 (September 1972).

Appendix B - CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD

Microbiological criteria for dairy products[1,2]

Product(s)	Standard Plate Count (SPC) (See notes 3&4)	Coliform count (See note 4)	combined yeast and mold count (See note 4)	Preliminary incubation count (See note 5)
Aseptically processed and packaged Milk and milk products		0 per ml (See notes 6&7)	0 per ml (See note 6)	0 per ml (See note 6)
Buttermilk and acidophilus milk			10 per gram	
Cottage cheese			10 per gram	10 per gram
Cream, sour cultured			10 per gram	10 per gram
Grade A pasteurized milk and milk products		20,000 per ml	10 per ml	200,000 per ml
Ice cream products, flavored, fruit and / or nuts		50,000 per gram	20 per gram	
Ice cream products, vanilla and plain flavored		50,000 per gram	10 per gram	
Frozen dessert mix:				
Vanilla flavor		50,000 per gram	10 per gram	10 per gram
other flavors		50,000 per gram	20 per gram	10 per gram
Yogurt, chilled			10 per gram	
Yogurt, frozen, plain			10 per gram	
Yogurt, frozen, flavored			20 per gram	
Yogurt, soft serve mix			10 per gram	

Notes:
1. Phosphates as specified in the PMO.
2. Products shall be free of antibiotic or pesticide residues or below the action levels established for such residues by the applicable Federal Regulatory Agency. Antibiotic residue testing shall be by the method described in the PMO. Examinations and test to detect adulterants, including pesticides, shall be conducted by methods recognized by the applicable Federal regulatory agency.
3. Not applicable to cultured products.
4. All counts are maximum allowed standards.
5. Samples must be received within 72 hrs of pasteurization. Preliminary incubation test is used as a determination of keeping quality.
6. Nonconformance's will be considered an imminent health hazard.
7. Either aerobic or anaerobic SPC.

Microbiological criteria for Environmental Swabs[1,2]

	Aerobic Plate Count (APC)	Coliform Count	
ATP (RLU) Counts			
Environmental swab	100 per 50 sq cm	10 per 50 sq cm	See Note 3

Notes:
1. Microbiological counts can be used as an index for evaluating the sanitation status of processing equipment and the facility.
2. All counts are maximum recommended limits.

3. Relative Light Units (RLU) are directly correlated to log cfu/sq cm . RLU maximum tolerances are dependent upon the manufacturer of the ATP bioluminescence reader. Follow manufacturer's instructions for RLU limits.

Microbiological criteria for Fish, fresh or frozen, including shellfish		
Counts[4]	m	M
Aerobic Plate Count (APC)	5,000 per gram	1,000,000 per gram
E. coli	10 per gram	500 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Vibrio parahaemolyticus [1]	10 per gram	100 per gram
Vibrio vulnificus[2,3]	Zero (0) Tolerance	
Salmonella[2]	Zero (0) Tolerance	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Used for oysters and fish designed to be consumed raw.
2. No viable pathogen in a 25 gram sample.
3. Limit is established as non-detectable depending on method used and detection limit.
4. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Fruit Juice, Fresh or Frozen				
	Standard Plate Count (SPC) [3]		Coliform count	Combined Yeast and Mold count
Product(s)	m	M		
Aseptically processed juice[1]	0		0	0
Pasteurized Juice[2]		20,000 per ml	20 per ml	200 per ml
Non-Pasteurized Juice[4]	50,000 per ml	100,000 per ml		

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Must be labeled as aseptically processed and process must be verified.
2. Must be labeled as pasteurized.
3. Plate count limits for juices, except for aseptically processed juice, are used as a quality indicator and may assist in determining keeping quality and/or shelf life.

4. Non-pasteurized juice is not approved for US Armed Forces Procurement.

Microbiological criteria for Kimchee [1,3,4]		
Counts [9]	m	M
Coliform (MPN)	10 per gram	
Clostridium perfringens	100 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Pseudomonas ssp [7]	200 per gram	
Streptococcus ssp [7]	10 per gram	
Listeria monocytogenes[8]	0	
Salmonella ssp[2,8]	0	
Vibrio ssp[5,8]	0	
Salt %	$\geq$ 2.5/wt	$\leq$ 3.5/wt
pH	$\geq$ 4.2	$\leq$ 4.7
Polygalacturonase [6]	Negative	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Products containing monosodium glutamate (MSG), nuts or nut oils must be labeled appropriately to reflect potential allergenic contents.
2. Only for varieties containing meat or poultry, sprouts, watercress or melon.
3. Varieties of Kimchee include, but are not limited to: Vegetables: winter, spring, cucumber, wrapped, Yolma, Chang, radish (Nabak), white (Pak), western-cabbage, pony-tail radish (Chonggak), eggplant, green onion, pumpkin, spinach, leek, green pepper; Chanachi: radish, green pepper, cucumber, garlic cabbage; Kaktagi: radish, radish and oyster Kaktuki; Tong Chimi;: radish tongchimi; Shikhae: chicken, andong, Alaskan Pollock shikhae.
4. All Kimchee products must be delivered and stored refrigerated with a definitive shelf life marked on each container.
5. Only for varieties containing fish or seafood ingredients.
6. Polyglacturonase activity is an indicator of overripening and spoilage, inferring the possible presence of Bacillus subtilus, Saccaromyces fragilis, Candida pseudotropicalis, Oospora lactis, Asperfillus ssp., and Penicillium ssp.
7. Excessive acidification may be due to high counts of these organisms; this is an indicator of very poor quality product.
8. Zero tolerance pathogens.
9. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Retail Ground Beef, Beef Trimmings, Ground Pork , Poultry (Chilled or Frozen)		
Counts	m	M

Aerobic Plate Count (APC)	100,000 per gram	1,000,000 per gram
Fecal Coliform	50 per gram	500 per gram
Total coliform	100 per gram	1,000 per gram
E. coli	10 per gram	< 110 per gram
Coagulase Positive Staph	<100 per gram	500 per gram
Salmonella species	Zero (0) Tolerance[1]	
E.coli O157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.

Microbiological limits for Sandwiches, Prepared Salads and Spreads, Bagged Salad, and Cut Vegetables [4]

Counts[3]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli most probable number (MPN)	3 per gram[2]	10 per gram
Coliform (fecal)	10 per gram	100 per gram
Yeast and mold count	200 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Campylobacter jejuni	Zero (0) Tolerance[1]	
Salmonella species	Zero (0) Tolerance[1]	
Listeria moncytogenes	Zero (0) Tolerance[1]	
E. coli 0157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that "M" are of marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:

1. No viable pathogen in a 25 gram sample.
2. $\leq$ 10 per gram if using 3M Petri Film for E. coli counting.
3. Products may not be examined for all microbial characteristics as listed above. Contact laboratory if specific tests are required.
4. Tuna, chicken, ham and egg salads are tested the same, regardless whether on bread or submitted in tubs, buckets or other retail containers.

Microbiological criteria for Soft Serve Ice (cream) Milk and Soft Serve Yogurt at the retail/user level[2]

Counts	m	M
Standard plat count [1]	50,000 per gram	250,000 per gram

Coliform	10 per gram	100 per gram
Combined Yeast & Mold		100 per gram

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
Standard Plate Count (SPC) does not apply to yogurt products.
Soft serve and Yogurt machines.

Microbiological limits for Tofu

Counts[2]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram coli (MPN)
<3 per gram	10 per gram	
Staphylococcus aureus	100 per gram	1000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
Yersinia entercoliticus[1]	Zero (0) Tolerance[1]	

Legend:
m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. Products may not be examined for all microbial characteristics as listed above.

Microbiological and Chemical criteria for Bottled Water[1] and Vending Machine Water[2] and Ice

Counts	m	M
Coliform	0 per 100 ml	
Coliform (bottled water)	0 per 250ml	
Heterotrophic Plate Count [5]	1000 per ml	100,000 per ml
Pseudomonas aeruginosa	Zero (0) Tolerance	
Flouride[2]		
Arsenic[2]		
Trihalomethanes[2]		
Chlorine[2]		
Dissolved Solids[4]		
Silver [3]	None Detectable	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Bottled water is tested IAW the specific limits set forth by the Code of Federal Regulations (CFR) and current Environmental Protection Agency (EPA) regulations.
2. Vending machine water requirements are from the Association of Food and Drug Officials Model Code, 1997; Ice standards are derived from the International Packaged Ice Association. These are the minimum tests required for Vending Machine water.
3. Current published regulatory limits apply.
4. Only those machines utilizing silver impregnated carbon filters. Dissolved solids measurements are for vending machines labeled "Purified".
5. Ice and water derived from well water or surface water sources marketed at retail have higher allowable HPC limits. See current guidelines established in the CFR.

Microbiological criteria for Retail/User level Pre-packaged Deli and RTE Products[4]

Product(s)	APC[3]	Listeria spp.[2]	Salmonella[2]	Coliform[2]	E.Coli O157:H7
Luncheon Meats, frankfurters, Beef, poultry & pork	Zero (0) Tolerance	Zero (0) Tolerance	10/g	Zero (0) Tolerance	
Cheese, soft and hard	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance	
Pasteurized, liquid, frozen or Dried egg	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance	
Pizza topping (meat & cheese)	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance	
Dried meats sticks, jerky [1]	Zero (0) Tolerance	Zero (0) Tolerance	10/g	Zero (0) Tolerance	

Notes:
1. Yeast and mold combined count should not exceed 100 /g.
2. No viable pathogen in a 25 gram sample. All counts are maximum allowable limits.
3. See Table Below for APC values in RTE Products.
4. Includes all like type/style products not otherwise listed.

Additional Microbiological limits for Commercial (Food Court Style) RTE Products[2,4]

Counts	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli (MPN)	3 per gram [3]	10 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
E. coli 0157:H7[1]	Zero (0) Tolerance[1]	
Campylobacter jejuni	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. This table is primarily designed for hot food lines.
3. ≤ 10 per gram if using 3M Petri Film for E. coli counting.
4. Products may not be examined for all microbial characteristics when submitted. These values are primarily used when conducting food borne illness investigations and overall quality characteristics.

PART VI - Summary of Directory Listing Requirements

Federal Supply Class (*Note 1)	Listing Required	Listing Not Required
8905 (*Notes 2, 3)	All fish, meat, poultry, and shellfish, including: Buffalo meat. Fish, canned. Fish, fresh or fresh smoked, modified atmospheric packaged. Fish, fresh or frozen, packaged. Herring, pickled. Quail. Rabbits. Salmon, smoked. Squid.	Crabs, live. Crawfish, live. Fish, fresh or frozen, whole and/or eviscerated, head on or off, unscaled, unpackaged. Lobster, live. Shrimp, fresh or frozen, whole or head off.
8910 (*Notes 4, 5)	All dairy foods and eggs, including: Cream, sterilized. Creamer, coffee, dairy. Dairy soft serve mixes. Desserts/puddings, frozen. Egg nog, canned. Egg substitutes. Italian ices. Topping, real cream. Yogurt, fresh or frozen.	Chocolate drink mix, non-dairy. Powdered dairy mixes. Toppings, non-dairy.
8915 (*Note 7, 8)	All pre-cut pre-packaged minimum processed fresh fruits and vegetables. Kimchee. Mushrooms, whole and sliced. Salads, non-meat, with or without dressing (not USDA listed). Vegetable sprouts. Fruit juices and nectars, refrigerated.	All unprocessed fruits and vegetables. Olives. Fruit juices and nectars, shelf stable or frozen concentrate.
8920 (*Notes 6, 9)	Bakery and cereal products (baked and unbaked, fresh and frozen), specifically: Croissants. Doughnuts Egg roll wrappers. Flour and corn tortillas. Wet pasta (noodles). Pastries. Pies. Soft pretzels. Won ton wrappers. Filled bakery items.	All other bakery products, including: Bagels. Batter mix, dry. Biscuits, canned. Breads, rolls, and buns. Cake mix, dry. Cakes, unfilled. Cookie mix, chilled or dry. Cookies, unfilled. Crackers. Cupcakes, unfilled. Dough, frozen or chilled. Dumplings, frozen. English muffins.

		Flour. Fruitcakes. Melba toast. Muffins Pancake batter, frozen. Pancake/waffle mix. Pasta, dry (noodles). Pizza crust. Taco shells. Toaster pastries. Pie crusts, unfilled. Waffles, frozen.
8925		All confectionery, nuts, and sugars.
8930		All jams, jellies, and preserves.
8935		Bouillon and soups.
8940 (*Notes 2, 3, 4, 5, 10)	Dietary foods and specialty preparations, specifically: Fish, meat, poultry, dairy, egg, and shellfish products. Pickled eggs. Frozen dinners. Pudding novelties, frozen or chilled. Tofu.	All other dietary and specialty preparations, including: Baby formula, canned. Chips, nacho or potato. Creamer, coffee, imitation (non-dairy). Dips. Nacho cheese, canned. Nutri-why. Popcorn. Puddings, canned.
8945		Fats and food oils, including margarine
8950		All condiments and related products, including: Salad dressings. Mexican salsa)
8955		All cocoa, coffee, and tea.
8960	Beverages, nonalcoholic; specifically: Ice. Bottled water.	All other nonalcoholic beverages, including: Dry ice. Fruit drink mix containing no fruit juices.
8965		Non-MRE beverages, alcoholic.
8970 (*Note 2)	MRE food composite packages	Non-MRE composite food packages.
8975		All tobacco products.

*Notes:

1. For complete item listing within each class of the 8900 (subsistence) Federal Supply Class (FSC) Group, refer to Federal Supply Catalog C8900-SL, Stock List--FSC Group 89 Subsistence.
2. Meat and poultry establishments listed in the *USDA Meat and Poultry Inspection Directory* may serve as sources of meat and poultry items as indicated. These products must bear the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to meat or poultry inspection acts must also be Directory listed for those items.
3. Directory listing is not required for establishments on the Interstate Certified Shellfish Shippers List (ICSSL). Fish, fresh or fresh smoked, modified atmospheric packaged (when distributed in a chill state) must be Packed Under Federal Inspection (PUFI) by the USDC or listed specifically in this Directory. Establishments supplying other fish

products must be Directory listed unless listed by the United States Department of Commerce (USDC) in the *USDC Approved List of Fish Establishments and Products*.

4. Directory listing is not required for shell egg sources listed in the *Directory of Grading Offices and Plants Operating Under USDA Poultry and Egg Grading Programs*. Establishments listed in the *USDA Meat and Poultry Inspection Directory* for dried or liquid/frozen egg products may serve as sources for those products, as coded.
5. Establishments having a pasteurized milk compliance rating of 90 percent or higher, certified by a State milk sanitation officer, and listed in the *Sanitation Compliance and Enforcement Rating of Interstate Milk Shippers (IMS) List* may serve as sources of milk and milk products, as listed. Listing in this Directory is mandatory to serve as a source of other milk and milk products and/or frozen dessert items. Establishments listed in the *Dairy Plants Surveyed and Approved for USDA Grading Service* may serve as sources of manufactured or processed dairy products as listed by product code. Those operations denoted with "P" codes (packaging and processing) must be Directory listed when providing ungraded manufactured or processed dairy products.
6. Directory listing is not normally required for semiperishable and nonanimal origin ingredient sources for items such as ready-to-eat bakery products and ice cream.
7. Establishments processing ready-to-eat, chilled, and prepared non-meat salads (such as potato, egg, tuna, chicken, turkey, ham, bean, macaroni, or cole slaw) must be Directory listed.
8. Only pasteurized juices are authorized for purchase by the DOD.
9. Directory listing for natural and artificial cream or fruit filled pie crusts, cakes, and cookies is not required if the finished item will not support pathogenic microbial growth.
10. Establishments producing finished products containing less than 3 percent by weight components of animal origin may be exempted from Directory listing by the command publishing this Directory.

Attachment 12 - FLOATING LINE OF DEMARCATION SPECIFICATIONS

The following are Floating Line of Demarcation (FLD) Specifications used for this contract:

1. The Contractor shall provide a FLD to identify a restricted area in the water of approximately 330 feet (100 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. The FLD is to help identify a safe standoff zone.

2. The size of the FLD will depend on the class of ship. Pier side, the FLD should be positioned 330 feet (100 meters) fore and aft of the ship and 330 feet (100 meters) out into the water from the ship. If sufficient space is not available then the FLD will be positioned as far as possible from the ship. At anchorage, the FLD will be positioned 330 feet (100 meters) outside the swing radius of the ship.

3. There are two types of FLDs that are currently authorized.

3.1. Continuous Line FLD – If allowed by the Port, the Contractor shall provide a Continuous Line FLD per the specifications listed below.

3.1.1. The FLD must fully enclose ships at dockside or at anchorage. The FLD will have an Entry Control Point (ECP) where the FLD may be opened up when authorized watercraft require access to the ship. The Contractor will provide a boat and crew to open up and close the FLD at the ECP.

3.1.2. Specifications:

3.1.2.1. Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable ECP for access.Floatation devices positioned every meter on the line.

3.1.2.2. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing strobe lights (standing at least one meter high above the water) and positioned every 75 meters along the line.

3.1.2.3. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the FLD. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the FLD intact at all times regardless of sea conditions. Failure of the system to remain in place may result in deductions to the invoice.

3.2. Buoy System FLD - This is an acceptable alternative to the Continous Line FLD requirement. Some Ports may require the buoys to be temporarily moved and replaced if a commercial ship requires the water space. Whether continuous line FLD or buoy system FLD is ordered and provided, billing shall be at the single rate specified in the Attachment 2 schedules for the ‘Floating Barrier/Line of Demarcation‘ under LLIN XX12AF.

3.2.1. The Contractor shall provide a Buoy System FLD per the specifications provided below.

3.2.2. The Contractor shall provide a Buoy System FLD to identify a restricted area around ships. The purpose of the Bouy System FLD is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large red or yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 100 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible on both ship and shore based radar. The Picket Boats will patrol outside of this visual reference. The Buoy System FLD shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) workboats to tend to the Buoy System FLD at all times.

3.2.3. Provide the system with weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

Attachment 13 - PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

1. The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

2. The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

3. Ships at anchorage will normally require two Picket Boats.

4. The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate Lot Line Item in the contract.

5. The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

6. The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

7. The Picket Boat will meet the following requirements:

7.1. Licensed for commercial operations by local country Department of Transportation.

7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

7.11.4. Portable Spotlight

Attachment 14 - SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

    1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

    1.2. Security guards may be provided through private security firms or through local police officials.

    1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

    1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

    1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside:

    2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

    2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

    2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

    2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

    2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

    2.6. The following equipment will be required as a minimum for each guard:

        2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.5. Flashlight for nighttime inspections.

2.6.6. Any locally required equipment to perform their job.

2.7. ROEs Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

2.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats:

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

3.8.1.2 If the first warning is ignored, the security guard will immediately notify the ship of the threat.

3.8.1.3 The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

3.8.1.4 As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

Attachment 15 - FUEL SPECIFICATIONS

The following are the Fuel Specifications for this contract:

SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of vis particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/

Carbon Residue, on 10% bottoms, % wt., (max)	0.20	D 524 (R), D4530, D 189 7/
Corrosion, @ 100ºC, (max)	No. 1 ASTM	D 130
Hydrogen Content, % wt., (min)	12.5	D 4808
Ignition Quality, Cetane Number, (min) Cetane Index, (min)	42	D 613 (R), D 976 8/
Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 26
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium Vanadium	 1.0 0.5 1.0 0.5	D 3605 9/
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

(a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

(b) The test temperature shall be 25ºC.

(c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST	**METHOD**	**REQUIREMENTS**
1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exce maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90% Distillation Poi not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min

5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)
7. Viscosity @ 40ºC	ASTM D 455	1.7 - 4.5 CST
8. Color	ASTM D 1500	3 max
9. Gravity	ASTM D 1298, D 287	Record
10. Carbon Residue	ASTM D 524	0.35% max
11. Ash	ASTM D 482	0.01% max
12. Sulfur	ASTM D 129, D 1552 D2622	1.00% max
13. Copper Corrosion	ASTM D 130	3 max

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

	TEST	METHOD	REQUIREMENTS
1.	Cetane Number	ASTM D 613	42 min
	or		
	Cetane Index	ASTM D 976	43 min
	NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338^{O}C.		
2.	Appearance @ 21^{O}C or ambient temp. (whichever higher)	Visual	Clear & Bright
	or		
	Water & Sediment	ASTM D 2709	0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357^{O}C max.
4.	Flash Point	ASTM D 93	60^{O}C min
	NOTE: The flash point value is absolute and no value less than 60^{O}C is permissible.		
5.	Cloud Point	ASTM D 2500	-1.1^{O}C (30^{O}F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40^{O}C	ASTM D 445	1.7 - 4.5 cst
7.	Color	ASTM D 1500	3 max.
	NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted if red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.		
8.	Density @ 15^{O}C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524	0.35 mass % max.

		ASTM D 189	
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294, ASTM D 1552, or ASTM D 2622	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	**GRADE RMB-10 (IFO 60)**	**GRADE RME-25 (IFO-180)**	**GRADE RMG-35 (IFO 380)**	**GRADE TEST METHOD**
Density @15^{o}C, kg/m^{3}, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

Attachment 16 - WATER TAXI SPECIFICATIONS

The following are Commander 7th Fleet (COMSEVENTHFLT) Water Taxi specifications used for this contract.

1. Compliance - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2. Quality of Equipment - All equipment provided must meet COMSEVENTHFLT water taxi specifications, meet all safety standards required by local law, and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3. Quality of Services - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. Inspection and Acceptance - The Contractor shall pre-inspect the provided boats using the COMSEVENTHFLT specifications set forth below. Boats failing the inspection will not be used. The Contractor shall provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the designated FLC Yokosuka Logistics Support Center (LSC) Water Taxi Inspector. The LSC Inspector will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the LSC Inspector shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor, the FLC Contracting Officer (KO), and the LSC Inspector. An info message will be sent to Commander Logistics Western Pacific (COMLOGWESTPAC) and the operational chain of command up to and including COMPACFLT.

5. COMSEVENTHFLT Specifications:

5.1. Boat requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris, and fitted for service required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of the respective countries. Notwithstanding compliance with local laws and regulations, the contractor shall meet all additional requirements as set forth throughout Section 5.

5.1.1. Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

5.1.2. Each boat shall be capable of transporting a minimum of (see Schedule of Services) passengers. (Weight restrictions may also be set forth, if appropriate.)

5.1.3. The following information shall be conspicuously posted in both English and (the appropriate foreign language):

5.1.3.1. Current Operator's/Captain's license and boat names.

5.1.3.2. Passenger/weight capacity limit notice.

5.1.3.3. Location of life jackets and other life saving equipment.

5.1.3.4. Location of all exits indicated in large letters.

5.1.3.5. Emergency procedures

5.1.4. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

5.1.5. Operation of the boat shall be in a safe and seaworthy manner.

5.1.6. The consumption of alcoholic beverages shall not be permitted aboard the boat.

5.2. Operator qualifications: All personnel or employees of the contractor operating boats providing subject services shall have all certification required and issued by the respective countries for the operation of the type class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

5.3. Security: During the term of this contract the ship(s) to be serviced (insert ship name if purchase order) agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat--SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He/she will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

5.4. Boat capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

5.5. Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the (Contracting officer or Husbanding Agent, as appropriate), or authorized representative prior to acceptance. This inspection shall include but not be limited to:

5.5.1. Hull

5.5.1.1. Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures.

5.5.1.2. Superstructure, including masts and stacks.

5.5.1.3. Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines.

5.5.1.4. Provisions for drainage of sea water from exposed decks over the side and not into the bilges.

5.5.1.5. Access/egress points- adequacy of number and location.

5.5.2. Machinery

5.5.2.1. 2-way radio or other reliable means of electronic communications (i.e., cellular phone) plus an additional battery back-up is required.

5.5.2.2. Main propulsion and auxiliary machinery essential to operation of boat.

5.5.2.3. Sea and bulkhead closure valves.

5.5.2.4. Bilge auction strainers and dewatering systems-bilge pump to be tested by operation

5.5.2.5. Bilges free of flammable liquids

5.5.3. Electrical

5.5.3.1. Cables.

5.5.3.2. Navigation, deck, and emergency lights.

5.5.3.3. Rotating electrical machinery; e.g., generators and motors --Storage batteries

5.5.4. Lifesaving equipment

5.5.4.1. Life preservers - sufficient number for maximum capacity of boat, accessible and in satisfactory condition.

5.5.4.2. Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity.

5.5.4.3. First aid kits, life rings and distress lights.

5.5.4.4. Distress signaling devices

5.5.5. Fire fighting equipment

5.5.5.1. Fire pump - test by subjecting fire hose(s) to fire pump pressure.

5.5.5.2. Portable fire extinguishers.

5.5.5.3. Fixed systems, e.g., C02 cylinders.

5.5.6. Steering apparatus

5.5.7. Miscellaneous systems and equipment

5.5.7.1. Harbor charts.

5.5.7.2. Ground tackle and mooring lines.

5.5.7.3. Whistle/fog horn, bell.

5.5.7.4. Lighted compass.

5.5.7.5. Radar.

5.5.7.6. 2-way radio capable of Bridge-to-Bridge communications.

5.5.7.7. Current license.

5.5.7.8. Operator qualifications.

5.6. Only approved boats shall be used in performance of this contract. The (LSC Inspector or Husbanding Services contractor, as appropriate) will provide each ship with a list of pre-approved boats. If the LSC Inspector or Husbanding Services contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement-is that contained in paragraph 4.7 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

5.7. Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

5.7.1. Safety of operations. Insure the following are present and in working condition:

5.7.1.1. Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.

5.7.1.2. Fire extinguishers sufficient for the size of the vessel operated.

5.7.1.3. Radio (with battery backup) capable of Bridge-to-Bridge communications.

5.7.1.4. Anchor/chain sufficiency for the size of the vessel operated.

5.7.1.5. Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

5.7.2. Hazards to passengers. Conduct topside visual inspection for safe conditions of the following:

5.7.2.1. Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

5.7.2.2. Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.

5.7.2.3. Ensure no bare or exposed electrical wires or connections are located in the passenger area.

5.7.2.4. Validate that sufficient unobstructed exits are present and marked in English.

5.7.2.5. Verify that no missile hazards, gear adrift, or trip hazards exist.

5.7.3. The following shall be conspicuously displayed, in English:

5.7.3.1. Passenger/weight capacity.

5.7.3.2. Location and number of life jackets.

5.7.3.3. Location of life saving equipment.

5.7.3.4. Locations of exits (if not obvious).

5.8. Critical safety equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or designated representative will have the option of furnishing the missing item. In all cases where government furnished property is provided due to the contractor's failure to meet requirements of the contract, the Contracting officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting officer is not on site, notification will be by message.

5.9. If applicable, FAR 52.245-4, Government-furnished Property (short form) (APR 1984), is incorporated by reference into this (contract or purchase order, as appropriate).

6. Onboard Security: The ship being serviced may provide security personnel for the purpose of maintaining the orderly transportation of their personnel. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

7. Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

8. Deficient Boat - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price or termination of the contract for default.

9. Government Furnished Property - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contractor shall notify the KO and provide information about the circumstances surrounding the deficiency. If appropriate, a reduction in contract price may be made.

Attachment 17 - REQUEST FOR SANITARY INSPECTION

SAMPLE LETTER REQUESTING SANITARY INSPECTION

(COMPANY LETTERHEAD)

Contracting Officer
FLC YOKOSUKA
PSC 473 BOX 11
FPO AP 96349

Dear Sir:

We are interested in supplying (e.g. specify bread products or eggs) to the U.S. Navy ships calling at the Port of (insert name of port). It is understood that a U.S. Government sanitary inspection of our manufacturing plants and sources of raw materials must be conducted if they have not been previously approved prior to the award of any contract. We request, therefore, that a sanitary inspection be arranged for the following sources:

NAME AND ADDRESS OF PLANT OR SOURCE	PERSON TO CONTACT AND TELEPHONE NUMBER	PRODUCT OR MATERIAL
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Sincerely,

Attachment 18 - NATIONAL PRIMARY DRINKING WATER REGULATIONS (NPDWR) TREATED WATER QUALITY STANDARDS

1. Contaminant levels for inorganic chemicals (effective 1 January 1993)

CONTAMINANT	*MCLG (mg/L) [1]*	*MCL (mg/L)*	*AL (mg/L [2])*
ASBESTOS	7 million fibers/L longer that 10 micrometers	7 million fibers/L longer than 10 micrometers

TOTAL NITRATE AND NITRITE (AS N)	10	10	
SELENIUM	0.05	0.05	
FLUORIDE :	4	4	

(1). Maximum contaminant level goal (MCLG). The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are nonenforceable health goals.

(2) Action level (AL). Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90^{th} percentile" level is greater than 0.015 mg/L).

2. Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

PENTACHLOROPHENOL	0	0.001
TOTAL TRIHALOMETHANES (THE SUM OF THE CONCENTRATIONS OF BROMODICHLOROMETHANE, DIBROMOCHLOROMETHANE, TRIBROMOMETHANE (BROMOFORM), AND TRICHLOROMETHANE (CHLOROFORM)		0.10[(1)]

[(1)]. The MCL for total trihalomethanes applies only to water systems serving 10,000 or more individuals and which add a disinfectant to the water. For systems serving less than 10,000 individuals, individual States or BUMED (in overseas locations) may adopt an effective date for the MCL.

4. Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites that are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Reference (d) contains sampling requirements for the Navy public water system.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Autoanalysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the multiple-Tube Fermentation (MTF) Technique, and the membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use is included in reference (1).

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, except where the State waives this requirement on a case-by-case basis.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the State may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before, unless the MCL has been violated and the system has notified the State (in which case the State may reduce or eliminate the requirement to take the remaining samples).

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms. Or E. coli testing on total coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements that apply when a sample is fecal coliform-positive.

5. Turbidity The MCL for turbidity applies to both community water systems and noncommunity water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at State option).

b. Five turbidity units (maximum) average for 2 consecutive days.

c. These requirements apply to filtered systems until 29 JUNE 1993. The requirements apply to unfiltered systems that the State has determined, in writing, must install filtration until 29 June 1993 or until filtration is installed whichever is later. After the above dates, consult the latest edition of 40 CFR 141.

6. The MCL for Radiological Contaminants are:

Gross alpha particle activity including radium 226 but excluding radon and uranium . . . . . .15 pCi/L
Combined radium-226 and radium 228 . . .. .5 pCi/L
Tritium . . . . .20,000 pCi/L
Strontium-90. . . . . 8 pCi/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

7. Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

Attachment 19:Host Nation Port Fees Agreements SEVENTH Fleet AOR

General(all countries): United States military aircraft, warships, and auxiliaries (including USNS vessels, afloat pre-positioned force ships, and United States flagged, time-chartered vessels) will not pay taxes, tariffs, fees, or duties in foreign ports. In all cases, the U.S. will be liable to pay for specific services rendered at their request.

Additional country-specific language: Additionally, for the following countries, the described fees, dues, use charges will not be paid by the U.S.:

1. Australia

a. For the United States Armed Forces, use of **public services and facilities** owned, controlled or regulated by the Australian government or its instrumentalities, the terms of use, including charges, shall be no less favorable than those available to other users in like circumstances unless otherwise agreed.

b. The United States government will not pay for landing charges for the use of aircraft in any airport in Australia.

c. United States government will not pay toll charges, including light and harbor dues, for the use of port facilities owned, controlled or regulated by the Australian Government, nor shall such vessels be subject to charges, therefore, at these ports.

d. Chapeau Agreement – 1 Dec 1995 (Paragraph 5): In regard to the provision of logistics support, each Party shall provide, upon request and subject to availability, food, water, billeting, transportation, petroleum, oils, lubricants, clothing, communications services, medical services, ammunition, storage services, training services, repair and maintenance services, spare parts and components, access to and use of facilities, base operations support (including construction incident thereto), airfield and port services, as reflected in written arrangements between our national defense organizations. The furnishing of such support shall create a corresponding obligation to provide cash reimbursement, replacement in kind, or replacement of equal value, which shall be discharged, as may be set forth in a written arrangement. Payment, if required, for the provision of such logistics support, shall be calculated upon such terms as are most favorable to the recipient under the national laws of the providing Party.

2. Brunei. The United States government will not pay landing or port fees, navigation or overflight charges, or tolls or other use charges, including light and harbor dues, for vehicles, vessels and aircraft operated by or for the United States Armed Forces.

3. Diego Garcia. The United States government will not pay for the use of anchorage or airfields at Diego Garcia for aircraft and ships owned or operated by or on behalf of the Government of the United States (Collection of dues and charges for use of the anchorage and airfields at Diego Garcia which may be levied by the Commissioner shall be his responsibility).

4. Timor Leste. The United States government will not pay landing, navigation, overflight or parking charges, port and pilotage fees, or overland transit fees for vehicles, vessels, and aircraft owned or operated by or for the U.S. Armed Forces while in the Democratic Republic of Timor-Leste.

5. Japan. The United States government will not pay for tolls, fees or landing charges for vessels, vehicles, and aircraft operated by, for, or under the control of the United States for official purposes.

6. Republic of Korea. The United States government will not pay for tolls, fees or landing charges for vessels, vehicles, and aircraft operated by, for, or under the control of the United States for official purposes.

7. Malaysia. The United government will not pay landing or port fees, navigation or overflight charges, or tolls or other use charges, including light and harbor dues, while in Malaysia.

8. Micronesia and Marshall Islands. The United States government will not pay taxes, fees or other charges associated with the movement of United States Armed Forces aircraft, vessels and vehicles in the Marshall Islands and the Federated States of Micronesia, including access to and use by them of defense sites, ports, harbors and air-fields. However, the United States government will pay for specific services rendered at their request, including materials received at their request in connection with the use of ports, harbors and airfields in the Marshall Islands and the Federated States of Micronesia.

9. Mongolia. The United States government will not pay for navigation, landing, parking or overflight charges, or tolls or other use charges, while in Mongolia.

10. Palau. The United States government will not pay taxes, fees or other charges associated with the movement of United States Armed Forces aircraft, vessels and vehicles in Palau, including access to and use by them of defense sites, ports, harbors and airfields. However, the Armed Forces of the United States and United States contractors will pay for specific services rendered at their request, including materials received at their request in connection with the use of ports, harbors and airfields in Palau.

11. Papua New Guinea. The United States government will not pay for landing or port fees, navigation or overflight charges, including light and harbor duties, for vehicles, vessels and aircraft operated by or for the United States Armed Forces while in Papua New Guinea.

12. Republic of the Philippines. The United States government will not pay landing or port fees, navigation or overflight charges, or tolls or other use charges, including light and harbor dues, for vehicles, vessels and aircraft operated by or for the United States Armed Forces while in the Philippines.

13. Russia. The United States government will not pay for landing fees, navigation charges, port charges, tolls and similar charges by the Russian Federation, or any subdivision thereof, for the access and movement of aircraft and vessels operated by or for the Government of the United States of America in connection with United States assistance programs in the Russian Federation.

14. Western Samoa. The United States government will not pay for landing or port fees, navigation or overflight charges, or tolls or other charges, including light and harbor dues for United States Armed Forces vessels, vehicles, and aircraft while in Western Samoa.

15. Singapore. The United States government will not pay for landing fees, port dues, customs inspection fees, navigation or overflight charges, or any other charges for United States Armed Forces vehicles, vessels, and aircraft by Singapore which do not constitute fair and reasonable compensation for services requested and received.

16. Solomon Islands. The United States will not pay for landing or port fees, navigation or overflight charges, or tolls or other use charges, including light and harbor dues for United States Armed vehicles, vessels and aircraft while in Solomon Islands.

17. Tonga. The United States will not pay for landing or port fees, navigation or overflight charges, or tolls or other use charges, including light and harbor dues, for United States Armed Forces vehicles, vessels, and aircraft while in Tonga.

Attachment 20:Government Material Available for Use

Table 1 lists the type and location of Government Material available, at the time of contract award, for use in meeting requirements. The order of priority for use of this material is described in the Performance Work Statement paragraph 10.g. The Government provides no warranty that the Government Material listed in Table 1 will be available or usable throughout the period of performance of this contract. Use of this material is intended as a cost-saving measure for the Government where suitable material is available free of charge or at reduced prices to meet contract requirements. Material available from the Host Nation is annotated on the Attachment 2 pricing schedules where this information is available.

Table 1

Country	Port	Material Available	Comments
Japan	Fukuoka	fenders and brows	CFAS Sasebo
Japan	Kagoshima	fenders and brows	CFAS Sasebo

CONTRACT ADMINISTRATION PLAN

WESTPAC & INDIAN OCEAN REGIONAL HUSBANDING LOGISTICS SERVICES

PROGRAM TITLE: Western Pacific (WESTPAC) and Indian Ocean Regional Husbanding Logistics Services for U.S. Naval Forces

DESCRIPTION OF PROGRAM: This requirement is for regional husbanding logistics services to support U.S. Naval forces and other U.S. Government agencies in WESTPAC and Indian Ocean (excluding U.S. Territories). The program covers four separate and distinct regions: South Asia, Southeast Asia, Australia/Pacific Islands, and East Asia. This is an indefinite-delivery indefinite-quantity (IDIQ) contract and task orders will be issued by authorized ordering officers or FLC Yokosuka contracting officers.

PROCURING CONTRACT OFFICE: U.S. Fleet & Industrial Supply Center, Yokosuka, PSC 473 BOX 11, FPO AP 96349-0011

CONTRACT ADMINISTRATION OFFICE: U.S. Fleet & Industrial Supply Center, Yokosuka (including sites and detachments)

Note: Prior to award of regional contracts, Contracting Officer Representatives (CORs) will be assigned to specific contracts, ports, and/or countries. Additionally, 30 days after award, Administrative Contracting Officers (ACOs) will be assigned.

PAYING OFFICE: Payment will be made either by the ship's disbursing office or the Defense Finance Accounting Service in Yokota. Individual task orders will identify the office making payment.

1. PURPOSE: The purpose of this Contract Administration Plan (CAP) is to:

- Identify key contract administration milestones
- Provide a consistent and uniform approach through the WESTPAC and the Indian Ocean for monitoring performance requirements
- Identify key roles and responsibilities
- Outline the ordering and invoice processes
- Outline the cost reporting process
- Outline the past performance documentation process

2. CONTRACT ADMINISTRATION MILESTONES:

Event	Milestone Date	Government Person Responsible
1. Provide minimum IDIQ funds for award	90 days before award	Fleet
2. Write COR's designation	Prior to Award	Contracting Officer

letter		
3. Award contracts	Award date	Contracting Officer
4. Write ACO's designation letter	30 days after award	Contracting Officer
5. Prepare funded delivery orders	When service required	Authorized Ordering Officer or Contracting Officer
6. Establish schedule with contractor of actions and deliverables	30 days after award	COR or Contracting Officer
7. Hold post-award orientation meeting	30 days after award	Contracting Officer and COR
8. Obtain contractor's schedule of any actions during phase-in	45 days after award	Contracting Officer and COR
9. Schedule quarterly performance meetings & notify participants	45 days after award	Contracting officer and COR
10. Provide quarterly and semi-annual input for performance assessments (i.e., QASP/CPARS)	45 days after award	Fleet, COR, Contractor, Contracting Officer
11. Notify COR/Contracting Officer of need to exercise option for additional service periods	60 days prior to the end of an option period	Fleet
12. Notify contractor of intent to exercise option	45 days prior to the end of an option period	Contracting Officer
13. Option exercised, if appropriate	30 days prior to end of option period	Contracting Officer
14. Document contractor performance for past performance purposes (i.e., CPARS)	Semi-annually after contract award	COR, Contracting Officer
15. Close-out contract file	180 days after contract complete	Contracting Officer

3. MONITORING CONTRACTOR PERFORMANCE: Contract performance will be monitored and feedback provided in accordance with the Quality Assurance Surveillance Plan (QASP) and Contractor Performance Assessment Reporting System (CPARS). The contract contains negative incentives if metric goals, as identified in the QASP, are not achieved. Documentation of performance through the QASP will be performed on a quarterly basis and the CPARS will be performed on a semi-annual basis.

The QASP will monitor the following areas:

- Adherence to Port Visit Cost Reporting
  - Timeliness of cost estimates received
  - Timeliness of final cost estimates
  - Cost reporting submittal accuracy and completeness
  - Maintenance and accuracy of contractor online pricing application

- Fair and Reasonable Pricing for Non-Contract Items
  - Competition promoted to the maximum extent
  - Documentation of reasonableness
  - Maintenance and accuracy of contractor online pricing application

- Customer Satisfaction
  - Ship's satisfaction with contractor services
- Cost Savings

CPARS will monitor performance in the following areas:

- Quality of Product or Service
  - Are reports/data accurate?
  - Does the product or service provided meet the specifications of the contract?
  - Does the contractor's work measure up to commonly accepted technical or professional standards?
  - What degree of Government technical direction was required to solve problems that arise during performance?

- Schedule
  - Assess the timeliness of the contractor against the completion of the task orders, milestones, delivery schedules, and administrative requirements
  - This assessment of the contractor's adherence to the required delivery schedule should include the contractor's efforts during the assessment period that contributes to or affect the schedule variance.

- Cost Control
  - Does the contractor keep within the estimated costs?
  - Did the contractor do anything innovative that resulted in cost savings?
  - Were invoices accurate, complete and timely?

- Business Relations
  - Is the contractor oriented toward the customer?
  - Is interaction between the contractor and the government satisfactory or does it need improvement?
  - Address the timeliness of awards to subcontractors and management of subcontractors, including subcontract costs. Consider efforts taken to ensure early identification of subcontract problems and the timely application of corporate resources to preclude subcontract problems from impacting overall prime contractor performance.

  - Assess the prime contractor’s effort devoted to managing subcontracts and whether subcontractors were an integral part of the contractor’s team.

- Management of Key Personnel
  - How well did the contractor match the qualifications of the key position, as described in the contract, with the person who filled the key position?
  - Did the contractor support key personnel so they were able to work effectively?
  - If a key person did not perform well, what action was taken by the contractor to correct this?
  - If a replacement of a key person was necessary, did the replacement meet or exceed the qualifications of the position as described in the contract schedule?

4. ROLES AND RESPONSIBILITIES: The following outlines the major roles and responsibilities for contract administration purposes.

Contracting Officer: Contracting officers assigned to this contract are responsible for ensuring performance of all necessary actions for effective contracting, ensuring compliance with the terms of the contract, safeguarding the interests of the United States in its contractual relationships.

In order to perform these responsibilities, contracting officers assigned to this contract are allowed wide latitude to exercise business judgment. Contracting officers must:

- Ensure that the requirements of the pertinent laws, regulations, etc., have been met;
- Ensure that sufficient funds are available for obligation;
- Ensure that contractors receive impartial, fair, and equitable treatment; and
- Request and consider advice of specialists in audit, law, logistics, transportation, and other fields, as appropriate.
- Make fair and reasonable determinations for all non-priced line items with an extended value greater than $25,000.
- Notify the Ordering Activity when quoted prices cannot be determined fair and reasonable.

Contracting officers must also perform the actions required for the business relationship:

- Interpreting and implementing diverse contract terms and conditions;

- Analyzing costs;
- Issuing changes and negotiating modifications to the contract; and
- Organizing and coordinating efforts of all the functional specialists who comprise the contract administration team.
- Monitor timeliness of required reports from the HS Contractor (e.g. pre-arrival cost estimates);
- Determine whether there is sufficient rationale to add previously ordered, non-priced items to the contract as fixed prices;
- Monitor contract performance data and track performance metrics as required by the QASP;
- Annually assess the HS Contractor’s performance in the Contractor Performance Assessment Reporting System (CPARS).

Contracting Officer Representatives (CORs): Various CORs may be assigned to this contract. The responsibilities of the CORs are:

- Monitoring contract performance on behalf of the contracting officer;
- Monitor compliance with the terms and conditions of the contract;
- Providing technical advice/recommendations/clarifications of requirements to the ship;
- Coordinating LOGREQ information;
- Working with database information;
- Liaison between the ships and contractor;
- Informing the contracting officer of performance problems;
- Furnishing the contracting officer of conference report;
- Coordinating with the contracting officer corrective actions, when necessary;
- Coordinating with the contracting officer on the content of any contractually significant correspondence addressed to the contractor;
- Monitoring financial management controls;
- Reviewing contractor invoices, when requested;
- Assembling the documentation for quarterly QASP reviews and semi-annual CPARS; and
- Maintaining a file system.
- Review LOGREQs and provide feedback to the Ordering Officer;
- When requested, assist the Ordering Officer with invoice reconciliation;
- Submit a quarterly report to the Contracting Officer which addresses HS Contractor performance concerns.

NOTE: The COR is not an administrative contracting officer and does not have the authority to direct the accomplishment of effort which is beyond the scope of the performance work statement (PWS) in the contract. When in the opinion of the contractor, the COR requests effort outside the existing scope of the contract, the contractor shall promptly notify the contracting officer in writing. No action shall be taken by the contractor under such direction, until the contracting officer has issued a modification to the contract, or until the issue is resolved.

Ordering Officers: The contract allows U.S. Navy Supply Officers assigned to a ship or and other designated personnel authorized in the contract to place task orders off the contract as ordering officers. The responsibilities of the ordering officers are as follows:

- Issuance of delivery/task orders;
- Obligating funds when issuing task orders;
- Authorize performance;
- Complying with ordering procedures;
- Bring to the attention of the contracting officer or COR any significant deficiencies with respect to contractor performance, deliveries, or actions which might jeopardize contract performance;
- Notify the contracting officer or COR if the contractor is of the opinion the task order is deficient or beyond the scope of the basic contract;
- Monitoring services of the contractor;
- Providing feedback on contractor performance;
- Notifying the contracting officer when cost estimates are not provided in a timely manner;
- Notifying the contracting officer of invoice discrepancies or overcharges; and
- Maintaining contractual records of task orders.
- Make fair and reasonable determinations for all non-priced items with an extended cost of less than $25,000;
- Review contractor invoices prior to payment;
- Arrange for payment of finalized invoices prior to departure.

