Appendix B - CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD

Microbiological criteria for dairy products[1,2]

Product(s)	Standard Plate Count (SPC) (See notes 3&4)	Coliform count (See note 4)	combined yeast and mold count (See note 4)	Preliminary incubation count (See note 5)
Aseptically processed and packaged Milk and milk products	0 per ml (See notes 6&7)		0 per ml (See note 6)	0 per ml (See note 6)
Buttermilk and acidophilus milk			10 per gram	
Cottage cheese			10 per gram	10 per gram
Cream, sour cultured			10 per gram	10 per gram
Grade A pasteurized milk and milk products	20,000 per ml		10 per ml	200,000 per ml
Ice cream products, flavored, fruit and / or nuts	50,000 per gram		20 per gram	
Ice cream products, vanilla and plain flavored	50,000 per gram		10 per gram	
Frozen dessert mix:				
Vanilla flavor	50,000 per gram		10 per gram	10 per gram
other flavors	50,000 per gram		20 per gram	10 per gram
Yogurt, chilled			10 per gram	
Yogurt, frozen, plain			10 per gram	
Yogurt, frozen, flavored			20 per gram	
Yogurt, soft serve mix			10 per gram	

Notes:

1. Phosphates as specified in the PMO.
2. Products shall be free of antibiotic or pesticide residues or below the action levels established for such residues by the applicable Federal Regulatory Agency. Antibiotic residue testing shall be by the method described in the

PMO. Examinations and test to detect adulterants, including pesticides, shall be conducted by methods recognized by the applicable Federal regulatory agency.

3. Not applicable to cultured products.
4. All counts are maximum allowed standards.
5. Samples must be received within 72 hrs of pasteurization. Preliminary incubation test is used as a determination of keeping quality.
6. Nonconformance's will be considered an imminent health hazard.
7. Either aerobic or anaerobic SPC.

Microbiological criteria for Environmental Swabs[1,2]		
ATP (RLU) Counts	Aerobic Plate Count (APC)	Coliform Count
Environmental swab See Note 3	100 per 50 sq cm	10 per 50 sq cm

Notes:

1. Microbiological counts can be used as an index for evaluating the sanitation status of processing equipment and the facility.
2. All counts are maximum recommended limits.
3. Relative Light Units (RLU) are directly correlated to log cfu/sq cm . RLU maximum tolerances are dependent upon the manufacturer of the ATP bioluminescence reader. Follow manufacturer's instructions for RLU limits.

Microbiological criteria for Fish, fresh or frozen, including shellfish		
Counts[4]	m	M
Aerobic Plate Count (APC)	5,000 per gram	1,000,000 per gram
E. coli	10 per gram	500 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Vibrio parahaemolyticus [1]	10 per gram	100 per gram
Vibrio vulnificus[2,3]	Zero (0) Tolerance	
Salmonella[2]	Zero (0) Tolerance	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Used for oysters and fish designed to be consumed raw.
2. No viable pathogen in a 25 gram sample.
3. Limit is established as non-detectable depending on method used and detection limit.
4. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Fruit Juice, Fresh or Frozen				
	Standard Plate Count (SPC) [3]		Coliform count	Combined Yeast and Mold count
Product(s)	m	M		
Aseptically processed juice[1]	0		0	0
Pasteurized Juice[2]		20,000 per ml	20 per ml	200 per ml
Non-Pasteurized Juice[4]	50,000 per ml	100,000 per ml		

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Must be labeled as aseptically processed and process must be verified.
2. Must be labeled as pasteurized.
3. Plate count limits for juices, except for aseptically processed juice, are used as a quality indicator and may assist in determining keeping quality and/or shelf life.
4. Non-pasteurized juice is not approved for US Armed Forces Procurement.

Microbiological criteria for Kimchee [1,3,4]		
Counts [9]	m	M
Coliform (MPN)	10 per gram	
Clostridium perfringens	100 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram

Pseudomonas ssp [7]	200 per gram	
Streptococcus ssp [7]	10 per gram	
Listeria monocytogenes[8]	0	
Salmonella ssp[2,8]	0	
Vibrio ssp[5,8]	0	
Salt %	$\geq$ 2.5/wt	$\leq$ 3.5/wt
pH	$\geq$ 4.2	$\leq$ 4.7
Polygalacturonase [6]	Negative	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Products containing monosodium glutamate (MSG), nuts or nut oils must be labeled appropriately to reflect potential allergenic contents.
2. Only for varieties containing meat or poultry, sprouts, watercress or melon.
3. Varieties of Kimchee include, but are not limited to: Vegetables: winter, spring, cucumber, wrapped, Yolma, Chang, radish (Nabak), white (Pak), western-cabbage, pony-tail radish (Chonggak), eggplant, green onion, pumpkin, spinach, leek, green pepper; Chanachi: radish, green pepper, cucumber, garlic cabbage; Kaktagi: radish, radish and oyster Kaktuki; Tong Chimi;: radish tongchimi; Shikhae: chicken, andong, Alaskan Pollock shikhae.
4. All Kimchee products must be delivered and stored refrigerated with a definitive shelf life marked on each container.
5. Only for varieties containing fish or seafood ingredients.
6. Polyglacturonase activity is an indicator of overripening and spoilage, inferring the possible presence of Bacillus subtilus, Saccaromyces fragilis, Candida pseudotropicalis, Oospora lactis, Asperfillus ssp., and Penicillium ssp.
7. Excessive acidification may be due to high counts of these organisms; this is an indicator of very poor quality product.
8. Zero tolerance pathogens.
9. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Retail Ground Beef, Beef Trimmings, Ground Pork , Poultry (Chilled or Frozen)		
Counts	m	M
Aerobic Plate Count (APC)	100,000 per gram	1,000,000 per gram
Fecal Coliform	50 per gram	500 per gram
Total coliform	100 per gram	1,000 per gram
E. coli	10 per gram	< 110 per gram
Coagulase Positive Staph	<100 per gram	500 per gram
Salmonella species	Zero (0) Tolerance[1]	
E.coli O157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.

M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.

Microbiological limits for Sandwiches, Prepared Salads and Spreads, Bagged Salad, and Cut Vegetables [4]		
Counts[3]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli most probable number (MPN)	3 per gram[2]	10 per gram
Coliform (fecal)	10 per gram	100 per gram
Yeast and mold count	200 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Campylobacter jejuni	Zero (0) Tolerance[1]	
Salmonella species	Zero (0) Tolerance[1]	
Listeria moncytogenes	Zero (0) Tolerance[1]	
E. coli 0157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that "M" are of marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:

1. No viable pathogen in a 25 gram sample.
2. $\leq$ 10 per gram if using 3M Petri Film for E. coli counting.
3. Products may not be examined for all microbial characteristics as listed above. Contact laboratory if specific tests are required.
4. Tuna, chicken, ham and egg salads are tested the same, regardless whether on bread or submitted in tubs, buckets or other retail containers.

Microbiological criteria for Soft Serve Ice (cream) Milk and Soft Serve Yogurt at the retail/user level[2]		
Counts	m	M
Standard plat count [1]	50,000 per gram	250,000 per gram
Coliform	10 per gram	100 per gram
Combined Yeast & Mold		100 per gram

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:

Standard Plate Count (SPC) does not apply to yogurt products.
Soft serve and Yogurt machines.

Microbiological limits for Tofu		
Counts[2]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram coli (MPN)
<3 per gram	10 per gram	
Staphylococcus aureus	100 per gram	1000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
Yersinia entercoliticus[1]	Zero (0) Tolerance[1]	

Legend:
m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. Products may not be examined for all microbial characteristics as listed above.

Microbiological and Chemical criteria for Bottled Water[1] and Vending Machine Water[2] and Ice		
Counts	m	M
Coliform	0 per 100 ml	
Coliform (bottled water)	0 per 250ml	
Heterotrophic Plate Count [5]	1000 per ml	100,000 per ml
Pseudomonas aeruginosa	Zero (0) Tolerance	
Flouride[2]		
Arsenic[2]		
Trihalomethanes[2]		
Chlorine[2]		
Dissolved Solids[4]		
Silver [3]	None Detectable	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Bottled water is tested IAW the specific limits set forth by the Code of Federal Regulations (CFR) and current Environmental Protection Agency (EPA) regulations.
2. Vending machine water requirements are from the Association of Food and Drug Officials Model Code, 1997; Ice standards are derived from the International Packaged Ice Association. These are the minimum tests required for Vending Machine water.
3. Current published regulatory limits apply.

4. Only those machines utilizing silver impregnated carbon filters. Dissolved solids measurements are for vending machines labeled "Purified".
5. Ice and water derived from well water or surface water sources marketed at retail have higher allowable HPC limits. See current guidelines established in the CFR.

Microbiological criteria for Retail/User level Pre-packaged Deli and RTE Products[4]					
Product(s)	APC[3]	Listeria spp.[2]	Salmonella[2]	Coliform[2]	E.Coli O157:H7
Luncheon Meats, frankfurters, Beef, poultry & pork	Zero (0) Tolerance	Zero (0) Tolerance	10/g		Zero (0) Tolerance
Cheese, soft and hard	Zero (0) Tolerance	Zero (0) Tolerance	100/g		Zero (0) Tolerance
Pasteurized, liquid, frozen or Dried egg	Zero (0) Tolerance	Zero (0) Tolerance	100/g		Zero (0) Tolerance
Pizza topping (meat & cheese)	Zero (0) Tolerance	Zero (0) Tolerance	100/g		Zero (0) Tolerance
Dried meats sticks, jerky [1]	Zero (0) Tolerance	Zero (0) Tolerance	10/g		Zero (0) Tolerance

Notes:
1. Yeast and mold combined count should not exceed 100 /g.
2. No viable pathogen in a 25 gram sample. All counts are maximum allowable limits.
3. See Table Below for APC values in RTE Products.
4. Includes all like type/style products not otherwise listed.

Additional Microbiological limits for Commercial (Food Court Style) RTE Products[2,4]		
Counts	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli (MPN)	3 per gram [3]	10 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
E. coli 0157:H7[1]	Zero (0) Tolerance[1]	
Campylobacter jejuni	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. This table is primarily designed for hot food lines.
3. $\leq$ 10 per gram if using 3M Petri Film for E. coli counting.

4. Products may not be examined for all microbial characteristics when submitted. These values are primarily used when conducting food borne illness investigations and overall quality characteristics.

PART VI - Summary of Directory Listing Requirements

Federal Supply Class (*Note 1)	Listing Required	Listing Not Required
8905 (*Notes 2, 3)	All fish, meat, poultry, and shellfish, including: Buffalo meat. Fish, canned. Fish, fresh or fresh smoked, modified atmospheric packaged. Fish, fresh or frozen, packaged. Herring, pickled. Quail. Rabbits. Salmon, smoked. Squid.	Crabs, live. Crawfish, live. Fish, fresh or frozen, whole and/or eviscerated, head on or off, unscaled, unpackaged. Lobster, live. Shrimp, fresh or frozen, whole or head off.
8910 (*Notes 4, 5)	All dairy foods and eggs, including: Cream, sterilized. Creamer, coffee, dairy. Dairy soft serve mixes. Desserts/puddings, frozen. Egg nog, canned. Egg substitutes. Italian ices. Topping, real cream. Yogurt, fresh or frozen.	Chocolate drink mix, non-dairy. Powdered dairy mixes. Toppings, non-dairy.
8915 (*Note 7, 8)	All pre-cut pre-packaged minimum processed fresh fruits and vegetables. Kimchee. Mushrooms, whole and sliced. Salads, non-meat, with or without dressing (not USDA listed). Vegetable sprouts. Fruit juices and nectars, refrigerated.	All unprocessed fruits and vegetables. Olives. Fruit juices and nectars, shelf stable or frozen concentrate.
8920 (*Notes 6, 9)	Bakery and cereal products (baked and unbaked, fresh and frozen), specifically: Croissants. Doughnuts Egg roll wrappers. Flour and corn tortillas. Wet pasta (noodles). Pastries. Pies. Soft pretzels. Won ton wrappers. Filled bakery items.	All other bakery products, including: Bagels. Batter mix, dry. Biscuits, canned. Breads, rolls, and buns. Cake mix, dry. Cakes, unfilled. Cookie mix, chilled or dry. Cookies, unfilled. Crackers. Cupcakes, unfilled. Dough, frozen or chilled. Dumplings, frozen. English muffins. Flour.

		Fruitcakes. Melba toast. Muffins Pancake batter, frozen. Pancake/waffle mix. Pasta, dry (noodles). Pizza crust. Taco shells. Toaster pastries. Pie crusts, unfilled. Waffles, frozen.
8925		All confectionery, nuts, and sugars.
8930		All jams, jellies, and preserves.
8935		Bouillon and soups.
8940 (*Notes 2, 3, 4, 5, 10)	Dietary foods and specialty preparations, specifically: Fish, meat, poultry, dairy, egg, and shellfish products. Pickled eggs. Frozen dinners. Pudding novelties, frozen or chilled. Tofu.	All other dietary and specialty preparations, including: Baby formula, canned. Chips, nacho or potato. Creamer, coffee, imitation (non-dairy). Dips. Nacho cheese, canned. Nutri-why. Popcorn. Puddings, canned.
8945		Fats and food oils, including margarine
8950		All condiments and related products, including: Salad dressings. Mexican salsa)
8955		All cocoa, coffee, and tea.
8960	Beverages, nonalcoholic; specifically: Ice. Bottled water.	All other nonalcoholic beverages, including: Dry ice. Fruit drink mix containing no fruit juices.
8965		Non-MRE beverages, alcoholic.
8970 (*Note 2)	MRE food composite packages	Non-MRE composite food packages.
8975		All tobacco products.

*Notes:

1. For complete item listing within each class of the 8900 (subsistence) Federal Supply Class (FSC) Group, refer to Federal Supply Catalog C8900-SL, Stock List--FSC Group 89 Subsistence.
2. Meat and poultry establishments listed in the *USDA Meat and Poultry Inspection Directory* may serve as sources of meat and poultry items as indicated. These products must bear the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to meat or poultry inspection acts must also be Directory listed for those items.
3. Directory listing is not required for establishments on the Interstate Certified Shellfish Shippers List (ICSSL). Fish, fresh or fresh smoked, modified atmospheric packaged (when distributed in a chill state) must be Packed

Under Federal Inspection (PUFI) by the USDC or listed specifically in this Directory. Establishments supplying other fish products must be Directory listed unless listed by the United States Department of Commerce (USDC) in the *USDC Approved List of Fish Establishments and Products.*

4. Directory listing is not required for shell egg sources listed in the *Directory of Grading Offices and Plants Operating Under USDA Poultry and Egg Grading Programs*. Establishments listed in the *USDA Meat and Poultry Inspection Directory* for dried or liquid/frozen egg products may serve as sources for those products, as coded.
5. Establishments having a pasteurized milk compliance rating of 90 percent or higher, certified by a State milk sanitation officer, and listed in the *Sanitation Compliance and Enforcement Rating of Interstate Milk Shippers (IMS) List* may serve as sources of milk and milk products, as listed. Listing in this Directory is mandatory to serve as a source of other milk and milk products and/or frozen dessert items. Establishments listed in the *Dairy Plants Surveyed and Approved for USDA Grading Service* may serve as sources of manufactured or processed dairy products as listed by product code. Those operations denoted with "P" codes (packaging and processing) must be Directory listed when providing ungraded manufactured or processed dairy products.
6. Directory listing is not normally required for semiperishable and nonanimal origin ingredient sources for items such as ready-to-eat bakery products and ice cream.
7. Establishments processing ready-to-eat, chilled, and prepared non-meat salads (such as potato, egg, tuna, chicken, turkey, ham, bean, macaroni, or cole slaw) must be Directory listed.
8. Only pasteurized juices are authorized for purchase by the DOD.
9. Directory listing for natural and artificial cream or fruit filled pie crusts, cakes, and cookies is not required if the finished item will not support pathogenic microbial growth.
10. Establishments producing finished products containing less than 3 percent by weight components of animal origin may be exempted from Directory listing by the command publishing this Directory.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
J	1 | 19

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO.(If applicable)
P00002	28-May-2008	N4034507RCSG0030	

6. ISSUED BY	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
U.S. FLEET AND INDUSTRIAL SUPPLY CENTER DET SINGAPORE BUILDING 7-4 PSA SEMBAWANG TERMINAL DEPTFORD ROAD SINGAPORE 759657	N40345	**See Item 6**	

8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		
GLENN DEFENSE MARINE (ASIA) PTE LTD MR. LEONARD FRANCIS 15D PANDAN ROAD SINGAPORE 609266		9A. AMENDMENT OF SOLICITATION NO.
		9B. DATED (SEE ITEM 11)
	X	10A. MOD. OF CONTRACT/ORDER NO. N40345-07-D-0004
	X	10B. DATED (SEE ITEM 13) 07-Jun-2007

CODE QB341 FACILITY CODE

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

☐ A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

☐ B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).

☐ C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

X D. OTHER (Specify type of modification and authority)
MUTUAL AGREEMENT

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nyssns010817928

Extension of performance of services

1. The purpose of this modification is to extend the performance date and to revise the OOTW language sert forth in the above-numbered contract.
2. The revised language under OVERVIEW and STATEMENT OF WORK (SOW) are high-lighted in yellow.
3. Replace the pages with the attached conformed contract.
4. There is no change in the price of the contract as a result of this modification.
5. All other terms and conditions shall remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)
		(b)(6), (b)(7)(C) CONTRACTING OFFICER TEL: (b)(6), (b)(7)(C)
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY	16C. DATE SIGNED
(Signature of person authorized to sign)		(Signature of Contracting Officer)	27-May-2008

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION A - SOLICITATION/CONTRACT FORM
The order period end date 31-Aug-2008 has been added.
The order period start date 07-Jun-2008 has been added.

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:
STATEMENT OF WORK
STATEMENT OF WORK (SOW)

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 1 – Classifications of Navy Ships)

1.1 PRE-ARRIVAL HUSBANDING DUTIES.

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. Pre-arrival CRAFT Cost Estimate - The Contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship and the Contracting Officer within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U. S. Defense Attaché’s Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the Contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide the SUPPO upon ship's arrival a copy of The Schedule and SOW, applicable port tariffs and current prices for frequently ordered services such as laundry services and vehicle rental.

1.2.6. Money Exchange Services:

1.2.6.1. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.6.2. The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. Exchange services onboard ship shall be made available to crewmembers at least two hours daily with buy back service on the day before the ship's departure. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate above.

1.2.7. Laundry Services:

1.2.7.1. The Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services:

1.2.8.1. All contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port.

1.2.8.2. The Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract or any other contract.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers Tonga then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts. This service includes all necessary actions to facilitate the acceptance of supplies or services ordered under Government contracts. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Detachment Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the FISC Detachment Singapore prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a timely cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Detachment Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FF&V, Bread and Eggs) the Contractor shall use the SOWs furnished herein when arranging supplies and services.

In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Detachment Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section B1, Overview, paragraph 15, Standards for Professional Service; sub-paragraph 15.1 and 15.2.

No later than 60 days after contract award, the Contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.4.1. When requested by the ship, the Husbanding Contractor shall assist in arranging for the timely provision of FF&V, Bread and Eggs and other subsistence items. FF&V shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. The Husbanding Services Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.4.2. In all cases where the total cost of FF&V and subsistence items received by a ship exceeds $10,000.00 for a port visit, the Contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Detachment Singapore within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the Contractor shall provide copies of all quotes obtained.

1.4.3. The Husbanding Contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided as Attachment 8.

1.4.4. Husbanding Contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the Contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.4.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

1.5. PRE-SAILING VISIT: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.5.1. The payment will be made by the ship prior to departure from the port. If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Officer, U.S. Navy Region Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury check. The Contractor must accept the U.S. Government commercial purchase card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is the Mastercard. If a ship uses a U.S. Government credit card, the ship shall reimburse the Contractor any surcharge imposed by the financial institution processing the credit card transaction. The applicable credit card surcharge cannot exceed three (3) percent. Upon award of contract, the Contractor shall provide evidence furnished by theFinancial Institution of the credit card surcharge.

1.5.2. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.5.3. Copies of all invoices presented to the ship shall be provided to FISC Detachment Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.5.4. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

2. OPERATIONS OTHER THAN WAR (OOTW)/CONTINGENCY OPERATIONS AND DISASTER RELIEF FEES (CLIN XX36)

2.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

2.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

2.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

2.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

2.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

2.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
2.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
2.5.3. current innoculation records
2.5.4. possess a valid up-to-date passport.

2.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

2.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

2.8. A sample of the potential list of OOTW and/or Exercise/Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place additional fenders between the breasting barge and the ship when requested.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the Contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting thesubmarine deck. Also, the submarine brow must be capable of supporting shorepower cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The Contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with Section B1 - OVERVIEW of the contract section, paragraph 15, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with chargers capable of using dual voltage. Each mobile phone provided shall include a spare battery and an operating manual/instruction with published rates for usage.

7.3. The Contractor shall provide activation, auto roaming, long distance accounts, and airtime for land and mobile hand phones.

7.4. The Contractor shall provide commercial telephone booth and sale of phone cards for personal use by crewmembers.

7.5. The Contractor shall provide pre-paid International Calling Cards for official use.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel (minimum two assistants), and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. RESERVED - FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct Force Protection (FP) operations. The Contractor shall ensure that this area is kept clean during the ship visit in port.

12. FORCE PROTECTION (CLIN XX12)

12.1. General (CLINs XX01 & XX02): The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor must develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The Contractor must coordinate all aspects of FP planning and services with Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the Contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The Contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The Contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Detachment Singapore Contracting Officer. The Contractor must explain what the FP service will entail and why it is being required. The Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the Contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of five (5) people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The Contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 LB, CO_2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLINs XX12AB & XX12AC)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED - Floating Line of Demarcation (CLINs XX12AD THROUGH XX12AF)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 3.

12.6. Perimeter Fencing (CLIN XX12AG)

12.6.1. The Contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLINs XX12AH THRU XX12AL)

12.7.1. The Contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ship's arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLINs XX12AM & XX12AN)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations and specifications.

12.9. Portable Latrine (CLIN XX12AP)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AQ)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards Services (CLINs XX12AR through XX12AT)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security shall be armed.

12.12. Two Way Radios (CLIN XX12AU) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals.

12.13. RESERVED - Hand Held Explosive Detectors (CLIN XX12AV) - The Contractor shall provide hand held explosive detectors capable of detecting explosives.

12.14. Hand Held Metal Detectors (CLIN XX12AW) - The Contractor shall provide hand held metal detectors capable of detecing metal.

12.15. RESERVED - Walk Thru X-Ray Machine (CLIN XX12AX) & Metal Detector (CLIN XX12Y) - The Contractor shall provide walk thru X-ray Machine & metal detector capable of X-raying hand carried luggage and bags to determine its contents, and also capable of detecting metal. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

12.16. Under Carriage Vehicle Scanner (CLIN XX12AZ) – The Contractor shall provide under carriage vehicle scanner to scan vehicle undercarriages.

13. FORKLIFT WITH OPERATOR (CLIN XX13) - The Contractor shall provide forklifts with operators for loading and unloading operations.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Navy bunkering contracts. However, if those sources are not available, then the HS Contractor may be required to assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Contractor shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC Detachment Singapore and request approval to proceed. Only after this is done, may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by theh port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide fuel in accordance with Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. LINESBOATS (CLIN XX16) - The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (WITH OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with operator and a full fuel tank.

18.2. The Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled “SHIP’S SPARE IN TRANSIT”

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship’s arrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the package to the shp after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative or FISC Detachment Singapore.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. MISCELLANEOUS

20.1. RESERVED - INTERPRETER SERVICES (CLIN XX20AA) - The Contractor shall arrange for interpreter/translator services necessary to assure timely delivery and performance of the supplies and services ordered by the SUPPO. The interpreter/translator shall be fluent in both spoken and written local language and English.

20.2. TOILET CLEANING (CLIN XX20AB)

20.2.1. The Contractor shall provide toilet cleaning three times daily at Clifford Pier.
20.2.2. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. RESERVED - OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed.

22.4. The Contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements.

23. RESERVED - PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide qualified pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the requesting ship in accordance with the current World Health Organization (WHO) Guidelines for drinking-water quality, located at http://www.who.int/water_sanitation_health/dwq/gdwq3rev/en/index.html, to the intake hose of the requesting ship suitable for showering, cooking and cleaning. Water availability shall be in accordance with the delivery schedule specified by the SUPPO. The ship shall test and determine acceptability of the water delivered.

26. RESERVED - PRATIQUE (QUARANTINE SERVICE) (CLIN XX26) - The Contractor shall provide First Port of Entry Clearance with the local authorities.

27. RESERVED - REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED - SHORE POWER (CLIN XX28)

29. RESERVED – SHORE STEAM (CLIN XX29)

30. STEVEDORE SERVICES (CLI XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with qualified drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Detachment Singapore if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

33.4. If tugs are not available through the port authority, the Contractor shall use commercially available tugs.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 7 – Water Taxi Specifications.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO or FISC Detachment Singapore.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by the ship’s duty officer onboard. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit D - CRAFT.

35.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure.

36. OPERATIONS OTHER THAN WAR (OOTW)/CONTINGENCY OPERATIONS AND DISASTER RELIEF FEES (CLIN XX36) See paragraph 2 above also.

36.1. OOTW refers to a "Contingency operation" as that term is defined in FAR 2.101. In addition, for purposes of this contract, it refers to rescue and humanitarian relief missions, Non-combatant Evacuation Operations (NEO's), or an unplanned, real world deployment of troops for an indefinite period of time. The provisions of FAR Part 18, Emergency Acquisitions (effective 5 Jul 2006), apply in full to the OOTW requirements of this contract.

36.2. Logistics Support is defined as goods and services provided in a background framework to an operation. Logistics Support can take place in the immediate vicinity of the operation or a great distance away.

36.3. The Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a network familiar with the local political and commercial infrastructures, cultural and lingual background, and business practice. In order to assist the Navy's response to OOTW, the Contractor shall furnish personnel with the following qualifications:

36.3.1. Ability to speak the local language where OOTW is being conducted.
36.3.2. Capacity to travel to the OOTW or forward logistic site within 24 hours of notification.
36.3.3. Current inoculation records.
36.3.4. Possess a valid up-to-date passport.

36.4. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The Contractor shall assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each supported location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.5. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the contractor's Husbanding fees and CLINS shall apply.

36.6. If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.7. Regardless of location, OOTW support requests for other than the basic service under this CLIN for operations not associated with ships are exempt from the requirements portion of the contract.

36.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for Contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the husbanding Contractor shall make every effort to locate at least three sources and shall provide a copy of all documents to the Contracting Officer. In very unique time sensitive situations, the Contractor may be tasked to

source and provide a large variety of supplies and services on a very compressed delivery schedule in support of large scale operations like NEOs, etc or other real world events. In these unique situations, the requirement to document market research and source selections for supplies/services over $3000 is still mandatory.

36.9. An exercise is defined as a prearranged, preplanned evolution being conducted between the Government and a foreign nation for training or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise". It includes training efforts and exercise-like activity in preparation for actual contingencies.

36.10. The Contractor shall provide exercise and logistics support in the same manner as is provided for OOTW support.

36.11. Disaster Relief is defined as emergency operations or preparedness to support civil society to cope with natural or man-made disasters. Disaster relief is concerned with recovery efforts.

36.12. The Contractor shall provide disaster relief support in the same manner as is provided for OOTW support.

37. OOTW COST REPORT (CLIN XX37)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

35.3. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure.

SECTION F - DELIVERIES OR PERFORMANCE

SECTION I - CONTRACT CLAUSES

The following have been modified:

52.216-21 Requirements. (OCT 1995) -- ALTERNATE I (APR 1984)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Delivery-Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirements for supplies and services specified in the Schedule that exceed the quantities that the activity may itself furnish within its own capabilities.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 30 Sep 2008.

(End of clause)

Section B - Supplies or Services and Prices

OVERVIEW
SECTION B1
OVERVIEW OF CONTRACT

1. OBJECTIVE

1.1. The objective of this contract is to obtain Husbanding Services for U.S. Navy ships and logistics support services required by U.S. Government organizations and agencies in all ports in Papua New Guinea.

1.2. Additionally, the husbanding contractor may be called upon to provide services and supplies in support of exercises and Operations Other Than War (OOTW) in Papua New Guinea.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in any port in Papua New Guinea.

2.2. The schedule of supplies/services and prices (See Exhibit A.) is sub-divided into lots. Lots may be for individual Ports or they may include several Ports under one (1) lot. For this contract Lot I is for any port in Papua New Guinea.

2.3. The individual HS items provided under this contract are listed in Section B2, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.4. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.5. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT

3.1. This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services. This clause “DEFINITION OF THE CONTRACTUAL REQUIREMENT” complements the clause herein entitled “REQUIREMENTS (OCT 1995) (FAR 52.216-21).”

4. DURATION OF CONTRACT - This contract is for six (6) months commencing on 21 May 07. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 1.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships

- U.S. Army Ships
- U.S. Government personnel conducting business in locations under this contract.
- Department of Defense (DoD) Chartered Ship: These ships usually have their own appointed agent. However, users of this contract are obligated to order the required services listed in the Schedule of Supplies and Services including any Force Protection. Services ordered are "all or none".

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.
- Ships operating outside the Command and control of the 7th Fleet, or other U.S. Navy Fleets.
- Whenever a fixed price product or service listed in this contract is available at a lower price under a port tariff.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of four (4) ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V HIGH-SPEED-INTERCEPTOR-CRAFT (HSIC) - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and Management fees will be based on the total fee for the pair of boats. Attachment 1 provides details.

10. LONG TERM SHIP VISITS –

10.1. For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The Contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

10.2. Unique/Particular Situations:

10.2.1. Frequent ship visits between ports: If a ship is frequently visiting two or more ports, it will be charged the first day rate for the first day in each port. If the ship returns to one of the ports within three (3) days (i.e. prior to the fourth calendar day), subsequent visits to that port will be charged at the subsequent day rate. On the fourth day or subsequent day, the ship will be charged the first day rate

(example: If the ship departs Friday and comes back before Tuesday, it will be charged subsequent day fees. If the ship comes back on Tuesday, it will be charged the first day rate).

10.2.2. If a ship comes into port and does not notify the Contractor or request any assistance, there will be no fees (e.g. if just dropping off passengers). If vessels request assistance of any kind, they will be charged first or subsequent days, subject to the conditions in paragraph 10.2.1. above.

10.3. Hazardous Material Disposal (HAZMAT)/Shipboard Generated Industrial Waste (SGIW): The Contractor shall not dispose/offload any hazardous waste requirements unless approval has been provided by the appropriate Navy Environmental office. Currently the only authorized locations approved to offload HAZMAT are Apra Harbor, Guam; Yokosuka, Japan; Sasebo, Japan; Hong Kong, China SAR and Singapore.

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL - Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. ORDERING

13.1. Ordering Items on Contract: Only Authorized Government Representatives (AGR) can place orders against this contract. AGRs for this contract are:

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Detachment Singapore warranted KO or their authorized representative.

13.2. Short Notice Orders: Occasionally, there may be short notice orders of less than 48 hours, which the Contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

13.3. Substitutions: Substitution of ordered CLIN shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20 pax bus was ordered, but was not available and substituted with two 10 pax vans. The Contractor will only be able to charge for one 20 pax bus, not two 10 pax vans. If the requiring activity and AGR agree to rates of the substituted CLINs, then it is not considered to be substitution but a change to the requirement.

13.4. Cancellation of Orders:

13.4.1. Unless otherwise provided herein, in the event an order is cancelled at least 48 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not cancelled at least 48 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled “Termination for the Government’s Convenience (FAR 52.212-4)”, of the clause entitled “CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS” as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

13.4.2. In rare cases, when ordering of items requires long lead times, the Government may negotiate cost reimbursement under the Termination for the Government’s Convenience clause as stated above.

13.4.3. In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

14. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English. All electronic communication between visiting vessels and contractor shall be copied to FISC Detachment Singapore Contracting Officer and Logistic Support Representative. This is to ensure oversight and assistance to either party as required.

15. STANDARDS FOR PROFESSIONAL SERVICES

15.1. The Contractor shall bring to the Navy the highest level of commitment to customer satisfaction including the timely delivery of goods and services at fair and reasonable prices to ships making port visits; continuous oversight of costs and performance throughout the areas covered by this contract; and, meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. To this end, the Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning cost and performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Services Officers and the U.S. Government.

15.2. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

15.3. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

15.4. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

15.5. The Contractor will ensure that subcontractors comply with these requirements.

16. HEIGHTENED VIGILANCE

16.1. The Contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The Contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16.2. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided must be in sound mechanical condition, be in compliance with local laws and specifications, meet all local safety standards, and have all required current certifications and insurance.

18. GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM) – In the event that the contractor is required to use government equipment, the Contractor shall be responsible for all loss or damage to, or the destruction of, Government property in its possession. The Contractor shall not be responsible for damage due solely to normal wear and tear.

19. CONTRACT PRICING

19.1. Contract Currency - All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor perform during normal working hours, overtime for work performed outside normal working hours, weekend hours, holidays, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit. The Contractor shall only charge for actual usage while the vessel is in port.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging - All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs). Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations - Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage - Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINs that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

CHT Collection, Holding Transfer Sewage Removal and Disposal

CU M	Cubic Meter
DAO	Defense Attaché Officer
DY	Day
EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
IDD	International Direct Dialing
JB	Job
LO	Lot
M	Meter
MIN	Minimum
NSP	Not Separately Priced
OOTW	Operations Other Than War
PAX	Passenger
PK	Package
PT	Port Tariff
QTY	Quantity
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge.

Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional Yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 2 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL (GFE/GFM): Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Host Nation Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. The U.S. Government is usually exempt from host nation Government Taxes.

- HOST NATION (HN): The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION (MOB & DEMOB):

  - Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

  - Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPARATELY PRICED (NSP): Item that is not separately priced. The CLIN for CRAFT should be factored into the Management Fee. The NSP CLIN is used to administratively order any unpriced items in accordance with the pricing rationale in paragraph refer to Section C (SOW), Arranging Supply and Services.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, picket boats, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract. A “Reserved” item is an item that can be ordered when required but currently not available.

- SUPPO: A ship’s Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- TRASH: See Attachment 2 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS	(b)(6), (b)(7)(C)
Title of Individual:	MANAGING DIRECTOR	
Mailing Address:	15D PANDAN ROAD SINGAPORE 609266	15D PANDAN ROAD SINGAPORE 609266

Section C - Descriptions and Specifications

STATEMENT OF WORK
STATEMENT OF WORK (SOW)

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 1 – Classifications of Navy Ships)

1.1 PRE-ARRIVAL HUSBANDING DUTIES.

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. Pre-arrival CRAFT Cost Estimate - The Contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship and the Contracting Officer within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U. S. Defense Attaché’s Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the Contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide the SUPPO upon ship's arrival a copy of The Schedule and SOW, applicable port tariffs and current prices for frequently ordered services such as laundry services and vehicle rental.

1.2.6. Money Exchange Services:

1.2.6.1. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.6.2. The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. Exchange services onboard ship shall be made available to crewmembers at least two hours daily with buy back service on the day before the ship's departure. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate above.

1.2.7. Laundry Services:

1.2.7.1. The Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services:

1.2.8.1. All contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port.

1.2.8.2. The Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract or any other contract.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers Vietnam and Cambodia then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts. This service includes all necessary actions to facilitate the acceptance of supplies or services ordered under Government contracts. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Detachment Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the FISC Detachment Singapore prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a timely cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Detachment Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FF&V, Bread and Eggs) the Contractor shall use the SOWs furnished herein when arranging supplies and services.

In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Detachment Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section B1, Overview, paragraph 15, Standards for Professional Service; sub-paragraph 15.1 and 15.2.

No later than 60 days after contract award, the Contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.4.1. When requested by the ship, the Husbanding Contractor shall assist in arranging for the timely provision of FF&V, Bread and Eggs and other subsistence items. FF&V shall be of good quality and meet the following

specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. The Husbanding Services Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.4.2. In all cases where the total cost of FF&V and subsistence items received by a ship exceeds $10,000.00 for a port visit, the Contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Detachment Singapore within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the Contractor shall provide copies of all quotes obtained.

1.4.3. The Husbanding Contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided as Attachment 8.

1.4.4. Husbanding Contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the Contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.4.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

1.5. PRE-SAILING VISIT: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.5.1. The payment will be made by the ship prior to departure from the port. If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Officer, U.S. Navy Region Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury check. The Contractor must accept the U.S. Government commercial purchase card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is the Mastercard. If a ship uses a U.S. Government credit card, the ship shall reimburse the Contractor any surcharge imposed by the financial institution processing the credit card transaction. The applicable credit card surcharge cannot exceed three (3) percent. Upon award of contract, the Contractor shall provide evidence furnished by theFinancial Institution of the credit card surcharge.

1.5.2. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.5.3. Copies of all invoices presented to the ship shall be provided to FISC Detachment Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.5.4. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

2. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 2) (CLIN XX36)

2.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

2.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

2.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

2.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

2.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

2.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
2.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
2.5.3. current innoculation records
2.5.4. possess a valid up-to-date passport.

2.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor team shall consist of a minimum of two personnel per location that the OOTW and/or Exercise/ Logistic Support is being conducted. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

2.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

2.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place additional fenders between the breasting barge and the ship when requested.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the Contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting thesubmarine deck. Also, the submarine brow must be capable of supporting shorepower cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The Contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with Section B1 - OVERVIEW of the contract section, paragraph 15, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. RESERVED - The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with chargers capable of using dual voltage. Each mobile phone provided shall include a spare battery and an operating manual/instruction with published rates for usage.

7.3. The Contractor shall provide activation, auto roaming, long distance accounts, and airtime for land and mobile hand phones.

7.4. The Contractor shall provide commercial telephone booth and sale of phone cards for personal use by crewmembers.

7.5. The Contractor shall provide pre-paid International Calling Cards for official use.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel (minimum two assistants), and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct Force Protection (FP) operations. The Contractor shall ensure that this area is kept clean during the ship visit in port.

12. FORCE PROTECTION (CLIN XX12)

12.1. General (CLINs XX01 & XX02): The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor must develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The Contractor must coordinate all aspects of FP planning and services with Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the Contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The Contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The Contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Detachment Singapore Contracting

Officer. The Contractor must explain what the FP service will entail and why it is being required. The Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the Contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of five (5) people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The Contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 LB, CO_2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED - Floating Line of Demarcation (CLINs XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 3.

12.6. Perimeter Fencing (CLIN XX12AE)

12.6.1. The Contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AF THRU XX12AJ)

12.7.1. The Contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ship's arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AK)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations and specifications.

12.9. Portable Latrine (CLIN XX12AL)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AM)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards Services (CLINs XX12AN & XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guards (CLINs XX12AN and XX12AP) shall be armed.

12.11.4. Two Way Radios (CLIN XX12AQ) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals.

12.12. Hand Held Explosive Detectors (CLIN XX12AR) – The Contractor shall provide hand held explosive detectors capable of detecting explosives.

12.13. Hand Held Metal Detectors (CLIN XX12AS) – The Contractor shall provide hand held metal detectors capable of detecing metal.

12.14. Walk Thru X-Ray Machine (CLIN XX12AU) & Metal Detector (CLIN XX12AT) - The Contractor shall provide walk thru X-ray Machine & metal detector capable of X-raying hand carried luggage and bags to determine its contents, and also capable of detecting metal. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

13. FORKLIFT WITH OPERATOR (CLIN XX13) - The Contractor shall provide forklifts with operators for loading and unloading operations.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Navy bunkering contracts. However, if those sources are not available, then the HS Contractor may be required to assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Contractor shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC Detachment Singapore and request approval to proceed. Only after this is done, may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by theh port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged

shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide fuel in accordance with Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS (CLIN XX16) - The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED - MANLIFT (WITH OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with operator and a full fuel tank.

18.2. The Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled "SHIP'S SPARE IN TRANSIT"

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship's arrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the package to the shp after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative or FISC Detachment Singapore.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. MISCELLANEOUS

20.1. INTERPRETER SERVICES (CLIN XX20AA) - The Contractor shall arrange for interpreter/translator services necessary to assure timely delivery and performance of the supplies and services ordered by the SUPPO. The interpreter/translator shall be fluent in both spoken and written local language and English.

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed.

22.4. The Contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements.

23. RESERVED - PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide qualified pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the requesting ship in accordance with the current World Health Organization (WHO) Guidelines for drinking-water quality, located at http://www.who.int/water_sanitation_health/dwq/gdwq3rev/en/index.html, to the intake hose of the requesting ship suitable for showering, cooking and cleaning. Water availability shall be in accordance with the delivery schedule specified by the SUPPO. The ship shall test and determine acceptability of the water delivered.

26. SEAPORT QUARANTINE SERVICE (CLIN XX26) - The Contractor shall provide First Port of Entry Clearance with the local authorities.