Prohibitions: The COR and ordering officers are prohibited from:

- Modifying any of the stated terms of the contract;
- Taking any action, either directly or indirectly, that could result in change in pricing, quantity, quality, place of performance, delivery schedule, or any other terms or conditions of the basic contract;
- Direct the accomplishment of effort which would exceed the scope of the basic contract and delivery/task order;
- Taking action with respect to termination, except to notify the contracting officer that the action is desired;
- Giving guidance to the contractor, either orally or in writing, that might be interpreted as a change to the scope of the terms of the contract; and
- Directing the contractor to begin work prior to the order date.

5. ORDERING AND INVOICE PROCESS: Task orders for husbanding services are normally provided by the ship's Supply Officer with contracting authority delegated through the Type Commanders (TYCOMs). In unique instances, the Contracting Officer may issue task orders on behalf of the ships for husbanding services. Task orders relating to Operations Other Than War (OOTW) will normally be issued by a warranted contracting officer.

For husbanding services, the ship provides a Logistics Requisition (LOGREQ) through as a Naval Message to the organizations responsible for coordinating the order (e.g., FLCY's Logistics Support Center (LSC) and Defense Attaché Office (DAO)) with the husbanding contractor. The COR (within the LSC) will pass the LOGREQ to the Contracting Officer for review and feedback on possible contractual issues/concerns. The COR will review the LOGREQ for quality and cost saving recommendation purposes and provide information back to the ship. The COR will also pass the LOGREQ on to the husbanding contractor on behalf of the ship. Once the husbanding contractor receives the LOGREQ, the husbanding contractor will provide a cost estimate to the Contracting Officer, and ship. The COR and contracting officer will review the cost estimate to ensure items are priced in accordance with the contract. In cases where ships visit non-priced ports or is ordering non-priced items, the Contracting Officer will be responsible for negotiating these items when it is outside the contracting authority of the Ship's Supply Officer(using the online pricing application). The COR will notify the ship of the results of the negotiated prices. The goal is the timely resolution of all pricing issues prior to the port visit. If prices are not negotiated prior to the visit, prices need to be negotiated before the the non-priced services are provided. If there are any disputes regarding the prices, the Contracting Officer has the responsibility to resolve the

issue. Once the Contracting Officer determines the resolution, the COR will inform the ship of what actions are required for payment purposes.

For husbanding services, invoices shall be submitted to the ship's Supply Officer and payment will normally be made by the ship's disbursing office prior to the ship's departure. In instances where there is a dispute or invoices can not be paid by the ship's disbursing office, invoices will be submitted to the contracting officer and payment will be made by DFAS Yokota. For OOTW task orders, a warranted contracting officer will negotiate and issue the orders and invoices will normally be paid out of DFAS Yokota. In all cases, the contractor is responsible for reporting all expenditures under the contract through the LogSSR and online pricing application.

6. COST REPORTING PROCESS: The Contractor is responsible for fully participating in the execution of the LogSSR and online pricing application. Requirements for these reports are contained in Attachment (8) and quality monitoring procedures are outlined in Attachment (10) QASP.

7. PAST PERFORMANCE DOCUMENTATION PROCESS: The COR and contracting officer will be responsible for documenting past performance through the CPARS system. There will be one final record annually, with an interim review every six months. The COR will be responsible for collecting and forwarding relevant past performance information to the contracting officer. CPARS records will be forwarded to the contractor for review and an opportunity to provide any feedback on negative performance documented in the record.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

PERFORMANCE WORK STATEMENT

SCHEDULE OF SUPPLIES/SERVICES AND PRICES

Note 1: U.S. FISC YOKOSUKA - The official command name for U.S. Fleet and Industrial Supply Center (FISC) Yokosuka changed 1 July 2011. As of 1 July 2011, the official command name for U.S. Fleet and Industrial Supply Center (FISC) Yokosuka will be: NAVSUP Fleet Logistics Center Yokosuka (FLCY). Accordingly, all references throughout the contract have been updated to reflect this name change.

Note 2: This contract is limited to Region 4 (East Asia), Lots 82-99.

A. GENERAL

This contract is for performance of maritime husbanding support for U.S Navy ships visiting ports and operating in Region 4 of the Western Pacific and Indian Ocean. Additionally, the husbanding contractor may be called upon to provide services in support of Operations Other Than War (OOTW) within a Region's territorial boundaries. The Regions, countries and major ports included in each region are as follows:

Region 1 – South Asia (7 countries, 4 major ports)	
Bangladesh	Maldives • Male
Bhutan	Nepal (OOTW)
Burma	Sri Lanka
India • Chennai • Goa • Mumbai	
Region 2 – Southeast Asia (12 countries, 19 major ports)	
Brunei • Muara	Philippines • Manila • Puerto Princesa • Subic Bay
Cambodia • Sihanoukville	Malaysia • Kemaman • Kota Kinabalu • Penang • Sepangar
China • Hong Kong	Singapore • Changi • Sembawang
Indonesia • Bitung • Jakarta • Surabaya	Taiwan
Laos (OOTW)	Thailand • Laem Chabang • Phuket

	• Sattahip
Palau	Vietnam • Da Nang
Region 3 – Australia and the Pacific Islands (17 countries, 8 major ports)	
Antarctica	New Caledonia • Noumea
Australia • Brisbane • Darwin • Fremantle • Sydney	New Zealand
East Timor • Dili	Papua New Guinea
Fiji	Solomon Islands • Honiara
French Polynesia	Tonga • Nuku Alofa
Kiribati	Tuvalu
Marshall Islands	Vanuatu
Micronesia	Western Samoa
Nauru	
Region 4 – East Asia (4 countries, 12 major ports)	
Japan • Fukuoka • Kagoshima • Maizuru • Nagasaki • Osaka • Shimoda • Tokyo	South Korea • Chinhae • Pohang • Busan • Donghae
Mongolia (OOTW)	Russia • Vladivostok

Region Item and Price Structure

Major ports are indicated by name of port (e.g., Goa, Vladivostok, Sydney, etc.). A fully priced proposal must be received for ALL line items in a Region for it to be considered acceptable. For OOTW, a proposal only for Management Fees is required.

The contract is sub-divided into Lots. Targeted lots are identified in bold print below and by highlighted tabs in Attachment 2, Pricing Schedule. Lots may be for individual ports or they may include several ports under one Lot. For this contract, the following Lots apply:

Region 1 – Lots 01 – 15 (7 countries, 4 major ports)

Lot 01 – Bangladesh, All Ports, Husbanding Services and OOTW
Lot 02 – Burma (Myanmar), All Ports, Husbanding Services and OOTW
Lot 03 – India, Chennai, Husbanding Services and OOTW (*)
Lot 04 – India, Goa, Husbanding Services and OOTW (*)
Lot 05 – India, Mumbai, Husbanding Services and OOTW (*)
Lot 06 – India, All Other Ports, Husbanding Services and OOTW
Lot 07 – Maldives, Male, Husbanding Services and OOTW (*)
Lot 08 – Maldives, All Other Ports, Husbanding Services and OOTW
Lot 09 – Sri Lanka, All Ports, Husbanding Services and OOTW

Lot 10 – Nepal, OOTW
Lot 11 – Bhutan, OOTW
Lot 12 – 15, Reserved

Region 2 – Lots 16 – 51 (12 countries, 19 major ports)

Lot 16 – Brunei, Muara, Husbanding Services and OOTW (*)
Lot 17 – Brunei, All Other Ports, Husbanding Services and OOTW
Lot 18 – Cambodia, Sihanoukville, Husbanding Services and OOTW (*)
Lot 19 – Cambodia, All Other Ports, Husbanding Services and OOTW
Lot 20 – China, Hong Kong, Husbanding Services and OOTW (*)
Lot 21 – Indonesia, Bitung, Husbanding Services and OOTW (*)
Lot 22 – Indonesia, Jakarta, Husbanding Services and OOTW (*)
Lot 23 – Indonesia, Surabaya, Husbanding Services and OOTW (*)
Lot 24 – Indonesia, All Other Ports, Husbanding Services and OOTW

XX17	Provisions
XX18	Fuel
XX19	Other Port Services
XX20	Incidentals
XX21	Operation Other Than War (OOTW)
XX22	Cost Reporting

B. PRICING

Except for Port Tariffs, unit prices for all contract items described below shall be inclusive of all necessary equipment, licensed operators, all liability insurance as required by local law, holiday and overtime costs, customs clearances, and fuel and operating expenses.

1) Fixed Prices are required in the Pricing Schedule except where Port Tariff (PT) prices, To Be Determined (TBD) prices, or Not Separately Priced (NSP) have been identified. Services with an estimated quantity of 'No Estimate' are required to be priced in the Attachment 2 schedules and shall be treated as pre-priced items. Pricing for all services other than pre-priced items, PT items, and NSP items shall be arranged using the online pricing application procedures described in Attachment 8. Unless otherwise provided, these Fixed Prices shall also include performance at night, overtime, Saturdays, Sundays, and Holidays; and services performed under heavy rain, other inclement weather, or service to tankers and ships carrying explosives. These requirements do not include performance during cyclones or typhoons except where ships are required to depart in advance of cyclones or typhoons as part of a typhoon or cyclone evasion plan. They also include all operating expenses including tugs, barges, trucks, personnel, and customs clearances and any other charges unless specifically exempted by the Government.

2) Port Tariffs will apply to those services which are based on Port Tariff rates established and controlled by Port Authorities. English translated copies of the Port Tariffs must be submitted to the Supply Officer of the ship entering a specific Port and to the NAVSUP Fleet Logistics Center Yokosuka (FLCY) email address specified at the time of contract award.

3) Fees for Husbanding Services cover regular and overtime labor of contractor personnel supporting the ships plus indirect expenses, including all management, overhead and office expenses. The husbanding fees also include costs for arranging supplies and services described herein, costs associated with attendance at periodic meetings and pre-deployment briefings. The husbanding fees represent total compensation for the contractor except for supplies and services with Fixed Prices.

4) OOTW Fees will constitute an all inclusive fixed fee based on a daily fee (per contractor person providing support) for "husbanding" the OOTW effort/logistics support.

5) Purchase Card Surcharge. The U.S. Government reserves the right to make payment by purchase card. All purchase card surcharges will be identified as a separate entry on each invoice. The Government will reimburse administrative surcharges for the lesser of actual fees or 5% for non-priced items only. Applicable purchase card surcharges shall be included in the quoted prices for pre-priced items.

6) If items are made available free of charge or at less than the quoted price by the Government, host nation, or port authority, only mobilization/demobilization charges, not to exceed the quoted unit price, may be

charged. If, for any reason, an item that would otherwise be provided by the Host Nation, Government, or port authority is not available, that item shall be provided by the HSP at the unit price quoted in Attachment 2.

C. PRICING SPREADSHEETS

Pricing spreadsheets are provided by Region as an attachment to this solicitation. The Lots marked in bold print in paragraph A above will be used for price evaluation purposes.

Important Notes

1) Pricing for supplies and services for all countries will be expressed in U.S. dollars and shall be billed in the units of the respective LINE ITEMs.

2) Definitions for the "Unit" abbreviations are as follows:

CM = Cubic Meter
DY = Day (refers to a 24-hour period beginning at start of service unless stated otherwise)
EA = Each
GL = Gallon
HR = Hour
JB = Job
LOT (LT) = A lot (LT) is a deliverable item or group of items with a separate and distinct unit price.
MT = Metric Ton
NSP = Not Separately Priced
PK = Package
PT = Port Tariff
TBD = To Be Determined

3) The Line Item Numbers consist of four numeric digits. XX replacement of any numeric digits make the descriptor generic and applicable to all LINE ITEMs in that series.

4) For pricing sheets identifying "All Other Ports" (AOP) or "All Ports" (AP), prices will be required, if not identified otherwise. Each price shall be a single, per-unit price for the specified supply or service that will apply to any of the ports included in the lot.

5) Historical port visit data for FY07, FY08, and FY09 (partial) has been provided as Attachment (3).

D. Definitions

Barge = Flat-bottomed displacement ships used for carrying or storing cargo, for separation between vessels and other structures, or as a work platform. Barges may or may not be self-propelled.

DESCRIPTION OF CONTRACTUAL SCOPE

This contract is for the provision of maritime husbanding support. It is not for husbanding agency. The holder of this contract is a U.S. Navy contractor. The holder of this contract is not an agent of the U.S. Navy and does not have the authority to bind the U.S. Navy.

Maritime Husbanding Support is defined as: Providing supplies and services as defined in the Performance Work Statement of the contract in support of Naval forces within a port area.

i. This support is provided by a Husbanding Services provider from a standard list of services under contract.
ii. For "Exceptions" items not supported by existing supply chains: e.g. fuel, subsistence, etc.
iii. Includes "Non-Priced" incidentals that cannot be identified in advance, but are in the scope of the contract.

1. The contract is for performance of Maritime Husbanding Support services at any berthing or anchoring location specified in the Attachment 2 schedules. Ordering officers of the United States Coast Guard (USCG) ships, United States Navy (USN) ships, Military Sealift Command (MSC) ships, U.S. Army vessels/ships operating in the Western Pacific and Indian Ocean are authorized to use this contract. The contract may also be used to support other U.S. Government organizations (e.g., National Oceanic and Atmospheric Administration (NOAA) that may require maritime husbanding support services.

For purposes of this paragraph, a U.S. Navy ship is any naval vessel, craft, ship, or service craft included within the scope of subparagraphs 2 and 4 of Article 0406, United States Navy Regulations, 1990. Ship size classifications that are used in the price schedules are listed as an attachment.

2. Husbanding services requirements that may be received by FLC Yokosuka from the other activities identified in paragraph 1 above are within the scope of this contract.

3. This is a Firm-Fixed-Price Indefinite-Delivery, Indefinite-Quantity (IDIQ) type contract for husbanding logistics services, services in support of Operations Other Than War (OOTW), and maritime husbanding support to Government teams visiting ports in connection with a ship visit. These service requirements are and defined in the Performance Work Statements (PWS). The "minimum" and "maximum" to be established per FAR Clause 52.216-22 are as follows:

Region	Minimum Quantity ($)	Maximum Quantity ($ Base and all option years)
Region 1, South Asia	$100,000	Sum of CLINs 0002, 1001, 2001, 3001, and 4001
Region 2, Southeast Asia	$100,000	Sum of CLINs 0003, 1002, 2002, 3002, and 4002
Region 3, Australia/Pacific Islands	$100,000	Sum of CLINs 0004, 1003, 2003, 3003, and 4003
Region 4, East Asia	$100,000	Sum of CLINs 0005, 1004, 2004, 3004, and 4004

The minimum contract dollar quantities per contract are for each contract as a whole and there are not separate additional contract dollar quantities for the option periods and/or individual LINE ITEMs.

4. The HS Contractor agrees to furnish the services or supplies at the fixed price listed in the schedules.

5. This contract is for a period of twelve (12) months, effective 30 days after award of the contract, with four (4) one-year options. The contract also includes the clause entitled FAR 52.217-9 Option to extend the Term of the Contract. If all options are exercised under FAR 52.217-9, the duration of this contract is 66 months.

6. The contract will not start for the following countries until the option expires under existing contracts:

Contract becomes effective on 1 Jun 2012 for South Korea.

7. In the event of contingencies in the open ocean such as submarine rescue, the Contracting Officer may issue an order to the contractor that is awarded the husbanding logistics contract in the nearest country in which there is capability to satisfy the requirement.

8. The contract will include the clause entitled FAR 52.237-7023 (Class deviation 2009-00010) Continuation of Essential Contractor Services. Contractors providing services designated as essential contractor services by a DoD component are expected to use their best efforts to continue providing such services, in accordance with the terms and conditions of their contracts even during periods of crisis.

9. For lots identified as "All other Ports" or "All Ports", the geographic scope of the lot, for Purposes of Lot Line Item XX21, OOTW is the entire country listed in the lot. The geographic scope of the lot, for all Lot Line Items other than XX21, is the port locations listed in each lot of the Attachment 2 schedules.

10. Incidentals within the scope of this contract may be classified within one of the following categories:
- Charter and Hire
- Utilities
- Anti-terrorism Force Protection
- Communications
- Transportation
- Lodging
- Port Handling Services
- Other Port Services (Reception Supplies and Services)
- Administrative Supplies

Performance Work Statement (PWS) for Husbanding Services

A. GENERAL OVERVIEW

1. OBJECTIVE

The primary objective of this contract is to obtain Maritime Husbanding Support for U.S. Navy ships and other Government teams supporting ship visits at the locations specified in the Attachment 2 schedules. In addition, the contract may be used to support Operations Other Than War (OOTW) in a respective Region.

2. SCOPE

a. The general scope of this contract and its general conditions are described above. This section provides the detailed Performance Work Statement (PWS) descriptions for applicable Line Items.

b. General Requirements

i. The HS Contractor shall provide timely delivery of quality goods and services at fair and reasonable prices to ships making port visits;

ii. The HS Contractor shall provide timely delivery of supplies and services conforming to this PWS.

iii. The HS Contractor shall assure that supplies and services arranged on behalf of the ship's Supply Officer (SUPPO) or authorized ordering officer conform to the general requirements of the contract and shall assist the SUPPO or authorized ordering officer with resolving any problems in meeting the requirements.

iv. The HS Contractor shall identify representatives to act as the principal points of contact between the HS Contractor and NAVSUP Fleet Logistics Center Yokosuka representatives concerning price and performance issues throughout the Region. These individuals shall facilitate communications among ships, Defense Attaché Offices (DAO), Port Services Officers and FLCY.

v. The HS Contractor shall obtain any necessary insurance, licenses and permits, and comply with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the U.S. Government.

vi. The HS Contractor shall ensure that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

vii. The HS Contractor shall ensure that subcontractors comply with these requirements.

3. PRICING

a. Except for Port Tariffs, To Be Determined (TBD), and Not Separately Priced (NSP) items, unit prices for all contract items described below shall be inclusive of all other costs including, but not limited to, all necessary equipment, licensed operators, liability insurance as required by local law, holiday and overtime costs, customs clearances, fuel and operating expenses. In those cases where prices are by Ship Class, Attachment # 1 applies. All contract prices are in U.S. Dollars (US$). All taxes and surcharges are included in the unit cost.

b. Fixed prices are required in the pricing schedule except for Port Tariffs, TBD items, or Not Separately Priced (NSP) items. Unless otherwise provided, these prices shall also include performance at night, in overtime, Saturdays, Sundays, and Holidays; and services performed under heavy rain, or service to tankers and ships carrying explosives. They also include all operating expenses including, but not limited to, tugs, barges, trucks, personnel, and customs clearances.

c. The pricing for all services requiring the use of transportation type conveyances (i.e., trucks, barges for LINE ITEMs for trash removal, CHT removal, potable water, landing barges, oily waste removal, etc) shall include the use of the equipment as required to complete the service in the statement of work without any additional charges for detention or demurrage.

d. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate LINE ITEM in the Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

e. All pre-positioning or pre-staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

f. Repositioning is defined as: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions. Where a ship is at anchorage and the Ordering Activity requests repositioning of equipment, the HS Contractor shall be entitled to additional fees for repositioning to be determined by use of:

   a. Priced sub lot line items, or

   b. Prior agreement of the Ordering Officer in cases where the total repositioning costs do not exceed $25,000

   c. Prior agreement of the FLCY Contracting Officer in cases where the total repositioning costs exceed $25,000.

   In the case of (c) above, the repositioning cost shall be reported and confirmed using the online pricing application procedures described in Attachment 8.

g. When the HS Contractor obtains a supply or service from a port or local government-type organization and the price of that item is set by a published price list (e.g. port tariff), then the HS Contractor shall be reimbursed for the published price of the item. The HS Contractor shall not be paid an amount in addition to the published price of the item. A copy of the published price list (e.g. port tariff) shall be provided to the Supply Officer at the time of initial boarding and to the FLCY email address specified at the time of contract award for each region with the pre-arrival cost estimate.

h. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and/or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged. For the purposes of this contract, one (1) day is equal to 24 hours and begins with the performance of service. For example, service from 1800 until 1800 the next calendar day is equal to one (1) day of service. In cases where the billing unit is ‘day’ and a full day of service is not used by the Ordering Activity, the HS Contractor shall be entitled to bill for one day of service. For example, if a sub lot line item with a billing unit of day were ordered and used for 30 hours, the HS Contractor would be entitled to bill for two days of service. In cases where the ship does not arrive at the time specified in the ordering LOGREQ and services are made available based upon the time requested in the ordering LOGREQ, billing for services may commence at the time requested by the Government unless notice of cancellation is provided by the Ordering Activity or the organization authorized to pass this information on behalf of the Ordering Activity.

i. Demurrage charges shall only be charged if the HS Contractor’s service is unduly delayed due to the fault of the U.S. Government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but, due to the fault of the government, was not attended to until 1500 hrs when pumping begins. The HS Contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs).

j. Port Tariffs will apply to those services that are based on the Port Tariff rates established and controlled by the Port Authorities. The abbreviation "PT" in the pricing schedule identifies the port tariff items that the HS Contractor is not required to price.

k. Fees for husbanding services cover regular and overtime labor of HS Contractor personnel supporting the ships plus all indirect expenses, including all management, overhead and office expenses. The husbanding fees also include costs for arranging supplies and services described herein, costs associated with attendance at periodic meetings with the exception of travel expenses described in this paragraph. The husbanding fees represent total compensation for the HS Contractor except for supplies and services with fixed prices or incidentals. Travel expenses incurred by the HS Contractor in support of a LRT or advance ship detachment will be reimbursed based upon actual receipts and in accordance with the JTR guidelines. Travel expenses will be reimbursed upon presentation of documentation to the ordering activity. Any air transportation will be reimbursed at the economy class fare.

l. OOTW will constitute a fixed fee based on a daily rate (per HS Contractor person providing support) for "husbanding" the OOTW effort/logistical support.

m. The U.S. Government reserves the right to make payment by purchase card.

n. The services at anchorage shall be provided at all anchorage points assigned by the local port authority.

o. As part of the husbanding service provider's proposal, a purchasing process and system for pricing items along with an Online Pricing Application(see Attachment 8 for the PWS for the Online Pricing Application requirements) was proposed and accepted by the Government which included sufficient safeguards so that the Contracting Officer or Authorized Government Representative may determine the prices as fair and reasonable. Pricing of supplies and services for items not pre-priced within a lot line item (e.g., incidentals, OOTW supplies or services, fuel, and provisions) shall be in accordance with the husbanding service contractor's proposed purchasing/pricing process (implemented by the online pricing application) that was accepted by the Government upon contract award.

p. The HS Contractor will be fully compensated for all services including pre-priced, port tariff, TBD, fuel, provisions, and incidentals. Port tariff items will be reimbursed at actual cost. Provisions (XX17) and fuel (XX18) shall also be invoiced and reimbursed at actual cost. Any HS Contractor fee for acquiring and arranging for these items shall be included in the corresponding Line Items XX17AA (for provisions) and XX18AA (for fuel).

q. Several Lot Line Item services are based on volume (e.g. trash removal, CHT, potable water, and oily waste removal). Volume-based services shall be priced at the same unit price specified in the Attachment 2 schedules, regardless of the class of vessel requiring the services. For example, a class V vessel requiring 1000 CM of CHT removal would be charged the same unit price as a class II vessel requiring 100 CM of CHT removal.

4. QUALITY

a. The HS Contractor shall provide the timely delivery of goods and services at fair and reasonable prices to ships making port visits, provide continuous oversight of costs and performance throughout the area covered by this contract, and make meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. The HS Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning price performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Operations Officers, and FLCY. The contract will not specify how the HS Contractor is to perform, but measurable performance standards are established in the Quality Assurance Surveillance Plan (QASP) to monitor contract performance during each ship's visit.

b. The quality of all services or supplies provided shall conform at least to commercial standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

c. The performance standards are explained in the Quality Assurance Surveillance Plan (QASP), Attachment 10. The performance standards are:

i. Timely submission of pre-arrival cost estimates (described para.5 (a) below) NLT 48 hours after receipt of the ordering logisitics requirement (LOGREQ) message. In the event that the LOGREQ is received after 48 hours prior to the ship's arrival, the pre-arrival cost estimate shall be provided as soon as practicable, but in no case later than 48 hours after receipt of the ordering LOGREQ;

ii. Timely submission of Logistics Support Services Repository (LogSSR) cost report within seven (7) calendar days from the completion of the ship's visit;

iii. Accuracy of the actual (final) LogSSR report and pre-arrival cost estimate;

iv. Ship's satisfaction with the contractor's services during the port visit as identified in the ship's port visit cost report; and

v. Adherence to the pricing process proposed and accepted by the Government for non-priced items and timely submission of all information and documentation within the Online Pricing Application.

vi. HS Contractor Suggestions for cost savings and/or cost avoidance.

d. The percentile goals are fixed for each factor within the QASP. The failure of the HS Contractor to meet the percentile goal for any factor will be investigated and evaluated by the Contracting Officer. The HS Contractor will be given the opportunity to refute an adverse assessment prior to finalizing the metric for a quarter.

5. LOGISTICS RESPONSE TEAM

In the event that a Logistics Response Team for a ship arrives in port prior to the ship's arrival, the HS Contractor will assist the logistics response team by providing logistical support and coordinating all requirements.

When the HS Contractor provides support for a Logistics Response Team so that it can perform its mission, the HS Contractor is entitled to bill at the "Subsequent Days" daily rate for husbanding services for each day of support provided "in person" to the logistics response team.

a. Pre-arrival Cost Estimate - The HS Contractor shall furnish to each ship and FLCY email address specified at the time of contract award, a pre-arrival cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the Attachment 2 spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-priced items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff." This estimate shall be provided to the ship and FLCY Yokosuka email address specified at the time of contract award for each region within 48 hours after receipt of the LOGREQ. This report shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs. The LOGREQ, when submitted by, under authority of, or on behalf of an Ordering Activity, is an order under this contract for pre-priced items. Non-priced items ordered on the LOGREQ become orders only after prices have been determined fair and reasonable and are agreed upon by the Ordering Officer or by a FLCY Contracting Officer. For non-priced items with an extended cost less than $25,000, either the Ordering Officer or the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended cost greater than $25,000, only the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. Required approvals and determinations of fair and reasonable pricing by the FLCY Contracting Officer (>$25,000 extended price)

will be made by confirming the prices and documentation posted to the online pricing application. Approvals and fair and reasonable determinations that may be made by either the Ordering Officer or FLCY Contracting Officer (<$25,000 extended price) may be confirmed orally, in writing, or by email by the Ordering Officer or FLCY Contracting Officer. Regardless of the approval method, reporting and documentation of all non-priced items other than port tariff items ordered under this contract must be made using the online pricing application. Orders placed by a LOGREQ may be cancelled in whole or in part as described in the Cancellation of Orders paragraph of this contract.

b. The LOGREQ cost estimate does not replace the HS Contractor's requirement to respond (i.e., info addressees on responses to the Ordering Officer) to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U.S. Defense Attaché's Office.

c. The HS Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

d. The HS Contractor shall coordinate with other U.S. Government Contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

e. The HS Contractor shall assist the ship's Logistics Response Team to include planning and coordination meetings.

f. Travel expenses incurred by the HS Contractor in support of a LRT or advance ship detachment will be reimbursed based upon actual receipts and in accordance with the JTR guidelines. Travel expenses will be reimbursed upon presentation of documentation to the ordering activity. Any air transportation will be reimbursed at the economy class fare.

6. SHIPS'S (LOGREQ) LOGISTIC REQUIREMENTS

U.S. Navy ships and/or FLCY Logistic Support Representative (LSR) or other activity authorized to pass LOGREQ requirements on behalf of Ordering Officers will provide, via e-mail, a copy of the unclassified "logistics requirements" (LOGREQ) message directly to the husbanding HS Contractor as described under "ISSUANCE OF ORDER" in Contract Terms and Conditions – Commercial Items (FAR 52.212-4 Addendum). This LOGREQ will contain the majority of supplies and services required by the ship, and will represent the order, for pre-priced items, upon which the HS Contractor shall begin performance.

a. A ship, an activity authorized to pass a LOGREQ on behalf of the ship (i.e. Port Service Office or DAO), or an authorized ordering activity may notify the HS Contractor of a forthcoming visit requiring husbanding services. Upon notification of a visit, the HS Contractor shall make such preliminary arrangements as necessary with port authorities, other U.S. Government Contractors, and other commercial firms to provide supplies and services requested by the ship. The HS Contractor shall confirm receipt of the ordering LOGREQ (to the activity who provides the LOGREQ to the HS Contractor) within 24 hours. Confirmation of receipt may be made by email to the activity passing the LOGREQ to the HS Contractor.

b. Ships will not provide force protection requirements in unclassified LOGREQ messages. The force protection requirements are specified in a classified LOGREQ issued by the ship to U.S. Government activities. The activity to which this message is addressed will contact the Contractor and pass the ship's force protection requirements for action. The HS Contractor shall confirm with the ship that these force protection requirements received have been actually ordered by the ship prior to beginning performance. The ship's Supply Officer (SUPPO) or Commanding Officer may also request additional force protection requirements not covered by the classified LOGREQ by email, telephone, or personally upon ship's arrival. The HS Contractor shall coordinate with the SUPPO before providing any additional force protection. If any other activity or individual orders force protection services (i.e. NCIS, etc) not covered in the ship's classified LOGREQ, the HS Contractor is required to immediately inform the ship and receive confirmation prior to beginning performance of these services. Organizations such as NCIS and DAO are

not the actual Ordering Officer and have no contractual authority to place orders. Only the Ordering Officer or the FLCY Contracting Officer has the authority to confirm or change an order.

c. LOGREQ Pre-arrival Cost Estimate. The HS Contractor shall provide each ship or ordering activity an estimate in response to an LOGREQ message issued to the HS Contractor by any method identified under "OC-7 ISSUANCE OF ORDER" clause. The pre-arrival cost estimate shall be submitted in accordance with Attachment (8)-PWS Cost reporting. The LOGREQ message is not an order for non-priced items until priced by the contractor and confirmed by an authorized ordering officer. The requirements shall be provided to the HS Contractor by ships, activities and individuals identified in the contract. This estimate shall be sent within 48 hours after receipt of the LOGREQ message and will explain any anticipated "additional" costs and include cost savings or avoidance recommendations. In a situation where the HS Contractor receives a LOGREQ message with less than 48 hours prior to the arrival of the ship, the HS Contractor shall make every effort possible to provide the required documentation and price estimate prior to the ship's arrival, but in no event later than 48 hours after receipt of the LOGREQ message.

7. INITIAL BOARDING

a. The HS Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival. Upon initial boarding the HS Contractor shall provide all emergency telephone numbers, i.e. police, hospitals, firefighters, etc. In addition, the HS Contractor is required to provide the emergency telephone numbers for shipboard generated industrial waste (SGIW) disposal and hazardous material (HAZMAT) and oil spill response and reporting procedures to all ships upon initial boarding or in a LOGREQ reply. The HS Contractor shall visit the ship at least once per day and shall be available on call at all times (24 hours per day, seven days per week) to assist the ship with requirements and to resolve problems.

b. The HS Contractor shall brief the designated ship representative about Contractor-provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. The HS Contractor shall provide its POC information with 24-hour contact phone numbers.

c. The HS Contractor shall provide the SUPPO with copies of applicable port tariffs and current prices for frequently ordered services, and with any other information provided by FLCY for distribution. Copies of applicable port tariffs and current prices for services shall be in English. The HS Contractor shall be prepared to take additional ships' orders for supplies or services not placed in the ordering LOGREQ. All orders placed after the ship's arrival shall be reported and prices confirmed (if non-priced items) using the LogSSR reporting requirements and online pricing application procedures described in Attachment 8.

8. POINT OF CONTACT

a. Based upon the ship's orders, the HS Contractor shall ensure the timely filling of all ship's requirements. The HS Contractor shall designate at least one senior company official to be the Point of Contact (POC) under this contract for logistic and contractual support. The POC shall be fully fluent in English. The HS Contractor is required to designate the POC at the time of contract award.

b. All HS Contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port. All correspondence shall be in English. All electronic communication between visiting vessels and the HS Contractor shall be copied to the FLCY Contracting Officer and Logistic Support Representative emails specified at the time of contract award. The HS Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer from the HS Contractor.

9. ORDERING SUPPLIES AND SERVICES & PROVIDING GENERAL ASSISTANCE

The ship(s) will submit LOGREQs that include requests for a variety of services and supplies. The first obligation of the HS Contractor is to verify if any of the requested services and supplies can be provided free of charge by the host nation.

DELETED.

If services and supplies are not available free of charge from the host nation, they must be provided if within the scope of this contract. The Contracting Officer will be notified if there is a question regarding the scope of the contract. If these services and supplies are not priced in the contract, or if these services and supplies are available under other U.S. Government contracts, the following applies:

a. Passing Requirements to other U.S. Government Contractors: The HS Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts (e.g., Prime Vendor or Defense Energy Supply Center (DESC)) for various supplies and services required. This husbanding service includes all necessary actions to facilitate the acceptance of supplies or services rendered under U.S. Government contracts. Any disputes or discrepancies arising from the order will be resolved directly between the SUPPO and the other Contractor(s). The HS Contractor shall also facilitate any necessary force protection vetting requirements so that other U.S. Government contractors can perform their contractual requirements.

b. The U.S. Government will not pay the HS Contractor for any personal requests from individual crewmembers, whether military or civilian.

c. The HS Contractor shall install all ordered equipment upon the ship's arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

d. Money Exchange Services: The HS Contractor shall arrange for authorized moneychangers to exchange U.S. dollars for ship personnel into local currency. Money Exchange services shall be made available onboard ship to crewmembers at least two hours daily with buy-back service on the day before the ship's departure. The moneychangers may include a commission of not more than plus or minus 1.5% difference from the Official Exchange Rate. A locally-available and verifiable currency exchange rate may be used as the Official Exchange Rate. Verification of the exchange rate shall be provided to the Ordering Activity at the time of service. The HS Contractor shall maintain adequate records justifying its basis for determining the Official Exchange Rate and shall make those records available to the U.S. Government upon request. This Official Exchange Rate will be used for financial conversions not covered by payments in U.S. dollars.

e. Laundry Services: The HS Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Laundry and dry cleaning services that are required by the ship from the laundry and dry cleaning vendor will be ordered from the vendor by the ship. Payment for services will be made by the ship to the vendor rather than through the HS Contractor. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure. The HS Contractor shall assist in resolving vendor billing discrepancies.

f. Interpreter Services: The HS Contractor shall provide interpreter services to assist the Supply Officer to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract. This limited set of interpreter services is required under the Management Services LINE ITEM and is separate from the interpreter services required under LINE ITEM XX18.

g. Mail Delivery Services: The HS Contractor shall provide daily mail pick-up and delivery service for the ship. Should husbanding agent receive mail after ships depart they should contact the Fleet Mail Center in Yokohama at 81-45-872-6742/6532.

h. Morale Welfare and Recreation (MWR) Services: The HS Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) Contractor servicing the ship. If an ITT contract has been awarded which covers the location of the ship's visit then the HS Contractor must refer all MWR requests to the authorized ITT Contractor. If there is an ITT contract, the ITT Contractor is the U.S. Navy's sole representative for this service. Under no circumstances will the HS Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship. In the absence of an MWR contract, the HS Contractor shall provide advance information on all recreational/liberty activities available in local area. Information (with associated costs) shall include, but is not limited to, sightseeing tours, entertainment, sporting events, transportation, lodging and visitor tips. The HS Contractor shall coordinate all recreational/liberty requirements communicated by the ship. The HS Contractor shall disseminate information on the full scope of recreational/liberty opportunities, sightseeing tours, entertainment, sporting events, local area transportation and lodging. The HS Contractor shall plan, coordinate and assist as necessary, in port requests for entertainment, athletic competitions, sightseeing tours and unit parties/picnics.

i. Immigration, Customs and Visa: The HS Contractor shall assist ship personnel with immigration, customs and visa requirements into the country of the port visit.

j. Medical Emergencies: If requested, the HS Contractor may be required to make arrangements for emergency medical treatment of ship's crewmembers while the ship is in port. In cases where a member is airlifted into a port by the ship, the HS Contractor, in coordination with the U.S. Consulate/Embassy, will arrange for proper medical care until the member can be returned to the ship, or evacuated to the United States. If there are costs associated with arranging these services, the HS Contractor shall obtain approval from the SUPPO/Contracting Officer prior to providing the support.

k. The HS Contractor shall facilitate the ship's timely departure. The HS Contractor shall provide timely invoices of provided services and supplies to the Supply Officer at the time of the pre-sailing visit. The HS Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided. The HS Contractor shall remove all provided equipment.

l. Pre-Sailing Visit: The HS Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the HS Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. Written receipt for acceptance of all services shall be obtained during this visit. The Ordering Activity shall provide a check or DD1155 for all finalized invoices prior to departure where the content of the invoice is not disputed. The HS Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The HS Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The HS Contractor's point of contact for this information shall be the Commanding Officer, Command Duty Officer, Operations Officer, or the Officer of the Deck.

10. UNIQUE / PARTICULAR SITUATIONS

a. Assisting two ships: If a ship, not in port, requests assistance from the HS Contractor, the ship will pay the husbanding services subsequent days' fee. However, if at the same time, using the same helo or other transport, the HS Contractor provides service to two ships (e.g. delivery of fresh fruits and vegetables (FFV) at one time for two ships using the same helo), the HS Contractor is entitled to bill for only one subsequent day.

b. Under Class I size vessels (based on the number of personnel): If two small vessels, under the size of Class I, IA or IB come into the port together, submit consolidated requirements, and have approximately the same

schedule, the HS Contractor will only charge for one Class I, IA, or IB vessel vice two. However, if only one such vessel comes into port, the HS Contractor will charge full Class I rates.

c. Frequent ship visits between ports: If a ship is frequently visiting two or more ports, it will be charged the first day rate for the first day in each port. If the ship returns to one of the ports within 3 days (i.e. prior to the fourth calendar day), subsequent visits to that port will be charged at the subsequent day rate. On the fourth day or subsequent day, the ship will be charged the first day rate (example: If the ship departs Friday and comes back on Saturday, Sunday or Monday, it will be charged subsequent day fees. If the ship comes back Tuesday, it will be charged the first day rate).

d. If a ship comes into port and does not notify the HS Contractor or request any assistance, there will be no fees (e.g. if just dropping off passengers). If vessels request assistance of any kind, they will be charged first or subsequent days, subject to the conditions in paragraphs (b) and (c) above.

e. Ship Repair: If ship repair is required and performed in one of the ports covered by this contract, husbanding services will be provided only if requested by the ship. U.S. Navy Ships in shipyards at locations covered by this contract may order supplies and services from this contract without the requirement to also order Management Services.

f. The HS Contractor is required to be able to simultaneously husband thirty (30) ships throughout the Region, including up to two (2) Class V and two (2) Class IV ships in a single port simultaneously.

g. Order of Priority of Usage: The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities if the port requires use of port-provided supplies and services or, if the port-provided supplies and services are less expensive than similar services provided by the HS Contractor or its subcontractors, or finally provide it themselves to include subcontractors. Where the reasonable cost of mobilization/demobilization for U.S. Government owned equipment exceeds the quoted price of the sub lot line item it is intended to replace, the HS Contractor shall use the least cost alternative to meet the requirement. Information on availability of host nation provided services, where available, is annotated on the Attachment 2 pricing schedules. If, for any reason, an item that would otherwise be provided by the Government, host nation, or port authority is not available, that item shall be provided by the HS Contractor at the price quoted in the Attachment 2 pricing schedules.

h. MARK V High-Speed Interceptor Craft (HSIC): MARK V (HSIC) Special Operations Craft may be in port or in the vicinity for up to 90 days conducting operations. The HS Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and only one Management fee shall be charged when husbanding two MARK V vessels at the same time.

i. For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The HS Contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit.

j. Hazardous Material Disposal (HAZMAT)/Shipboard Generated Industrial Waste (SGIW): The HS Contractor shall not dispose/offload any hazardous waste requirements unless approval has been provided by the appropriate Navy Environmental office. Currently the only authorized locations approved to offload HAZMAT are Apra Harbor, Guam; Yokosuka, Japan; Sasebo, Japan; Hong Kong SAR and Singapore.

k. Other Personnel - Other U.S. personnel conducting business at locations covered by this contract may order off the contract without incurring Management Service Fees. Support of ‘Other Personnel’ is limited to Logistics Response Teams and ship detachments (e.g. ship’s beach detachment, site survey team, advance force protection teams) in direct support of a ship visit. These orders do not involve continuous

management of husbanding services and may be for items such as vehicles, phones or other services. For example these services may be ordered from the HS Contractor when hotels, transportation and rental of cellular phones are required for the personnel described above.

l. Short Notice Orders: The contractor shall perform all orders that are issued within the minimum order lead time annotated for each lot in the Attachment 2 schedules. If orders are issued with less than the required minimum order lead time prior to the start of performance, the contractor shall use its best efforts to provide the required supplies and services in accordance with the order's delivery schedule but shall promptly inform the government if it will not be able to meet the delivery schedule.

m. The minimum order lead time applies to all Lot Line Items with the exception of XX40, Operations Other than War, which remain subject to the requirements stated in Attachment 9. The HS Contractor shall provide all requested services, to include mobilization of required equipment, when the Ordering LOGREQ is received from the Ordering Officer or their representative with a lead time greater than the number of days specified in the Attachment 2 schedules for the Lot location where performance is to take place.

11. LINE ITEM DESCRIPTIONS

a. LINE ITEM XX01 - HUSBANDING SERVICES (ANCHORAGE AND PIERSIDE)

The HS Contractor shall provide husbanding services to ships visiting the ports in the Region covered by this contract. Line Items XX01 require that the HS Contractor perform all services and provide all supplies necessary to fully comply with the tasks and responsibilities described at paragraphs 1-10 above unless a task or responsibility is specifically included in a separately-priced Line Item below. The HS Contractor's responsibilities under these Line Items start prior to the arrival of the ship and continue after the ship's departure.

The price for Line Items XX01 covers all regular and overtime labor of HS Contractor's personnel supporting the ships plus indirect expenses, including all management, overhead, office expenses, and profit for performing tasks required by these Line Items.

The husbanding fee is based on the Class of the ship and broken down by the First Day and Subsequent Day of the ship visit. A husbanding fee may be provided to the HS Contractor for services rendered prior to the ship's visit, i.e. assistance to the ship's logistics response team.

b. LINE ITEM XX02 - TRASH REMOVAL

1. Trash removal service is the collection and disposal of refuse (i.e., trash) including liquid, semi-liquid, or solid garbage. Refuse does not include explosives and incendiary waste, or waste contaminated by medical and radiological processes.

2. The HS Contractor shall remove and dispose of "refuse" from the ship and areas surrounding trash bins, as well as any spilled refuse. The HS Contractor shall provide dedicated refuse bins to the ship. The HS Contractor shall collect all loose refuse placed adjacent to refuse bins. The HS Contractor shall immediately clean up any spilled refuse. The HS Contractor shall properly dispose of all collected refuse.

3. For ships at pier side, the HS Contractor shall place containers or trucks within twenty-five (25) meters of the ship or as permitted by port regulation, or barges alongside the ship. The HS Contractor shall empty the containers or barges when full and shall assure their continuous availability for trash disposal.

4. For ships at anchorage, the HS Contractor shall remove trash at the times agreed to by the HS Contractor and Supply Officer. The frequency of removal shall be as follows:

SHIP CLASS	DAILY FREQUENCY
I, IA, IB	1
II	2
III	3
IV and V	Continuously Via Dedicated Barge when permitted

5. For trash collection at anchorage, the trash barge shall be available 24 hours a day (where not contrary to law or port regulation) with suitable self-fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

6. For trash collection by barge, the HS Contractor shall provide trash barges/scows (with tug service if barge is not self-propelled) for ships at anchorage. The barges shall be completely empty at time of arrival at the ship. In situations where an empty barge is not available, the contractor shall provide a system to measure the volume of trash deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of the trash. All trash barges/scows shall be properly fendered to prevent damages to U.S. Government vessels. The HS Contractor shall have ready access to sufficient barges and equipment to support at least two (2) ships at anchorage simultaneously. The barge's crew shall be entirely responsible for the tending of lines and for barge's security. The movement of trash from the ship to the barge shall be performed with care by the ship's sailors and in the manner ensuring the safety of the HS Contractor's crew and barges. Any instances of unsafe practices shall be brought to the attention of the ship's Commanding Officer, to ensure that corrective and preventive action is taken.

7. In instances of bad weather or emergency where the ship must depart on short notice, the HS Contractor shall remove barges within four hours of being directed to do so by the ship. Should a vessel with a trash barge alongside experience an emergency where the ship must depart, the SUPPO will advise the HS Contractor at least four (4) hours in advance for the barge pick-up at no additional cost to the U.S. Government.

8. The HS Contractor shall submit, as an attachment to the invoices, a document that certifies the quantity collected and the name of the disposal plant where the trash will be disposed. The HS Contractor is also responsible to follow any environmental regulations required by each country. The HS Contractor is required to keep all disposal certificates and shall make them available to FLCY upon request.

9. Whether at anchor or pierside, U.S. Government personnel will dump the trash on the barges or in the containers.

10. Any spillage of refuse in the course of the removal operations shall be cleaned up immediately by the HS Contractor. Refuse containers, when used and when emptied, shall be returned to their original position with the lids (if any) replaced thereon.

11. The HS Contractor shall be paid based on the ACTUAL CUBIC METERS of trash removed. The HS Contractor shall be entitled to bill for 60 CM under sub lot line items XX02AC where the actual volume of trash removal is less than 60 CM (per order).

12. Where trash is required to be segregated, the Ordering Activity shall be required to segregate the material at the time of disposal. The HSP shall be responsible for providing separate containers for each vessel, clearly marked with the required categories and for informing the Ordering Activity, upon arrival, that segregation is required. If the Ordering Activity does not segregate trash as required, the HSP shall inform the Ordering

Activity and Logistic Support Representative (LSR) prior to departure and bill for the cost of trash segregation under Line Item XX20, Incidentals within 48 hours after the vessel's departure.

c. LINE ITEM XX03 - FLEET LANDING

1. When ordered by the ship, the HS Contractor shall furnish services/supplies for the fleet landing area. The following is a list of the basic supplies and services that a ship may need. It doesn't cover all the services that may be ordered by a ship for fleet landing.

2. FLEET LANDING. HS Contractor shall provide the sub-line items specified in this Line Item and shall provide a unit price for each sub-line item. The unit price shall be per day for each item. Mobilization/demobilization charges shall be included in sub-line item price.

   The Fleet Landing LOT consists of the following:
   a. One (1), 40-feet refrigerator unit or two, 20-feet refrigerator units, with required power to operate the units.
   b. PORTABLE TOILET UNIT SERVICES. The unit price shall be for a single commode and one (1) urinal. The daily rate shall include pumping and cleaning as many times as necessary to ensure clean, sanitary condition and providing all chemicals, cleaning products and toilet paper. The HS Contractor shall check toilet facilities at least every six (6) hours to ensure cleanliness.
   c. PORTABLE ELECTRIC GENERATORS. The HS Contractor shall provide a portable, gasoline powered, electric generator capable of supplying power to portable lighting and miscellaneous portable electrical equipment (radios, stereos, hand tools, etc.). Generator shall be at least 5KW with circuit breaker protector. Daily rate includes fuel, oil, and necessary consumables to operate the generator, transportation, set-up, dismantling and labor.
   d. Chairs (each per day)
   e. Long tables - approximately 2 meters in length (each per day)

   Any other supplies, services or quantities of supplies and services other than those listed above shall be provided in accordance with the procedures set forth in LINE ITEM XX20.

d. LINE ITEM XX04 – BROW SERVICES

1. Most US Navy vessels carry brows. However, the use of their own brows is dependent upon the type of mooring obtained and other vessel considerations. The HS Contractor shall provide the brows specified in the schedule as ordered by the ship. A range of brow sizes is provided in each of the sub lot line items of lot line item XX04. All brows provided by port authorities, host nation, or US Government shall be billed at cost as port tariff items. Mobilization, demobilization, setup and placement shall be included in the proposed unit price of all XX04 sub lot line items. In cases where brows are provided by port authorities, host nation, or US Government free of charge, at reduced cost, or for mobilization/demobilization costs only; these costs will be reimbursed without additional fees or markup.

2. Due to the height difference between the submarine deck and pier, the HS Contractor provided submarine brow (must afford personnel a smooth and safe transit when entering or exiting the submarine deck. The submarine brow must be capable of supporting shore power cables without damaging the cable.

3. Brows shall be provided free of charge by Royal Navy Liaison Office (RNLO) in Sembawang port for ships berthed at piers 5, 6 , and 7.

4. The HS Contractor shall be entitled to bill for 4 hours of usage under this line item when actual usage is less than 4 hours (per order). Billing for brows shall be calculated up until the scheduled time of departure. Discrepancies, if any, between the number of hours billed at the pre-sailing visit and the actual number of hours used shall be invoiced and paid in accordance with the procedures in OC-1, Invoices and Payments, and the PWS paragraph 9.l. The order of priority of usage in paragraph 10.g. applies.

5. Mobile Crane Services

The HS Contractor shall provide mobile crane services (shore crane) with operator(s). The HS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The HS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each mobile crane ordered.

Crane services under this Line Item are for land cranes only. Floating cranes are to be provided and billed under Line Item XX20 procedures if required.

6. Forklift Services

The HS Contractor shall provide forklift services with operator(s). The HS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. Upon the Supply Officer's request, the HS Contractor shall provide information concerning forklift/lifting capacity. The forklifts provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The forklifts shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The HS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each forklift ordered.

e. LINE ITEM XX05 – SHIP MOVEMENT SERVICES

1. The HS Contractor shall arrange pilots, tugs, and line handlers as ordered. The HS Contractor shall coordinate with port authorities, as necessary, to ensure that the services are available at the times requested. It should be noted that the port authority or other authorized sources provide these services, and are, therefore, to be priced in accordance with current tariff rates.

2. The HS Contractor shall provide tugs to bring ships to and from berthing locations. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

3. Only if pilots, tugs, or line handlers are not available through the port authority, the HS Contractor shall use commercially available sources and priced in accordance with the unit quantities indentified in the pricing schedule (LINE ITEMs XX05AA, XX05AC, XX05AD and XX05AG).

f. LINE ITEM XX06 - WATER FERRY/TAXI SERVICES

1. The HS Contractor shall provide water taxis to transfer ship personnel to and from the ship and the fleet landing in accordance with Attachment 16 - Water Taxi Specifications. At the commencement of service, the HS Contractor is required to advise the ship of scheduled breaks and any changes to the taxi service schedule. The HS Contractor shall provide water taxi service when the vessel is expected to be at anchorage for twenty-four (24) hours or more. Water taxi service shall be always available, with the exception of inclement weather, during the two (2) one-hour meal breaks and during refueling. At the commencement of service, the HS Contractor is required to advise the ship of scheduled breaks and any changes to the taxi service schedule.

2. The hourly rate for taxi water service shall include a minimum of two (2) qualified operators (a driver and one other operator), any other helpers or crew members required by local authorities, all insurance, fuel, holiday surcharges, overtime, and other operating expenses. Operator qualifications are set forth in paragraph (16) below.

3. Service begins when the first water taxi is alongside the designated pick-up point and ends when the last passenger disembarks from the water taxi at the designated drop-off point as ordered by the ship. However, when required to arrive early for inspection as a force protection measure, service begins at time of inspection. The HS Contractor shall be entitled to a six (6) hour minimum rental fee in cases where actual usage is less than 6 hours (per order).

4. Deleted

5. If the HS Contractor cannot provide the size of water taxi ordered, the HS Contractor shall provide a larger size water taxi, or a combination of water taxis, that in total capacity equates to the size of the water taxi ordered. In any event the ship will be charged for the size of the water taxi ordered. For example, if one (1) 250-pax water taxi is ordered and is not available, then two (2) 125-pax water taxis shall be provided for the rate of one (1) 250-pax water taxi if acceptable to the Ordering Officer.

6. The HS Contractor shall ensure that the water taxi is in sound mechanical condition and meets all safety standards required by local laws and regulations to preclude breakdown and injury. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of the port or the country in which the port is located. Apart from compliance with local laws and regulations, the HS Contractor shall meet all additional requirements as set forth throughout the PWS. Water taxi shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, and fitted for service required. Further, water taxi shall be in a clean condition when presented for service and shall be free of debris. The water taxi shall be sufficiently clean so as not to soil passengers, their clothing, or possessions with dirt, grease, oil, or other matter. If the water taxi does not meet the requirements of this paragraph as determined by the Ordering Officer, the U.S. Government shall have the right to reject the water taxi for performance of services.

7. The HS Contractor shall ensure that all water taxis are fully licensed, registered, and insured, including adequate liability insurance, in accordance with local laws and regulations.

8. Each water taxi shall be equipped with at least one clean and serviceable life jacket for each passenger and crewmember, and all jackets shall be stowed in a readily accessible place.

9. Except as otherwise specified herein, the service shall include all equipment needed to transport personnel between the vessel anchored in the outer harbor, or in the inner harbor, fleet landing, or any designated pier or berth within the port. If it becomes necessary to change the landing point of the water taxi (pier or berth) within the port, the HS Contractor shall dock at the new landing point. In the event this occurs, it will be considered to be a "Change" to the contract. Any entitlement to and any amounts of additional or reduced charges shall be determined pursuant to the clause entitled "Changes" that is part of Contract Terms and Conditions – Commercial Items (FAR52.212-4)".

10. All water taxis used by the HS Contractor shall provide overhead covering.

11. Before the commencement of any services under this contract, the HS Contractor shall make the water taxi available to the Ordering Vessel's Commanding Officer or designated representative for inspection.

12. The following information shall be conspicuously posted in English and the language of the country in which the port is located:

    a. Current operator's/captain's license.
    b. Passenger/weight capacity limits notice.
    c. Location of life jackets and other life saving equipment.
    d. Location of all exits indicated in large letters.
    e. Emergency procedures.

13. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

14. 'Adverse weather' conditions are weather conditions in which operations of water taxis are unsafe for passengers and shall be determined by the Commanding Officer, Command Duty Officer, Operations Officer, Officer of the Deck, or local port authority. Operation of the water taxi shall be in a safe and seaworthy manner. Operation of water taxis is not allowed under adverse weather conditions.

15. The consumption of alcoholic beverages shall not be permitted aboard the water taxi.

16. Operator Qualifications: All personnel or employees of the HS Contractor operating water taxis, shall have all certification required and issued by the law of the country in which the port is located for the operation of the type, class, or size of water taxi being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the water taxis are to be operated to ensure the water taxis are operated in a safe and seaworthy manner. At least one operator on each boat must speak English. The HS Contractor is required to provide a minimum of two (2) qualified operators for each water taxi at all times.

17. Security: During the term of this contract, the ship(s) to be serviced will provide adequate and sufficient security personnel for maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the ship's Commanding Officer or designated representative. When such naval personnel are embarked in a HS Contractor-operated water taxi, he will be responsible for the good order and discipline of naval personnel.
18. In the event of a water taxi breakdown, immediately prior to, or during a trip, the HS Contractor shall immediately provide a replacement water taxi that complies in all respects with this contract, at no additional cost to the U.S. Government. If a water taxi is not operable when required under this contract, the HS Contractor shall immediately provide at no additional expense to the U.S. Government, a replacement water taxi which complies in all respects with this contract.

19. Any personal articles or items found on the water taxi after completion of each trip shall be turned over to the ship's Security Officer or his direct representative.

20. To verify a claim by the HS Contractor for any damage or destruction caused by the U.S. Government, it shall be the responsibility of the HS Contractor to ensure that the water taxi is jointly inspected before and after each trip by the HS Contractor and an authorized representative of the U.S. Government.

21. When providing water taxi service to aircraft carriers and amphibious helicopter carriers, the water taxi height depends on carrier deck overhang and pontoon width, i.e., the wider the pontoon the farther out the water taxi will be located with subsequent increased clearance. The requirement is that pontoon width/water taxi height/deck overhang dimensions must be such that the water taxi is able to make aft, port and starboard side approaches with adequate clearance between water taxi superstructure and carrier deck overhang.

22. Inspection and acceptance criteria for water taxi services. The Commanding Officer or his designated representative of the ARMY/USS/USNS/USCG ship shall inspect and accept all liberty boats/water taxis prior to transporting any personnel. Each order for liberty boat/water taxi services is made on the basis that the request is to be considered a final order/obligation of the US Government only after each water taxi has been inspected and accepted by the ship's representative. The ship's Commanding Officer is solely responsible for the safety of his crew and the subsequent acceptance of liberty boat/water taxi services. Upon ships, Commanding Officer's security personnel can inspect the water taxi's personnel. The following features or components may be inspected prior to acceptance.

    a. HULL
        i. Watertight integrity of weather decks, bulkheads, watertight closures and interior hull structure.
        ii. Superstructure (including masts and stacks).

iii. Railings, bulwarks and their attachment to hull, especially guardrails and lifelines.
iv. Provisions for drainage of seawater from exposed decks.

b. MACHINERY
i. Main propulsion and auxiliary machinery essential to operation of craft.
ii. Sea and bulkhead closure valves.
iii. Bilge suction strainers and dewatering systems bilge pumps to be tested by operation.
iv. Bilges free of flammable liquids.

c. ELECTRICAL
i. Cables.
ii. Navigation, deck and emergency lighting.
iii. Rotating electrical machinery, e.g., generators and motors.
iv. Storage batteries.

d. LIFESAVING EQUIPMENT
i. Life preservers sufficient number for maximum capacity of craft, accessible and in satisfactory condition.
ii. Life raft(s) and hydrostatic release (where applicable) sufficient for maximum capacity.
iii. First aid kits, life rings and distress lights.
iv. Distress signaling devices.

e. FIRE FIGHTING EQUIPMENT
i. Fire pump subject fire hose to fire pump pressure.
ii. Portable fire extinguishers.
iii. Fixed systems, e.g., CO2 cylinders

f. STEERING APPARATUS

g. MTSC SYSTEMS AND EQUIPMENT
i. Harbor charts.
ii. Ground tackle and mooring lines.
iii. Whistle/fog horn, bell.
iv. Compass.
v. Radar.
vi. 2 way radio capable of bridge to bridge communications.
vii. Current licenses.

23. In the event the U.S. Government rejects a water taxi, the U.S. Government shall not be liable for any costs the HS Contractor incurs in presenting said water taxi for inspection.

24. The HS Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times. Logs must be available upon request for U.S. Government review and inspection.

g. LINE ITEM XX07 – GENERAL CHARTER & HIRE ITEMS

YOKOHAMA OR COMPARABLE TYPE FENDERS

1. The HS Contractor shall furnish Yokohama or comparable type fenders for all classes of ships in accordance with the Schedule of Supplies and Services. Fender size is not specified as this is a performance based service. Fenders provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX07AC). The fenders quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee PER Yokohama or comparable type fender, and

there is another SUBLINE ITEM for all costs associated with installation, and removal of one fender, as well as round trip costs associated with transport of the fender from another port, if required.

2. Rental is on a daily(24-hour) basis, per fender. Installation, removal, and transportation are charged as a "lot" per fender. The HS Contractor shall be responsible for securing the fenders to the pier.

3. The HS Contractor shall provide fenders with a minimum of two (2) mooring lines.

4. Fenders shall be provided free of charge by Royal Navy Liaison Office (RNLO) in Sembawang port to ships berthed at piers 5,6, and 7.

5. Sub lot line item XX07AH is applicable only to submarine fenders. Sub lot line item XX07AB shall be used for all other class 1 vessels. Recognizing that mobilization/demobilization costs for submarine fenders (XX07AH) vary significantly from those of other type fenders, transportation charges for submarine fenders shall not be subject to the quoted transportation charges of XX07AG. Instead, all transportation, storage, setup, mobilization and demobilization charges associated with submarine fenders (XX07AH) shall be included in the quoted price of this sub lot line item.

INTERPRETER SERVICES

The HS Contractor shall provide interpreter services when ordered. The interpreter shall be fluent in both spoken and written local language and English.

OILY WASTE REMOVAL

1. Oily Waste is defined as any liquid petroleum product mixed with wastewater and/or oil in any amounts, which, if discharged overboard, would cause or show sheen on the water. The HS Contractor shall dispose of any combination of oily waste and grey water as oily waste.

2. Oily Waste is measured by Cubic Meter (1CM = 264.2 Gallons). The HS Contractor shall submit, as an attachment to the invoices for disposal services, a document verifying the quantity collected and the name of the disposal plant where the oily waste have been or will be disposed. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

3. The HS Contractor shall comply with the environmental requirements of each country where oily waste is disposed and shall be liable for any costs incurred as a result of the HS Contractor's failure to comply with such requirements. The HS Contractor shall keep all disposal certificates and shall make them available to FLCY upon request. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped. The HS Contractor will submit a request to FLCY for the difference, accompanied by disposal certificates. FLCY will investigate and resolve the issue, and will arrange for the ship to pay any amounts determined to be due.

4. Oily Waste Removal involves the collection of Oil and Aggregate Water generated by the ships. The requiring vessel will pump this waste into HS Contractor-provided tanks or barges. The HS Contractor shall provide all equipment and facilities required to remove oily waste, including hoses and connections compatible with the ship being serviced. The HS Contractor shall provide hoses of sufficient length from equipment to the ship with either 2.5" or 4" quick disconnect cam lock fittings.

5. In all cases when a ship orders oily waste disposal services, the HS Contractor shall invoice and will be paid the contract schedule's minimum daily quantity of 60 CM for providing the disposal services, even if the oily waste quantity pumped and disposed that day is less than the 60 CM minimum quantity. Payments over the minimum daily quantity of 60 CM shall be for the amount of oily waste cubic meters removed at the appropriate per CM rate in the schedule. The HS Contractor shall not invoice any charge (either the daily minimum or the additional per CM rate) for ships that do not order disposal services.

6. In the event the HS Contractor subcontracts oily waste disposal, the HS Contractor shall be liable for any costs incurred as a result of the disposal operator's failure to comply with local requirements.

7. The HS Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed. The Government reserves the right to independently verify the volume of discharge using certified flow measuring devices.

8. When removal is done via barge, the HS Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

PRATIQUE/AGRICULTUAL SERVICES

The HS Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

PORT DUES

1. In some countries, the port authority or concessionaire charges port dues to the visiting ship. The port dues may be based on the length or based on the gross tonnage of the ship. Only 'FINAL' invoices will be accepted for payment.

2. Attachment (19) of the solicitation lists some of the unclassified agreements. However, this is not a complete list of all the relevant countries.

3. Clause OC-10, titled Host Country Agreements, outlines the limitation of the U.S. Government to pay for certain port dues, fees, or use fees.

4. Sub lot line items XX07AS and XX07AT are intended to provide a suitable landing area for ship's boats or water taxis, when ordered. Items XX07AS and XX07AT are also intended to provide a suitable area, adjacent to the ship berth or water taxi point of debarkation, for placement and operation of the fleet landing lot items ordered under lot line item XX03. The fleet landing sub lot line items are detailed in the PWS paragraph c.2.

5. Sub lot line items XX07AQ, XX07AS, XX07AX, and XX07BA shall only be used when the port is not publicly owned/operated.

STEVEDORE SERVICES

The HS Contractor shall provide stevedores for general labor. Billing shall be at the hourly rate for worker.

BREASTING BARGES

1. The HS Contractor shall furnish camels in accordance with the Schedule of Supplies and Services. The camels shall be flat surface platforms to be placed alongside the pier and sufficiently capable of breasting the ship away from the pier or from other ships.

2. The HS Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions. If

sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

3. The HS Contractor shall place additional fenders between the breasting barge and the ship when requested.

4. Breasting barge size is not specified as this is a performance-based service. The HS Contractor is responsible, as part of its understanding of the requirement, for determining the appropriate barge size for each combination of vessel class and berthing configurations required at each lot. Barges provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX07BF). The barges quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee for the barge, and there is another SUBLINE ITEM for all costs associated with installation, and removal of the barge, as well as round trip costs associated with transport of the barge from another port, if required.

5. Rental is on a daily (24-hour) basis, per barge. Installation, removal, and transportation are charged as a "lot" per barge.

LANDING BARGES

1. The HS Contractor shall furnish landing barges (i.e. pontoons) in accordance with the Schedule of Supplies and Services. The landing barges shall be flat surface barges for positioning at the stern or side of the vessel to serve as a loading/unloading platform for water taxi personnel or cargo; they shall not interfere with the operations of the ships' elevators or other equipment. Although landing barges are primarily used for class IV and V vessels, they may be ordered for use with any class vessel.

2. Landing barge size is not specified as this is a performance-based service. The HS Contractor is responsible, as part of its understanding of the requirement, for determining the appropriate barge size for each combination of vessel class and berthing configurations required at each lot. Barges provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX07BN). The barges quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee for the barge, and there is another SUBLINE ITEM for all costs associated with installation, and removal of the barge, as well as round trip costs associated with transport of the barge from another port, if required.

3. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

4. Rental is on a daily (24-hour) basis, per barge. Installation, removal, and transportation are charged as a "lot" per barge.

h. LINE ITEM XX08 - COLLECTION, HOLDING, AND TRANSFER (CHT)

1. The HS Contractor is responsible for the entire cycle necessary to collect, remove, and dispose the Collection Holding Transfer (CHT) bacteriological/chemical liquids from ships throughout the area covered by this contract. The HS Contractor shall provide all necessary equipment, personnel and facilities to perform the services including pumps, hoses and connections compatible with the ships being serviced. The HS Contractor shall be responsible for the supervision of the collection, transportation and disposal services to avoid any

overflow of waste on the barge and at the pier. Services shall commence upon ship's arrival whether, at anchor or pierside. The HS Contractor shall pre-position CHT barges, when necessary, in accordance with force protection or other requirements.

2. The HS Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

3. The HS Contractor shall remove sewage from the ship in HS Contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

4. The HS Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT. The Government reserves the right to use its own metering device to verify measurement of sewage discharge. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

5. The HS Contractor shall provide CHT hoses of sufficient length from HS Contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6. The HS Contractor shall properly dispose of all sewage. CHT collection, removal and disposal shall be priced based on the following conditions:

    a. (XX08AA) – CHT BY TRUCK: The husbanding HS Contractor shall provide services when the visiting ship is at pierside.

    b. (XX08AB) – CHT BY BARGE: The husbanding HS Contractor shall provide services when the visiting ship is at anchorage or the port authority has issued a directive stating that service must be performed by barge or the barge has been ordered by the ship. The HS Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

7. The CHT service shall be a dedicated service. The term "dedicated service" means a service provided exclusively to the U.S. Government. In those limited number of cases where this is not possible, the contractor shall provide a system to measure the volume of sewage deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of CHT.

8. The HS Contractor will be guaranteed a minimum daily quantity of 60 cubic meters for providing these services even if the actual cubic meters of CHT removed is lower than 60 cubic meters. Note: 264.2 gallons = 1 CM (cubic meter).

9. The HS Contractor shall submit, as an attachment to the invoices, a document (certified by the ship's personnel) that indicates the quantity collected and the name of the disposal plant where the CHT will be disposed. The Government reserves the right to independently verify the actual volume of CHT discharged using a certified flow measuring device.

10. The HS Contractor shall request the ship's personnel to verify all removal figures at time of CHT collection. The HS Contractor shall follow any environmental regulations required by each country. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped or 60 cubic meters per day, whichever is greater. The HS Contractor shall submit a request to FLCY for the difference, accompanied by disposal certificates. FLCY will investigate and arrange for payment of any additional amounts that are determined to be due.

11. The ship's personnel shall verify all removal figures at time of CHT collection and the ship duty engineer shall certify the accuracy of the HS Contractor's report in writing. The HS Contractor is also responsible to keep all disposal certificates and shall make them available to Contracting Officer upon request.

i. LINE ITEM XX09 - FRESH POTABLE WATER

Potable water is defined as fresh drinking water of a quality not less than that prescribed in:

1. Current Drinking Water Standards, as published by the United States Environmental Protection Agency, Office of Water and shall comply with specifications of the National Primary and Secondary Drinking Water Regulations (NPDWR). See Attachment #18.

2. Code of Federal Regulations Title 21, Volume 2, Part 165.110 (21CFR165).

    a. These documents are incorporated by reference with the same force and effect as if they were given in full text. Full text may be accessed electronically at these websites: http://www.epa.gov/OGWDW and http://www.tdh.state.tx.us/bfds. The HS Contractor shall be responsible for identifying and providing water from a source that meets U.S. Government requirements. The U.S. Government reserves the right to accept deliveries of potable waters that do not comply with above specifications, and to bring the water up to specification standards through chlorination.

    b. The HS Contractor shall provide for the delivery of fresh potable water to the ships as ordered. The HS Contractor shall be paid for the amount of water ordered by the vessel. The barges, tankers or trucks and equipment used for transfer, storage and transportation of potable water shall not be used for cargo other than potable water, and must be equipped with independent pipe systems and working, CERTIFIED METERING DEVICES.

    c. Source of Water. Water deliveries are to be made from sources that meet the requirements of paragraphs (2)(a) and (2)(b) above. If the water source does not meet the requirements of potable water, the HS Contractor shall be required to provide water from an alternate approved source at no increase in the contract price.

    d. Potable water pierside shall be delivered by pipeline if available. If pipeline is not available, potable water pierside shall be delivered by truck or barge and the ship will be charged in accordance with SUBLINE ITEM XX09AB. If a vessel is at anchorage SUBLINE ITEM XX09AC applies.

3. The HS Contractor shall be paid based on the ACTUAL METRIC TONS of potable water received on the ship. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities provided to the ship.

4. If potable water delivery is via barge, the HS Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position water Barges, when necessary, in accordance with Force protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

5. **BOTTLED POTABLE WATER -** The HS Contractor shall provide for the furnishing of fresh, potable water in bottles. The husbanding Contractor is responsible for ensuring that the U.S. Army Veterinary has approved the products recommended to the ship's Supply Officer. Information on how to request and obtain sanitary inspection is provided as Attachment #17. The minimum order quantity for this line item is 100 liters.

j. LINE ITEM XX10 – SHIP'S UTILITY SERVICES

OIL BOOMS

The HS Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom. Billing for LINE ITEMs XX10AA and XX10AB shall be per meter. For example, a 300-meter oil boom would be billed at 300 meters per day.

Oil Booms are intended to act as a precautionary measure in case of inadvertent leakage from equipment otherwise in sound operating equipment. Oil booms are also intended to mitigate the environmental damages that may otherwise result from inadvertent leakage. The HS Contractor shall notify the Ordering Activity, upon receipt of a LOGREQ request, if deployment of an oil boom at the proposed mooring location is contrary to host nation or port authority regulation so that the order for the oil boom service can be cancelled. Cleanup and disposal of oil is a port authority function. If the HSP incurs charges for these services, they shall be billed as port tariff items on a reimbursable basis.

SHORE POWER (INCLUDES CABLES, CONNECTION, FUEL, AND OPERATORS) 450 – 480V, 60HZ

The HS Contractor shall provide shore power to the ship using a port-provided, permanent connection system or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels. The HS Contractor shall provide all cables and make all power connections between the generator and ship. The availability of shore power shall be in accordance with the schedule established by the ship.

Sub Lot Line Items XX10AC, XX10AD, and XX10AE are to be used only if/when shore power provided by port authorities is, for any reason, not available or inadequate.

SHORE STEAM

The HS Contractor shall provide shore steam to the ship. This sub lot line item is performance-based. Shore steam provided to the ship may be provided by any means (boiler or generator) so long as the pressure of steam delivered to the vessel is approximately 100 PSI (standard commercial pressure) and of acceptable quality for the vessel. Pricing for provision of shore steam shall be on a TBD basis and should include the boiler or generator, fuel for the generator, mobilization/demobilization, hoses, and adapters appropriate to the vessel type, and water (where required) for the generator or boiler. This item shall be billed on a daily basis.

k. LINE ITEM XX11 – LAND TRANSPORTATION (PERSONNEL) SERVICE

1. GENERAL REQUIREMENTS :

   a. All drivers must be fully qualified and possess valid driving licenses. Drivers shall be familiar with local area and conversant in English. All vehicles shall be registered, licensed and insured (including adequate passenger liability insurance). The HS Contractor is responsible for delivering all cargo and personnel to the correct location on schedule.
   b. Deleted

   c. The HS Contractor shall provide vehicles that have been properly maintained and serviced. If a vehicle does not meet the requirements of this contract as determined by the Ordering Officer, the U.S. Government shall have the right to reject the vehicle for performance of services. The HS Contractor shall ensure that each vehicle is jointly inspected before and after a trip by the HS Contractor and an authorized representative of the U.S. Government. The U.S. Government will not consider any claim for damage to a vehicle which has not been inspected.

d. If a vehicle is not operable when required under this contract, the HS Contractor shall provide, at no additional expense to the U.S. Government, a replacement vehicle within three (3) hours that complies in all respects with this contract.

e. All vehicles shall include drivers.

2. BUS SERVICE

a. The HS Contractor shall provide air-conditioned bus services on an hourly rate basis and bill under LINE ITEM XX11AA. The hourly rate shall include one driver or operator, any additional helpers or crew required by local authorities, all insurance, fuel, holiday surcharges, overtime, and all other operating expenses. Any additional driver, if required, shall be priced separately. Any tolls for long distance trips (over 50 kilometer radius) will be reimbursed at cost.

b. The HS Contractor shall ensure that the bus is in sound mechanical condition and meets all safety standards required by local laws and regulations. Further, the bus shall be in a clean condition when presented for service and shall be free of debris. The bus shall be sufficiently clean so as not to soil passengers, their clothing or possessions with dirt, grease, oil, or other matter.

c. In the event of a bus breakdown, the HS Contractor shall provide within two hours, at no additional expense to the U.S. Government, a replacement bus complying in all respects with this contract.

d. Any personal articles or items found on the bus after completion of each trip shall be turned over to the ship's Ordering Officer.

e. The HS Contractor shall be responsible for ensuring that the HS Contractor and an authorized representative of the U.S. Government jointly inspect before and after a trip each bus. The U.S. Government will not consider any claim for damage to a bus, which has not been inspected.

f. The minimum bus capacity shall be 40 passengers.

g. A minimum daily price of four (4) continuous hours shall apply for each bus ordered less any time associated with bus breakdown or getting lost.

h. Drivers must be familiar with the area, have an appropriate driver license, and speak English. In the event the driver is unable to speak English, the contractor shall furnish an English speaking rider on the bus.

3. VEHICLE RENTAL SERVICE

a. Vehicle Specifications, Maintenance, and Malfunctions

(i) The HS Contractor shall furnish "new" air-conditioned vehicles (i.e., not more than five years old), in good order and condition and otherwise in full compliance with best commercial practices and local laws and regulations.

Sedans or SUVs shall have a minimum capacity of four (4) passengers and 1600cc engine.

In the event a "new" vehicle is not available in certain countries, the contractor shall contact the Contracting Officer to request a waiver from the requirement and provide background information as to why a waiver would be appropriate. The Contracting Officer will consider, and grant or refuse, the request. Vehicles shall be priced on a daily rate, except as noted below. They shall be equipped with front and back seat belts, an emergency triangle, spare tire, jack and complete set of tools for changing a flat tire, as well as any other equipment required by local authorities. Upon initial rental, the gasoline tank shall be full. The prices for vehicles rented are based upon an assumption that the vehicles will be returned with an

empty tank of gas. Therefore ships will be charged for a full tank of gasoline at the time of rental. There shall be no surcharge applied to the commercial price of the fuel. Vehicles can be returned with any amount of gasoline. Ships shall not be responsible for returning the vehicle with a full tank of fuel, and the HS Contractor shall not be obligated to credit the ship for the remaining fuel.

(ii) The HS Contractor shall provide vehicles that have been properly maintained and serviced, including all motor oils, lubricants, antifreeze, coolants and other fluids such as windshield washer fluid, and be responsible for all emergency repairs and services.

(iii) Should any vehicle break down while in the U.S. Government's possession, the HS Contractor shall replace it with another vehicle of the same or larger size as quickly as possible, but in any case no more than three (3) hours later. The replacement shall take place either at the point of breakdown or at the HS Contractor's office closest to that point; whichever is more convenient for the U.S. Government. All repair or replacement costs, including transportation, shall be at the HS Contractor's expense. The U.S. Government shall be credited an hourly rate, pro-rated on the daily rate, for the rental cost between breakdown and vehicle replacement.

b. Substitution of Vehicles

(i) If the HS Contractor does not have available the type of vehicle ordered and the vehicle has been ordered at least 24 hours in advance, the HS Contractor shall substitute a vehicle type equal to or better than the vehicle ordered at the price listed for the type of vehicle originally ordered. EXAMPLE: If a Group B car is ordered but unavailable, and if no other Group B vehicle is available, the HS Contractor shall furnish a higher group vehicle at the price listed for the Group B vehicle originally ordered.
(ii) In the case of passenger or cargo vans, there shall be no substitution without the approval of the ship placing the order.

c. General Description of Vehicle Types

(i) The vehicles shall meet the general description set out below:

Medium-size Sedan (Group "B"): 2 - 4 doors; 4 - 5 passenger capacity; air conditioning; minimum 1600 cc engine sedan.

Passenger Van (Group "M"): 9-passenger capacity; air conditioning; minimum 2000cc engine (except for Hong Kong where capacity is 7 passenger).

Cargo Van (Group "X"): 12 Cubic Meter volume capacity, air conditioning; minimum 2000cc engine.

Executive Sedan with Driver (Group "E"): 4 doors; 5-passenger capacity; air conditioning; minimum 1600 cc engine sedan. This group requires an executive sedan and shall be provided with a driver. Drivers must be familiar with local area, and must speak English. Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the ship's personnel of his arrival. No individual driver shall be required to drive more than 8 hours. Drivers must not have been driving within the previous 8 hours. Rentals less than 24 hours will be charged on an hourly pro-rata basis, based on the daily rate, with the HS Contractor entitled to a minimum charge of 4 hours. The HS Contractor shall be responsible for payment of any fines and legal costs incurred as a consequence of the violations of traffic laws or regulations by the provided driver. The daily rate shall be inclusive of the first 250 kilometers per day, all necessary equipment, licensed drivers, all liability insurance as required by local law, holiday and overtime costs, fuel, all other operating expenses, and all other incidentals. Any additional kilometers per day beyond the initial 250 kilometers will be priced under SUBLINE ITEM XX11AG. The U.S. Government will reimburse the HS Contractor for additional costs in two cases: for highway tolls, and for the driver's overnight accommodation up to $120.00 or equivalent local currency, when required by U.S. Government business such as travel to another city, and upon presentation of an original invoice (using the online pricing application).

15-Passenger Buses with Driver (Group "Z"): All requirements concerning the rental of a vehicle with the driver described above in the "Executive Sedan with Driver" shall apply to this paragraph also.

d. Insurance and Liability.

(i) The prices for vehicle rental services, as set forth in the schedule, shall be subject to the conditions below.

(ii) The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cause, except where the loss or damage is caused by the willful and wanton negligence of the U.S. Government employee.

(iii) The HS Contractor and any Subcontractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, resulting from the fault, negligence, or wrongful act or omission of the HS Contractor, its subcontractors, its agents, or employees.

(iv) The HS Contractor shall provide and maintain at its expense, all vehicle operator's insurance required by the law of the country in which the vehicle is to be operated. All necessary insurance certificates shall be provided with the rental vehicle. Such insurance shall include all coverage required by law for bodily injury, collision, and property damage liability. The HS Contractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, within the required policy limits, arising out of or in connection with the rental or use by the U.S. Government, its agents or its employees of any vehicle under this contract.

(v) Paragraph (iv) shall not be construed as limiting the HS Contractor's liability to the amounts of the required minimum insurance coverage specified therein.

e. Traffic Violations and Fines. Each vehicle operator shall be responsible for payment of fines and legal costs incurred as a consequence of the violations of traffic laws or regulations.

f. Mileage and Deposit Charges. There are no mileage or deposit charges for the vehicles rented under this contract for all mileage travelled within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor). Outstation charges, surcharges, or additional mileage rates shall not be assessed for travel within the 250 kilometer radius as the vehicle is rented on a daily basis with usage in accordance with the ordering activity's needs. The HS Contractor shall be entitled to an additional half days' rental fee at the daily rate for each day in which vehicle trips are required beyond the 250 kilometer radius described above.

g. Time Periods of Rental. Rental time shall begin once the vehicle and driver are available for use alongside the Ordering Activity. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than 8 hours straight. Drivers must not have been driving within the previous 8 hours.

I. LINE ITEM XX12 - TELEPHONE SERVICES AND COMMUNICATIONS EQUIPMENT

1. Landlines (LINE ITEM XX12AA): Whether installed on a permanent or temporary basis, sufficient landlines shall be made available for official, local, and international use. Installation charges shall be inclusive of all costs for installation and removal of landlines. Usage charges and port tariff fees associated with landline connections (LINE ITEM XX12AB) will be the actual charges computed in accordance with the local or national tariff.

2. Cellular Telephone Services (LINE ITEM XX12AC): Daily charges shall be inclusive of delivery, removal, provision of 110V to 220V transformers, adapters and extra batteries. Activation, auto roaming, and long distance accounts shall be included under LINE ITEM XX28AC. The HS Contractor shall have readily available a minimum of 10 cellular telephones at a given time. Each mobile phone provided shall include an operating manual/instruction with published rates for usage. Airtime for mobile phones shall be included under LINE ITEM XX12AD. Usage charges associated with mobile phones (LINE ITEM XX12AD) will be the actual charges computed in accordance with the local or national tariff.

3. The HS Contractor shall provide pre-paid International Calling Cards for official use (LINE ITEM XX12AE).

4. SIM cards with prepaid airtime shall be provided where the ship or operating unit has mobile phones and desires only SIM cards for use in the specific port area. SIM cards provided under LINE ITEM XX28AF shall include activation of the SIM card. HS Contractors shall not be obligated to provide quantities of sub lot line item XX12AF in excess of quantities permitted by host nation law or regulation.

5. PWS paragraph 9.h. details the priority in providers to MWR support to Ordering Activities. Calling cards ordered under sub lot line item XX12AE shall be billed in the denomination of the card, adjusted to USD using the OANDA exchange rate for the date of the order as outlined in the PWS paragraph 9.f. without additional markup or fee.

m. LINE ITEM XX13, XX14 AND XX15 - FORCE PROTECTION BARRIERS/PERSONNEL/SUPPLIES

1. Heightened Vigilance: The HS Contractor shall be alert at all times in order to contribute to the protection of the ship and its crew. The HS Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The HS Contractor shall report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

2. The HS Contractor shall fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the HS Contractor shall identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the HS Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The HS Contractor shall arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

3. Contractor/Subcontractor Identification: The HS Contractor shall identify how contractor and subcontractor personnel will be recognizable to ship's personnel. This may be accomplished by a combination of picture ID, badges, uniforms, access lists, etc. The HS Contractor shall also identify how support vehicles/vessels will be marked so that they are readily identifiable to ATFP/ship's personnel.

4. See Attachments 7, 12, 13, and 14 for specific Force Protection requirements and procedures.

n. LINE ITEM XX16 – AIRPORT/CARGO & MATERIAL HANDLING (PORT HANDLING COSTS)

1. The HS Contractor shall provide material handling services for the ship. They will receive material shipped to them, clear the material through customs, store the material, report the status of the material, deliver the material to the ship, and forward the material if unable to deliver.

2. The HS Contractor shall use counter-to-counter delivery and charge by each Bill of Lading. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship's arrival.

3. Shipping documents shall be labeled "SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the HS Contractor.

4. The HS Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel. The HS Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

5. The HS Contractor shall receive the package from the ship and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

6. The HS Contractor shall deliver the package to the ship the day of arrival in port or the following morning. The HS Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

7. The HS Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship. The HS Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

PAINT FLOAT

The paint float shall be no less than 5M in length but, in all cases, large enough to provide a safe and stable working platform for the occupants. Scaffolding may be of any height less than 3.5M from the deck, so as to provide a working platform at least 4M from the waterline. The paint float shall be equipped with suitable self-fendering to prevent damage to the ship. The price of these fenders shall be included in the quoted price of the paint float. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge. Rails shall be no less than 1M from the working platform. The working platform shall be equipped with anchor points for harnessing. The Ordering Activity shall be responsible for providing safety harnesses, for obtaining permission from local authorities prior to all work on the paint float, and for cleanup/disposal of all hazardous material generated or released outside the paint float. The HSP shall notify the Ordering Activity of local regulatory requirements concerning paint floats, assist the Ordering Activity in submitting requests and passing required documentation to the local authority where permission is required to work on the paint float, and arrange for required cleaning of the paint float upon return. The ordering activity is responsible for securing the paint float from the time custody has been transferred to them until returned to the HSP or the ship departs, whichever is earlier.

LIGHT TRUCKS (LOT LINE ITEM XX16AB)

a. The HS Contractor shall provide covered, lockable trucks with a driver to load/off load cargo and mail. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and offloading.

b. The HS Contractor shall be responsible for security and prevent loss/damage/destruction of cargo and mail.

c. The HS Contractor shall return all items left in rental vehicles to the ship's Ordering Officer.

d. The HS Contractor shall obtain written acknowledgement of vehicle service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

e. The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cost, except where the loss or damage is cost by the willful and wanton negligence of the U.S. Government employee.

f. Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the ship's personnel of his arrival. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than eight (8) hours. Drivers must not have been driving within the previous eight (8) hours. Rentals less than 24 hours will be charged on an hourly pro-rata basis, based on the daily rate, with the HS Contractor entitled to a minimum charge of four (4) hours. The HS Contractor shall be responsible for payment of any fines and legal costs incurred as a consequence of the violations of traffic laws or regulations. The daily rate shall be inclusive of all mileage travelled within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor) , all necessary equipment, licensed drivers, all liability insurance as required by local law, holiday and overtime costs, fuel, all other operating expenses, and all other incidentals.

g. The HS Contractor shall provide vehicle service with qualified drivers for official government business.

h. The HS Contractor shall provide one-way transfer vehicles with drivers to transfer cargo between a designated pick-up point and a specified destination within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor). Outstation charges, surcharges, or additional mileage rates shall not be assessed for travel within the 250 kilometer radius as the vehicle is rented on a daily basis with usage in accordance with the ordering activity's needs. The HS Contractor shall be entitled to an additional half days' rental fee at the daily rate for each day in which vehicle trips are required beyond the 250 kilometer radius described above.

i. The HS Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

j. The HS Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

k. If the unit of issue is by "Day", then the rental period shall constitutes 24 hours.

MANLIFT (WITHOUT OPERATOR)

The HS Contractor shall provide a manlift (without operator) and a full fuel tank. The HS Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning. The HS Contractor shall conduct training on safety and operating procedures for ship personnel. The HS Contractor shall maintain documentation of ship personnel acknowledgement of the training.

o. LINE ITEM XX17 – PROVISIONS

(1) Provisions

Note: Orders for fuel and provisions are primarily ordered under other U.S. Government contracts. Use of these contracts for fuel and provisions (eg. DESC fuel contracts and DSCP-Pacific provisions contracts) is mandatory when available. If U.S. Government contracts are either unavailable or cannot make delivery within ship scheduling constraints the HS Contractor must receive prior permission from the FLCY Contracting Officer before providing these services to the ship, including mobilization. When requested by the ship, the HS Contractor shall pass these orders to the other U.S. Government Contractors involved. The ship's Supply Officer or FLCY Contracting Officer may award contracts or purchase orders for these non-priced items to other U.S. Government contracts.

a. When requested by a ship, the husbanding HS Contractor shall assist in arranging for the timely provision of subsistence items. LINE ITEMs XX17AA through XX17AC identify the fees that will be paid the HS Contractor for arranging subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using night soil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be in accordance with Attachment #11. The husbanding services HS Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and local currency; and total price in U.S. dollars and local currency as indicated in the "INVOICING AND PAYMENT CLAUSE". (Example: 10 pounds tomatoes @ 2,50 euro/$1.00 USD per Pound = 25,00 Euro/$10.00 USD). Any delivery charges shall be shown separately. The HS Contractor shall use the conversation rate to convert Kilogram (KG) into US pounds (LB) is: 1 KG = 2.2046 LB.

b. If the total cost of FF&V and subsistence items ordered and received by a ship under this contract exceeds $10,000.00 for a port visit, the HS Contractor shall submit a report via e-mail to FLCY within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the HS Contractor shall provide copies of all quotes obtained. This report is in addition to the LogSSR report.

c. The husbanding HS Contractor shall ensure that the sources recommended to the ships Supply Officer for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement.

d. Information on how to request and obtain sanitary inspection by the U.S. Government is provided as Attachment #17.

e. The HS Contractor shall retain documentation of inspection of sources recommended or selected as suppliers of subsistence items. Under no circumstances shall the HS Contractor recommend or offer for acceptance subsistence items from non-approved sources.

f. All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

g. The fee specified in sub lot line item XX17AA has a unit of issue of 'EA' (each). This fee is for the arrangement of one line item of provisions, not for a quantity of one provision. For example, if one provisions order contained ten different line items and a quantity of five for each line item, the HS Contractor would be entitled to bill under sub lot line item XX17AA for a quantity of ten with a unit of issue 'EA'.

p. LINE ITEM XX18 - FUEL

1. Orders for fuel and provisions are primarily ordered under other U.S. Government contracts. Use of these contracts for fuel and provisions (eg. DESC fuel contracts and DSCP-Pacific provisions contracts) is mandatory when available. If U.S. Government contracts are either unavailable or cannot make delivery within ship scheduling constraints the HS Contractor must receive prior permission from the FLCY Contracting Officer before providing these services to the ship, including mobilization. When requested by the ship, the HS Contractor shall pass these orders to the other U.S. Government Contractors involved. The ship's Supply Officer or FLCY Contracting Officer may award contracts or purchase orders for these non-priced items to other U.S. Government contracts.

2. Other procedures apply as follows:

(a) Fuel (MGO/F76)

(i) Ships may order fuel, as described in paragraph 1 above, with the assistance of the HS Contractor. The HS Contractor shall advise the Supply Officer of available bunkers, or existing fuel contracts issued by Defense Energy Support Center (DESC) or Navy Operational Logistics Support Center. If requested by the Supply Officer, the HS Contractor shall pass fuel orders to the appropriate fuel supplier, and will coordinate delivery. The DESC Overseas Ships' Bunkers Contract Bulletin SP0600-02-0013 may be accessed at http://www.desc.dla.mil/DCM/DCMPage.asp?PageID=227 . Disagreements between any DESC Contractor and the HS Contractor shall be forwarded to the DESC Contracting Officer through Logistic Supply Center Fuel Manager specified at the time of award for each region. HS Contractors who buy fuel through other than government sources when available without express authority in writing from the FLCY Contracting Officer do so at their own risk. If the HS Contractor is authorized to provide fuel, U.S. Government shall not reimburse the HS Contractor for more than what the U.S. Government cost through approved DESC contracts would have been unless authorized by the Contracting Officer. The HS Contractor is required to provide any security vetting for DESC contractors in order to facilitate performance.

(ii) In the event that no U.S. Government or foreign Government owned bunker is available, or no DESC or NPO available contracts meets a ship's fuel requirement, or as directed in writing by the Contracting Officer, the HS Contractor shall assist the ship in arranging the procurement of fuel. The HS Contractor shall not provide any fuel or fuel-related service e.g., fuel barge or fuel truck, without first receiving specific advance approval to do so from a FLCY Contracting Officer. This fuel shall be provided in accordance with Attachment # 15. The HS Contractor shall provide a fuel barge or truck to transport fuel to the ship, if required. LINE ITEMs XX18AA through XX18AD identify the fees that will be paid the HS Contractor for arranging fuel requirements. The HS Contractor shall be liable for any costs should the fuel provider fail to properly employ oil spill booms as required by local authorities or fails to comply with any local laws or regulations relating to the provision of fuel. Fuel caught in oil booms will be properly disposed. The HS Contractor shall be liable for any costs should the fuel provider fail to employ properly oil spill booms as required by local authorities or fails to comply with any local laws or regulations relating to the provision of fuel. The HS Contractor shall deliver fuel "free on board" the ship whether at pierside or at anchor. The invoice shall indicate the unit and total price for the fuel and the price for the delivery of fuel to the ship. The contractor shall also include a statement with each invoice entry for fuel purchased from the contractor that identifies who directed it to provide the fuel and the preliminary steps taken by the contractor to ensure that government-owned fuel or fuel from a DESC contract was not available to satisfy the ship's requirement.