27. RESERVED - REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED - SHORE POWER (CLIN XX28)

29. RESERVED – SHORE STEAM (CLIN XX29)

30. STEVEDORE SERVICES (CLI XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with qualified drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Detachment Singapore if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

33.4. If tugs are not available through the port authority e.g. the port of Madang, the Contractor shall use commercially available tugs.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 7 – Water Taxi Specifications.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO or FISC Detachment Singapore.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by the ship's duty officer onboard. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit D - CRAFT.

35.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure.

36. OPERATIONS OTHER THAN WAR (OOTW)/CONTINGENCY OPERATIONS AND DISASTER RELIEF FEES (CLIN XX36) See paragraph 2 above also.

36.1. OOTW refers to a "Contingency operation" as that term is defined in FAR 2.101. In addition, for purposes of this contract, it refers to rescue and humanitarian relief missions, Non-combatant Evacuation Operations (NEO's), or an unplanned, real world deployment of troops for an indefinite period of time. The provisions of FAR Part 18, Emergency Acquisitions (effective 5 Jul 2006), apply in full to the OOTW requirements of this contract.

36.2. Logistics Support is defined as goods and services provided in a background framework to an operation. Logistics Support can take place in the immediate vicinity of the operation or a great distance away.

36.3. The Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a network familiar with the local political and commercial infrastructures, cultural and lingual background, and business practice. In order to assist the Navy's response to OOTW, the Contractor shall furnish personnel with the following qualifications:

36.3.1. Ability to speak the local language where OOTW is being conducted.
36.3.2. Capacity to travel to the OOTW or forward logistic site within 24 hours of notification.
36.3.3. Current inoculation records.
36.3.4. Possess a valid up-to-date passport.

36.4. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The Contractor shall assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each supported location to effectively perform all necessary tasks. If there are

multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.5. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the contractor's Husbanding fees and CLINS shall apply.

36.6. If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.7. Regardless of location, OOTW support requests for other than the basic service under this CLIN for operations not associated with ships are exempt from the requirements portion of the contract.

36.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for Contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the husbanding Contractor shall make every effort to locate at least three sources and shall provide a copy of all documents to the Contracting Officer. In very unique time sensitive situations, the Contractor may be tasked to source and provide a large variety of supplies and services on a very compressed delivery schedule in support of large scale operations like NEOs, etc or other real world events. In these unique situations, the requirement to document market research and source selections for supplies/services over $3000 is still mandatory.

36.9. An exercise is defined as a prearranged, preplanned evolution being conducted between the Government and a foreign nation for training or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise". It includes training efforts and exercise-like activity in preparation for actual contingencies.

36.10. The Contractor shall provide exercise and logistics support in the same manner as is provided for OOTW support.

36.11. Disaster Relief is defined as emergency operations or preparedness to support civil society to cope with natural or man-made disasters. Disaster relief is concerned with recovery efforts.

36.12. The Contractor shall provide disaster relief support in the same manner as is provided for OOTW support.

37. OOTW COST REPORT (CLIN XX37)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

35.3. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure.

CLAUSES INCORPORATED BY FULL TEXT

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Apr 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

http://www.acq.osd.mil/dpap/dars/
http://www.arnet.gov/
http://farsite.hill.af.mil/

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) In addition to the clauses listed in paragraph (b) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5 (JUL 2005) (DEVIATION), the Contractor shall include the terms of the following clause, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014	Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).
252.232-7019	Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).
252.247-7023	Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631)
252.247-7024	Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

252.233-7001 CHOICE OF LAW (OVERSEAS) (JUNE 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

CLAUSES IN FULL TEXT
ADDITIONAL CONTRACT TERMS AND CONDITIONS

(a) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(b) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155. Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(c) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(d) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(e) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(f) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(g) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirement for the supplies and services specified in the Schedule that exceed the quantities that the activity may furnish within its own capabilities.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(h) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(i) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(j) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(k) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(l) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address: FISC Detachment Singapore

PSA Sembawang Terminal
Deptford Road, Building 7-4, Unit 2-9
Singapore 759657

Military Address: PSC 470, Box 2150
FPO AP 96534-2150

FAX Numbers: (65)-6-750-2639 or 2382

(m) Provision for Wood Products SA 03-05 NAVSUP CLAIMANCY POLICY - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material (SWPM) (Nov 202) NAVSUP

(1) Definition. 'Pinewood nematode' as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(n) Agency Protests

(1) Prior to submission of an agency protest, all parties should use their best efforts to resolve concerns raised by an interested party at the contracting officer level through open and frank discussions.

(2) FISC Detachment Singapore will process agency protests in accordance with the substantive and procedural requirements of FAR 33.104(d).

(3) Pursuant to FAR 33.103(d)(4), an agency protest may be filed directly with either the Contracting Officer or the Chief of the Contracting Office. A protestor who initially files an agency protest with the Contracting Officer may appeal an adverse decision to the Chief of the Contracting Office. Agency protest submissions should clearly identify the initial adjudicating official, i.e., the "Contracting Officer" or "Chief of the Contracting Office".

Section J - List of Documents, Exhibits and Other Attachments

LIST OF ATTACHMENTS/EXHIBITS
Applicable documents, exhibits, and attachments for this contract are:

EXHIBIT NO.	DOCUMENT	NO. OF PAGES
A	Schedule of Supplies and Services	3
B	Port Tariff	1
C	OOTW Sample of Provisions	2
D	CRAFT Report	3

ATTACHMENT NO.	DOCUMENT

4. The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

5. Displacement is expressed in tons and represents fully loaded displacement.

6. The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

7. There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

GLOSSARY OF TERMS AND ABBREVIATIONS

AGOS	RESEARCH SHIP
AGSS	RESEARCH SUBMARINE
AOE	FAST COMBAT SUPPORT SHIP
ARS	SALVAGE SHIP
AS	SUBMARINE TENDER
CG	GUIDED MISSLE CRUISER
CV	MULTIPURPOSE AIRCRAFT CARRIER (CONVENTIONALLY PROPULSION)
CVN	MULTIPURPOSE AIRCRAFT CARRIER (NUCLEAR PROPULSION)
DD	DESTROYER
DDG	GUIDED MISSLE DESTROYER
FFG	GUIDED MISSLE FRIGATE
HSV	HIGH SPEED VESSEL
LCC	(EX AGC) AMPHIBIOUS COMMAND SHIP
LCS	LITTORAL COMBAT SHIP
LHA	AMPHIBIOUS ASSAULT SHIP (GENERAL PURPOSE)

PC	PATROL COASTAL SHIP
SSBN	BALLISTIC MISSILE SUBMARINE (NUCLEAR PROPULSION)
SSGN	CRUISE MISSILE SUBMARINE (NUCLEAR PROPULSION)
SSN	ATTACK SUBMARINE (NUCLEAR PROPULSION)
T-AE	AMMUNITION SHIP (MSC)
T-AFS	COMBAT STORE SHIP (MSC)
T-AGOS	OCEAN SURVEILLANCE/PATROL SHIP (MSC)
T-AGS	SURVEYING/ OCEANOGRAPHIC SHIP (MSC)
T-AH	HOSPITAL SHIP (MSC)
T- AKE	DRY CARGO/AMMUNITION SHIP (MSC)
T-AKR	STRATEGIC SEALIFT SHIP (MSC)
T-AO	OILER (MSC)
T-AOT	TANKER (MSC)
T-ATF	FLEET OCEAN TUG (MSC)
WAGB	POLAR CLASS ICEBREAKERS
WHEC	HIGH ENDURANCE CUTTER
WMEC	MEDIUM ENDURANCE CUTTER

ATTACHMENT 2 - REFUSE SERVICES

Refuse Service Definitions

The following are Refuse Definitions used for this contract:

8. **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

9. **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

10. **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

11. "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

12. "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

13. "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

14. "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

15. "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

EXHIBIT C - OOTW SAMPLE
OOTW Sample of Provisions

The listing under this Excel spreadsheet is a sample for information only.

EXHIBIT D - CRAFT REPORT
The submission CRAFT Report is required within seven (7) days upon completion of a ship's port visit.

ATTACHMENT 3
(RESERVED - CLINS XX12AC AND XX12AD) - FLOATING LINE OF DEMARCATION (FLD) SPECIFICATIONS

1. The following are the Governments basic requirements for the Floating Line of Demarcation Specifications to be used for this contract:

1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around anchored ships. The purpose of the FLD is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to ship's/port radar. The Picket Boats will patrol outside of this visual reference. The FLD shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum two (2) work boats to tend to the FLD at all times. The FLD is not designed to stop approaching unauthorized watercraft rather it is to help identify a safe standoff zone.

2. The size of the Floating Perimeter will be approximately 2500 meters to 2700 meters based on a ship's length of approximately 800 feet.

3. Weights sufficient to anchor the FLD in place to the seabed. The size and number of weights will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the FLD line intact at all times regardless of sea conditions.

4. The Contractor shall have communication capabilities, either VHF or cellular phone with Port Operation Control and U.S. Navy vessel. The contractor shall report the status of the Floating Visual Line of Demarcation to Port Operation control every two hours or other regular interval agreed upon between Contractor and Port Operation Control.

5. The Contractor shall provide a minimum of two (2) work boats to tend the FLD at all times while the system is deployed.

6. The FLD shall be deployed in the most expeditious manner as soon as the U.S. Navy vessel is anchored.

7. When the FLD is retrieved, the Contractor must show documentary proof that all equipment deployed is removed from the location.

8. The Contractor shall provide the U.S. Navy, Port Authority/Host Nation an updated and current emergency contact list in case of contingencies.

9. Below are two examples of FLDs.

a. Example 1 - Continuous Line FLD –

i. Specifications: Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable Entry Control Point for access.

ii. Buoys or floats positioned every meter on the line sufficient to keep line afloat and visible on the surface of the water.

iii. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to ship's/port radar.

iv. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the perimeter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact and in position at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

b. Example 2 - Floating Buoy System (FBS)

i. Specifications: The FBS must clearly show a perimeter line and fully surround the ships at anchorage. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the demarcation line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical. In addition, buoys must also be visible on ship's/port radar.

ii. Weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

2. Contract Pricing: Prices are firm-fixed-price per unit and are inclusive of all costs which include the following:

a. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

b. Mobilization and Demobilization (Mob & De-mob). All Mob & De-mob costs shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes transportation of equipment and charges for the use of cranes, forklifts, tugs, workboats and any other equipment and labor required for the deployment, maintenance and retrieval for the floating perimeter.

c. Repositioning equipment. All repositioning of equipment shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

d. Pre-positioning / Pre-staging and Vetting Operations. All pre-positioning / Pre-staging and vetting operations shall be included in the unit price. The vessel shall only be charged for the actual number days that the perimeter is in use while the ship is port. No additional days shall be charged.

3. Time Calculations: These CLINs are based on daily rates. Time will begin being measured once the equipment is deployed round the vessel and capable of operations.

4. General: The Contractor is responsible for providing floating visual line of demarcation. The Contractor must work closely with other US Navy contractors such as subsistence contractor. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

5. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

a. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

b. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

6. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

a. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

b. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

c. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

7. Inspections: The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a

controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

ATTACHMENT 4
PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

16. The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

17. The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

18. Ships at anchorage will normally require two Picket Boats.

19. The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

20. The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

21. The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

22. The Picket Boat will meet the following requirements:

    7.1. Licensed for commercial operations by local country Department of Transportation.

    7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

    7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

7.11.4. Portable Spotlight

ATTACHMENT 5
SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

1.2. Security guards may be provided through private security firms or through local police officials.

1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside: (CLIN XX12AQ)

2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.6. The following equipment will be required as a minimum for each guard:

2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.5. Flashlight for nighttime inspections.

2.6.6. Any locally required equipment to perform their job.

2.7. Rules of Engagement (ROE) Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

2.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats: (CLIN XX12AP)

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN XX12AK. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

3.8.1.2 If the first warning is ignored, the security guard will immediately notify the ship of the threat.

3.8.1.3 The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

3.8.1.4 As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

ATTACHMENT 6
FUEL SPECIFICATIONS

The following are the Fuel Specifications for this contract:

1. SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of visible particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/
Density, @ 15ºC, kg/m^3 (max)	876	D 1298 (R), D 4052, D 287
Distillation, 10 % point, ºC 50% point, ºC 90% point, ºC, (max) end point, ºC, (max) Residue º Loss, % vol., (max)	 Record Record 357ºC 385ºC 3.0	D 86 3/
Cloud Point, ºC, (max)	-1ºC	D 2500

Color, (max)	3	D1500
Flash Point, ºC, (min)	60ºC	D 93 4/
Particulate Contamination, mg/liter, (max)	10	D 5432 5/
Pour Point, ºC, (max)	-6ºC	D 97
Viscosity, @ 40ºCm mm^2/second	- 1.7 - 4.3	D 445
Chemical Requirements		
Accelerated Storage Stability, total insolubles, mg/100ml, (max)	1.5	D5304 (R), D 2274 6/
Acid Number, mg KOH/100 ml, (max)	0.30	D 974 (R), D 664
Aniline Point, ºC, (min)	60ºC	D 611
Ash, % wt., (max)	0.005	D 482
Carbon Residue, on 10% bottoms, % wt., (max)	0.20	D 524 (R), D4530, D 189 7/
Corrosion, @ 100ºC, (max)	No. 1 ASTM	D 130
Hydrogen Content, % wt., (min)	12.5	D 4808
Ignition Quality, Cetane Number, (min) Cetane Index, (min)	42	D 613 (R), D 976 8/
Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 2622
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium Vanadium	 1.0 0.5 1.0 0.5	D 3605 9/
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

   (a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

   (b) The test temperature shall be 25ºC.

   (c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

2. COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC MAY 2002)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

	TEST REQUIREMENTS	METHOD	
1.	Cetane Number	ASTM D 613	42 min
	or		
	Cetane Index	ASTM D 976	43 min

NOTE: If the Cetane number is reported, the reported value shall apply to the base fuel without Cetane improving additives.

2.	Appearance @ 21^{O}C or ambient temp. (whichever higher)	Visual	Clear & Bright
	or		
	Water & Sediment	ASTM D 2709	0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357^{O}C max.
4.	Flash Point	ASTM D 93	60^{O}C min

NOTE: The flash point value is absolute and no value less than 60^{O}C is permissible.

5. Cloud Point — ASTM D 2500 -1.1^{O}C (30^{O}F) max.
NOTE: Cloud Point results will be evaluated based upon bunkering location.

6. Viscosity @ 40^{O}C — ASTM D 445 — 1.7 - 4.5 cSt

7. Color 4 — ASTM D 1500 — 3 max.
NOTE for deliveries outside the United States, the offerors must submit information on the composition, color and desired concentration of any dye to be used in order to obtain approval.

8. Density @ 15^{O}C — ASTM D 1298 — 876 kg/m^{3} max.

9. Carbon Residue on 10% bottoms 5 — ASTM D 524 — 0.35 mass % max.
NOTE: For carbon residue on 10% bottoms, ASTM D 189 is an acceptable alternate method.

10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur 6 NOTE: For total sulfur content, ASTM D 1552 and ASTM D 2622 are acceptable alternate methods.	ASTM D 4294	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Composition Distillate Fuel (fuel shall contain no residual)	None	100%

3. FUEL OIL, INTERMEDIATE, GRADES RME-25 (IFO 180 AND RMG-35 (IFO 380) (DESC JUN 2004)

a. Product shall conform to ISO 8217:1996.

b. ALTERNATE TEST METHODS. The test methods below can also be used to determine the following requirements:

REQUIREMENTS TEST METHOD

1. Density @15^{o}C, kg/m^{3} ASTM D 4052
2. Carbon Residue ASTM D 4530
3. Vanadium, mg/kg ASTM D 5863
4. Aluminum plus silicon, mg/kg ASTM D 5184

c. SULFUR. Starting My 19, 2005, the sulfur limit for RME-25 (IFO 180) purchased under the DESC Bulk Purchase Program must meet a revised sulfur weight percent limit of 3.5, maximum.

d. A. FOR THE BULK PROGRAM, RME-25 (IFO 180) purchased undr the DESC Bulk Purchase Program must meet a revised sulfur weight percent limit of 3.5, masimum. (DESC 52.246-9FFE).

ATTACHMENT 7 - WATER TAXI SPEC
WATER TAXI SPECIFICATIONS

The following are Commander 7th Fleet (COMSEVENTHFLT) Water Taxi specifications used for this contract.

1. Compliance - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2. Quality of Equipment - All equipment provided must meet COMSEVENTHFLT water taxie specifications, meet all safety standards required by local law, and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3. Quality of Services - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in

the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. Inspection and Acceptance - The Contractor shall pre-inspect the provided boats using the COMSEVENTHFLT specifications set forth below. Boats failing the inspection will not be used. The Contractor shall provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the designated FISC Detachment Singapore Logistics Support Center (LSC) Water Taxi Inspector. The LSC Inspector will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the LSC Inspector shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor, the FISC Detachment Singapore Contracting Officer (KO), and the LSC Inspector. An info message will be sent to Commander Logistics Western Pacific (COMLOGWESTPAC) and the operational chain of command up to and including COMPACFLT.

5. COMSEVENTHFLT Specifications:

5.1. Boat requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris, and fitted for service required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of (insert country). Notwithstanding compliance with local laws and regulations, the contractor shall meet all additional requirements as set forth throughout Section 5.

5.1.1. Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

5.1.2. Each boat shall be capable of transporting a minimum of (see Schedule of Services) passengers. (Weight restrictions may also be set forth, if appropriate.)

5.1.3. The following information shall be conspicuously posted in both English and (the appropriate foreign language):

5.1.3.1. Current Operator’s/Captain's license and boat names.

5.1.3.2. Passenger/weight capacity limit notice.

5.1.3.3. Location of life jackets and other life saving equipment.

5.1.3.4. Location of all exits indicated in large letters.

5.1.3.5. Emergency procedures

5.1.4. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

5.1.5. Operation of the boat shall be in a safe and seaworthy manner.

5.1.6. The consumption of alcoholic beverages shall not be permitted aboard the boat.

5.2. Operator qualifications: All personnel or employees of the contractor operating boats providing subject services shall have all certification required and issued by (insert country) for the operation of the type class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

5.3. Security: During the term of this contract the ship(s) to be serviced (insert ship name if purchase order) agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat--SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He/she will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

5.4. Boat capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

5.5. Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the (Contracting officer or Husbanding Agent, as appropriate), or authorized representative prior to acceptance. This inspection shall include but not be limited to:

5.5.1. Hull

5.5.1.1. Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures.

5.5.1.2. Superstructure, including masts and stacks.

5.5.1.3. Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines.

5.5.1.4. Provisions for drainage of sea water from exposed decks over the side and not into the bilges.

5.5.1.5. Access/egress points- adequacy of number and location.

5.5.2. Machinery

5.5.2.1. 2-way radio or other reliable means of electronic communications (i.e., cellular phone) plus an additional battery back-up is required.

5.5.2.2. Main propulsion and auxiliary machinery essential to operation of boat.

5.5.2.3. Sea and bulkhead closure valves.

5.5.2.4. Bilge auction strainers and dewatering systems-bilge pump to be tested by operation

5.5.2.5. Bilges free of flammable liquids

5.5.3. Electrical

5.5.3.1. Cables.

5.5.3.2. Navigation, deck, and emergency lights.

5.5.3.3. Rotating electrical machinery; e.g., generators and motors --Storage batteries

5.5.4. Lifesaving equipment

5.5.4.1. Life preservers - sufficient number for maximum capacity of boat, accessible and in satisfactory condition.

5.5.4.2. Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity.

5.5.4.3. First aid kits, life rings and distress lights.

5.5.4.4. Distress signaling devices

5.5.5. Fire fighting equipment

5.5.5.1. Fire pump - test by subjecting fire hose(s) to fire pump pressure.

5.5.5.2. Portable fire extinguishers.

5.5.5.3. Fixed systems, e.g., C02 cylinders.

5.5.6. Steering apparatus

5.5.7. Miscellaneous systems and equipment

5.5.7.1. Harbor charts.

5.5.7.2. Ground tackle and mooring lines.

5.5.7.3. Whistle/fog horn, bell.

5.5.7.4. Lighted compass.

5.5.7.5. Radar.

5.5.7.6. 2-way radio capable of Bridge-to-Bridge communications.

5.5.7.7. Current license.

5.5.7.8. Operator qualifications.

5.6. Only approved boats shall be used in performance of this contract. The (LSC Inspector or Husbanding Services contractor, as appropriate) will provide each ship with a list of pre-approved boats. If the LSC Inspector or Husbanding Services contractor is not available for inspection and pre-

approval of the boats, then the only inspection requirement-is that contained in paragraph 4.7 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

5.7. Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

5.7.1. Safety of operations. Insure the following are present and in working condition:

5.7.1.1. Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.

5.7.1.2. Fire extinguishers sufficient for the size of the vessel operated.

5.7.1.3. Radio (with battery backup) capable of Bridge-to-Bridge communications.

5.7.1.4. Anchor/chain sufficiency for the size of the vessel operated.

5.7.1.5. Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

5.7.2. Hazards to passengers. Conduct topside visual inspection for safe conditions of the following:

5.7.2.1. Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

5.7.2.2. Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.

5.7.2.3. Ensure no bare or exposed electrical wires or connections are located in the passenger area.

5.7.2.4. Validate that sufficient unobstructed exits are present and marked in English.

5.7.2.5. Verify that no missile hazards, gear adrift, or trip hazards exist.

5.7.3. The following shall be conspicuously displayed, in English:

5.7.3.1. Passenger/weight capacity.

5.7.3.2. Location and number of life jackets.

5.7.3.3. Location of life saving equipment.

5.7.3.4. Locations of exits (if not obvious).

5.8. Critical safety equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or designated representative will have the option of furnishing the missing item. In all cases where government furnished property is provided due to the contractor's failure to meet requirements of the contract, the Contracting officer should be notified

immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting officer is not on site, notification will be by message.

5.9. If applicable, FAR 52.245-4, Government-furnished Property (short form) (APR 1984), is incorporated by reference into this (contract or purchase order, as appropriate).

6. Onboard Security: The ship being serviced may provide security personnel for the purpose of maintaining the orderly transportation of their personnel. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

7. Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

8. Deficient Boat - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price or termination of the contract for default.

9. Government Furnished Property - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contractor shall notify the KO and provide information about the circumstances surrounding the deficiency. If appropriate, a reduction in contract price may be made.

ATTACHMENT 8 - SANITARY INSP
REQUEST FOR SANITARY INSPECTION

SAMPLE LETTER REQUESTING SANITARY INSPECTION

(COMPANY LETTERHEAD)

Contracting Officer
FISC DETACHMENT SINGAPORE
PSA SEMBAWANG TERMINAL
DEPTFORD ROAD, BLDG 7-2
SINGAPORE 759657

Dear Sir:

We are interested in supplying (e.g. specify bread products or eggs) to the U.S. Navy ships calling at the Port of (insert name of port). It is understood that a U.S. Government sanitary inspection of our manufacturing plants and sources of raw materials must be conducted if they have not been previously approved prior to the award of any contract. We request, therefore, that a sanitary inspection be arranged for the following sources:

NAME AND ADDRESS OF PLANT OR SOURCE	PERSON TO CONTACT AND TELEPHONE NUMBER	PRODUCT OR MATERIAL
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Sincerely,

LIST AND INFORMATION TO REQUEST FOR INITIAL INSPECTION

List of products for which approval is requested.
Establishment letterhead - four places.
Name of establishment owner.
Site area size - acres, square feet or square meters.
General description of the area surrounding the plant site.
Building description, i.e. material used in construction, age of building(s), size (in square feet or meters), and number of stories.
Drawing of floor plan of building(s) to include major production areas (for slaughterhoused and dairies only).

List of major processing equipment.
Sources of raw materials.
Output of finished product - average kilograms or tons per day, per week or per month.
Special codes printed on product packages which identify the establishment, the product, and the date of production or packaging.
Number of employees.

Are employees receiving pre-employment or periodic medical examinations? What is the frequency of the periodic examinations?
Program for employee instruction personal hygiene, food, handling techniques, and food hygiene and safety.
Cleaning and sanitizing methods, including chemical used.
Detailed written cleaning and sanitizing program.
Official water quality certification from the local government, including total aerobic bacteria plate count, coliform count, and chemistry.
Name of water source.
Waste disposal program.
Pest control program.
Name of inspection agencies which inspect the plant (government and civilian) and frequency of inspections. Are inspection reports available for review?
Flow chart for the manufacture of each major category of products listed in No.1 above from raw materials to finished products health control points.
What laboratory examinations are performed on products and plants environment? Are the results available for review?
Total number of company vehicles?
Key personnel and point of contact for inspectors.
Direction to plant.

ATTACHMENT 9 - QA PROVISIONS

FISC DETACHMENT SINGAPORE

QUALITY ASSURANCE PROVISIONS
September 2006

SECTION I. GENERAL REQUIREMENTS

1. **SANITARILY APPROVED SOURCES:** All subsistence items shall be from approved sources as authorized, or exempted in NAVSUPINST 4335.4F/AR 40-657/AFR 161-32/MCO P10110.31G. Name and address of processing facility shall identify any subcontracting entities utilized other than the primary contractors. FISC DET Singapore has available approved source listings of authorized subsistence incorporated into VETCOM Circular 40-1, Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement (Hawaii and Pacific) and other regions maintained and published by HQ, US Army Veterinary Command, Fort Sam Houston, Texas (http://vets.amedd.army.mil/vetsvcs/approved.nsf). The U.S. Army Veterinary Representative, prior to commencing a contract/Blanket Purchase Agreement (BPA), shall inspect all required potential sources identified. Failing to pass inspection shall be grounds for not issuing a BPA and grounds for cancellation if the facility fails inspection after a BPA has commenced. This applies to all contractors and subcontractors. Documents cited here shall be provided to the contractor upon written request.

2. **DELIVERY VEHICLES:** The supplies delivered under this contract/BPA shall be transported in a sanitary enclosed/covered or open flatbed vehicle. Semiperishable items delivered in open flatbed vehicle shall be covered with a tarp to protect products from rain or foreign objects. Vehicles shall be equipped to maintain the appropriate temperature for the subsistence being delivered. Vehicles shall be maintained in a sanitary condition to prevent contamination of the food and shall be subject to inspection by the government at all reasonable times. Supplies submitted for acceptance in vehicles, which are not sanitary, may be rejected without further inspection. Concurrent transportation of bulk contained

pesticides, rodenticides, petroleum products, inedible products, household chemicals, or other caustic or volatile compounds are undesirable but occasionally necessary. When a carrier jointly transports subsistence and cleaning agents or hazardous products, the cleaning agents or hazardous products shall be segregated from the subsistence to the greatest extent. Segregated to the greatest extent means that all cleaning agents or hazardous products shall be unitized, loaded completely lower and horizontally from the subsistence to the maximum distance allowed by the physical configuration of the carrier. Shrink-wrap shall be used to secure items to pallets and provide stabilization.

3. **CODE DATING:** Master-shipping boxes shall be stamped or embossed with code dates, except Fresh Fruits and Vegetables, (FF&V). Coding must represent the date of slaughter, production, pasteurization, manufacture, or expiration/pull date. Open code shall have the date, month and year or Julian date, (last number of the year with the number of days). Closed code, such as letters and numbers, shall have an accompanying letter from the manufacturer explaining the code and shelf life.

4. **PACKAGING:** Standard commercial packaging is acceptable as long as it meets the re[illegible] agreement, product is protected from contamination, and quality is preserved. Products shal[illegible] returnable commercial containers that do not exceed 55 pounds or 25 kilograms per container. The use of a plastic shrink-wrap to secure items to the pallet shall be minimized.

5. **SHELF LIFE REQUIREMENTS:** Unless otherwise specified in this agreement, products shall be delivered with not less than one-half (1/2) or fifty percent (50%) of their guaranteed shelf life remaining. If the supplies delivered DO not have the minimum number of days of shelf life remaining as set forth in this agreement, the government shall have the right to reject and/or require replacement.

6. **TEMPERATURE REQUIREMENTS:** Unless otherwise specified in this agreement, all perishable products shall be delivered between 32°F-41°F (0°C-5°C) for chilled and 0°F (-18°C) or below for frozen. Temperatures shall be checked between the primary container and the outer container to reduce product damage. If a discrepancy is suspected, internal temperature shall be checked prior to rejection or acceptance of the products.

7. **REJECTED ITEM:** Any item recommended for rejection by the U.S. Army Veterinary Representative or receiving activity shall be annotated on the invoice or delivery receipt. The Contracting Officer Representative shall negotiate on price adjustment for quality or short shelf life defect as requested by receiving activity based on the U.S. Army Veterinary Representative inspection results. Replacements shall be coordinated with the Contracting Officer Representative as requested by the receiving activity.

8. **FOREIGN ORIGIN PRODUCTS:** Foreign establishments DO not have to be Directory listed if the prepackaged finished items they produce are imported by distributors or brokers into the continental United States, Hawaii or Alaska for sale to U.S. Armed Forces. This exemption Does not apply to establishments importing food directly into the U.S. territories of American Samoa, Guam, or the Mariana Islands without entering the continental United States, Hawaii or Alaska.

9. **CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD:** See Appendix B below.

SECTION II. QUALITY ASSURANCE PROVISIONS BY ITEM

1. **DAIRY PRODUCTS:**

a. Milk products shall be from approved sources and meet the raw, pasteurized, bacteriological and chemical requirements of the United States Public Health Service (USPHS) Publication 229 (Grade A Pasteurized Milk Ordinance). Frozen deserts and novelties shall be from approved sources in accordance with applicable military or local specifications or in the absence of applicable specifications, good manufacturing practice. Bacteriological and chemical testing may be accomplished at origin or destination. The U.S. Army Veterinary Representative shall submit non-conforming results to

the Contracting Officer and provide a copy furnished to the contractor with a letter of explanation. The letter shall inform the contractor that unreliable quality controls may result in suspending further deliveries in accordance with NAVSUPINST 4355.6A/AR 40-70. NAVSUPINST 4355.6/AR 40-70 sets forth the microbiological testing program and suspension procedures for dairy products.

b. Temperature on delivery: Fresh dairy products shall be delivered between 32°F and 41°F (0°C and 5°C). Frozen products shall be delivered at 0°F (-18°C) or below.

c. Cheese Related Products:

(1) Soft cheeses such, as mozzarella, natural provolone, cream cheese, and etc., shall be delivered between 32°F and 41°F (0°C and 5°C).

(2) Hard cheeses such as natural cheese, natural Swiss, Swiss and American processed cheddar and processed natural Swiss, etc., shall be delivered between 32°F and 50°F (0°C and 10°C).

2. **FRESH FRUITS AND VEGETABLES (FF&V): See Appendix A.**

a. All FF&V shall be freshest product available. FF&V shall have eye appeal and shall be a minimum of 90% free from quality defects and 100% free of decay or loss. The Contracting Officer Representative shall negotiate a downward price adjustment for quality defects based on the U.S. Army Veterinary Representative inspection results and confirmed by receiving activity.

b. FF&V shall be delivered in an enclosed vehicle, equipped to maintain the temperature required for the type of FF&V. Mixed loads of FF&V shall be between 35°F and 55 °F (2°C and 12°C).

c. FF&V such as bananas that are sensitive to ethylene oxide shall not be palletized and wrapped with items that are ethylene oxide producers such as apples. Plastic wrapped around the product inside the boxes shall be removed to allow air circulation.

d. Fresh mushrooms shall not be packaged airtight. Packages that are wrapped in plastic shall have air hole cut into plastic 1/8 inch in diameter or larger.

e. FF&V such as bananas, potatoes and onions that are sensitive to chill damage shall be delivered without refrigeration or not less than 56 °F (14°C). FF&V delivered in an open flatbed vehicle shall be protected with a tarp.

f. For repacked FF&V, the recycled boxes shall be clean and odorless; weigh not more than 45 pounds, (20 kilograms); labeled with the name and weight of the item on two adjacent sides of the box and legibly handwritten or printed.

3. **FROZEN MEAT AND POULTRY**

a. Unless otherwise requested, all frozen meat and poultry products must be USDA inspected or USDA certified. They must be listed in one of the following publications: "Meat and Poultry Inspection Directory", or "Directory of Sanitarily Approved Food Establishment for U.S. Armed Forces Procurement. ".

b. Temperature at delivery shall be 0°F (-18°C) or below. If the product is frozen to the point that a bimetallic thermometer cannot be pushed into the product and there does not appear to be significant surface thawing or crystallization the product shall be considered acceptable. These factors shall be considered due to the lack of proper equipment for drilling frozen item.

c. Age at delivery in the frozen state:

(1) Beef shall be delivered no more than 12 months after the date of pack.

(2) Poultry shall be delivered no more than 12 months after the date of pack.

(3) Pork shall be delivered no more than 12 months after the date of pack.

(4) Lamb and veal be delivered no more than 12 months after the date of pack.

NOTE: If the manufacture, slaughter or expiration date is stamped, not embossed on the box, the Health Certificate from origin shall be available for verification by the inspecting U.S. Army Veterinary Representative.

4. **FROZEN WATERFOODS:**

a. Temperature at delivery 0°F (-18°C) or below and shall be checked using the guidance reference previously in paragraph II.3.a.

b. Age at delivery in the frozen state:

(1) Seasonal packed items shall be delivered no more than 12 months after the date of pack.

(2) Oysters shall be delivered within 6 months of shucking/freezing.

(3) Shrimp shall be delivered within 180 days, of packaging/freezing.

c. General Guidance: All items shall be delivered in excellent condition, practically free of parasites, and show no evidence of mishandling.

5. **SHELL EGGS:**

a. Shell eggs shall be cleaned and free of damage (broken, cracked, leaker, etc.,). The U.S. Army Veterinary Representative shall recommend rejection of eggs with excessive dirt or feces.

NOTE: A small quantity of dirt is allowed on eggs delivered from plants that are only approved for unwashed eggs, small defined as having relatively little size or slight dimension.

b. Fresh shell eggs delivered directly from the farms within 48 hours of production may be delivered in unrefrigerated vehicles that are covered. The vehicles must meet all the requirements listed in Section I, par. 2. Boxes shall be marked with the date of production with the vendor's name and address.

c. Chilled fresh shell eggs that are procured from food distributors shall be delivered in refrigerated vehicles and shall be delivered within 15 days from the date of packaging. Internal temperature of eggs at delivery must be 41°F (5°C) or below.

6. **BAKERY PRODUCTS:**

a. Commercial labeling and/or coding shall be acceptable provided that the day or date of baking and packaging can be easily determined.

b. Bakery products shall be delivered within 48 hours from the date of production. Frozen bakery products shall be delivered within 6 months from the date of production, (SL 12 months), and in a refrigerated truck with a temperature of 0°F (-18°C).

SECTION III. SPECIFIED ANCHORAGE DELIVERIES

1. Due to the special circumstances associated with anchorage deliveries, the following exceptions are authorized, but shall not relieve the contractor or the BPA holder of any other requirements in the Quality Assurance Provisions unless specifically listed below:

a. Dairy products may be delivered in non-refrigerated containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. When a refrigerated unit is not used, the dairy products shall be packed in special containers that hold multiple units of product (bi-wall/tri-wall boxes), with dry ice based on the product weight to maintain internal temperature of 41°F (5°C). The special container shall be packed to allow air circulation within. Dairy products shall be given the highest priority for loading/off-loading upon receipt.

b. FF&V may be delivered in unrefrigerated containers in the most expeditious manner to ensure the least amount of exposure to high temperatures.

c. Miscellaneous frozen products may be delivered in non-freezer containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. Frozen items shall be packed with dry ice based on the product weight to maintain frozen state. The special container shall be packed to allow air circulation within. Although slight temperature deviations may occur, proper packaging and sufficient quantities of dry ice shall preclude excessive temperature deviations and thawing. Any item showing sign of thawing shall be rejected.

2. Although special considerations are authorized in anchorage deliveries, no exceptions have been authorized or shall be accepted for reduced sanitary standards, including the sanitation of the vehicles, boats, and shipping containers. The reuse of containers to transport products with dry ice is authorized as long as the container is sanitary and serviceable.

3. No deviations to these Quality Assurance Provisions are authorized without prior written approval from the Contracting Officer and U.S. Army Veterinary Representative. Deviations shall be granted prior to quotes being accepted and only for the particular delivery in question.

APPENDIX A, PERISHABLE FOODS, TO ATTACHMENT 12 (QA PROVISIONS)

The following are requirements that apply to this contract:

PERISHABLE SUBSISTENCE COMPATABILITY GROUPS
(Extracted From DLAM 4145.12/ TM 38-400, April 1994)

Group 1

Temperature: 32° to 34°F (1° to 1°C).
Relative humidity: 90 to 95 percent.
Atmosphere: Normally used on berries and cherries only -10 to 20 percent CO_2.
Ice: Never in contact with commodity.

Note: Most members of this group not compatible with Group 6a or 6b because ethylene production by Group 1 can be high, and thus harmful to members of Group 6a or 6b.

Apples (except those varieties listed in Group 3)
Apricots
Berries (except cranberries) Cherries.
Figs (not with apples, danger of odor transfer to figs; also see Group 6a)
Grapes (not fumigated with surfer dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages).
Peaches
Pears
Persimmons Plums and Pomegranates
Quinces

Group 2

Temperature: 55° to 65°F(13° to 18°C)
Relative humidity: 85 to 95 percent.
Ice: Never in contact with commodity.
Avocados
Bananas
Eggplant {also see Group 5)
Grapefruit [1]
Guava
Limes
Mangoes
Muskmelons, other than cantaloupes
Casaba
Crenshaw
Honey Dew
Persian
Olive, fresh
Papayas
Pineapples {not with avocados, danger of avocados' odor absorption)
Tomatoes, green
Tomatoes, pink {also see Group 4)
Watermelons (also see Group 4 and 5)

Group 3

Temperature: 36° to 41°F (2°to 5°C).
Relative humidity: 90 to 95 percent: cantaloupes about 95 percent.
Ice: In contact with cantaloupes.
Apples (Grimes Golden and Jonathan (both, certain areas), Yellow Newton (California) and Mclntosh
Cantaloupes
Cranberries
Lemons [1] (use 50 to 55°F for more than a month)
Lychees (also see Group 4)
Oranges 1(Florida or Texas)
Tangerines

Group 4

Temperature: 40° to 45°F (4° to 7°C): beans 38° to 42°F (3° to 6°C).
Relative humidi1y: About 95 percent
Ice: Never in contact with commodity.
Beans snap
Lychees (also see Group 3)
Okra
Oranges [1] (California or Arizona)
Pepper; green (not with beans)
Pepper, red (if with green peppers, temperature adjusted toward top of range)
Squash, summer
Tomatoes, pink (also see Group 2)
Watermelons (also see Groups 2 and 5)

Group 5

Temperature: 50° to 55°F (10° to 13°C): ginger not below 55°F.
Relative humidity: 85 to 90 percent.
Ice: Never in contact with commodity.
Cucumbers
Eggplant (also see Group 2)
Ginger (not with eggplant, also see Group 7)
Potatoes (late crop)
Pumpkin and Squashes, winter
Watermelon (temperature adjusted for other members of the group; also see Groups 2 and 4),

Group 6a

This group, except for figs, grapes and mushrooms, is compatible with Group 6b
Temperature: 32° to34°F (0° to 1°C)
Relative humidity: 95 to 100 percent.
Ice: Never in contact with asparagus, figs, grapes, and mushrooms
Artichokes
Asparagus
Beefs, red
Endive and escarole
Figs (also see Group 1)
Grapes (not furnished with sulfur dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages)
Greens
Leek (not with figs or grapes)
Lettuce
Mushrooms
Parsley
Parsnips
Peas
Rhubarb
Salsity
Spinach
Sweet Corn
Watercress

Group 6b

This group is compatible with Group 6a, except for figs, grapes and mushrooms.
Temperature: 13°to 13°F (0° to l°C)
Relative humidity: 95 to 100 percent
Ice: Contact acceptable for all
Broccoli
Brussels sprouts
Cabbage
Cauliflower
Celeriac
Celery
Horseradish Kohlrabi
Onions green (not with rhubarb. Figs, or grapes; probably not with mushrooms or sweet corn)
Radishes
Rutabagas
Turnips

Group 7

Temperature: 5° to 65°F (13° to 18°C)
Relative humidity: 85 to 90 percent.
Ice: never In contact with commodity.
Ginger (also see Group 5)
Potatoes, early crop (temperatures adjusted for others)
Sweet Potatoes

Group 8

Temperature: 32°to 34°F (0° to 13°C)
Relative humidity: 65 to 70 percent.
Ice: never in contact with commodity.
Garlic
Onions dry

[1] Citrus fruits -Biphenyl fungicide may impart off odors to other commodities

The above information was extracted from Lipton, W.J. and J. M. Harvey, Compatibility of Fruits and Vegetables During Transport in Mixed loads, US Department of Agriculture Research Service, ARS51- 48 (September 1972).