(iii) Other than the price specified under LINE ITEM XX18AA Fee for Acquiring Fuel and LINE ITEM XX18AC Fuel Delivery/Other, no additional fees shall be added to the price of LINE ITEM XX18AB Fuel, TBD. The HS Contractor shall be reimbursed at cost for the TBD purchase price of fuel and for delivery without additional markup.

(iv) In recognition of the fact that fuel is sold by weight (metric tons) and by volume (gallons or liters), the HS Contractor shall ensure all United States ships are provided with a fuel invoice and the appropriate customs certification demonstrating the quantity of fuel provided in metric tons and in gallons or liters. In the event that the HS Contractor is ordered to provide fuel, all terms and conditions of the fuel provider shall be provided to the Ordering Officer in the pre-arrival cost estimate or prior to the order being finalized if the fuel services are ordered after the pre-arrival cost estimate has been provided. For example, if a ship places an order for fuel and the fuel provider has a term or condition that requires the full quantity to be pumped into the requiring vessel without return of any fuel to the provider, this condition must be disclosed to the Ordering Officer in the pre-arrival message.

(v) The HS Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The

inspection shall be in the presence of the barge or truck operator and the fuel supplier. The cost for all barge inspections will be included in the fee for LINE ITEM XX18AC.

(vi) The HS Contractor shall load the ordered fuel and transport to the ship. The HS Contractor shall transfer the fuel from the fuel barge or truck to the ship. The HS Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

(vii) The HS Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

(viii) Excess Fuel Procedures: Demurrage charges accrue when the entire quantity of fuel ordered cannot be delivered on or before the date and time specified in the fuel order. Demurrage charges do not accrue when fuel cannot be delivered due to the fault of the service provider (e.g. pumping rate of the barge inadequate to deliver fuel within the time specified by the order). See PWS paragraph 3.i. for further details. Pricing of XX18AD is in units of DAY and the compensation covers the daily cost of the barge used to deliver the fuel (regardless of the amount of fuel remaining in the barge). Since the great majority of fueling evolutions are via barge, the price of demurrage by barge should be used vice the demurrage price by truck. All required customs clearances are to be included in item XX18AA, Fee for Acquiring Fuel. If the ship does not offload all of the fuel ordered, the HS Contractor shall store the excess fuel and diligently attempt to sell it as soon as practicable. The HS Contractor shall receive a storage fee (demurrage) for no more than three (3) days. The HS Contractor shall receive a fuel disposal fee on a reimbursable basis upon presentation of vendor invoice for disposal services.

(ix) All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

q. LINE ITEM XX19 – OTHER PORT SERVICES

LOGISTIC SUPPORT TO GOVERNMENT TEAMS

a. Note: This Line Item is for logistics support in connection with ship visits to a port area. U.S. Government teams conduct surveys in a variety of ports in the Region. The U.S. Government may require the assistance of the HS Contractor in the ports to be surveyed.

b. The HS Contractor shall assign an individual to participate in and assist with logistical arrangements for a team that will perform the survey. This team may visit a variety of ports in advance of ships' visits to assess the force protection levels of the port and to perform related functions. The HS Contractor's assistance shall include providing logistical support as requested by the U.S. Government, coordinating access and interviews with local officials, local husbanding services, and support Contractors, coordinating necessary translation services for the team, and assisting in the development of a final assessment report.

c. The HS Contractor shall invoice port surveys at the subsequent day husbanding fee for a Class II ship in the port. In addition, the HS Contractor shall be reimbursed for economy class air transportation and daily per diem rate that includes lodging, meals and other related expenses. The per diem rates shall be those set forth in the Joint Travel Regulation (JTR).

d. Other HS Contractor out-of-pocket expenses related to the service(s) and anticipated by the HS Contractor will be invoiced and reimbursed at cost. The HS Contractor shall submit all receipts, invoices or other valid documents to support the incurred expenses. The HS Contractor shall not pay for hotels, meals, rental vehicles, telephone expenses and any other expenses that the U.S. Government team members may incur and for which they can be reimbursed under their U.S. Government travel orders.

e. If a delivery order with a "Not to Exceed " (NTE) amount is issued for the logistic support services, the HS Contractor shall promptly advise the FLCY Contracting Officer and withhold performance if he expects to exceed this amount.

TENT WITH EQUIPMENT FOR SPECIAL EVENTS (INCLUDES TABLES, CHAIRS, LIGHTING AND FANS

The HS Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels. The HS Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills. The HS Contractor shall remove all provided equipment upon completion of services.

r. LINE ITEM XX20 – INCIDENTALS

1. Incidentals: The HS Contractor shall arrange for incidentals using the Online Pricing Application, as further described in Attachment 8 and paragraph 3(o) above. Incidentals are supplies and services not priced on the Schedule of Supplies and Services or Port Tariff schedule that are within the scope of the contract, and are required during the course of the husbanding visit. Historical examples of items ordered that would be considered incidentals are listed at the bottom of each schedule in Attachment 2. Incidentals shall not exceed $50,000.00 per port visit unless prior permission is granted from the FLCY Contracting Officer. The HS Contractor shall not be separately or additionally compensated for profit or mark-up on the prices of these items or for any other charges or fees associated with acquiring the supplies or services other than the price the HS Contractor pays its supplier for the supply or service except as the HS Contractor chooses to include allowances for any such profit, charges, or fees in the daily price for the Management Services or as part of the process proposed by the HS Contractor for implementation of the Online Pricing Application methodology for offering incidentals at fair and reasonable prices. The HS Contractor shall arrange for incidentals as described below:

a. Providing supplies and services. At the request of an Ordering Activity, the HS Contractor shall arrange for incidentals that are within the scope of the contract, are not pre-priced on the Schedule of Supplies and Services (Attachment 2), and are required during the course of the husbanding visit. In cases where sub lot line items do not exist under the corresponding lot line item in some lots, but exist under line items in other lots of the Attachment 2 schedules, the Government reserves the right to order these items within the scope of the contract, if required, as incidentals using the online pricing application. The contractor shall conduct necessary market research, contact potential suppliers, obtain price quotations, and, based on the information, provide an estimated price for the supply or service to the Ordering Activity and the FLCY Contracting Officer using the Online Pricing Application. The HS Contractor shall not provide any incidental supplies or services until the HS Contractor and the Ordering Activity or FLCY Contracting Officer agree on a fair and reasonable price for the supplies or services. For non-priced items with extended price less than $25,000, either the Ordering Officer or the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended price greater than $25,000, only the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. At that point the Ordering Activity shall issue an order to the HS Contractor directing that it provide the supply or service in support of the husbanding visit at the agreed price. For supplies or services having an extended price (unit price multiplied by quantity) over $3,000, the HS Contractor must provide documentation to the Ordering Activity or FLCY Contracting Officer, via the Online Pricing Application, that it has promoted competition to the maximum extent practicable. If the HS Contractor proposes the use of organic assets (HS Contractor-owned assets) at an extended price (unit price multiplied by quantity) over $3,000, the HS Contractor must additionally provide documentation to the Ordering Activity or FLCY Contracting Officer, via the Online Pricing Application, that the price for use of the organic asset does not exceed the price for locally available assets that could be used to otherwise satisfy the requirement. When proposing to use an organic asset, the HS Contractor shall also provide a commercial pricelist, if available, showing the daily or

hourly rates, inclusive of all operational and maintenance costs, that the HS Contractor charges other customers for use of the organic assets. Prices charged to the Government shall not be higher than the price for the same or similar services provided to other customers. The HS Contractor's use of the Online Pricing Application in accordance with Attachment 8 will be evaluated based on the criteria established in QASP and agreed upon as part of the HS Contractor's proposed process for determining fair and reasonable prices.

b. All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting Officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

c. Incidentals considered within the scope of this contract are defined at the description of contractual scope, paragraph 10.

s. LINE ITEM XX21 - OPERATIONS OTHER THAN WAR

* See attachment (9) PWS OOTW, for specific instructions.

t. LINE ITEM XX22 - COST REPORTING

1) See Attachment (8) PWS Cost Reporting, for specific reporting instructions.
2) All billing and cost reporting shall be made in the units specified in the respective LINE ITEMs.
3) **HS Contractor shall enter and report ALL expenditures under this contract (regardless of customer or ordering activity) into LogSSR and all non-priced expenditures other than port tariff (PT) items using the online pricing application in accordance with Attachment (8) PWS Cost Reporting.**
4) **The pre-arrival cost estimate is part of the Cost Reporting Lot Line Item. Requirements for the pre-arrival cost estimate report are described in Attachment (8).**

(End of Summary of Changes)

The following items are applicable to this modification:

.

B. Change the description specified in paragraph 9.g of Performance Work Statement (PWS) on page 18 of 189 as follows:

From: Mail Delivery Services: The HS Contractor shall provide daily mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

To: Mail Delivery Services: The HS Contractor shall provide daily mail pick-up and delivery service for the ship. Should husbanding agent receive mail after ships depart they should contact the Fleet Mail Center in Yokohama at 81-45-872-6742/6532.

C. Other terms and conditions remain the same.

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
X	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzkny011125616

1. The following changes are hereby made to the contract referenced in ITEMs 10A and 10B above.
2. Administrative changes to the Performance Work Statement are incorporated and are highlighted in "Yellow".
3. Attachment 2 has been updated to match line item structure.
4. There is no change in the prices.
5. This is an administrative modification that does not change the substantive rights of either party. All other terms and conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

PERFORMANCE WORK STATEMENT

SCHEDULE OF SUPPLIES/SERVICES AND PRICES

Note 1: U.S. FISC YOKOSUKA - The official command name for U.S. Fleet and Industrial Supply Center (FISC) Yokosuka changed 1 July 2011. As of 1 July 2011, the official command name for U.S. Fleet and Industrial Supply Center (FISC) Yokosuka will be: NAVSUP Fleet Logistics Center Yokosuka (FLCY). Accordingly, all references throughout the contract have been updated to reflect this name change.

Note 2: This contract is limited to Region 4 (East Asia), Lots 82-99.

A. GENERAL

This contract is for performance of maritime husbanding support for U.S Navy ships visiting ports and operating in Region 4 of the Western Pacific and Indian Ocean. Additionally, the husbanding contractor may be called upon to provide services in support of Operations Other Than War (OOTW) within a Region's territorial boundaries. The Regions, countries and major ports included in each region are as follows:

Region 1 – South Asia (7 countries, 4 major ports)	
Bangladesh	Maldives • Male
Bhutan	Nepal (OOTW)
Burma	Sri Lanka
India • Chennai • Goa • Mumbai	
Region 2 – Southeast Asia (12 countries, 19 major ports)	
Brunei • Muara	Philippines • Manila • Puerto Princesa • Subic Bay
Cambodia • Sihanoukville	Malaysia • Kemaman • Kota Kinabalu • Penang • Sepangar
China • Hong Kong	Singapore • Changi • Sembawang
Indonesia • Bitung • Jakarta • Surabaya	Taiwan
Laos (OOTW)	Thailand • Laem Chabang • Phuket

	• Sattahip
Palau	Vietnam • Da Nang
Region 3 – Australia and the Pacific Islands (17 countries, 8 major ports)	
Antarctica	New Caledonia • Noumea
Australia • Brisbane • Darwin • Fremantle • Sydney	New Zealand
East Timor • Dili	Papua New Guinea
Fiji	Solomon Islands • Honiara
French Polynesia	Tonga • Nuku Alofa
Kiribati	Tuvalu
Marshall Islands	Vanuatu
Micronesia	Western Samoa
Nauru	
Region 4 – East Asia (4 countries, 12 major ports)	
Japan • Fukuoka • Kagoshima • Maizuru • Nagasaki • Osaka • Shimoda • Tokyo	South Korea • Chinhae • Pohang • Busan • Donghae
Mongolia (OOTW)	Russia • Vladivostok

Region Item and Price Structure

Major ports are indicated by name of port (e.g., Goa, Vladivostok, Sydney, etc.). A fully priced proposal must be received for ALL line items in a Region for it to be considered acceptable. For OOTW, a proposal only for Management Fees is required.

The contract is sub-divided into Lots. Targeted lots are identified in bold print below and by highlighted tabs in Attachment 2, Pricing Schedule. Lots may be for individual ports or they may include several ports under one Lot. For this contract, the following Lots apply:

Region 1 – Lots 01 – 15 (7 countries, 4 major ports)

Lot 01 – Bangladesh, All Ports, Husbanding Services and OOTW
Lot 02 – Burma (Myanmar), All Ports, Husbanding Services and OOTW
Lot 03 – India, Chennai, Husbanding Services and OOTW (*)
Lot 04 – India, Goa, Husbanding Services and OOTW (*)
Lot 05 – India, Mumbai, Husbanding Services and OOTW (*)
Lot 06 – India, All Other Ports, Husbanding Services and OOTW
Lot 07 – Maldives, Male, Husbanding Services and OOTW (*)
Lot 08 – Maldives, All Other Ports, Husbanding Services and OOTW
Lot 09 – Sri Lanka, All Ports, Husbanding Services and OOTW

Lot 10 – Nepal, OOTW
Lot 11 – Bhutan, OOTW
Lot 12 – 15, Reserved

Region 2 – Lots 16 – 51 (12 countries, 19 major ports)

Lot 16 – Brunei, Muara, Husbanding Services and OOTW (*)
Lot 17 – Brunei, All Other Ports, Husbanding Services and OOTW
Lot 18 – Cambodia, Sihanoukville, Husbanding Services and OOTW (*)
Lot 19 – Cambodia, All Other Ports, Husbanding Services and OOTW
Lot 20 – China, Hong Kong, Husbanding Services and OOTW (*)
Lot 21 – Indonesia, Bitung, Husbanding Services and OOTW (*)
Lot 22 – Indonesia, Jakarta, Husbanding Services and OOTW (*)
Lot 23 – Indonesia, Surabaya, Husbanding Services and OOTW (*)
Lot 24 – Indonesia, All Other Ports, Husbanding Services and OOTW
Lot 25 – Palau, All Ports, Husbanding Services and OOTW
Lot 26 – Philippines, Manila, Husbanding Services and OOTW (*)
Lot 27 – Philippines, Puerto Princesa, Husbanding Services and OOTW (*)

Lot 28 – Philippines, Subic Bay, Husbanding Services and OOTW (*)
Lot 29 – Philippines, All Other Ports, Husbanding Services and OOTW (*)
Lot 30 – Malaysia, Kemaman, Husbanding Services and OOTW (*)
Lot 31 – Malaysia, Kota Kinabalu, Husbanding Services and OOTW (*)
Lot 32 – Malaysia, Penang, Husbanding Services and OOTW (*)
Lot 33 – Reserved
Lot 34 – Malaysia, Sepangar, Husbanding Services and OOTW (*)
Lot 35 – Malaysia, All Other Ports, Husbanding Services and OOTW
Lot 36 – Singapore, Changi, Husbanding Services and OOTW (*)
Lot 37 – Singapore, Sembawang, Husbanding Services and OOTW (*)
Lot 38 – Taiwan, All Ports, Husbanding Services and OOTW
Lot 39 – Thailand, Laem Chabang, Husbanding Services and OOTW (*)
Lot 40 – Thailand, Phuket, Husbanding Services and OOTW (*)
Lot 41 – Thailand, Sattaship, Husbanding Services and OOTW (*)
Lot 42 – Thailand, All Other Ports, Husbanding Services and OOTW
Lot 43 – Vietnam, Da Nang, Husbanding Services and OOTW (*)
Lot 44 – Vietnam, All Other Ports, Husbanding Services and OOTW
Lot 45 – Laos, OOTW
Lot 46 – China, OOTW
Lots 47 – 51, Reserved

Region 3 – Lots 52 – 81 (17 countries, 8 major ports)

Lot 52 – Australia, Brisbane, Husbanding Services and OOTW (*)
Lot 53 – Australia, Darwin, Husbanding Services and OOTW (*)
Lot 54 – Australia, Fremantle, Husbanding Services and OOTW (*)
Lot 55 – Australia, Sydney, Husbanding Services and OOTW (*)
Lot 56 – Australia, All Other Ports, Husbanding Services and OOTW
Lot 57 – East Timor, All Ports, Husbanding Services and OOTW (*)
Lot 58 – Reserved
Lot 59 – Fiji, All Ports, Husbanding Services and OOTW
Lot 60 – French Polynesia, All Ports, Husbanding Services and OOTW
Lot 61 – Kiribati, All Ports, Husbanding Services and OOTW
Lot 62 – Marshall Islands, All Ports, Husbanding Services and OOTW
Lot 63 – Micronesia, All Ports, Husbanding Services and OOTW
Lot 64 – Nauru, All Ports, Husbanding Services and OOTW

Lot 65 – New Caledonia, Noumea, Husbanding Services and OOTW (*)
Lot 66 – New Caledonia, All Other Ports, Husbanding Services and OOTW
Lot 67 – New Zealand, All Ports, Husbanding Services and OOTW
Lot 68 – Papua New Guinea, All Ports, Husbanding Services and OOTW
Lot 69 – Solomon Islands, Honiara, Husbanding Services and OOTW (*)
Lot 70 – Solomon Islands, All Other Ports, Husbanding Services and OOTW
Lot 71 – Tonga, Nuku Alofa, Husbanding Services and OOTW (*)
Lot 72 – Tonga, All Other Ports, Husbanding Services and OOTW
Lot 73 – Tuvalu, All Ports, Husbanding Services and OOTW
Lot 74 – Vanuatu, All Ports, Husbanding Services and OOTW
Lot 75 – Western Samoa, All Ports, Husbanding Services and OOTW
Lot 76 – Antarctica, OOTW
Lots 77 – 81, Reserved

Region 4, Lots 82 - 99 (4 countries, 12 major ports)

Lot 82 – Japan, Fukuoka, Husbanding Services and OOTW (*)
Lot 83 – Japan, Kagoshima, Husbanding Services and OOTW (*)
Lot 84 – Japan, Maizuru, Husbanding Services and OOTW (*)
Lot 85 – Japan, Nagasaki, Husbanding Services and OOTW (*)
Lot 86 – Japan, Osaka, Husbanding Services and OOTW (*)
Lot 87 – Japan, Shimoda, Husbanding Services and OOTW (*)
Lot 88 – Japan, Tokyo, Husbanding Services and OOTW (*)
Lot 89 – Japan, All Other Ports, Husbanding Services and OOTW (*)
Lot 90 – South Korea, Busan, Husbanding Services and OOTW (*)
Lot 91 – South Korea, Chinhae, Husbanding Services and OOTW (*)
Lot 92 – South Korea, Donghae, Husbanding Services and OOTW (*)
Lot 93 – South Korea, Pohang, Husbanding Services and OOTW (*)
Lot 94 – South Korea, All Other Ports, Husbanding Services and OOTW
Lot 95 – Russia, Vladivostok, Husbanding Services and OOTW (*)
Lot 96 – Russia, All Other Ports, Husbanding Services and OOTW
Lot 97 – Mongolia, OOTW
Lots 98 – 99, Reserved

Line Items used in the Performance Work Statements and in the Pricing sheets for all Regions are outlined as follows:

XX01	Husbanding Services (Anchorage and Pierside)
XX02	Trash Removal
XX03	Fleet Landing
XX04	Brow Services
XX05	Ship Movements Services
XX06	Water Ferry/Taxi Services
XX07	General Charter and Hire Items
XX08	Collection, Holding, and Transfer (CHT)
XX09	Fresh Potable Water
XX10	Ship's Utility Services
XX11	Land Transportation (Personnel) Service
XX12	Telephone Services and Communications Equipment

XX13	Force Protection Barriers
XX14	Force Protection Personnel
XX15	Force Protection Supplies
XX16	Airport/Cargo & Material Handling (Port Handling Costs)
XX17	Provisions
XX18	Fuel
XX19	Other Port Services
XX20	Incidentals
XX21	Operation Other Than War (OOTW)
XX22	Cost Reporting

B. PRICING

Except for Port Tariffs, unit prices for all contract items described below shall be inclusive of all necessary equipment, licensed operators, all liability insurance as required by local law, holiday and overtime costs, customs clearances, and fuel and operating expenses.

1) Fixed Prices are required in the Pricing Schedule except where Port Tariff (PT) prices, To Be Determined (TBD) prices, or Not Separately Priced (NSP) have been identified. Services with an estimated quantity of 'No Estimate' are required to be priced in the Attachment 2 schedules and shall be treated as pre-priced items. Pricing for all services other than pre-priced items, PT items, and NSP items shall be arranged using the online pricing application procedures described in Attachment 8. Unless otherwise provided, these Fixed Prices shall also include performance at night, overtime, Saturdays, Sundays, and Holidays; and services performed under heavy rain, other inclement weather, or service to tankers and ships carrying explosives. These requirements do not include performance during cyclones or typhoons except where ships are required to depart in advance of cyclones or typhoons as part of a typhoon or cyclone evasion plan. They also include all operating expenses including tugs, barges, trucks, personnel, and customs clearances and any other charges unless specifically exempted by the Government.

2) Port Tariffs will apply to those services which are based on Port Tariff rates established and controlled by Port Authorities. English translated copies of the Port Tariffs must be submitted to the Supply Officer of the ship entering a specific Port and to the NAVSUP Fleet Logistics Center Yokosuka (FLCY) email address specified at the time of contract award.

3) Fees for Husbanding Services cover regular and overtime labor of contractor personnel supporting the ships plus indirect expenses, including all management, overhead and office expenses. The husbanding fees also include costs for arranging supplies and services described herein, costs associated with attendance at periodic meetings and pre-deployment briefings. The husbanding fees represent total compensation for the contractor except for supplies and services with Fixed Prices.

4) OOTW Fees will constitute an all inclusive fixed fee based on a daily fee (per contractor person providing support) for "husbanding" the OOTW effort/logistics support.

5) Purchase Card Surcharge. The U.S. Government reserves the right to make payment by purchase card. All purchase card surcharges will be identified as a separate entry on each invoice. The Government will reimburse administrative surcharges for the lesser of actual fees or 5% for non-priced items only. Applicable purchase card surcharges shall be included in the quoted prices for pre-priced items.

6) If items are made available free of charge or at less than the quoted price by the Government, host nation, or port authority, only mobilization/demobilization charges, not to exceed the quoted unit price, may be

charged. If, for any reason, an item that would otherwise be provided by the Host Nation, Government, or port authority is not available, that item shall be provided by the HSP at the unit price quoted in Attachment 2.

C. PRICING SPREADSHEETS

Pricing spreadsheets are provided by Region as an attachment to this solicitation. The Lots marked in bold print in paragraph A above will be used for price evaluation purposes.

Important Notes

1) Pricing for supplies and services for all countries will be expressed in U.S. dollars and shall be billed in the units of the respective LINE ITEMs.

2) Definitions for the "Unit" abbreviations are as follows:

CM = Cubic Meter
DY = Day (refers to a 24-hour period beginning at start of service unless stated otherwise)
EA = Each
GL = Gallon
HR = Hour
JB = Job
LOT (LT) = A lot (LT) is a deliverable item or group of items with a separate and distinct unit price.
MT = Metric Ton
NSP = Not Separately Priced
PK = Package
PT = Port Tariff
TBD = To Be Determined

3) The Line Item Numbers consist of four numeric digits. XX replacement of any numeric digits make the descriptor generic and applicable to all LINE ITEMs in that series.

4) For pricing sheets identifying "All Other Ports" (AOP) or "All Ports" (AP), prices will be required, if not identified otherwise. Each price shall be a single, per-unit price for the specified supply or service that will apply to any of the ports included in the lot.

5) Historical port visit data for FY07, FY08, and FY09 (partial) has been provided as Attachment (3).

D. Definitions

Barge = Flat-bottomed displacement ships used for carrying or storing cargo, for separation between vessels and other structures, or as a work platform. Barges may or may not be self-propelled.

DESCRIPTION OF CONTRACTUAL SCOPE

This contract is for the provision of maritime husbanding support. It is not for husbanding agency. The holder of this contract is a U.S. Navy contractor. The holder of this contract is not an agent of the U.S. Navy and does not have the authority to bind the U.S. Navy.

Maritime Husbanding Support is defined as: Providing supplies and services as defined in the Performance Work Statement of the contract in support of Naval forces within a port area.

i. This support is provided by a Husbanding Services provider from a standard list of services under contract.
ii. For "Exceptions" items not supported by existing supply chains: e.g. fuel, subsistence, etc.
iii. Includes "Non-Priced" incidentals that cannot be identified in advance, but are in the scope of the contract.

1. The contract is for performance of Maritime Husbanding Support services at any berthing or anchoring location specified in the Attachment 2 schedules. Ordering officers of the United States Coast Guard (USCG) ships, United States Navy (USN) ships, Military Sealift Command (MSC) ships, U.S. Army vessels/ships operating in the Western Pacific and Indian Ocean are authorized to use this contract. The contract may also be used to support other U.S. Government organizations (e.g., National Oceanic and Atmospheric Administration (NOAA) that may require maritime husbanding support services.

For purposes of this paragraph, a U.S. Navy ship is any naval vessel, craft, ship, or service craft included within the scope of subparagraphs 2 and 4 of Article 0406, United States Navy Regulations, 1990. Ship size classifications that are used in the price schedules are listed as an attachment.

2. Husbanding services requirements that may be received by FLC Yokosuka from the other activities identified in paragraph 1 above are within the scope of this contract.

3. This is a Firm-Fixed-Price Indefinite-Delivery, Indefinite-Quantity (IDIQ) type contract for husbanding logistics services, services in support of Operations Other Than War (OOTW), and maritime husbanding support to Government teams visiting ports in connection with a ship visit. These service requirements are and defined in the Performance Work Statements (PWS). The "minimum" and "maximum" to be established per FAR Clause 52.216-22 are as follows:

Region	Minimum Quantity ($)	Maximum Quantity ($ Base and all option years)
Region 1, South Asia	$100,000	Sum of CLINs 0002, 1001, 2001, 3001, and 4001
Region 2, Southeast Asia	$100,000	Sum of CLINs 0003, 1002, 2002, 3002, and 4002
Region 3, Australia/Pacific Islands	$100,000	Sum of CLINs 0004, 1003, 2003, 3003, and 4003
Region 4, East Asia	$100,000	Sum of CLINs 0005, 1004, 2004, 3004, and 4004

The minimum contract dollar quantities per contract are for each contract as a whole and there are not separate additional contract dollar quantities for the option periods and/or individual LINE ITEMs.

4. The HS Contractor agrees to furnish the services or supplies at the fixed price listed in the schedules.

5. This contract is for a period of twelve (12) months, effective 30 days after award of the contract, with four (4) one-year options. The contract also includes the clause entitled FAR 52.217-9 Option to extend the Term of the Contract. If all options are exercised under FAR 52.217-9, the duration of this contract is 66 months.

6. The contract will not start for the following countries until the option expires under existing contracts:

Contract becomes effective on 1 Jun 2012 for South Korea.

7. In the event of contingencies in the open ocean such as submarine rescue, the Contracting Officer may issue an order to the contractor that is awarded the husbanding logistics contract in the nearest country in which there is capability to satisfy the requirement.

8. The contract will include the clause entitled FAR 52.237-7023 (Class deviation 2009-00010) Continuation of Essential Contractor Services. Contractors providing services designated as essential contractor services by a DoD component are expected to use their best efforts to continue providing such services, in accordance with the terms and conditions of their contracts even during periods of crisis.

9. For lots identified as "All other Ports" or "All Ports", the geographic scope of the lot, for Purposes of Lot Line Item XX21, OOTW is the entire country listed in the lot. The geographic scope of the lot, for all Lot Line Items other than XX21, is the port locations listed in each lot of the Attachment 2 schedules.

10. Incidentals within the scope of this contract may be classified within one of the following categories:
- Charter and Hire
- Utilities
- Anti-terrorism Force Protection
- Communications
- Transportation
- Lodging
- Port Handling Services
- Other Port Services (Reception Supplies and Services)
- Administrative Supplies

Performance Work Statement (PWS) for Husbanding Services

A. GENERAL OVERVIEW

1. OBJECTIVE

The primary objective of this contract is to obtain Maritime Husbanding Support for U.S. Navy ships and other Government teams supporting ship visits at the locations specified in the Attachment 2 schedules. In addition, the contract may be used to support Operations Other Than War (OOTW) in a respective Region.

2. SCOPE

a. The general scope of this contract and its general conditions are described above. This section provides the detailed Performance Work Statement (PWS) descriptions for applicable Line Items.

b. General Requirements

i. The HS Contractor shall provide timely delivery of quality goods and services at fair and reasonable prices to ships making port visits;

ii. The HS Contractor shall provide timely delivery of supplies and services conforming to this PWS.

iii. The HS Contractor shall assure that supplies and services arranged on behalf of the ship's Supply Officer (SUPPO) or authorized ordering officer conform to the general requirements of the contract and shall assist the SUPPO or authorized ordering officer with resolving any problems in meeting the requirements.

iv. The HS Contractor shall identify representatives to act as the principal points of contact between the HS Contractor and NAVSUP Fleet Logistics Center Yokosuka representatives concerning price and performance issues throughout the Region. These individuals shall facilitate communications among ships, Defense Attaché Offices (DAO), Port Services Officers and FLCY.

v. The HS Contractor shall obtain any necessary insurance, licenses and permits, and comply with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the U.S. Government.

vi. The HS Contractor shall ensure that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

vii. The HS Contractor shall ensure that subcontractors comply with these requirements.

3. PRICING

a. Except for Port Tariffs, To Be Determined (TBD), and Not Separately Priced (NSP) items, unit prices for all contract items described below shall be inclusive of all other costs including, but not limited to, all necessary equipment, licensed operators, liability insurance as required by local law, holiday and overtime costs, customs clearances, fuel and operating expenses. In those cases where prices are by Ship Class, Attachment # 1 applies. All contract prices are in U.S. Dollars (US$). All taxes and surcharges are included in the unit cost.

b. Fixed prices are required in the pricing schedule except for Port Tariffs, TBD items, or Not Separately Priced (NSP) items. Unless otherwise provided, these prices shall also include performance at night, in overtime, Saturdays, Sundays, and Holidays; and services performed under heavy rain, or service to tankers and ships carrying explosives. They also include all operating expenses including, but not limited to, tugs, barges, trucks, personnel, and customs clearances.

c. The pricing for all services requiring the use of transportation type conveyances (i.e., trucks, barges for LINE ITEMs for trash removal, CHT removal, potable water, landing barges, oily waste removal, etc) shall include the use of the equipment as required to complete the service in the statement of work without any additional charges for detention or demurrage.

d. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate LINE ITEM in the Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

e. All pre-positioning or pre-staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

f. Repositioning is defined as: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions. Where a ship is at anchorage and the Ordering Activity requests repositioning of equipment, the HS Contractor shall be entitled to additional fees for repositioning to be determined by use of:

   a. Priced sub lot line items, or
   b. Prior agreement of the Ordering Officer in cases where the total repositioning costs do not exceed $25,000
   c. Prior agreement of the FLCY Contracting Officer in cases where the total repositioning costs exceed $25,000.

   In the case of (c) above, the repositioning cost shall be reported and confirmed using the online pricing application procedures described in Attachment 8.

g. When the HS Contractor obtains a supply or service from a port or local government-type organization and the price of that item is set by a published price list (e.g. port tariff), then the HS Contractor shall be reimbursed for the published price of the item. The HS Contractor shall not be paid an amount in addition to the published price of the item. A copy of the published price list (e.g. port tariff) shall be provided to the Supply Officer at the time of initial boarding and to the FLCY email address specified at the time of contract award for each region with the pre-arrival cost estimate.

h. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and/or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged. For the purposes of this contract, one (1) day is equal to 24 hours and begins with the performance of service. For example, service from 1800 until 1800 the next calendar day is equal to one (1) day of service. In cases where the billing unit is ‘day’ and a full day of service is not used by the Ordering Activity, the HS Contractor shall be entitled to bill for one day of service. For example, if a sub lot line item with a billing unit of day were ordered and used for 30 hours, the HS Contractor would be entitled to bill for two days of service. In cases where the ship does not arrive at the time specified in the ordering LOGREQ and services are made available based upon the time requested in the ordering LOGREQ, billing for services may commence at the time requested by the Government unless notice of cancellation is provided by the Ordering Activity or the organization authorized to pass this information on behalf of the Ordering Activity.

i. Demurrage charges shall only be charged if the HS Contractor’s service is unduly delayed due to the fault of the U.S. Government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but, due to the fault of the government, was not attended to until 1500 hrs when pumping begins. The HS Contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs).

j. Port Tariffs will apply to those services that are based on the Port Tariff rates established and controlled by the Port Authorities. The abbreviation "PT" in the pricing schedule identifies the port tariff items that the HS Contractor is not required to price.

k. Fees for husbanding services cover regular and overtime labor of HS Contractor personnel supporting the ships plus all indirect expenses, including all management, overhead and office expenses. The husbanding fees also include costs for arranging supplies and services described herein, costs associated with attendance at periodic meetings with the exception of travel expenses described in this paragraph. The husbanding fees represent total compensation for the HS Contractor except for supplies and services with fixed prices or incidentals. Travel expenses incurred by the HS Contractor in support of a LRT or advance ship detachment will be reimbursed based upon actual receipts and in accordance with the JTR guidelines. Travel expenses will be reimbursed upon presentation of documentation to the ordering activity. Any air transportation will be reimbursed at the economy class fare.

l. OOTW will constitute a fixed fee based on a daily rate (per HS Contractor person providing support) for "husbanding" the OOTW effort/logistical support.

m. The U.S. Government reserves the right to make payment by purchase card.

n. The services at anchorage shall be provided at all anchorage points assigned by the local port authority.

o. As part of the husbanding service provider's proposal, a purchasing process and system for pricing items along with an Online Pricing Application(see Attachment 8 for the PWS for the Online Pricing Application requirements) was proposed and accepted by the Government which included sufficient safeguards so that the Contracting Officer or Authorized Government Representative may determine the prices as fair and reasonable. Pricing of supplies and services for items not pre-priced within a lot line item (e.g., incidentals, OOTW supplies or services, fuel, and provisions) shall be in accordance with the husbanding service contractor's proposed purchasing/pricing process (implemented by the online pricing application) that was accepted by the Government upon contract award.

p. The HS Contractor will be fully compensated for all services including pre-priced, port tariff, TBD, fuel, provisions, and incidentals. Port tariff items will be reimbursed at actual cost. Provisions (XX17) and fuel (XX18) shall also be invoiced and reimbursed at actual cost. Any HS Contractor fee for acquiring and arranging for these items shall be included in the corresponding Line Items XX17AA (for provisions) and XX18AA (for fuel).

q. Several Lot Line Item services are based on volume (e.g. trash removal, CHT, potable water, and oily waste removal). Volume-based services shall be priced at the same unit price specified in the Attachment 2 schedules, regardless of the class of vessel requiring the services. For example, a class V vessel requiring 1000 CM of CHT removal would be charged the same unit price as a class II vessel requiring 100 CM of CHT removal.

4. QUALITY

a. The HS Contractor shall provide the timely delivery of goods and services at fair and reasonable prices to ships making port visits, provide continuous oversight of costs and performance throughout the area covered by this contract, and make meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. The HS Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning price performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Operations Officers, and FLCY. The contract will not specify how the HS Contractor is to perform, but measurable performance standards are established in the Quality Assurance Surveillance Plan (QASP) to monitor contract performance during each ship's visit.

b. The quality of all services or supplies provided shall conform at least to commercial standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

c. The performance standards are explained in the Quality Assurance Surveillance Plan (QASP), Attachment 10. The performance standards are:

i. Timely submission of pre-arrival cost estimates (described para.5 (a) below) NLT 48 hours after receipt of the ordering logisitics requirement (LOGREQ) message. In the event that the LOGREQ is received after 48 hours prior to the ship's arrival, the pre-arrival cost estimate shall be provided as soon as practicable, but in no case later than 48 hours after receipt of the ordering LOGREQ;

ii. Timely submission of Logistics Support Services Repository (LogSSR) cost report within seven (7) calendar days from the completion of the ship's visit;

iii. Accuracy of the actual (final) LogSSR report and pre-arrival cost estimate;

iv. Ship's satisfaction with the contractor's services during the port visit as identified in the ship's port visit cost report; and

v. Adherence to the pricing process proposed and accepted by the Government for non-priced items and timely submission of all information and documentation within the Online Pricing Application.

vi. HS Contractor Suggestions for cost savings and/or cost avoidance.

d. The percentile goals are fixed for each factor within the QASP. The failure of the HS Contractor to meet the percentile goal for any factor will be investigated and evaluated by the Contracting Officer. The HS Contractor will be given the opportunity to refute an adverse assessment prior to finalizing the metric for a quarter.

5. LOGISTICS RESPONSE TEAM

In the event that a Logistics Response Team for a ship arrives in port prior to the ship's arrival, the HS Contractor will assist the logistics response team by providing logistical support and coordinating all requirements.

When the HS Contractor provides support for a Logistics Response Team so that it can perform its mission, the HS Contractor is entitled to bill at the "Subsequent Days" daily rate for husbanding services for each day of support provided "in person" to the logistics response team.

a. Pre-arrival Cost Estimate - The HS Contractor shall furnish to each ship and FLCY email address specified at the time of contract award, a pre-arrival cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the Attachment 2 spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-priced items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff." This estimate shall be provided to the ship and FLCY Yokosuka email address specified at the time of contract award for each region within 48 hours after receipt of the LOGREQ. This report shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs. The LOGREQ, when submitted by, under authority of, or on behalf of an Ordering Activity, is an order under this contract for pre-priced items. Non-priced items ordered on the LOGREQ become orders only after prices have been determined fair and reasonable and are agreed upon by the Ordering Officer or by a FLCY Contracting Officer. For non-priced items with an extended cost less than $25,000, either the Ordering Officer or the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended cost greater than $25,000, only the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. Required approvals and determinations of fair and reasonable pricing by the FLCY Contracting Officer (>$25,000 extended price)

will be made by confirming the prices and documentation posted to the online pricing application. Approvals and fair and reasonable determinations that may be made by either the Ordering Officer or FLCY Contracting Officer (<$25,000 extended price) may be confirmed orally, in writing, or by email by the Ordering Officer or FLCY Contracting Officer. Regardless of the approval method, reporting and documentation of all non-priced items other than port tariff items ordered under this contract must be made using the online pricing application. Orders placed by a LOGREQ may be cancelled in whole or in part as described in the Cancellation of Orders paragraph of this contract.

b. The LOGREQ cost estimate does not replace the HS Contractor's requirement to respond (i.e., info addressees on responses to the Ordering Officer) to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U.S. Defense Attaché's Office.

c. The HS Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

d. The HS Contractor shall coordinate with other U.S. Government Contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

e. The HS Contractor shall assist the ship's Logistics Response Team to include planning and coordination meetings.

f. Travel expenses incurred by the HS Contractor in support of a LRT or advance ship detachment will be reimbursed based upon actual receipts and in accordance with the JTR guidelines. Travel expenses will be reimbursed upon presentation of documentation to the ordering activity. Any air transportation will be reimbursed at the economy class fare.

6. SHIPS'S (LOGREQ) LOGISTIC REQUIREMENTS

U.S. Navy ships and/or FLCY Logistic Support Representative (LSR) or other activity authorized to pass LOGREQ requirements on behalf of Ordering Officers will provide, via e-mail, a copy of the unclassified "logistics requirements" (LOGREQ) message directly to the husbanding HS Contractor as described under "ISSUANCE OF ORDER" in Contract Terms and Conditions – Commercial Items (FAR 52.212-4 Addendum). This LOGREQ will contain the majority of supplies and services required by the ship, and will represent the order, for pre-priced items, upon which the HS Contractor shall begin performance.

a. A ship, an activity authorized to pass a LOGREQ on behalf of the ship (i.e. Port Service Office or DAO), or an authorized ordering activity may notify the HS Contractor of a forthcoming visit requiring husbanding services. Upon notification of a visit, the HS Contractor shall make such preliminary arrangements as necessary with port authorities, other U.S. Government Contractors, and other commercial firms to provide supplies and services requested by the ship. The HS Contractor shall confirm receipt of the ordering LOGREQ (to the activity who provides the LOGREQ to the HS Contractor) within 24 hours. Confirmation of receipt may be made by email to the activity passing the LOGREQ to the HS Contractor.

b. Ships will not provide force protection requirements in unclassified LOGREQ messages. The force protection requirements are specified in a classified LOGREQ issued by the ship to U.S. Government activities. The activity to which this message is addressed will contact the Contractor and pass the ship's force protection requirements for action. The HS Contractor shall confirm with the ship that these force protection requirements received have been actually ordered by the ship prior to beginning performance. The ship's Supply Officer (SUPPO) or Commanding Officer may also request additional force protection requirements not covered by the classified LOGREQ by email, telephone, or personally upon ship's arrival. The HS Contractor shall coordinate with the SUPPO before providing any additional force protection. If any other activity or individual orders force protection services (i.e. NCIS, etc) not covered in the ship's classified LOGREQ, the HS Contractor is required to immediately inform the ship and receive confirmation prior to beginning performance of these services. Organizations such as NCIS and DAO are

not the actual Ordering Officer and have no contractual authority to place orders. Only the Ordering Officer or the FLCY Contracting Officer has the authority to confirm or change an order.

c. LOGREQ Pre-arrival Cost Estimate. The HS Contractor shall provide each ship or ordering activity an estimate in response to an LOGREQ message issued to the HS Contractor by any method identified under "OC-7 ISSUANCE OF ORDER" clause. The pre-arrival cost estimate shall be submitted in accordance with Attachment (8)-PWS Cost reporting. The LOGREQ message is not an order for non-priced items until priced by the contractor and confirmed by an authorized ordering officer. The requirements shall be provided to the HS Contractor by ships, activities and individuals identified in the contract. This estimate shall be sent within 48 hours after receipt of the LOGREQ message and will explain any anticipated "additional" costs and include cost savings or avoidance recommendations. In a situation where the HS Contractor receives a LOGREQ message with less than 48 hours prior to the arrival of the ship, the HS Contractor shall make every effort possible to provide the required documentation and price estimate prior to the ship's arrival, but in no event later than 48 hours after receipt of the LOGREQ message.

7. INITIAL BOARDING

a. The HS Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival. Upon initial boarding the HS Contractor shall provide all emergency telephone numbers, i.e. police, hospitals, firefighters, etc. In addition, the HS Contractor is required to provide the emergency telephone numbers for shipboard generated industrial waste (SGIW) disposal and hazardous material (HAZMAT) and oil spill response and reporting procedures to all ships upon initial boarding or in a LOGREQ reply. The HS Contractor shall visit the ship at least once per day and shall be available on call at all times (24 hours per day, seven days per week) to assist the ship with requirements and to resolve problems.

b. The HS Contractor shall brief the designated ship representative about Contractor-provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. The HS Contractor shall provide its POC information with 24-hour contact phone numbers.

c. The HS Contractor shall provide the SUPPO with copies of applicable port tariffs and current prices for frequently ordered services, and with any other information provided by FLCY for distribution. Copies of applicable port tariffs and current prices for services shall be in English. The HS Contractor shall be prepared to take additional ships' orders for supplies or services not placed in the ordering LOGREQ. All orders placed after the ship's arrival shall be reported and prices confirmed (if non-priced items) using the LogSSR reporting requirements and online pricing application procedures described in Attachment 8.

8. POINT OF CONTACT

a. Based upon the ship's orders, the HS Contractor shall ensure the timely filling of all ship's requirements. The HS Contractor shall designate at least one senior company official to be the Point of Contact (POC) under this contract for logistic and contractual support. The POC shall be fully fluent in English. The HS Contractor is required to designate the POC at the time of contract award.

b. All HS Contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port. All correspondence shall be in English. All electronic communication between visiting vessels and the HS Contractor shall be copied to the FLCY Contracting Officer and Logistic Support Representative emails specified at the time of contract award. The HS Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer from the HS Contractor.

9. ORDERING SUPPLIES AND SERVICES & PROVIDING GENERAL ASSISTANCE

The ship(s) will submit LOGREQs that include requests for a variety of services and supplies. The first obligation of the HS Contractor is to verify if any of the requested services and supplies can be provided free of charge by the host nation.

DELETED.