Appendix B - CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD

Microbiological criteria for dairy products[1,2]				
Product(s)	Standard Plate Count (SPC) (See notes 3&4)	Coliform count (See note 4)	combined yeast and mold count (See note 4)	Preliminary incubation count (See note 5)

Aseptically processed and packaged Milk and milk products	0 per ml (See notes 6&7)	0 per ml (See note 6)	0 per ml (See note 6)
Buttermilk and acidophilus milk		10 per gram	
Cottage cheese		10 per gram	10 per gram
Cream, sour cultured		10 per gram	10 per gram
Grade A pasteurized milk and milk products	20,000 per ml	10 per ml	200,000 per ml
Ice cream products, flavored, fruit and / or nuts	50,000 per gram	20 per gram	
Ice cream products, vanilla and plain flavored	50,000 per gram	10 per gram	
Frozen dessert mix:			
Vanilla flavor	50,000 per gram	10 per gram	10 per gram
other flavors	50,000 per gram	20 per gram	10 per gram
Yogurt, chilled		10 per gram	
Yogurt, frozen, plain		10 per gram	
Yogurt, frozen, flavored		20 per gram	
Yogurt, soft serve mix		10 per gram	

Notes:

1. Phosphates as specified in the PMO.
2. Products shall be free of antibiotic or pesticide residues or below the action levels established for such residues by the applicable Federal Regulatory Agency. Antibiotic residue testing shall be by the method described in the PMO. Examinations and test to detect adulterants, including pesticides, shall be conducted by methods recognized by the applicable Federal regulatory agency.
3. Not applicable to cultured products.
4. All counts are maximum allowed standards.
5. Samples must be received within 72 hrs of pasteurization. Preliminary incubation test is used as a determination of keeping quality.
6. Nonconformance's will be considered an imminent health hazard.
7. Either aerobic or anaerobic SPC.

Microbiological criteria for Environmental Swabs[1,2]

	Aerobic Plate Count (APC)	Coliform Count
ATP (RLU) Counts		
Environmental swab See Note 3	100 per 50 sq cm	10 per 50 sq cm

Notes:

1. Microbiological counts can be used as an index for evaluating the sanitation status of processing equipment and the facility.
2. All counts are maximum recommended limits.
3. Relative Light Units (RLU) are directly correlated to log cfu/sq cm . RLU maximum tolerances are dependent upon the manufacturer of the ATP bioluminescence reader. Follow manufacturer's instructions for RLU limits.

Microbiological criteria for Fish, fresh or frozen, including shellfish		
Counts[4]	m	M
Aerobic Plate Count (APC)	5,000 per gram	1,000,000 per gram
E. coli	10 per gram	500 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Vibrio parahaemolyticus [1]	10 per gram	100 per gram
Vibrio vulnificus[2,3]	Zero (0) Tolerance	
Salmonella[2]	Zero (0) Tolerance	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Used for oysters and fish designed to be consumed raw.
2. No viable pathogen in a 25 gram sample.
3. Limit is established as non-detectable depending on method used and detection limit.
4. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Fruit Juice, Fresh or Frozen				
	Standard Plate Count (SPC) [3]		Coliform count	Combined Yeast and Mold count
Product(s)	m	M		
Aseptically processed juice[1]	0		0	0
Pasteurized Juice[2]		20,000 per ml	20 per ml	200 per ml
Non-Pasteurized Juice[4]	50,000 per ml	100,000 per ml		

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Must be labeled as aseptically processed and process must be verified.
2. Must be labeled as pasteurized.
3. Plate count limits for juices, except for aseptically processed juice, are used as a quality indicator and may assist in determining keeping quality and/or shelf life.
4. Non-pasteurized juice is not approved for US Armed Forces Procurement.

Microbiological criteria for Kimchee [1,3,4]		
Counts [9]	m	M
Coliform (MPN)	10 per gram	
Clostridium perfringens	100 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Pseudomonas ssp [7]	200 per gram	
Streptococcus ssp [7]	10 per gram	
Listeria monocytogenes[8]	0	
Salmonella ssp[2,8]	0	
Vibrio ssp[5,8]	0	
Salt %	$\geq$ 2.5/wt	$\leq$ 3.5/wt
pH	$\geq$ 4.2	$\leq$ 4.7
Polygalacturonase [6]	Negative	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Products containing monosodium glutamate (MSG), nuts or nut oils must be labeled appropriately to reflect potential allergenic contents.
2. Only for varieties containing meat or poultry, sprouts, watercress or melon.
3. Varieties of Kimchee include, but are not limited to: Vegetables: winter, spring, cucumber, wrapped, Yolma, Chang, radish (Nabak), white (Pak), western-cabbage, pony-tail radish (Chonggak), eggplant, green onion, pumpkin, spinach, leek, green pepper; Chanachi: radish, green pepper, cucumber, garlic cabbage; Kaktagi: radish, radish and oyster Kaktuki; Tong Chimi;: radish tongchimi; Shikhae: chicken, andong, Alaskan Pollock shikhae.
4. All Kimchee products must be delivered and stored refrigerated with a definitive shelf life marked on each container.
5. Only for varieties containing fish or seafood ingredients.
6. Polyglacturonase activity is an indicator of overripening and spoilage, inferring the possible presence of Bacillus subtilus, Saccaromyces fragilis, Candida pseudotropicalis, Oospora lactis, Asperfillus ssp., and Penicillium ssp.

7. Excessive acidification may be due to high counts of these organisms; this is an indicator of very poor quality product.
8. Zero tolerance pathogens.
9. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Retail Ground Beef, Beef Trimmings, Ground Pork , Poultry (Chilled or Frozen)		
Counts	m	M
Aerobic Plate Count (APC)	100,000 per gram	1,000,000 per gram
Fecal Coliform	50 per gram	500 per gram
Total coliform	100 per gram	1,000 per gram
E. coli	10 per gram	< 110 per gram
Coagulase Positive Staph	<100 per gram	500 per gram
Salmonella species	Zero (0) Tolerance[1]	
E.coli O157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.

Microbiological limits for Sandwiches, Prepared Salads and Spreads, Bagged Salad, and Cut Vegetables [4]		
Counts[3]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli most probable number (MPN)	3 per gram[2]	10 per gram
Coliform (fecal)	10 per gram	100 per gram
Yeast and mold count	200 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Campylobacter jejuni	Zero (0) Tolerance[1]	
Salmonella species	Zero (0) Tolerance[1]	
Listeria moncytogenes	Zero (0) Tolerance[1]	
E. coli 0157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that "M" are of marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:

1. No viable pathogen in a 25 gram sample.
2. ≤ 10 per gram if using 3M Petri Film for E. coli counting.
3. Products may not be examined for all microbial characteristics as listed above. Contact laboratory if specific tests are required.
4. Tuna, chicken, ham and egg salads are tested the same, regardless whether on bread or submitted in tubs, buckets or other retail containers.

Microbiological criteria for Soft Serve Ice (cream) Milk and Soft Serve Yogurt at the retail/user level[2]		
Counts	m	M
Standard plat count [1]	50,000 per gram	250,000 per gram
Coliform	10 per gram	100 per gram
Combined Yeast & Mold		100 per gram

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
Standard Plate Count (SPC) does not apply to yogurt products.
Soft serve and Yogurt machines.

Microbiological limits for Tofu			
Counts[2]		m	M
Aerobic plate count (APC)		100,000 per gram	1,000,000 per gram coli (MPN)
<3 per gram	10 per gram		
Staphylococcus aureus		100 per gram	1000 per gram
Salmonella species[1]		Zero (0) Tolerance[1]	
Listeria moncytogenes[1]		Zero (0) Tolerance[1]	
Yersinia entercoliticus[1]		Zero (0) Tolerance[1]	

Legend:
m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. Products may not be examined for all microbial characteristics as listed above.

Microbiological and Chemical criteria for Bottled Water[1] and Vending Machine Water[2] and Ice

Counts	m	M
Coliform	0 per 100 ml	
Coliform (bottled water)	0 per 250ml	
Heterotrophic Plate Count [5]	1000 per ml	100,000 per ml
Pseudomonas aeruginosa	Zero (0) Tolerance	
Flouride[2]		
Arsenic[2]		
Trihalomethanes[2]		
Chlorine[2]		
Dissolved Solids[4]		
Silver [3]	None Detectable	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Bottled water is tested IAW the specific limits set forth by the Code of Federal Regulations (CFR) and current Environmental Protection Agency (EPA) regulations.
2. Vending machine water requirements are from the Association of Food and Drug Officials Model Code, 1997; Ice standards are derived from the International Packaged Ice Association. These are the minimum tests required for Vending Machine water.
3. Current published regulatory limits apply.
4. Only those machines utilizing silver impregnated carbon filters. Dissolved solids measurements are for vending machines labeled "Purified".
5. Ice and water derived from well water or surface water sources marketed at retail have higher allowable HPC limits. See current guidelines established in the CFR.

Microbiological criteria for Retail/User level Pre-packaged Deli and RTE Products[4]					
Product(s)	APC[3]	Listeria spp.[2]	Salmonella[2]	Coliform[2]	E.Coli O157:H7
Luncheon Meats, frankfurters, Beef, poultry & pork	Zero (0) Tolerance	Zero (0) Tolerance	10/g	Zero (0) Tolerance	
Cheese, soft and hard	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance	
Pasteurized, liquid, frozen or Dried egg	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance	
Pizza topping (meat & cheese)	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance	
Dried meats sticks, jerky [1]	Zero (0) Tolerance	Zero (0) Tolerance	10/g	Zero (0) Tolerance	

Notes:
1. Yeast and mold combined count should not exceed 100 /g.
2. No viable pathogen in a 25 gram sample. All counts are maximum allowable limits.
3. See Table Below for APC values in RTE Products.

4. Includes all like type/style products not otherwise listed.

Additional Microbiological limits for Commercial (Food Court Style) RTE Products[2,4]		
Counts	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli (MPN)	3 per gram [3]	10 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
E. coli 0157:H7[1]	Zero (0) Tolerance[1]	
Campylobacter jejuni	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. This table is primarily designed for hot food lines.
3. $\leq$ 10 per gram if using 3M Petri Film for E. coli counting.
4. Products may not be examined for all microbial characteristics when submitted. These values are primarily used when conducting food borne illness investigations and overall quality characteristics.

PART VI - Summary of Directory Listing Requirements

Federal Supply Class (*Note 1)	Listing Required	Listing Not Required
8905	All fish, meat, poultry, and shellfish, including:	Crabs, live.
(*Notes 2, 3)	Buffalo meat.	Crawfish, live.
	Fish, canned.	Fish, fresh or frozen, whole and/or eviscerated, head on or off, unscaled, unpackaged.
	Fish, fresh or fresh smoked, modified atmospheric packaged.	Lobster, live.
	Fish, fresh or frozen, packaged.	Shrimp, fresh or frozen, whole or head off.
	Herring, pickled.	
	Quail.	
	Rabbits.	
	Salmon, smoked.	
	Squid.	
8910	All dairy foods and eggs, including:	Chocolate drink mix, non-dairy.
(*Notes 4, 5)	Cream, sterilized.	Powdered dairy mixes.
	Creamer, coffee, dairy.	Toppings, non-dairy.
	Dairy soft serve mixes.	
	Desserts/puddings, frozen.	
	Egg nog, canned.	
	Egg substitutes.	
	Italian ices.	

	Topping, real cream.	
	Yogurt, fresh or frozen.	
8915	All pre-cut pre-packaged minimum processed fresh	All unprocessed fruits and
(*Note 7, 8)	fruits and vegetables.	vegetables.
	Kimchee.	Olives.
	Mushrooms, whole and sliced.	Fruit juices and nectars, shelf
	Salads, non-meat, with or without dressing	stable or frozen concentrate.
	(not USDA listed).	
	Vegetable sprouts.	
	Fruit juices and nectars, refrigerated.	
8920	Bakery and cereal products (baked and unbaked,	All other bakery products,
(*Notes 6, 9)	fresh and frozen), specifically:	including:
	Croissants.	Bagels.
	Doughnuts	Batter mix, dry.
	Egg roll wrappers.	Biscuits, canned.
	Flour and corn tortillas.	Breads, rolls, and buns.
	Wet pasta (noodles).	Cake mix, dry.
	Pastries.	Cakes, unfilled.
	Pies.	Cookie mix, chilled or dry.
	Soft pretzels.	Cookies, unfilled.
	Won ton wrappers.	Crackers.
	Filled bakery items.	Cupcakes, unfilled.
		Dough, frozen or chilled.
		Dumplings, frozen.
		English muffins.
		Flour.
		Fruitcakes.
		Melba toast.
		Muffins
		Pancake batter, frozen.
		Pancake/waffle mix.
		Pasta, dry (noodles).
		Pizza crust.
		Taco shells.
		Toaster pastries.
		Pie crusts, unfilled.
		Waffles, frozen.
8925		All confectionery, nuts, and sugars.
8930		All jams, jellies, and preserves.
8935		Bouillon and soups.
8940	Dietary foods and specialty preparations,	All other dietary and specialty
(*Notes 2, 3, 4, 5, 10)	specifically:	preparations, including:
	Fish, meat, poultry, dairy, egg, and shellfish	Baby formula, canned.
	products.	Chips, nacho or potato.
	Pickled eggs.	Creamer, coffee, imitation (non-
	Frozen dinners.	dairy).
	Pudding novelties, frozen or chilled.	Dips.
	Tofu.	Nacho cheese, canned.
		Nutri-why.
		Popcorn.
		Puddings, canned.
8945		Fats and food oils, including

		margarine
8950		All condiments and related products, including: Salad dressings. Mexican salsa)
8955		All cocoa, coffee, and tea.
8960	Beverages, nonalcoholic; specifically: Ice. Bottled water.	All other nonalcoholic beverages, including: Dry ice. Fruit drink mix containing no fruit juices.
8965		Non-MRE beverages, alcoholic.
8970 (*Note 2)	MRE food composite packages	Non-MRE composite food packages.
8975		All tobacco products.

*Notes:

1. For complete item listing within each class of the 8900 (subsistence) Federal Supply Class (FSC) Group, refer to Federal Supply Catalog C8900-SL, Stock List--FSC Group 89 Subsistence.
2. Meat and poultry establishments listed in the *USDA Meat and Poultry Inspection Directory* may serve as sources of meat and poultry items as indicated. These products must bear the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to meat or poultry inspection acts must also be Directory listed for those items.
3. Directory listing is not required for establishments on the Interstate Certified Shellfish Shippers List (ICSSL). Fish, fresh or fresh smoked, modified atmospheric packaged (when distributed in a chill state) must be Packed Under Federal Inspection (PUFI) by the USDC or listed specifically in this Directory. Establishments supplying other fish products must be Directory listed unless listed by the United States Department of Commerce (USDC) in the *USDC Approved List of Fish Establishments and Products.*
4. Directory listing is not required for shell egg sources listed in the *Directory of Grading Offices and Plants Operating Under USDA Poultry and Egg Grading Programs*. Establishments listed in the *USDA Meat and Poultry Inspection Directory* for dried or liquid/frozen egg products may serve as sources for those products, as coded.
5. Establishments having a pasteurized milk compliance rating of 90 percent or higher, certified by a State milk sanitation officer, and listed in the *Sanitation Compliance and Enforcement Rating of Interstate Milk Shippers (IMS) List* may serve as sources of milk and milk products, as listed. Listing in this Directory is mandatory to serve as a source of other milk and milk products and/or frozen dessert items. Establishments listed in the *Dairy Plants Surveyed and Approved for USDA Grading Service* may serve as sources of manufactured or processed dairy products as listed by product code. Those operations denoted with "P" codes (packaging and processing) must be Directory listed when providing ungraded manufactured or processed dairy products.
6. Directory listing is not normally required for semiperishable and nonanimal origin ingredient sources for items such as ready-to-eat bakery products and ice cream.
7. Establishments processing ready-to-eat, chilled, and prepared non-meat salads (such as potato, egg, tuna, chicken, turkey, ham, bean, macaroni, or cole slaw) must be Directory listed.
8. Only pasteurized juices are authorized for purchase by the DOD.
9. Directory listing for natural and artificial cream or fruit filled pie crusts, cakes, and cookies is not required if the finished item will not support pathogenic microbial growth.
10. Establishments producing finished products containing less than 3 percent by weight components of animal origin may be exempted from Directory listing by the command publishing this Directory.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
J	1 25

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO.(If applicable)
P00004	21-May-2008	N4034507RCSG0022	

6. ISSUED BY	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
U.S. FLEET AND INDUSTRIAL SUPPLY CENTER DET SINGAPORE BUILDING 7-4 PSA SEMBAWANG TERMINAL DEPTFORD ROAD SINGAPORE 759657	N40345	See Item 6	

8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		
GLENN DEFENSE MARINE (ASIA) PTE LTD MR. LEONARD FRANCIS 15D PANDAN ROAD SINGAPORE 609266		9A. AMENDMENT OF SOLICITATION NO.
		9B. DATED (SEE ITEM 11)
	X	10A. MOD. OF CONTRACT/ORDER NO. N40345-07-D-0003
	X	10B. DATED (SEE ITEM 13) 21-May-2007
CODE QB341	FACILITY CODE	

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

☐ A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

☐ B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).

☐ C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

X D. OTHER (Specify type of modification and authority)
MUTUAL AGREEMENT

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nyssns010817638
Admin changes to correct OOTW language.

1. The purpose this modification is to make administrative changes regarding schedule at Overview Page 2, and OOTW under tatement of Work on Page 13 of the contract. The changed sections are highlgihted in yellow. An updated conformed copy of the contractshall be included to reflect these changes.

2. There is no price increase as a result of these changes.

3. All other terms and conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)
		(b)(6), (b)(7)(C) CONTRACTING OFFICER TEL: (b)(6), (b)(7)(C)
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY (b)(6), (b)(7)(C)
(Signature of person authorized to sign)		(Signature of Contracting Officer)

16C. DATE SIGNED: 20-May-2008

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION B - SUPPLIES OR SERVICES AND PRICES

The following have been modified:
OVERVIEW
SECTION B1
OVERVIEW OF CONTRACT

1. OBJECTIVE

1.1. The objective of this contract is to obtain Husbanding Services for U.S. Navy ships and logistics support services required by U.S. Government organizations and agencies in all ports in Papua New Guinea.

1.2. Additionally, the husbanding contractor may be called upon to provide services and supplies in support of exercises and Operations Other Than War (OOTW) in Papua New Guinea.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in any port in Papua New Guinea.

2.2. The schedule of supplies/services and prices (See Exhibit A.) is sub-divided into lots. Lots may be for individual Ports or they may include several Ports under one (1) lot. For this contract CLINs 0001, 0002 and 0036 are for any port in Papua New Guinea. CLINs 0003 through 0034 prices are applicable to Port Moresby only.

2.3. The individual HS items provided under this contract are listed in Section B2, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.4. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.5. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT

3.1. This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services. This clause "DEFINITION OF THE CONTRACTUAL REQUIREMENT" complements the clause herein entitled "REQUIREMENTS (OCT 1995) (FAR 52.216-21)."

4. DURATION OF CONTRACT - This contract is for six (6) months commencing on 21 May 07. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 1.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- U.S. Government personnel conducting business in locations under this contract.
- Department of Defense (DoD) Chartered Ship: These ships usually have their own appointed agent. However, users of this contract are obligated to order the required services listed in the Schedule of Supplies and Services including any Force Protection. Services ordered are "all or none".

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.
- Ships operating outside the Command and control of the 7th Fleet, or other U.S. Navy Fleets.
- Whenever a fixed price product or service listed in this contract is available at a lower price under a port tariff.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of four (4) ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V HIGH-SPEED-INTERCEPTOR-CRAFT (HSIC) - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and Management fees will be based on the total fee for the pair of boats. Attachment 1 provides details.

10. LONG TERM SHIP VISITS –

10.1. For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The Contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

10.2. Unique/Particular Situations:

10.2.1. Frequent ship visits between ports: If a ship is frequently visiting two or more ports, it will be charged the first day rate for the first day in each port. If the ship returns to one of the ports within three (3) days (i.e. prior to the fourth calendar day), subsequent visits to that port will be charged at the subsequent day rate. On the fourth day or subsequent day, the ship will be charged the first day rate (example: If the ship departs Friday and comes back before Tuesday, it will be charged subsequent day fees. If the ship comes back on Tuesday, it will be charged the first day rate).

10.2.2. If a ship comes into port and does not notify the Contractor or request any assistance, there will be no fees (e.g. if just dropping off passengers). If vessels request assistance of any kind, they will be charged first or subsequent days, subject to the conditions in paragraph 10.2.1. above.

10.3. Hazardous Material Disposal (HAZMAT)/Shipboard Generated Industrial Waste (SGIW): The Contractor shall not dispose/offload any hazardous waste requirements unless approval has been provided by the appropriate Navy Environmental office. Currently the only authorized locations approved to offload HAZMAT are Apra Harbor, Guam; Yokosuka, Japan; Sasebo, Japan; Hong Kong, China SAR and Singapore.

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL - Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. ORDERING

13.1. Ordering Items on Contract: Only Authorized Government Representatives (AGR) can place orders against this contract. AGRs for this contract are:

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Detachment Singapore warranted KO or their authorized representative.

13.2. Short Notice Orders: Occasionally, there may be short notice orders of less than 48 hours, which the Contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

13.3. Substitutions: Substitution of ordered CLIN shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20 pax bus was ordered, but was not available and substituted with two 10 pax vans. The Contractor will only be able to charge for one 20 pax bus, not two 10 pax vans. If the requiring activity and AGR agree to rates of the substituted CLINs, then it is not considered to be substitution but a change to the requirement.

13.4. Cancellation of Orders:

13.4.1. Unless otherwise provided herein, in the event an order is cancelled at least 48 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not cancelled at least 48 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled “Termination for the Government’s Convenience (FAR 52.212-4)”, of the clause entitled “CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS” as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

13.4.2. In rare cases, when ordering of items requires long lead times, the Government may negotiate cost reimbursement under the Termination for the Government’s Convenience clause as stated above.

13.4.3. In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

14. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English. All electronic communication between visiting vessels and contractor shall be copied to FISC Detachment Singapore Contracting Officer and Logistic Support Representative. This is to ensure oversight and assistance to either party as required.

15. STANDARDS FOR PROFESSIONAL SERVICES

15.1. The Contractor shall bring to the Navy the highest level of commitment to customer satisfaction including the timely delivery of goods and services at fair and reasonable prices to ships making port visits; continuous oversight of costs and performance throughout the areas covered by this contract; and, meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. To this end, the Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning cost and performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Services Officers and the U.S. Government.

15.2. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

15.3. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

15.4. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

15.5. The Contractor will ensure that subcontractors comply with these requirements.

16. HEIGHTENED VIGILANCE

16.1. The Contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The Contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16.2. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided must be in sound mechanical condition, be in compliance with local laws and specifications, meet all local safety standards, and have all required current certifications and insurance.

18. GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM) – In the event that the contractor is required to use government equipment, the Contractor shall be responsible for all loss or damage to, or the destruction of, Government property in its possession. The Contractor shall not be responsible for damage due solely to normal wear and tear.

19. CONTRACT PRICING

19.1. Contract Currency - All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor perform during normal working hours, overtime for work performed outside normal working hours, weekend hours, holidays, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit. The Contractor shall only charge for actual usage while the vessel is in port.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging - All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs). Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations - Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage - Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINs that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

CHT Collection, Holding Transfer Sewage Removal and Disposal
CU M Cubic Meter
DAO Defense Attaché Officer
DY Day

EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
IDD	International Direct Dialing
JB	Job
LO	Lot
M	Meter
MIN	Minimum
NSP	Not Separately Priced
OOTW	Operations Other Than War
PAX	Passenger
PK	Package
PT	Port Tariff
QTY	Quantity
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional Yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 2 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL (GFE/GFM): Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Host Nation Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. The U.S. Government is usually exempt from host nation Government Taxes.

- HOST NATION (HN): The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION (MOB & DEMOB):

  - Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

  - Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPARATELY PRICED (NSP): Item that is not separately priced. The CLIN for CRAFT should be factored into the Management Fee. The NSP CLIN is used to administratively order any unpriced items in accordance with the pricing rationale in paragraph refer to Section C (SOW), Arranging Supply and Services.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, picket boats, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract. A "Reserved" item is an item that can be ordered when required but currently not available.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- TRASH: See Attachment 2 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS	(b)(6), (b)(7)(C)
Title of Individual:	MANAGING DIRECTOR	
Mailing Address:	15D PANDAN ROAD SINGAPORE 609266	15D PANDAN ROAD SINGAPORE 609266
Tel No. (Work):	(65) 62727937	(b)(6), (b)(7)(C)
Fax No. (Work)	(65) 62707240	
Mobile No:	(65) 9798-3155	
E-mail addresses:	Leonard@glennmarinegroup.com glenncom@glennmarinegroup.com	(b)(6), (b)(7)(C) glennmarinegroup.com glenncom@glennmarinegroup.com

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:
STATEMENT OF WORK
STATEMENT OF WORK (SOW)

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 1 – Classifications of Navy Ships)

1.1 PRE-ARRIVAL HUSBANDING DUTIES.

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. Pre-arrival CRAFT Cost Estimate - The Contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship and the Contracting Officer within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U. S. Defense Attaché’s Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the Contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide the SUPPO upon ship's arrival a copy of The Schedule and SOW, applicable port tariffs and current prices for frequently ordered services such as laundry services and vehicle rental.

1.2.6. Money Exchange Services:

1.2.6.1. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.6.2. The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. Exchange services onboard ship shall be made available to crewmembers at least two hours daily with buy back service on the day before the ship's departure. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate above.

1.2.7. Laundry Services:

1.2.7.1. The Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services:

1.2.8.1. All contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port.

1.2.8.2. The Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract or any other contract.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers Vietnam and Cambodia then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts. This service includes all necessary actions to facilitate the acceptance of supplies or services ordered under Government contracts. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Detachment Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the FISC Detachment Singapore prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a timely cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Detachment Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FF&V, Bread and Eggs) the Contractor shall use the SOWs furnished herein when arranging supplies and services.

In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than

$3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Detachment Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section B1, Overview, paragraph 15, Standards for Professional Service; sub-paragraph 15.1 and 15.2.

No later than 60 days after contract award, the Contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.4.1. When requested by the ship, the Husbanding Contractor shall assist in arranging for the timely provision of FF&V, Bread and Eggs and other subsistence items. FF&V shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. The Husbanding Services Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.4.2. In all cases where the total cost of FF&V and subsistence items received by a ship exceeds $10,000.00 for a port visit, the Contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Detachment Singapore within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the Contractor shall provide copies of all quotes obtained.

1.4.3. The Husbanding Contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided as Attachment 8.

1.4.4. Husbanding Contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the Contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.4.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

1.5. PRE-SAILING VISIT: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.5.1. The payment will be made by the ship prior to departure from the port. If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Officer, U.S. Navy Region Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury check. The Contractor must accept the U.S. Government commercial purchase card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is the Mastercard. If a ship uses a U.S. Government credit card, the ship shall

reimburse the Contractor any surcharge imposed by the financial institution processing the credit card transaction. The applicable credit card surcharge cannot exceed three (3) percent. Upon award of contract, the Contractor shall provide evidence furnished by theFinancial Institution of the credit card surcharge.

1.5.2. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.5.3. Copies of all invoices presented to the ship shall be provided to FISC Detachment Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.5.4. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

2. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 2) (CLIN XX36)

2.1. Operations Other Than War (OOTW), sometimes referred to as “contingencies”, are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

2.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word “exercise.”

2.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

2.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO’s).

2.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

2.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
2.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
2.5.3. current innoculation records
2.5.4. possess a valid up-to-date passport.

2.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The POC or his representative shall assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

2.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

2.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place additional fenders between the breasting barge and the ship when requested.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the Contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting thesubmarine deck. Also, the submarine brow must be capable of supporting shorepower cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The Contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with Section B1 - OVERVIEW of the contract section, paragraph 15, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. RESERVED - The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with chargers capable of using dual voltage. Each mobile phone provided shall include a spare battery and an operating manual/instruction with published rates for usage.

7.3. The Contractor shall provide activation, auto roaming, long distance accounts, and airtime for land and mobile hand phones.

7.4. The Contractor shall provide commercial telephone booth and sale of phone cards for personal use by crewmembers.

7.5. The Contractor shall provide pre-paid International Calling Cards for official use.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel (minimum two assistants), and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct Force Protection (FP) operations. The Contractor shall ensure that this area is kept clean during the ship visit in port.

12. FORCE PROTECTION (CLIN XX12)

12.1. General (CLINs XX01 & XX02): The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor must develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The Contractor must coordinate all aspects of FP planning and services with Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the Contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The Contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The Contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Detachment Singapore Contracting Officer. The Contractor must explain what the FP service will entail and why it is being required. The Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the Contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of five (5) people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The Contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 LB, CO_2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED - Floating Line of Demarcation (CLINs XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 3.

12.6. Perimeter Fencing (CLIN XX12AE)

12.6.1. The Contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is

designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AF THRU XX12AJ)

12.7.1. The Contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ship's arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AK)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations and specifications.

12.9. Portable Latrine (CLIN XX12AL)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AM)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards Services (CLINs XX12AN & XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guards (CLINs XX12AN and XX12AP) shall be armed.

12.11.4. Two Way Radios (CLIN XX12AQ) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals.

12.12. Hand Held Explosive Detectors (CLIN XX12AR) – The Contractor shall provide hand held explosive detectors capable of detecting explosives.

12.13. Hand Held Metal Detectors (CLIN XX12AS) – The Contractor shall provide hand held metal detectors capable of detecing metal.

12.14. Walk Thru X-Ray Machine (CLIN XX12AU) & Metal Detector (CLIN XX12AT) - The Contractor shall provide walk thru X-ray Machine & metal detector capable of X-raying hand carried luggage and bags to determine its contents, and also capable of detecting metal. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

13. FORKLIFT WITH OPERATOR (CLIN XX13) - The Contractor shall provide forklifts with operators for loading and unloading operations.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Navy bunkering contracts. However, if those sources are not available, then the HS Contractor may be required to assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Contractor shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC Detachment Singapore and request approval to proceed. Only after this is done, may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by theh port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide fuel in accordance with Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS (CLIN XX16) - The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED - MANLIFT (WITH OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with operator and a full fuel tank.

18.2. The Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled “SHIP’S SPARE IN TRANSIT”

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship’s arrival.

19.1.4. Shipping documents shall be labeled ‘SHIP’S SPARE(S) IN TRANSIT” and addressed to the ship’s Commanding Officer of the Unit and care of the Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the package to the shp after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative or FISC Detachment Singapore.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. MISCELLANEOUS

20.1. INTERPRETER SERVICES (CLIN XX20AA) - The Contractor shall arrange for interpreter/translator services necessary to assure timely delivery and performance of the supplies and services ordered by the SUPPO. The interpreter/translator shall be fluent in both spoken and written local language and English.

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed.

22.4. The Contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements.

23. RESERVED - PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide qualified pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the requesting ship in accordance with the current World Health Organization (WHO) Guidelines for drinking-water quality, located at http://www.who.int/water_sanitation_health/dwq/gdwq3rev/en/index.html, to the intake hose of the requesting ship suitable for showering, cooking and cleaning. Water availability shall be in accordance with the delivery schedule specified by the SUPPO. The ship shall test and determine acceptability of the water delivered.

26. SEAPORT QUARANTINE SERVICE (CLIN XX26) - The Contractor shall provide First Port of Entry Clearance with the local authorities.

27. RESERVED - REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED - SHORE POWER (CLIN XX28)

29. RESERVED – SHORE STEAM (CLIN XX29)

30. STEVEDORE SERVICES (CLI XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with qualified drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Detachment Singapore if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

33.4. If tugs are not available through the port authority e.g. the port of Madang, the Contractor shall use commercially available tugs.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 7 – Water Taxi Specifications.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO or FISC Detachment Singapore.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by the ship’s duty officer onboard. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit D - CRAFT.

35.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure.

36. OPERATIONS OTHER THAN WAR (OOTW)/CONTINGENCY OPERATIONS AND DISASTER RELIEF FEES (CLIN XX36) See paragraph 2 above also.

36.1. OOTW refers to a "Contingency operation" as that term is defined in FAR 2.101. In addition, for purposes of this contract, it refers to rescue and humanitarian relief missions, Non-combatant Evacuation Operations (NEO's), or an unplanned, real world deployment of troops for an indefinite period of time. The provisions of FAR Part 18, Emergency Acquisitions (effective 5 Jul 2006), apply in full to the OOTW requirements of this contract.

36.2. Logistics Support is defined as goods and services provided in a background framework to an operation. Logistics Support can take place in the immediate vicinity of the operation or a great distance away.

36.3. The Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a network familiar with the local political and commercial infrastructures, cultural and lingual background, and business practice. In order to assist the Navy's response to OOTW, the Contractor shall furnish personnel with the following qualifications:

36.3.1. Ability to speak the local language where OOTW is being conducted.
36.3.2. Capacity to travel to the OOTW or forward logistic site within 24 hours of notification.
36.3.3. Current inoculation records.
36.3.4. Possess a valid up-to-date passport.

36.4. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The POC or his representative shall assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.5. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the contractor's Husbanding fees and CLINS shall apply.

36.6. If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. The Contractor may be required to support multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.7. Regardless of location, OOTW support requests for other than the basic service under this CLIN for operations not associated with ships are exempt from the requirements portion of the contract.

36.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for Contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the husbanding Contractor shall make every effort to locate at least three sources and shall provide a copy of all documents to the Contracting Officer. In very unique time sensitive situations, the Contractor may be tasked to

source and provide a large variety of supplies and services on a very compressed delivery schedule in support of large scale operations like NEOs, etc or other real world events. In these unique situations, the requirement to document market research and source selections for supplies/services over $3000 is still mandatory.

36.9. An exercise is defined as a prearranged, preplanned evolution being conducted between the Government and a foreign nation for training or other purpose of a specified duration. The name of the event will generally, but may not always, include the word “exercise”. It includes training efforts and exercise-like activity in preparation for actual contingencies.

36.10. The Contractor shall provide exercise and logistics support in the same manner as is provided for OOTW support.

36.11. Disaster Relief is defined as emergency operations or preparedness to support civil society to cope with natural or man-made disasters. Disaster relief is concerned with recovery efforts.

36.12. The Contractor shall provide disaster relief support in the same manner as is provided for OOTW support.

37. OOTW COST REPORT (CLIN XX37)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

35.3. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship’s departure.

(End of Summary of Changes)

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION B - SUPPLIES OR SERVICES AND PRICES

The following have been modified:
OVERVIEW
SECTION B1
OVERVIEW OF CONTRACT

1. OBJECTIVE

1.1. The objective of this contract is to obtain Husbanding Services for U.S. Navy ships and logistics support services required by U.S. Government organizations and agencies in all ports in Papua New Guinea.

1.2. Additionally, the husbanding contractor may be called upon to provide services and supplies in support of exercises and Operations Other Than War (OOTW) in Papua New Guinea.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in any port in Papua New Guinea.

2.2. The schedule of supplies/services and prices (See Exhibit A.) is sub-divided into lots. Lots may be for individual Ports or they may include several Ports under one (1) lot. For this contract CLINs 0001, 0002 and 0036 are for any port in Papua New Guinea. CLINs 0003 through 0032 prices are applicable to Port Moresby only.

2.3. The individual HS items provided under this contract are listed in Section B2, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.4. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.5. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT

3.1. This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services. This clause "DEFINITION OF THE CONTRACTUAL REQUIREMENT" complements the clause herein entitled "REQUIREMENTS (OCT 1995) (FAR 52.216-21)."

4. DURATION OF CONTRACT - This contract is for six (6) months commencing on 21 May 07. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 1.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- U.S. Government personnel conducting business in locations under this contract.
- Department of Defense (DoD) Chartered Ship: These ships usually have their own appointed agent. However, users of this contract are obligated to order the required services listed in the Schedule of Supplies and Services including any Force Protection. Services ordered are "all or none".

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.
- Ships operating outside the Command and control of the 7th Fleet, or other U.S. Navy Fleets.
- Whenever a fixed price product or service listed in this contract is available at a lower price under a port tariff.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of four (4) ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V HIGH-SPEED-INTERCEPTOR-CRAFT (HSIC) - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and Management fees will be based on the total fee for the pair of boats. Attachment 1 provides details.

10. LONG TERM SHIP VISITS –

10.1. For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The Contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

10.2. Unique/Particular Situations:

10.2.1. Frequent ship visits between ports: If a ship is frequently visiting two or more ports, it will be charged the first day rate for the first day in each port. If the ship returns to one of the ports within three (3) days (i.e. prior to the fourth calendar day), subsequent visits to that port will be charged at the subsequent day rate. On the fourth day or subsequent day, the ship will be charged the first day rate (example: If the ship departs Friday and comes back before Tuesday, it will be charged subsequent day fees. If the ship comes back on Tuesday, it will be charged the first day rate).

10.2.2. If a ship comes into port and does not notify the Contractor or request any assistance, there will be no fees (e.g. if just dropping off passengers). If vessels request assistance of any kind, they will be charged first or subsequent days, subject to the conditions in paragraph 10.2.1. above.

10.3. Hazardous Material Disposal (HAZMAT)/Shipboard Generated Industrial Waste (SGIW): The Contractor shall not dispose/offload any hazardous waste requirements unless approval has been provided by the appropriate Navy Environmental office. Currently the only authorized locations approved to offload HAZMAT are Apra Harbor, Guam; Yokosuka, Japan; Sasebo, Japan; Hong Kong, China SAR and Singapore.

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL - Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. ORDERING

13.1. Ordering Items on Contract: Only Authorized Government Representatives (AGR) can place orders against this contract. AGRs for this contract are:

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Detachment Singapore warranted KO or their authorized representative.

13.2. Short Notice Orders: Occasionally, there may be short notice orders of less than 48 hours, which the Contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

13.3. Substitutions: Substitution of ordered CLIN shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20 pax bus was ordered, but was not available and substituted with two 10 pax vans. The Contractor will only be able to charge for one 20 pax bus, not two 10 pax vans. If the requiring activity and AGR agree to rates of the substituted CLINs, then it is not considered to be substitution but a change to the requirement.

13.4. Cancellation of Orders:

13.4.1. Unless otherwise provided herein, in the event an order is cancelled at least 48 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not cancelled at least 48 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled “Termination for the Government’s Convenience (FAR 52.212-4)”, of the clause entitled “CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS” as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

13.4.2. In rare cases, when ordering of items requires long lead times, the Government may negotiate cost reimbursement under the Termination for the Government’s Convenience clause as stated above.

13.4.3. In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

14. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English. All electronic communication between visiting vessels and contractor shall be copied to FISC Detachment Singapore Contracting Officer and Logistic Support Representative. This is to ensure oversight and assistance to either party as required.

15. STANDARDS FOR PROFESSIONAL SERVICES

15.1. The Contractor shall bring to the Navy the highest level of commitment to customer satisfaction including the timely delivery of goods and services at fair and reasonable prices to ships making port visits; continuous oversight of costs and performance throughout the areas covered by this contract; and, meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. To this end, the Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning cost and performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Services Officers and the U.S. Government.

15.2. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

15.3. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

15.4. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

15.5. The Contractor will ensure that subcontractors comply with these requirements.

16. HEIGHTENED VIGILANCE

16.1. The Contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The Contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The Contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16.2. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and Naval Criminal Investigative Service (NCIS) representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided must be in sound mechanical condition, be in compliance with local laws and specifications, meet all local safety standards, and have all required current certifications and insurance.

18. GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM) – In the event that the contractor is required to use government equipment, the Contractor shall be responsible for all loss or damage to, or the destruction of, Government property in its possession. The Contractor shall not be responsible for damage due solely to normal wear and tear.

19. CONTRACT PRICING

19.1. Contract Currency - All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor perform during normal working hours, overtime for work performed outside normal working hours, weekend hours, holidays, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit. The Contractor shall only charge for actual usage while the vessel is in port.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging - All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs). Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations - Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage - Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a Collection Holding Transfer (CHT) truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINs that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

CHT Collection, Holding Transfer Sewage Removal and Disposal
CU M Cubic Meter
DAO Defense Attaché Officer
DY Day

EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
IDD	International Direct Dialing
JB	Job
LO	Lot
M	Meter
MIN	Minimum
NSP	Not Separately Priced
OOTW	Operations Other Than War
PAX	Passenger
PK	Package
PT	Port Tariff
QTY	Quantity
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional Yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 2 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL (GFE/GFM): Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Host Nation Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. The U.S. Government is usually exempt from host nation Government Taxes.

- HOST NATION (HN): The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION (MOB & DEMOB):

  - Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

  - Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPARATELY PRICED (NSP): Item that is not separately priced. The CLIN for CRAFT should be factored into the Management Fee. The NSP CLIN is used to administratively order any unpriced items in accordance with the pricing rationale in paragraph refer to Section C (SOW), Arranging Supply and Services.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, picket boats, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract. A "Reserved" item is an item that can be ordered when required but currently not available.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- TRASH: See Attachment 2 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS	(b)(6), (b)(7)(C)
Title of Individual:	MANAGING DIRECTOR	
Mailing Address:	15D PANDAN ROAD SINGAPORE 609266	15D PANDAN ROAD SINGAPORE 609266
Tel No. (Work):	(65) 62727937	(b)(6), (b)(7)(C)
Fax No. (Work)	(65) 62707240	
Mobile No:	(65) 9798-3155	
E-mail addresses:	Leonard@glennmarinegroup.com glenncom@glennmarinegroup.com	(b)(6), (b)(7)(C)@glennmarinegroup.com glenncom@glennmarinegroup.com

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:
STATEMENT OF WORK
STATEMENT OF WORK (SOW)

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 1 – Classifications of Navy Ships)

1.1 PRE-ARRIVAL HUSBANDING DUTIES.

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. Pre-arrival CRAFT Cost Estimate - The Contractor shall furnish to each ship and FISC Detachment Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship and the Contracting Officer within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché at the U. S. Defense Attaché’s Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the Contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide the SUPPO upon ship's arrival a copy of The Schedule and SOW, applicable port tariffs and current prices for frequently ordered services such as laundry services and vehicle rental.

1.2.6. Money Exchange Services:

1.2.6.1. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.6.2. The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. Exchange services onboard ship shall be made available to crewmembers at least two hours daily with buy back service on the day before the ship's departure. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate above.

1.2.7. Laundry Services:

1.2.7.1. The Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services:

1.2.8.1. All contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port.

1.2.8.2. The Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract or any other contract.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers Vietnam and Cambodia then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate and pass orders, to include transmission via fax or e-mail, to other Contractors holding U.S. Government contracts. This service includes all necessary actions to facilitate the acceptance of supplies or services ordered under Government contracts. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Detachment Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the FISC Detachment Singapore prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a timely cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Detachment Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FF&V, Bread and Eggs) the Contractor shall use the SOWs furnished herein when arranging supplies and services.

In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than

$3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Detachment Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section B1, Overview, paragraph 15, Standards for Professional Service; sub-paragraph 15.1 and 15.2.

No later than 60 days after contract award, the Contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.4.1. When requested by the ship, the Husbanding Contractor shall assist in arranging for the timely provision of FF&V, Bread and Eggs and other subsistence items. FF&V shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. The Husbanding Services Contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.4.2. In all cases where the total cost of FF&V and subsistence items received by a ship exceeds $10,000.00 for a port visit, the Contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Detachment Singapore within ten (10) days after the visit. The report shall provide a breakdown of the FF&V and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the Contractor shall provide copies of all quotes obtained.

1.4.3. The Husbanding Contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Command Pacific. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided as Attachment 8.

1.4.4. Husbanding Contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the Contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.4.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

1.5. PRE-SAILING VISIT: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.5.1. The payment will be made by the ship prior to departure from the port. If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Officer, U.S. Navy Region Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury check. The Contractor must accept the U.S. Government commercial purchase card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is the Mastercard. If a ship uses a U.S. Government credit card, the ship shall

reimburse the Contractor any surcharge imposed by the financial institution processing the credit card transaction. The applicable credit card surcharge cannot exceed three (3) percent. Upon award of contract, the Contractor shall provide evidence furnished by theFinancial Institution of the credit card surcharge.

1.5.2. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.5.3. Copies of all invoices presented to the ship shall be provided to FISC Detachment Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.5.4. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

2. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 2) (CLIN XX36)

2.1. Operations Other Than War (OOTW), sometimes referred to as “contingencies”, are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

2.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word “exercise.”

2.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

2.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO’s).

2.5. The Navy's Husbanding Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the Contractor shall furnish personnel with the following qualifications:

2.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
2.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
2.5.3. current innoculation records
2.5.4. possess a valid up-to-date passport.

2.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor team shall consist of a minimum of two personnel per location that the OOTW and/or Exercise/ Logistic Support is being conducted. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

2.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the Contractor's Husbanding fees and CLINS shall apply.

2.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the Husbanding Contractor shall make every effort to locate at least three sources.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place additional fenders between the breasting barge and the ship when requested.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the Contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting thesubmarine deck. Also, the submarine brow must be capable of supporting shorepower cables without damaging the cable.

5. RESERVED - CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to contractor-provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The Contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with Section B1 - OVERVIEW of the contract section, paragraph 15, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. RESERVED - The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with chargers capable of using dual voltage. Each mobile phone provided shall include a spare battery and an operating manual/instruction with published rates for usage.

7.3. The Contractor shall provide activation, auto roaming, long distance accounts, and airtime for land and mobile hand phones.

7.4. The Contractor shall provide commercial telephone booth and sale of phone cards for personal use by crewmembers.

7.5. The Contractor shall provide pre-paid International Calling Cards for official use.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel (minimum two assistants), and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct Force Protection (FP) operations. The Contractor shall ensure that this area is kept clean during the ship visit in port.

12. FORCE PROTECTION (CLIN XX12)

12.1. General (CLINs XX01 & XX02): The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor must develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The Contractor must coordinate all aspects of FP planning and services with Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the Contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The Contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The Contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Detachment Singapore Contracting Officer. The Contractor must explain what the FP service will entail and why it is being required. The Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the Contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of five (5) people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The Contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 LB, CO_2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED - Floating Line of Demarcation (CLINs XX12AC and XX12AD)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 3.

12.6. Perimeter Fencing (CLIN XX12AE)

12.6.1. The Contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is

designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AF THRU XX12AJ)

12.7.1. The Contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ship's arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AK)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations and specifications.

12.9. Portable Latrine (CLIN XX12AL)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AM)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards Services (CLINs XX12AN & XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guards (CLINs XX12AN and XX12AP) shall be armed.

12.11.4. Two Way Radios (CLIN XX12AQ) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals.

12.12. Hand Held Explosive Detectors (CLIN XX12AR) – The Contractor shall provide hand held explosive detectors capable of detecting explosives.

12.13. Hand Held Metal Detectors (CLIN XX12AS) – The Contractor shall provide hand held metal detectors capable of detecing metal.

12.14. Walk Thru X-Ray Machine (CLIN XX12AU) & Metal Detector (CLIN XX12AT) - The Contractor shall provide walk thru X-ray Machine & metal detector capable of X-raying hand carried luggage and bags to determine its contents, and also capable of detecting metal. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

13. FORKLIFT WITH OPERATOR (CLIN XX13) - The Contractor shall provide forklifts with operators for loading and unloading operations.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Navy bunkering contracts. However, if those sources are not available, then the HS Contractor may be required to assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Contractor shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC Detachment Singapore and request approval to proceed. Only after this is done, may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by theh port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide fuel in accordance with Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED - LINESBOATS (CLIN XX16) - The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED - MANLIFT (WITH OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with operator and a full fuel tank.

18.2. The Contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 HR each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled “SHIP’S SPARE IN TRANSIT”

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship’s arrival.

19.1.4. Shipping documents shall be labeled ‘SHIP’S SPARE(S) IN TRANSIT” and addressed to the ship’s Commanding Officer of the Unit and care of the Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the package to the shp after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative or FISC Detachment Singapore.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. MISCELLANEOUS

20.1. INTERPRETER SERVICES (CLIN XX20AA) - The Contractor shall arrange for interpreter/translator services necessary to assure timely delivery and performance of the supplies and services ordered by the SUPPO. The interpreter/translator shall be fluent in both spoken and written local language and English.

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed.

22.4. The Contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements.

23. RESERVED - PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide qualified pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the requesting ship in accordance with the current World Health Organization (WHO) Guidelines for drinking-water quality, located at http://www.who.int/water_sanitation_health/dwq/gdwq3rev/en/index.html, to the intake hose of the requesting ship suitable for showering, cooking and cleaning. Water availability shall be in accordance with the delivery schedule specified by the SUPPO. The ship shall test and determine acceptability of the water delivered.

26. SEAPORT QUARANTINE SERVICE (CLIN XX26) - The Contractor shall provide First Port of Entry Clearance with the local authorities.

27. RESERVED - REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED - SHORE POWER (CLIN XX28)

29. RESERVED – SHORE STEAM (CLIN XX29)

30. STEVEDORE SERVICES (CLI XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with qualified drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Detachment Singapore if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

33.4. If tugs are not available through the port authority e.g. the port of Madang, the Contractor shall use commercially available tugs.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 7 – Water Taxi Specifications.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO or FISC Detachment Singapore.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by the ship’s duty officer onboard. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit D - CRAFT.

35.2. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship's departure.

36. OPERATIONS OTHER THAN WAR (OOTW)/CONTINGENCY OPERATIONS AND DISASTER RELIEF FEES (CLIN XX36) See paragraph 2 above also.

36.1. OOTW refers to a "Contingency operation" as that term is defined in FAR 2.101. In addition, for purposes of this contract, it refers to rescue and humanitarian relief missions, Non-combatant Evacuation Operations (NEO's), or an unplanned, real world deployment of troops for an indefinite period of time. The provisions of FAR Part 18, Emergency Acquisitions (effective 5 Jul 2006), apply in full to the OOTW requirements of this contract.

36.2. Logistics Support is defined as goods and services provided in a background framework to an operation. Logistics Support can take place in the immediate vicinity of the operation or a great distance away.

36.3. The Contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a network familiar with the local political and commercial infrastructures, cultural and lingual background, and business practice. In order to assist the Navy's response to OOTW, the Contractor shall furnish personnel with the following qualifications:

36.3.1. Ability to speak the local language where OOTW is being conducted.
36.3.2. Capacity to travel to the OOTW or forward logistic site within 24 hours of notification.
36.3.3. Current inoculation records.
36.3.4. Possess a valid up-to-date passport.

36.4. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. The POC or his representative shall assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The Contractor shall ensure that sufficient personnel are available at each support location to effectively perform all necessary tasks. If there are multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

36.5. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the contractor's Husbanding fees and CLINS shall apply.

36.6. If an advance party arrives in a country for OOTW, the Contractor shall bill at the OOTW subsequent day rate. If the operation is on going, the Contractor shall bill the OOTW first day rate and then subsequent days. The Contractor may be required to support multiple operations at same time, or a single operation at multiple locations, the Contractor may bill for each operation/location for which the Contractor's services are ordered.

36.7. Regardless of location, OOTW support requests for other than the basic service under this CLIN for operations not associated with ships are exempt from the requirements portion of the contract.

36.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for Contractor reference in Exhibit C. The Contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for these items at the time of placing the order. In conducting market research for requirements over $3,000, the husbanding Contractor shall make every effort to locate at least three sources and shall provide a copy of all documents to the Contracting Officer. In very unique time sensitive situations, the Contractor may be tasked to

source and provide a large variety of supplies and services on a very compressed delivery schedule in support of large scale operations like NEOs, etc or other real world events. In these unique situations, the requirement to document market research and source selections for supplies/services over $3000 is still mandatory.

36.9. An exercise is defined as a prearranged, preplanned evolution being conducted between the Government and a foreign nation for training or other purpose of a specified duration. The name of the event will generally, but may not always, include the word “exercise”. It includes training efforts and exercise-like activity in preparation for actual contingencies.

36.10. The Contractor shall provide exercise and logistics support in the same manner as is provided for OOTW support.

36.11. Disaster Relief is defined as emergency operations or preparedness to support civil society to cope with natural or man-made disasters. Disaster relief is concerned with recovery efforts.

36.12. The Contractor shall provide disaster relief support in the same manner as is provided for OOTW support.

37. OOTW COST REPORT (CLIN XX37)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for OOTW or each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The sample report format is provided in Exhibit D – CRAFT.

35.3. The report shall be submitted to FISC Detachment Singapore Contracting Officer or FISC Detachment Singapore within seven (7) working days of each ship’s departure.

Section C - Descriptions and Specifications

OVERVIEW SECTION III
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services for U.S. Navy Ships visiting the Philippines.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in the Philippines. It is to provide services and supplies requested by the ships while in port.

2.2. This contract also includes logistic support services and supplies for Operations Other Than War (OOTW) required by other U.S. Government organizations or agencies. Examples include U.S. Marine Corps, U.S. Army, U.S. Air Force, Military Sealift Command (MSC), NFAF Fleet, U.S. Coast Guard, etc.

2.3. The contract may be subdivided into Lots. Lots may be for individual Ports or they may include several Ports under one Lot. For this contract, Lot 1 is for Manila, Lot 2 is for Subic Bay, Lot 3 is for Cebu, Lot 4 is for All Other ports in Philippines and Lot 5 is for Operations Other Than War (OOTW) in the country.

2.4. The individual HS items provided under this contract are listed in Exhibit A, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.5. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.6. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for six (6) months. Additionally, the contract will include FAR52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S.ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

Military Sealift Command Ships (USNS)
U.S. Coast Guard (USCG) Ships
U.S. Army Ships
Department of Defense (DOD) Chartered Ships
U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

During U.S. Military Exercises or Operations.

When Host Nation provided support is available.
When U.S. Government owned supplies or services are available.
When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously husband a maximum of six (6) ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels shall only be charged Class IA Management Fees as stated in the schedule. Attachment 2 provides details – Classification of Navy Ships.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management husbanding services and are for items such as vehicles, phones or other services.

13. ORDERING

13.1. Ordering Items on Contract: Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are:

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Det Singapore warranted KO or their authorized representative.

13.2. Short Notice Orders: Occasionally, there may be short notice orders of less than 48 hours, which the contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

13.3. Substitutions: Substitution of ordered CLIN shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20 pax bus was ordered, but was not available and substituted with two 10 pax vans. The Contractor will only be able to charge for one 20 pax bus not two 10 pax vans. If the requiring

activity and AGR agree to rates of the substituted CLINs, then it is not considered to be substitution but a change to the requirement.

13.4. Cancellation of Orders:

13.4.1. Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the cntrct clause titled "Termination for the Government's Convenience (FAR 52.212-4)", as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

13.4.2. In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government's Convenience clause as stated above.

13.4.3. In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

14. CORRESPONDENCE IN ENGLISH - All correspondence will be in English. All electronic communication between visiting vessels and contractor shall be copied to FISC Det Singapore Contracting Officer and Logistic Support Representative. This is to ensure oversight and assistance to either party as required.

15. STANDARDS FOR PROFESSIONAL SERVICES

15.1. The Contractor shall bring to the Navy the highest level of commitment to customer satisfaction including the timely delivery of goods and services at fair and reasonable prices to ships making port visits; continuous oversight of costs and performance throughout the areas covered by this contract; and, meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. To this end, the Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning cost and performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Services Officers and the U.S. Government.

15.2. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

15.3. The Contractor shall be responsible for obtaining any necessary insurance, licenses, permits, accreditations, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

15.4. The Contractor shall ensure that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

15.5. The Contractor will ensure that subcontractors comply with these requirements.

16. HEIGHTENED VIGILANCE

16.1. The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16.2. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED - (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM)

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit. The Contractor shall only charge for actual usage while the vessel is in port.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All Philippine Government Taxes are included in the unit cost when applicable.

19.3. Port Tariff (PT) or other controlled prices – (See Exhibit B – Port Tariff Costs) Items listed as PT for Port Authority or other government type organizations will be paid at the current published rates. For example, if the port provides items such as Tugs, Line Handlers, Brows, Landline telephones, and /or Cranes. They will be listed as PT in The Schedule. The Contractor can only charge the U.S. Government at what was charged by relevant port authorities.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs).

Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

BG	Bag
DY	Day
EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
JB	Job
LO	Lot
MO	Month
NSP	Not Separately Priced
PK	Package
PT	Port Tariff
TBD	To Be Determined
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), Option Year 1 is one (1), and Option Year 2 is two (2). (For example a base year would be 0XXX, and the Option Year 1is 1XXX, and Option Year 2 is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX). The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB for Dive & Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract, place an order, or obligate funds.

- DAY: A calendar day.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 - Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

- Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.
- Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPARATELY PRICED (NCP): Item that is not separately priced. Cost of the item should be factored into the Management Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- PROPERLY: Conform to the required standard of competence in the relevant profession, trade or industry. Comply with requirements for insurance, licenses, permits and accreditations in connection with work performance.

- "RESERVED": An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- TASK ORDER (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

- TRIP: From one point to another and back (round trip)

- WEEK: A week consists of seven (7) full days

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual: Leonard G. Francis

Title of Individual: Managing Director

Mailing Address: 15D Pandan Road, Singapore 609266

Tel No. (Work): (65) 62727937

Fax No. (Work): (65) 62707240

Mobile: (65) 97983155

E-mail address: Leonard@glennmarinegroup.com; glenncom@glennmarinegroup.com

CLAUSES INCORPORATED BY FULL TEXT

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1 PRE-ARRIVAL HUSBANDING DUTIES.

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. Pre-arrival CRAFT Cost Estimate - The contractor shall furnish to each ship and FISC Det Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship and the Contracting Officer within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide the SUPPO upon ship's arrival a copy of The Schedule and SOW, applicable port tariffs and current prices for frequently ordered services such as laundry services and vehicle rental.

1.2.6. Money Exchange Services:

1.2.6.1. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.6.2. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. Exchange services onboard ship shall be made available to crewmembers at least two hours daily with buy back service on the day before the ship's departure. The exchange rate will be the "Interbank Rate – Median Price" at the internet site www.oanda.com on the date of the exchange of currency (extended out to four decimal points). The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate above.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services:

1.2.8.1. All contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port.

1.2.8.2. The Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract or any other contract.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers the Philipines then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Det Manila.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the FISC Det Manila prior to arrival to ascertain how many personnel will require assistance.

1.2.13 The Contractor shall facilitate the ship's timely departure.

1.2.13.1 The Contractor shall provide a timely cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Det Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section C, Overview, paragraph 15, Standards for Professional Servic; sub-paragraph 15.1 and 15.2.

No later than 60 days after contract award, the contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan

for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.4.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be in accordance with Attachments 9 and 10. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.4.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Manila within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.4.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Detachment, Europe. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided as Attachment 11.

1.4.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.4.5. The Contractor shall comply with the Quality Assurance Provisions as per attachment 12.

1.5. PRE-SAILING VISIT: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.5.1. The payment will be made by the ship prior to departure from the port. If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Officer, U.S. Naval Regional Contracting Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury check. The Contractor must accept the U.S. Government commercial purchase card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is the Mastercard. If a ship uses a U.S. Government credit card, the ship shall reimburse the Contractor any surcharge imposed by the financial institution processing the credit card transaction. The applicable credit card surcharge cannot exceed three (3) percent. Upon award of contract, the Contractor shall provide evidence furnished by theFinancial Institution of the credit card surcharge.

1.5.2. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.5.3. Copies of all invoices presented to the ship shall be provided to FISC Det Manila Contracting Officer within 5 working days from the departure of the visiting vessel.

1.5.4. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

2. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 5)

2.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

2.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

2.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

2.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

2.5. The Navy's husbanding contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the contractor shall furnish personnel with the following qualifications:

2.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
2.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
2.5.3. current innoculation records
2.5.4. possess a valid up-to-date passport

2.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor team shall consist of a minimum of two personnel per location that the OOTW and/or Exercise/ Logistic Support is being conducted. If there are multiple operations at same time, or a single operation at multiple locations, the contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

2.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the contractor's Husbanding fees and CLINS shall apply.

2.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for

these items at the time of placing the order. In conducting market research for requirements over $3,000, the husbanding contractor shall make every effort to locate at least three sources.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place additional fenders between the breasting barge and the ship when requested.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the Contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting thesubmarine deck. Also, the submarine brow must be capable of supporting shorepower cables without damaging the cable.

5. CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW of the contract section, paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with chargers capable of using dual voltage. Each mobile phone provided shall include a spare battery and an operating manual/instruction with published rates for usage.

7.3. The Contractor shall provide activation, auto roaming, long distance accounts, and airtime for land and mobile hand phones.

7.4. The Contractor shall provide commercial telephone booth and sale of phone cards for personal use by crewmembers.

7.5. The Contractor shall provide pre-paid International Calling Cards for official use.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel (minimum two assistants), and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct Force Protection (FP) operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General (CLIN XX01 & XX02): The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The contractor must coordinate all aspects of FP planning and services with Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)

- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Det Singapore Contracting Officer. The Contractor must explain what the FP service will entail and why it is being required. The Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AC)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 3.

12.6. Perimeter Fencing (CLIN XX12AD)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AE THRU XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ & XX12AK)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations and specifications.

12.9. Portable Latrine (CLIN XX12AL)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AM)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards Services (CLIN XX12AN, CLIN XX12AP & CLIN XX12AQ)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guards (CLIN XX12AN, XXAP and XXAQ) shall be armed.

12.12. EOD / Drug K9 Dog and Handler Team (CLIN XX12AR & CLIN XX12AS) - The Contractor shall provide teams of EOD / Drug K9 detection teams. The teams shall include 1 dog and 1 handler.

12.13. Two Way Radios (CLIN XX12AT) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals.

12.14. Hand Held Metal Detectors (CLIN XX12AU) – The Contractor shall provide hand held metal detectors capable of detecing metal.

12.15. Hand Held Explosive Detectors (CLIN XX12AV) – The Contractor shall provide hand held explosive detectors capable of detecting explosives.

12.16. Walk Thru X-Ray & Metal Detector (CLIN XX12AW) – The Contractor shall provide walk thru X-ray & metal detector capable of X-raying hand carried luggage and bags to determine its contents, and also capable of detecting metal. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

13. FORKLIFT WITH OPERATOR (CLIN XX13) - The Contractor shall provide forklifts with operators for loading and unloading operations.

14. FUEL

14.1. Normally, fuel is provided by the HN or by other U.S. Navy bunkering contracts. However, if those sources are not available, then the HS contractor may be required to assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor

cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC Det Singapore and request approval to proceed. Only after this is done, may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by theh port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide fuel in accordance with Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED – LINESBOATS

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (WITH OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with operator and a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled "SHIP'S SPARE IN TRANSIT"

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship's arrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the package to the shp after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative or FISC Det Manila.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. RESERVED (MISCELLANEOUS)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements.

23. PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide qualified pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7 – Potable Water Specifications.

26. RESERVED – (PRATIQUE)

27. REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using the one or both of the following:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED – (SHORE STEAM)

30. STEVEDORES (CLI XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with qualified drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Det Manila if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8 – Water Taxi Specifications.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO or FISC Det Manila.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by the ship’s duty officer onboard. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit D – CRAFT Report.

35.2. The report shall be submitted to FISC Det Singapore Contracting Officer or FISC Det Manila within five working days of each ship’s departure.

(End of clause)

ADDITIONAL CONTRACT TERMS AND CONDITIONS

(a) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(b) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155.

Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(c) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(d) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(e) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or
(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(f) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(g) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirement for the supplies and services specified in the Schedule that exceed the quantities that the activity may furnish within its own capabilities.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(h) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(i) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(j) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(k) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(l) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address:	FISC Detachment Singapore PSA Sembawang Terminal Deptford Road, Building 7-4, Unit 2-9 Singapore 759657
Military Address:	PSC 470, Box 2100 FPO AP 96534-2100
FAX Numbers:	(65)-6-750-2639 or 2382

(m) Provision for Wood Products SA 03-05 NAVSUP CLAIMANCY POLICY - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material (SWPM) (Nov 202) NAVSUP

(1) Definition. 'Pinewood nematode' as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(n) Agency Protests

(1) Prior to submission of an agency protest, all parties should use their best efforts to resolve concerns raised by an interested party at the contracting officer level through open and frank discussions.

(2) FISC Det Singapore will process agency protests in accordance with the substantive and procedural requirements of FAR 33.104(d).

(3) Pursuant to FAR 33.103(d)(4), an agency protest may be filed directly with either the Contracting Officer or the Chief of the Contracting Office. A protestor who initially files an agency protest with the Contracting Officer may appeal an adverse decision to the Chief of the Contracting Office. Agency protest submissions should clearly identify the initial adjudicating official, i.e., the “Contracting Officer” or “Chief of the Contracting Office”.

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Apr 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (SEP 2005)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

____ 52.203-3 Gratuities (APR 1984) (10 U.S.C. 2207).

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

____252.205-7000 Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).

____ 252.219-7004 Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan (Test Program) (JUN 1997) (15 U.S.C. 637 note).

____ 252.225-7001 Buy American Act and Balance of Payments Program (JUN 2005) (41 U.S.C. 10a-10d, E.O. 10582).).

____ 252.225-7012 Preference for Certain Domestic Commodities (JUN 2004) (10 U.S.C. 2533a).

____ 252.225-7014 Preference for Domestic Specialty Metals (JUN 2005) (10 U.S.C. 2533a).

____ 252.225-7015 Restriction on Acquisition of Hand or Measuring Tools (JUN 2005) (10 U.S.C. 2533a).

____ 252.225-7016 Restriction on Acquisition of Ball and Roller Bearings (JUN 2005) (------ Alternate I) (APR 2003) (10 U.S.C. 2534 and Section 8099 of Public Law 104-61 and similar sections in subsequent DoD appropriations acts).

____ 252.225-7021 Trade Agreements (JUN 2005) (19 U.S.C. 2501-2518 and 19 U.S.C. 3301 note).

____ 252.225-7027 Restriction on Contingent Fees for Foreign Military Sales (APR 2003) (22 U.S.C. 2779).

____ 252.225-7028 Exclusionary Policies and Practices of Foreign Governments (APR 2003) (22 U.S.C. 2755).

____ 252.225-7036 Buy American Act--Free Trade Agreements--Balance of Payments Program (JUN 2005) (------ Alternate I) (JAN 2005) (41 U.S.C. 10a-10d and 19 U.S.C. 3301 note).

____ 252.225-7038 Restriction on Acquisition of Air Circuit Breakers (JUN 2005) (10 U.S.C. 2534(a)(3)).

_____ 252.226-7001 Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns (SEP 2004) (Section 8021 of Public Law 107-248 and similar sections in subsequent DoD appropriations acts).

____ 252.227-7015 Technical Data--Commercial Items (NOV 1995) (10 U.S.C. 2320).

____ 252.227-7037 Validation of Restrictive Markings on Technical Data (SEP 1999) (10 U.S.C. 2321).

____ 252.232-7003 Electronic Submission of Payment Requests (JAN 2004) (10 U.S.C. 2227).

_____ 252.237-7019 Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).

____ 252.243-7002 Requests for Equitable Adjustment (MAR 1998) (10 U.S.C. 2410).

____ 252.247-7023 Transportation of Supplies by Sea (MAY 2002) (_____Alternate I) (MAR 2000) (_____Alternate II) (MAR 2000) (____Alternate III (May 2002).

____252.247-7024 Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (Federal Acquisition Regulation 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014 Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).

252.237-7019 Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).

252.247-7023 Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

252.247-7024 Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) In addition to the clauses listed in paragraph (b) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5 (JUL 2005) (DEVIATION), the Contractor shall include the terms of the following clause, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014	Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).
252.232-7019	Training for Contractor Personnel Interacting with Detainees (SEP

	2005) (Section 1092 of Pub. L. 108-375).
252.247-7023	Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631)
252.247-7024	Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

252.233-7001 CHOICE OF LAW (OVERSEAS) (JUNE 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

ATTACHMENT 1

REFUSE SERVICE DEFINITIONS

The following are Refuse Definitions used for this contract:

(A) **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

(B) **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

(C) **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

(D) "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

(E) "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

(F) "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

(G) "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

(H) "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

(I) The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

(J) Displacement is expressed in tons and represents fully loaded displacement.

(K) The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

(L) There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

ATTACHMENT 3

FLOATING LINE OF DEMARCATION (FLD) SPECIFICATIONS

The following are the Governments basic requirements for the Floating Line of Demarcation Specifications to be used for this contract:

1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around anchored ships. The purpose of the FLD is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to CNB radar. The Picket Boats will patrol outside of this visual reference. The FLD shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) work boats to tend to the FLD at all times. The FLD is not designed to stop approaching unauthorized watercraft rather it is to help identify a safe standoff zone.

2. The size of the Floating Perimeter will be approximately 2500 meters to 2700 meters based on a ship's length of approximately 800 feet. At Singapore Man-of-War Anchorage, the perimeter will be positioned 400 feet (125 meters) outside the swing radius of the ship.

3. Weights sufficient to anchor the FLD in place to the seabed. The size and number of weights will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the FLD line intact at all times regardless of sea conditions.

4. The Contractor shall have communication capabilities, either VHF or cellular phone with MPA Port Operation Control, CNB and U.S. Navy vessel. The contractor shall report the status of the Floating Visual Line of Demarcation to MPA Port Operation control every two hours or other regular interval agreed upon between Contractor and MPA Port Operation Control.

5. The Contractor shall provide a minimum of two (2) work boats to tend the FLD at all times while the system is deployed.

6. The FLD shall be deployed in the most expeditious manner as soon as the U.S. Navy vessel is anchored.

7. When the FLD is retrieved, the Contractor must show documentary proof that all equipment deployed is removed from the location.

8. The Contractor shall provide the U.S. Navy, CNB and MPA an updated and current emergency contact list in case of contingencies.

9. Below are two examples of FLDs.

a. Example 1 - Continuous Line FLD –

i. Specifications: Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable ECP for access.

ii. Buoys or floats positioned every meter on the line sufficient to keep line afloat and visible on the surface of the water.

iii. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to CNB radar.

iv. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the perimeter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact and in position at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

b. Example 2 - Floating Buoy System (FBS)

i. Specifications: The FBS must clearly show a perimeter line and fully surround the ships at anchorage. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the demarcation line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical. In addition, buoys must also be visible on CNB radar.

ii. Weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

2. Contract Pricing: Prices are firm-fixed-price per unit and are inclusive of all costs which include the following:

a. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

b. Mobilization and Demobilization (Mob & De-mob). All Mob & De-mob costs shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes transportation of equipment and charges for the use of cranes, forklifts, tugs, workboats and any other equipment and labor required for the deployment, maintenance and retrieval for the floating perimeter.

c. Repositioning equipment. All repositioning of equipment shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

d. Pre-positioning / Pre-staging and Vetting Operations. All pre-positioning / Pre-staging and vetting operations shall be included in the unit price. The vessel shall only be charged for the actual number days that the perimeter is in use while the ship is port. No additional days shall be charged.

3. Time Calculations: These CLINs are based on daily rates. Time will begin being measured once the equipment is deployed round the vessel and capable of operations.

4. General: The Contractor is responsible for providing floating visual line of demarcation. The Contractor must work closely with other US Navy contractors such as subsistence contractor. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

5. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

a. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

b. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

6. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

a. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

b. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

c. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

7. Inspections: The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

ATTACHMENT 4

PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

(M) The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

(N) The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

(O) Ships at anchorage will normally require two Picket Boats.

(P) The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

(Q) The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

(R) The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

(S) The Picket Boat will meet the following requirements:

7.1. Licensed for commercial operations by local country Department of Transportation.

7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

3.1.1. Portable Spotlight

ATTACHMENT 5

SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

1.2. Security guards may be provided through private security firms or through local police officials.

1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside: (CLIN XX25AC)

2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.6. The following equipment will be required as a minimum for each guard:

2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.5. Flashlight for nighttime inspections.

2.6.6. Any locally required equipment to perform their job.

2.7. ROEs Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

2.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats: (CLIN XX25AJ)

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN XX25AL. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

3.8.1.2 If the first warning is ignored, the security guard will immediately notify the ship of the threat.

3.8.1.3 The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

3.8.1.4 As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a

weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

ATTACHMENT 6

FUEL SPECIFICATIONS

The following are the Fuel Specifications for this contract:

SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of visible particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/
Density, @ 15ºC, kg/m^3 (max)	876	D 1298 (R), D 4052, D 287
Distillation, 10 % point, ºC 50% point, ºC 90% point, ºC, (max) end point, ºC, (max) Residue º Loss, % vol., (max)	 Record Record 357ºC 385ºC 3.0	D 86 3/
Cloud Point, ºC, (max)	-1ºC	D 2500
Color, (max)	3	D1500
Flash Point, ºC, (min)	60ºC	D 93 4/
Particulate Contamination, mg/liter, (max)	10	D 5432 5/
Pour Point, ºC, (max)	-6ºC	D 97
Viscosity, @ 40ºCm mm^2/second	- 1.7 - 4.3	D 445
Chemical Requirements		
Accelerated Storage Stability, total insolubles, mg/100ml, (max)	1.5	D5304 (R), D 2274 6/
Acid Number, mg KOH/100 ml, (max)	0.30	D 974 (R), D 664
Aniline Point, ºC, (min)	60ºC	D 611
Ash, % wt., (max)	0.005	D 482
Carbon Residue, on 10% bottoms, % wt., (max)	0.20	D 524 (R), D4530, D 189 7/
Corrosion, @ 100ºC, (max)	No. 1 ASTM	D 130

Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 2622
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium	 1.0 0.5 1.0	D 3605 9/

Vanadium	0.5	
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

   (a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

   (b) The test temperature shall be 25ºC.

   (c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST **METHOD** **REQUIREMENTS**

1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min
5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

TEST REQUIREMENTS	METHOD	
1. Cetane Number	ASTM D 613	42 min
or		
Cetane Index	ASTM D 976	43 min

NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338ºC.

2.	Appearance @ 21°C or ambient temp. (whichever higher) or Water & Sediment	Visual ASTM D 2709	Clear & Bright 0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357°C max.
4.	Flash Point NOTE: The flash point value is absolute and no value less than 60°C is permissible.	ASTM D 93	60°C min
5.	Cloud Point	ASTM D 2500	-1.1°C (30°F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40°C	ASTM D 445	1.7 - 4.5 cst
7.	Color NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted if red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.	ASTM D 1500	3 max.
8.	Density @ 15°C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524 ASTM D 189	0.35 mass % max.
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294, ASTM D 1552, or ASTM D 2622	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	**GRADE RMB-10 (IFO 60)**	**GRADE RME-25 (IFO-180)**	**GRADE RMG-35 (IFO 380)**	**TEST METHOD**

Density @15°C, kg/m^3, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

ATTACHMENT 7

POTABLE WATER SPECIFICATIONS

The following are Potable Water specifications used for this contract.

NATIONAL PRIMARY DRINKING WATER REGULATIONS (NPDWR) BUREAU OF MEDICINE AND SURGERY (BUMED) TREATED WATER QUALITY STANDARDS /ENVIRONMENTAL PROTECTION AGENCY

CONTAMINANT	MCLG (mg/L) [1]	MCL (mg/L)	AL (mg/L [2])
ASBESTOS	7 million fibers/L longer that 10 micrometers	7 million fibers/L longer than 10 micrometers	
ARSENIC		0.05	
BARIUM	2	2	
CADMIUM	0.005	0.005	
CHROMIUM	0.1	0.1	
COPPER	1.3		1.3 [3]

MERCURY	0.002	0.002	
NITRATE (AS N)	10	10	
NITRITE (AS N)	1	1	
Total NITRATE and Nitrite (as N)	10	10	
SELENIUM	0.05	0.05	
FLUORIDE	4	4	

(1) **Maximum contaminant level goal (MCLG).** The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are no enforceable health goals.

(2) **Action level (AL)**. Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90th percentile" lead level is greater than 0.015 mg/L).

Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

CONTAMINANT	MCLG (mg/L)	MCL (mg/L)

PENTACHLOROPHENOL	0	0.001
TOTAL TRIHALOMETHANES (THE SUM OF THE CONCENTRATIONS OF BROMODICHLOROMETHANE, DIBROMOCHLOROMETHANE, TRIBROMOMETHANE (BROMOFORM), AND TRICHLOROMETHANE (CHLOROFORM)		0.10[(1)]

Note:
(1) The MCL for total trihalomethanes applies only to water systems serving 10,000 or more individuals and which add a disinfectant to the water. For systems serving less than 10,000 individuals, individual States or BUMED (in overseas locations) may adopt an effective date for the MCL.

Microorganisms	**MCLG[1] (mg/L)[2]**	**MCL or TT[1] (mg/L)[2]**
Cryptosporidium	as of 01/01/02:0	as of 01/01/02:TT 3
Giardia lamblia	0	TT[3]
Heterotrophic plate count	n/a	TT[3]
Legionella	0	TT[3]
Total Coliforms (including fecal coliform and E. Coli)	zero	5.0%[4]
Turbidity	n/a	TT[3]
Viruses (enteric)	zero	TT[3]

Note:
[1] Definitions:
Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to MCLGs as feasible using the best available treatment technology and taking cost into consideration. MCLs are enforceable standards.
Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety and are non-enforceable public health goals.
Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
Treatment Technique - A required process intended to reduce the level of a contaminant in drinking water.

[2] Units are in milligrams per liter (mg/L) unless otherwise noted. Milligrams per liter are equivalent to parts per million.

[3] EPA's surface water treatment rules require systems using surface water or ground water under the direct influence of surface water to (1) disinfect their water, and (2) filter their water or meet criteria for avoiding filtration so that the following contaminants are controlled at the following levels:

- Cryptosporidium: (as of January 1, 2002) 99% removal/inactivation
- Giardia lamblia: 99.9% removal/inactivation
- Viruses: 99.99% removal/inactivation
- Legionella: No limit, but EPA believes that if Giardia and viruses are removed/inactivated, Legionella will also be controlled.
- Turbidity: At no time can turbidity (cloudiness of water) go above 5 nephelolometric turbidity units (NTU); systems that filter must ensure that the turbidity go no higher than 1 NTU (0.5 NTU for conventional or direct filtration) in at least 95% of the daily samples in any month. As of January 1, 2002, turbidity may never exceed 1 NTU, and must not exceed 0.3 NTU in 95% of daily samples in any month.
- HPC: No more than 500 bacterial colonies per milliliter.

[4] No more than 5.0% samples total coliform-positive in a month. (For water systems that collect fewer than 40 routine samples per month, no more than one sample can be total coliform-positive). Every sample that has total coliforms must be analyzed for fecal coliforms. There may not be any fecal coliforms or E. coli.

[5] Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Disease-causing microbes (pathogens) in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. These pathogens may pose a special health risk for infants, young children, and people with severely compromised immune systems.

Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites which are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Sampling requirements for the Navy public water system apply.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Auto analysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the Multiple-Tube Fermentation (MTF) Technique; and the Membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use applies.

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, unless the Contracting Officer on a case-by-case basis waives this requirement.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the Contracting Officer may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before.

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms, or E. coli testing on total

coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements which apply when a sample is fecal coliform-positive.

Turbidity: The MCL for turbidity applies to both community water systems and non community water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at Contracting Officer option).

b. Five turbidity units (maximum) average for 2 consecutive days.

The MCL for Radiological Contaminants are:
Gross alpha particle activity including radium 226 but excluding
radon and uranium . . . . . 15 pCi/L
Beta particles and photon emitters ……4 millirems / year
Combined radium 226 and radium 228 . . . . . .5 pCi/L
Tritium . . . . . 20,000 pCi/L
Strontium-90. . . . . 8 pCi/L
Uranium …….. 30ug/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

National Secondary Drinking Water Regulations (NSDWR) The Secondary Maximum Contaminant Levels (MCLs)

CONTAMINANT	MCL (mg/L)
ALUMINUM	0.05 TO 0.02
CHLORIDE	250
COLOR	15 COLOR UNITS
COPPER	1
CORROSIVITY	NONCORROSIVE
FLUORIDE	2
FOAMING AGENTS	0.5
IRON	0.3
MANGANESE	0.05
ODOR	3 THRESHOLD ODOR NUMBER
PH	6.5 - 8.5
SILVER	0.10
SULFATE	250
TOTAL DISSOLVED SOLIDS (TDS)	500
ZINC	5

Note: The contaminants covered by this regulation are those that may adversely affect the aesthetic quality of the drinking water. These secondary levels represent goals for drinking water quality but are not Federally enforceable.

(3) The reception, handling, storage, and delivery of potable water to ship's water systems shall be carried out under completely sanitary conditions.

(4) For pierside berthing, delivery shall be made by hose from the pier whenever possible. If barge service is deemed necessary, the Contractor shall ascertain from the ship's Supply Officer the exact amount needed prior to making delivery.

(5) The Contractor shall make deliveries during normal working hours, unless otherwise approved by the ship's Supply Officer or his/her authorized representative.

(6) All equipment, trucks and barges used by the Contractor in performance of these services shall be subject to inspection and test by an authorized representative of the U.S. Government as the Contracting Officer may specify. Final inspection/acceptance shall be subject to approval by the ship's Chief Engineer or his/her authorized representative. The U.S. Government inspectors shall be entitled to inspect the equipment, trucks, and barges at all reasonable times, as often as they may deem necessary, and at such reasonable place or places as the U.S. Government may specify.

(7) The Contractor shall, without cost to the U.S. Government, furnish the necessary personnel and facilities to conduct such test and examination of samples of water and barges used hereunder as the Government inspector may designate, to determine the extent or possibility of contamination of such water, equipment, and barges. The Contractor may, at its option and cost, have the tests conducted by a recognized Sanitary Inspector provided that the performance of the tests and examinations by such Sanitary Inspection has been approved in advance and in writing by the U.S. Government Inspector.

(8) All tests and examinations, whether performed by or on behalf of the Contractor, shall be conducted in the presence of the U.S. Government Inspector.

(9) The Contractor agrees to furnish such reports and execute such forms as the U.S. Government may require in connection with services performed under this contract and further agrees that requests for such reports and execution of such forms will be executed promptly.

ATTACHMENT 8

WATER TAXI SPECIFICATIONS

The following are Commander 7th Fleet (COMSEVENTHFLT) Water Taxi specifications used for this contract.