If services and supplies are not available free of charge from the host nation, they must be provided if within the scope of this contract. The Contracting Officer will be notified if there is a question regarding the scope of the contract. If these services and supplies are not priced in the contract, or if these services and supplies are available under other U.S. Government contracts, the following applies:

a. Passing Requirements to other U.S. Government Contractors: The HS Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts (e.g., Prime Vendor or Defense Energy Supply Center (DESC)) for various supplies and services required. This husbanding service includes all necessary actions to facilitate the acceptance of supplies or services rendered under U.S. Government contracts. Any disputes or discrepancies arising from the order will be resolved directly between the SUPPO and the other Contractor(s). The HS Contractor shall also facilitate any necessary force protection vetting requirements so that other U.S. Government contractors can perform their contractual requirements.

b. The U.S. Government will not pay the HS Contractor for any personal requests from individual crewmembers, whether military or civilian.

c. The HS Contractor shall install all ordered equipment upon the ship's arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

d. Money Exchange Services: The HS Contractor shall arrange for authorized moneychangers to exchange U.S. dollars for ship personnel into local currency. Money Exchange services shall be made available onboard ship to crewmembers at least two hours daily with buy-back service on the day before the ship's departure. The moneychangers may include a commission of not more than plus or minus 1.5% difference from the Official Exchange Rate. A locally-available and verifiable currency exchange rate may be used as the Official Exchange Rate. Verification of the exchange rate shall be provided to the Ordering Activity at the time of service. The HS Contractor shall maintain adequate records justifying its basis for determining the Official Exchange Rate and shall make those records available to the U.S. Government upon request. This Official Exchange Rate will be used for financial conversions not covered by payments in U.S. dollars.

e. Laundry Services: The HS Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Laundry and dry cleaning services that are required by the ship from the laundry and dry cleaning vendor will be ordered from the vendor by the ship. Payment for services will be made by the ship to the vendor rather than through the HS Contractor. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure. The HS Contractor shall assist in resolving vendor billing discrepancies.

f. Interpreter Services: The HS Contractor shall provide interpreter services to assist the Supply Officer to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract. This limited set of interpreter services is required under the Management Services LINE ITEM and is separate from the interpreter services required under LINE ITEM XX18.

g. Mail Delivery Services: The HS Contractor shall provide daily mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

h. Morale Welfare and Recreation (MWR) Services: The HS Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) Contractor servicing the ship. If an ITT contract has been awarded which covers the location of the ship's visit then the HS Contractor must refer all MWR requests to the authorized ITT Contractor. If there is an ITT contract, the ITT Contractor is the U.S. Navy's sole representative for this service. Under no circumstances will the HS Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship. In the absence of an MWR contract, the HS Contractor shall provide advance information on all recreational/liberty activities available in local area. Information (with associated costs) shall include, but is not limited to, sightseeing tours, entertainment, sporting events, transportation, lodging and visitor tips. The HS Contractor shall coordinate all recreational/liberty requirements communicated by the ship. The HS Contractor shall disseminate information on the full scope of recreational/liberty opportunities, sightseeing tours, entertainment, sporting events, local area transportation and lodging. The HS Contractor shall plan, coordinate and assist as necessary, in port requests for entertainment, athletic competitions, sightseeing tours and unit parties/picnics.

i. Immigration, Customs and Visa: The HS Contractor shall assist ship personnel with immigration, customs and visa requirements into the country of the port visit.

j. Medical Emergencies: If requested, the HS Contractor may be required to make arrangements for emergency medical treatment of ship's crewmembers while the ship is in port. In cases where a member is airlifted into a port by the ship, the HS Contractor, in coordination with the U.S. Consulate/Embassy, will arrange for proper medical care until the member can be returned to the ship, or evacuated to the United States. If there are costs associated with arranging these services, the HS Contractor shall obtain approval from the SUPPO/Contracting Officer prior to providing the support.

k. The HS Contractor shall facilitate the ship's timely departure. The HS Contractor shall provide timely invoices of provided services and supplies to the Supply Officer at the time of the pre-sailing visit. The HS Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided. The HS Contractor shall remove all provided equipment.

l. Pre-Sailing Visit: The HS Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the HS Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. Written receipt for acceptance of all services shall be obtained during this visit. The Ordering Activity shall provide a check or DD1155 for all finalized invoices prior to departure where the content of the invoice is not disputed. The HS Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The HS Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The HS Contractor's point of contact for this information shall be the Commanding Officer, Command Duty Officer, Operations Officer, or the Officer of the Deck.

10. UNIQUE / PARTICULAR SITUATIONS

a. Assisting two ships: If a ship, not in port, requests assistance from the HS Contractor, the ship will pay the husbanding services subsequent days' fee. However, if at the same time, using the same helo or other transport, the HS Contractor provides service to two ships (e.g. delivery of fresh fruits and vegetables (FFV) at one time for two ships using the same helo), the HS Contractor is entitled to bill for only one subsequent day.

b. Under Class I size vessels (based on the number of personnel): If two small vessels, under the size of Class I, IA or IB come into the port together, submit consolidated requirements, and have approximately the same

schedule, the HS Contractor will only charge for one Class I, IA, or IB vessel vice two. However, if only one such vessel comes into port, the HS Contractor will charge full Class I rates.

c. Frequent ship visits between ports: If a ship is frequently visiting two or more ports, it will be charged the first day rate for the first day in each port. If the ship returns to one of the ports within 3 days (i.e. prior to the fourth calendar day), subsequent visits to that port will be charged at the subsequent day rate. On the fourth day or subsequent day, the ship will be charged the first day rate (example: If the ship departs Friday and comes back on Saturday, Sunday or Monday, it will be charged subsequent day fees. If the ship comes back Tuesday, it will be charged the first day rate).

d. If a ship comes into port and does not notify the HS Contractor or request any assistance, there will be no fees (e.g. if just dropping off passengers). If vessels request assistance of any kind, they will be charged first or subsequent days, subject to the conditions in paragraphs (b) and (c) above.

e. Ship Repair: If ship repair is required and performed in one of the ports covered by this contract, husbanding services will be provided only if requested by the ship. U.S. Navy Ships in shipyards at locations covered by this contract may order supplies and services from this contract without the requirement to also order Management Services.

f. The HS Contractor is required to be able to simultaneously husband thirty (30) ships throughout the Region, including up to two (2) Class V and two (2) Class IV ships in a single port simultaneously.

g. Order of Priority of Usage: The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities if the port requires use of port-provided supplies and services or, if the port-provided supplies and services are less expensive than similar services provided by the HS Contractor or its subcontractors, or finally provide it themselves to include subcontractors. Where the reasonable cost of mobilization/demobilization for U.S. Government owned equipment exceeds the quoted price of the sub lot line item it is intended to replace, the HS Contractor shall use the least cost alternative to meet the requirement. Information on availability of host nation provided services, where available, is annotated on the Attachment 2 pricing schedules. If, for any reason, an item that would otherwise be provided by the Government, host nation, or port authority is not available, that item shall be provided by the HS Contractor at the price quoted in the Attachment 2 pricing schedules.

h. MARK V High-Speed Interceptor Craft (HSIC): MARK V (HSIC) Special Operations Craft may be in port or in the vicinity for up to 90 days conducting operations. The HS Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and only one Management fee shall be charged when husbanding two MARK V vessels at the same time.

i. For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The HS Contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit.

j. Hazardous Material Disposal (HAZMAT)/Shipboard Generated Industrial Waste (SGIW): The HS Contractor shall not dispose/offload any hazardous waste requirements unless approval has been provided by the appropriate Navy Environmental office. Currently the only authorized locations approved to offload HAZMAT are Apra Harbor, Guam; Yokosuka, Japan; Sasebo, Japan; Hong Kong SAR and Singapore.

k. Other Personnel - Other U.S. personnel conducting business at locations covered by this contract may order off the contract without incurring Management Service Fees. Support of ‘Other Personnel’ is limited to Logistics Response Teams and ship detachments (e.g. ship’s beach detachment, site survey team, advance force protection teams) in direct support of a ship visit. These orders do not involve continuous

management of husbanding services and may be for items such as vehicles, phones or other services. For example these services may be ordered from the HS Contractor when hotels, transportation and rental of cellular phones are required for the personnel described above.

l. Short Notice Orders: The contractor shall perform all orders that are issued within the minimum order lead time annotated for each lot in the Attachment 2 schedules. If orders are issued with less than the required minimum order lead time prior to the start of performance, the contractor shall use its best efforts to provide the required supplies and services in accordance with the order's delivery schedule but shall promptly inform the government if it will not be able to meet the delivery schedule.

m. The minimum order lead time applies to all Lot Line Items with the exception of XX40, Operations Other than War, which remain subject to the requirements stated in Attachment 9. The HS Contractor shall provide all requested services, to include mobilization of required equipment, when the Ordering LOGREQ is received from the Ordering Officer or their representative with a lead time greater than the number of days specified in the Attachment 2 schedules for the Lot location where performance is to take place.

11. LINE ITEM DESCRIPTIONS

a. LINE ITEM XX01 - HUSBANDING SERVICES (ANCHORAGE AND PIERSIDE)

The HS Contractor shall provide husbanding services to ships visiting the ports in the Region covered by this contract. Line Items XX01 require that the HS Contractor perform all services and provide all supplies necessary to fully comply with the tasks and responsibilities described at paragraphs 1-10 above unless a task or responsibility is specifically included in a separately-priced Line Item below. The HS Contractor's responsibilities under these Line Items start prior to the arrival of the ship and continue after the ship's departure.

The price for Line Items XX01 covers all regular and overtime labor of HS Contractor's personnel supporting the ships plus indirect expenses, including all management, overhead, office expenses, and profit for performing tasks required by these Line Items.

The husbanding fee is based on the Class of the ship and broken down by the First Day and Subsequent Day of the ship visit. A husbanding fee may be provided to the HS Contractor for services rendered prior to the ship's visit, i.e. assistance to the ship's logistics response team.

b. LINE ITEM XX02 - TRASH REMOVAL

1. Trash removal service is the collection and disposal of refuse (i.e., trash) including liquid, semi-liquid, or solid garbage. Refuse does not include explosives and incendiary waste, or waste contaminated by medical and radiological processes.

2. The HS Contractor shall remove and dispose of "refuse" from the ship and areas surrounding trash bins, as well as any spilled refuse. The HS Contractor shall provide dedicated refuse bins to the ship. The HS Contractor shall collect all loose refuse placed adjacent to refuse bins. The HS Contractor shall immediately clean up any spilled refuse. The HS Contractor shall properly dispose of all collected refuse.

3. For ships at pier side, the HS Contractor shall place containers or trucks within twenty-five (25) meters of the ship or as permitted by port regulation, or barges alongside the ship. The HS Contractor shall empty the containers or barges when full and shall assure their continuous availability for trash disposal.

4. For ships at anchorage, the HS Contractor shall remove trash at the times agreed to by the HS Contractor and Supply Officer. The frequency of removal shall be as follows:

SHIP CLASS	DAILY FREQUENCY
I, IA, IB	1
II	2
III	3
IV and V	Continuously Via Dedicated Barge when permitted

5. For trash collection at anchorage, the trash barge shall be available 24 hours a day (where not contrary to law or port regulation) with suitable self-fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

6. For trash collection by barge, the HS Contractor shall provide trash barges/scows (with tug service if barge is not self-propelled) for ships at anchorage. The barges shall be completely empty at time of arrival at the ship. In situations where an empty barge is not available, the contractor shall provide a system to measure the volume of trash deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of the trash. All trash barges/scows shall be properly fendered to prevent damages to U.S. Government vessels. The HS Contractor shall have ready access to sufficient barges and equipment to support at least two (2) ships at anchorage simultaneously. The barge's crew shall be entirely responsible for the tending of lines and for barge's security. The movement of trash from the ship to the barge shall be performed with care by the ship's sailors and in the manner ensuring the safety of the HS Contractor's crew and barges. Any instances of unsafe practices shall be brought to the attention of the ship's Commanding Officer, to ensure that corrective and preventive action is taken.

7. In instances of bad weather or emergency where the ship must depart on short notice, the HS Contractor shall remove barges within four hours of being directed to do so by the ship. Should a vessel with a trash barge alongside experience an emergency where the ship must depart, the SUPPO will advise the HS Contractor at least four (4) hours in advance for the barge pick-up at no additional cost to the U.S. Government.

8. The HS Contractor shall submit, as an attachment to the invoices, a document that certifies the quantity collected and the name of the disposal plant where the trash will be disposed. The HS Contractor is also responsible to follow any environmental regulations required by each country. The HS Contractor is required to keep all disposal certificates and shall make them available to FLCY upon request.

9. Whether at anchor or pierside, U.S. Government personnel will dump the trash on the barges or in the containers.

10. Any spillage of refuse in the course of the removal operations shall be cleaned up immediately by the HS Contractor. Refuse containers, when used and when emptied, shall be returned to their original position with the lids (if any) replaced thereon.

11. The HS Contractor shall be paid based on the ACTUAL CUBIC METERS of trash removed. The HS Contractor shall be entitled to bill for 60 CM under sub lot line items XX02AC where the actual volume of trash removal is less than 60 CM (per order).

12. Where trash is required to be segregated, the Ordering Activity shall be required to segregate the material at the time of disposal. The HSP shall be responsible for providing separate containers for each vessel, clearly marked with the required categories and for informing the Ordering Activity, upon arrival, that segregation is required. If the Ordering Activity does not segregate trash as required, the HSP shall inform the Ordering

Activity and Logistic Support Representative (LSR) prior to departure and bill for the cost of trash segregation under Line Item XX20, Incidentals within 48 hours after the vessel's departure.

c. LINE ITEM XX03 - FLEET LANDING

1. When ordered by the ship, the HS Contractor shall furnish services/supplies for the fleet landing area. The following is a list of the basic supplies and services that a ship may need. It doesn't cover all the services that may be ordered by a ship for fleet landing.

2. FLEET LANDING. HS Contractor shall provide the sub-line items specified in this Line Item and shall provide a unit price for each sub-line item. The unit price shall be per day for each item. Mobilization/demobilization charges shall be included in sub-line item price.

   The Fleet Landing LOT consists of the following:
   a. One (1), 40-feet refrigerator unit or two, 20-feet refrigerator units, with required power to operate the units.
   b. PORTABLE TOILET UNIT SERVICES. The unit price shall be for a single commode and one (1) urinal. The daily rate shall include pumping and cleaning as many times as necessary to ensure clean, sanitary condition and providing all chemicals, cleaning products and toilet paper. The HS Contractor shall check toilet facilities at least every six (6) hours to ensure cleanliness.
   c. PORTABLE ELECTRIC GENERATORS. The HS Contractor shall provide a portable, gasoline powered, electric generator capable of supplying power to portable lighting and miscellaneous portable electrical equipment (radios, stereos, hand tools, etc.). Generator shall be at least 5KW with circuit breaker protector. Daily rate includes fuel, oil, and necessary consumables to operate the generator, transportation, set-up, dismantling and labor.
   d. Chairs (each per day)
   e. Long tables - approximately 2 meters in length (each per day)

   Any other supplies, services or quantities of supplies and services other than those listed above shall be provided in accordance with the procedures set forth in LINE ITEM XX20.

d. LINE ITEM XX04 – BROW SERVICES

1. Most US Navy vessels carry brows. However, the use of their own brows is dependent upon the type of mooring obtained and other vessel considerations. The HS Contractor shall provide the brows specified in the schedule as ordered by the ship. A range of brow sizes is provided in each of the sub lot line items of lot line item XX04. All brows provided by port authorities, host nation, or US Government shall be billed at cost as port tariff items. Mobilization, demobilization, setup and placement shall be included in the proposed unit price of all XX04 sub lot line items. In cases where brows are provided by port authorities, host nation, or US Government free of charge, at reduced cost, or for mobilization/demobilization costs only; these costs will be reimbursed without additional fees or markup.

2. Due to the height difference between the submarine deck and pier, the HS Contractor provided submarine brow (must afford personnel a smooth and safe transit when entering or exiting the submarine deck. The submarine brow must be capable of supporting shore power cables without damaging the cable.

3. Brows shall be provided free of charge by Royal Navy Liaison Office (RNLO) in Sembawang port for ships berthed at piers 5, 6 , and 7.

4. The HS Contractor shall be entitled to bill for 4 hours of usage under this line item when actual usage is less than 4 hours (per order). Billing for brows shall be calculated up until the scheduled time of departure. Discrepancies, if any, between the number of hours billed at the pre-sailing visit and the actual number of hours used shall be invoiced and paid in accordance with the procedures in OC-1, Invoices and Payments, and the PWS paragraph 9.l. The order of priority of usage in paragraph 10.g. applies.

5. Mobile Crane Services

The HS Contractor shall provide mobile crane services (shore crane) with operator(s). The HS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The HS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each mobile crane ordered.

Crane services under this Line Item are for land cranes only. Floating cranes are to be provided and billed under Line Item XX20 procedures if required.

6. Forklift Services

The HS Contractor shall provide forklift services with operator(s). The HS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. Upon the Supply Officer's request, the HS Contractor shall provide information concerning forklift/lifting capacity. The forklifts provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The forklifts shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The HS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each forklift ordered.

e. LINE ITEM XX05 – SHIP MOVEMENT SERVICES

1. The HS Contractor shall arrange pilots, tugs, and line handlers as ordered. The HS Contractor shall coordinate with port authorities, as necessary, to ensure that the services are available at the times requested. It should be noted that the port authority or other authorized sources provide these services, and are, therefore, to be priced in accordance with current tariff rates.

2. The HS Contractor shall provide tugs to bring ships to and from berthing locations. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

3. Only if pilots, tugs, or line handlers are not available through the port authority, the HS Contractor shall use commercially available sources and priced in accordance with the unit quantities indentified in the pricing schedule (LINE ITEMs XX05AA, XX05AC, XX05AD and XX05AG).

f. LINE ITEM XX06 - WATER FERRY/TAXI SERVICES

1. The HS Contractor shall provide water taxis to transfer ship personnel to and from the ship and the fleet landing in accordance with Attachment 16 - Water Taxi Specifications. At the commencement of service, the HS Contractor is required to advise the ship of scheduled breaks and any changes to the taxi service schedule. The HS Contractor shall provide water taxi service when the vessel is expected to be at anchorage for twenty-four (24) hours or more. Water taxi service shall be always available, with the exception of inclement weather, during the two (2) one-hour meal breaks and during refueling. At the commencement of service, the HS Contractor is required to advise the ship of scheduled breaks and any changes to the taxi service schedule.

2. The hourly rate for taxi water service shall include a minimum of two (2) qualified operators (a driver and one other operator), any other helpers or crew members required by local authorities, all insurance, fuel, holiday surcharges, overtime, and other operating expenses. Operator qualifications are set forth in paragraph (16) below.

3. Service begins when the first water taxi is alongside the designated pick-up point and ends when the last passenger disembarks from the water taxi at the designated drop-off point as ordered by the ship. However, when required to arrive early for inspection as a force protection measure, service begins at time of inspection. The HS Contractor shall be entitled to a six (6) hour minimum rental fee in cases where actual usage is less than 6 hours (per order).

4. Deleted

5. If the HS Contractor cannot provide the size of water taxi ordered, the HS Contractor shall provide a larger size water taxi, or a combination of water taxis, that in total capacity equates to the size of the water taxi ordered. In any event the ship will be charged for the size of the water taxi ordered. For example, if one (1) 250-pax water taxi is ordered and is not available, then two (2) 125-pax water taxis shall be provided for the rate of one (1) 250-pax water taxi if acceptable to the Ordering Officer.

6. The HS Contractor shall ensure that the water taxi is in sound mechanical condition and meets all safety standards required by local laws and regulations to preclude breakdown and injury. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of the port or the country in which the port is located. Apart from compliance with local laws and regulations, the HS Contractor shall meet all additional requirements as set forth throughout the PWS. Water taxi shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, and fitted for service required. Further, water taxi shall be in a clean condition when presented for service and shall be free of debris. The water taxi shall be sufficiently clean so as not to soil passengers, their clothing, or possessions with dirt, grease, oil, or other matter. If the water taxi does not meet the requirements of this paragraph as determined by the Ordering Officer, the U.S. Government shall have the right to reject the water taxi for performance of services.

7. The HS Contractor shall ensure that all water taxis are fully licensed, registered, and insured, including adequate liability insurance, in accordance with local laws and regulations.

8. Each water taxi shall be equipped with at least one clean and serviceable life jacket for each passenger and crewmember, and all jackets shall be stowed in a readily accessible place.

9. Except as otherwise specified herein, the service shall include all equipment needed to transport personnel between the vessel anchored in the outer harbor, or in the inner harbor, fleet landing, or any designated pier or berth within the port. If it becomes necessary to change the landing point of the water taxi (pier or berth) within the port, the HS Contractor shall dock at the new landing point. In the event this occurs, it will be considered to be a "Change" to the contract. Any entitlement to and any amounts of additional or reduced charges shall be determined pursuant to the clause entitled "Changes" that is part of Contract Terms and Conditions – Commercial Items (FAR52.212-4)".

10. All water taxis used by the HS Contractor shall provide overhead covering.

11. Before the commencement of any services under this contract, the HS Contractor shall make the water taxi available to the Ordering Vessel's Commanding Officer or designated representative for inspection.

12. The following information shall be conspicuously posted in English and the language of the country in which the port is located:

    a. Current operator's/captain's license.
    b. Passenger/weight capacity limits notice.
    c. Location of life jackets and other life saving equipment.
    d. Location of all exits indicated in large letters.
    e. Emergency procedures.

13. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

14. 'Adverse weather' conditions are weather conditions in which operations of water taxis are unsafe for passengers and shall be determined by the Commanding Officer, Command Duty Officer, Operations Officer, Officer of the Deck, or local port authority. Operation of the water taxi shall be in a safe and seaworthy manner. Operation of water taxis is not allowed under adverse weather conditions.

15. The consumption of alcoholic beverages shall not be permitted aboard the water taxi.

16. Operator Qualifications: All personnel or employees of the HS Contractor operating water taxis, shall have all certification required and issued by the law of the country in which the port is located for the operation of the type, class, or size of water taxi being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the water taxis are to be operated to ensure the water taxis are operated in a safe and seaworthy manner. At least one operator on each boat must speak English. The HS Contractor is required to provide a minimum of two (2) qualified operators for each water taxi at all times.

17. Security: During the term of this contract, the ship(s) to be serviced will provide adequate and sufficient security personnel for maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the ship's Commanding Officer or designated representative. When such naval personnel are embarked in a HS Contractor-operated water taxi, he will be responsible for the good order and discipline of naval personnel.
18. In the event of a water taxi breakdown, immediately prior to, or during a trip, the HS Contractor shall immediately provide a replacement water taxi that complies in all respects with this contract, at no additional cost to the U.S. Government. If a water taxi is not operable when required under this contract, the HS Contractor shall immediately provide at no additional expense to the U.S. Government, a replacement water taxi which complies in all respects with this contract.

19. Any personal articles or items found on the water taxi after completion of each trip shall be turned over to the ship's Security Officer or his direct representative.

20. To verify a claim by the HS Contractor for any damage or destruction caused by the U.S. Government, it shall be the responsibility of the HS Contractor to ensure that the water taxi is jointly inspected before and after each trip by the HS Contractor and an authorized representative of the U.S. Government.

21. When providing water taxi service to aircraft carriers and amphibious helicopter carriers, the water taxi height depends on carrier deck overhang and pontoon width, i.e., the wider the pontoon the farther out the water taxi will be located with subsequent increased clearance. The requirement is that pontoon width/water taxi height/deck overhang dimensions must be such that the water taxi is able to make aft, port and starboard side approaches with adequate clearance between water taxi superstructure and carrier deck overhang.

22. Inspection and acceptance criteria for water taxi services. The Commanding Officer or his designated representative of the ARMY/USS/USNS/USCG ship shall inspect and accept all liberty boats/water taxis prior to transporting any personnel. Each order for liberty boat/water taxi services is made on the basis that the request is to be considered a final order/obligation of the US Government only after each water taxi has been inspected and accepted by the ship's representative. The ship's Commanding Officer is solely responsible for the safety of his crew and the subsequent acceptance of liberty boat/water taxi services. Upon ships, Commanding Officer's security personnel can inspect the water taxi's personnel. The following features or components may be inspected prior to acceptance.

    a. HULL
        i. Watertight integrity of weather decks, bulkheads, watertight closures and interior hull structure.
        ii. Superstructure (including masts and stacks).

iii. Railings, bulwarks and their attachment to hull, especially guardrails and lifelines.
iv. Provisions for drainage of seawater from exposed decks.

b. MACHINERY
i. Main propulsion and auxiliary machinery essential to operation of craft.
ii. Sea and bulkhead closure valves.
iii. Bilge suction strainers and dewatering systems bilge pumps to be tested by operation.
iv. Bilges free of flammable liquids.

c. ELECTRICAL
i. Cables.
ii. Navigation, deck and emergency lighting.
iii. Rotating electrical machinery, e.g., generators and motors.
iv. Storage batteries.

d. LIFESAVING EQUIPMENT
i. Life preservers sufficient number for maximum capacity of craft, accessible and in satisfactory condition.
ii. Life raft(s) and hydrostatic release (where applicable) sufficient for maximum capacity.
iii. First aid kits, life rings and distress lights.
iv. Distress signaling devices.

e. FIRE FIGHTING EQUIPMENT
i. Fire pump subject fire hose to fire pump pressure.
ii. Portable fire extinguishers.
iii. Fixed systems, e.g., CO2 cylinders

f. STEERING APPARATUS

g. MTSC SYSTEMS AND EQUIPMENT
i. Harbor charts.
ii. Ground tackle and mooring lines.
iii. Whistle/fog horn, bell.
iv. Compass.
v. Radar.
vi. 2 way radio capable of bridge to bridge communications.
vii. Current licenses.

23. In the event the U.S. Government rejects a water taxi, the U.S. Government shall not be liable for any costs the HS Contractor incurs in presenting said water taxi for inspection.

24. The HS Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times. Logs must be available upon request for U.S. Government review and inspection.

g. LINE ITEM XX07 – GENERAL CHARTER & HIRE ITEMS

YOKOHAMA OR COMPARABLE TYPE FENDERS

1. The HS Contractor shall furnish Yokohama or comparable type fenders for all classes of ships in accordance with the Schedule of Supplies and Services. Fender size is not specified as this is a performance based service. Fenders provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX07AC). The fenders quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee PER Yokohama or comparable type fender, and

there is another SUBLINE ITEM for all costs associated with installation, and removal of one fender, as well as round trip costs associated with transport of the fender from another port, if required.

2. Rental is on a daily(24-hour) basis, per fender. Installation, removal, and transportation are charged as a "lot" per fender. The HS Contractor shall be responsible for securing the fenders to the pier.

3. The HS Contractor shall provide fenders with a minimum of two (2) mooring lines.

4. Fenders shall be provided free of charge by Royal Navy Liaison Office (RNLO) in Sembawang port to ships berthed at piers 5,6, and 7.

5. Sub lot line item XX07AH is applicable only to submarine fenders. Sub lot line item XX07AB shall be used for all other class 1 vessels. Recognizing that mobilization/demobilization costs for submarine fenders (XX07AH) vary significantly from those of other type fenders, transportation charges for submarine fenders shall not be subject to the quoted transportation charges of XX07AG. Instead, all transportation, storage, setup, mobilization and demobilization charges associated with submarine fenders (XX07AH) shall be included in the quoted price of this sub lot line item.

INTERPRETER SERVICES

The HS Contractor shall provide interpreter services when ordered. The interpreter shall be fluent in both spoken and written local language and English.

OILY WASTE REMOVAL

1. Oily Waste is defined as any liquid petroleum product mixed with wastewater and/or oil in any amounts, which, if discharged overboard, would cause or show sheen on the water. The HS Contractor shall dispose of any combination of oily waste and grey water as oily waste.

2. Oily Waste is measured by Cubic Meter (1CM = 264.2 Gallons). The HS Contractor shall submit, as an attachment to the invoices for disposal services, a document verifying the quantity collected and the name of the disposal plant where the oily waste have been or will be disposed. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

3. The HS Contractor shall comply with the environmental requirements of each country where oily waste is disposed and shall be liable for any costs incurred as a result of the HS Contractor's failure to comply with such requirements. The HS Contractor shall keep all disposal certificates and shall make them available to FLCY upon request. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped. The HS Contractor will submit a request to FLCY for the difference, accompanied by disposal certificates. FLCY will investigate and resolve the issue, and will arrange for the ship to pay any amounts determined to be due.

4. Oily Waste Removal involves the collection of Oil and Aggregate Water generated by the ships. The requiring vessel will pump this waste into HS Contractor-provided tanks or barges. The HS Contractor shall provide all equipment and facilities required to remove oily waste, including hoses and connections compatible with the ship being serviced. The HS Contractor shall provide hoses of sufficient length from equipment to the ship with either 2.5" or 4" quick disconnect cam lock fittings.

5. In all cases when a ship orders oily waste disposal services, the HS Contractor shall invoice and will be paid the contract schedule's minimum daily quantity of 60 CM for providing the disposal services, even if the oily waste quantity pumped and disposed that day is less than the 60 CM minimum quantity. Payments over the minimum daily quantity of 60 CM shall be for the amount of oily waste cubic meters removed at the appropriate per CM rate in the schedule. The HS Contractor shall not invoice any charge (either the daily minimum or the additional per CM rate) for ships that do not order disposal services.

6. In the event the HS Contractor subcontracts oily waste disposal, the HS Contractor shall be liable for any costs incurred as a result of the disposal operator's failure to comply with local requirements.

7. The HS Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed. The Government reserves the right to independently verify the volume of discharge using certified flow measuring devices.

8. When removal is done via barge, the HS Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

PRATIQUE/AGRICULTUAL SERVICES

The HS Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

PORT DUES

1. In some countries, the port authority or concessionaire charges port dues to the visiting ship. The port dues may be based on the length or based on the gross tonnage of the ship. Only 'FINAL' invoices will be accepted for payment.

2. Attachment (19) of the solicitation lists some of the unclassified agreements. However, this is not a complete list of all the relevant countries.

3. Clause OC-10, titled Host Country Agreements, outlines the limitation of the U.S. Government to pay for certain port dues, fees, or use fees.

4. Sub lot line items XX07AS and XX07AT are intended to provide a suitable landing area for ship's boats or water taxis, when ordered. Items XX07AS and XX07AT are also intended to provide a suitable area, adjacent to the ship berth or water taxi point of debarkation, for placement and operation of the fleet landing lot items ordered under lot line item XX03. The fleet landing sub lot line items are detailed in the PWS paragraph c.2.

5. Sub lot line items XX07AQ, XX07AS, XX07AX, and XX07BA shall only be used when the port is not publicly owned/operated.

STEVEDORE SERVICES

The HS Contractor shall provide stevedores for general labor. Billing shall be at the hourly rate for worker.

BREASTING BARGES

1. The HS Contractor shall furnish camels in accordance with the Schedule of Supplies and Services. The camels shall be flat surface platforms to be placed alongside the pier and sufficiently capable of breasting the ship away from the pier or from other ships.

2. The HS Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions. If

sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

3. The HS Contractor shall place additional fenders between the breasting barge and the ship when requested.

4. Breasting barge size is not specified as this is a performance-based service. The HS Contractor is responsible, as part of its understanding of the requirement, for determining the appropriate barge size for each combination of vessel class and berthing configurations required at each lot. Barges provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX07BF). The barges quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee for the barge, and there is another SUBLINE ITEM for all costs associated with installation, and removal of the barge, as well as round trip costs associated with transport of the barge from another port, if required.

5. Rental is on a daily (24-hour) basis, per barge. Installation, removal, and transportation are charged as a "lot" per barge.

LANDING BARGES

1. The HS Contractor shall furnish landing barges (i.e. pontoons) in accordance with the Schedule of Supplies and Services. The landing barges shall be flat surface barges for positioning at the stern or side of the vessel to serve as a loading/unloading platform for water taxi personnel or cargo; they shall not interfere with the operations of the ships' elevators or other equipment. Although landing barges are primarily used for class IV and V vessels, they may be ordered for use with any class vessel.

2. Landing barge size is not specified as this is a performance-based service. The HS Contractor is responsible, as part of its understanding of the requirement, for determining the appropriate barge size for each combination of vessel class and berthing configurations required at each lot. Barges provided shall be appropriate and safe for the class of ship and pier configuration combination (eg. all class II vessels shall be billed under LINE ITEM XX07BN). The barges quoted for each sub lot line item shall be safe and useable for the intended class of ship at all locations specified by the lot. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee for the barge, and there is another SUBLINE ITEM for all costs associated with installation, and removal of the barge, as well as round trip costs associated with transport of the barge from another port, if required.

3. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

4. Rental is on a daily (24-hour) basis, per barge. Installation, removal, and transportation are charged as a "lot" per barge.

h. LINE ITEM XX08 - COLLECTION, HOLDING, AND TRANSFER (CHT)

1. The HS Contractor is responsible for the entire cycle necessary to collect, remove, and dispose the Collection Holding Transfer (CHT) bacteriological/chemical liquids from ships throughout the area covered by this contract. The HS Contractor shall provide all necessary equipment, personnel and facilities to perform the services including pumps, hoses and connections compatible with the ships being serviced. The HS Contractor shall be responsible for the supervision of the collection, transportation and disposal services to avoid any

overflow of waste on the barge and at the pier. Services shall commence upon ship's arrival whether, at anchor or pierside. The HS Contractor shall pre-position CHT barges, when necessary, in accordance with force protection or other requirements.

2. The HS Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

3. The HS Contractor shall remove sewage from the ship in HS Contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

4. The HS Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT. The Government reserves the right to use its own metering device to verify measurement of sewage discharge. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

5. The HS Contractor shall provide CHT hoses of sufficient length from HS Contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6. The HS Contractor shall properly dispose of all sewage. CHT collection, removal and disposal shall be priced based on the following conditions:

    a. (XX08AA) – CHT BY TRUCK: The husbanding HS Contractor shall provide services when the visiting ship is at pierside.

    b. (XX08AB) – CHT BY BARGE: The husbanding HS Contractor shall provide services when the visiting ship is at anchorage or the port authority has issued a directive stating that service must be performed by barge or the barge has been ordered by the ship. The HS Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

7. The CHT service shall be a dedicated service. The term "dedicated service" means a service provided exclusively to the U.S. Government. In those limited number of cases where this is not possible, the contractor shall provide a system to measure the volume of sewage deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of CHT.

8. The HS Contractor will be guaranteed a minimum daily quantity of 60 cubic meters for providing these services even if the actual cubic meters of CHT removed is lower than 60 cubic meters. Note: 264.2 gallons = 1 CM (cubic meter).

9. The HS Contractor shall submit, as an attachment to the invoices, a document (certified by the ship's personnel) that indicates the quantity collected and the name of the disposal plant where the CHT will be disposed. The Government reserves the right to independently verify the actual volume of CHT discharged using a certified flow measuring device.

10. The HS Contractor shall request the ship's personnel to verify all removal figures at time of CHT collection. The HS Contractor shall follow any environmental regulations required by each country. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped or 60 cubic meters per day, whichever is greater. The HS Contractor shall submit a request to FLCY for the difference, accompanied by disposal certificates. FLCY will investigate and arrange for payment of any additional amounts that are determined to be due.

11. The ship's personnel shall verify all removal figures at time of CHT collection and the ship duty engineer shall certify the accuracy of the HS Contractor's report in writing. The HS Contractor is also responsible to keep all disposal certificates and shall make them available to Contracting Officer upon request.

i. LINE ITEM XX09 - FRESH POTABLE WATER

Potable water is defined as fresh drinking water of a quality not less than that prescribed in:

1. Current Drinking Water Standards, as published by the United States Environmental Protection Agency, Office of Water and shall comply with specifications of the National Primary and Secondary Drinking Water Regulations (NPDWR). See Attachment #18.

2. Code of Federal Regulations Title 21, Volume 2, Part 165.110 (21CFR165).

    a. These documents are incorporated by reference with the same force and effect as if they were given in full text. Full text may be accessed electronically at these websites: http://www.epa.gov/OGWDW and http://www.tdh.state.tx.us/bfds. The HS Contractor shall be responsible for identifying and providing water from a source that meets U.S. Government requirements. The U.S. Government reserves the right to accept deliveries of potable waters that do not comply with above specifications, and to bring the water up to specification standards through chlorination.

    b. The HS Contractor shall provide for the delivery of fresh potable water to the ships as ordered. The HS Contractor shall be paid for the amount of water ordered by the vessel. The barges, tankers or trucks and equipment used for transfer, storage and transportation of potable water shall not be used for cargo other than potable water, and must be equipped with independent pipe systems and working, CERTIFIED METERING DEVICES.

    c. Source of Water. Water deliveries are to be made from sources that meet the requirements of paragraphs (2)(a) and (2)(b) above. If the water source does not meet the requirements of potable water, the HS Contractor shall be required to provide water from an alternate approved source at no increase in the contract price.

    d. Potable water pierside shall be delivered by pipeline if available. If pipeline is not available, potable water pierside shall be delivered by truck or barge and the ship will be charged in accordance with SUBLINE ITEM XX09AB. If a vessel is at anchorage SUBLINE ITEM XX09AC applies.

3. The HS Contractor shall be paid based on the ACTUAL METRIC TONS of potable water received on the ship. The HS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities provided to the ship.

4. If potable water delivery is via barge, the HS Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship. The HS Contractor shall pre-position water Barges, when necessary, in accordance with Force protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge.

5. **BOTTLED POTABLE WATER -** The HS Contractor shall provide for the furnishing of fresh, potable water in

bottles. The husbanding Contractor is responsible for ensuring that the U.S. Army Veterinary has approved the products recommended to the ship's Supply Officer. Information on how to request and obtain sanitary inspection is provided as Attachment #17. The minimum order quantity for this line item is 100 liters.

j. LINE ITEM XX10 – SHIP'S UTILITY SERVICES

OIL BOOMS

The HS Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom. Billing for LINE ITEMs XX10AA and XX10AB shall be per meter. For example, a 300-meter oil boom would be billed at 300 meters per day.

Oil Booms are intended to act as a precautionary measure in case of inadvertent leakage from equipment otherwise in sound operating equipment. Oil booms are also intended to mitigate the environmental damages that may otherwise result from inadvertent leakage. The HS Contractor shall notify the Ordering Activity, upon receipt of a LOGREQ request, if deployment of an oil boom at the proposed mooring location is contrary to host nation or port authority regulation so that the order for the oil boom service can be cancelled. Cleanup and disposal of oil is a port authority function. If the HSP incurs charges for these services, they shall be billed as port tariff items on a reimbursable basis.

SHORE POWER (INCLUDES CABLES, CONNECTION, FUEL, AND OPERATORS) 450 – 480V, 60HZ

The HS Contractor shall provide shore power to the ship using a port-provided, permanent connection system or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels. The HS Contractor shall provide all cables and make all power connections between the generator and ship. The availability of shore power shall be in accordance with the schedule established by the ship.

Sub Lot Line Items XX10AC, XX10AD, and XX10AE are to be used only if/when shore power provided by port authorities is, for any reason, not available or inadequate.

SHORE STEAM

The HS Contractor shall provide shore steam to the ship. This sub lot line item is performance-based. Shore steam provided to the ship may be provided by any means (boiler or generator) so long as the pressure of steam delivered to the vessel is approximately 100 PSI (standard commercial pressure) and of acceptable quality for the vessel. Pricing for provision of shore steam shall be on a TBD basis and should include the boiler or generator, fuel for the generator, mobilization/demobilization, hoses, and adapters appropriate to the vessel type, and water (where required) for the generator or boiler. This item shall be billed on a daily basis.

k. LINE ITEM XX11 – LAND TRANSPORTATION (PERSONNEL) SERVICE

1. GENERAL REQUIREMENTS :

   a. All drivers must be fully qualified and possess valid driving licenses. Drivers shall be familiar with local area and conversant in English. All vehicles shall be registered, licensed and insured (including adequate passenger liability insurance). The HS Contractor is responsible for delivering all cargo and personnel to the correct location on schedule.
   b. Deleted

   c. The HS Contractor shall provide vehicles that have been properly maintained and serviced. If a vehicle does not meet the requirements of this contract as determined by the Ordering Officer, the U.S. Government shall have the right to reject the vehicle for performance of services. The HS Contractor shall

ensure that each vehicle is jointly inspected before and after a trip by the HS Contractor and an authorized representative of the U.S. Government. The U.S. Government will not consider any claim for damage to a vehicle which has not been inspected.

d. If a vehicle is not operable when required under this contract, the HS Contractor shall provide, at no additional expense to the U.S. Government, a replacement vehicle within three (3) hours that complies in all respects with this contract.

e. All vehicles shall include drivers.

2. BUS SERVICE

a. The HS Contractor shall provide air-conditioned bus services on an hourly rate basis and bill under LINE ITEM XX11AA. The hourly rate shall include one driver or operator, any additional helpers or crew required by local authorities, all insurance, fuel, holiday surcharges, overtime, and all other operating expenses. Any additional driver, if required, shall be priced separately. Any tolls for long distance trips (over 50 kilometer radius) will be reimbursed at cost.

b. The HS Contractor shall ensure that the bus is in sound mechanical condition and meets all safety standards required by local laws and regulations. Further, the bus shall be in a clean condition when presented for service and shall be free of debris. The bus shall be sufficiently clean so as not to soil passengers, their clothing or possessions with dirt, grease, oil, or other matter.

c. In the event of a bus breakdown, the HS Contractor shall provide within two hours, at no additional expense to the U.S. Government, a replacement bus complying in all respects with this contract.

d. Any personal articles or items found on the bus after completion of each trip shall be turned over to the ship's Ordering Officer.

e. The HS Contractor shall be responsible for ensuring that the HS Contractor and an authorized representative of the U.S. Government jointly inspect before and after a trip each bus. The U.S. Government will not consider any claim for damage to a bus, which has not been inspected.

f. The minimum bus capacity shall be 40 passengers.

g. A minimum daily price of four (4) continuous hours shall apply for each bus ordered less any time associated with bus breakdown or getting lost.

h. Drivers must be familiar with the area, have an appropriate driver license, and speak English. In the event the driver is unable to speak English, the contractor shall furnish an English speaking rider on the bus.

3. VEHICLE RENTAL SERVICE

a. Vehicle Specifications, Maintenance, and Malfunctions

(i) The HS Contractor shall furnish "new" air-conditioned vehicles (i.e., not more than five years old), in good order and condition and otherwise in full compliance with best commercial practices and local laws and regulations.

Sedans or SUVs shall have a minimum capacity of four (4) passengers and 1600cc engine.

In the event a "new" vehicle is not available in certain countries, the contractor shall contact the Contracting Officer to request a waiver from the requirement and provide background information as to why a waiver would be appropriate. The Contracting Officer will consider, and grant or refuse, the request. Vehicles shall be priced on a daily rate, except as noted below. They shall be equipped with front and back

seat belts, an emergency triangle, spare tire, jack and complete set of tools for changing a flat tire, as well as any other equipment required by local authorities. Upon initial rental, the gasoline tank shall be full. The prices for vehicles rented are based upon an assumption that the vehicles will be returned with an empty tank of gas. Therefore ships will be charged for a full tank of gasoline at the time of rental. There shall be no surcharge applied to the commercial price of the fuel. Vehicles can be returned with any amount of gasoline. Ships shall not be responsible for returning the vehicle with a full tank of fuel, and the HS Contractor shall not be obligated to credit the ship for the remaining fuel.

(ii) The HS Contractor shall provide vehicles that have been properly maintained and serviced, including all motor oils, lubricants, antifreeze, coolants and other fluids such as windshield washer fluid, and be responsible for all emergency repairs and services.

(iii) Should any vehicle break down while in the U.S. Government's possession, the HS Contractor shall replace it with another vehicle of the same or larger size as quickly as possible, but in any case no more than three (3) hours later. The replacement shall take place either at the point of breakdown or at the HS Contractor's office closest to that point; whichever is more convenient for the U.S. Government. All repair or replacement costs, including transportation, shall be at the HS Contractor's expense. The U.S. Government shall be credited an hourly rate, pro-rated on the daily rate, for the rental cost between breakdown and vehicle replacement.

b. Substitution of Vehicles

(i) If the HS Contractor does not have available the type of vehicle ordered and the vehicle has been ordered at least 24 hours in advance, the HS Contractor shall substitute a vehicle type equal to or better than the vehicle ordered at the price listed for the type of vehicle originally ordered. EXAMPLE: If a Group B car is ordered but unavailable, and if no other Group B vehicle is available, the HS Contractor shall furnish a higher group vehicle at the price listed for the Group B vehicle originally ordered.
(ii) In the case of passenger or cargo vans, there shall be no substitution without the approval of the ship placing the order.

c. General Description of Vehicle Types

(i) The vehicles shall meet the general description set out below:

Medium-size Sedan (Group "B"): 2 - 4 doors; 4 - 5 passenger capacity; air conditioning; minimum 1600 cc engine sedan.

Passenger Van (Group "M"): 9-passenger capacity; air conditioning; minimum 2000cc engine (except for Hong Kong where capacity is 7 passenger).

Cargo Van (Group "X"): 12 Cubic Meter volume capacity, air conditioning; minimum 2000cc engine.

Executive Sedan with Driver (Group "E"): 4 doors; 5-passenger capacity; air conditioning; minimum 1600 cc engine sedan. This group requires an executive sedan and shall be provided with a driver. Drivers must be familiar with local area, and must speak English. Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the ship's personnel of his arrival. No individual driver shall be required to drive more than 8 hours. Drivers must not have been driving within the previous 8 hours. Rentals less than 24 hours will be charged on an hourly pro-rata basis, based on the daily rate, with the HS Contractor entitled to a minimum charge of 4 hours. The HS Contractor shall be responsible for payment of any fines and legal costs incurred as a consequence of the violations of traffic laws or regulations by the provided driver. The daily rate shall be inclusive of the first 250 kilometers per day, all necessary equipment, licensed drivers, all liability insurance as required by local law, holiday and overtime costs, fuel, all other operating expenses, and all other incidentals. Any additional kilometers per day beyond the initial 250 kilometers will be priced under SUBLINE ITEM XX11AG. The U.S. Government will reimburse the HS Contractor for additional costs in two cases: for highway tolls, and for

the driver's overnight accommodation up to $120.00 or equivalent local currency, when required by U.S. Government business such as travel to another city, and upon presentation of an original invoice (using the online pricing application).

15-Passenger Buses with Driver (Group "Z"): All requirements concerning the rental of a vehicle with the driver described above in the "Executive Sedan with Driver" shall apply to this paragraph also.

d. Insurance and Liability.

(i) The prices for vehicle rental services, as set forth in the schedule, shall be subject to the conditions below.

(ii) The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cause, except where the loss or damage is caused by the willful and wanton negligence of the U.S. Government employee.

(iii) The HS Contractor and any Subcontractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, resulting from the fault, negligence, or wrongful act or omission of the HS Contractor, its subcontractors, its agents, or employees.

(iv) The HS Contractor shall provide and maintain at its expense, all vehicle operator's insurance required by the law of the country in which the vehicle is to be operated. All necessary insurance certificates shall be provided with the rental vehicle. Such insurance shall include all coverage required by law for bodily injury, collision, and property damage liability. The HS Contractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, within the required policy limits, arising out of or in connection with the rental or use by the U.S. Government, its agents or its employees of any vehicle under this contract.

(v) Paragraph (iv) shall not be construed as limiting the HS Contractor's liability to the amounts of the required minimum insurance coverage specified therein.

e. Traffic Violations and Fines. Each vehicle operator shall be responsible for payment of fines and legal costs incurred as a consequence of the violations of traffic laws or regulations.

f. Mileage and Deposit Charges. There are no mileage or deposit charges for the vehicles rented under this contract for all mileage travelled within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor). Outstation charges, surcharges, or additional mileage rates shall not be assessed for travel within the 250 kilometer radius as the vehicle is rented on a daily basis with usage in accordance with the ordering activity's needs. The HS Contractor shall be entitled to an additional half days' rental fee at the daily rate for each day in which vehicle trips are required beyond the 250 kilometer radius described above.

g. Time Periods of Rental. Rental time shall begin once the vehicle and driver are available for use alongside the Ordering Activity. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than 8 hours straight. Drivers must not have been driving within the previous 8 hours.

I. LINE ITEM XX12 - TELEPHONE SERVICES AND COMMUNICATIONS EQUIPMENT

1. Landlines (LINE ITEM XX12AA): Whether installed on a permanent or temporary basis, sufficient landlines shall be made available for official, local, and international use. Installation charges shall be inclusive of all costs for installation and removal of landlines. Usage charges and port tariff fees associated with landline

connections (LINE ITEM XX12AB) will be the actual charges computed in accordance with the local or national tariff.

2. Cellular Telephone Services (LINE ITEM XX12AC): Daily charges shall be inclusive of delivery, removal, provision of 110V to 220V transformers, adapters and extra batteries. Activation, auto roaming, and long distance accounts shall be included under LINE ITEM XX28AC. The HS Contractor shall have readily available a minimum of 10 cellular telephones at a given time. Each mobile phone provided shall include an operating manual/instruction with published rates for usage. Airtime for mobile phones shall be included under LINE ITEM XX12AD. Usage charges associated with mobile phones (LINE ITEM XX12AD) will be the actual charges computed in accordance with the local or national tariff.

3. The HS Contractor shall provide pre-paid International Calling Cards for official use (LINE ITEM XX12AE).

4. SIM cards with prepaid airtime shall be provided where the ship or operating unit has mobile phones and desires only SIM cards for use in the specific port area. SIM cards provided under LINE ITEM XX28AF shall include activation of the SIM card. HS Contractors shall not be obligated to provide quantities of sub lot line item XX12AF in excess of quantities permitted by host nation law or regulation.

5. PWS paragraph 9.h. details the priority in providers to MWR support to Ordering Activities. Calling cards ordered under sub lot line item XX12AE shall be billed in the denomination of the card, adjusted to USD using the OANDA exchange rate for the date of the order as outlined in the PWS paragraph 9.f. without additional markup or fee.

m. LINE ITEM XX13, XX14 AND XX15 - FORCE PROTECTION BARRIERS/PERSONNEL/SUPPLIES

1. Heightened Vigilance: The HS Contractor shall be alert at all times in order to contribute to the protection of the ship and its crew. The HS Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The HS Contractor shall report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

2. The HS Contractor shall fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the HS Contractor shall identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the HS Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The HS Contractor shall arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

3. Contractor/Subcontractor Identification: The HS Contractor shall identify how contractor and subcontractor personnel will be recognizable to ship’s personnel. This may be accomplished by a combination of picture ID, badges, uniforms, access lists, etc. The HS Contractor shall also identify how support vehicles/vessels will be marked so that they are readily identifiable to ATFP/ship’s personnel.

4. See Attachments 7, 12, 13, and 14 for specific Force Protection requirements and procedures.

n. LINE ITEM XX16 – AIRPORT/CARGO & MATERIAL HANDLING (PORT HANDLING COSTS)

1. The HS Contractor shall provide material handling services for the ship. They will receive material shipped to them, clear the material through customs, store the material, report the status of the material, deliver the material to the ship, and forward the material if unable to deliver.

2. The HS Contractor shall use counter-to-counter delivery and charge by each Bill of Lading. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship's arrival.

3. Shipping documents shall be labeled "SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the HS Contractor.

4. The HS Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel. The HS Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

5. The HS Contractor shall receive the package from the ship and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

6. The HS Contractor shall deliver the package to the ship the day of arrival in port or the following morning. The HS Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

7. The HS Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship. The HS Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

PAINT FLOAT

The paint float shall be no less than 5M in length but, in all cases, large enough to provide a safe and stable working platform for the occupants. Scaffolding may be of any height less than 3.5M from the deck, so as to provide a working platform at least 4M from the waterline. The paint float shall be equipped with suitable self-fendering to prevent damage to the ship. The price of these fenders shall be included in the quoted price of the paint float. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the HS Contractor at no additional charge. Rails shall be no less than 1M from the working platform. The working platform shall be equipped with anchor points for harnessing. The Ordering Activity shall be responsible for providing safety harnesses, for obtaining permission from local authorities prior to all work on the paint float, and for cleanup/disposal of all hazardous material generated or released outside the paint float. The HSP shall notify the Ordering Activity of local regulatory requirements concerning paint floats, assist the Ordering Activity in submitting requests and passing required documentation to the local authority where permission is required to work on the paint float, and arrange for required cleaning of the paint float upon return. The ordering activity is responsible for securing the paint float from the time custody has been transferred to them until returned to the HSP or the ship departs, whichever is earlier.

LIGHT TRUCKS (LOT LINE ITEM XX16AB)

a. The HS Contractor shall provide covered, lockable trucks with a driver to load/off load cargo and mail. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and offloading.

b. The HS Contractor shall be responsible for security and prevent loss/damage/destruction of cargo and mail.

c. The HS Contractor shall return all items left in rental vehicles to the ship's Ordering Officer.

d. The HS Contractor shall obtain written acknowledgement of vehicle service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

e. The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cost, except where the loss or damage is cost by the willful and wanton negligence of the U.S. Government employee.

f. Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the ship's personnel of his arrival. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than eight (8) hours. Drivers must not have been driving within the previous eight (8) hours. Rentals less than 24 hours will be charged on an hourly pro-rata basis, based on the daily rate, with the HS Contractor entitled to a minimum charge of four (4) hours. The HS Contractor shall be responsible for payment of any fines and legal costs incurred as a consequence of the violations of traffic laws or regulations. The daily rate shall be inclusive of all mileage travelled within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor) , all necessary equipment, licensed drivers, all liability insurance as required by local law, holiday and overtime costs, fuel, all other operating expenses, and all other incidentals.

g. The HS Contractor shall provide vehicle service with qualified drivers for official government business.

h. The HS Contractor shall provide one-way transfer vehicles with drivers to transfer cargo between a designated pick-up point and a specified destination within a 250 kilometer radius of the ship berth (or departure point on the pier if ship is at anchor). Outstation charges, surcharges, or additional mileage rates shall not be assessed for travel within the 250 kilometer radius as the vehicle is rented on a daily basis with usage in accordance with the ordering activity's needs. The HS Contractor shall be entitled to an additional half days' rental fee at the daily rate for each day in which vehicle trips are required beyond the 250 kilometer radius described above.

i. The HS Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

j. The HS Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

k. If the unit of issue is by "Day", then the rental period shall constitutes 24 hours.

MANLIFT (WITHOUT OPERATOR)

The HS Contractor shall provide a manlift (without operator) and a full fuel tank. The HS Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning. The HS Contractor shall conduct training on safety and operating procedures for ship personnel. The HS Contractor shall maintain documentation of ship personnel acknowledgement of the training.

o. LINE ITEM XX17 – PROVISIONS

(1) Provisions

Note: Orders for fuel and provisions are primarily ordered under other U.S. Government contracts. Use of these contracts for fuel and provisions (eg. DESC fuel contracts and DSCP-Pacific provisions contracts) is mandatory when available. If U.S. Government contracts are either unavailable or cannot make delivery within ship scheduling constraints the HS Contractor must receive prior permission from the FLCY Contracting Officer before providing

these services to the ship, including mobilization. When requested by the ship, the HS Contractor shall pass these orders to the other U.S. Government Contractors involved. The ship's Supply Officer or FLCY Contracting Officer may award contracts or purchase orders for these non-priced items to other U.S. Government contracts.

a. When requested by a ship, the husbanding HS Contractor shall assist in arranging for the timely provision of subsistence items. LINE ITEMs XX17AA through XX17AC identify the fees that will be paid the HS Contractor for arranging subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using night soil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be in accordance with Attachment #11. The husbanding services HS Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and local currency; and total price in U.S. dollars and local currency as indicated in the "INVOICING AND PAYMENT CLAUSE". (Example: 10 pounds tomatoes @ 2,50 euro/$1.00 USD per Pound = 25,00 Euro/$10.00 USD). Any delivery charges shall be shown separately. The HS Contractor shall use the conversation rate to convert Kilogram (KG) into US pounds (LB) is: 1 KG = 2.2046 LB.

b. If the total cost of FF&V and subsistence items ordered and received by a ship under this contract exceeds $10,000.00 for a port visit, the HS Contractor shall submit a report via e-mail to FLCY within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the HS Contractor shall provide copies of all quotes obtained. This report is in addition to the LogSSR report.

c. The husbanding HS Contractor shall ensure that the sources recommended to the ships Supply Officer for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement.

d. Information on how to request and obtain sanitary inspection by the U.S. Government is provided as Attachment #17.

e. The HS Contractor shall retain documentation of inspection of sources recommended or selected as suppliers of subsistence items. Under no circumstances shall the HS Contractor recommend or offer for acceptance subsistence items from non-approved sources.

f. All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

g. The fee specified in sub lot line item XX17AA has a unit of issue of 'EA' (each). This fee is for the arrangement of one line item of provisions, not for a quantity of one provision. For example, if one provisions order contained ten different line items and a quantity of five for each line item, the HS Contractor would be entitled to bill under sub lot line item XX17AA for a quantity of ten with a unit of issue 'EA'.

p. LINE ITEM XX18 - FUEL

1. Orders for fuel and provisions are primarily ordered under other U.S. Government contracts. Use of these contracts for fuel and provisions (eg. DESC fuel contracts and DSCP-Pacific provisions contracts) is mandatory when available. If U.S. Government contracts are either unavailable or cannot make delivery within ship scheduling constraints the HS Contractor must receive prior permission from the FLCY Contracting Officer before providing these services to the ship, including mobilization. When requested by the ship, the HS Contractor shall pass these

orders to the other U.S. Government Contractors involved. The ship's Supply Officer or FLCY Contracting Officer may award contracts or purchase orders for these non-priced items to other U.S. Government contracts.

2. Other procedures apply as follows:

(a) Fuel (MGO/F76)

(i) Ships may order fuel, as described in paragraph 1 above, with the assistance of the HS Contractor. The HS Contractor shall advise the Supply Officer of available bunkers, or existing fuel contracts issued by Defense Energy Support Center (DESC) or Navy Operational Logistics Support Center. If requested by the Supply Officer, the HS Contractor shall pass fuel orders to the appropriate fuel supplier, and will coordinate delivery. The DESC Overseas Ships' Bunkers Contract Bulletin SP0600-02-0013 may be accessed at http://www.desc.dla.mil/DCM/DCMPage.asp?PageID=227 . Disagreements between any DESC Contractor and the HS Contractor shall be forwarded to the DESC Contracting Officer through Logistic Supply Center Fuel Manager specified at the time of award for each region. HS Contractors who buy fuel through other than government sources when available without express authority in writing from the FLCY Contracting Officer do so at their own risk. If the HS Contractor is authorized to provide fuel, U.S. Government shall not reimburse the HS Contractor for more than what the U.S. Government cost through approved DESC contracts would have been unless authorized by the Contracting Officer. The HS Contractor is required to provide any security vetting for DESC contractors in order to facilitate performance.

(ii) In the event that no U.S. Government or foreign Government owned bunker is available, or no DESC or NPO available contracts meets a ship's fuel requirement, or as directed in writing by the Contracting Officer, the HS Contractor shall assist the ship in arranging the procurement of fuel. The HS Contractor shall not provide any fuel or fuel-related service e.g., fuel barge or fuel truck, without first receiving specific advance approval to do so from a FLCY Contracting Officer. This fuel shall be provided in accordance with Attachment # 15. The HS Contractor shall provide a fuel barge or truck to transport fuel to the ship, if required. LINE ITEMs XX18AA through XX18AD identify the fees that will be paid the HS Contractor for arranging fuel requirements. The HS Contractor shall be liable for any costs should the fuel provider fail to properly employ oil spill booms as required by local authorities or fails to comply with any local laws or regulations relating to the provision of fuel. Fuel caught in oil booms will be properly disposed. The HS Contractor shall be liable for any costs should the fuel provider fail to employ properly oil spill booms as required by local authorities or fails to comply with any local laws or regulations relating to the provision of fuel. The HS Contractor shall deliver fuel "free on board" the ship whether at pierside or at anchor. The invoice shall indicate the unit and total price for the fuel and the price for the delivery of fuel to the ship. The contractor shall also include a statement with each invoice entry for fuel purchased from the contractor that identifies who directed it to provide the fuel and the preliminary steps taken by the contractor to ensure that government-owned fuel or fuel from a DESC contract was not available to satisfy the ship's requirement.

(iii) Other than the price specified under LINE ITEM XX18AA Fee for Acquiring Fuel and LINE ITEM XX18AC Fuel Delivery/Other, no additional fees shall be added to the price of LINE ITEM XX18AB Fuel, TBD. The HS Contractor shall be reimbursed at cost for the TBD purchase price of fuel and for delivery without additional markup.

(iv) In recognition of the fact that fuel is sold by weight (metric tons) and by volume (gallons or liters), the HS Contractor shall ensure all United States ships are provided with a fuel invoice and the appropriate customs certification demonstrating the quantity of fuel provided in metric tons and in gallons or liters. In the event that the HS Contractor is ordered to provide fuel, all terms and conditions of the fuel provider shall be provided to the Ordering Officer in the pre-arrival cost estimate or prior to the order being finalized if the fuel services are ordered after the pre-arrival cost estimate has been provided. For example, if a ship places an order for fuel and the fuel provider has a term or condition that requires

the full quantity to be pumped into the requiring vessel without return of any fuel to the provider, this condition must be disclosed to the Ordering Officer in the pre-arrival message.

(v) The HS Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier. The cost for all barge inspections will be included in the fee for LINE ITEM XX18AC.

(vi) The HS Contractor shall load the ordered fuel and transport to the ship. The HS Contractor shall transfer the fuel from the fuel barge or truck to the ship. The HS Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

(vii) The HS Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

(viii) Excess Fuel Procedures: Demurrage charges accrue when the entire quantity of fuel ordered cannot be delivered on or before the date and time specified in the fuel order. Demurrage charges do not accrue when fuel cannot be delivered due to the fault of the service provider (e.g. pumping rate of the barge inadequate to deliver fuel within the time specified by the order). See PWS paragraph 3.i. for further details. Pricing of XX18AD is in units of DAY and the compensation covers the daily cost of the barge used to deliver the fuel (regardless of the amount of fuel remaining in the barge). Since the great majority of fueling evolutions are via barge, the price of demurrage by barge should be used vice the demurrage price by truck. All required customs clearances are to be included in item XX18AA, Fee for Acquiring Fuel. If the ship does not offload all of the fuel ordered, the HS Contractor shall store the excess fuel and diligently attempt to sell it as soon as practicable. The HS Contractor shall receive a storage fee (demurrage) for no more than three (3) days. The HS Contractor shall receive a fuel disposal fee on a reimbursable basis upon presentation of vendor invoice for disposal services.

(ix) All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

q. LINE ITEM XX19 – OTHER PORT SERVICES

LOGISTIC SUPPORT TO GOVERNMENT TEAMS

a. Note: This Line Item is for logistics support in connection with ship visits to a port area. U.S. Government teams conduct surveys in a variety of ports in the Region. The U.S. Government may require the assistance of the HS Contractor in the ports to be surveyed.

b. The HS Contractor shall assign an individual to participate in and assist with logistical arrangements for a team that will perform the survey. This team may visit a variety of ports in advance of ships' visits to assess the force protection levels of the port and to perform related functions. The HS Contractor's assistance shall include providing logistical support as requested by the U.S. Government, coordinating access and interviews with local officials, local husbanding services, and support Contractors, coordinating necessary translation services for the team, and assisting in the development of a final assessment report.

c. The HS Contractor shall invoice port surveys at the subsequent day husbanding fee for a Class II ship in the port. In addition, the HS Contractor shall be reimbursed for economy class air transportation and daily per diem rate that includes lodging, meals and other related expenses. The per diem rates shall be those set forth in the Joint Travel Regulation (JTR).

d. Other HS Contractor out-of-pocket expenses related to the service(s) and anticipated by the HS Contractor will be invoiced and reimbursed at cost. The HS Contractor shall submit all receipts, invoices or other valid documents to support the incurred expenses. The HS Contractor shall not pay for hotels, meals, rental vehicles, telephone expenses and any other expenses that the U.S. Government team members may incur and for which they can be reimbursed under their U.S. Government travel orders.

e. If a delivery order with a "Not to Exceed " (NTE) amount is issued for the logistic support services, the HS Contractor shall promptly advise the FLCY Contracting Officer and withhold performance if he expects to exceed this amount.

TENT WITH EQUIPMENT FOR SPECIAL EVENTS (INCLUDES TABLES, CHAIRS, LIGHTING AND FANS

The HS Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels. The HS Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills. The HS Contractor shall remove all provided equipment upon completion of services.

r. LINE ITEM XX20 – INCIDENTALS

1. Incidentals: The HS Contractor shall arrange for incidentals using the Online Pricing Application, as further described in Attachment 8 and paragraph 3(o) above. Incidentals are supplies and services not priced on the Schedule of Supplies and Services or Port Tariff schedule that are within the scope of the contract, and are required during the course of the husbanding visit. Historical examples of items ordered that would be considered incidentals are listed at the bottom of each schedule in Attachment 2. Incidentals shall not exceed $50,000.00 per port visit unless prior permission is granted from the FLCY Contracting Officer. The HS Contractor shall not be separately or additionally compensated for profit or mark-up on the prices of these items or for any other charges or fees associated with acquiring the supplies or services other than the price the HS Contractor pays its supplier for the supply or service except as the HS Contractor chooses to include allowances for any such profit, charges, or fees in the daily price for the Management Services or as part of the process proposed by the HS Contractor for implementation of the Online Pricing Application methodology for offering incidentals at fair and reasonable prices. The HS Contractor shall arrange for incidentals as described below:

a. Providing supplies and services. At the request of an Ordering Activity, the HS Contractor shall arrange for incidentals that are within the scope of the contract, are not pre-priced on the Schedule of Supplies and Services (Attachment 2), and are required during the course of the husbanding visit. In cases where sub lot line items do not exist under the corresponding lot line item in some lots, but exist under line items in other lots of the Attachment 2 schedules, the Government reserves the right to order these items within the scope of the contract, if required, as incidentals using the online pricing application. The contractor shall conduct necessary market research, contact potential suppliers, obtain price quotations, and, based on the information, provide an estimated price for the supply or service to the Ordering Activity and the FLCY Contracting Officer using the Online Pricing Application. The HS Contractor shall not provide any incidental supplies or services until the HS Contractor and the Ordering Activity or FLCY Contracting Officer agree on a fair and reasonable price for the supplies or services. For non-priced items with extended price less than $25,000, either the Ordering Officer or the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. For non-priced items with an extended price greater than $25,000, only the FLCY Contracting Officer may determine if a quoted price is fair and reasonable. At that point the Ordering Activity shall issue an order to the HS Contractor directing that it provide the supply or service in support of the husbanding visit at the agreed price. For supplies or services having an extended price (unit price multiplied by quantity) over $3,000, the HS Contractor must provide documentation to the Ordering Activity or FLCY Contracting Officer, via the Online Pricing Application, that it has promoted

competition to the maximum extent practicable. If the HS Contractor proposes the use of organic assets (HS Contractor-owned assets) at an extended price (unit price multiplied by quantity) over $3,000, the HS Contractor must additionally provide documentation to the Ordering Activity or FLCY Contracting Officer, via the Online Pricing Application, that the price for use of the organic asset does not exceed the price for locally available assets that could be used to otherwise satisfy the requirement. When proposing to use an organic asset, the HS Contractor shall also provide a commercial pricelist, if available, showing the daily or hourly rates, inclusive of all operational and maintenance costs, that the HS Contractor charges other customers for use of the organic assets. Prices charged to the Government shall not be higher than the price for the same or similar services provided to other customers. The HS Contractor's use of the Online Pricing Application in accordance with Attachment 8 will be evaluated based on the criteria established in QASP and agreed upon as part of the HS Contractor's proposed process for determining fair and reasonable prices.

b. All arrangements made under this LINE ITEM shall be reported using the Online Pricing Application described in Attachment 8 so that the authorized ordering officer or Contracting Officer and the HS Contractor agree on fair and reasonable pricing prior to mobilization or start of services.

c. Incidentals considered within the scope of this contract are defined at the description of contractual scope, paragraph 10.

s. LINE ITEM XX21 - OPERATIONS OTHER THAN WAR

* See attachment (9) PWS OOTW, for specific instructions.

t. LINE ITEM XX22 - COST REPORTING

1) See Attachment (8) PWS Cost Reporting, for specific reporting instructions.
2) All billing and cost reporting shall be made in the units specified in the respective LINE ITEMs.
3) HS Contractor shall enter and report ALL expenditures under this contract (regardless of customer or ordering activity) into LogSSR and all non-priced expenditures other than port tariff (PT) items using the online pricing application in accordance with Attachment (8) PWS Cost Reporting.
4) The pre-arrival cost estimate is part of the Cost Reporting Lot Line Item. Requirements for the pre-arrival cost estimate report are described in Attachment (8).

Section SF 1449 - CONTINUATION SHEET

ATTACHMENT

Attachment (1) Schedule of Rates

STATEMENT OF WORK

OBJECTIVE – The contractor shall arrange for services required for USS Ships and USCG Ships (optional users) at various ports in Japan.

This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services at the fixed price listed in the Schedule of Rates.

Prices in the offer shall be stated in Japanese Yen or U.S. Dollars. In case pricing proposals in both Yen and U.S. Dollar are received, the exchange rate of 114.7781 Yen = U.S. $1.00 (Budget Exchange Rate of FY08) will be used for evaluation purposes.

1.0 Classification of Ships: The following are three classifications of ships identified for the purpose of establishing basic husbanding service charges.

Classification of Ships	Type of Vessel	Hull Designation
A (USS Ships and USCG Ships)	Frigates, Destroyers, Submarines, Cutters Ice Breakers and Buoy Tenders, Mine Sweepers, and Salvage Ships	FF/FFG/DD/DDG/SS/SSN WHEC/WABC/WPB, WLM or WLB/MCM/ARS
B (USS Ships)	Cruisers, Landing Ships, Amphibious Warships and Submarine Tenders	CG/LCC/LPH/LPD/LSD/ LST or AS
C (USS Ships)	Aircraft Carriers	CV/CVN

a. USCG Ships are optional rather than required users of services under this contract. It has been the Government's experience that USCG Ships requiring husbanding services in Japan normally obtain husbanding service through this contract (or its predecessor contracts.)

2.0 Basic Husbanding Service (CLIN No. 0001): The basic husbanding service charges will be paid for the basic husbanding services defined below. Upon receipt of notification of ship's arrival from the Ordering Officer, the Contractor shall:

Notify local port authority of estimated time of arrival of the ship as advised by the Ordering Officer;

Make berthing arrangements, including tugs, pilots, line handling, brows and camels;

Confirm and advise the Ordering Officer of arrangements made;

Go aboard the ship on arrival and advise the Supply Officer or his authorized representative of applicable port regulations, tariff rates and schedule of services available during the ship's in-port period;

Perform liaison function between ship's representative and port service companies providing services or supplies required;

Arrange for shore patrol coordination with local police authorities; and

When advised of ship's departure date, obtain necessary clearance and make all necessary arrangements for deberthing, pilots, tugs and line handlers as applicable.

3.0 Additional/Arrangement Charge (CLINs 0002 through 0004):

An additional or arrangement charge will be paid for arrangements made with a supplier for delivery of supplies or performance of services. The supplies or services provided by a supplier as arranged by the Contractor herein shall be considered a separate transaction which is to be executed between the ship's Supply Officer and the supplier.

When making these arrangements, the Contractor shall obtain quotations on a competitive basis from preferably at least three sources. The Contractor is responsible for affirmatively stating to all suppliers at the time a quote is solicited that the Contractor is not authorized to contract on behalf of the Government and that no contract will exist until a purchase order is issued.

The Contractor will submit the supplier's quotations to the ship's Supply Officer for his selection of a supplier. If only one supplier responds with a quotation, the Contractor shall provide the ship's Supply Officer with a written statement explaining the absence of competition. Where the selection of a supplier is required before the ship's arrival, the Contractor shall submit such quotations to the Ordering Officer specified in page 9 of 47, paragraph 1.0(d).

4.0 Labor: The Contractor agrees that performance under this contract shall be subject to and in accordance with the laws of Japan in effect from time to time, which govern the hours, wages, labor relations, workmen's compensation, working conditions and other matters pertaining to labor.

5.0 Pricing: The Contractor shall use its best efforts to ensure that the quotations for supplies/services shall be as low as those established by tariff, laws and those charged by the quoter to its most favored customer.

6.0 Safety Requirements for Water Transportation Services: When arranging for liberty boat, water taxi, or other similar type water transportation services is ordered under CLIN 0003AE and 0004AJ, the Contractor shall comply with the following requirements.

6.1 Boat Requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris and fitted for the services required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of Japan. Notwithstanding compliance with local laws and regulations, the Contractor shall meet all additional requirements as set forth throughout the Statement of Work.

6.2 Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

6.3 Each boat shall be capable of transporting a minimum of ten (10) passengers.

6.4 The following information shall be conspicuously posted in both English and Japanese.

6.4.1 Current operator's/captain's license
6.4.2 Passenger/weight capacity limit notice
6.4.3 Location of life jackets and other life saving equipment
6.4.4 Location of all exits indicated in large letters

6.4.5 Emergency procedures

6.5 Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

6.6 Operation of the boat shall be in a safe and seaworthy manner. At least two-person crew shall be required on every liberty launch.

6.7 The consumption of alcoholic beverages shall not be permitted aboard the boat.

6.8 Operator Qualifications: All personnel or employees of the Contractor operating boats providing subject services shall have all certification required and issued by the Japanese Government for the operation of the type, class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

6.9 Security: During the term of this contract the ship(s) to be serviced agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat – SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

6.10 Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

6.11 Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the Contractor or his authorized representative prior to acceptance. This inspection shall include but not limited to:

Hull
-- Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures
-- Superstructure, including masts and stacks
-- Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines
-- Provisions for drainage of sea water from exposed decks over the side and not into the bilges
-- Access/egress points – adequacy of number and location

Machinery
-- Main propulsion and auxiliary machinery essential to operation of boat
-- Sea and bulkhead closure valves
-- Bilge suction strainers and dewatering systems – bilge pump to be tested by operation
-- Bilges free of flammable liquids

Electrical
-- Cables
-- Navigation, deck and emergency lighting
-- Rotating electrical machinery, e.g., generators and motors
-- Storage batteries

Lifesaving Equipment
-- Life preservers – sufficient number for maximum capacity of boat, accessible and in satisfactory condition
-- Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity
-- First aid kits, life rings and distress lights
-- Distress signaling devices

Fire Fighting Equipment
-- Fire pump – test by subjecting fire hose(s) to fire pump pressure
-- Portable fire extinguishers
-- Fixed systems. E.g., CO2 cylinders

Steering Apparatus

Miscellaneous Systems and Equipment
-- Harbor charts
-- Ground tackle and mooring lines
-- Whistle/fog horn, bell
-- Lighted compass
-- 2-way radio capable of bridge-to-bridge communications
-- Current license
-- Operator qualifications

Only approved boats shall be used in the performance of the contract. The Contractor will provide each ship with a list of pre-approved boats. If the Contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement is that contained in paragraph 6.12 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

6.12 Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all Contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

Safety of Operations: Insure the following are present and in working condition:
-- Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.
-- Fire extinguishers sufficient for the size of the vessel operated.
-- Radio (with battery backup) capable of bridge to bridge communications.
-- Anchor/chain sufficiency for the size of the vessel operated.
-- Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

Hazards to Passengers: Conduct topside visual inspection for safe conditions of the following:
-- Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

-- Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.
-- Ensure no bare or exposed electrical wires or connections are located in the passenger area.
-- Validate that sufficient unobstructed exits are present and marked in English.
-- Verify that no missile hazards, gear adrift, or trip hazards exist.

6.13 Critical Safety Equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or his designated representative will have the option of furnishing the missing item. In all cases where government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contracting Officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting Officer is not on site, notification will be by message.

7. Antiterrorism/Force Protection (ATFP)

7.1. Protection of Ship Schedule Information. The Contractor shall protect ship schedule information, both paper-based and electronic, from disclosure to individuals and contractors that are not directly involved in providing service to the Navy in response to a verbal or written order from an authorized ordering official under the contract. This requirement to protect ship schedule information shall be flowed down to all individuals and contractors that are directly involved or may be directly involved in providing service to the Navy under this contract. The Contractor's written policy shall describe the required measures to protect ship schedule information.

7.2. Security Screening of Contractor and Subcontractor Employees . The Contractor shall conduct security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees if the results of their background investigation indicate they may be a security risk to the ship or its crewmembers.

7.3. Contractor/Subcontractor Identification.

7.3.1. The Contractor shall issue photo identification badges to its personnel and ensure subcontractor personnel have photo identification badges. Badges shall be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge so that it is visible at all times.

7.3.2. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as Contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

Note: The AT/FP related service (e.g., barrier, guard shack, etc.) will be ordered by the Ship's Supply Officer.

8. Organizational Conflict of Interest: To avoid organizational conflicts of interest, the HS Contractor is prohibited from submitting an offer or quotation to the Ordering Officer or Ship Supply Officer on its own behalf or on behalf of an affiliated company or organization as part of arranging for services under the Contract. The HS Contractor is prohibited from releasing any details of the offers or quotations it collects for transmittal to the Ordering Officer or Ship Supply Officer to other actual or potential offerors or quoters.

Collection of Past Performance Information

The Contractor's performance is reported for each ship visit by the Ordering Officer using the form entitled "Contractor's Performance Evaluation Sheet" (Attachment (3) of this contract). The Ordering Oficer will rate the Contractor's performance using the following adjectival ratings:

EXCEPTIONAL (E): Meets contractual requirements and exceeds many to customers' benefit. The element or sub-element being evaluated was accomplished with few minor problems for which corrective actions were highly effective. Response and/or findings exceed a "very good" rating.

VERY GOOD (VG): Meets contractual requirements and exceeds some to customers' benefit. The element or sub-element being evaluated was accomplished with no problems or some minor problems for which corrective actions were effective. Response and/or findings exceed a "satisfactory" rating.

SATISFACTORY (S): Meets contractual requirements. The element or sub-element being evaluated was accomplished with no problems or some minor problems for which corrective actions were satisfactory.

MARGINAL (M): Did not meet some contractual requirements. The element or sub-element being evaluated reflects some serious problems, for which the contractor either failed to identify or implement corrective actions in a timely manner, or for which the corrective actions implemented or proposed to be implemented were, or are expected to be, only partially effective. Performance was consistently of mediocre quality or exhibited a trend of becoming so.

UNSATISFACTORY (U): Did not meet most contractual requirements and recovery did not occur within the period of performance. The element or sub-element being evaluated reflected serious problem(s) for which the contractor either failed to identify or implement corrective actions or for which corrective actions, implemented, or proposed to be implemented, were, or are expected to be, mostly ineffective. Performance was consistently of poor quality or exhibited a trend of becoming so.

PACKING AND PACKAGING

1.0 Packing of Supplies: The Contractor shall be responsible for informing the suppliers concerned that all supplies delivered hereunder as arranged by the Contractor shall be properly preserved, packaged, and packed in accordance with the best commercial practice to ensure safe delivery at destination and to prevent deterioration and damage during shipping, handling, and storage.

2.0 Packaging of Subsistence Items: When the Contractor is ordered to arrange delivery of subsistence, the Contractor shall be responsible for informing the suppliers concerned that all subsistence items packaged in plastic, except in unusual circumstances, are not authorized and will not be accepted by the ships because of program to reduce the volume of plastic packaging materials aboard Navy ships and eliminate the discharge of plastic packaging materials into the ocean.

ADMIN

1.0 Contract Administration Appointments and Duties: In order to expedite administration of this contract/order, the following delineation of duties is provided including the names, addresses and phone numbers

for each individual or office as specified. The individual/position designated as having responsibility should be contacted for any questions, clarifications or information regarding the functions assigned.

(a) Procuring Contracting Officer (PCO) is responsible for:

(1) All pre-award information, questions, or data;
(2) Freedom of information inquiries;
(3) Change/question/information regarding the scope, terms or conditions of the basic contract document; and/or
(4) Arranging the post award conference (See FAR 42.503-1).

Name: (b)(6), (b)(7)(C) Code 221.1
Ashore Contracts Division
Far East Contracting Department
FISC Yokosuka, Japan
PSC 473 Box 11 FPO AP 96349-1500

2.0 Designated Invoice Office: The Contractor shall submit its invoice, as described in 3.0 below to the Receiving Officer, for certification as to inspection and acceptance. After certification, such an invoice will be forwarded to the applicable paying office.

3.0 Invoice Information: Pursuant to the requirements of FAR 52.232-25 Prompt Payment (OCT 2003) cited herein, a proper invoice must include the following information:

(a) Name and address of the Contractor;

(b) Invoice date;

(c) Contract number or other authorization for supplies delivered or services performed (including order number, contract line item number (CLIN) and, if applicable, the contract subline item number (SLIN);

(d) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed;

(e) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading;

(f) Name and address of Contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment);

(g) Name (where practicable), title, phone number and mailing address of person to be notified in event of a defective invoice; and,

(h) Any other information or documentation required by other requirements of the contract (such as evidence of shipment).

4.0 Designated Payment Office: Payment will be made in Japanese Yen or U.S. Dollar check by the following offices:

For U.S. Navy Ships (USS)

Defense Finance and Accounting Service (DFAS) Japan
(Attn: Code JRLG)
Bldg. 206, Unit 5220
Yokota Air Base
Fussa-shi, Tokyo 197-0001

For U.S. Coast Guard Ships (USCG)

DFAS Japan
(Attn: Code JRLE)
Bldg. 206, Unit 5220
Yokota Air Base
Fussa-shi, Tokyo 197-0001

The Contractor located in Japan must agree to receive payment by EFT. Transaction fee of 735 Yen for the Contractor in Japan will be deducted by the Financial Institution (J.P. Morgan) making payment. The Contractor located in other than Japan, the check will be mailed to the contractor. Additional fee may be imposed by the bank designated to receive payment.

CLAUSES INCORPORATED BY FULL TEXT

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (MAY 2008)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

(1) 52.233-3, Protest After Award (AUG 1996) (31 U.S.C. 3553).

(2) 52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Pub. L. 108-77, 108-78).

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

_X__ (1) 52.203-6, Restrictions on Subcontractor Sales to the Government (SEP 2006), with Alternate I (OCT 1995) (41 U.S.C. 253g and 10 U.S.C. 2402).

___ (2) 52.219-3, Notice of HUBZone Small Business Set-Aside (Jan 1999) (15 U.S.C. 657a).

___ (3) 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns (JUL 2005) (if the offeror elects to waive the preference, it shall so indicate in its offer) (15 U.S.C. 657a).

___ (4) [Removed].

___ (5)(i) 52.219-6, Notice of Total Small Business Set-Aside (JUNE 2003) (15 U.S.C. 644).

___ (ii) Alternate I (OCT 1995) of 52.219-6.

___ (iii) Alternate II (MAR 2004) of 52.219-6.

___ (6)(i) 52.219-7, Notice of Partial Small Business Set-Aside (JUNE 2003) (15 U.S.C. 644).

___ (ii) Alternate I (OCT 1995) of 52.219-7.

___ (iii) Alternate II (MAR 2004) of 52.219-7.

___ (7) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637 (d)(2) and (3)).

___ (8)(i) 52.219-9, Small Business Subcontracting Plan (APR 2008) (15 U.S.C. 637(d)(4)).

___ (ii) Alternate I (OCT 2001) of 52.219-9

___(iii) Alternate II (OCT 2001) of 52.219-9.

___ (9) 52.219-14, Limitations on Subcontracting (DEC 1996) (15 U.S.C. 637(a)(14)).

__ (10) 52.219-16, Liquidated Damages--Subcontracting Plan (JAN 1999) (15 U.S.C. 637(d)(4)(F)(i)).

___ (11)(i) 52.219-23, Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns (SEP 2005) (10 U.S.C. 2323) (if the offeror elects to waive the adjustment, it shall so indicate in its offer).

___ (ii) Alternate I (JUNE 2003) of 52.219-23.

___ (12) 52.219-25, Small Disadvantaged Business Participation Program--Disadvantaged Status and Reporting (APR 2008) (Pub. L. 103-355, section 7102, and 10 U.S.C. 2323).

___ (13) 52.219-26, Small Disadvantaged Business Participation Program--Incentive Subcontracting (OCT 2000) (Pub. L. 103-355, section 7102, and 10 U.S.C. 2323).

___ (14) 52.219-27, Notice of Total Service-Disabled Veteran-Owned Small Business Set-Aside (MAY 2004) (U.S.C. 657 f).

___ (15) 52.219-28, Post Award Small Business Program Rerepresentation (JUNE 2007) (15 U.S.C. 632(a)(2)).

___ (16) 52.222-3, Convict Labor (JUNE 2003) (E.O. 11755).

___ (17) 52.222-19, Child Labor--Cooperation with Authorities and Remedies (FEB 2008) (E.O. 13126).

___ (18) 52.222-21, Prohibition of Segregated Facilities (FEB 1999).

___ (19) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

___ (20) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of theVietnam Era, and Other Eligible Veterans (SEP 2006) (38 U.S.C. 4212).

___ (21) 52.222-36, Affirmative Action for Workers with Disabilities (JUN 1998) (29 U.S.C. 793).

___ (22) 52.222-37, Employment Reports on Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (SEP 2006) (38 U.S.C. 4212).

___ (23) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

_X__(24)(i) 52.222-50, Combating Trafficking in Persons (AUG 2007) (Applies to all contracts).

___ (ii) Alternate I (AUG 2007) of 52.222-50.

___ (25)(i) 52.223-9, Estimate of Percentage of Recovered Material Content for EPA-Designated Items (MAY 2008) (42 U.S.C. 6962(c)(3)(A)(ii)).

___ (ii) Alternate I (MAY 2008) of 52.223-9 (42 U.S.C. 6962(i)(2)(c)).

___ (26) FAR 52.223-15, Energy Efficiency in Energy-Consuming Products (DEC 2007) (42 U.S.C. 8259b) .

___ (27)(i) 52.223-16, IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products (DEC 2007) (E.O. 13423).

___ (ii) Alternate I (DEC 2007) of 52.223-16.

___ (28) 52.225-1, Buy American Act--Supplies (JUNE 2003) (41 U.S.C. 10a-10d).

___ (29)(i) 52.225-3, Buy American Act--Free Trade Agreements--Israeli Trade Act (AUG 2007) (41 U.S.C. 10a-10d, 19 U.S.C. 3301 note, 19 U.S.C. 2112 note, Pub. L 108-77, 108-78, 108-286, 109-53 and 109-169).

___ (ii) Alternate I (JAN 2004) of 52.225-3.

___ (iii) Alternate II (JAN 2004) of 52.225-3.

___ (30) 52.225-5, Trade Agreements (Nov 2007) (19 U.S.C. 2501, et seq., 19 U.S.C. 3301 note).

___ (31) 52.225-13, Restrictions on Certain Foreign Purchases (FEB 2006) (E.O.s, proclamations, and statutes administered by the Office of Foreign Assets Control of the Department of Treasury).

___ (33) 52.226-5, Restrictions on Subcontracting Outside Disaster or Emergency Area (Nov 2007) (42 U.S.C. 5150).

___ (34) 52.232-29, Terms for Financing of Purchases of Commercial Items (FEB 2002) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).

___ (35) 52.232-30, Installment Payments for Commercial Items (OCT 1995) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).

___ (36) 52.232-33, Payment by Electronic Funds Transfer--Central Contractor Registration (OCT 2003) (31 U.S.C. 3332).

___ (37) 52.232-34, Payment by Electronic Funds Transfer--Other than Central Contractor Registration (MAY 1999) (31 U.S.C. 3332).

___ (38) 52.232-36, Payment by Third Party (MAY 1999) (31 U.S.C. 3332).

___ (39) 52.239-1, Privacy or Security Safeguards (AUG 1996) (5 U.S.C. 552a).

___ (40)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631).

____ (ii) Alternate I (APR 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

____ (1) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

____ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act--Price Adjustment (Multiple Year and Option Contracts) (NOV 2006) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act--Price Adjustment (February 2002) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

____ (5) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (6) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

____ (7) 52.237-11, Accepting and Dispensing of $1 Coin (AUG 2007)(31 U.S.C. 5112(p)(1)).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vi) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (May 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $550,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (SEP 2006) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

(vi) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

(vii) 52.222-50, Combating Trafficking in Persons (AUG 2007) (22 U.S.C. 7104(g)). Flow down required in accordance with paragraph (f) of FAR clause 52.222-50.

(viii) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(ix) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(x) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from 1 October 2008 through 30 September 2009.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the

Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than JPY 5,000 or US$43.56, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single item in excess of JPY 500,000 or US $4,356.23;

(2) Any order for a combination of items in excess of JPY 3,000,000 or US $26,137.39; or

(3) A series of orders from the same ordering office within two days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within one day after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-21 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total

orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after seven (7) calendar days beyond the contract expiration date.

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within the period specified in the contract.

(End of clause)

52.232-18 AVAILABILITY OF FUNDS (APR 1984)

Funds are not presently available for this contract. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

FAR Clauses http://acquisition.gov/comp/far/index.html
DFARS Clauses http://www.acq.osd.mil/dpap/dars/dfaras/index.htm

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (MAR 2008)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

_X_ 52.203-3, Gratuities (APR 1984) (10 U.S.C. 2207).

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

(1) ___ 252.205-7000, Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).

(2) ___ 252.219-7003, Small Business Subcontracting Plan (DoD Contracts) (APR 2007) (15 U.S.C. 637).

(3) ___ 252.219-7004, Small Business Subcontracting Plan (Test Program) (APR 2007) (15 U.S.C. 637 note).

(4) ___ 252.225-7001, Buy American Act and Balance of Payments Program (JUN 2005) (41 U.S.C. 10a-10d, E.O. 10582).

(5) ___ 252.225-7012, Preference for Certain Domestic Commodities (MAR 2008) (10 U.S.C. 2533a).

(6) ___ 252.225-7014, Preference for Domestic Specialty Metals (JUN 2005) (10 U.S.C. 2533a).

(7) ___ 252.225-7015, Restriction on Acquisition of Hand or Measuring Tools (JUN 2005) (10 U.S.C. 2533a).

(8) ___ 252.225-7016, Restriction on Acquisition of Ball and Roller Bearings (MAR 2006) (Section 8065 of Public Law 107-117 and the same restriction in subsequent DoD appropriations acts).

(9) ___ 252.225-7021, Trade Agreements (MAR 2007) (19 U.S.C. 2501-2518 and 19 U.S.C. 3301 note).

(10) ___ 252.225-7027, Restriction on Contingent Fees for Foreign Military Sales (APR 2003) (22 U.S.C. 2779).

(11) ___ 252.225-7028, Exclusionary Policies and Practices of Foreign Governments (APR 2003) (22 U.S.C. 2755).

(12)(i) ___ 252.225-7036, Buy American Act--Free Trade Agreements--Balance of Payments Program (MAR 2007) (41 U.S.C. 10a-10d and 19 U.S.C. 3301 note).

(ii) ___ Alternate I (OCT 2006) of 252.225-7036.

(13) ___ 252.225-7038, Restriction on Acquisition of Air Circuit Breakers (JUN 2005) (10 U.S.C. 2534(a)(3)).

(14) ___ 252.226-7001, Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns (SEP 2004) (Section 8021 of Pub. L. 107-248 and similar sections in subsequent DoD appropriations acts).

(15) ___ 252.227-7015, Technical Data--Commercial Items (NOV 1995) (10 U.S.C. 2320).

(16) ___ 252.227-7037, Validation of Restrictive Markings on Technical Data (SEP 1999) (10 U.S.C. 2321).

(17) ___ 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports(MAR 2008) (10 U.S.C. 2227).

(18) ___ 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Public Law 108-375).

(19) _X_ 252.243-7002, Requests for Equitable Adjustment (MAR 1998) (10 U.S.C. 2410).

(20)(i) ___ 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(ii) ___ Alternate I (MAR 2000) of 252.247-7023.

(iii) ___ Alternate II (MAR 2000) of 252.247-7023.

(iv) ___ Alternate III (MAY 2002) of 252.247-7023.

(21) ___ 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

(1) 252.225-7014, Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).

(2) 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Public Law 108-375).

(3) 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(4) 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(End of clause)

252.233-7001 CHOICE OF LAW (OVERSEAS) (JUNE 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

252.243-7001 PRICING OF CONTRACT MODIFICATIONS (DEC 1991)

When costs are a factor in any price adjustment under this contract, the contract cost principles and procedures in FAR part 31 and DFARS part 231, in effect on the date of this contract, apply.

SPS CONSOLIDATED SERVER TIME ZONE (Jun 2006) (NAVSUP)

SUP 5252.216-9403 WRITTEN ORDERS (INDEFINITE DELIVERY CONTRACTS)(JAN 1992):

Written orders (on DD Form 1155) will contain the following information consistent with the terms of the contract:

(a) Date of order;
(b) Contract number and order number;
(c) Requisition number;
(d) Item number and description, quantity ordered, unit price and contract price;
(e) Place of delivery or performance (including consignee);
(f) Packaging, packing, and shipping instructions if any required;
(g) Accounting and appropriation data;
(h) Inspection invoicing and payment provisions to the extent not covered in the contract; and any other pertinent information.

The following clause is applicable only to a Japanese contractor.

SUP 5252.225-9401 JAPANESE CONCILIATION CLAUSE (JAN 1992)

(a) Except as otherwise provided in this contract, any disagreement arising under this contract which is not resolved by the parties to this contract may be submitted to the U.S.-Japan Joint Committee for Conciliation, in accordance with paragraph 10, Article XVIII, of the Status of Forces Agreement under Article VI of the Treaty of Mutual Cooperation and Security between Japan

and the United States of America. Request by the Contractor for conciliation shall be made in accordance with the procedures provided herein.