1. Compliance - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2. Quality of Equipment - All equipment provided must meet COMSEVENTHFLT water taxie specifications, meet all safety standards required by local law, and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3. Quality of Services - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. Inspection and Acceptance - The Contractor shall pre-inspect the provided boats using the COMSEVENTHFLT specifications set forth below. Boats failing the inspection will not be used. The Contractor shall provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the designated NRCC Singapore Logistics Support Center (LSC) Water Taxi Inspector. The LSC Inspector will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the LSC Inspector shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor, the NRCC Singapore Contracting Officer (KO), and the LSC Inspector. An info message will be sent to Commander Logistics Western Pacific (COMLOGWESTPAC) and the operational chain of command up to and including COMPACFLT.

5. COMSEVENTHFLT Specifications:

5.1. Boat requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris, and fitted for service required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of (insert country). Notwithstanding compliance with local laws and regulations, the contractor shall meet all additional requirements as set forth throughout Section 5.

5.1.1. Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

5.1.2. Each boat shall be capable of transporting a minimum of (see Schedule of Services) passengers. (Weight restrictions may also be set forth, if appropriate.)

5.1.3. The following information shall be conspicuously posted in both English and (the appropriate foreign language):

5.1.3.1. Current Operator's/Captain's license and boat names.

5.1.3.2. Passenger/weight capacity limit notice.

5.1.3.3. Location of life jackets and other life saving equipment.

5.1.3.4. Location of all exits indicated in large letters.

5.1.3.5. Emergency procedures

5.1.4. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

5.1.5. Operation of the boat shall be in a safe and seaworthy manner.

5.1.6. The consumption of alcoholic beverages shall not be permitted aboard the boat.

5.2. Operator qualifications: All personnel or employees of the contractor operating boats providing subject services shall have all certification required and issued by (insert country) for the operation of the type class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

5.3. Security: During the term of this contract the ship(s) to be serviced (insert ship name if purchase order) agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat--SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He/she will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

5.4. Boat capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

5.5. Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the (Contracting officer or Husbanding Agent, as appropriate), or authorized representative prior to acceptance. This inspection shall include but not be limited to:

5.5.1. Hull

5.5.1.1. Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures.

5.5.1.2. Superstructure, including masts and stacks.

5.5.1.3. Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines.

5.5.1.4. Provisions for drainage of sea water from exposed decks over the side and not into the bilges.

5.5.1.5. Access/egress points- adequacy of number and location.

5.5.2. Machinery

5.5.2.1. 2-way radio or other reliable means of electronic communications (i.e., cellular phone) plus an additional battery back-up is required.

5.5.2.2. Main propulsion and auxiliary machinery essential to operation of boat.

5.5.2.3. Sea and bulkhead closure valves.

5.5.2.4. Bilge auction strainers and dewatering systems-bilge pump to be tested by operation

5.5.2.5. Bilges free of flammable liquids

5.5.3. Electrical

5.5.3.1. Cables.

5.5.3.2. Navigation, deck, and emergency lights.

5.5.3.3. Rotating electrical machinery; e.g., generators and motors --Storage batteries

5.5.4. Lifesaving equipment

5.5.4.1. Life preservers - sufficient number for maximum capacity of boat, accessible and in satisfactory condition.

5.5.4.2. Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity.

5.5.4.3. First aid kits, life rings and distress lights.

5.5.4.4. Distress signaling devices

5.5.5. Fire fighting equipment

5.5.5.1. Fire pump - test by subjecting fire hose(s) to fire pump pressure.

5.5.5.2. Portable fire extinguishers.

5.5.5.3. Fixed systems, e.g., C02 cylinders.

5.5.6. Steering apparatus

5.5.7. Miscellaneous systems and equipment

5.5.7.1. Harbor charts.

5.5.7.2. Ground tackle and mooring lines.

5.5.7.3. Whistle/fog horn, bell.

5.5.7.4. Lighted compass.

5.5.7.5. Radar.

5.5.7.6. 2-way radio capable of Bridge-to-Bridge communications.

5.5.7.7. Current license.

5.5.7.8. Operator qualifications.

5.6. Only approved boats shall be used in performance of this contract. The (LSC Inspector or Husbanding Services contractor, as appropriate) will provide each ship with a list of pre-approved boats. If the LSC Inspector or Husbanding Services contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement-is that contained in paragraph 4.7 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

5.7. Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

5.7.1. Safety of operations. Insure the following are present and in working condition:

5.7.1.1. Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.

5.7.1.2. Fire extinguishers sufficient for the size of the vessel operated.

5.7.1.3. Radio (with battery backup) capable of Bridge-to-Bridge communications.

5.7.1.4. Anchor/chain sufficiency for the size of the vessel operated.

5.7.1.5. Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

5.7.2. Hazards to passengers. Conduct topside visual inspection for safe conditions of the following:

5.7.2.1. Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

5.7.2.2. Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.

5.7.2.3. Ensure no bare or exposed electrical wires or connections are located in the passenger area.

5.7.2.4. Validate that sufficient unobstructed exits are present and marked in English.

5.7.2.5. Verify that no missile hazards, gear adrift, or trip hazards exist.

5.7.3. The following shall be conspicuously displayed, in English:

5.7.3.1. Passenger/weight capacity.

5.7.3.2. Location and number of life jackets.

5.7.3.3. Location of life saving equipment.

5.7.3.4. Locations of exits (if not obvious).

5.8. Critical safety equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or designated representative will have the option of furnishing the missing item. In all cases where government furnished property is provided due to the contractor's failure to meet requirements of the contract, the Contracting officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting officer is not on site, notification will be by message.

5.9. If applicable, FAR 52.245-4, Government-furnished Property (short form) (APR 1984), is incorporated by reference into this (contract or purchase order, as appropriate).

6. Onboard Security: The ship being serviced may provide security personnel for the purpose of maintaining the orderly transportation of their personnel. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

7. Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

8. Deficient Boat - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price or termination of the contract for default.

9. Government Furnished Property - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contractor shall notify the KO and provide information about the circumstances surrounding the deficiency. If appropriate, a reduction in contract price may be made.

ATTACHMENT 9

STANDARDS FOR BREAD, FRESH

1. CHARACTERISTICS: All products under this contract shall have the following characteristics:

a. MATERIAL: All material shall be edible, clean, wholesome, and of good quality free from viable insect infestation or other objectionable foreign matter, flavor or odor.

b. WHEAT FLOUR: The flour shall be prepared from hard or soft wheat, and shall be bleached or unbleached, enriched or unenriched as applicable to the pertinent class of product.

c. WHOLE WHEAT FLOUR: Whole wheat flour shall contain all of the natural constituents of the wheat kernel.

d. RYE FLOUR: Rye flour shall be white rye flour, medium rye flour, dark rye flour or rye meal, as required for the particular end item.

e. SHORTENING: Shortening shall be unhydrogenated or hydrogenated cottonseed, peanut, corn, or coconut oil, hydrogenated soybean oil and flavor shall be free from rancid, reverted, or other objectionable odors and flavors.

f. YEAST: Yeast shall be either active dry yeast or compressed yeast. (Saccaronyces cerevisial)

g. COLOR OF CRUST: The color of crust should be an appetizing nut brown, uniform and free of streaks and spots.

h. SYMMETRY OF FORM: All products shall be uniform in size and shape. No low ends, low centers, flat top, protruding crust or sunken sides.

i. EVENNESS OF BAKE: The products should be evenly baked on all sides, including the ends and bottoms.

j. CHARACTER OF CRUST: The crust should not be too thin and rubbery.

k. GRAIN: The grain should be uniform in texture, without open, coarse, hole or thick cell structure.

l. AROMA: The aroma should be sweet, rich and fresh, combined with a pleasant wheaty or nutty aroma. No strong, musty, gassy or sharp smell, or an unpleasant or rancid ordor.

m. COLOR OF CRUMB: The color of the crumb should be bright, with some luster. The surface of the crumb should present a uniform shade without streaks and dark spots.

n. MASTICATION: The product should not be doughy, dry, tough or grainy.

o. TASTE: The product should not have a flat, sour, salty, foreign or any unpleasant taste.

p. TEXTURE: The product should have a soft and velvety texture. Not rough, course, lumpy, cored, ridged, too loose or too compact.

q. FRESHNESS: Bread and rolls shall not be more than 24 hours old upon arrival at receiving point.

r. WORKMANSHIP: The product shall be prepared, processed, and packaged under modern, sanitary conditions and in accordance with best commercial practices.

2. SPECIFICATIONS FOR BAKERY PRODUCTS

a. All Italian style bread shall be in accordance with formulas and processes established by Italian law.

b. Characteristics, dimensions, and weights for

Bread, White, American Style; and
Bread, Whole Wheat, American Style

(1) Volume: The loaves shall be uniform in volume, approximately 3"W X 9"L X 4-1/2"H (7.6 cm x 22.9 x 11.5 cm) and weigh approximately 16 ounces (454 grams).

(2) Break and Shred: The loaf shall have a uniform break with a well defined shred. This break and shred shall be even on both sides and ends of the loaf. The break should not be excessive to the extent that the top crust separates from the side of the loaf forming a shell crust.

(3) Individual Slice: The bread shall be sliced in even sizes, approximately ½" thick.

c. Characteristics, dimensions, and weights for: Rolls, Italian Style

(1) Volume: The rolls shall be uniform in volume approximately 2-3/4" diameter weighing individually 1.5 ounces (42.5 grams), a package containing 7 rolls weighing approximately 300 grams.

d. Characteristics, dimensions, and weights for: Rolls, Frankfurter American Style

(1) Volume: The rolls shall be uniform in volume approximately 5-3/4" height X 1 -7/8" width X 1-1/4" thickness (14.6 cm x 4.5 cm x 3.3 cm). The individual roll weight shall be approximately 1.6 ounces (45.5 grams), the approximate weight of a package of 8 shall be 13 ounces (365 grams).

(2) Slice: Each roll shall be sliced approximately 80% through the width of the roll, the slice being equidistant from and parallel to the bottom and top of the roll.

e. Characteristics, dimensions, and weights for: Rolls, Hamburger, American Style

(1) Volume: The rolls should be uniform in volume approximately 4" diameter X 1-1/3" thickness (10 cm x 4.4 cm). The individual roll weight shall be approximately 1.6 ounces (45.5 grams), the approximate weight of a package of 8 shall be 13 ounces (365 grams).

(2) Slice: Each roll shall be sliced approximately 80% through the width of the roll, the slice being equidistant from and parallel to the bottom and top of the roll.

ATTACHMENT 10

Summary of "EEC" Quality and Marketing Requirements for Shell Eggs. (Revised)

1. Temperature: 34 - 65 F with no individual temperature MT 70 F.

2. Quality Requirements (Grade A):

a. Air Cell - NMT 6mm in depth
b. White - clear, limpid, of gelatinous consistency, free of extraneous matter
c. Shell - Normal, clean, undamaged
d. Yolk - visible candling as shadow only, not moving away from the center on rotation, free of extraneous matter.

3. Quality Tolerances:

Origin	Destination
NMT 5% total defects	NMT 7% total defects
of which	of which
NMT 2% checks and leakers	NMT 4% checks and leakers
NMT 1% meat and blood spots	NMT 1% meat and blood spots

4. Weight Tolerance (individual egg): NMT 6% of individual eggs may be from the next lower weight grade.

5. Markings:

Cases	Retail Package
Date of Pack (day + month)	Same
Sell by date (*)	Same
Quality and weight grade	Same
Packing Center # and name	Packing center # or name
Producer identification code	Contractor's name and address
Number of eggs packed	Number of eggs per package

6. Sampling Plan:

a. Initial inspection shall be performed in accordance with DPSCM 4155.6, subsection 218.1, European supplement.

b. Full inspection:

Lot size (cases)	Sample size (issue)	Sample size (resale) (**)
<5	1 cs (180 eggs)	15% of retail packages
6 - 10	2 cs (270 eggs)	10%
11 - 30	3 cs (360 eggs)	5 %
31 - 50	5 cs (540 eggs)	4 %
51 - 100	7 cs (720 eggs)	3 %
101 - 1000	10 cs (1080 eggs)	1.5%
> 1000		

(*) Sell by date shall be 23 days from DOP. Remaining shelf life upon delivery shall be 18 days

minimum.

(**) All eggs from each retail package will be examined.

ATTACHMENT 11

SAMPLE LETTER REQUESTING SANITARY INSPECTION

(COMPANY LETTERHEAD)

Contracting Officer
FISC DET SINGAPORE
PSA Sembawang Terminal
Deptford Road, Building 7-4
Singapore 759657

Dear Sir:

We are interested in supplying (specify bread products or eggs) to the U.S. Navy ships calling at the Port of (insert name of port). It is understood that a U.S. Government sanitary inspection of our manufacturing plants and sources of raw materials must be conducted if they have not been previously approved prior to the award of any contract. We request, therefore, that a sanitary inspection be arranged for the following sources:

NAME AND ADDRESS OF PLANT OR SOURCE	PERSON TO CONTACT AND TELEPHONE NUMBER	PRODUCT OR MATERIAL
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Sincerely,

LIST AND INFORMATION TO REQUEST FOR INITIAL INSPECTION

List of products for which approval is requested.
Establishment letterhead - four places.
Name of establishment owner.
Site area size - acres, square feet or square meters.
General description of the area surrounding the plant site.
Building description, i.e. material used in construction, age of building(s), size (in square feet or meters), and number of stories.
Drawing of floor plan of building(s) to include major production areas (for slaughterhoused and dairies only).
List of major processing equipment.
Sources of raw materials.
Output of finished product - average kilograms or tons per day, per week or per month.
Special codes printed on product packages which identify the establishment, the product, and the date of production or packaging.
Number of employees.
Are employees receiving pre-employment or periodic medical examinations? What is the frequency of the periodic examinations?
Program for employee instruction personal hygiene, food, handling techniques, and food hygiene and safety.
Cleaning and sanitizing methods, including chemical used.
Detailed written cleaning and sanitizing program.
Official water quality certification from the local government, including total aerobic bacteria plate count, coliform count, and chemistry.
Name of water source.
Waste disposal program.
Pest control program.
Name of inspection agencies which inspect the plant (government and civilian) and frequency of inspections. Are inspection reports available for review?
Flow chart for the manufacture of each major category of products listed in No.1 above from raw materials to finished products health control points.
What laboratory examinations are performed on products and plants environment? Are the results available for review?
Total number of company vehicles?
Key personnel and point of contact for inspectors.
Direction to plant.

ATTACHMENT 12

QUALITY ASSURANCE PROVISIONS

SECTION I. GENERAL REQUIREMENTS

1. SANITARILY APPROVED SOURCES: All subsistence items shall be from approved sources as authorized, or exempted in NAVSUPINST 4335.4F/AR 40-657/AFR 161-32/MCO P10110.31G. Name and address of processing facility shall identify any subcontracting entities utilized other than the primary contractors. FISC DET Singapore has available approved source listings of authorized subsistence incorporated into VETCOM Circular 40-1, Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement (Hawaii and Pacific) and other regions maintained and published by HQ, US Army Veterinary Command, Fort Sam Houston, Texas (http://vets.amedd.army.mil/vetsvcs/approved.nsf). The U.S. Army Veterinary Representative, shall inspect all required potential sources identified. Failing to pass inspection shall be grounds for not issuing an order and grounds for cancellation if the facility fails inspection after an order has commenced. This applies to all contractors and subcontractors. Documents cited here shall be provided to the contractor upon written request.

2. DELIVERY VEHICLES: The supplies delivered under this contract shall be transported in a sanitary enclosed/covered or open flatbed vehicle. Semiperishable items delivered in open flatbed vehicle shall be covered with a tarp to protect products from rain or foreign objects. Vehicles shall be equipped to maintain the appropriate temperature for the subsistence being delivered. Vehicles shall be maintained in a sanitary condition to prevent contamination of the food and shall be subject to inspection by the government at all reasonable times. Supplies submitted for acceptance in vehicles, which are not sanitary, may be rejected without further inspection. Concurrent transportation of bulk contained pesticides, rodenticides, petroleum products, inedible products, household chemicals, or other caustic or volatile compounds are undesirable but occasionally necessary. When a carrier jointly transports subsistence and cleaning agents or hazardous products, the cleaning agents or hazardous products shall be segregated from the subsistence to the greatest extent. Segregated to the greatest extent means that all cleaning agents or hazardous products shall be unitized, loaded completely lower and horizontally from the subsistence to the maximum distance allowed by the physical configuration of the carrier. Shrink-wrap shall be used to secure items to pallets and provide stabilization.

3. CODE DATING: Master-shipping boxes shall be stamped or embossed with code dates, except Fresh Fruits and Vegetables, (FF&V). Coding must represent the date of slaughter, production, pasteurization, manufacture, or expiration/pull date. Open code shall have the date, month and year or Julian date, (last number of the year with the number of days). Closed code, such as letters and numbers, shall have an accompanying letter from the manufacturer explaining the code and shelf life.

4. PACKAGING: Standard commercial packaging is acceptable as long as it meets the requirements set forth in this agreement, product is protected from contamination, and quality is preserved. Products shall be packed in non-returnable commercial containers that do not exceed 55 pounds or 25 kilograms per container. The use of a plastic shrink-wrap to secure items to the pallet shall be minimized.

5. SHELF LIFE REQUIREMENTS: Unless otherwise specified in this agreement, products shall be delivered with not less than one-half (1/2) or fifty percent (50%) of their guaranteed shelf life remaining. If the supplies delivered DO not have the minimum number of days of shelf life remaining as set forth in this agreement, the government shall have the right to reject and/or require replacement.

6. TEMPERATURE REQUIREMENTS: Unless otherwise specified in this agreement, all perishable products shall be delivered between 32°F-41°F (0°C-5°C) for chilled and 0°F (-18°C) or below for frozen. Temperatures

shall be checked between the primary container and the outer container to reduce product damage. If a discrepancy is suspected, internal temperature shall be checked prior to rejection or acceptance of the products.

7. REJECTED ITEM: Any item recommended for rejection by the U.S. Army Veterinary Representative or receiving activity shall be annotated on the invoice or delivery receipt. The Contracting Officer Representative shall negotiate on price adjustment for quality or short shelf life defect as requested by receiving activity based on the U.S. Army Veterinary Representative inspection results. Replacements shall be coordinated with the Contracting Officer Representative as requested by the receiving activity.

8. FOREIGN ORIGIN PRODUCTS: Foreign establishments DO not have to be Directory listed if the prepackaged finished items they produce are imported by distributors or brokers into the continental United States, Hawaii or Alaska for sale to U.S. Armed Forces. This exemption does not apply to establishments importing food directly into the U.S. territories of American Samoa, Guam, or the Mariana Islands without entering the continental United States, Hawaii or Alaska.

9. CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD: See Appendix B

SECTION II. QUALITY ASSURANCE PROVISIONS BY ITEM

1. DAIRY PRODUCTS:

a. Milk products shall be from approved sources and meet the raw, pasteurized, bacteriological and chemical requirements of the United States Public Health Service (USPHS) Publication 229 (Grade A Pasteurized Milk Ordinance). Frozen deserts and novelties shall be from approved sources in accordance with applicable military or local specifications or in the absence of applicable specifications, good manufacturing practice. Bacteriological and chemical testing may be accomplished at origin or destination. The U.S. Army Veterinary Representative shall submit non-conforming results to the Contracting Officer and provide a copy furnished to the contractor with a letter of explanation. The letter shall inform the contractor that unreliable quality controls may result in suspending further deliveries in accordance with NAVSUPINST 4355.6A/AR 40-70. NAVSUPINST 4355.6/AR 40-70 sets forth the microbiological testing program and suspension procedures for dairy products.

b. Temperature on delivery: Fresh dairy products shall be delivered between 32^{o}F and 41^{o}F (0^{o}C and 5^{o}C). Frozen products shall be delivered at 0^{o}F (-18^{o}C) or below.

c. Cheese Related Products:

(1) Soft cheeses such, as mozzarella, natural provolone, cream cheese, and etc., shall be delivered between 32^{o}F and 41^{o}F (0^{o}C and 5^{o}C).

(2) Hard cheeses such as natural cheese, natural Swiss, Swiss and American processed cheddar and processed natural Swiss, etc., shall be delivered between 32^{o}F and 50^{o}F (0^{o}C and 10^{o}C).

2. FRESH FRUITS AND VEGETABLES (FF&V):

a. All FF&V shall be freshest product available. FF&V shall have eye appeal and shall be a minimum of 90% free from quality defects and 100% free of decay or loss. The Contracting Officer Representative shall negotiate a downward price adjustment for quality defects based on the U.S. Army Veterinary Representative inspection results and confirmed by receiving activity.

b. FF&V shall be delivered in an enclosed vehicle, equipped to maintain the temperature required for the type of FF&V. Mixed loads of FF&V shall be between 35^{o}F and 55 °F (2^{o}C and 12^{o}C).

c. FF&V such as bananas that are sensitive to ethylene oxide shall not be palletized and wrapped with items that are ethylene oxide producers such as apples. Plastic wrapped around the product inside the boxes shall be removed to allow air circulation.

d. Fresh mushrooms shall not be packaged airtight. Packages that are wrapped in plastic shall have air hole cut into plastic 1/8 inch in diameter or larger.

e. FF&V such as bananas, potatoes and onions that are sensitive to chill damage shall be delivered without refrigeration or not less than 56 °F (14°C). FF&V delivered in an open flatbed vehicle shall be protected with a tarp.

f. For repacked FF&V, the recycled boxes shall be clean and odorless; weigh not more than 45 pounds, (20 kilograms); labeled with the name and weight of the item on two adjacent sides of the box and legibly handwritten or printed.

FROZEN MEAT AND POULTRY

a. Unless otherwise requested, all frozen meat and poultry products must be USDA inspected or USDA certified. They must be listed in one of the following publications: "Meat and Poultry Inspection Directory", or "Directory of Sanitarily Approved Food Establishment for U.S. Armed Forces Procurement. ".

Temperature at delivery shall be 0°F (-18°C) or below. If the product is frozen to the point that a bimetallic thermometer cannot be pushed into the product and there does not appear to be significant surface thawing or crystallization the product shall be considered acceptable. These factors shall be considered due to the lack of proper equipment for drilling frozen item.

c. Age at delivery in the frozen state:

(1) Beef shall be delivered no more than 12 months after the date of pack.

(2) Poultry shall be delivered no more than 12 months after the date of pack.

(3) Pork shall be delivered no more than 12 months after the date of pack.

(4) Lamb and veal be delivered no more than 12 months after the date of pack.

NOTE: If the manufacture, slaughter or expiration date is stamped, not embossed on the box, the Health Certificate from origin shall be available for verification by the inspecting U.S. Army Veterinary Representative.

4. FROZEN WATERFOODS:

a. Temperature at delivery 0°F (-18°C) or below and shall be checked using the guidance reference previously in paragraph II.3.a.

b. Age at delivery in the frozen state:

(1) Seasonal packed items shall be delivered no more than 12 months after the date of pack.

(2) Oysters shall be delivered within 6 months of shucking/freezing.

(3) Shrimp shall be delivered within 180 days, of packaging/freezing.

c. General Guidance: All items shall be delivered in excellent condition, practically free of parasites, and show no evidence of mishandling.

SHELL EGGS:

a. Shell eggs shall be cleaned and free of damage (broken, cracked, leaker, etc.,). The U.S. Army Veterinary Representative shall recommend rejection of eggs with excessive dirt or feces.
NOTE: A small quantity of dirt is allowed on eggs delivered from plants that are only approved for unwashed eggs, small defined as having relatively little size or slight dimension.

b. Fresh shell eggs delivered directly from the farms within 48 hours of production may be delivered in unrefrigerated vehicles that are covered. The vehicles must meet all the requirements listed in Section I, par. 2. Boxes shall be marked with the date of production with the vendor's name and address.

c. Chilled fresh shell eggs that are procured from food distributors shall be delivered in refrigerated vehicles and shall be delivered within 15 days from the date of packaging. Internal temperature of eggs at delivery must be 41^{o}F (5^{o}C) or below.

6. BAKERY PRODUCTS:

a. Commercial labeling and/or coding shall be acceptable provided that the day or date of baking and packaging can be easily determined.

b. Bakery products shall be delivered within 48 hours from the date of production. Frozen bakery products shall be delivered within 6 months from the date of production, (SL 12 months), and in a refrigerated truck with a temperature of 0°F (-18°C).

SECTION III. SPECIFIED ANCHORAGE DELIVERIES

1. Due to the special circumstances associated with anchorage deliveries, the following exceptions are authorized, but shall not relieve the BPA holder of any other requirements in the Quality Assurance Provisions unless specifically listed below:

a. Dairy products may be delivered in non-refrigerated containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. When a refrigerated unit is not used, the dairy products shall be packed in special containers that hold multiple units of product (bi-wall/tri-wall boxes), with dry ice based on the product weight to maintain internal temperature of 41°F (5°C). The special container shall be packed to allow air circulation within. Dairy products shall be given the highest priority for loading/off-loading upon receipt.

b. FF&V may be delivered in unrefrigerated containers in the most expeditious manner to ensure the least amount of exposure to high temperatures.

c. Miscellaneous frozen products may be delivered in non-freezer containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. Frozen items shall be packed with dry ice based on the product weight to maintain frozen state. The special container shall be packed to allow air circulation within. Although slight temperature deviations may occur, proper packaging and sufficient quantities of dry ice shall preclude excessive temperature deviations and thawing. Any item showing sign of thawing shall be rejected.

2. Although special considerations are authorized in anchorage deliveries, no exceptions have been authorized or shall be accepted for reduced sanitary standards, including the sanitation of the vehicles, boats, and shipping

containers. The reuse of containers to transport products with dry ice is authorized as long as the container is sanitary and serviceable.

3. No deviations to these Quality Assurance Provisions are authorized without prior written approval from the Contracting Officer and U.S. Army Veterinary Representative. Deviations shall be granted prior to quotes being accepted and only for the particular delivery in question.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) MUTUAL AGREEMENT

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nyspnt01081340

1. This modification is issued to incorporate the followings:
   a. provide and install fender protectors to include mobilization and demobilization under new SUB-CLIN 0210AF.
   b. mobilization and demobilization of fender protectors under new SUB-CLIN 0210AG.
   c. mobilization and demobilization of submarine fender under new SUB-CLIN 0210AH.
2. As a result, Exhibit A, Lot 2, for the port of Subic and Section C, Statement of Work will be replaced with new pages.
3. The estimated total contract value is increased by $70,000 from $523,994 to a new estimate amount of $593,994.
4. All other terms and conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by $70,000.00 from $523,994.00 to $593,994.00.

SECTION B - SUPPLIES OR SERVICES AND PRICES

Global Changes

CLIN 0001 -- CLIN 9000
The PROG code A30 has been added.
The MDAP/MAIS Code 000 has been added.

CLIN 9000
The unit price amount has increased by $70,000.00 from $523,994.00 to $593,994.00.
The total cost of this line item has increased by $70,000.00 from $523,994.00 to $593,994.00.

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

Paragraph 10 of Statement of Work in Section C has been modified:

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

10. FENDERS (CLIN XX10)

10.1.The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

10.2. The Contractor shall provide and install fender protectors.

SECTION I - CONTRACT CLAUSES

Section C - Descriptions and Specifications

OVERVIEW SECTION III
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services for U.S. Navy Ships visiting the Philippines.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in the Philippines. It is to provide services and supplies requested by the ships while in port.

2.2. This contract also includes logistic support services and supplies for Operations Other Than War (OOTW) required by other U.S. Government organizations or agencies. Examples include U.S. Marine Corps, U.S. Army, U.S. Air Force, Military Sealift Command (MSC), NFAF Fleet, U.S. Coast Guard, etc.

2.3. The contract may be subdivided into Lots. Lots may be for individual Ports or they may include several Ports under one Lot. For this contract, Lot 1 is for Manila, Lot 2 is for Subic Bay, Lot 3 is for Cebu, Lot 4 is for All Other ports in Philippines and Lot 5 is for Operations Other Than War (OOTW) in the country.

2.4. The individual HS items provided under this contract are listed in Exhibit A, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.5. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.6. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for six (6) months. Additionally, the contract will include FAR52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S.ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

Military Sealift Command Ships (USNS)
U.S. Coast Guard (USCG) Ships
U.S. Army Ships
Department of Defense (DOD) Chartered Ships
U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

During U.S. Military Exercises or Operations.

When Host Nation provided support is available.
When U.S. Government owned supplies or services are available.
When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously husband a maximum of six (6) ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels shall only be charged Class IA Management Fees as stated in the schedule. Attachment 2 provides details – Classification of Navy Ships.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subsequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management husbanding services and are for items such as vehicles, phones or other services.

13. ORDERING

13.1. Ordering Items on Contract: Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are:

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Det Singapore warranted KO or their authorized representative.

13.2. Short Notice Orders: Occasionally, there may be short notice orders of less than 48 hours, which the contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

13.3. Substitutions: Substitution of ordered CLIN shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20 pax bus was ordered, but was not available and substituted with two 10 pax vans. The Contractor will only be able to charge for one 20 pax bus not two 10 pax vans. If the requiring

activity and AGR agree to rates of the substituted CLINs, then it is not considered to be substitution but a change to the requirement.

13.4. Cancellation of Orders:

13.4.1. Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the cntrct clause titled "Termination for the Government's Convenience (FAR 52.212-4)", as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

13.4.2. In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government's Convenience clause as stated above.

13.4.3. In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

14. CORRESPONDENCE IN ENGLISH - All correspondence will be in English. All electronic communication between visiting vessels and contractor shall be copied to FISC Det Singapore Contracting Officer and Logistic Support Representative. This is to ensure oversight and assistance to either party as required.

15. STANDARDS FOR PROFESSIONAL SERVICES

15.1. The Contractor shall bring to the Navy the highest level of commitment to customer satisfaction including the timely delivery of goods and services at fair and reasonable prices to ships making port visits; continuous oversight of costs and performance throughout the areas covered by this contract; and, meaningful suggestions on strategies and tactics to control costs and improve performance under this contract. To this end, the Contractor shall identify a representative to act as the principal point of contact between itself and the U.S. Government concerning cost and performance issues throughout the Region. The duties of this individual shall not impede communications among ships, DAOs, Port Services Officers and the U.S. Government.

15.2. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

15.3. The Contractor shall be responsible for obtaining any necessary insurance, licenses, permits, accreditations, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

15.4. The Contractor shall ensure that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

15.5. The Contractor will ensure that subcontractors comply with these requirements.

16. HEIGHTENED VIGILANCE

16.1. The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16.2. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED - (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM)

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit. The Contractor shall only charge for actual usage while the vessel is in port.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All Philippine Government Taxes are included in the unit cost when applicable.

19.3. Port Tariff (PT) or other controlled prices – (See Exhibit B – Port Tariff Costs) Items listed as PT for Port Authority or other government type organizations will be paid at the current published rates. For example, if the port provides items such as Tugs, Line Handlers, Brows, Landline telephones, and /or Cranes. They will be listed as PT in The Schedule. The Contractor can only charge the U.S. Government at what was charged by relevant port authorities.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs).

Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

BG	Bag
DY	Day
EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
JB	Job
LO	Lot
MO	Month
NSP	Not Separately Priced
PK	Package
PT	Port Tariff
TBD	To Be Determined
TP	Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), Option Year 1 is one (1), and Option Year 2 is two (2). (For example a base year would be 0XXX, and the Option Year 1is 1XXX, and Option Year 2 is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX). The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB for Dive & Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract, place an order, or obligate funds.

- DAY: A calendar day.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 - Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

- Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.
- Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPARATELY PRICED (NCP): Item that is not separately priced. Cost of the item should be factored into the Management Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- PROPERLY: Conform to the required standard of competence in the relevant profession, trade or industry. Comply with requirements for insurance, licenses, permits and accreditations in connection with work performance.

- "RESERVED": An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- TASK ORDER (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

- TRIP: From one point to another and back (round trip)

- WEEK: A week consists of seven (7) full days

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual: Leonard G. Francis

Title of Individual: Managing Director

Mailing Address: 15D Pandan Road, Singapore 609266

Tel No. (Work): (65) 62727937

Fax No. (Work): (65) 62707240

Mobile: (65) 97983155

E-mail address: Leonard@glennmarinegroup.com; glenncom@glennmarinegroup.com

CLAUSES INCORPORATED BY FULL TEXT

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1 PRE-ARRIVAL HUSBANDING DUTIES.

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. Pre-arrival CRAFT Cost Estimate - The contractor shall furnish to each ship and FISC Det Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship and the Contracting Officer within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24 hour contact phone numbers.

1.2.5. The Contractor shall provide the SUPPO upon ship's arrival a copy of The Schedule and SOW, applicable port tariffs and current prices for frequently ordered services such as laundry services and vehicle rental.

1.2.6. Money Exchange Services:

1.2.6.1. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.6.2. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. Exchange services onboard ship shall be made available to crewmembers at least two hours daily with buy back service on the day before the ship's departure. The exchange rate will be the "Interbank Rate – Median Price" at the internet site www.oanda.com on the date of the exchange of currency (extended out to four decimal points). The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate above.

1.2.7. Laundry Services:

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2. The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. Interpreter Services:

1.2.8.1. All contractor personnel who deal directly with the ship must speak and understand conversational English and be able to discuss technical aspects of shipboard requirements and services available in the port.

1.2.8.2. The Contractor is responsible for providing all interpreter services necessary to assure timely delivery and performance of the supplies and services ordered by the Supply Officer under this contract or any other contract.

1.2.9. Mail Delivery Services: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers the Philipines then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Det Manila.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the FISC Det Manila prior to arrival to ascertain how many personnel will require assistance.

1.2.13 The Contractor shall facilitate the ship's timely departure.

1.2.13.1 The Contractor shall provide a timely cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain a written receipt from an authorized ship representative accepting all services or supplies provided.

1.2.13.3. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Det Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $3,000, the Contractor shall provide information on the results of competition conducted by providing: name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section C, Overview, paragraph 15, Standards for Professional Servic; sub-paragraph 15.1 and 15.2.

No later than 60 days after contract award, the contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan

for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.4.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be in accordance with Attachments 9 and 10. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.4.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Manila within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.4.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Detachment, Europe. A listing of approved sources is available via the U.S. Army Veterinary Command's (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided as Attachment 11.

1.4.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.4.5. The Contractor shall comply with the Quality Assurance Provisions as per attachment 12.

1.5. PRE-SAILING VISIT: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.5.1. The payment will be made by the ship prior to departure from the port. If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Officer, U.S. Naval Regional Contracting Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury check. The Contractor must accept the U.S. Government commercial purchase card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is the Mastercard. If a ship uses a U.S. Government credit card, the ship shall reimburse the Contractor any surcharge imposed by the financial institution processing the credit card transaction. The applicable credit card surcharge cannot exceed three (3) percent. Upon award of contract, the Contractor shall provide evidence furnished by theFinancial Institution of the credit card surcharge.

1.5.2. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.5.3. Copies of all invoices presented to the ship shall be provided to FISC Det Manila Contracting Officer within 5 working days from the departure of the visiting vessel.

1.5.4. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

2. OPERATIONS OTHER THAN WAR (OOTW) AND EXERCISE/ LOGISTIC SUPPORT FEES (LOT 5)

2.1. Operations Other Than War (OOTW), sometimes referred to as "contingencies", are defined as emergency situations caused by war, natural disaster, terrorist or subversive activities, collapse of law and order, or political instability. In addition to rescue and humanitarian relief missions, military contingencies can include demonstrations of force; raids; larger operations undertaken to protect U.S. interests, lives, and property; training efforts and exercises in preparation for actual contingencies shall also be included.

2.2. An exercise is defined as a prearranged, preplanned evolution being conducted between the U. S. Government and a foreign nation for Humanitarian, training, or other purpose of a specified duration. The name of the event will generally, but may not always, include the word "exercise."

2.3. Logistic Support is defined as goods and services provided in a background framework to an operation or an exercise. Logistics Support can take place in the immediate vicinity of the operation/exercise or a great distance away.

2.4. An operation can be further defined as an unplanned, real world deployment of troops for an indefinite period of time. It can include Non-combatant Evacuation Operations (NEO's).

2.5. The Navy's husbanding contractor shall be familiar with the manner in which the U.S. Navy operates. The Contractor shall have a country wide network familiar with the different political and commercial infrastructures, as well as cultural and language nuances where the OOTW and/or Exercise/ Logistic Support is conducted to ensure timely fulfillment of the Navy's requirements. In addition to the above, the contractor shall furnish personnel with the following qualifications:

2.5.1. ability to speak the local language in the country of the OOTW and/or Exercise/ Logistic Support
2.5.2. capacity to travel to the OOTW or forward logistic site within 24 hours of notification
2.5.3. current innoculation records
2.5.4. possess a valid up-to-date passport

2.6. The Contractor, or his or her representative, shall be available (either in person or by telephone) 24 hours a day, seven days a week, during the time frame of the OOTW and/or Exercise/ Logistic Support operation. He is there to assist the on-site Government representative in fulfilling logistical requirements to include, but not limited to, translation services, identification of sources, liaison with local political and police authorities, and any other official requirements. The contractor team shall consist of a minimum of two personnel per location that the OOTW and/or Exercise/ Logistic Support is being conducted. If there are multiple operations at same time, or a single operation at multiple locations, the contractor may bill for each team that is being deployed in support of OOTW and/or Exercise/ Logistic Support operations.

2.7. If the operation(s) is/are not associated with a ship, or if the action is away from the port city, OOTW and/or Exercise/ Logistic Support CLINS will apply. If the service is provided in port vicinity and the requirement is received from the ship or a contingent on the ship, the contractor's Husbanding fees and CLINS shall apply.

2.8. A sample of the potential list of OOTW and/or Exercise/ Logistic Support supplies and services is provided for contractor reference in Exhibit C. The contractor may be required to locate sources to furnish these supplies and services. The authorized U.S. Government contracting officer will negotiate a fair and reasonable price for

these items at the time of placing the order. In conducting market research for requirements over $3,000, the husbanding contractor shall make every effort to locate at least three sources.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place additional fenders between the breasting barge and the ship when requested.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the Contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting thesubmarine deck. Also, the submarine brow must be capable of supporting shorepower cables without damaging the cable.

5. CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the vessel and a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with OVERVIEW of the contract section, paragraph 14, Standards for Professional Services.

6.7. The Contractor shall pre-position CHT Barges when necessary in accordance with Force protection or other requirements.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with chargers capable of using dual voltage. Each mobile phone provided shall include a spare battery and an operating manual/instruction with published rates for usage.

7.3. The Contractor shall provide activation, auto roaming, long distance accounts, and airtime for land and mobile hand phones.

7.4. The Contractor shall provide commercial telephone booth and sale of phone cards for personal use by crewmembers.

7.5. The Contractor shall provide pre-paid International Calling Cards for official use.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel (minimum two assistants), and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct Force Protection (FP) operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General (CLIN XX01 & XX02): The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The contractor must develop a comprehensive FP approach which ensures the best security for the ship whether at pierside or at anchorage. The contractor must coordinate all aspects of FP planning and services with Port Authorities, HN agencies, and U.S. Embassy security staff. If the HN is supplying FP assets the contractor must verify they are available and are scheduled to show up on time. The Contractor will follow the contract requirements in this FP section unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7. Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)

- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Det Singapore Contracting Officer. The Contractor must explain what the FP service will entail and why it is being required. The Contracting Officer will coordinate this requirement with the ship's FP personnel. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions (inclusive of power supply). The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AC)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FLD is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FLD is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 3.

12.6. Perimeter Fencing (CLIN XX12AD)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AE THRU XX12AH)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AJ & XX12AK)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations and specifications.

12.9. Portable Latrine (CLIN XX12AL)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AM)

12.10.1. The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards Services (CLIN XX12AN, CLIN XX12AP & CLIN XX12AQ)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pierside to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.11.3. All security guards (CLIN XX12AN, XXAP and XXAQ) shall be armed.

12.12. EOD / Drug K9 Dog and Handler Team (CLIN XX12AR & CLIN XX12AS) - The Contractor shall provide teams of EOD / Drug K9 detection teams. The teams shall include 1 dog and 1 handler.

12.13. Two Way Radios (CLIN XX12AT) The Contractor shall provide two way radio sets capable of communicating with the ship, picket boats and to the shore patrol designated individuals.

12.14. Hand Held Metal Detectors (CLIN XX12AU) – The Contractor shall provide hand held metal detectors capable of detecing metal.

12.15. Hand Held Explosive Detectors (CLIN XX12AV) – The Contractor shall provide hand held explosive detectors capable of detecting explosives.

12.16. Walk Thru X-Ray & Metal Detector (CLIN XX12AW) – The Contractor shall provide walk thru X-ray & metal detector capable of X-raying hand carried luggage and bags to determine its contents, and also capable of detecting metal. Equipment shall be manned by professionally trained operator to operate the equipment 24 hours a day.

13. FORKLIFT WITH OPERATOR (CLIN XX13) - The Contractor shall provide forklifts with operators for loading and unloading operations.

14. FUEL

14.1. Normally, fuel is provided by the HN or by other U.S. Navy bunkering contracts. However, if those sources are not available, then the HS contractor may be required to assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor

cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or FISC Det Singapore and request approval to proceed. Only after this is done, may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by theh port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide fuel in accordance with Attachment 6 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship; and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED – LINESBOATS

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (WITH OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with operator and a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled "SHIP'S SPARE IN TRANSIT"

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship's arrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT" and addressed to the ship's Commanding Officer of the Unit and care of the Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the package to the shp after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative or FISC Det Manila.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. RESERVED (MISCELLANEOUS)

21. OIL BOOMS (CLIN XX21)

21.1. The Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship's duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with fendering and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste barges/trucks when necessary in accordance with Force Protection or other requirements.

23. PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide qualified pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7 – Potable Water Specifications.

26. RESERVED – (PRATIQUE)

27. REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide shore power to the ship using the one or both of the following:

28.1.1. Port provided permanent connection system.

28.1.2. Or diesel generators with fuel along side the ship. Generators shall emit sound levels less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED – (SHORE STEAM)

30. STEVEDORES (CLI XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with qualified drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Det Manila if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8 – Water Taxi Specifications.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO or FISC Det Manila.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by the ship’s duty officer onboard. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX35)

35.1. The Contractor shall prepare a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit D – CRAFT Report.

35.2. The report shall be submitted to FISC Det Singapore Contracting Officer or FISC Det Manila within five working days of each ship’s departure.

CLAUSES INCORPORATED BY FULL TEXT

ADDITIONAL CONTRACT TERMS AND CONDITIONS

(a) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(b) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155. Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(c) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(d) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(e) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(f) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(g) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirement for the supplies and services specified in the Schedule that exceed the quantities that the activity may furnish within its own capabilities.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(h) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(i) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(j) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(k) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(l) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address: FISC Detachment Singapore

PSA Sembawang Terminal
Deptford Road, Building 7-4, Unit 2-9
Singapore 759657

Military Address: PSC 470, Box 2100
FPO AP 96534-2100

FAX Numbers: (65)-6-750-2639 or 2382

(m) Provision for Wood Products SA 03-05 NAVSUP CLAIMANCY POLICY - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material (SWPM) (Nov 202) NAVSUP

(1) Definition. 'Pinewood nematode' as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(n) Agency Protests

(1) Prior to submission of an agency protest, all parties should use their best efforts to resolve concerns raised by an interested party at the contracting officer level through open and frank discussions.

(2) FISC Det Singapore will process agency protests in accordance with the substantive and procedural requirements of FAR 33.104(d).

(3) Pursuant to FAR 33.103(d)(4), an agency protest may be filed directly with either the Contracting Officer or the Chief of the Contracting Office. A protestor who initially files an agency protest with the Contracting Officer may appeal an adverse decision to the Chief of the Contracting Office. Agency protest submissions should clearly identify the initial adjudicating official, i.e., the "Contracting Officer" or "Chief of the Contracting Office".

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Apr 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

____ 252.243-7002 Requests for Equitable Adjustment (MAR 1998) (10 U.S.C. 2410).

____ 252.247-7023 Transportation of Supplies by Sea (MAY 2002) (_____Alternate I) (MAR 2000) (_____Alternate II) (MAR 2000) (____Alternate III (May 2002).

____252.247-7024 Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (Federal Acquisition Regulation 52.212-5), the Contractor shall include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014 Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).

252.237-7019 Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).

252.247-7023 Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631).

252.247-7024 Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) In addition to the clauses listed in paragraph (b) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5 (JUL 2005) (DEVIATION), the Contractor shall include the terms of the following clause, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014	Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).
252.232-7019	Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).
252.247-7023	Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631)
252.247-7024	Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

252.233-7001 CHOICE OF LAW (OVERSEAS) (JUNE 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

Section J - List of Documents, Exhibits and Other Attachments

CLAUSES INCORPORATED BY FULL TEXT

ATTACHMENT 1

REFUSE SERVICE DEFINITIONS

The following are Refuse Definitions used for this contract:

(A) **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

(B) **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

(C) **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

(D) "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

(E) "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

(F) "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

(G) "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

(H) "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

(I) The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

(J) Displacement is expressed in tons and represents fully loaded displacement.

(K) The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

(L) There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

ATTACHMENT 3

FLOATING LINE OF DEMARCATION (FLD) SPECIFICATIONS

The following are the Governments basic requirements for the Floating Line of Demarcation Specifications to be used for this contract:

1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around anchored ships. The purpose of the FLD is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to CNB radar. The Picket Boats will patrol outside of this visual reference. The FLD shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) work boats to tend to the FLD at all times. The FLD is not designed to stop approaching unauthorized watercraft rather it is to help identify a safe standoff zone.

2. The size of the Floating Perimeter will be approximately 2500 meters to 2700 meters based on a ship's length of approximately 800 feet. At Singapore Man-of-War Anchorage, the perimeter will be positioned 400 feet (125 meters) outside the swing radius of the ship.

3. Weights sufficient to anchor the FLD in place to the seabed. The size and number of weights will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the FLD line intact at all times regardless of sea conditions.

4. The Contractor shall have communication capabilities, either VHF or cellular phone with MPA Port Operation Control, CNB and U.S. Navy vessel. The contractor shall report the status of the Floating Visual Line of Demarcation to MPA Port Operation control every two hours or other regular interval agreed upon between Contractor and MPA Port Operation Control.

5. The Contractor shall provide a minimum of two (2) work boats to tend the FLD at all times while the system is deployed.

6. The FLD shall be deployed in the most expeditious manner as soon as the U.S. Navy vessel is anchored.

7. When the FLD is retrieved, the Contractor must show documentary proof that all equipment deployed is removed from the location.

8. The Contractor shall provide the U.S. Navy, CNB and MPA an updated and current emergency contact list in case of contingencies.

9. Below are two examples of FLDs.

a. Example 1 - Continuous Line FLD –

i. Specifications: Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable ECP for access.

ii. Buoys or floats positioned every meter on the line sufficient to keep line afloat and visible on the surface of the water.

iii. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to CNB radar.

iv. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the perimeter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact and in position at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

b. Example 2 - Floating Buoy System (FBS)

i. Specifications: The FBS must clearly show a perimeter line and fully surround the ships at anchorage. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the demarcation line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical. In addition, buoys must also be visible on CNB radar.

ii. Weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

2. Contract Pricing: Prices are firm-fixed-price per unit and are inclusive of all costs which include the following:

a. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

b. Mobilization and Demobilization (Mob & De-mob). All Mob & De-mob costs shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes transportation of equipment and charges for the use of cranes, forklifts, tugs, workboats and any other equipment and labor required for the deployment, maintenance and retrieval for the floating perimeter.

c. Repositioning equipment. All repositioning of equipment shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

d. Pre-positioning / Pre-staging and Vetting Operations. All pre-positioning / Pre-staging and vetting operations shall be included in the unit price. The vessel shall only be charged for the actual number days that the perimeter is in use while the ship is port. No additional days shall be charged.

3. Time Calculations: These CLINs are based on daily rates. Time will begin being measured once the equipment is deployed round the vessel and capable of operations.

4. General: The Contractor is responsible for providing floating visual line of demarcation. The Contractor must work closely with other US Navy contractors such as subsistence contractor. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

5. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

a. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

b. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

6. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

a. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

b. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

c. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

7. Inspections: The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

ATTACHMENT 4

PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

(M) The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

(N) The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

(O) Ships at anchorage will normally require two Picket Boats.

(P) The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

(Q) The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

(R) The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

(S) The Picket Boat will meet the following requirements:

7.1. Licensed for commercial operations by local country Department of Transportation.

7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

3.1.1. Portable Spotlight

ATTACHMENT 5

SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

    1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

    1.2. Security guards may be provided through private security firms or through local police officials.

    1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

    1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

    1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside: (CLIN XX25AC)

    2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

    2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

    2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

    2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.6. The following equipment will be required as a minimum for each guard:

2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.5. Flashlight for nighttime inspections.

2.6.6. Any locally required equipment to perform their job.

2.7. ROEs Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

2.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats: (CLIN XX25AJ)

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN XX25AL. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

3.8.1.2 If the first warning is ignored, the security guard will immediately notify the ship of the threat.

3.8.1.3 The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

3.8.1.4 As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a

weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 2622
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium	 1.0 0.5 1.0	D 3605 9/

Vanadium	0.5	
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

   (a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

   (b) The test temperature shall be 25ºC.

   (c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST **METHOD** **REQUIREMENTS**

1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min
5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)
7. Viscosity @ 40ºC	ASTM D 455	1.7 - 4.5 CST
8. Color	ASTM D 1500	3 max
9. Gravity	ASTM D 1298, D 287	Record
10. Carbon Residue	ASTM D 524	0.35% max
11. Ash	ASTM D 482	0.01% max
12. Sulfur	ASTM D 129, D 1552 D2622	1.00% max
13. Copper Corrosion	ASTM D 130	3 max

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

TEST REQUIREMENTS	METHOD	
1. Cetane Number	ASTM D 613	42 min
or		
Cetane Index	ASTM D 976	43 min

NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338ºC.

2.	Appearance @ 21°C or ambient temp. (whichever higher) or Water & Sediment	Visual ASTM D 2709	Clear & Bright 0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357°C max.
4.	Flash Point NOTE: The flash point value is absolute and no value less than 60°C is permissible.	ASTM D 93	60°C min
5.	Cloud Point	ASTM D 2500	-1.1°C (30°F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40°C	ASTM D 445	1.7 - 4.5 cst
7.	Color NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted if red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.	ASTM D 1500	3 max.
8.	Density @ 15°C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524 ASTM D 189	0.35 mass % max.
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294, ASTM D 1552, or ASTM D 2622	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	**GRADE RMB-10 (IFO 60)**	**GRADE RME-25 (IFO-180)**	**GRADE RMG-35 (IFO 380)**	**TEST METHOD**

Density @15°C, kg/m^3, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

ATTACHMENT 7

POTABLE WATER SPECIFICATIONS

The following are Potable Water specifications used for this contract.

NATIONAL PRIMARY DRINKING WATER REGULATIONS (NPDWR) BUREAU OF MEDICINE AND SURGERY (BUMED) TREATED WATER QUALITY STANDARDS /ENVIRONMENTAL PROTECTION AGENCY

CONTAMINANT	**MCLG (mg/L)** [1]	**MCL (mg/L)**	**AL (mg/L** [2]**)**

FLUORIDE	4	4	

(1) **Maximum contaminant level goal (MCLG).** The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are no enforceable health goals.

(2) **Action level (AL)**. Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90th percentile" lead level is greater than 0.015 mg/L).

Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

TOTAL TRIHALOMETHANES (THE SUM OF THE CONCENTRATIONS OF BROMODICHLOROMETHANE, DIBROMOCHLOROMETHANE, TRIBROMOMETHANE (BROMOFORM), AND TRICHLOROMETHANE (CHLOROFORM)		0.10[(1)]

Note:
(1) The MCL for total trihalomethanes applies only to water systems serving 10,000 or more individuals and which add a disinfectant to the water. For systems serving less than 10,000 individuals, individual States or BUMED (in overseas locations) may adopt an effective date for the MCL.

Microorganisms	**MCLG[1] (mg/L)[2]**	**MCL or TT[1] (mg/L)[2]**
Cryptosporidium	as of 01/01/02:0	as of 01/01/02:TT 3
Giardia lamblia	0	TT[3]
Heterotrophic plate count	n/a	TT[3]
Legionella	0	TT[3]
Total Coliforms (including fecal coliform and E. Coli)	zero	5.0%[4]
Turbidity	n/a	TT[3]
Viruses (enteric)	zero	TT[3]

Note:
[1] Definitions:
Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to MCLGs as feasible using the best available treatment technology and taking cost into consideration. MCLs are enforceable standards.
Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety and are non-enforceable public health goals.
Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
Treatment Technique - A required process intended to reduce the level of a contaminant in drinking water.

[2] Units are in milligrams per liter (mg/L) unless otherwise noted. Milligrams per liter are equivalent to parts per million.

[3] EPA's surface water treatment rules require systems using surface water or ground water under the direct influence of surface water to (1) disinfect their water, and (2) filter their water or meet criteria for avoiding filtration so that the following contaminants are controlled at the following levels:

- Cryptosporidium: (as of January 1, 2002) 99% removal/inactivation
- Giardia lamblia: 99.9% removal/inactivation
- Viruses: 99.99% removal/inactivation
- Legionella: No limit, but EPA believes that if Giardia and viruses are removed/inactivated, Legionella will also be controlled.
- Turbidity: At no time can turbidity (cloudiness of water) go above 5 nephelolometric turbidity units (NTU); systems that filter must ensure that the turbidity go no higher than 1 NTU (0.5 NTU for conventional or direct filtration) in at least 95% of the daily samples in any month. As of January 1, 2002, turbidity may never exceed 1 NTU, and must not exceed 0.3 NTU in 95% of daily samples in any month.
- HPC: No more than 500 bacterial colonies per milliliter.

[4] No more than 5.0% samples total coliform-positive in a month. (For water systems that collect fewer than 40 routine samples per month, no more than one sample can be total coliform-positive). Every sample that has total coliforms must be analyzed for fecal coliforms. There may not be any fecal coliforms or E. coli.

[5] Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Disease-causing microbes (pathogens) in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. These pathogens may pose a special health risk for infants, young children, and people with severely compromised immune systems.

Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites which are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Sampling requirements for the Navy public water system apply.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Auto analysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the Multiple-Tube Fermentation (MTF) Technique; and the Membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use applies.

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, unless the Contracting Officer on a case-by-case basis waives this requirement.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the Contracting Officer may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before.

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms, or E. coli testing on total

coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements which apply when a sample is fecal coliform-positive.

Turbidity: The MCL for turbidity applies to both community water systems and non community water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at Contracting Officer option).

b. Five turbidity units (maximum) average for 2 consecutive days.

The MCL for Radiological Contaminants are:
Gross alpha particle activity including radium 226 but excluding
radon and uranium . . . . . 15 pCi/L
Beta particles and photon emitters ……4 millirems / year
Combined radium 226 and radium 228 . . . . . .5 pCi/L
Tritium . . . . . 20,000 pCi/L
Strontium-90. . . . . 8 pCi/L
Uranium …….. 30ug/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

National Secondary Drinking Water Regulations (NSDWR) The Secondary Maximum Contaminant Levels (MCLs)

CONTAMINANT	MCL (mg/L)
ALUMINUM	0.05 TO 0.02
CHLORIDE	250
COLOR	15 COLOR UNITS
COPPER	1
CORROSIVITY	NONCORROSIVE
FLUORIDE	2
FOAMING AGENTS	0.5
IRON	0.3
MANGANESE	0.05
ODOR	3 THRESHOLD ODOR NUMBER
PH	6.5 - 8.5
SILVER	0.10
SULFATE	250
TOTAL DISSOLVED SOLIDS (TDS)	500
ZINC	5

Note: The contaminants covered by this regulation are those that may adversely affect the aesthetic quality of the drinking water. These secondary levels represent goals for drinking water quality but are not Federally enforceable.

(3) The reception, handling, storage, and delivery of potable water to ship's water systems shall be carried out under completely sanitary conditions.

(4) For pierside berthing, delivery shall be made by hose from the pier whenever possible. If barge service is deemed necessary, the Contractor shall ascertain from the ship's Supply Officer the exact amount needed prior to making delivery.

(5) The Contractor shall make deliveries during normal working hours, unless otherwise approved by the ship's Supply Officer or his/her authorized representative.

(6) All equipment, trucks and barges used by the Contractor in performance of these services shall be subject to inspection and test by an authorized representative of the U.S. Government as the Contracting Officer may specify. Final inspection/acceptance shall be subject to approval by the ship's Chief Engineer or his/her authorized representative. The U.S. Government inspectors shall be entitled to inspect the equipment, trucks, and barges at all reasonable times, as often as they may deem necessary, and at such reasonable place or places as the U.S. Government may specify.

(7) The Contractor shall, without cost to the U.S. Government, furnish the necessary personnel and facilities to conduct such test and examination of samples of water and barges used hereunder as the Government inspector may designate, to determine the extent or possibility of contamination of such water, equipment, and barges. The Contractor may, at its option and cost, have the tests conducted by a recognized Sanitary Inspector provided that the performance of the tests and examinations by such Sanitary Inspection has been approved in advance and in writing by the U.S. Government Inspector.

(8) All tests and examinations, whether performed by or on behalf of the Contractor, shall be conducted in the presence of the U.S. Government Inspector.

(9) The Contractor agrees to furnish such reports and execute such forms as the U.S. Government may require in connection with services performed under this contract and further agrees that requests for such reports and execution of such forms will be executed promptly.

ATTACHMENT 8

WATER TAXI SPECIFICATIONS

The following are Commander 7th Fleet (COMSEVENTHFLT) Water Taxi specifications used for this contract.

1. Compliance - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2. Quality of Equipment - All equipment provided must meet COMSEVENTHFLT water taxie specifications, meet all safety standards required by local law, and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3. Quality of Services - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. Inspection and Acceptance - The Contractor shall pre-inspect the provided boats using the COMSEVENTHFLT specifications set forth below. Boats failing the inspection will not be used. The Contractor shall provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the designated NRCC Singapore Logistics Support Center (LSC) Water Taxi Inspector. The LSC Inspector will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the LSC Inspector shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor, the NRCC Singapore Contracting Officer (KO), and the LSC Inspector. An info message will be sent to Commander Logistics Western Pacific (COMLOGWESTPAC) and the operational chain of command up to and including COMPACFLT.

5. COMSEVENTHFLT Specifications:

5.1. Boat requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris, and fitted for service required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of (insert country). Notwithstanding compliance with local laws and regulations, the contractor shall meet all additional requirements as set forth throughout Section 5.

5.1.1. Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

5.1.2. Each boat shall be capable of transporting a minimum of (see Schedule of Services) passengers. (Weight restrictions may also be set forth, if appropriate.)

5.1.3. The following information shall be conspicuously posted in both English and (the appropriate foreign language):

5.1.3.1. Current Operator's/Captain's license and boat names.

5.1.3.2. Passenger/weight capacity limit notice.

5.1.3.3. Location of life jackets and other life saving equipment.

5.1.3.4. Location of all exits indicated in large letters.

5.1.3.5. Emergency procedures

5.1.4. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

5.1.5. Operation of the boat shall be in a safe and seaworthy manner.

5.1.6. The consumption of alcoholic beverages shall not be permitted aboard the boat.

5.2. Operator qualifications: All personnel or employees of the contractor operating boats providing subject services shall have all certification required and issued by (insert country) for the operation of the type class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

5.3. Security: During the term of this contract the ship(s) to be serviced (insert ship name if purchase order) agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat--SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He/she will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

5.4. Boat capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

5.5. Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the (Contracting officer or Husbanding Agent, as appropriate), or authorized representative prior to acceptance. This inspection shall include but not be limited to:

5.5.1. Hull

5.5.1.1. Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures.

5.5.1.2. Superstructure, including masts and stacks.

5.5.1.3. Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines.

5.5.1.4. Provisions for drainage of sea water from exposed decks over the side and not into the bilges.

5.5.1.5. Access/egress points- adequacy of number and location.

5.5.2. Machinery

5.5.2.1. 2-way radio or other reliable means of electronic communications (i.e., cellular phone) plus an additional battery back-up is required.

5.5.2.2. Main propulsion and auxiliary machinery essential to operation of boat.

5.5.2.3. Sea and bulkhead closure valves.

5.5.2.4. Bilge auction strainers and dewatering systems-bilge pump to be tested by operation

5.5.2.5. Bilges free of flammable liquids

5.5.3. Electrical

5.5.3.1. Cables.

5.5.3.2. Navigation, deck, and emergency lights.

5.5.3.3. Rotating electrical machinery; e.g., generators and motors --Storage batteries

5.5.4. Lifesaving equipment

5.5.4.1. Life preservers - sufficient number for maximum capacity of boat, accessible and in satisfactory condition.

5.5.4.2. Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity.

5.5.4.3. First aid kits, life rings and distress lights.

5.5.4.4. Distress signaling devices

5.5.5. Fire fighting equipment

5.5.5.1. Fire pump - test by subjecting fire hose(s) to fire pump pressure.

5.5.5.2. Portable fire extinguishers.

5.5.5.3. Fixed systems, e.g., C02 cylinders.

5.5.6. Steering apparatus

5.5.7. Miscellaneous systems and equipment

5.5.7.1. Harbor charts.

5.5.7.2. Ground tackle and mooring lines.

5.5.7.3. Whistle/fog horn, bell.

5.5.7.4. Lighted compass.

5.5.7.5. Radar.

5.5.7.6. 2-way radio capable of Bridge-to-Bridge communications.

5.5.7.7. Current license.

5.5.7.8. Operator qualifications.

5.6. Only approved boats shall be used in performance of this contract. The (LSC Inspector or Husbanding Services contractor, as appropriate) will provide each ship with a list of pre-approved boats. If the LSC Inspector or Husbanding Services contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement-is that contained in paragraph 4.7 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

5.7. Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

5.7.1. Safety of operations. Insure the following are present and in working condition:

5.7.1.1. Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.

5.7.1.2. Fire extinguishers sufficient for the size of the vessel operated.

5.7.1.3. Radio (with battery backup) capable of Bridge-to-Bridge communications.

5.7.1.4. Anchor/chain sufficiency for the size of the vessel operated.

5.7.1.5. Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

5.7.2. Hazards to passengers. Conduct topside visual inspection for safe conditions of the following:

5.7.2.1. Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

5.7.2.2. Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.

5.7.2.3. Ensure no bare or exposed electrical wires or connections are located in the passenger area.

5.7.2.4. Validate that sufficient unobstructed exits are present and marked in English.

5.7.2.5. Verify that no missile hazards, gear adrift, or trip hazards exist.

5.7.3. The following shall be conspicuously displayed, in English:

5.7.3.1. Passenger/weight capacity.

5.7.3.2. Location and number of life jackets.

5.7.3.3. Location of life saving equipment.

5.7.3.4. Locations of exits (if not obvious).

5.8. Critical safety equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or designated representative will have the option of furnishing the missing item. In all cases where government furnished property is provided due to the contractor's failure to meet requirements of the contract, the Contracting officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting officer is not on site, notification will be by message.

5.9. If applicable, FAR 52.245-4, Government-furnished Property (short form) (APR 1984), is incorporated by reference into this (contract or purchase order, as appropriate).

6. Onboard Security: The ship being serviced may provide security personnel for the purpose of maintaining the orderly transportation of their personnel. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

7. Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

8. Deficient Boat - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price or termination of the contract for default.

9. Government Furnished Property - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contractor shall notify the KO and provide information about the circumstances surrounding the deficiency. If appropriate, a reduction in contract price may be made.

ATTACHMENT 9

STANDARDS FOR BREAD, FRESH

1. CHARACTERISTICS: All products under this contract shall have the following characteristics:

a. MATERIAL: All material shall be edible, clean, wholesome, and of good quality free from viable insect infestation or other objectionable foreign matter, flavor or odor.

b. WHEAT FLOUR: The flour shall be prepared from hard or soft wheat, and shall be bleached or unbleached, enriched or unenriched as applicable to the pertinent class of product.

c. WHOLE WHEAT FLOUR: Whole wheat flour shall contain all of the natural constituents of the wheat kernel.

d. RYE FLOUR: Rye flour shall be white rye flour, medium rye flour, dark rye flour or rye meal, as required for the particular end item.

e. SHORTENING: Shortening shall be unhydrogenated or hydrogenated cottonseed, peanut, corn, or coconut oil, hydrogenated soybean oil and flavor shall be free from rancid, reverted, or other objectionable odors and flavors.

f. YEAST: Yeast shall be either active dry yeast or compressed yeast. (Saccaronyces cerevisial)

g. COLOR OF CRUST: The color of crust should be an appetizing nut brown, uniform and free of streaks and spots.

h. SYMMETRY OF FORM: All products shall be uniform in size and shape. No low ends, low centers, flat top, protruding crust or sunken sides.

i. EVENNESS OF BAKE: The products should be evenly baked on all sides, including the ends and bottoms.

j. CHARACTER OF CRUST: The crust should not be too thin and rubbery.

k. GRAIN: The grain should be uniform in texture, without open, coarse, hole or thick cell structure.

l. AROMA: The aroma should be sweet, rich and fresh, combined with a pleasant wheaty or nutty aroma. No strong, musty, gassy or sharp smell, or an unpleasant or rancid ordor.

m. COLOR OF CRUMB: The color of the crumb should be bright, with some luster. The surface of the crumb should present a uniform shade without streaks and dark spots.

n. MASTICATION: The product should not be doughy, dry, tough or grainy.

o. TASTE: The product should not have a flat, sour, salty, foreign or any unpleasant taste.

p. TEXTURE: The product should have a soft and velvety texture. Not rough, course, lumpy, cored, ridged, too loose or too compact.

q. FRESHNESS: Bread and rolls shall not be more than 24 hours old upon arrival at receiving point.

r. WORKMANSHIP: The product shall be prepared, processed, and packaged under modern, sanitary conditions and in accordance with best commercial practices.

2. SPECIFICATIONS FOR BAKERY PRODUCTS

a. All Italian style bread shall be in accordance with formulas and processes established by Italian law.

b. Characteristics, dimensions, and weights for

Bread, White, American Style; and
Bread, Whole Wheat, American Style

(1) Volume: The loaves shall be uniform in volume, approximately 3"W X 9"L X 4-1/2"H (7.6 cm x 22.9 x 11.5 cm) and weigh approximately 16 ounces (454 grams).

(2) Break and Shred: The loaf shall have a uniform break with a well defined shred. This break and shred shall be even on both sides and ends of the loaf. The break should not be excessive to the extent that the top crust separates from the side of the loaf forming a shell crust.

(3) Individual Slice: The bread shall be sliced in even sizes, approximately ½" thick.

c. Characteristics, dimensions, and weights for: Rolls, Italian Style

(1) Volume: The rolls shall be uniform in volume approximately 2-3/4" diameter weighing individually 1.5 ounces (42.5 grams), a package containing 7 rolls weighing approximately 300 grams.

d. Characteristics, dimensions, and weights for: Rolls, Frankfurter American Style

(1) Volume: The rolls shall be uniform in volume approximately 5-3/4" height X 1 -7/8" width X 1-1/4" thickness (14.6 cm x 4.5 cm x 3.3 cm). The individual roll weight shall be approximately 1.6 ounces (45.5 grams), the approximate weight of a package of 8 shall be 13 ounces (365 grams).

(2) Slice: Each roll shall be sliced approximately 80% through the width of the roll, the slice being equidistant from and parallel to the bottom and top of the roll.

e. Characteristics, dimensions, and weights for: Rolls, Hamburger, American Style

(1) Volume: The rolls should be uniform in volume approximately 4" diameter X 1-1/3" thickness (10 cm x 4.4 cm). The individual roll weight shall be approximately 1.6 ounces (45.5 grams), the approximate weight of a package of 8 shall be 13 ounces (365 grams).

(2) Slice: Each roll shall be sliced approximately 80% through the width of the roll, the slice being equidistant from and parallel to the bottom and top of the roll.

ATTACHMENT 10

Summary of "EEC" Quality and Marketing Requirements for Shell Eggs. (Revised)

1. Temperature: 34 - 65 F with no individual temperature MT 70 F.

2. Quality Requirements (Grade A):

a. Air Cell - NMT 6mm in depth
b. White - clear, limpid, of gelatinous consistency, free of extraneous matter
c. Shell - Normal, clean, undamaged
d. Yolk - visible candling as shadow only, not moving away from the center on rotation, free of extraneous matter.

3. Quality Tolerances:

Origin	Destination
NMT 5% total defects	NMT 7% total defects
of which	of which
NMT 2% checks and leakers	NMT 4% checks and leakers
NMT 1% meat and blood spots	NMT 1% meat and blood spots

4. Weight Tolerance (individual egg): NMT 6% of individual eggs may be from the next lower weight grade.

5. Markings:

Cases	Retail Package
Date of Pack (day + month)	Same
Sell by date (*)	Same
Quality and weight grade	Same
Packing Center # and name	Packing center # or name
Producer identification code	Contractor's name and address
Number of eggs packed	Number of eggs per package

6. Sampling Plan:

a. Initial inspection shall be performed in accordance with DPSCM 4155.6, subsection 218.1, European supplement.

b. Full inspection:

Lot size (cases)	Sample size (issue)	Sample size (resale) (**)
<5	1 cs (180 eggs)	15% of retail packages
6 - 10	2 cs (270 eggs)	10%
11 - 30	3 cs (360 eggs)	5 %
31 - 50	5 cs (540 eggs)	4 %
51 - 100	7 cs (720 eggs)	3 %
101 - 1000	10 cs (1080 eggs)	1.5%
> 1000		

(*) Sell by date shall be 23 days from DOP. Remaining shelf life upon delivery shall be 18 days

minimum.
(**) All eggs from each retail package will be examined.

ATTACHMENT 11

SAMPLE LETTER REQUESTING SANITARY INSPECTION

(COMPANY LETTERHEAD)

Contracting Officer
FISC DET SINGAPORE
PSA Sembawang Terminal
Deptford Road, Building 7-4
Singapore 759657

Dear Sir:

We are interested in supplying (specify bread products or eggs) to the U.S. Navy ships calling at the Port of (insert name of port). It is understood that a U.S. Government sanitary inspection of our manufacturing plants and sources of raw materials must be conducted if they have not been previously approved prior to the award of any contract. We request, therefore, that a sanitary inspection be arranged for the following sources:

NAME AND ADDRESS OF PLANT OR SOURCE	PERSON TO CONTACT AND TELEPHONE NUMBER	PRODUCT OR MATERIAL
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Sincerely,

LIST AND INFORMATION TO REQUEST FOR INITIAL INSPECTION

List of products for which approval is requested.
Establishment letterhead - four places.
Name of establishment owner.
Site area size - acres, square feet or square meters.
General description of the area surrounding the plant site.
Building description, i.e. material used in construction, age of building(s), size (in square feet or meters), and number of stories.
Drawing of floor plan of building(s) to include major production areas (for slaughterhoused and dairies only).
List of major processing equipment.
Sources of raw materials.
Output of finished product - average kilograms or tons per day, per week or per month.
Special codes printed on product packages which identify the establishment, the product, and the date of production or packaging.
Number of employees.
Are employees receiving pre-employment or periodic medical examinations? What is the frequency of the periodic examinations?
Program for employee instruction personal hygiene, food, handling techniques, and food hygiene and safety.
Cleaning and sanitizing methods, including chemical used.
Detailed written cleaning and sanitizing program.
Official water quality certification from the local government, including total aerobic bacteria plate count, coliform count, and chemistry.
Name of water source.
Waste disposal program.
Pest control program.
Name of inspection agencies which inspect the plant (government and civilian) and frequency of inspections. Are inspection reports available for review?
Flow chart for the manufacture of each major category of products listed in No.1 above from raw materials to finished products health control points.
What laboratory examinations are performed on products and plants environment? Are the results available for review?
Total number of company vehicles?
Key personnel and point of contact for inspectors.
Direction to plant.

ATTACHMENT 12

QUALITY ASSURANCE PROVISIONS

SECTION I. GENERAL REQUIREMENTS

1. **SANITARILY APPROVED SOURCES:** All subsistence items shall be from approved sources as authorized, or exempted in NAVSUPINST 4335.4F/AR 40-657/AFR 161-32/MCO P10110.31G. Name and address of processing facility shall identify any subcontracting entities utilized other than the primary contractors. FISC DET Singapore has available approved source listings of authorized subsistence incorporated into VETCOM Circular 40-1, Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement (Hawaii and Pacific) and other regions maintained and published by HQ, US Army Veterinary Command, Fort Sam Houston, Texas (http://vets.amedd.army.mil/vetsvcs/approved.nsf). The U.S. Army Veterinary Representative, prior to commencing a contract/Blanket Purchase Agreement (BPA), shall inspect all required potential sources identified. Failing to pass inspection shall be grounds for not issuing a BPA and grounds for cancellation if the facility fails inspection after a BPA has commenced. This applies to all contractors and subcontractors. Documents cited here shall be provided to the contractor upon written request.

2. **DELIVERY VEHICLES:** The supplies delivered under this contract/BPA shall be transported in a sanitary enclosed/covered or open flatbed vehicle. Semiperishable items delivered in open flatbed vehicle shall be covered with a tarp to protect products from rain or foreign objects. Vehicles shall be equipped to maintain the appropriate temperature for the subsistence being delivered. Vehicles shall be maintained in a sanitary condition to prevent contamination of the food and shall be subject to inspection by the government at all reasonable times. Supplies submitted for acceptance in vehicles, which are not sanitary, may be rejected without further inspection. Concurrent transportation of bulk contained pesticides, rodenticides, petroleum products, inedible products, household chemicals, or other caustic or volatile compounds are undesirable but occasionally necessary. When a carrier jointly transports subsistence and cleaning agents or hazardous products, the cleaning agents or hazardous products shall be segregated from the subsistence to the greatest extent. Segregated to the greatest extent means that all cleaning agents or hazardous products shall be unitized, loaded completely lower and horizontally from the subsistence to the maximum distance allowed by the physical configuration of the carrier. Shrink-wrap shall be used to secure items to pallets and provide stabilization.

3. **CODE DATING:** Master-shipping boxes shall be stamped or embossed with code dates, except Fresh Fruits and Vegetables, (FF&V). Coding must represent the date of slaughter, production, pasteurization, manufacture, or expiration/pull date. Open code shall have the date, month and year or Julian date, (last number of the year with the number of days). Closed code, such as letters and numbers, shall have an accompanying letter from the manufacturer explaining the code and shelf life.

4. **PACKAGING:** Standard commercial packaging is acceptable as long as it meets the re[illegible] agreement, product is protected from contamination, and quality is preserved. Products shal[illegible] returnable commercial containers that do not exceed 55 pounds or 25 kilograms per container. The use of a plastic shrink-wrap to secure items to the pallet shall be minimized.

5. **SHELF LIFE REQUIREMENTS:** Unless otherwise specified in this agreement, products shall be delivered with not less than one-half (1/2) or fifty percent (50%) of their guaranteed shelf life remaining. If the supplies delivered DO not have the minimum number of days of shelf life remaining as set forth in this agreement, the government shall have the right to reject and/or require replacement.

6. **TEMPERATURE REQUIREMENTS:** Unless otherwise specified in this agreement, all perishable products shall be delivered between 32°F-41°F (0°C-5°C) for chilled and 0°F (-18°C) or below for frozen. Temperatures shall be checked between the primary container and the outer container to reduce product damage. If a discrepancy is suspected, internal temperature shall be checked prior to rejection or acceptance of the products.

7. **REJECTED ITEM:** Any item recommended for rejection by the U.S. Army Veterinary Representative or receiving activity shall be annotated on the invoice or delivery receipt. The Contracting Officer Representative shall negotiate on price adjustment for quality or short shelf life defect as requested by receiving activity based on the U.S. Army Veterinary Representative inspection results. Replacements shall be coordinated with the Contracting Officer Representative as requested by the receiving activity.

8. **FOREIGN ORIGIN PRODUCTS:** Foreign establishments DO not have to be Directory listed if the prepackaged finished items they produce are imported by distributors or brokers into the continental United States, Hawaii or Alaska for sale to U.S. Armed Forces. This exemption Does not apply to establishments importing food directly into the U.S. territories of American Samoa, Guam, or the Mariana Islands without entering the continental United States, Hawaii or Alaska.

9. **CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD:** See Appendix B

SECTION II. QUALITY ASSURANCE PROVISIONS BY ITEM

1. **DAIRY PRODUCTS:**

a. Milk products shall be from approved sources and meet the raw, pasteurized, bacteriological and chemical requirements of the United States Public Health Service (USPHS) Publication 229 (Grade A Pasteurized Milk Ordinance). Frozen deserts and novelties shall be from approved sources in accordance with applicable military or local specifications or in the absence of applicable specifications, good manufacturing practice. Bacteriological and chemical testing may be accomplished at origin or destination. The U.S. Army Veterinary Representative shall submit non-conforming results to the Contracting Officer and provide a copy furnished to the contractor with a letter of explanation. The letter shall inform the contractor that unreliable quality controls may result in suspending further deliveries in accordance with NAVSUPINST 4355.6A/AR 40-70. NAVSUPINST 4355.6/AR 40-70 sets forth the microbiological testing program and suspension procedures for dairy products.

b. Temperature on delivery: Fresh dairy products shall be delivered between 32°F and 41°F (0°C and 5°C). Frozen products shall be delivered at 0°F (-18°C) or below.

c. Cheese Related Products:

(1) Soft cheeses such, as mozzarella, natural provolone, cream cheese, and etc., shall be delivered between 32°F and 41°F (0°C and 5°C).

(2) Hard cheeses such as natural cheese, natural Swiss, Swiss and American processed cheddar and processed natural Swiss, etc., shall be delivered between 32°F and 50°F (0°C and 10°C).

2. **FRESH FRUITS AND VEGETABLES (FF&V):** See Appendix A

a. All FF&V shall be freshest product available. FF&V shall have eye appeal and shall be a minimum of 90% free from quality defects and 100% free of decay or loss. The Contracting Officer Representative shall negotiate a downward price adjustment for quality defects based on the U.S. Army Veterinary Representative inspection results and confirmed by receiving activity.

b. FF&V shall be delivered in an enclosed vehicle, equipped to maintain the temperature required for the type of FF&V. Mixed loads of FF&V shall be between 35°F and 55 °F (2°C and 12°C).

c. FF&V such as bananas that are sensitive to ethylene oxide shall not be palletized and wrapped with items that are ethylene oxide producers such as apples. Plastic wrapped around the product inside the boxes shall be removed to allow air circulation.

d. Fresh mushrooms shall not be packaged airtight. Packages that are wrapped in plastic shall have air hole cut into plastic 1/8 inch in diameter or larger.

e. FF&V such as bananas, potatoes and onions that are sensitive to chill damage shall be delivered without refrigeration or not less than 56 °F (14°C). FF&V delivered in an open flatbed vehicle shall be protected with a tarp.

f. For repacked FF&V, the recycled boxes shall be clean and odorless; weigh not more than 45 pounds, (20 kilograms); labeled with the name and weight of the item on two adjacent sides of the box and legibly handwritten or printed.

3. FROZEN MEAT AND POULTRY

a. Unless otherwise requested, all frozen meat and poultry products must be USDA inspected or USDA certified. They must be listed in one of the following publications: "Meat and Poultry Inspection Directory", or "Directory of Sanitarily Approved Food Establishment for U.S. Armed Forces Procurement. ".

b. Temperature at delivery shall be 0°F (-18°C) or below. If the product is frozen to the point that a bimetallic thermometer cannot be pushed into the product and there does not appear to be significant surface thawing or crystallization the product shall be considered acceptable. These factors shall be considered due to the lack of proper equipment for drilling frozen item.

c. Age at delivery in the frozen state:

(1) Beef shall be delivered no more than 12 months after the date of pack.

(2) Poultry shall be delivered no more than 12 months after the date of pack.

(3) Pork shall be delivered no more than 12 months after the date of pack.

(4) Lamb and veal be delivered no more than 12 months after the date of pack.

NOTE: If the manufacture, slaughter or expiration date is stamped, not embossed on the box, the Health Certificate from origin shall be available for verification by the inspecting U.S. Army Veterinary Representative.

4. FROZEN WATERFOODS:

a. Temperature at delivery 0°F (-18°C) or below and shall be checked using the guidance reference previously in paragraph II.3.a.

b. Age at delivery in the frozen state:

(1) Seasonal packed items shall be delivered no more than 12 months after the date of pack.

(2) Oysters shall be delivered within 6 months of shucking/freezing.

(3) Shrimp shall be delivered within 180 days, of packaging/freezing.

c. General Guidance: All items shall be delivered in excellent condition, practically free of parasites, and show no evidence of mishandling.

5. **SHELL EGGS:**

a. Shell eggs shall be cleaned and free of damage (broken, cracked, leaker, etc.,). The U.S. Army Veterinary Representative shall recommend rejection of eggs with excessive dirt or feces.

NOTE: A small quantity of dirt is allowed on eggs delivered from plants that are only approved for unwashed eggs, small defined as having relatively little size or slight dimension.

b. Fresh shell eggs delivered directly from the farms within 48 hours of production may be delivered in unrefrigerated vehicles that are covered. The vehicles must meet all the requirements listed in Section I, par. 2. Boxes shall be marked with the date of production with the vendor's name and address.

c. Chilled fresh shell eggs that are procured from food distributors shall be delivered in refrigerated vehicles and shall be delivered within 15 days from the date of packaging. Internal temperature of eggs at delivery must be 41°F (5°C) or below.

6. **BAKERY PRODUCTS:**

a. Commercial labeling and/or coding shall be acceptable provided that the day or date of baking and packaging can be easily determined.

b. Bakery products shall be delivered within 48 hours from the date of production. Frozen bakery products shall be delivered within 6 months from the date of production, (SL 12 months), and in a refrigerated truck with a temperature of 0°F (-18°C).

SECTION III. SPECIFIED ANCHORAGE DELIVERIES

1. Due to the special circumstances associated with anchorage deliveries, the following exceptions are authorized, but shall not relieve the contractor or the BPA holder of any other requirements in the Quality Assurance Provisions unless specifically listed below:

a. Dairy products may be delivered in non-refrigerated containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. When a refrigerated unit is not used, the dairy products shall be packed in special containers that hold multiple units of product (bi-wall/tri-wall boxes), with dry ice based on the product weight to maintain internal temperature of 41°F (5°C). The special container shall be packed to allow air circulation within. Dairy products shall be given the highest priority for loading/off-loading upon receipt.

b. FF&V may be delivered in unrefrigerated containers in the most expeditious manner to ensure the least amount of exposure to high temperatures.

c. Miscellaneous frozen products may be delivered in non-freezer containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. Frozen items shall be packed with dry ice based on the product weight to maintain frozen state. The special container shall be packed to allow air circulation within. Although slight temperature deviations may occur, proper packaging and sufficient quantities of dry ice shall preclude excessive temperature deviations and thawing. Any item showing sign of thawing shall be rejected.