(b) In the event the Contractor desires conciliation after the decision of the Contracting Officer has been served upon him, he will first file his appeal from such findings of fact within the time limits described therein before filing request for conciliation with the Joint Committee and then request for appellate authority under the clause of this contract entitled DISPUTES to suspend its action on his appeal until such time as the Joint Committee has had an opportunity for effecting conciliation.

(c) The request for conciliation will be submitted by the Contractor through the nearest local Japanese Defense Facilities Administration Bureau to the Contract Conciliation Panel of the Joint Committee. Upon the filing of the request with the Joint Committee, the Contractor will immediately notify the Contracting Officer in writing that the request for conciliation has been filed.

(d) In the event the disagreement submitted to the Joint Committee under subparagraph (b) above has been received through conciliation, it will be the responsibility of the Contractor to notify the appellate authority designated in the clause of this contract, entitled DISPUTES, of the settlement of the dispute and to withdraw his appeal.

(e) In the event the Contractor who has submitted a request for conciliation to the Joint Committee under subparagraph (b) above desires, notwithstanding the pending request for conciliation, that action by the appropriate authority under the clause of this contract entitled DISPUTES be resumed on his appeal, it is his responsibility to so request the said authority in writing. The Joint Committee shall be immediately informed by the Contractor of his action taken hereunder.

(f) No request for conciliation can be submitted to the Joint Committee in the case of a dispute upon which the final decision of the appropriate authority under the clause of this contract entitled DISPUTES has been rendered. Pending a hearing before the conciliation panel the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision. The provisions of this clause shall not prejudice any right which the parties to the contract may have to file a civil suit.

SUP 5252.243-9400 AUTHORIZED CHANGES ONLY BY THE CONTRACTING OFFICER (JAN 1992)

(a) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(b) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(c) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and telephone number of the Contracting Officer is:

Name: (b)(6), (b)(7)(C)
Address: U.S. Fleet and Industrial Supply Center

(Contracting Dept) BOX 11
1 banchi, Tomari-cho, Yokosuka-shi 238-0001
Telephone: (b)(6), (b)(7)(C)

SUP 5252.216-9402 ORAL ORDERS (INDEFINITE DELIVERY CONTRACTS)(JAN 1999):

Oral orders may be placed providing the following conditions are complied with:

(a) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(b) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract; date order was placed, name and title of person placing order; an itemized listing of supplies or services furnished; unit price and extension of each item; and, delivery or performance date.

(c) Invoices for supplies or services furnished in response to oral orders will be accompanied with a received copy of each related delivery ticket.

(d) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(e) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one oral order is consolidated for a single confirmation

The following clause is applicable only to a Japanese contractor.

CONSUMPTION TAX (OCT 1992)(YOK)

(a) The Governments of the United States and Japan have agreed that this contract is exempt from the Japanese Consumption Tax. In accordance with paragraph (c) of the clause FAR 52.229-6, "TAXES -- FOREIGN FIXED-PRICE CONTRACTS (JAN 1991)," the offerors or quoters shall not include the Consumption Tax (including underlying taxes) in their proposal or quotations. By submission of your proposal or quotation, you are certifying that your proposal or quotation does not contain any such tax. The following U.S. Government (USG) proof of purchase forms shall be used to claim the exemption at tax offices:

USG Standard Form 1034
USG Standard Form 1113
USG Standard Form 44
Department of Defense Form 1155
Navy Comptroller Form 2277

(b) The Contractor shall retain the appropriate USG proof of purchase forms set forth above for a period of seven (7) years. In addition, the Contractor shall maintain adequate records containing all pertinent information with regard to the claiming of Consumption Tax exemptions related to this contract. These records shall be subject to review by the Contracting Officer, or his or her designated representative, at any time up to seven (7) years from the date of final payment under this contract.

(c) Any questions concerning the applicability of the Consumption Tax should be directed to the appropriate local tax office.

The following clause is applicable only to a Japanese contractor.

CUSTOMS AND TAX EXEMPTION (OCT 1992)(YOK)

(a) The Contractor shall, notwithstanding any other clause in this contract to the contrary, be required to submit a request in writing to the Contracting Officer for issuance of a Tax Exemption Certificate for any import duties and all taxes paid or to be paid from which the U.S. Government is entitled to an exemption. These taxes and duties are enumerated in Article XII of the Status of Forces Agreement under Article VI of the Treaty of Mutual Cooperation and Security between the Governments of the United States of America and Japan, regarding facilities areas and the status of United States Armed Forces in Japan. The Contractor's request shall include the following information:

(1) Name of contractor;

(2) Contract number and job order number (if applicable);

(3) Nomenclature of taxable material to be delivered and intended use;

(4) Quantity of taxable material used or to be delivered; and

(5) Period of taxable material use.

(b) In the case of gasoline and other petroleum products, the Contractor shall be responsible for making every reasonable effort to determine the accuracy of his figures on consumption. In this regard, the Contractor shall, upon request of the Contracting Officer, present all available data used by the Contractor as the basis for determining such figures. The Contractor shall be required to maintain adequate records containing all pertinent information with regard to the above requirements. Further, these records shall be subject to review by the Contracting Officer at any time up to three years from the date of final payment under this contract.

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:
ADMIN

1.0 Contract Administration Appointments and Duties: In order to expedite administration of this contract/order, the following delineation of duties is provided including the names, addresses and phone numbers for each individual or office as specified. The individual/position designated as having responsibility should be contacted for any questions, clarifications or information regarding the functions assigned.

(a) Procuring Contracting Officer (PCO) is responsible for:

(1) All pre-award information, questions, or data;
(2) Freedom of information inquiries;
(3) Change/question/information regarding the scope, terms or conditions of the basic contract document; and/or
(4) Arranging the post award conference (See FAR 42.503-1).

Name: (b)(6), (b)(7)(C) Code 221.1
Ashore Contracts Division
Far East Contracting Department
FISC Yokosuka, Japan
PSC 473 Box 11 FPO AP 96349-1500
(Local) U.S. Fleet and Industrial Supply Center
(Contracting Dept.) Box 11
1 banchi, Tomari-cho, Yokosuka-shi 238-0001
(b)(6), (b)(7)(C)

(b) Contract Administration Office (CAO), which is the same as the PCO above, is responsible for matters specified in FAR 42.302 and DFARS 243.302 except in those areas otherwise designated herein.

(c) Ordering Officer is responsible for:

(1) Issuing delivery/task orders;
(2) Obligating the funds by issuance of the delivery/task order;
(3) Authorization to begin performance; and/or
(4) Monitoring of total price of delivery/task orders issued, and
(5) The following Ordering Officer(s)/Alternate Ordering Officer(s) cited in paragraph (e) below will place delivery/task orders.

(d) The following individuals are designated as authorized Ordering Officer:

Hokkaido and Honshu Areas

Ordering Officer: (b)(6), (b)(7)(C)
Customer Services Division (Code 430)

FISC Yokosuka
PSC 473 Box 11

Kyushu Area

Ordering Officer: (b)(6), (b)(7)(C) Code 182.1
FISC Yokosuka Det, Sasebo
PSC 476, Box 6, FPO AP 96322-1502
Tel: DSN (b)(6), (b)(7)(C)

Alternate Ordering Officer: To be determined.

2.0 Designated Invoice Office: The Contractor shall submit its invoice, as described in 3.0 below to the Receiving Officer, for certification as to inspection and acceptance. After certification, such an invoice will be forwarded to the applicable paying office.

3.0 Invoice Information: Pursuant to the requirements of FAR 52.232-25 Prompt Payment (OCT 2003) cited herein, a proper invoice must include the following information:

(a) Name and address of the Contractor;

(b) Invoice date;

(c) Contract number or other authorization for supplies delivered or services performed (including order number, contract line item number (CLIN) and, if applicable, the contract subline item number (SLIN);

(d) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed;

(e) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading;

(f) Name and address of Contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment);

(g) Name (where practicable), title, phone number and mailing address of person to be notified in event of a defective invoice; and,

(h) Any other information or documentation required by other requirements of the contract (such as evidence of shipment).

4.0 Designated Payment Office: Payment will be made in Japanese Yen or U.S. Dollar check by the following offices:

For U.S. Navy Ships (USS)

Defense Finance and Accounting Service (DFAS) Japan
(Attn: Code JRLG)
Bldg. 206, Unit 5220
Yokota Air Base
Fussa-shi, Tokyo 197-0001

For U.S. Coast Guard Ships (USCG)

DFAS Japan
(Attn: Code JRLE)
Bldg. 206, Unit 5220
Yokota Air Base
Fussa-shi, Tokyo 197-0001

The Contractor located in Japan must agree to receive payment by EFT. Transaction fee of 735 Yen for the Contractor in Japan will be deducted by the Financial Institution (J.P. Morgan) making payment. The Contractor located in other than Japan, the check will be mailed to the contractor. Additional fee may be imposed by the bank designated to receive payment.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

The following have been modified:

STATEMENT OF WORK

OBJECTIVE – The contractor shall arrange for services required for USS Ships and USCG Ships (optional users) at various ports in Japan.

This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services at the fixed price listed in the Schedule of Rates.

Prices in the offer shall be stated in Japanese Yen or U.S. Dollars. In case pricing proposals in both Yen and U.S. Dollar are received, the exchange rate of 114.7781 Yen = U.S. $1.00 (Budget Exchange Rate of FY08) will be used for evaluation purposes.

1.0 Classification of Ships: The following are three classifications of ships identified for the purpose of establishing basic husbanding service charges.

Classification of Ships	Type of Vessel	Hull Designation
A (USS Ships and USCG Ships)	Frigates, Destroyers, Submarines, Cutters Ice Breakers and Buoy Tenders, Mine Sweepers, and Salvage Ships	FF/FFG/DD/DDG/SS/SSN WHEC/WABC/WPB, WLM or WLB/MCM/ARS
B (USS Ships)	Cruisers, Landing Ships, Amphibious Warships and Submarine Tenders	CG/LCC/LPH/LPD/LSD/ LST or AS
C (USS Ships)	Aircraft Carriers	CV/CVN

a. USCG Ships are optional rather than required users of services under this contract. It has been the Government's experience that USCG Ships requiring husbanding services in Japan normally obtain husbanding service through this contract (or its predecessor contracts.)

2.0 Basic Husbanding Service (CLIN No. 0001): The basic husbanding service charges will be paid for the basic husbanding services defined below. Upon receipt of notification of ship's arrival from the Ordering Officer, the Contractor shall:

Notify local port authority of estimated time of arrival of the ship as advised by the Ordering Officer;

Make berthing arrangements, including tugs, pilots, line handling, brows and camels;

Confirm and advise the Ordering Officer of arrangements made;

Go aboard the ship on arrival and advise the Supply Officer or his authorized representative of applicable port regulations, tariff rates and schedule of services available during the ship's in-port period;

Perform liaison function between ship's representative and port service companies providing services or supplies required;

Arrange for shore patrol coordination with local police authorities; and

When advised of ship's departure date, obtain necessary clearance and make all necessary arrangements for deberthing, pilots, tugs and line handlers as applicable.

3.0 Additional/Arrangement Charge (CLINs 0003 and 0004):

An additional or arrangement charge will be paid for arrangements made with a supplier for delivery of supplies or performance of services. The supplies or services provided by a supplier as arranged by the Contractor herein shall be considered a separate transaction which is to be executed between the ship's Supply Officer and the supplier.

When making these arrangements, the Contractor shall obtain quotations on a competitive basis from preferably at least three sources. The Contractor is responsible for affirmatively stating to all suppliers at the time a quote is solicited that the Contractor is not authorized to contract on behalf of the Government and that no contract will exist until a purchase order is issued.

The Contractor will submit the supplier's quotations to the ship's Supply Officer for his selection of a supplier. If only one supplier responds with a quotation, the Contractor shall provide the ship's Supply Officer with a written statement explaining the absence of competition. Where the selection of a supplier is required before the ship's arrival, the Contractor shall submit such quotations to the Ordering Officer specified in page 9 of 47, paragraph 1.0(d).

4.0 Labor: The Contractor agrees that performance under this contract shall be subject to and in accordance with the laws of Japan in effect from time to time, which govern the hours, wages, labor relations, workmen's compensation, working conditions and other matters pertaining to labor.

5.0 Pricing: The Contractor shall use its best efforts to ensure that the quotations for supplies/services shall be as low as those established by tariff, laws and those charged by the quoter to its most favored customer.

6.0 Safety Requirements for Water Transportation Services: When arranging for liberty boat, water taxi, or other similar type water transportation services is ordered under CLIN 0003AE and 0004AJ, the Contractor shall comply with the following requirements.

6.1 Boat Requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris and fitted for the services required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of Japan. Notwithstanding compliance with local laws and regulations, the Contractor shall meet all additional requirements as set forth throughout the Statement of Work.

6.2 Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

6.3 Each boat shall be capable of transporting a minimum of ten (10) passengers.

6.4 The following information shall be conspicuously posted in both English and Japanese.

6.4.1 Current operator's/captain's license
6.4.2 Passenger/weight capacity limit notice
6.4.3 Location of life jackets and other life saving equipment
6.4.4 Location of all exits indicated in large letters
6.4.5 Emergency procedures

6.5 Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

6.6 Operation of the boat shall be in a safe and seaworthy manner. At least two-person crew shall be required on every liberty launch.

6.7 The consumption of alcoholic beverages shall not be permitted aboard the boat.

6.8 Operator Qualifications: All personnel or employees of the Contractor operating boats providing subject services shall have all certification required and issued by the Japanese Government for the operation of the type, class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

6.9 Security: During the term of this contract the ship(s) to be serviced agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat – SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

6.10 Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

6.11 Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the Contractor or his authorized representative prior to acceptance. This inspection shall include but not limited to:

Hull
-- Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures
-- Superstructure, including masts and stacks
-- Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines
-- Provisions for drainage of sea water from exposed decks over the side and not into the bilges
-- Access/egress points – adequacy of number and location

Machinery
-- Main propulsion and auxiliary machinery essential to operation of boat
-- Sea and bulkhead closure valves
-- Bilge suction strainers and dewatering systems – bilge pump to be tested by operation
-- Bilges free of flammable liquids

Electrical
-- Cables
-- Navigation, deck and emergency lighting
-- Rotating electrical machinery, e.g., generators and motors

-- Storage batteries

Lifesaving Equipment
-- Life preservers – sufficient number for maximum capacity of boat, accessible and in satisfactory condition
-- Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity
-- First aid kits, life rings and distress lights
-- Distress signaling devices

Fire Fighting Equipment
-- Fire pump – test by subjecting fire hose(s) to fire pump pressure
-- Portable fire extinguishers
-- Fixed systems. E.g., CO2 cylinders

Steering Apparatus

Miscellaneous Systems and Equipment
-- Harbor charts
-- Ground tackle and mooring lines
-- Whistle/fog horn, bell
-- Lighted compass
-- 2-way radio capable of bridge-to-bridge communications
-- Current license
-- Operator qualifications

Only approved boats shall be used in the performance of the contract. The Contractor will provide each ship with a list of pre-approved boats. If the Contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement is that contained in paragraph 6.12 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

6.12 Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all Contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

Safety of Operations: Insure the following are present and in working condition:
-- Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.
-- Fire extinguishers sufficient for the size of the vessel operated.
-- Radio (with battery backup) capable of bridge to bridge communications.
-- Anchor/chain sufficiency for the size of the vessel operated.
-- Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

Hazards to Passengers: Conduct topside visual inspection for safe conditions of the following:
-- Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.
-- Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.
-- Ensure no bare or exposed electrical wires or connections are located in the passenger area.
-- Validate that sufficient unobstructed exits are present and marked in English.
-- Verify that no missile hazards, gear adrift, or trip hazards exist.

6.13 Critical Safety Equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or his designated representative will have the option of furnishing the

missing item. In all cases where government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contracting Officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting Officer is not on site, notification will be by message.

7. Antiterrorism/Force Protection (ATFP)

7.1. Protection of Ship Schedule Information. The Contractor shall protect ship schedule information, both paper-based and electronic, from disclosure to individuals and contractors that are not directly involved in providing service to the Navy in response to a verbal or written order from an authorized ordering official under the contract. This requirement to protect ship schedule information shall be flowed down to all individuals and contractors that are directly involved or may be directly involved in providing service to the Navy under this contract. The Contractor's written policy shall describe the required measures to protect ship schedule information.

7.2. Security Screening of Contractor and Subcontractor Employees . The Contractor shall conduct security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees if the results of their background investigation indicate they may be a security risk to the ship or its crewmembers.

7.3. Contractor/Subcontractor Identification.

7.3.1. The Contractor shall issue photo identification badges to its personnel and ensure subcontractor personnel have photo identification badges. Badges shall be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge so that it is visible at all times.

7.3.2. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as Contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

Note: The AT/FP related service (e.g., barrier, guard shack, etc.) will be ordered by the Ship's Supply Officer.

8. Organizational Conflict of Interest: To avoid organizational conflicts of interest, the HS Contractor is prohibited from submitting an offer or quotation to the Ordering Officer or Ship Supply Officer on its own behalf or on behalf of an affiliated company or organization as part of arranging for services under the Contract. The HS Contractor is prohibited from releasing any details of the offers or quotations it collects for transmittal to the Ordering Officer or Ship Supply Officer to other actual or potential offerors or quoters.

Collection of Past Performance Information

The Contractor's performance is reported for each ship visit by the Ordering Officer using the form entitled "Contractor's Performance Evaluation Sheet" (Attachment (3) of this contract). The Ordering Oficer will rate the Contractor's performance using the following adjectival ratings:

EXCEPTIONAL (E): Meets contractual requirements and exceeds many to customers' benefit. The element or sub-element being evaluated was accomplished with few minor problems for which corrective actions were highly effective. Response and/or findings exceed a "very good" rating.

VERY GOOD (VG): Meets contractual requirements and exceeds some to customers' benefit. The element or sub-element being evaluated was accomplished with no problems or some minor problems for which corrective actions were effective. Response and/or findings exceed a "satisfactory" rating.

SATISFACTORY (S): Meets contractual requirements. The element or sub-element being evaluated was accomplished with no problems or some minor problems for which corrective actions were satisfactory.

MARGINAL (M): Did not meet some contractual requirements. The element or sub-element being evaluated reflects some serious problems, for which the contractor either failed to identify or implement corrective actions in a timely manner, or for which the corrective actions implemented or proposed to be implemented were, or are expected to be, only partially effective. Performance was consistently of mediocre quality or exhibited a trend of becoming so.

UNSATISFACTORY (U): Did not meet most contractual requirements and recovery did not occur within the period of performance. The element or sub-element being evaluated reflected serious problem(s) for which the contractor either failed to identify or implement corrective actions or for which corrective actions, implemented, or proposed to be implemented, were, or are expected to be, mostly ineffective. Performance was consistently of poor quality or exhibited a trend of becoming so.

SUMMARY OF CHANGES

B. The following terms and conditions were erroneously omited, when the document was changed over from the RFP to the contract, due to SPS technical failure, and hereby incorporated into DELIVERY INFORMATION on page 13 of 25 of the contrcat.

1.0 Period of Contract: The period of the contract for the purpose of issuing task orders shall be from 1 Oct 2008 through 30 September 2009.

2.0 Place of Performance: The services shall be performed throughout any of the Japanese ports. Ports frequently ordered are; Beppu, Hakata, Kagoshima, Kobe, Kochi, Kure, Niigata, Ohita, Osaka, Otaru, Sendai, Shimoda, Tokuyama, Tokyo, Wakkanai, Yokohama and Yokosuka.

3.0 Ordering Lead Time: The Ordering Officer shall place orders with the Contractor for the arrangement services identified in the contract upon receipt of the logistics requirement (LOGREQ) from the ship. Orders may be placed orally or in writing. The Contractor shall notify the Ordering Officer, WITHIN TWO WORKING DAYS AFTER RECEIPT OF SUCH ORDER, if any item that has been ordered cannot be furnished by the time required or is not available in the commercial market place. The Contractor shall have completed its performance responsibilities once it provides the required quotations to the ship's Supply Officer or to the ordering officer (in those instances in which selection of a supplier is required before the ship's arrival) or provides notice within two working days that an item cannot be furnished within the time required or is not available in the commercial market place.

4.0 Issuance of Purchase Orders

4.1 See Statement of Work 3.0 for arrangement of supplies and/or services and communication with the ship's Supply Officer.

4.2 A purchase order (DD Form 1155) shall be issued by the ship's Supply Officer to the supplier concerned before the delivery or performance has begun. Purchase orders are prepared and processed in essentially the same manner as set forth in SUP 5252.216-9402 ORAL ORDERS (INDEFINITE DELIVERY CONTRACTS)(JAN 1999) and SUP 5252.216-9403 WRITTEN ORDERS (INDEFINITE DELIVERY CONTRACTS)(JAN 1992) below except that it is identified as a purchase order vice a task order and is issued directly to the supplier concerned vise the Contractor hereof. The Contractor is responsible to inform the suppliers that failure to receive such documents from ship's Supply Officer may result in a delay of payment since the contract for the delivery of supplies or performance of the service is between the ship and the supplier.

5.0 Point of Contact: The Ordering Officer will contact the following Contractor's personnel under this contract:

	Name of Employee	Title	Office Phone	Home Phone
1	(b)(6), (b)(7)(C)			
2				

C. Other terms and conditions remain the same.

XX07	Ship's Utility Services
XX08	Land Transportation (Personnel) Services
XX09	Telephone Services and Communications Equipment
XX10	Force Protection Personnel
XX11	Force Protection Supplies
XX12	Port Handling Costs

B. PRICING SPREADSHEETS

Pricing spreadsheets are provided in Attachment 1 of this solicitation and will be used for price evaluation purposes.

DESCRIPTION OF CONTRACTUAL SCOPE

This contract is for the provision of pierside support (PS). The holder of this contract is a U.S. Navy contractor. The holder of this contract is not an agent of the U.S. Navy and does not have the authority to bind the U.S. Navy.

1. Characteristics of the Littoral Combat Ship is as follows:
   Draft – 12 Feet
   Length – 379 Feet
   Beam – 43 Feet
   Displacement – 2,840 tons
   Maximum Crew Size - 85

2. This contract is for LCS Pierside Support Services at any berthing location within Changi Naval Base, Singapore. The contract is to provide services as stated herein for the ships while in port.

3. Littoral Combat ships may be in port up to 30 consecutive days in duration.

4. The quantities listed in Attachment 1, Schedule of Supplies and services are estimates only. There is no guarantee that the government will meet or exceed the estimates.

5. The individual Lot Line Items provided under this contract are listed in Attachment 1, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Lot Line Item Numbers (LLINs).

6. Non-priced supplies and services will be procured by Fleet Logistics Center Yokosuka, Site Singapore Contracting Officers.

7. This is a Firm-Fixed-Price Indefinite-Delivery, Indefinite-Quantity (IDIQ) type contract for port services. These service requirements are and defined in the Performance Work Statements (PWS). The "minimum" and "maximum" to be established per FAR Clause 52.216-22.

8. The PS Contractor agrees to furnish the services or supplies at the fixed price listed in the schedules.

9. This contract is for a period of twelve (12) months with one (1) year option. The contract also includes the clause entitled FAR 52.217-9 Option to extend the Term of the Contract. If all options are exercised under FAR 52.217-9, the duration of this contract is 30 months.

10. The contract will include the clause entitled FAR 52.237-7023 (Class deviation 2009-00010) Continuation of Essential Contractor Services. Contractors providing services designated as essential contractor services by a DoD component are expected to use their best efforts to continue providing such services, in accordance with the terms and conditions of their contracts even during periods of crisis.

11. Minimum guarantee for this contract is SGD$5,000.00. Maximum order quantity is the dollar amount equal to the price of 300% of the quantities identified in the price schedule.

A. GENERAL OVERVIEW

1. OBJECTIVE

The objective of this contract is to obtain pierside support for U.S. Navy Littoral Combat ships located at Changi Naval Base, Singapore.

2. SCOPE

a. The general scope of this contract and its general conditions are described above. This section provides the detailed Performance Work Statement (PWS) descriptions for applicable Line Items.

b. General Requirements

i. The PS Contractor shall provide timely delivery of supplies and services conforming to this PWS.

ii. The PS Contractor shall assure that supplies and services ordered by NAVSUP Fleet Logistics Center Yokosuka, Site Singapore Ordering Officer conform to the general requirements of the contract and liaise with the Ordering Officer in resolving any problems in meeting the requirements.

iii. The PS Contractor shall identify representatives to act as the principal points of contact between the PS Contractor and NAVSUP Fleet Logistics Center Yokosuka, Site Singapore representatives concerning performance issues.

iv. The PS Contractor shall obtain any necessary insurance, licenses and permits, and comply with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the U.S. Government.

v. The PS Contractor shall ensure that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

vi. The PS Contractor shall ensure that subcontractors comply with these requirements.

3. PRICING

a. All contract prices are in Singapore Dollars (SGD). All taxes including Goods and Services Tax (GST) and surcharges are included in the unit cost.

b. Except for Port Tariffs and To Be Determined (TBD) items, unit prices for all contract items described below shall be inclusive of all other costs including, but not limited to, all necessary equipment, licensed operators, and liability insurance as required by local law, holiday and overtime costs, customs clearances, fuel and operating expenses.

c. Fixed prices are required in the pricing schedule except for Port Tariff items. Unless otherwise provided, these prices shall also include performance at night, in overtime, Saturdays, Sundays, and Holidays; and services performed under inclement weather. They also include all operating expenses including, but not limited to, tugs, barges, trucks and personnel.

d. The pricing for all services requiring the use of transportation type conveyances (i.e., trucks, barges for LINE ITEMs for trash removal, CHT removal, potable water, oily waste removal, etc) shall include the use of the equipment as required to complete the service in the statement of work without any additional charges for detention or demurrage except as provided by subparagraph j below.

e. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate LINE ITEM in the Schedule. This includes all associated equipment, transportation and labor required to satisfy ship and port requirements.

f. Installation cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Installation for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

g. Removal cost and time shall be included in the unit price as part of the direct cost. This include all associated equipment and labor required to removal the installed services.

h. When the PS Contractor obtains a supply or service from a port or local government-type organization and the price of that item is set by a published price list (e.g. port tariff), then the PS Contractor shall be reimbursed for the published price of the item. The PS Contractor shall not be paid an amount in addition to the published price of the item. A copy of the current published price list (e.g. port tariff) shall be provided to NAVSUP Fleet Logistics Center Yokosuka, Site Singapore email address specified at the time of contract award. The PS Contractor shall provide the revision of published price list when there is a change within 7 days.

i. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and/or labor is along side the ship and capable of operations. Travel time to the location of performance shall not be charged. For the purposes of this contract, one (1) day is equal to 24 hours and begins with the performance of service. For example, service from 1800 until 1800 the next calendar day is equal to one (1) day of service. In cases where the billing unit is ‘day’ and a full day of service is not used by the Ordering Activity, the PS Contractor shall be entitled to bill for one day of service. For example, if a sub lot line item with a billing unit of day were ordered and used for 30 hours, the PS Contractor would be entitled to bill for two days of service. In cases where the ship does not arrive at the time specified in the delivery/task and services are made available based upon the time requested in the delivery/task order, billing for services may commence at the time

requested by the Government unless notice of cancellation is provided by NAVSUP Fleet Logistics Center Yokosuka, Site Singapore Ordering Officer.

j. Demurrage charges shall only be charged if the PS Contractor's service is unduly delayed due to the fault of the U.S. Government for more than 1 hour from the requested time of commencement of an operation. Example, if the Ordering Officer requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but, due to the fault of the government, was not attended to until 1500 hrs when pumping begins. The PS Contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). The time required to complete the requirements detailed in the PWS is not considered a delay.

k. Port Tariffs will apply to those services that are based on the Port Tariff rates established and controlled by the Host nation or Port Authorities. The abbreviation "PT" in the pricing schedule identifies the port tariff items that the PS Contractor is not required to price.

l. Several Lot Line Item services are based on volume (e.g. trash removal, CHT, potable water, and oily waste removal). Volume-based services shall be priced at the same unit price specified in the Attachment 1 pricing schedules.

4. QUALITY

a. The PS Contractor shall provide the timely delivery of goods and services to the Littoral Combat ships making port visits, provide continuous oversight of costs and performance throughout the area covered by this contract, and make meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. The PS Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Operations Officers, and NAVSUP Fleet Logistics Center Yokosuka, Site Singapore. The contract will not specify how the PS Contractor is to perform, but measurable performance standards are established in the Quality Assurance Surveillance Plan (QASP) to monitor contract performance during each ship's visit.

b. The quality of all services or supplies provided shall conform at least to commercial standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

c. The performance standards are explained in the Quality Assurance Surveillance Plan (QASP). The performance standards are:

   i. Ship's satisfaction with the contractor's services during the port visit as identified in the ship's port visit cost report; and

d. The percentile goals are fixed for each factor within the QASP. The failure of the PS Contractor to meet the percentile goal for any factor will be investigated and evaluated by the Contracting Officer. The PS Contractor will be given the opportunity to refute an adverse assessment prior to finalizing the metric for a quarter.

5. POINT OF CONTACT

   d. Based upon the ship's orders, the PS Contractor shall ensure the timely filling of all ship's requirements. The PS Contractor shall designate at least one senior company official to be the Point of Contact (POC) under this contract for logistic and contractual support. The POC shall be fully fluent in English. The PS Contractor is required to designate the POC at the time of contract award.

e. All PS Contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port. All correspondence shall be in English. All electronic communication between the ship and the PS Contractor shall be copied to the NAVSUP Fleet Logistics Center Yokosuka, Site Singapore Contracting Officer and Logistic Support Representative emails specified at the time of contract award. The PS Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Ordering Officer from the PS Contractor.

6. ORDERING SUPPLIES AND SERVICES & PROVIDING GENERAL ASSISTANCE

NAVSUP Fleet Logisitcs Center Yokosuka, Site Singapore Contracting Officers are the only authorised ordering officers under this contract. Services required under this contract will be obtained by issuing Task/Delivery orders under this contract. All CLINS, LLINS, Task/Delivery orders shall be issued not less than 48 hours prior to commencement of services. Task/Delivery orders shall be issued from contract award date to final day of the contract. Oral orders from NAVSUP Fleet Logistics Center Yokosuka, Site Singapore Contracting Officers are authorized and a written confirmation on SF1449 form must be provided within ten (10) days. Written task/delivery orders are to be on a fully completed SF1449 form. Orders may be issued by phone, facsimile or by electronic commerce methods.

The Contracting Officer will be notified if there is a question regarding the scope of the contract. If these services and supplies are not priced in the contract, or if these services and supplies are available under other U.S. Government contracts, the following applies:

a. The U.S. Government will not pay the PS Contractor for any personal requests from individual crewmembers, whether military or civilian.

b. The PS Contractor shall install all ordered equipment upon the ship’s arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders and telephones.

c. The PS contractor shall remove all provide equipment to facilitate the ship's timely departure.

d. The PS Contractor must obtain a written receipt from an authorized LCSRON representative accepting all services or supplies provided.

7. CANCELLATIONS

a. Orders may be cancelled orally or in writing. Oral cancellations will be followed-up with a written confirmation to the PS Contractor within 3 working days.

b. An order may be cancelled 48 hours or earlier before the start of the service or delivery of the services ordered and the government will not be liable for any charges. For an order not cancelled at least 48 hours in advance, the Ordering Activity is responsible for cancellation costs to be negotiated under the “Termination for the Government’s Convenience” (FAR 52.212-4) section included in this contract.

c. In all cases, the PS contractor is responsible for mitigating any damage or termination costs incurred because of the cancellation.

8. INVOICES AND PAYMENT

a. The PS Contractor shall prepare the invoice with supporting documents and present them to NAVSUP Fleet Logistics Center Yokosuka, Site Singapore Ordering Officer based on the requirement of FAR 52.232-25 Prompt Payment (Sep 1992).

b. The Ordering Officer will review the invoices and forward to Disbursing Office, U.S. Navy Region Center Singapore. The Disbursing Office will pay the invoices.

c. All payments due to the PS Contractor under the contract shall be made in Singapore Dollars by the Disbursing Office, U.S. Navy Region Center Singapore, PSA Sembawang Terminal, Bldg 7-4, Deptford Road, Singapore 759657. Unless specified on each invoice, payment will be made via wire transfer to the PS Contractor's designated bank. The PS Contractor shall be responsible for all bank transfer related charges.

9. UNIQUE / PARTICULAR SITUATIONS

a. Ship Maintenance and/or Repair: If ship maintenance and/or repair is required and performed in Changi Naval Base, Singapore during the ship visit, the PS Contractor shall coordinate with other U.S Government Contractors in performing their required services.

b. Order of Priority of Usage: The PS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities if the port requires use of port-provided supplies and services or, if the port-provided supplies and services are less expensive than similar services provided by the PS Contractor or its subcontractors, or finally provide it themselves to include subcontractors. Where the reasonable cost of mobilization/demobilization for U.S. Government owned equipment exceeds the quoted price of the sub lot line item it is intended to replace, the PS Contractor shall use the least cost alternative to meet the requirement. Information on availability of host nation provided services, where available, is annotated on the Attachment 1 pricing schedules. If, for any reason, an item that would otherwise be provided by the Government, host nation, or port authority is not available, that item shall be provided by the PS Contractor at the price quoted in the Attachment 1 pricing schedules.

c. Short Notice Orders: The contractor shall perform all orders that are issued within the minimum order lead time annotated in the Attachment 1 schedules. If orders are issued with less than the required minimum order lead time prior to the start of performance, the contractor shall use its best efforts to provide the required services in accordance with the order's delivery schedule but shall promptly inform the government if it will not be able to meet the delivery schedule.

Important Notes

1) Pricing for supplies and services will be expressed in SGD and shall be billed in the units of the respective LINE ITEMs.

2) Definitions for the "Unit" abbreviations are as follows:

CM = Cubic Meter
DY = Day (refers to a 24-hour period beginning at start of service unless stated otherwise)
EA = Each
HR = Hour
JB = Job
LOT (LT) = A lot (LT) is a deliverable item or group of items with a separate and distinct unit price.
MT = Metric Ton
PT = Port Tariff

SGD = Singapore Dollars
TBD = To Be Determined
NSP = Not Separately priced

3) The Line Item Numbers consist of four numeric digits. XX replacement of any numeric digits makes the descriptor generic and applicable to all LINE ITEMs in that series.

D. Definitions

BARGE = Flat-bottomed displacement ships used for carrying or storing cargo, for separation between vessels and other structures, or as a work platform. Barges may or may not be self-propelled.

DEMOBLIZATION = The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location or to another work location.

GFE = U.S. Government Furnished Equipment. See Attachment 2 for GFE listing.

LCSRON = Littoral Combat Ship Squadron

MOBLIZATION = Moving a piece of equipment from a storage or previous work location to the new required work location.

PIERSIDE SERVCES = Differs from husbanding services and includes longer-term port and logisitics services required by a ship which is “home-based” at an identified port.

PORT TARIFF = Rates that are established and controlled by the HN/Port Authority. Use of port tariff services is mandatory and/or directed.

10. LINE ITEM DESCRIPTIONS

a. LINE ITEM XX01 - TRASH REMOVAL

1. Trash removal service is the collection and disposal of refuse (i.e., trash) including liquid, semi-liquid, or solid garbage. Refuse does not include explosives and incendiary waste, or waste contaminated by medical and radiological processes.

2. The PS Contractor shall remove and dispose of "refuse" from the ship and areas surrounding trash bins, as well as any spilled refuse. The PS Contractor shall provide dedicated refuse bins to the ship. The PS Contractor shall collect all loose refuse placed adjacent to refuse bins. The PS Contractor shall immediately clean up any spilled refuse. The PS Contractor shall properly dispose of all collected refuse.

3. The PS Contractor shall place containers or trucks within twenty-five (25) meters of the ship or as permitted by port regulation, or barges alongside the ship. The PS Contractor shall empty the containers or barges when full and shall assure their continuous availability for trash disposal.

4. The PS Contractor shall submit, as an attachment to the invoices, a document that certifies the quantity collected and the name of the disposal plant where the trash will be disposed. The PS Contractor is also responsible to follow any environmental regulations required by each country. The PS Contractor is required to keep all disposal certificates and shall make them available to NAVSUP Fleet Logistics Center Yokosuka, Site Singapore upon request.

5. Any spillage of refuse in the course of the removal operations shall be cleaned up immediately by the PS Contractor. Refuse containers, when used and when emptied, shall be returned to their original position with the lids (if any) replaced thereon.

6. The PS Contractor shall be paid based on the ACTUAL CUBIC METERS of trash removed. The PS Contractor shall be entitled to bill for 16 CM under sub lot line items XX01AA where the actual volume of trash removal is less than 16 CM (per order).

b. LINE ITEM XX02 – BROW SERVICES

BROW AND BROW STAND

The unit price under CLINs and SUBLINE ITEMS XX02AA, XX02AB and XX02AC for mob/demob/installation for commercial brow and brow stand shall include all costs associated with providing rental, transportation, mobilization/installation and demobilization/removal, and any other incidental costs for arranging the requested services.

The PS Contractor shall be entitled to bill for 4 hours of usage under this line item when actual usage is less than 4 hours (per order). Billing for brows shall be calculated up until the scheduled time of departure.

The Government may also furnish the required size brows for use by the LCS vessel during inport days at Changi Naval Base. The property may not be used for commercial clients and use is restricted to the LCS vessel that may request service under this contract.

The unit price under CLINs and SUBLINE ITEMS XX02AD, XX02AE and XX02AF for mob/demob/installation for GFE brow and brow stand shall include all costs associated with providing transportation, mobilization/installation and demobilization/removal, and any other incidental costs for arranging the requested services.

MOBILE CRANE SERVICES

The PS Contractor shall provide mobile crane services (shore crane) with operator(s). The PS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The PS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each mobile crane ordered.

Crane services under this Line Item are for land cranes only. Crane services for 100 to 150 tons shall have a minimum reach of 75 feet.

FORKLIFT SERVICES

The PS Contractor shall provide forklift services with operator(s). The PS Contractor shall co-ordinate with local Port Authorities, as necessary, to ensure that the services are available as required and at the times requested. Upon the Supply Officer's request, the PS Contractor shall provide information concerning forklift/lifting capacity. The forklifts provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The forklifts shall be suitable for their intended use and shall be operated with due care and within all operating safety limits. The PS Contractor shall be entitled to invoice and be paid a minimum daily price of four (4) continuous hours for each forklift ordered.

c. LINE ITEM XX03 – SHIP MOVEMENT SERVICES

1. The PS Contractor shall arrange pilots, tugs, and line handlers as ordered. The PS Contractor shall coordinate with port authorities, as necessary, to ensure that the services are available at the times requested. It should be noted that the port authority or other authorized sources provide these services, and are, therefore, to be priced in accordance with current tariff rates.

2. The PS Contractor shall provide tugs to bring ships to and from berthing locations. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

d. LINE ITEM XX04 - GENERAL CHARTER & HIRE ITEMS

YOKOHAMA OR COMPARABLE TYPE FENDERS

1. The PS Contractor shall furnish Yokohama or comparable type fenders for the class of ship in accordance with the Schedule of Supplies and Services. Fender size is not specified as this is a performance based service. Fenders provided shall be appropriate and safe for the class of ship and pier configuration combination. The fenders quoted shall be safe and useable for the intended class of ship at the specified location. In the schedule there is a sub contract line item (SUBLINE ITEM) for a daily rental fee PER Yokohama or comparable type fender, and another SUBLINE ITEM for all costs associated with installation, and removal of one fender, as well as round trip costs associated with transport of the fender from another port, if required.

2. Rental is on a daily (24-hour) basis, per fender. Installation, removal, and transportation are charged as a "lot" per fender. The PS Contractor shall be responsible for securing the fenders to the pier.

3. The PS Contractor shall provide fenders with a minimum of two (2) mooring lines.

OILY WASTE REMOVAL

1. Oily Waste is defined as any liquid petroleum product mixed with wastewater and/or oil in any amounts, which, if discharged overboard, would cause or show sheen on the water. The PS Contractor shall dispose of any combination of oily waste and grey water as oily waste.

2. Oily Waste is measured by Cubic Meter (1CM = 264.2 Gallons). The PS Contractor shall submit, as an attachment to the invoices for disposal services, a document verifying the quantity collected and the name of the disposal plant where the oily waste have been or will be disposed. The PS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

3. The PS Contractor shall comply with the environmental requirements of each country where oily waste is disposed and shall be liable for any costs incurred as a result of the PS Contractor's failure to comply with such requirements. The PS Contractor shall keep all disposal certificates and shall make them available to NAVSUP Fleet Logistics Center Yokosuka, Site Singapore upon request. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped. The PS Contractor will submit a request to NAVSUP Fleet Logistics Center Yokosuka, Site Singapore for the difference, accompanied by disposal certificates. NAVSUP Fleet Logistics Center Yokosuka, Site Singapore will investigate and resolve the issue, and will arrange for the ship to pay any amounts determined to be due.

4. Oily Waste Removal involves the collection of Oil and Aggregate Water generated by the ships. The requiring vessel will pump this waste into PS Contractor-provided tanks or barges. The PS Contractor shall provide all equipment and facilities required to remove oily waste, including hoses and connections compatible with the ship being serviced. The PS Contractor shall provide hoses of sufficient length from equipment to the ship with either 2.5" or 4" quick disconnect cam lock fittings.

5. In all cases when a ship orders oily waste disposal services, the PS Contractor shall invoice and will be paid the contract schedule's minimum daily quantity of 5 CM for providing the disposal services, even if the oily waste quantity pumped and disposed that day is less than the 5 CM minimum quantity. Payments over the minimum daily quantity of 5 CM shall be for the amount of oily waste cubic meters removed at the appropriate per CM rate in the schedule. The PS Contractor shall not invoice any charge (either the daily minimum or the additional per CM rate) for ships that do not order disposal services.

6. In the event the PS Contractor subcontracts oily waste disposal, the PS Contractor shall be liable for any costs incurred as a result of the disposal operator's failure to comply with local requirements.

7. The PS Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed. The Government reserves the right to independently verify the volume of discharge using certified flow measuring devices.

8. When removal is done via barge, the PS Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship. The PS Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge (or other vessel provided in lieu of a barge) and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the PS Contractor at no additional charge.

STEVEDORE SERVICES

The PS Contractor shall provide stevedores for general labor. Billing shall be at the hourly rate for worker.

e. LINE ITEM XX05 - COLLECTION, HOLDING, AND TRANSFER (CHT)

1. The PS Contractor is responsible for the entire cycle necessary to collect, remove, and dispose the Collection Holding Transfer (CHT) bacteriological/chemical liquids from ships throughout the area covered by this contract. The PS Contractor shall provide all necessary equipment, personnel and facilities to perform the services including pumps, hoses and connections compatible with the ships being serviced. The PS Contractor shall be responsible for the supervision of the collection, transportation and disposal services to avoid any overflow of waste at the pier. Services shall commence upon ship's arrival at pierside

2. The PS Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

3. The PS Contractor shall remove sewage from the ship in PS Contractor-provided equipment. The Ships holding tank will be emptied prior to reaching 90% of onboard holding capacity. Full capacity of LCS is 2300 gallons or 8.8 cubic meters. Additionally, if a holding tank is used it will be emptied prior to reaching 90% full capacity.

4. The PS Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT. The Government reserves the right to use its own metering device to verify measurement of sewage discharge. The PS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities off-loaded from the ship.

5. The PS Contractor shall provide CHT hoses of sufficient length from PS Contractor equipment to the ship with 4" quick disconnect camlock fittings.

    a. The PS Contractor shall properly dispose of all sewage when the visiting ship is at pierside.

6. The CHT service shall be a dedicated service. The term "dedicated service" means a service provided exclusively to the U.S. Government. In those limited number of cases where this is not possible, the contractor shall provide a system to measure the volume of sewage deposited in the barge by the U.S. Government's ship or otherwise ensure that the ship is charged only for its "pro rata" share of CHT.

7. The PS Contractor will be guaranteed a minimum daily quantity of 25 cubic meters for providing these services even if the actual cubic meters of CHT removed is lower than 25 cubic meters. Note: 264.2 gallons = 1 CM (cubic meter).

8. The PS Contractor shall submit, as an attachment to the invoices, a document (certified by the ship's personnel) that indicates the quantity collected and the name of the disposal plant where the CHT will be disposed. The Government reserves the right to independently verify the actual volume of CHT discharged using ship's tank level indicators.

9. The PS Contractor shall request the ship's personnel to verify all removal quantities at time of CHT collection. The PS Contractor shall follow any environmental regulations required by each country. If the ship concurs with the volume, the ship will pay for the entire amount. If the ship contests the volume, the ship will pay for the amount it actually believes was pumped or 25 cubic meters per day, whichever is greater. The PS Contractor shall submit a request to NAVSUP Fleet Logistics Center Yokosuka, Site Singapore for the difference, accompanied by disposal certificates. NAVSUP Fleet Logistics Center Yokosuka, Site Singapore will investigate and arrange for payment of any additional amounts that are determined to be due.

10. The ship's personnel shall verify all removal quantities at time of CHT collection and the ship duty engineer shall certify the accuracy of the PS Contractor's report in writing. The PS Contractor is also responsible to keep all disposal certificates and shall make them available to Contracting Officer upon request.

f. LINE ITEM XX06 - FRESH POTABLE WATER

Potable water is defined as fresh drinking water of a quality not less than that prescribed in:

a. Current Drinking Water Standards, as published by the United States Environmental Protection Agency, Office of Water and shall comply with specifications of the National Primary and Secondary Drinking Water Regulations (NPDWR). See below:

1. Contaminant levels for inorganic chemicals (effective 1 January 1993)

CONTAMINANT	*MCLG (mg/L)* [1]	*MCL (mg/L)*	*AL (mg/L* [2]*)*
ASBESTOS	7 million fibers/L longer that 10 micrometers	7 million fibers/L longer than 10 micrometers	
ARSENIC		0.05	
BARIUM	2	2	
CADMIUM	0.005	0.005	
CHROMIUM	0.1	0.1	
COPPER	1.3		1.3 [3]
LEAD	0		.015 [4]
MERCURY	0.002	0.002	
NITRATE (AS N)	10	10	
NITRITE (AS N)	1	1	
TOTAL NITRATE AND NITRITE (AS N)	10	10	
SELENIUM	0.05	0.05	
FLUORIDE :	4	4	

(1). Maximum contaminant level goal (MCLG). The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are nonenforceable health goals.