2. Although special considerations are authorized in anchorage deliveries, no exceptions have been authorized or shall be accepted for reduced sanitary standards, including the sanitation of the vehicles, boats, and shipping containers. The reuse of containers to transport products with dry ice is authorized as long as the container is sanitary and serviceable.

3. No deviations to these Quality Assurance Provisions are authorized without prior written approval from the Contracting Officer and U.S. Army Veterinary Representative. Deviations shall be granted prior to quotes being accepted and only for the particular delivery in question.

APPENDIX A, PERISHABLE FOODS

The following are requirements that apply to this contract:

Appendix A PERISHABLE SUBSISTENCE COMPATABILITY GROUPS
(Extracted From DLAM 4145.12/ TM 38-400, April 1994)

Group 1

Temperature: 32° to 34°F (1° to 1°C).
Relative humidity: 90 to 95 percent.
Atmosphere: Normally used on berries and cherries only -10 to 20 percent CO_2.
Ice: Never in contact with commodity.

Note: Most members of this group not compatible with Group 6a or 6b because ethylene production by Group 1 can be high, and thus harmful to members of Group 6a or 6b.

Apples (except those varieties listed in Group 3)
Apricots
Berries (except cranberries) Cherries.
Figs (not with apples, danger of odor transfer to figs; also see Group 6a)
Grapes (not fumigated with surfer dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages).
Peaches
Pears
Persimmons Plums and Pomegranates
Quinces

Group 2

Temperature: 55° to 65°F(13° to 18°C)
Relative humidity: 85 to 95 percent.
Ice: Never in contact with commodity.
Avocados
Bananas
Eggplant {also see Group 5)
Grapefruit [1]
Guava
Limes
Mangoes
Muskmelons, other than cantaloupes
Casaba
Crenshaw

Honey Dew
Persian
Olive, fresh
Papayas
Pineapples {not with avocados, danger of avocados' odor absorption)
Tomatoes, green
Tomatoes, pink {also see Group 4)
Watermelons (also see Group 4 and 5)

Group 3

Temperature: 36° to 41°F (2°to 5°C).
Relative humidity: 90 to 95 percent: cantaloupes about 95 percent.
Ice: In contact with cantaloupes.
Apples (Grimes Golden and Jonathan (both, certain areas), Yellow Newton (California) and Mclntosh
Cantaloupes
Cranberries
Lemons [1] (use 50 to 55°F for more than a month)
Lychees (also see Group 4)
Oranges 1(Florida or Texas)
Tangerines

Group 4

Temperature: 40° to 45°F (4° to 7°C): beans 38° to 42°F (3° to 6°C).
Relative humidi1y: About 95 percent
Ice: Never in contact with commodity.
Beans snap
Lychees (also see Group 3)
Okra
Oranges [1] (California or Arizona)
Pepper; green (not with beans)
Pepper, red (if with green peppers, temperature adjusted toward top of range)
Squash, summer
Tomatoes, pink (also see Group 2)
Watermelons (also see Groups 2 and 5)

Group 5

Temperature: 50° to 55°F (10° to 13°C): ginger not below 55°F.
Relative humidity: 85 to 90 percent.
Ice: Never in contact with commodity.
Cucumbers
Eggplant (also see Group 2)
Ginger (not with eggplant, also see Group 7)
Potatoes (late crop)
Pumpkin and Squashes, winter
Watermelon (temperature adjusted for other members of the group; also see Groups 2 and 4),

Group 6a

This group, except for figs, grapes and mushrooms, is compatible with Group 6b
Temperature: 32° to34°F (0° to 1°C)

Relative humidity: 95 to 100 percent.
Ice: Never in contact with asparagus, figs, grapes, and mushrooms
Artichokes
Asparagus
Beefs, red
Endive and escarole
Figs (also see Group 1)
Grapes (not furnished with sulfur dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages)
Greens
Leek (not with figs or grapes)
Lettuce
Mushrooms
Parsley
Parsnips
Peas
Rhubarb
Salsity
Spinach
Sweet Corn

Watercress Group 6b

This group is compatible with Group 6a, except for figs, grapes and mushrooms.
Temperature: 13°to 13°F (0° to l°C)
Relative humidity: 95 to 100 percent
Ice: Contact acceptable for all
Broccoli
Brussels sprouts
Cabbage
Cauliflower
Celeriac
Celery
Horseradish Kohlrabi
Onions green (not with rhubarb. Figs, or grapes; probably not with mushrooms or sweet corn)
Radishes
Rutabagas
Turnips

Group 7

Temperature: 5° to 65°F (13° to 18°C)
Relative humidity: 85 to 90 percent.
Ice: never In contact with commodity.
Ginger (also see Group 5)
Potatoes, early crop (temperatures adjusted for others)
Sweet Potatoes

Group 8

Temperature: 32°to 34°F (0° to 13°C)
Relative humidity: 65 to 70 percent.

Ice: never in contact with commodity.
Garlic
Onions dry

[1] Citrus fruits -Biphenyl fungicide may impart off odors to other commodities

The above information was extracted from Lipton, W.J. and J. M. Harvey, Compatibility of Fruits and Vegetables During Transport in Mixed loads, US Department of Agriculture Research Service, ARS51- 48 (September 1972).

APPENDIX B, MICROBIOLOGICAL CRITERIA

The following are requirements that apply to this contract:

Appendix B - CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD

Microbiological criteria for dairy products[1,2]

Product(s)	Standard Plate Count (SPC) (See notes 3&4)	Coliform count (See note 4)	combined yeast and mold count (See note 4)	Preliminary incubation count (See note 5)
Aseptically processed and packaged Milk and milk products		0 per ml (See notes 6&7)	0 per ml (See note 6)	0 per ml (See note 6)
Buttermilk and acidophilus milk			10 per gram	
Cottage cheese			10 per gram	10 per gram
Cream, sour cultured			10 per gram	10 per gram
Grade A pasteurized milk and milk products		20,000 per ml	10 per ml	200,000 per ml
Ice cream products, flavored, fruit and / or nuts		50,000 per gram	20 per gram	
Ice cream products, vanilla and plain flavored		50,000 per gram	10 per gram	
Frozen dessert mix:				
Vanilla flavor		50,000 per gram	10 per gram	10 per gram
other flavors		50,000 per gram	20 per gram	10 per gram
Yogurt, chilled			10 per gram	
Yogurt, frozen, plain			10 per gram	
Yogurt, frozen, flavored			20 per gram	
Yogurt, soft serve mix			10 per gram	

Notes:
1. Phosphates as specified in the PMO.
2. Products shall be free of antibiotic or pesticide residues or below the action levels established for such residues by the applicable Federal Regulatory Agency. Antibiotic residue testing shall be by the method described in the PMO. Examinations and test to detect adulterants, including pesticides, shall be conducted by methods recognized by the applicable Federal regulatory agency.
3. Not applicable to cultured products.
4. All counts are maximum allowed standards.

5. Samples must be received within 72 hrs of pasteurization. Preliminary incubation test is used as a determination of keeping quality.
6. Nonconformance's will be considered an imminent health hazard.
7. Either aerobic or anaerobic SPC.

Microbiological criteria for Environmental Swabs[1,2]			
	Aerobic Plate Count (APC)	Coliform Count	ATP (RLU) Counts
Environmental swab	100 per 50 sq cm	10 per 50 sq cm	See Note 3

Notes:
1. Microbiological counts can be used as an index for evaluating the sanitation status of processing equipment and the facility.
2. All counts are maximum recommended limits.
3. Relative Light Units (RLU) are directly correlated to log cfu/sq cm . RLU maximum tolerances are dependent upon the manufacturer of the ATP bioluminescence reader. Follow manufacturer's instructions for RLU limits.

Microbiological criteria for Fish, fresh or frozen, including shellfish		
Counts[4]	m	M
Aerobic Plate Count (APC)	5,000 per gram	1,000,000 per gram
E. coli	10 per gram	500 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Vibrio parahaemolyticus [1]	10 per gram	100 per gram
Vibrio vulnificus[2,3]	Zero (0) Tolerance	
Salmonella[2]	Zero (0) Tolerance	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Used for oysters and fish designed to be consumed raw.
2. No viable pathogen in a 25 gram sample.
3. Limit is established as non-detectable depending on method used and detection limit.
4. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Fruit Juice, Fresh or Frozen				
	Standard Plate Count (SPC) [3]		Coliform count	Combined Yeast and Mold count
Product(s)	m	M		
Aseptically processed juice[1]	0		0	0
Pasteurized Juice[2]		20,000 per ml	20 per ml	200 per ml
Non-Pasteurized Juice[4]	50,000 per ml	100,000 per ml		

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Must be labeled as aseptically processed and process must be verified.
2. Must be labeled as pasteurized.
3. Plate count limits for juices, except for aseptically processed juice, are used as a quality indicator and may assist in determining keeping quality and/or shelf life.
4. Non-pasteurized juice is not approved for US Armed Forces Procurement.

Microbiological criteria for Kimchee [1,3,4]		
Counts [9]	m	M
Coliform (MPN)	10 per gram	
Clostridium perfringens	100 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Pseudomonas ssp [7]	200 per gram	
Streptococcus ssp [7]	10 per gram	
Listeria monocytogenes[8]	0	
Salmonella ssp[2,8]	0	
Vibrio ssp[5,8]	0	
Salt %	$\geq$ 2.5/wt	$\leq$ 3.5/wt
pH	$\geq$ 4.2	$\leq$ 4.7
Polygalacturonase [6]	Negative	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Products containing monosodium glutamate (MSG), nuts or nut oils must be labeled appropriately to reflect potential allergenic contents.
2. Only for varieties containing meat or poultry, sprouts, watercress or melon.
3. Varieties of Kimchee include, but are not limited to: Vegetables: winter, spring, cucumber, wrapped, Yolma, Chang, radish (Nabak), white (Pak), western-cabbage, pony-tail radish (Chonggak), eggplant, green onion, pumpkin, spinach, leek, green pepper; Chanachi: radish, green pepper, cucumber, garlic cabbage; Kaktagi: radish, radish and oyster Kaktuki; Tong Chimi;: radish tongchimi; Shikhae: chicken, andong, Alaskan Pollock shikhae.
4. All Kimchee products must be delivered and stored refrigerated with a definitive shelf life marked on each container.
5. Only for varieties containing fish or seafood ingredients.
6. Polyglacturonase activity is an indicator of overripening and spoilage, inferring the possible presence of Bacillus subtilus, Saccaromyces fragilis, Candida pseudotropicalis, Oospora lactis, Asperfillus ssp., and Penicillium ssp.
7. Excessive acidification may be due to high counts of these organisms; this is an indicator of very poor quality product.
8. Zero tolerance pathogens.
9. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Retail Ground Beef, Beef Trimmings, Ground Pork , Poultry (Chilled or Frozen)		
Counts	m	M
Aerobic Plate Count (APC)	100,000 per gram	1,000,000 per gram
Fecal Coliform	50 per gram	500 per gram
Total coliform	100 per gram	1,000 per gram
E. coli	10 per gram	< 110 per gram
Coagulase Positive Staph	<100 per gram	500 per gram
Salmonella species	Zero (0) Tolerance[1]	
E.coli O157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.

Microbiological limits for Sandwiches, Prepared Salads and Spreads, Bagged Salad, and Cut Vegetables [4]		
Counts[3]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli most probable number (MPN)	3 per gram[2]	10 per gram
Coliform (fecal)	10 per gram	100 per gram

Yeast and mold count	200 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Campylobacter jejuni	Zero (0) Tolerance[1]	
Salmonella species	Zero (0) Tolerance[1]	
Listeria moncytogenes	Zero (0) Tolerance[1]	
E. coli 0157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that "M" are of marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:

1. No viable pathogen in a 25 gram sample.
2. ≤ 10 per gram if using 3M Petri Film for E. coli counting.
3. Products may not be examined for all microbial characteristics as listed above. Contact laboratory if specific tests are required.
4. Tuna, chicken, ham and egg salads are tested the same, regardless whether on bread or submitted in tubs, buckets or other retail containers.

Microbiological criteria for Soft Serve Ice (cream) Milk and Soft Serve Yogurt at the retail/user level[2]

Counts	m	M
Standard plat count [1]	50,000 per gram	250,000 per gram
Coliform	10 per gram	100 per gram
Combined Yeast & Mold		100 per gram

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
Standard Plate Count (SPC) does not apply to yogurt products.
Soft serve and Yogurt machines.

Microbiological limits for Tofu

Counts[2]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram coli (MPN)
<3 per gram 10 per gram		
Staphylococcus aureus	100 per gram	1000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
Yersinia entercoliticus[1]	Zero (0) Tolerance[1]	

Legend:
m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. Products may not be examined for all microbial characteristics as listed above.

Microbiological and Chemical criteria for Bottled Water[1] and Vending Machine Water[2] and Ice		
Counts	m	M
Coliform	0 per 100 ml	
Coliform (bottled water)	0 per 250ml	
Heterotrophic Plate Count [5]	1000 per ml	100,000 per ml
Pseudomonas aeruginosa	Zero (0) Tolerance	
Flouride[2]		
Arsenic[2]		
Trihalomethanes[2]		
Chlorine[2]		
Dissolved Solids[4]		
Silver [3]	None Detectable	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Bottled water is tested IAW the specific limits set forth by the Code of Federal Regulations (CFR) and current Environmental Protection Agency (EPA) regulations.
2. Vending machine water requirements are from the Association of Food and Drug Officials Model Code, 1997; Ice standards are derived from the International Packaged Ice Association. These are the minimum tests required for Vending Machine water.
3. Current published regulatory limits apply.
4. Only those machines utilizing silver impregnated carbon filters. Dissolved solids measurements are for vending machines labeled "Purified".
5. Ice and water derived from well water or surface water sources marketed at retail have higher allowable HPC limits. See current guidelines established in the CFR.

Microbiological criteria for Retail/User level Pre-packaged Deli and RTE Products[4]					
Product(s)	APC[3]	Listeria spp.[2]	Salmonella[2]	Coliform[2]	E.Coli O157:H7
Luncheon Meats, frankfurters, Beef, poultry & pork	Zero (0) Tolerance	Zero (0) Tolerance	10/g	Zero (0) Tolerance	

Cheese, soft and hard	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance
Pasteurized, liquid, frozen or Dried egg	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance
Pizza topping (meat & cheese)	Zero (0) Tolerance	Zero (0) Tolerance	100/g	Zero (0) Tolerance
Dried meats sticks, jerky [1]	Zero (0) Tolerance	Zero (0) Tolerance	10/g	Zero (0) Tolerance

Notes:
1. Yeast and mold combined count should not exceed 100 /g.
2. No viable pathogen in a 25 gram sample. All counts are maximum allowable limits.
3. See Table Below for APC values in RTE Products.
4. Includes all like type/style products not otherwise listed.

Additional Microbiological limits for Commercial (Food Court Style) RTE Products[2,4]

Counts	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli (MPN)	3 per gram [3]	10 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
E. coli 0157:H7[1]	Zero (0) Tolerance[1]	
Campylobacter jejuni	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. This table is primarily designed for hot food lines.
3. $\leq$ 10 per gram if using 3M Petri Film for E. coli counting.
4. Products may not be examined for all microbial characteristics when submitted. These values are primarily used when conducting food borne illness investigations and overall quality characteristics.

PART VI - Summary of Directory Listing Requirements

Federal Supply Class (*Note 1)	Listing Required	Listing Not Required
8905 (*Notes 2, 3)	All fish, meat, poultry, and shellfish, including:	Crabs, live.
	Buffalo meat.	Crawfish, live.
	Fish, canned.	Fish, fresh or frozen, whole and/or eviscerated, head on or off, unscaled, unpackaged.
	Fish, fresh or fresh smoked, modified atmospheric packaged.	Lobster, live.
	Fish, fresh or frozen, packaged.	Shrimp, fresh or frozen, whole or head off.
	Herring, pickled.	
	Quail.	
	Rabbits.	
	Salmon, smoked.	

	Squid.	
8910	All dairy foods and eggs, including:	Chocolate drink mix, non-dairy.
(*Notes 4, 5)	Cream, sterilized.	Powdered dairy mixes.
	Creamer, coffee, dairy.	Toppings, non-dairy.
	Dairy soft serve mixes.	
	Desserts/puddings, frozen.	
	Egg nog, canned.	
	Egg substitutes.	
	Italian ices.	
	Topping, real cream.	
	Yogurt, fresh or frozen.	
8915	All pre-cut pre-packaged minimum processed fresh	All unprocessed fruits and
(*Note 7, 8)	fruits and vegetables.	vegetables.
	Kimchee.	Olives.
	Mushrooms, whole and sliced.	Fruit juices and nectars, shelf
	Salads, non-meat, with or without dressing	stable or frozen concentrate.
	(not USDA listed).	
	Vegetable sprouts.	
	Fruit juices and nectars, refrigerated.	
8920	Bakery and cereal products (baked and unbaked,	All other bakery products,
(*Notes 6, 9)	fresh and frozen), specifically:	including:
	Croissants.	Bagels.
	Doughnuts	Batter mix, dry.
	Egg roll wrappers.	Biscuits, canned.
	Flour and corn tortillas.	Breads, rolls, and buns.
	Wet pasta (noodles).	Cake mix, dry.
	Pastries.	Cakes, unfilled.
	Pies.	Cookie mix, chilled or dry.
	Soft pretzels.	Cookies, unfilled.
	Won ton wrappers.	Crackers.
	Filled bakery items.	Cupcakes, unfilled.
		Dough, frozen or chilled.
		Dumplings, frozen.
		English muffins.
		Flour.
		Fruitcakes.
		Melba toast.
		Muffins
		Pancake batter, frozen.
		Pancake/waffle mix.
		Pasta, dry (noodles).
		Pizza crust.
		Taco shells.
		Toaster pastries.
		Pie crusts, unfilled.
		Waffles, frozen.
8925		All confectionery, nuts, and sugars.
8930		All jams, jellies, and preserves.
8935		Bouillon and soups.
8940	Dietary foods and specialty preparations,	All other dietary and specialty
(*Notes 2, 3, 4, 5, 10)	specifically:	preparations, including:
	Fish, meat, poultry, dairy, egg, and shellfish	Baby formula, canned.

	products. Pickled eggs. Frozen dinners. Pudding novelties, frozen or chilled. Tofu.	Chips, nacho or potato. Creamer, coffee, imitation (non-dairy). Dips. Nacho cheese, canned. Nutri-why. Popcorn. Puddings, canned.
8945		Fats and food oils, including margarine
8950		All condiments and related products, including: Salad dressings. Mexican salsa)
8955		All cocoa, coffee, and tea.
8960	Beverages, nonalcoholic; specifically: Ice. Bottled water.	All other nonalcoholic beverages, including: Dry ice. Fruit drink mix containing no fruit juices.
8965		Non-MRE beverages, alcoholic.
8970 (*Note 2)	MRE food composite packages	Non-MRE composite food packages.
8975		All tobacco products.

*Notes:

1. For complete item listing within each class of the 8900 (subsistence) Federal Supply Class (FSC) Group, refer to Federal Supply Catalog C8900-SL, Stock List--FSC Group 89 Subsistence.
2. Meat and poultry establishments listed in the *USDA Meat and Poultry Inspection Directory* may serve as sources of meat and poultry items as indicated. These products must bear the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to meat or poultry inspection acts must also be Directory listed for those items.
3. Directory listing is not required for establishments on the Interstate Certified Shellfish Shippers List (ICSSL). Fish, fresh or fresh smoked, modified atmospheric packaged (when distributed in a chill state) must be Packed Under Federal Inspection (PUFI) by the USDC or listed specifically in this Directory. Establishments supplying other fish products must be Directory listed unless listed by the United States Department of Commerce (USDC) in the *USDC Approved List of Fish Establishments and Products.*
4. Directory listing is not required for shell egg sources listed in the *Directory of Grading Offices and Plants Operating Under USDA Poultry and Egg Grading Programs*. Establishments listed in the *USDA Meat and Poultry Inspection Directory* for dried or liquid/frozen egg products may serve as sources for those products, as coded.
5. Establishments having a pasteurized milk compliance rating of 90 percent or higher, certified by a State milk sanitation officer, and listed in the *Sanitation Compliance and Enforcement Rating of Interstate Milk Shippers (IMS) List* may serve as sources of milk and milk products, as listed. Listing in this Directory is mandatory to serve as a source of other milk and milk products and/or frozen dessert items. Establishments listed in the *Dairy Plants Surveyed and Approved for USDA Grading Service* may serve as sources of manufactured or processed dairy products as listed by product code. Those operations denoted with "P" codes (packaging and processing) must be Directory listed when providing ungraded manufactured or processed dairy products.
6. Directory listing is not normally required for semiperishable and nonanimal origin ingredient sources for items such as ready-to-eat bakery products and ice cream.
7. Establishments processing ready-to-eat, chilled, and prepared non-meat salads (such as potato, egg, tuna, chicken, turkey, ham, bean, macaroni, or cole slaw) must be Directory listed.

8. Only pasteurized juices are authorized for purchase by the DOD.
9. Directory listing for natural and artificial cream or fruit filled pie crusts, cakes, and cookies is not required if the finished item will not support pathogenic microbial growth.
10. Establishments producing finished products containing less than 3 percent by weight components of animal origin may be exempted from Directory listing by the command publishing this Directory.

SECTION J - LIST OF ATTACHMENTS AND EXHIBITS

Applicable documents, exhibits, and attachments for this contract are:

ATTACHMENT NO.	DOCUMENT	NO. OF PAGES
1.	Refuse Definitions	1
2.	Classification of Ships	3
3.	Floating Line of Demarcation Specification	3
4.	Picket Boat Operations & Specifications	2
5.	Armed Security Guard Operations	4
6.	Fuel Specifications	4
7.	Potable Water Specifications	6
8.	Water Taxi Specifications	5
9.	Fresh Bread Specifications	2
10.	Fresh Eggs Specification	1
11	Request for Sanitary Inspection	2
12.	Quality Assurance Provisions	17

ATTACHMENT NO.	DOCUMENT	NO. OF PAGES
A	Schedule of Supplies and Services	14
B	Port Tariff	3
C	OOTW Sample of Provisions	2
D	CRAFT Report	13

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
J	1 | 18

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO.(If applicable)
P00001	14-Feb-2007	N4034507RCSG0005	

6. ISSUED BY	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
U.S. FLEET AND INDUSTRIAL SUPPLY CENTER DET SINGAPORE BUILDING 7-4 PSA SEMBAWANG TERMINAL DEPTFORD ROAD SINGAPORE 759657	N40345	See Item 6	

8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		
GLENN DEFENSE MARINE (ASIA) PTE LTD MR. LEONARD FRANCIS 15D PANDAN ROAD SINGAPORE 609266		9A. AMENDMENT OF SOLICITATION NO.
		9B. DATED (SEE ITEM 11)
	X	10A. MOD. OF CONTRACT/ORDER NO. N40345-07-D-0001
CODE QB341 FACILITY CODE	X	10B. DATED (SEE ITEM 13) 11-Dec-2006

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) MUTUAL AGREEMENT

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzpnt01078850

1. This modification is issued to incorporate Appendix A and B to Attachment 12, Quality Assurance Provisions.

2. There is no change in the price as a result of this modification.

3. All other terms and conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)
		(b)(6), (b)(7)(C) CONTRACTING OFFICER TEL: (b)(6), (b)(7)(C)

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION J - LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS

The following have been modified:

ATTACHMENT 12

QUALITY ASSURANCE PROVISIONS

SECTION I. GENERAL REQUIREMENTS

1. **SANITARILY APPROVED SOURCES:** All subsistence items shall be from approved sources as authorized, or exempted in NAVSUPINST 4335.4F/AR 40-657/AFR 161-32/MCO P10110.31G. Name and address of processing facility shall identify any subcontracting entities utilized other than the primary contractors. FISC DET Singapore has available approved source listings of authorized subsistence incorporated into VETCOM Circular 40-1, Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement (Hawaii and Pacific) and other regions maintained and published by HQ, US Army Veterinary Command, Fort Sam Houston, Texas (http://vets.amedd.army.mil/vetsvcs/approved.nsf). The U.S. Army Veterinary Representative, prior to commencing a contract/Blanket Purchase Agreement (BPA), shall inspect all required potential sources identified. Failing to pass inspection shall be grounds for not issuing a BPA and grounds for cancellation if the facility fails inspection after a BPA has commenced. This applies to all contractors and subcontractors. Documents cited here shall be provided to the contractor upon written request.

2. **DELIVERY VEHICLES:** The supplies delivered under this contract/BPA shall be transported in a sanitary enclosed/covered or open flatbed vehicle. Semiperishable items delivered in open flatbed vehicle shall be covered with a tarp to protect products from rain or foreign objects. Vehicles shall be equipped to maintain the appropriate temperature for the subsistence being delivered. Vehicles shall be maintained in a sanitary condition to prevent contamination of the food and shall be subject to inspection by the government at all reasonable times. Supplies submitted for acceptance in vehicles, which are not sanitary, may be rejected without further inspection. Concurrent transportation of bulk contained pesticides, rodenticides, petroleum products, inedible products, household chemicals, or other caustic or volatile compounds are undesirable but occasionally necessary. When a carrier jointly transports subsistence and cleaning agents or hazardous products, the cleaning agents or hazardous products shall be segregated from the subsistence to the greatest extent. Segregated to the greatest extent means that all cleaning agents or hazardous products shall be unitized, loaded completely lower and horizontally from the subsistence to the maximum distance allowed by the physical configuration of the carrier. Shrink-wrap shall be used to secure items to pallets and provide stabilization.

3. **CODE DATING:** Master-shipping boxes shall be stamped or embossed with code dates, except Fresh Fruits and Vegetables, (FF&V). Coding must represent the date of slaughter, production, pasteurization, manufacture, or expiration/pull date. Open code shall have the date, month and year or Julian date, (last number of the year with the number of days). Closed code, such as letters and numbers, shall have an accompanying letter from the manufacturer explaining the code and shelf life.

4. **PACKAGING:** Standard commercial packaging is acceptable as long as it meets the requirements set forth in this agreement, product is protected from contamination, and quality is preserved. Products sha
returnable commercial containers that do not exceed 55 pounds or 25 kilograms per contain[illegible]. The use of a plastic shrink-wrap to secure items to the pallet shall be minimized.

5. **SHELF LIFE REQUIREMENTS:** Unless otherwise specified in this agreement, products shall be delivered with not less than one-half (1/2) or fifty percent (50%) of their guaranteed shelf life remaining. If the supplies delivered DO

not have the minimum number of days of shelf life remaining as set forth in this agreement, the government shall have the right to reject and/or require replacement.

6. **TEMPERATURE REQUIREMENTS:** Unless otherwise specified in this agreement, all perishable products shall be delivered between 32°F-41°F (0°C-5°C) for chilled and 0°F (-18°C) or below for frozen. Temperatures shall be checked between the primary container and the outer container to reduce product damage. If a discrepancy is suspected, internal temperature shall be checked prior to rejection or acceptance of the products.

7. **REJECTED ITEM:** Any item recommended for rejection by the U.S. Army Veterinary Representative or receiving activity shall be annotated on the invoice or delivery receipt. The Contracting Officer Representative shall negotiate on price adjustment for quality or short shelf life defect as requested by receiving activity based on the U.S. Army Veterinary Representative inspection results. Replacements shall be coordinated with the Contracting Officer Representative as requested by the receiving activity.

8. **FOREIGN ORIGIN PRODUCTS:** Foreign establishments DO not have to be Directory listed if the prepackaged finished items they produce are imported by distributors or brokers into the continental United States, Hawaii or Alaska for sale to U.S. Armed Forces. This exemption Does not apply to establishments importing food directly into the U.S. territories of American Samoa, Guam, or the Mariana Islands without entering the continental United States, Hawaii or Alaska.

9. **CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD:** See Appendix B

SECTION II. QUALITY ASSURANCE PROVISIONS BY ITEM

1. **DAIRY PRODUCTS:**

a. Milk products shall be from approved sources and meet the raw, pasteurized, bacteriological and chemical requirements of the United States Public Health Service (USPHS) Publication 229 (Grade A Pasteurized Milk Ordinance). Frozen deserts and novelties shall be from approved sources in accordance with applicable military or local specifications or in the absence of applicable specifications, good manufacturing practice. Bacteriological and chemical testing may be accomplished at origin or destination. The U.S. Army Veterinary Representative shall submit non-conforming results to the Contracting Officer and provide a copy furnished to the contractor with a letter of explanation. The letter shall inform the contractor that unreliable quality controls may result in suspending further deliveries in accordance with NAVSUPINST 4355.6A/AR 40-70. NAVSUPINST 4355.6/AR 40-70 sets forth the microbiological testing program and suspension procedures for dairy products.

b. Temperature on delivery: Fresh dairy products shall be delivered between 32°F and 41°F (0°C and 5°C). Frozen products shall be delivered at 0°F (-18°C) or below.

c. Cheese Related Products:

(1) Soft cheeses such, as mozzarella, natural provolone, cream cheese, and etc., shall be delivered between 32°F and 41°F (0°C and 5°C).

(2) Hard cheeses such as natural cheese, natural Swiss, Swiss and American processed cheddar and processed natural Swiss, etc., shall be delivered between 32°F and 50°F (0°C and 10°C).

2. **FRESH FRUITS AND VEGETABLES (FF&V):** See Appendix A

a. All FF&V shall be freshest product available. FF&V shall have eye appeal and shall be a minimum of 90% free from quality defects and 100% free of decay or loss. The Contracting Officer Representative shall negotiate a downward price adjustment for quality defects based on the U.S. Army Veterinary Representative inspection results and confirmed by receiving activity.

b. FF&V shall be delivered in an enclosed vehicle, equipped to maintain the temperature required for the type of FF&V. Mixed loads of FF&V shall be between 35°F and 55 °F (2°C and 12°C).

c. FF&V such as bananas that are sensitive to ethylene oxide shall not be palletized and wrapped with items that are ethylene oxide producers such as apples. Plastic wrapped around the product inside the boxes shall be removed to allow air circulation.

d. Fresh mushrooms shall not be packaged airtight. Packages that are wrapped in plastic shall have air hole cut into plastic 1/8 inch in diameter or larger.

e. FF&V such as bananas, potatoes and onions that are sensitive to chill damage shall be delivered without refrigeration or not less than 56 °F (14°C). FF&V delivered in an open flatbed vehicle shall be protected with a tarp.

f. For repacked FF&V, the recycled boxes shall be clean and odorless; weigh not more than 45 pounds, (20 kilograms); labeled with the name and weight of the item on two adjacent sides of the box and legibly handwritten or printed.

3. FROZEN MEAT AND POULTRY

a. Unless otherwise requested, all frozen meat and poultry products must be USDA inspected or USDA certified. They must be listed in one of the following publications: "Meat and Poultry Inspection Directory", or "Directory of Sanitarily Approved Food Establishment for U.S. Armed Forces Procurement. ".

b. Temperature at delivery shall be 0°F (-18°C) or below. If the product is frozen to the point that a bimetallic thermometer cannot be pushed into the product and there does not appear to be significant surface thawing or crystallization the product shall be considered acceptable. These factors shall be considered due to the lack of proper equipment for drilling frozen item.

c. Age at delivery in the frozen state:

(1) Beef shall be delivered no more than 12 months after the date of pack.

(2) Poultry shall be delivered no more than 12 months after the date of pack.

(3) Pork shall be delivered no more than 12 months after the date of pack.

(4) Lamb and veal be delivered no more than 12 months after the date of pack.

NOTE: If the manufacture, slaughter or expiration date is stamped, not embossed on the box, the Health Certificate from origin shall be available for verification by the inspecting U.S. Army Veterinary Representative.

4. FROZEN WATERFOODS:

a. Temperature at delivery 0°F (-18°C) or below and shall be checked using the guidance reference previously in paragraph II.3.a.

b. Age at delivery in the frozen state:

(1) Seasonal packed items shall be delivered no more than 12 months after the date of pack.

(2) Oysters shall be delivered within 6 months of shucking/freezing.

(3) Shrimp shall be delivered within 180 days, of packaging/freezing.

c. General Guidance: All items shall be delivered in excellent condition, practically free of parasites, and show no evidence of mishandling.

5. **SHELL EGGS:**

a. Shell eggs shall be cleaned and free of damage (broken, cracked, leaker, etc.,). The U.S. Army Veterinary Representative shall recommend rejection of eggs with excessive dirt or feces.

NOTE: A small quantity of dirt is allowed on eggs delivered from plants that are only approved for unwashed eggs, small defined as having relatively little size or slight dimension.

b. Fresh shell eggs delivered directly from the farms within 48 hours of production may be delivered in unrefrigerated vehicles that are covered. The vehicles must meet all the requirements listed in Section I, par. 2. Boxes shall be marked with the date of production with the vendor's name and address.

c. Chilled fresh shell eggs that are procured from food distributors shall be delivered in refrigerated vehicles and shall be delivered within 15 days from the date of packaging. Internal temperature of eggs at delivery must be 41^{o}F (5^{o}C) or below.

6. **BAKERY PRODUCTS:**

a. Commercial labeling and/or coding shall be acceptable provided that the day or date of baking and packaging can be easily determined.

b. Bakery products shall be delivered within 48 hours from the date of production. Frozen bakery products shall be delivered within 6 months from the date of production, (SL 12 months), and in a refrigerated truck with a temperature of 0°F (-18°C).

SECTION III. SPECIFIED ANCHORAGE DELIVERIES

1. Due to the special circumstances associated with anchorage deliveries, the following exceptions are authorized, but shall not relieve the contractor or the BPA holder of any other requirements in the Quality Assurance Provisions unless specifically listed below:

a. Dairy products may be delivered in non-refrigerated containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. When a refrigerated unit is not used, the dairy products shall be packed in special containers that hold multiple units of product (bi-wall/tri-wall boxes), with dry ice based on the product weight to maintain internal temperature of 41°F (5°C). The special container shall be packed to allow air circulation within. Dairy products shall be given the highest priority for loading/off-loading upon receipt.

b. FF&V may be delivered in unrefrigerated containers in the most expeditious manner to ensure the least amount of exposure to high temperatures.

c. Miscellaneous frozen products may be delivered in non-freezer containers when the quantity ordered is not large enough to warrant a refrigerated container and a barge to deliver it. Frozen items shall be packed with dry ice based on the product weight to maintain frozen state. The special container shall be packed to allow air circulation within. Although slight temperature deviations may occur, proper packaging and sufficient quantities of dry ice shall preclude excessive temperature deviations and thawing. Any item showing sign of thawing shall be rejected.

2. Although special considerations are authorized in anchorage deliveries, no exceptions have been authorized or shall be accepted for reduced sanitary standards, including the sanitation of the vehicles, boats, and shipping containers. The reuse of containers to transport products with dry ice is authorized as long as the container is sanitary and serviceable.

3. No deviations to these Quality Assurance Provisions are authorized without prior written approval from the Contracting Officer and U.S. Army Veterinary Representative. Deviations shall be granted prior to quotes being accepted and only for the particular delivery in question.

APPENDIX A, PERISHABLE FOODS

The following are requirements that apply to this contract:

Appendix A PERISHABLE SUBSISTENCE COMPATABILITY GROUPS
(Extracted From DLAM 4145.12/ TM 38-400, April 1994)

Group 1

Temperature: 32° to 34°F (1° to 1°C).
Relative humidity: 90 to 95 percent.
Atmosphere: Normally used on berries and cherries only -10 to 20 percent CO_2.
Ice: Never in contact with commodity.

Note: Most members of this group not compatible with Group 6a or 6b because ethylene production by Group 1 can be high, and thus harmful to members of Group 6a or 6b.

Apples (except those varieties listed in Group 3)
Apricots
Berries (except cranberries) Cherries.
Figs (not with apples, danger of odor transfer to figs; also see Group 6a)
Grapes (not fumigated with surfer dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages).
Peaches
Pears
Persimmons Plums and Pomegranates
Quinces

Group 2

Temperature: 55° to 65°F(13° to 18°C)
Relative humidity: 85 to 95 percent.
Ice: Never in contact with commodity.
Avocados
Bananas
Eggplant {also see Group 5)
Grapefruit [1]
Guava
Limes
Mangoes
Muskmelons, other than cantaloupes
Casaba
Crenshaw
Honey Dew
Persian
Olive, fresh
Papayas
Pineapples {not with avocados, danger of avocados' odor absorption)
Tomatoes, green
Tomatoes, pink {also see Group 4)
Watermelons (also see Group 4 and 5)

Group 3

Temperature: 36° to 41°F (2°to 5°C).
Relative humidity: 90 to 95 percent: cantaloupes about 95 percent.
Ice: In contact with cantaloupes.
Apples (Grimes Golden and Jonathan (both, certain areas), Yellow Newton (California) and Mclntosh
Cantaloupes
Cranberries
Lemons [1] (use 50 to 55°F for more than a month)
Lychees (also see Group 4)
Oranges 1(Florida or Texas)
Tangerines

Group 4

Temperature: 40° to 45°F (4° to 7°C): beans 38° to 42°F (3° to 6°C).
Relative humidi1y: About 95 percent
Ice: Never in contact with commodity.
Beans snap
Lychees (also see Group 3)
Okra
Oranges [1] (California or Arizona)
Pepper; green (not with beans)
Pepper, red (if with green peppers, temperature adjusted toward top of range)
Squash, summer
Tomatoes, pink (also see Group 2)
Watermelons (also see Groups 2 and 5)

Group 5

Temperature: 50° to 55°F (10° to 13°C): ginger not below 55°F.
Relative humidity: 85 to 90 percent.
Ice: Never in contact with commodity.
Cucumbers
Eggplant (also see Group 2)
Ginger (not with eggplant, also see Group 7)
Potatoes (late crop)
Pumpkin and Squashes, winter
Watermelon (temperature adjusted for other members of the group; also see Groups 2 and 4),

Group 6a

This group, except for figs, grapes and mushrooms, is compatible with Group 6b
Temperature: 32° to34°F (0° to 1°C)
Relative humidity: 95 to 100 percent.
Ice: Never in contact with asparagus, figs, grapes, and mushrooms
Artichokes
Asparagus
Beefs, red
Endive and escarole
Figs (also see Group 1)
Grapes (not furnished with sulfur dioxide ($S0_2$) in vehicle and no chemicals that release $S0_2$ should be included in packages)
Greens

Leek (not with figs or grapes)
Lettuce
Mushrooms
Parsley
Parsnips
Peas
Rhubarb
Salsity
Spinach
Sweet Corn

Watercress Group 6b

This group is compatible with Group 6a, except for figs, grapes and mushrooms.
Temperature: 13°to 13°F (0° to l°C)
Relative humidity: 95 to 100 percent
Ice: Contact acceptable for all
Broccoli
Brussels sprouts
Cabbage
Cauliflower
Celeriac
Celery
Horseradish Kohlrabi
Onions green (not with rhubarb. Figs, or grapes; probably not with mushrooms or sweet corn)
Radishes
Rutabagas
Turnips

Group 7

Temperature: 5° to 65°F (13° to 18°C)
Relative humidity: 85 to 90 percent.
Ice: never In contact with commodity.
Ginger (also see Group 5)
Potatoes, early crop (temperatures adjusted for others)
Sweet Potatoes

Group 8

Temperature: 32°to 34°F (0° to 13°C)
Relative humidity: 65 to 70 percent.
Ice: never in contact with commodity.
Garlic
Onions dry

[1] Citrus fruits -Biphenyl fungicide may impart off odors to other commodities

The above information was extracted from Lipton, W.J. and J. M. Harvey, Compatibility of Fruits and Vegetables During Transport in Mixed loads, US Department of Agriculture Research Service, ARS51- 48 (September 1972).

APPENDIX B, MICROBIOLOGICAL CRITERIA

The following are requirements that apply to this contract:

Appendix B - CRITERIA FOR MICROBIOLOGICAL LEVELS OF FOOD PROCURED BY DOD

Microbiological criteria for dairy products[1,2]

Product(s)	Standard Plate Count (SPC) (See notes 3&4)	Coliform count (See note 4)	combined yeast and mold count (See note 4)	Preliminary incubation count (See note 5)
Aseptically processed and packaged Milk and milk products		0 per ml (See notes 6&7)	0 per ml (See note 6)	0 per ml (See note 6)
Buttermilk and acidophilus milk			10 per gram	
Cottage cheese			10 per gram	10 per gram
Cream, sour cultured			10 per gram	10 per gram
Grade A pasteurized milk and milk products		20,000 per ml	10 per ml	200,000 per ml
Ice cream products, flavored, fruit and / or nuts		50,000 per gram	20 per gram	
Ice cream products, vanilla and plain flavored		50,000 per gram	10 per gram	
Frozen dessert mix:				
Vanilla flavor		50,000 per gram	10 per gram	10 per gram
other flavors		50,000 per gram	20 per gram	10 per gram
Yogurt, chilled			10 per gram	
Yogurt, frozen, plain			10 per gram	
Yogurt, frozen, flavored			20 per gram	
Yogurt, soft serve mix			10 per gram	

Notes:
1. Phosphates as specified in the PMO.
2. Products shall be free of antibiotic or pesticide residues or below the action levels established for such residues by the applicable Federal Regulatory Agency. Antibiotic residue testing shall be by the method described in the PMO. Examinations and test to detect adulterants, including pesticides, shall be conducted by methods recognized by the applicable Federal regulatory agency.
3. Not applicable to cultured products.
4. All counts are maximum allowed standards.
5. Samples must be received within 72 hrs of pasteurization. Preliminary incubation test is used as a determination of keeping quality.
6. Nonconformance's will be considered an imminent health hazard.
7. Either aerobic or anaerobic SPC.