(2) Action level (AL). Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90th percentile" level is greater than 0.015 mg/L).

2. Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

CONTAMINANT	*MCLG (mg/L)*	*MCL (mg/L)*

ALDICARB SULFONE	0.001	0.002
PENTACHLOROPHENOL	0	0.001
TOTAL TRIHALOMETHANES (THE SUM OF THE CONCENTRATIONS OF BROMODICHLOROMETHANE, DIBROMOCHLOROMETHANE, TRIBROMOMETHANE (BROMOFORM), AND TRICHLOROMETHANE (CHLOROFORM)		0.10[(1)]

[(1)]. The MCL for total trihalomethanes applies only to water systems serving 10,000 or more individuals and which add a disinfectant to the water. For systems serving less than 10,000 individuals, individual States or BUMED (in overseas locations) may adopt an effective date for the MCL.

4. Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites that are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Reference (d) contains sampling requirements for the Navy public water system.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Autoanalysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the multiple-Tube Fermentation (MTF) Technique, and the membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use is included in reference (1).

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, except where the State waives this requirement on a case-by-case basis.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the State may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before, unless the MCL has been violated and the system has notified the State (in which case the State may reduce or eliminate the requirement to take the remaining samples).

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms. Or E. coli testing on total coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements that apply when a sample is fecal coliform-positive.

5. Turbidity The MCL for turbidity applies to both community water systems and noncommunity water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at State option).

b. Five turbidity units (maximum) average for 2 consecutive days.

c. These requirements apply to filtered systems until 29 JUNE 1993. The requirements apply to unfiltered systems that the State has determined, in writing, must install filtration until 29 June 1993 or until filtration is installed whichever is later. After the above dates, consult the latest edition of 40 CFR 141.

6. The MCL for Radiological Contaminants are:

Gross alpha particle activity including radium 226 but excluding
radon and uranium . . . . . .15 pCi/L
Combined radium-226 and radium 228 . . .. .5 pCi/L
Tritium . . . . .20,000 pCi/L
Strontium-90. . . . . 8 pCi/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

7. Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

b. Code of Federal Regulations Title 21, Volume 2, Part 165.110 (21CFR165).

a. These documents are incorporated by reference with the same force and effect as if they were given in full text. Full text may be accessed electronically at these websites: http://www.epa.gov/OGWDW and http://www.tdh.state.tx.us/bfds. The PS Contractor shall be responsible for identifying and providing water from a source that meets U.S. Government requirements. The U.S. Government reserves the right to accept deliveries of potable waters that do not comply with above specifications, and to bring the water up to specification standards through chlorination.

b. The PS Contractor shall provide for the delivery of fresh potable water to the ships as ordered. The PS Contractor shall be paid for the amount of water ordered by the vessel. The tankers or trucks and equipment used for transfer, storage and transportation of potable water shall not be used for cargo other than potable water, and must be equipped with independent pipe systems and working, CERTIFIED METERING DEVICES.

c. Source of Water. Water deliveries are to be made from sources that meet the requirements of paragraphs (2)(a) and (2)(b) above. If the water source does not meet the requirements of potable water, the PS Contractor shall be required to provide water from an alternate approved source at no increase in the contract price.

d. Potable water pierside shall be delivered by pipeline if available. If pipeline is not available, potable water pierside shall be delivered by truck.

c. The PS Contractor shall be paid based on the ACTUAL METRIC TONS of potable water received on the ship. The PS Contractor shall include a written statement with the invoice package that describes the method it used to determine the liquid quantities provided to the ship.

g. LINE ITEM XX07 – SHIP'S UTILITY SERVICES

MOB/DEMOB/INSTALLATION OF SHORE POWER CABLES, CONNECTIONS, AND OPERATORS) 450-480V, 60 HZ, 1600 AMPS

The Government shall furnish shore power cables for use by the LCS vessel during inport days at Changi Naval Base. The property may not be used for commercial clients and use is restricted to the LCS vessel that may request service under this contract.

The unit price under SUBLINE ITEM XX07AA for mob/demob/installation for shore power cables shall include all costs associated with providing transportation, mobilization/installation and demobilization/removal, and any other incidental costs for arranging the requested services. The PS contractor shall also include all materials, equipment, personnel, supervision, and management to accomplish the statement of work. The contractor shall pick-up the shore power cables from a storage area within Changi Naval Base, deliver to a berth in Changi Naval Base assigned to LCS, test and return to storage. The PS contractor shall provide a qualified technician or electrician who will supervise actual cable pulling, laying and terminations at CNB. (Ship berthing and unberthing) and provide written results of any apparent insulation damage, results from the continuity test, results from pull test and safe to use endorsement to Ship's Duty Engineer and NRCS Port Operations Director. PS Contractor shall provide stand-by or essential call-out service in case of emergencies or shore power cable failures.

Technical Specifications:

1600 AMPS
04 Each Cables Required
450 Volts AC
60 HZ
3 Phase
2500KW

Government Furnished Equipment: 04 cables each, of 400 AMP, connected to 4 joy connection.

h. LINE ITEM XX08 – LAND TRANSPORTATION (PERSONNEL) SERVICES

1. GENERAL REQUIREMENTS :

a. All drivers must be fully qualified and possess valid driving licenses. Drivers shall be familiar with local area and conversant in English. It is acceptable for bus drivers not to speak English so long as the contractor provides an English-speaking rider on the bus, see parargraph 2h below. All vehicles shall be registered, licensed and insured (including adequate passenger liability insurance). The PS Contractor is responsible for delivering all cargo and personnel to the correct location on schedule.

b. The PS Contractor shall provide vehicles that have been properly maintained and serviced. If a vehicle does not meet the requirements of this contract as determined by the Ordering Officer, the U.S. Government shall have the right to reject the vehicle for performance of services. The PS Contractor shall ensure that each vehicle is jointly inspected before and after a trip by the PS Contractor and an authorized

representative of the U.S. Government. The U.S. Government will not consider any claim for damage to a vehicle which has not been inspected.

c. If a vehicle is not operable when required under this contract, the PS Contractor shall provide, at no additional expense to the U.S. Government, a replacement vehicle within three (3) hours that complies in all respects with this contract.

d. All vehicles shall include drivers.

2. BUS SERVICE

a. The PS Contractor shall provide air-conditioned bus services on an hourly rate basis and bill under LINE ITEM XX08AA. The hourly rate shall include one driver or operator, any additional helpers or crew required by local authorities, all insurance, fuel, holiday surcharges, overtime, and all other operating expenses. Any tolls for long distance trips (over 50 kilometer radius) will be reimbursed at cost.

b. The PS Contractor shall ensure that the bus is in sound mechanical condition and meets all safety standards required by local laws and regulations. Further, the bus shall be in a clean condition when presented for service and shall be free of debris. The bus shall be sufficiently clean so as not to soil passengers, their clothing or possessions with dirt, grease, oil, or other matter.

c. In the event of a bus breakdown, the PS Contractor shall provide within two hours, at no additional expense to the U.S. Government, a replacement bus complying in all respects with this contract.

d. Any personal articles or items found on the bus after completion of each trip shall be turned over to the ship's quarter deck.

e. The PS Contractor shall be responsible for ensuring that the PS Contractor and an authorized representative of the U.S. Government jointly inspect before and after a trip each bus. The U.S. Government will not consider any claim for damage to a bus, which has not been inspected.

f. The minimum bus capacity shall be 40 passengers.

g. A minimum daily price of four (4) continuous hours shall apply for each bus ordered less any time associated with bus breakdown or getting lost.

h. Drivers must be familiar with the area, have an appropriate driver license, and speak English. In the event the driver is unable to speak English, the contractor shall furnish an English speaking rider on the bus.

3. VEHICLE RENTAL SERVICE

a. Vehicle Specifications, Maintenance, and Malfunctions

i. (i) The PS Contractor shall furnish "new" air-conditioned vehicles (i.e., not more than five years old), in good order and condition and otherwise in full compliance with best commercial practices and local laws and regulations. The PS Contractor shall provide air-conditioned vehicle rental services on a daily rate basis and bill under LINE ITEM XX08AB and XX08AC. The daily rate shall include one driver or operator, any additional helpers or crew required by local authorities, all insurance, fuel, holiday surcharges, overtime, and all other operating expenses. Any tolls for long distance trips (over 50 kilometer radius) will be reimbursed at cost.

Sedans or SUVs shall have a minimum capacity of four (4) passengers and 1600cc engine.

In the event a “new” vehicle is not available in certain countries, the contractor shall contact the Contracting Officer to request a waiver from the requirement and provide background information as to why a waiver would be appropriate. The Contracting Officer will consider, and grant or refuse, the request. Vehicles shall be priced on a daily rate.

(ii) The PS Contractor shall provide vehicles that have been properly maintained and serviced, including all motor oils, lubricants, antifreeze, coolants and other fluids such as windshield washer fluid, and be responsible for all emergency repairs and services.

(iii) Should any vehicle break down while in the U.S. Government’s possession, the PS Contractor shall replace it with another vehicle of the same or larger size as quickly as possible, but in any case no more than three (3) hours later. The replacement shall take place either at the point of breakdown or at the PS Contractor's office closest to that point; whichever is more convenient for the U.S. Government. All repair or replacement costs, including transportation, shall be at the PS Contractor's expense. The U.S. Government shall be credited an hourly rate, pro-rated on the daily rate, for the rental cost between breakdown and vehicle replacement.

b. Substitution of Vehicles

(i) If the PS Contractor does not have available the type of vehicle ordered and the vehicle has been ordered at least 24 hours in advance, the PS Contractor shall substitute a vehicle type equal to or better than the vehicle ordered at the price listed for the type of vehicle originally ordered. EXAMPLE: If a Group B car is ordered but unavailable, and if no other Group B vehicle is available, the PS Contractor shall furnish a higher group vehicle at the price listed for the Group B vehicle originally ordered.
(ii) In the case of passenger or cargo vans, there shall be no substitution without the approval of the ship placing the order.

c. General Description of Vehicle Types

(i) The vehicles shall meet the general description set out below:

Medium-size Sedan (Group “B”): 2 - 4 doors; 4 - 5 passenger capacity; air conditioning; minimum 1600 cc engine sedan.

15-Passenger Buses with Driver (Group “Z”): Concerning the rental of a vehicle with the driver described above at paragraph (a) shall apply to this paragraph also.

d. Insurance and Liability.

(i) The prices for vehicle rental services, as set forth in the schedule, shall be subject to the conditions below.

(ii) The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cause, except where the loss or damage is caused by the willful and wanton negligence of the U.S. Government employee.

(iii) The PS Contractor and any Subcontractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, resulting from the fault, negligence, or wrongful act or omission of the PS Contractor, its subcontractors, its agents, or employees.

(iv) The PS Contractor shall provide and maintain at its expense, all vehicle operator's insurance required by the law of the country in which the vehicle is to be operated. All necessary insurance certificates shall be provided with the rental vehicle. Such insurance shall include all coverage required by law for bodily injury,

collision, and property damage liability. The PS Contractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, within the required policy limits, arising out of or in connection with the rental or use by the U.S. Government, its agents or its employees of any vehicle under this contract.

(v) Paragraph (iv) shall not be construed as limiting the PS Contractor's liability to the amounts of the required minimum insurance coverage specified therein.

e. Traffic Violations and Fines. The U.S. Navy is not liable for payment of fines and legal costs incurred by the PS Contractor drivers as a consequence of the violations of traffic laws or regulations.

f. Time Periods of Rental. Rental time shall begin once the vehicle and driver are available for use alongside the Ordering Activity. The daily rate is defined as 24 consecutive hours. No individual driver shall be required to drive more than 8 hours straight. Drivers must not have been driving within the previous 8 hours.

i. LINE ITEM XX09 - TELEPHONE SERVICES AND COMMUNICATION EQUIPMENT

1. Landlines (SUBLINE ITEM XX09AA): Whether installed on a permanent or temporary basis, sufficient landlines shall be made available for official, local, and international use. Installation charges shall be inclusive of all costs for installation and removal of landlines. Usage charges and port tariff fees associated with landline connections (SUBLINE ITEM XX09AB) will be the actual charges computed in accordance with the local or national tariff.

2. Cellular Telephone Services (SUBLINE ITEM XX09AC): Daily charges shall be inclusive of delivery, removal, provision of 110V to 220V transformers, adapters and extra batteries. Activation, auto roaming, and long distance accounts shall be included under SUBLINE ITEM XX09AD. The PS Contractor shall have readily available a minimum of 10 cellular telephones at a given time. Each mobile phone provided shall include an operating manual/instruction with published rates for usage. Airtime for mobile phones shall be included under SUBLINE ITEM XX09AD. Usage charges associated with mobile phones (SUBLINE ITEM XX09AD) will be the actual charges computed in accordance with the local or national tariff.

3. The PS Contractor shall provide pre-paid International Calling Cards for official use (SUBLINE ITEM XX09AE). Calling cards ordered under sub lot line item XX09AE shall be billed in the denomination of the card in SGD without additional markup or fee.

4. SIM cards with prepaid airtime shall be provided where the ship or operating unit has mobile phones and desires only SIM cards for use in the specific port area. SIM cards provided under SUBLINE ITEM XX09AF shall include activation of the SIM card. PS Contractors shall not be obligated to provide quantities of sub lot line item XX09AF in excess of quantities permitted by host nation law or regulation.

j. LINE ITEM XX10 - FORCE PROTECTION PERSONNEL

1. Heightened Vigilance: The PS Contractor shall be alert at all times in order to contribute to the protection of the ship and its crew. The PS Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The PS Contractor shall report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

2. The PS Contractor shall fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the PS Contractor shall identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the PS Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The PS Contractor shall arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

3. Contractor/Subcontractor Identification: The PS Contractor shall identify how contractor and subcontractor personnel will be recognizable to ship's personnel. This may be accomplished by a combination of picture ID, badges, uniforms, access lists, etc. The PS Contractor shall also identify how support vehicles/vessels will be marked so that they are readily identifiable to ATFP/ship's personnel.

ARMED SECURITY GUARDS

Armed security guards to control vehicle and personnel access to pier. (Price per guard per hour) Must be English speaking, and equipped with own handheld radio (not ship's radio) to communicate with ship. Duties and responsibilities will be coordinated with the ship upon arrival.

DIVE AND VETTING

The PS Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, supporting watercraft and bunker barges. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities. The pier will be vetted prior to the ship's arrival. To the maximum extent practicable the PS Contractor shall inspect all watercraft at least 400 feet (125 meters) from the ship. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel. The PS Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in picket boats. (Per team per hour, minimum four (4) hours)

k. LINE ITEM XX11 – FORCE PROTECTION SUPPLIES

PORTABLE FLUORESCENT LIGHTING

Portable fluorescent lighting capable of illuminating 300 meters by 100-meter area. (Price per portable unit per day) The PS Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Port's installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

HANDHELD METAL DETECTOR

Hand held metal detectors, similar to those used in commercial airports. Must be certified by the local certifying entity and in good working condition. (Price per unit per day)

l. LINE ITEM XX12 – PORT HANDLING COSTS

PAINT FLOAT

The paint float shall be no less than 5M in length but, in all cases, large enough to provide a safe and stable working platform for the occupants. Scaffolding may be of any height less than 3.5M from the deck, so as to provide a working platform at least 4M from the waterline. The paint float shall be equipped with suitable self-fendering to prevent damage to the ship. The price of these fenders shall be included in the quoted price of the paint float. If sea state, weather, or other conditions, to include but not limited to the configuration of the vessel, the pier, or the barge, require any additional fendering between the barge and the ordering vessel to supplement the barge's self-fendering system so as to prevent damage to the vessel, the additional fendering shall be provided by the PS Contractor at no additional charge. Rails shall be no less than 1M from the working platform. The working platform shall be equipped with anchor points for harnessing. The Ordering Activity shall be responsible for providing safety harnesses, for obtaining permission from local authorities prior to all work on the paint float, and for cleanup/disposal of all hazardous material generated or released outside the paint float. The PS Contractor shall notify the Ordering Activity of local regulatory requirements concerning paint floats, assist the Ordering Activity in submitting requests and passing required documentation to the local authority where permission is required to work on the paint float, and arrange for required cleaning of the paint float upon return. The ordering activity is responsible for securing the paint float from the time custody has been transferred to them until returned to the PS Contractor or the ship departs, whichever is earlier.

MANLIFT (WITHOUT OPERATOR)

The PS Contractor shall provide a manlift (without operator) and a full fuel tank. The PS Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning. The PS Contractor shall conduct training on safety and operating procedures for ship personnel. The PS Contractor shall maintain documentation of ship personnel acknowledgement of the training.

PORTABLE LATRINE

The PS Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

The PS Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

The PS Contractor shall restock toilet paper, hand soap, and paper towels daily.

The PS Contractor shall clean latrines twice daily.

____ (51)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Feb 2006) (46 U.S.C. Appx. 1241(b) and 10 U.S.C. 2631).

____ (ii) Alternate I (Apr 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items: (Contracting Officer check as appropriate.)

_____ (1) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

_____ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (May 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

_____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts) (Sep 2009) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

_____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Sep 2009) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

_____ (5) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment—Requirements (Nov 2007) (41 351, et seq.).

_____ (6) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services—Requirements (Feb 2009) (41 U.S.C. 351, et seq.).

_____ (7) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations (Mar 2009) (Pub. L. 110-247).

_____ (8) 52.237-11, Accepting and Dispensing of $1 Coin (Sept 2008) (31 U.S.C. 5112(p)(1)).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1)in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(i) 52.203-13, Contractor Code of Business Ethics and Conduct (APR 2010) (Pub. L. 110-252, Title VI, Chapter 1 (41 U.S.C. 251 note).

(ii) 52.219-8, Utilization of Small Business Concerns (DEC 2010) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $650,000 ($1.5 million for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(iii) Reserved.

(iv) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

(v) 52.222-35, Equal Opportunity for Veterans (SEP 2010) (38 U.S.C. 4212).

(vi) 52.222-36, Affirmative Action for Workers with Disabilities (OCT 1998) (29 U.S.C. 793).

(vii) 52.222-40, Notification of Employee Rights Under the National Labor Relations Act (DEC 2010) (E.O. 13496). Flow down required in accordance with paragraph (f) of FAR clause 52.222-40.

(viii) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

(ix) 52.222-50, Combating Trafficking in Persons (FEB 2009) (22 U.S.C. 7104(g)).

Alternate I (AUG 2007) of 52.222-50 (22 U.S.C. 7104(g)).

(x) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(xi) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (FEB 2009) (41 U.S.C. 351, et seq.).

(xii) 52.222-54, Employment Eligibility Verification (JUL 2012).

(xiii) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations. (MAR 2009) (Pub. L. 110-247). Flow down required in accordance with paragraph (e) of FAR clause 52.226-6.

(xiv) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from 1 March 2013 through 28 February 2014.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than $100.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor a series of orders within 30 days for performance at a specific port that together exceed the dollar amounts equal to the price of 300% of the quantities identified in the pricing schedule.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within one day after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY. (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 30 days following the effective period of this contract.

(End of clause)

52.225-14 INCONSISTENCY BETWEEN ENGLISH VERSION AND TRANSLATION OF CONTRACT (FEB 2000)

In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (JUN 2012)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

__X__ 52.203-3, Gratuities (APR 1984) (10 U.S.C. 2207).

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

(1) ____ 252.203-7000, Requirements Relating to Compensation of Former DoD Officials (SEP 2011) (Section 847 of Pub. L. 110-181).

(2) ____ 252.203-7003, Agency Office of the Inspector General (APR 2012)(section 6101 of Pub. L. 110-252, 41 U.S.C. 3509).

(3) ____ 252.205-7000, Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).

(4) ____ 252.219-7003, Small Business Subcontracting Plan (DoD Contracts) (JUN 2012) (15 U.S.C. 637).

(5) ____ 252.219-7004, Small Business Subcontracting Plan (Test Program) (JAN 2011) (15 U.S.C. 637 note).

(6)(i) ____ 252.225-7001, Buy American and Balance of Payments Program (JUN 2012) (41 U.S.C. chapter 83, E.O. 10582).

(ii) ____ Alternate I (OCT 2011) of 252.225-7001.

(7) ____ 252.225-7008, Restriction on Acquisition of Specialty Metals (JUL 2009) (10 U.S.C. 2533b).

(8) ____ 252.225-7009, Restriction on Acquisition of Certain Articles Containing Specialty Metals (JUN 2012) (10 U.S.C. 2533b).

(9) ____ 252.225-7012, Preference for Certain Domestic Commodities (JUN 2012) (10 U.S.C. 2533a).

(10) ____ 252.225-7015, Restriction on Acquisition of Hand or Measuring Tools (JUN 2005) (10 U.S.C. 2533a).

(11) ____ 252.225-7016, Restriction on Acquisition of Ball and Roller Bearings (JUN 2011) (Section 8065 of Pub. L. 107-117 and the same restriction in subsequent DoD appropriations acts).

12) ____ 252.225-7017, Photovoltaic Devices (JUN 2012) (Section 846 of Pub. L. 111-383).

13)(i) ____ 252.225-7021, Trade Agreements (JUN 2012) (19 U.S.C. 2501-2518 and 19 U.S.C. 3301 note).

(ii) ____ Alternate I (OCT 2011) of 252.225-7021.

(iii) ____ Alternate II (OCT 2011) of 252.225-7021.

(14) ____ 252.225-7027, Restriction on Contingent Fees for Foreign Military Sales (APR 2003) (22 U.S.C. 2779).

(15) ____ 252.225-7028, Exclusionary Policies and Practices of Foreign Governments (APR 2003) (22 U.S.C. 2755).

(16)(i) ____ 252.225-7036, Buy American Act—Free Trade Agreements—Balance of Payments Program (JUN 2012) (41 U.S.C. chapter 83 and 19 U.S.C. 3301 note).

(ii) ____ Alternate I (JUN 2012) of 252.225-7036.

(iii) ____ Alternate II (JUN 2012) of 252.225-7036.

(iv) ____ Alternate III (JUN 2012) of 252.225-7036.

(v) ____ Alternate IV (JUN 2012) of 252.225-7036.

(vi) ____Alternate V (JUN 2012) of 252.225-7036.

(17) ____ 252.225-7038, Restriction on Acquisition of Air Circuit Breakers (JUN 2005) (10 U.S.C. 2534(a)(3)).

(18) ____ 252.225-7039, Contractors Performing Private Security Functions (JUN 2012) (Section 862 of Pub. L. 110-181, as amended by section 853 of Pub. L. 110-417 and sections 831 and 832 of Pub. L. 111-383).

(19) ____ 252.226-7001, Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns (SEP 2004) (Section 8021 of Pub. L. 107-248 and similar sections in subsequent DoD appropriations acts).

(28) ____ 252.247-7003, Pass-Through of Motor Carrier Fuel Surcharge Adjustment to the Cost Bearer (SEP 2010) (Section 884 of Pub. L. 110-417).

(29)(i) ____ 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(ii) ____ Alternate I (MAR 2000) of 252.247-7023.

(iii) ____ Alternate II (MAR 2000) of 252.247-7023.

(iv) ____ Alternate III (MAY 2002) of 252.247-7023.

(30) ____ 252.247-7024, Notification of Transportation of Supplies by Sea (MAR (2000) (10 U.S.C. 2631).

(31) ____ 252.247-7027, Riding Gang Member Requirements (OCT 2011) (Section 3504 of Pub. L. 110-417).

c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

(1) 252.225-7039, Contractors Performing Private Security Functions (JUN 2012) (Section 862 of Pub. L. 110-181, as amended by section 853 of Pub. L. 110-417 and sections 831 and 832 of Pub. L. 111-383).

2) 252.227-7013, Rights in Technical Data--Noncommercial Items (FEB 2012), if applicable (see 227.7103-6(a)).

(3) 252.227-7015, Technical Data--Commercial Items (DEC 2011), if applicable (see 227.7102-4(a)).

(4) 252.227-7037, Validation of Restrictive Markings on Technical Data (JUN 2012), if applicable (see 227.7102-4(c)).

(5) 252.237-7010, Prohibition on Interrogation of Detainees by Contractor Personnel (NOV 2010) (Section 1038 of Pub. L. 111-84).

(6) 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2006) (Section 1092 of Pub. L. 108-375).

(7) 252.247-7003, Pass-Through of Motor Carrier Fuel Surcharge Adjustment to the Cost Bearer (SEP 2010) (Section 884 of Pub. L. 110-417).

(8) 252.247-7023, Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

(9) 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(End of clause)

252.222-7002 COMPLIANCE WITH LOCAL LABOR LAWS (OVERSEAS) (JUN 1997)

(a) The Contractor shall comply with all—

(1) Local laws, regulations, and labor union agreements governing work hours; and

(2) Labor regulations including collective bargaining agreements, workers' compensation, working conditions, fringe benefits, and labor standards or labor contract matters.

(b) The Contractor indemnifies and holds harmless the United States Government from all claims arising out of the requirements of this clause. This indemnity includes the Contractor's obligation to handle and settle, without cost to the United States Government, any claims or litigation concerning allegations that the Contractor or the United States

Government, or both, have not fully complied with local labor laws or regulations relating to the performance of work required by this contract.

(c) Notwithstanding paragraph (b) of this clause, consistent with paragraphs 31.205-15(a) and 31.205-47(d) of the Federal Acquisition Regulation, the Contractor will be reimbursed for the costs of all fines, penalties, and reasonable litigation expenses incurred as a result of compliance with specific contract terms and conditions or written instructions from the Contracting officer.

(End of clause)

252.229-7000 INVOICES EXCLUSIVE OF TAXES OR DUTIES (JUNE 1997)

Invoices submitted in accordance with the terms and conditions of this contract shall be exclusive of all taxes or duties for which relief is available.

(End of clause)

252.232-7008 ASSIGNMENT OF CLAIMS (OVERSEAS) (JUNE 1997)

(a) No claims for monies due, or to become due, shall be assigned by the Contractor unless—

(1) Approved in writing by the Contracting Officer;

(2) Made in accordance with the laws and regulations of the United States of America; and

(3) Permitted by the laws and regulations of the Contractor's country.

(b) In no event shall copies of this contract of any plans, specifications, or other similar documents relating to work under this contract, if marked “Top Secret,” “Secret,” or “Confidential” be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive such documents. However, a copy of any part or all of this contract so marked may be furnished, or any information contained herein may be disclosed, to such assignee upon the Contracting Officer's prior written authorization.

(c) Any assignment under this contract shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment may be made to one party as agent or trustee for two or more parties participating in such financing. On each invoice or voucher submitted for payment under this contract to which any assignment applies, and for which direct payment thereof is to be made to an assignee, the Contractor shall—

(1) Identify the assignee by name and complete address; and

(2) Acknowledge the validity of the assignment and the right of the named assignee to receive payment in the amount invoiced or vouchered.

(End of clause)

SUMMARY OF CHANGES

SECTION SF 1449 - CONTINUATION SHEET

SOLICITATION/CONTRACT FORM

The vendor signature required not required has been added.
The number of award copies required 1 has been deleted.

The following have been added by full text:

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 15 days.

(End of clause)

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor prior to the expiration of the contract, provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 30 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 30 months.
(End of clause)

PERFORMANCE STATEMENT OF WORK

PERFORMANCE STATEMENT OF WORK (PSOW) FOR LAND TRANSPORTATION IN SINGAPORE

1. OBJECTIVE. The objective of this requirement is to obtain contractor support services to provide vehicle with driver transportation services for U.S. Department of Defense, Department of Navy, other commands supported by NAVSUP Feet Logistics Center (FLC) Site Singapore. The U.S. Naval ships, Beach Detachments, and Operations Other Than War (OOTW) requirements are not covered under this contract.

2. BACKGROUND. Customers of FLC Site Singapore require land based transportation for sedans, vans, buses and trucks with drivers. The purpose of this Performance Statement of Work (PSOW) is primarily for providing land transportation services for personnel and / or cargo. The services provided under this PSOW are limited to requirements for Official Business Use Only.

3. SCOPE. The scope of this requirement is limited to performing and accomplishing the tasks as identified in the Performance Statement of Work (PSOW).

4. PERIOD OF PERFORMANCE. This requirement is for one (1) base year. The period of performance for the base year is twelve (12) months effective from the date of contract award. The contract will have two (2) option years available under FAR 52.217.9 OPTION TO EXTEND THE TERM OF THE CONTRACT. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. Thus, the possible contract duration is forty-two (42) months if all available options are exercised under FAR 52.217-9 for the maximum duration, and the six (6) months extension of services is exercised under FAR 52.217-8.

5. PLACE OF PERFORMANCE. Pick up and delivery locations are limited to in and around Singapore and Malaysia (Limited to Port Klang). The land transportation service for the sedan, van and bus is limited to locations in and around Singapore. The truck service is limited to locations in and around Singapore and Port Klang, Malaysia.

6. DEFINITION / ABBREVIATION

CC	Cubic Centimetres
KO	Contracting Officer. Authorized Government representative who has the authority to enter into, administer, or terminate contracts. *(The term Procuring Contracting Officer (PCO) is used synonymously as the Contracting Officer.)*
COR	Contracting Officer's Representative. Authorized representative of the Contracting Officer and U.S. Government, responsible for the technical oversight of the

	contractor's performance.
DO / TO	Delivery Order / Task Order. An order issued by the Contracting Officer or designated Ordering Officer, for supplies (delivery order) or services (task order) under a contract. A delivery/task order automatically incorporates all terms and conditions in the basic contract.
EA	Each
G.V.W	Gross Vehicle Weight
HR	Hour
JB	Job
MT	Metric Ton
OO	Ordering Officer. Authorized representative of the Contracting Officer and U.S. Government who can place written and oral delivery/task orders against this contract.
PAX	Passenger

7. PERFORMANCE STATEMENT OF WORK (PSOW). The contractor shall provide all labour, materials, equipment, supervision and management to accomplish the PSOW and the subsequent tasks. Contractor is responsible for providing all shipping, handling and transportation of people, equipment, materials to the places of performance as specified in the delivery/task order issued against this contract. The tasks in support of this PSOW are as follows:

(a) GENERAL REQUIREMENTS

i) All vehicles rental shall include drivers. All drivers must be fully qualified and possess valid driving licenses. Drivers shall be familiar with local area and conversant in English. All vehicles shall be registered, licensed and insured (including adequate passenger liability insurance). The contractor is responsible for arriving at pick-up and/or delivery locations including delivering all cargo and/or personnel to the correct location within the timeframes provided or required by the Government as specified in the delivery/task order.

ii) The contractor shall provide vehicles that have been properly maintained and serviced. The contractor shall ensure that all vehicles are air-conditioned, in sound mechanical condition and meets all safety standards required by local laws and regulations. All vehicles shall be in a clean condition when presented for service and shall be free of debris. Vehicles shall be sufficiently clean so as not to soil passengers, their clothing or possessions with dirt, grease, oil, or other matter. If a vehicle does not meet the requirements of this contract as determined by the Ordering Officer, the U.S. Government shall have the right to reject the vehicle for performance of services and the contractor shall replace the rejected vehicle within two (2) hours that complies in all respects with this contract.

iii) If a vehicle is not operable when required under this contract or becomes inoperable during performance, the contractor shall provide, at no additional expense to the U.S. Government, a replacement vehicle within two (2) hours that complies in all respects with this contract. The replacement of vehicle shall take place either at the point of breakdown or at the contractor's office closest to that point; whichever is more convenient for the U.S. Government. All repair or replacement costs, including transportation, shall be at the contractor's expense. The U.S. Government shall be credited an hourly rate or a pro-rated on the daily rate (based on the unit of issue of the order is being placed), for the rental cost between breakdown and vehicle replacement.

iv) A minimum order charge of three (3) continuous hours shall apply to all categories of vehicle with driver, when the unit of issue is based on "Hour" for each delivery order placed under this contract (less any time associated with vehicle breakdown).

v) Time Periods of Rental. Rental time shall begin once the vehicle and driver are available for use as defined in each delivery/ task order. The unit of issue is either by per hour or per transfer (with the exception of the 40ft lockable truck) as defined in each delivery/task order. The transfer rate is defined as a one-way transfer; transferring passenger and/or cargo from location A to location B as specified in each delivery/ task order. The estimated number of hours per transfer or job will not exceed four (4) hours. All transfer locations are within Singapore with the exception of 40ft lockable truck; that is from Singapore to Port Klang, Malaysia (refer to para

7(e)iv)(1)(c) for details). No individual driver shall be required to drive more than twelve (12) hours straight. Drivers must not have been driving within the previous eight (8) hours.

vi) Cancellation charge. The Ordering Officer has an authority to cancel an order either orally or in writing at any time prior to the scheduled services. If the initial order is confirmed in writing, the Ordering Officer will issue a modification for the cancellation. Contractor shall not impose a cancellation charge for any cancellation notice or whereby notification on changes to scheduled service is given 24 hours prior to the commencement of the service. Cancellation charge will not be assessed and paid by the Customer for any cancellation beyond the control and without the fault or negligence of the Customer. Examples of such causes include acts of God or of the public enemy, fires, floods, epidemics and severe weather. Cancellation charge is applicable only if cancellation or changes to schedule is given less than 24 hours notice prior to the commencement of the service. Customer will only pay 100% of the First Day charge for the cancelled portion or changes of the requirement.

(1) Example. Rental for a sedan and a van is ordered for 10 days, 8 hours per day.

(a) Scenario 1. Requirement for the sedan for the entire period; i.e. 10 days rental is cancelled and less than 24 hours notice is given to the contractor; contractor is entitled to a cancellation charge of 100% for the first day rental cost of the sedan; i.e. 8 hours rental charge only.

(b) Scenario 2. Rental of the sedan is to commerce on Day 2 vice Day 1, contractor is provided less than 24 hours notice of the changes; contractor is entitled to 100% of the Day 1 charge (i.e. 8 hours rental charge) for the sedan.

(c) Scenario 3. Notification is provided to contractor on Day 1 whereby the rental for the sedan is not required on Day 9 and Day 10; contractor is not entitled to cancellation charge as more than 24 hours notice is given.

vii) The contractor shall return any personal articles or items found in the rental vehicles after completion of the transportation service to the Contracting Officer's Representative (COR).

viii) The contractor shall obtain written acknowledgement of vehicle service by an authorized Government Representative (identified in each delivery/task order). Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle rental service.

(b) INSURANCE AND LIABILITY

i) The prices for vehicle rental services, as set forth in the schedule, shall be subject to the conditions below:

(1) The U.S. Government shall not be liable for loss or damage to rented vehicles in any amount regardless of the cause, except where the loss or damage is caused by the willful and wanton negligence of the U.S. Government employee.

(2) The contractor and any subcontractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, resulting from the fault, negligence, or wrongful act or omission of the contractor, its subcontractors, its agents, or employees.

(3) The contractor shall provide and maintain at its expense, all vehicle operator's insurance required by the local law in which the vehicle is to be operated. All necessary insurance certificates shall be provided with the rental vehicle. Such insurance shall include all coverage required by law for bodily injury, collision, and property damage liability. The contractor shall be liable for, and shall indemnify and hold harmless the U.S. Government, its agents, and its employees against all actions or claims for loss of or damage to property or the injury or death of persons, within the required policy limits, arising out of or in connection with the rental or use by the U.S. Government, its agents or its employees of any vehicle under this contract.

(4) Paragraph (b) shall not be construed as limiting the contractor's liability to the amounts of the required minimum insurance coverage specified therein.

ii) Traffic Violations and Fines. The contractor shall be responsible for payment of fines and legal costs incurred as a consequence of the violations of traffic laws or regulations.

(c) SEDAN, VAN RENTAL SERVICE FOR PASSENGER (WITH DRIVER)

i) Vehicle Specifications, Maintenance, and Malfunctions

(1) The contractor shall furnish "new" air-conditioned vehicles (i.e., not more than five years old), in good order and condition and otherwise in full compliance with best commercial practices and local laws and regulations. In the event a "new" vehicle is not available, the contractor shall contact the Contracting Officer to request a waiver from the requirement and provide background information as to why a waiver would be appropriate. The Contracting Officer will consider, and grant or refuse, the request. All vehicles shall be equipped with front and back seat belts, air bags, an emergency triangle, spare tire, jack and complete set of tools for changing a flat tire, as well as any other equipment required by local authorities.

ii) Substitution of Vehicles

(1) If the contractor does not have available the type of vehicle ordered and the vehicle has been ordered at least 24 hours in advance, the contractor shall substitute a vehicle type equal to or better than the vehicle ordered at the price listed for the type of vehicle originally ordered. Example: If a medium-size sedan is ordered but unavailable, the contractor shall furnish an executive sedan at the price listed for the medium-size sedan originally ordered.

(2) In the case of passenger van, there shall be no substitution without the approval of the Ordering Officer placing the order.

iii) General Description of Vehicle Types

(1) The vehicles shall meet the general description set out below:

(a) Medium-size Sedan: 4 doors; 4-5 passenger capacity; air conditioning; minimum 1600cc engine sedan.

(b) Executive Sedan: 4 doors; 5-passenger capacity; air conditioning; minimum 2000cc engine sedan

(c) Passenger Van: Minimum 9-passenger seating capacity; air conditioning

(d) BUS SERVICE (WITH DRIVER)

i) The contractor shall provide air-conditioned bus services on an hourly rate or transfer rate basis. The hourly rate shall include one driver or operator, any additional helpers or crew as required by local authorities, all insurance, fuel, holiday surcharges, overtime, and all other operating expenses.

ii) General Description of Vehicle Types

(1) The vehicles shall meet the general description set out below:

(a) Mini Bus: minimum 19-passenger seating capacity; air conditioning
(b) Bus: minimum 40-passenger seating capacity; air conditioning

(e) TRUCK SERVICE (WITH DRIVER)

i) The contractor shall provide truck, flatbed with driver to load/off load cargo. The driver shall assist with loading and offloading of cargo.

ii) The contractor shall be responsible for security and prevent loss/damage/destruction of cargo.

iii) Rental time shall begin once the vehicle and driver arrive at the requested location, and after the driver has notified the authorized Government Representative of his arrival.

iv) General Description of Vehicle Types

(1) The vehicles shall meet the general description set out below:
(a) Light Duty Truck: minimum G.V.W. 3,000 kg / 3 ton covered truck

(b) 40ft Flat Bed truck (Singapore). Flat bed truck will use for transporting dry cargo in and around Singapore. Dry cargo consists mainly of postal mails, parcels, luggage, etc.

(c) 40ft lockable truck (Port Klang). The lockable truck will use for transporting cargo from Singapore to Port Klang, Malaysia.

8. DELIVERABLES. Contractor shall be capable of providing land transportation services in accordance to this PSOW and the delivery/task orders issued against the resultant contract.

9. NON PERSONAL SERVICE STATEMENT. Contractor employees performing services under this PSOW shall be controlled, directed and supervised at all times by management personnel of the Contractor. Contractor management shall ensure that employees comply with the performance work standards outlined in the PSOW. Contractor employees shall perform their duties independent of, and without the supervision of an U.S. Government official or other Defense contractor.

10. CONTRACTING OFFICER'S REPRESENTATIVE (COR) / ALTERNATE COR. The Contracting Officer shall appoint and identify COR (and Alternate COR, if applicable) to the successful Contractor at the time of award. The COR shall monitor and assess the Contractor's performance compliance with the requirements of the PSOW.

11. PERFORMANCE REQUIREMENTS SUMMARY. The Contractor's performance shall be evaluated according to the Performance Requirements Summary as shown below:

Performance Objective	**Para**	**Performance Threshold**
1. The contractor shall provide vehicles that have been properly maintained and serviced. Not more than 3 events in a year where vehicle break down during performance.	7(a)	95% compliance
2. Sedan, van provided are not more than 5 years old	7(c)	98% compliance
3. Not more than 3 customer complaints in a year on issues such as driver's professionalism, cleanliness of vehicle, etc	7(a)	95% compliance

GENERAL INFORMATION

1. TYPE OF CONTRACT. This is an Indefinite Delivery Indefinite-Quantity contract. The Contractor agrees to furnish the services at the fixed price listed in the Schedule of Services. The guaranteed minimum for the resultant contract is US$ 1,000 / S$ 1,200 (@ exchange rate US$ 1.00 : S$ 1.20). The maximum amount for this contract is not to exceed 30% of the resultant contract amount. If the Government's requirements for supplies or services set forth in the solicitation/contract do not result in delivery/task orders in the amount described as "estimated maximum", this shall not constitute the basis for an equitable price adjustment

2. ESTIMATED QUANTITIES. The quantities in the schedule are only estimates. There is no guarantee that the Government will meet the estimates.

3. CORRESPONDENCE IN ENGLISH. All correspondence shall be in English.

4. STANDARDS FOR PROFESSIONAL SERVICES.

(a) The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

(b) The contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

(c) The contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

(d) The contractor shall cooperate in the reporting and investigation of any environmental or health incident connected with the services provided under this contract.

(e) The contractor shall ensure that subcontractors comply with these requirements.

5. CONTRACT PRICING.

(a) All contract prices are in Singapore Dollars (S$).

(b) Prices are firm fixed price per unit and are inclusive of **ALL** costs, such as taxes, bank transaction fees, licenses, insurance, fuel, petrol, toll charges, Electronics Road Pricing (ERP) charges, overtime, weekend and holiday rates, overhead General and Administrative (G&A) expenses, profit and or other costs or expenses associated with performance on this contract.

6. ORDERING. Items required under this contract will be obtained by issuing delivery/task orders under the contract. Delivery/Task orders shall be issued at least 48 hours prior to commencement of services. The contractor may accept delivery/task orders submitted less than 48 hours prior to the commencement of the services at his/her discretion based on his/her capacity/capability to support the immediate requirement. Oral orders are authorized but must be less than US$ 150,000 and a written confirmation on SF1449 - Solicitation/Contract/Order for Commercial Items form must be provided within ten (10) working days. Written orders are to be on a fully completed SF1449 form.

7. INVOICES

(a) The Contractor shall submit original invoice with three (3) copies to the address identified in the contract. Invoices must include a reference to the contract and delivery/task order number.

(b) The Contracting Officer's Representative will review the invoices and forward to the Disbursing Office, U.S. Navy Region Center Singapore. The Disbursing Office will pay the invoices.

(c) All payments due the Contractor under the contract shall be made in Singapore Dollars (S$) by the Disbursing Office, U.S. Navy Region Center Singapore, PSA Sembawang Terminal, Bldg 7-4, Deptford Road, Singapore 759657. Unless specified on each invoice, payment will be made via wire transfer to the Contractor's designated bank.

(d) The Disbursing Officer or his representative shall forward a copy of abstract Public Voucher for complete or final payment made hereunder to the Contracting Officer. This is required for file closeout.

8. ORDERING OFFICERS

(a) Ordering Officers from NAVSUP Fleet Logistics Center, Site Singapore are authorized to place orders under this contract.

(b) Orders may be issued by facsimile or by electronic commerce methods.

(c) Designation of Ordering Officer. NAVSUP Fleet Logistics Center, Site Singapore, Contracting Department, Code 250 is responsible for issuing and administering any delivery or task orders placed hereunder. The Contracting Officer shall provide the names of the Ordering Officers to the Contractor. The Contractor shall not start performance under this contract until receipt of an order in writing or orally issued by the Ordering Officers. Ordering Officers may issue revisions/modifications to orders, but only within the scope of this contract. Ordering Officers have no authority to modify any provision of this basic contract. Any deviation of the terms of the basic contract must be submitted to the Procuring Contracting Officer (PCO) for contractual action. Ordering Officers may enter into mutual no-cost cancellations of orders under this contract and may reduce the scope of orders, but Termination for Convenience or Termination for Default shall be issued only by the PCO.

_____ (8) 52.237-11, Accepting and Dispensing of $1 Coin (Sept 2008) (31 U.S.C. 5112(p)(1)).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to

litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1)in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(i) 52.203-13, Contractor Code of Business Ethics and Conduct (APR 2010) (Pub. L. 110-252, Title VI, Chapter 1 (41 U.S.C. 251 note).

(ii) 52.219-8, Utilization of Small Business Concerns (DEC 2010) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $650,000 ($1.5 million for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(iii) Reserved.

(iv) 52.222-26, Equal Opportunity (MAR 2007) (E.O. 11246).

(v) 52.222-35, Equal Opportunity for Veterans (SEP 2010) (38 U.S.C. 4212).

(vi) 52.222-36, Affirmative Action for Workers with Disabilities (OCT 1998) (29 U.S.C. 793).

(vii) 52.222-40, Notification of Employee Rights Under the National Labor Relations Act (DEC 2010) (E.O. 13496). Flow down required in accordance with paragraph (f) of FAR clause 52.222-40.

(viii) 52.222-41, Service Contract Act of 1965 (Nov 2007) (41 U.S.C. 351, et seq.).

(ix) 52.222-50, Combating Trafficking in Persons (FEB 2009) (22 U.S.C. 7104(g)).

Alternate I (AUG 2007) of 52.222-50 (22 U.S.C. 7104(g)).

(x) 52.222-51, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Requirements (Nov 2007) (41 U.S.C. 351, et seq.).

(xi) 52.222-53, Exemption from Application of the Service Contract Act to Contracts for Certain Services--Requirements (FEB 2009) (41 U.S.C. 351, et seq.).

(xii) 52.222-54, Employment Eligibility Verification (JAN 2009).

(xiii) 52.226-6, Promoting Excess Food Donation to Nonprofit Organizations. (MAR 2009) (Pub. L. 110-247). Flow down required in accordance with paragraph (e) of FAR clause 52.226-6.

(xiv) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from date of contract through final date of contract.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than US$100, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single item in excess of US$150,000;

(2) Any order for a combination of items in excess of US$150,000; or