Microbiological criteria for Environmental Swabs[1,2]

ATP (RLU) Counts	Aerobic Plate Count (APC)	Coliform Count	
Environmental swab	100 per 50 sq cm	10 per 50 sq cm	See Note 3

Notes:
1. Microbiological counts can be used as an index for evaluating the sanitation status of processing equipment and the facility.

2. All counts are maximum recommended limits.
3. Relative Light Units (RLU) are directly correlated to log cfu/sq cm . RLU maximum tolerances are dependent upon the manufacturer of the ATP bioluminescence reader. Follow manufacturer's instructions for RLU limits.

Microbiological criteria for Fish, fresh or frozen, including shellfish		
Counts[4]	m	M
Aerobic Plate Count (APC)	5,000 per gram	1,000,000 per gram
E. coli	10 per gram	500 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Vibrio parahaemolyticus [1]	10 per gram	100 per gram
Vibrio vulnificus[2,3]	Zero (0) Tolerance	
Salmonella[2]	Zero (0) Tolerance	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Used for oysters and fish designed to be consumed raw.
2. No viable pathogen in a 25 gram sample.
3. Limit is established as non-detectable depending on method used and detection limit.
4. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Fruit Juice, Fresh or Frozen				
	Standard Plate Count (SPC) [3]		Coliform count	Combined Yeast and Mold count
Product(s)	m	M		
Aseptically processed juice[1]	0		0	0
Pasteurized Juice[2]		20,000 per ml	20 per ml	200 per ml
Non-Pasteurized Juice[4]	50,000 per ml	100,000 per ml		

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Must be labeled as aseptically processed and process must be verified.
2. Must be labeled as pasteurized.
3. Plate count limits for juices, except for aseptically processed juice, are used as a quality indicator and may assist in determining keeping quality and/or shelf life.

4. Non-pasteurized juice is not approved for US Armed Forces Procurement.

Microbiological criteria for Kimchee [1,3,4]		
Counts [9]	m	M
Coliform (MPN)	10 per gram	
Clostridium perfringens	100 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Pseudomonas ssp [7]	200 per gram	
Streptococcus ssp [7]	10 per gram	
Listeria monocytogenes[8]	0	
Salmonella ssp[2,8]	0	
Vibrio ssp[5,8]	0	
Salt %	$\geq$ 2.5/wt	$\leq$ 3.5/wt
pH	$\geq$ 4.2	$\leq$ 4.7
Polygalacturonase [6]	Negative	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Products containing monosodium glutamate (MSG), nuts or nut oils must be labeled appropriately to reflect potential allergenic contents.
2. Only for varieties containing meat or poultry, sprouts, watercress or melon.
3. Varieties of Kimchee include, but are not limited to: Vegetables: winter, spring, cucumber, wrapped, Yolma, Chang, radish (Nabak), white (Pak), western-cabbage, pony-tail radish (Chonggak), eggplant, green onion, pumpkin, spinach, leek, green pepper; Chanachi: radish, green pepper, cucumber, garlic cabbage; Kaktagi: radish, radish and oyster Kaktuki; Tong Chimi;: radish tongchimi; Shikhae: chicken, andong, Alaskan Pollock shikhae.
4. All Kimchee products must be delivered and stored refrigerated with a definitive shelf life marked on each container.
5. Only for varieties containing fish or seafood ingredients.
6. Polyglacturonase activity is an indicator of overripening and spoilage, inferring the possible presence of Bacillus subtilus, Saccaromyces fragilis, Candida pseudotropicalis, Oospora lactis, Asperfillus ssp., and Penicillium ssp.
7. Excessive acidification may be due to high counts of these organisms; this is an indicator of very poor quality product.
8. Zero tolerance pathogens.
9. Products may not be examined for all microbial characteristics as listed above.

Microbiological criteria for Retail Ground Beef, Beef Trimmings, Ground Pork , Poultry (Chilled or Frozen)		
Counts	m	M

Aerobic Plate Count (APC)	100,000 per gram	1,000,000 per gram
Fecal Coliform	50 per gram	500 per gram
Total coliform	100 per gram	1,000 per gram
E. coli	10 per gram	< 110 per gram
Coagulase Positive Staph	<100 per gram	500 per gram
Salmonella species	Zero (0) Tolerance[1]	
E.coli O157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.

Microbiological limits for Sandwiches, Prepared Salads and Spreads, Bagged Salad, and Cut Vegetables [4]

Counts[3]	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli most probable number (MPN)	3 per gram[2]	10 per gram
Coliform (fecal)	10 per gram	100 per gram
Yeast and mold count	200 per gram	1,000 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Campylobacter jejuni	Zero (0) Tolerance[1]	
Salmonella species	Zero (0) Tolerance[1]	
Listeria moncytogenes	Zero (0) Tolerance[1]	
E. coli 0157:H7	Zero (0) Tolerance[1]	

m =values above this level, but below that "M" are of marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:

1. No viable pathogen in a 25 gram sample.
2. ≤ 10 per gram if using 3M Petri Film for E. coli counting.
3. Products may not be examined for all microbial characteristics as listed above. Contact laboratory if specific tests are required.
4. Tuna, chicken, ham and egg salads are tested the same, regardless whether on bread or submitted in tubs, buckets or other retail containers.

Microbiological criteria for Soft Serve Ice (cream) Milk and Soft Serve Yogurt at the retail/user level[2]

Counts	m	M
Standard plat count [1]	50,000 per gram	250,000 per gram
Coliform	10 per gram	100 per gram
Combined Yeast & Mold		100 per gram

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
Standard Plate Count (SPC) does not apply to yogurt products.
Soft serve and Yogurt machines.

Microbiological limits for Tofu			
Counts[2]		m	M
Aerobic plate count (APC)		100,000 per gram	1,000,000 per gram coli (MPN)
<3 per gram	10 per gram		
Staphylococcus aureus		100 per gram	1000 per gram
Salmonella species[1]		Zero (0) Tolerance[1]	
Listeria moncytogenes[1]		Zero (0) Tolerance[1]	
Yersinia entercoliticus[1]		Zero (0) Tolerance[1]	

Legend:
m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. Products may not be examined for all microbial characteristics as listed above.

Microbiological and Chemical criteria for Bottled Water[1] and Vending Machine Water[2] and Ice		
Counts	m	M
Coliform	0 per 100 ml	
Coliform (bottled water)	0 per 250ml	
Heterotrophic Plate Count [5]	1000 per ml	100,000 per ml
Pseudomonas aeruginosa	Zero (0) Tolerance	
Flouride[2]		
Arsenic[2]		
Trihalomethanes[2]		
Chlorine[2]		
Dissolved Solids[4]		
Silver [3]	None Detectable	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. Bottled water is tested IAW the specific limits set forth by the Code of Federal Regulations (CFR) and current Environmental Protection Agency (EPA) regulations.

2. Vending machine water requirements are from the Association of Food and Drug Officials Model Code, 1997; Ice standards are derived from the International Packaged Ice Association. These are the minimum tests required for Vending Machine water.
3. Current published regulatory limits apply.
4. Only those machines utilizing silver impregnated carbon filters. Dissolved solids measurements are for vending machines labeled "Purified".
5. Ice and water derived from well water or surface water sources marketed at retail have higher allowable HPC limits. See current guidelines established in the CFR.

Microbiological criteria for Retail/User level Pre-packaged Deli and RTE Products[4]					
Product(s)	APC[3]	Listeria spp.[2]	Salmonella[2]	Coliform[2]	E.Coli O157:H7
Luncheon Meats, frankfurters, Beef, poultry & pork	Zero (0) Tolerance	Zero (0) Tolerance	10/g		Zero (0) Tolerance
Cheese, soft and hard	Zero (0) Tolerance	Zero (0) Tolerance	100/g		Zero (0) Tolerance
Pasteurized, liquid, frozen or Dried egg	Zero (0) Tolerance	Zero (0) Tolerance	100/g		Zero (0) Tolerance
Pizza topping (meat & cheese)	Zero (0) Tolerance	Zero (0) Tolerance	100/g		Zero (0) Tolerance
Dried meats sticks, jerky [1]	Zero (0) Tolerance	Zero (0) Tolerance	10/g		Zero (0) Tolerance

Notes:
1. Yeast and mold combined count should not exceed 100 /g.
2. No viable pathogen in a 25 gram sample. All counts are maximum allowable limits.
3. See Table Below for APC values in RTE Products.
4. Includes all like type/style products not otherwise listed.

Additional Microbiological limits for Commercial (Food Court Style) RTE Products[2,4]		
Counts	m	M
Aerobic plate count (APC)	100,000 per gram	1,000,000 per gram
E. coli (MPN)	3 per gram [3]	10 per gram
Staphylococcus aureus	100 per gram	1,000 per gram
Clostridium perfringens	100 per gram	1,000 per gram
Bacillus cereus	100 per gram	1,000 per gram
Salmonella species[1]	Zero (0) Tolerance[1]	
Listeria moncytogenes[1]	Zero (0) Tolerance[1]	
E. coli 0157:H7[1]	Zero (0) Tolerance[1]	
Campylobacter jejuni	Zero (0) Tolerance[1]	

m =values above this level, but below that of M are marginal microbiological quality.
M =values above this level are unacceptable and the product may be rejected and deliveries suspended.

Notes:
1. No viable pathogen in a 25 gram sample.
2. This table is primarily designed for hot food lines.

3. ≤ 10 per gram if using 3M Petri Film for E. coli counting.
4. Products may not be examined for all microbial characteristics when submitted. These values are primarily used when conducting food borne illness investigations and overall quality characteristics.

PART VI - Summary of Directory Listing Requirements

Federal Supply Class (*Note 1)	Listing Required	Listing Not Required
8905 (*Notes 2, 3)	All fish, meat, poultry, and shellfish, including: Buffalo meat. Fish, canned. Fish, fresh or fresh smoked, modified atmospheric packaged. Fish, fresh or frozen, packaged. Herring, pickled. Quail. Rabbits. Salmon, smoked. Squid.	Crabs, live. Crawfish, live. Fish, fresh or frozen, whole and/or eviscerated, head on or off, unscaled, unpackaged. Lobster, live. Shrimp, fresh or frozen, whole or head off.
8910 (*Notes 4, 5)	All dairy foods and eggs, including: Cream, sterilized. Creamer, coffee, dairy. Dairy soft serve mixes. Desserts/puddings, frozen. Egg nog, canned. Egg substitutes. Italian ices. Topping, real cream. Yogurt, fresh or frozen.	Chocolate drink mix, non-dairy. Powdered dairy mixes. Toppings, non-dairy.
8915 (*Note 7, 8)	All pre-cut pre-packaged minimum processed fresh fruits and vegetables. Kimchee. Mushrooms, whole and sliced. Salads, non-meat, with or without dressing (not USDA listed). Vegetable sprouts. Fruit juices and nectars, refrigerated.	All unprocessed fruits and vegetables. Olives. Fruit juices and nectars, shelf stable or frozen concentrate.
8920 (*Notes 6, 9)	Bakery and cereal products (baked and unbaked, fresh and frozen), specifically: Croissants. Doughnuts Egg roll wrappers. Flour and corn tortillas. Wet pasta (noodles). Pastries. Pies. Soft pretzels. Won ton wrappers. Filled bakery items.	All other bakery products, including: Bagels. Batter mix, dry. Biscuits, canned. Breads, rolls, and buns. Cake mix, dry. Cakes, unfilled. Cookie mix, chilled or dry. Cookies, unfilled. Crackers. Cupcakes, unfilled. Dough, frozen or chilled. Dumplings, frozen. English muffins. Flour. Fruitcakes. Melba toast.

		Muffins Pancake batter, frozen. Pancake/waffle mix. Pasta, dry (noodles). Pizza crust. Taco shells. Toaster pastries. Pie crusts, unfilled. Waffles, frozen.
8925		All confectionery, nuts, and sugars.
8930		All jams, jellies, and preserves.
8935		Bouillon and soups.
8940 (*Notes 2, 3, 4, 5, 10)	Dietary foods and specialty preparations, specifically: Fish, meat, poultry, dairy, egg, and shellfish products. Pickled eggs. Frozen dinners. Pudding novelties, frozen or chilled. Tofu.	All other dietary and specialty preparations, including: Baby formula, canned. Chips, nacho or potato. Creamer, coffee, imitation (non-dairy). Dips. Nacho cheese, canned. Nutri-why. Popcorn. Puddings, canned.
8945		Fats and food oils, including margarine
8950		All condiments and related products, including: Salad dressings. Mexican salsa)
8955		All cocoa, coffee, and tea.
8960	Beverages, nonalcoholic; specifically: Ice. Bottled water.	All other nonalcoholic beverages, including: Dry ice. Fruit drink mix containing no fruit juices.
8965		Non-MRE beverages, alcoholic.
8970 (*Note 2)	MRE food composite packages	Non-MRE composite food packages.
8975		All tobacco products.

*Notes:

1. For complete item listing within each class of the 8900 (subsistence) Federal Supply Class (FSC) Group, refer to Federal Supply Catalog C8900-SL, Stock List--FSC Group 89 Subsistence.
2. Meat and poultry establishments listed in the *USDA Meat and Poultry Inspection Directory* may serve as sources of meat and poultry items as indicated. These products must bear the USDA shield and applicable establishment number. USDA listed establishments processing products not subject to meat or poultry inspection acts must also be Directory listed for those items.
3. Directory listing is not required for establishments on the Interstate Certified Shellfish Shippers List (ICSSL). Fish, fresh or fresh smoked, modified atmospheric packaged (when distributed in a chill state) must be Packed Under Federal Inspection (PUFI) by the USDC or listed specifically in this Directory. Establishments supplying other fish products must be Directory listed unless listed by the United States Department of Commerce (USDC) in the *USDC Approved List of Fish Establishments and Products.*
4. Directory listing is not required for shell egg sources listed in the *Directory of Grading Offices and Plants Operating Under USDA Poultry and Egg Grading Programs.* Establishments listed in the *USDA Meat and*

Poultry Inspection Directory for dried or liquid/frozen egg products may serve as sources for those products, as coded.

5. Establishments having a pasteurized milk compliance rating of 90 percent or higher, certified by a State milk sanitation officer, and listed in the *Sanitation Compliance and Enforcement Rating of Interstate Milk Shippers (IMS) List* may serve as sources of milk and milk products, as listed. Listing in this Directory is mandatory to serve as a source of other milk and milk products and/or frozen dessert items. Establishments listed in the *Dairy Plants Surveyed and Approved for USDA Grading Service* may serve as sources of manufactured or processed dairy products as listed by product code. Those operations denoted with "P" codes (packaging and processing) must be Directory listed when providing ungraded manufactured or processed dairy products.
6. Directory listing is not normally required for semiperishable and nonanimal origin ingredient sources for items such as ready-to-eat bakery products and ice cream.
7. Establishments processing ready-to-eat, chilled, and prepared non-meat salads (such as potato, egg, tuna, chicken, turkey, ham, bean, macaroni, or cole slaw) must be Directory listed.
8. Only pasteurized juices are authorized for purchase by the DOD.
9. Directory listing for natural and artificial cream or fruit filled pie crusts, cakes, and cookies is not required if the finished item will not support pathogenic microbial growth.
10. Establishments producing finished products containing less than 3 percent by weight components of animal origin may be exempted from Directory listing by the command publishing this Directory.

Section C - Descriptions and Specifications

OVERVIEW SECTION III
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services for U.S. Navy ships visiting Vasco Da Gama, GOA and All other Ports in India with the exception of Chennai and Cochin.

2. SCOPE

2.1. This contract is for Husbanding Services (HS). It is to provide services and supplies requested by the ships while in port.

2.2. The contract may be subdivided into Lots. Lots may be for individual Ports or they may include several Ports under one Lot. For this contract, Lot 1 is Vasco Da Gama, GOA and Lot 2 is All Other Ports in India with the exception of Chennai and Cochin.

2.3. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.4. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for three months and will commence 01 Oct 2006 through 31 Dec 2006. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is nine (9) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.

- When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of 6 ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels normally travel in pairs and Management fees will be based on the total fee for the pair of boats. Attachment 2 provides details.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs) Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

DY	Day
EA	Each
GL	Gallon (3.785 Liters)
HR	Hour
JB	Job
LO	Lot
NSP	Not Separately Priced
PT	Port Tariff
TP	Trip
PK	Package

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Car and/or truck tires are not to be used as Fenders or Camels.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not seperately priced. Cost of the item should be factored into the Mangement Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual: Leonard G. Francis

Title of Individual: Managing Director / (b)(6), (b)(7)(C)

Mailing Address: 15D Pandan Road
Singapore 609266

Tel No. (Work) (65)6272-7937

Fax No. (Work) (65)6270-7240

Mobile: (65)9798-3155

(b)(6), (b)(7)(C)

E-mail address: Leonard@glennmarinegroup.com (b)(6), (b)(7)(C)@glennmarinegroup.com
glenncom@glennmarinegroup.com /
glenncom@glennmarinegroup.com

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Det Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.8. RESERVED – (Interpreter Services)

1.2.9. Mail Delivery Service

1.2.9.1. The Contractor shall provide mail pick-up and delivery service for the ships. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers the port then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Det Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the AGR prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3 The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.13.4. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Det Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competion to the maximum extent practicable to obtain supplies and services from the sources whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $2,500, the Contractor shall provide information on the results of competition conducted by providing name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for the decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, paragraph 14: Standard for Professional Services, paragraph 14.1 and 14.2.

1.3.3. No later than 60 days after contract award, the contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.4.1. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.4.2. Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.4.3. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED (CAMELS) - (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

7.4. The Contractor shall provide Prepaid International Calling Cards.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Det Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at FISC Det Singapore and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB AND CIN XX12AC)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AD THROUGH CLINXX12AF)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 4.

12.6. Perimeter Fencing (CLIN XX12AG AND CLIN XX12AH)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AJ THROUGH CLIN XX12AM)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AN AND CLIN XX12AP)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations.

12.9. RESERVED (Portable Latrine) - (CLIN XX12AQ)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AR)

12.10.1 The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards on Picket Boat (CLIN XX12AS)

12.11.1. The Contractor shall provide security guards to patrol in picket boats. The Contractor shall comply with Attachment 5 for security guard operations.

12.12. Security Guards Pierside (CLIN XX12AT AND CLIN XX12AU)

12.12.1 The Contractor shall provide security guards Pierside to ensure only authorized personnel, vehicles, and material are allowed into restricted areas.

12.12.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.13. Two Way Radios (CLIN XX12AV) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

12.14. Handheld Explosive Detectors (CLIN XX12AW AND CLIN XX12AX) The Contractor shall provide handheld explosive explosive detectors capable of detecting explosives.

12.15. Handheld Wand Metal Detectors, High Sensitivity Type (CLINXX 12AY AND CLIN XX12AZ) The Contractor shall provide handheld metal detectors capable of detecting metal.

12.16. X-ray machines with high resolution color (CLIN XX12BA) The Contractor shall provide X-ray machines that are capable of X-raying hand carried luggage and bags to determine its contents.

12.17. Walk thru Metal Detectors with high sensitivity four zones (CLIN XX12BB) The Contractor shall provide walk thru metal detectors capable of detecting metal.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs

associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 7 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. LINESBOATS (CLIN XX16) The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED (MANLIFT) - (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. If an operator is not provided, the Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19) LIGHTERAGE (CLIN XX19AL, XX19AM & XX19AN)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled "SHIP'S SPARE IN TRANSIT"

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to
ship'sarrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT' and addressed to the ship's Commanding Officer of the Unit, care of The Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the packge to the ship after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. RESERVED (MISCELLANEOUS) - (CLIN XX20)

21. RESERVED (OIL BOOMS) - (CLIN XX21)

21.1. Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. RESERVED (OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL) - (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste Barges / Trucks when necessary, in accordance with Force protection or other requirements.

23. RESERVED (PAINT FLOAT) - (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED (PRATIQUE) - (CLIN XX26) The Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

27. RESERVED (REEFER CONTAINER) - (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED (SHORE POWER) - (CLIN XX28)

28.1. The Contractor shall provide diesel generators with fuel along side the ship to supply shore power to the vessel. Generators shall emit sound levels of less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED (SHORE STEAM) - (CLIN XX29) - The Contractor shall provide Shore Steam to the ship.

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX 35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the FISC Det Contracting Officer or designated representative within five working days of each ship's departure.

Section F - Deliveries or Performance

DELIVERY OR PERFORMANCE

1.0 Period of Contract: Period of contract for the purpose of issuing task orders shall be as follow:

Period of Performance: 1 Oct 2006 through 31 Dec 2006

2.0 Place of Performance: The husbanding services required under this contract shall be performed at the following ports:

Vasco Da Gama, GOA
All Other Ports in India with the exception of Chennai and Cochin

Section G - Contract Administration Data

Section I - Contract Clauses

CLAUSES INCORPORATED BY FULL TEXT

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) - ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) ORDERING ITEMS ON CONTRACT – Authorized Ordering. Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are;

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any FISC Det Singapore warranted KO or their authorized representative.

(c) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(d) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155. The order should be given as soon as possible but no later than 48 hours prior to ship arrival. Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(e) Ordering Non-Contract Items (NCI)

(1) NCIs may be requested using standard procurement procedures. Once requested, the contractor will assist in obtaining the item.

(2) The Contractor shall provide a separate invoice for all Non-Contract Items with supporting documentation to the ship SUPPO for payment in accordance with standard procurement procedures.

(3) If payment is to be made by NRCC Singapore on behalf of the procuring vessel, the Contractor shall obtain all required documentation from the ship in order for payment to be effected.

(f) Short Notice Orders. Occasionally, there may be short notice orders of less than 48 hours, which the contractor should support if possible. If the Contractor cannot support these requirements, then the AGR may solicit them from other companies.

(g) Method of Ordering: Orders may be issued by phone, facsimile or by E-mail.

(h) Substitutions. Substitution of ordered CLINs shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20-pax bus was ordered, but was not available and substituted with two 10-pax vans. The Contractor will only be able to charge for one 20 pax bus not two 10 pax vans. If the requiring activity and AGR agree to rates of the substituted CLINs, then it is not considered to be a substitution but a change to the requirement.

(i) Cancellation Of Orders

(1) Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled “Termination for the Government’s Convenience (FAR 52.212-4) Addendum (Feb 2002)”, as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

(2) In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government’s Convenience clause as stated above.

(3) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(j) Invoices And Payments

(1) Payment will be made by the ship prior to departure from the port.

(2) If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Office, NRCC Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury Check.

(3) It is the Contractor’s responsibility to provide documents with all required information. Payment will only be made after delivery and acceptance of services.

(4) The Contractor must accept the U.S. Government Commercial Purchase Card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is Mastercard.

(k) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(l) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(h) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(i) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(j) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the

Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(k) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(l) Option To Extend The Term Of The Contract (FAR 52.217-9) (MAR 2000)

(1) The Government may extend the term of this contract by written notice to the Contractor within 15 days prior to the expiration of the current performance period of the contract; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least sixty (60) days before the contract expires. The preliminary notice does not commit the Government to an extension.

(2) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(3) The total duration of this contract, including the exercise of any options under this clause, shall not exceed sixty-six (66) months.

(m) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(n) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(o) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(p) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(q) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address: FISC Detachment Singapore
PSA Sembawang Terminal
Deptford Road, Building 7-4, Unit 2-9
Singapore 759657

Military Address: PSC 470, Box 2100 PSC 470, Box 2100
FPO AP 96534-2100

FAX Numbers: (65)-6-750-2639 or 2382

SA 03-05 NAVSUP CLAIMANCY POLICY
Pinewood Nematode Free Solid Wook Packaging Material (SWPM) (Nov 2002) (NAVSUP)

(a) Definition. 'Pinewood nematode' as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(b) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(c) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(d) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(e) Freedom of Information Act (FOIA) (U.S. CODE/552) – Contract prices may be released under a FOIA request.

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS - COMMERCIAL ITEMS (AUG 2006)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

(1) 52.233-3, Protest after Award (AUG 1996) (31 U.S.C 3553).
(2) 52.233-4, Applicable Law for Breach of Contract Claim (OCT 2004) (Pub. L. 108-77, 108-78)

(b) The Contractor shall comply with the FAR clauses in this paragraph (b) that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items:

_____ (28) 52.226-5, Restrictions on Subcontracting Outside Disaster or Emergency Area (42 U.S.C. 5150).
_____ (29) 52.232-29, Terms for Financing of Purchases of Commercial Items (FEB 2002) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).
_____ (30) 52.232-30, Installment Payments for Commercial Items (OCT 1995) (41 U.S.C. 255(f), 10 U.S.C. 2307(f)).
___X_ (31) 52.232-33, Payment by Electronic Funds Transfer—Central Contractor Registration (OCT 2003)(31 U.S.C. 3332).
_____ (32) 52.232-34, Payment by Electronic Funds Transfer—Other than Central Contractor Registration (MAY 1999)(31 U.S.C. 3332).
_____ (33) 52.232-36, Payment by Third Party (MAY 1999)(31 U.S.C. 3332).
__X_ (34) 52.239-1, Privacy or Security Safeguards (AUG 1996)(5 U.S.C. 552a).
_____ (35)(i) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx. 1241(b) and 10 U.S.C. 2631).
_____ (ii) Alternate I (APR 2003) of 52.247-64.

(c) The Contractor shall comply with the FAR clauses in this paragraph (c), applicable to commercial services, that the Contracting Officer has indicated as being incorporated in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items:
[Contracting Officer check as appropriate.]
_____ (1) 52.222-41, Service Contract Act of 1965, as Amended (JULY 2005)(41 U.S.C. 351, et seq.).
_____ (2) 52.222-42, Statement of Equivalent Rates for Federal Hires (MAY 1989) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).
_____ (3) 52.222-43, Fair Labor Standards Act and Service Contract Act-Price Adjustment (Multiple Year and Option Contracts) (MAY 1989) (29 U.S.C.206 and 41 U.S.C.351, et seq.)
_____ (4) 52.222-44, Fair Labor Standards Act and Service Contract Act-Price Adjustment (FEB 2002) (29 U.S.C. 206 and 41 U.S.C. 351, et seq.).

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e)(1) Notwithstanding the requirements of the clauses in paragraphs (a),(b),(c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004)(15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except

subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (APR 2002)(E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (DEC 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (JUNE 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201).

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JULY 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.)

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx. 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor may include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

http://www.arnet.gov/far/
http://www.acq.osd.mil/dpap/dfars/index.htm

(End of provision)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (JUL 2006)

(a) The Contractor agrees to comply with the following Federal Acquisition Regulation (FAR) clause which, if checked, is included in this contract by reference to implement a provision of law applicable to acquisitions of commercial items or components.

___X__ 52.203-3 Gratuities (APR 1984)(10 U.S.C. 2207)

(b) The Contractor agrees to comply with any clause that is checked on the following list of Defense FAR Supplement clauses which, if checked, is included in this contract by reference to implement provisions of law or Executive orders applicable to acquisitions of commercial items or components.

(1) _____ 252.205-7000, Provision of Information to Cooperative Agreement Holders (DEC 1991) (10 U.S.C. 2416).
(2) _____ 252.219-7003, Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan (DoD Contracts) (APR 1996)(15 U.S.C. 637).
(3) _____ 252.219-7004, Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan (Test Program) (JUN 1997)(15 U.S.C. 637 note).
(4) _____ 252.225-7001, Buy American Act and Balance of Payments Program (JUN 2005) (41 U.S.C. 10a-10d, E.O. 10582).
(5) _____ 252.225-7012, Preference for Certain Domestic Commodities (JUN 2004)(10 U.S.C. 2533a).
(6) _____ 252.225-7014, Preference for Domestic Specialty Metals (JUN 2005)(10 U.S.C. 2533a).
(7) _____ 252.225-7015, Restriction on Acquisition of Hand or Measuring Tools (JUN 2005) (10 U.S.C. 2533a).
(8) _____ 252.225-7016, Restriction on Acquisition of Ball and Roller Bearings (MAR 2006) (Section 8065 of Pub. L. 107-117 and the same restriction in subsequent DoD appropriations acts).
(9) _____ 252.225-7021, Trade Agreements (JUN 2006)(19 U.S.C. 2501-2518 and 19 U.S.C. 3301 note).
(10) _____ 252.225-7027, Restriction on Contingent Fees for Foreign Military Sales (APR 2003) (22 U.S.C. 2779).
(11) _____ 252.225-7028, Exclusionary Policies and Practices of Foreign Governments (APR 2003) (22 U.S.C. 2755).
(12) (i) _____ 252.225-7036, Buy American Act--Free Trade Agreements--Balance of Payments Program (JUN 2006)(41 U.S.C. 10a-10d and 19 U.S.C. 3301 note).
(ii) _____ Alternate I (JAN 2005) of 252.225-7036.
(13) _____ 252.225-7038, Restriction on Acquisition of Air Circuit Breakers (JUN 2005) (10 U.S.C. 2534(a)(3)).
(14) _____ 252.226-7001, Utilization of Indian Organizations, Indian-Owned Economic Enterprises, and Native Hawaiian Small Business Concerns (SEP 2004)(Section 8021 of Pub.L.107-248 and similar sections in subsequent DoD appropriations acts).
(15) _____ 252.227-7015, Technical Data--Commercial Items (NOV 1995)(10 U.S.C. 2320).
(16) _____ 252.227-7037, Validation of Restrictive Markings on Technical Data (SEP 1999) (10 U.S.C. 2321).
(17) _____ 252.232-7003, Electronic Submission of Payment Requests (MAY 2006)(10 U.S.C. 2227).
(18) _____ 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub.L. 108-375).
(19) __X__252.243-7002, Requests for Equitable Adjustment (MAR 1998)(10 U.S.C. 2410).
(20) (i) _____ 252.247-7023, Transportation of Supplies by Sea (MAY 2002)(10 U.S.C. 2631).
(ii) _____ Alternate I (MAR 2000) of 252.247-7023
(iii) _____ Alternate II (MAR 2000) of 252.247-7023
(iv) _____ Alternate III (MAY 2002) of 252.247-7023
(21) _____ 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000)(10 U.S.C. 2631).

(c) In addition to the clauses listed in paragraph (e) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders-Commercial Items clause of this contract (FAR 52.212-5), the Contractor shall

include the terms of the following clauses, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

(1) 252.225-7014, Preference for Domestic Specialty Metals, Alternate I (APR 2003)(10 U.S.C. 2533a).
(2) 252.237-7019, Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Public Law 108-375).
(3) 252.247-7023, Transportation of Supplies by Sea (MAY 2002)(10 U.S.C. 2631).
(4) 252.247-7024, Notification of Transportation of Supplies by Sea (MAR 2000)(10 U.S.C. 2631).

252.233-7001 CHOICE OF LAW (OVERSEAS) (JUNE 1997)

This contract shall be construed and interpreted in accordance with the substantive laws of the United States of America. By the execution of this contract, the Contractor expressly agrees to waive any rights to invoke the jurisdiction of local national courts where this contract is performed and agrees to accept the exclusive jurisdiction of the United States Armed Services Board of Contract Appeals and the United States Court of Federal Claims for hearing and determination of any and all disputes that may arise under the Disputes clause of this contract.

(End of clause)

ATTACHMENT 1

REFUSE SERVICE DEFINITIONS

The following are Refuse Definitions used for this contract:

2.0 **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

3.0 **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

4.0 **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

5.0 "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

6.0 "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

7.0 "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

8.0 "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

9.0 "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

ATTACHMENT 2

SHIP CLASSIFICATIONS (DESCRIPTION OF U.S. NAVY SHIPS BY CLASS AND TYPE)

The following are Ship Classifications used for this contract.

Class IA	Draft ft (mt)	Length ft (mt)	Beam ft (mt)	Displ tons	Maximum Crew Members

CVN 65	39 (11.9)	1,123 (342)	133 (40.5)	89,600	5,900
CVN 68-77	39 (11.9)	1,092 (332)	134 (41)	102,000	6,275

10.0The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

11.0 Displacement is expressed in tons and represents fully loaded displacement.

12.0 The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

13.0 There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

GLOSSARY OF TERMS AND ABBREVIATIONS

AGOS	RESEARCH SHIP
AGSS	RESEARCH SUBMARINE

ATTACHMENT 3

FLOATING LINE OF DEMARCATION (FLD) SPECIFICATIONS

The following are the Governments basic requirements for the Floating Line of Demarcation Specifications to be used for this contract:

1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around anchored ships. The purpose of the FLD is to establish a visual reference (not necessarily a physically connected line) final demarcation line, visible day or night, that unauthorized swimmers or watercraft should not be entering. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to CNB radar. The Picket Boats will patrol outside of this visual reference. The FLD shall have an Entry Control Point (ECP) where authorized watercraft are allowed access to and from the ship. The Contractor shall provide at a minimum 2 (two) work boats to tend to the FLD at all times. The FLD is not designed to stop approaching unauthorized watercraft rather it is to help identify a safe standoff zone.

2. The size of the Floating Perimeter will be approximately 2500 meters to 2700 meters based on a ship's length of approximately 800 feet. At Singapore Man-of-War Anchorage, the perimeter will be positioned 400 feet (125 meters) outside the swing radius of the ship.

3. Weights sufficient to anchor the FLD in place to the seabed. The size and number of weights will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the FLD line intact at all times regardless of sea conditions.

4. The Contractor shall have communication capabilities, either VHF or cellular phone with MPA Port Operation Control, CNB and U.S. Navy vessel. The contractor shall report the status of the Floating Visual Line of Demarcation to MPA Port Operation control every two hours or other regular interval agreed upon between Contractor and MPA Port Operation Control.

5. The Contractor shall provide a minimum of two (2) work boats to tend the FLD at all times while the system is deployed.

6. The FLD shall be deployed in the most expeditious manner as soon as the U.S. Navy vessel is anchored.

7. When the FLD is retrieved, the Contractor must show documentary proof that all equipment deployed is removed from the location.

8. The Contractor shall provide the U.S. Navy, CNB and MPA an updated and current emergency contact list in case of contingencies.

9. Below are two examples of FLDs.

a. Example 1 - Continuous Line FLD –

i. Specifications: Continuous line made of nylon rope or steel cable (minimum 20mm) with at least one connectable ECP for access.

ii. Buoys or floats positioned every meter on the line sufficient to keep line afloat and visible on the surface of the water.

iii. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical miles. In addition, buoys must also be visible to CNB radar.

iv. Weights positioned at intervals along the line to anchor the line to the seabed and stabilize the perimeter. The number of weights, size and intervals will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the perimeter intact and in position at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

b. Example 2 - Floating Buoy System (FBS)

i. Specifications: The FBS must clearly show a perimeter line and fully surround the ships at anchorage. Large yellow buoys (minimum 1 meter in diameter) with battery powered flashing yellow strobe lights (standing at least one meter high above the water) and positioned every 120 meters along the demarcation line. The flashing yellow strobe lights must be visible day or night at a minimum distance of 2 nautical. In addition, buoys must also be visible on CNB radar.

ii. Weights sufficient to anchor each buoy to the seabed. The size of the weight will be determined by the conditions of the harbor or anchorage. It must be sufficient to keep the buoy line intact at all times regardless of sea conditions. Failure to do this may result deduction to the fees for the provided service.

2. Contract Pricing: Prices are firm-fixed-price per unit and are inclusive of all costs which include the following:

a. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

b. Mobilization and Demobilization (Mob & De-mob). All Mob & De-mob costs shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes transportation of equipment and charges for the use of cranes, forklifts, tugs, workboats and any other equipment and labor required for the deployment, maintenance and retrieval for the floating perimeter.

c. Repositioning equipment. All repositioning of equipment shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

d. Pre-positioning / Pre-staging and Vetting Operations. All pre-positioning / Pre-staging and vetting operations shall be included in the unit price. The vessel shall only be charged for the actual number days that the perimeter is in use while the ship is port. No additional days shall be charged.

3. Time Calculations: These CLINs are based on daily rates. Time will begin being measured once the equipment is deployed round the vessel and capable of operations.

4. General: The Contractor is responsible for providing floating visual line of demarcation. The Contractor must work closely with other US Navy contractors such as subsistence contractor. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

5. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

    a. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

    b. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

6. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

    a. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

    b. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

    c. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

7. Inspections: The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

ATTACHMENT 4

PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

14.0 The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

15.0 The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

16.0 Ships at anchorage will normally require two Picket Boats.

17.0 The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

18.0 The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

19.0 The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

20.0 The Picket Boat will meet the following requirements:

7.1. Licensed for commercial operations by local country Department of Transportation.

7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

7.11.4. Portable Spotlight

ATTACHMENT 5

SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

1.2. Security guards may be provided through private security firms or through local police officials.

1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – In Picket Boats: (CLIN XX25AS)

2.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

2.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

2.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN XX25AN. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

2.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

2.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

2.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.7. The following equipment will be required as a minimum for each guard:

2.7.1. If armed, firearm with ammunition (standard authorities issue);

2.7.2. Uniform as provided by contractor or authorities.

2.7.3. Foul weather clothing such as rubber boots or rain gear.

2.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

2.7.6. Any other locally required equipment to perform their job.

2.8. ROEs for Boat Operations

2.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

2.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

2.8.1.2. If the first warning is ignored, the security guard will immediately notify the ship of the threat.

2.8.1.3. The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

2.8.1.4. As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

2.8.2 Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

3. Security Guards – At Pierside: (CLIN XX25AT AND CLINXX25AU)

3.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

3.2 All pierside guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

3.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

3.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.6. The following equipment will be required as a minimum for each guard:

3.6.1. Uniform as provided by contractor or authorities;

3.6.2. If armed, firearm and ammunition (standard authorities issue);

3.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.6.4. Mirror on long handle for checking undersides of vehicles.

3.6.5. Flashlight for nighttime inspections.

3.6.6. Any locally required equipment to perform their job.

3.7. ROEs Pierside

3.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

3.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

3.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

3.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

3.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

3.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

3.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

ATTACHMENT 6

FUEL SPECIFICATIONS

The following are the Fuel Specifications for this contract:

SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of visible particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/
Density, @ 15ºC, kg/m^3 (max)	876	D 1298 (R), D 4052, D 287
Distillation, 10 % point, ºC 50% point, ºC 90% point, ºC, (max) end point, ºC, (max) Residue º Loss, % vol., (max)	 Record Record 357ºC 385ºC 3.0	D 86 3/
Cloud Point, ºC, (max)	-1ºC	D 2500
Color, (max)	3	D1500
Flash Point, ºC, (min)	60ºC	D 93 4/
Particulate Contamination, mg/liter, (max)	10	D 5432 5/
Pour Point, ºC, (max)	-6ºC	D 97
Viscosity, @ 40ºCm mm^2/second	- 1.7 - 4.3	D 445
Chemical Requirements		
Accelerated Storage Stability, total insolubles, mg/100ml, (max)	1.5	D5304 (R), D 2274 6/
Acid Number, mg KOH/100 ml, (max)	0.30	D 974 (R), D 664
Aniline Point, ºC, (min)	60ºC	D 611
Ash, % wt., (max)	0.005	D 482

Carbon Residue, on 10% bottoms, % wt., (max)	0.20	D 524 (R), D4530, D 189 7/
Corrosion, @ 100ºC, (max)	No. 1 ASTM	D 130

Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 2622
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium Vanadium	 1.0 0.5 1.0 0.5	D 3605 9/
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

   (a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

   (b) The test temperature shall be 25ºC.

   (c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST	METHOD	REQUIREMENTS
1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min
5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)
7. Viscosity @ 40ºC	ASTM D 455	1.7 - 4.5 CST
8. Color	ASTM D 1500	3 max
9. Gravity	ASTM D 1298, D 287	Record
10. Carbon Residue	ASTM D 524	0.35% max
11. Ash	ASTM D 482	0.01% max
12. Sulfur	ASTM D 129, D 1552 D2622	1.00% max
13. Copper Corrosion	ASTM D 130	3 max

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

	TEST REQUIREMENTS	METHOD	
1.	Cetane Number	ASTM D 613	42 min
	or		
	Cetane Index	ASTM D 976	43 min
	NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338^{O}C.		
2.	Appearance @ 21^{O}C or ambient temp. (whichever higher)	Visual	Clear & Bright
	or		
	Water & Sediment	ASTM D 2709	0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357^{O}C max.
4.	Flash Point	ASTM D 93	60^{O}C min
	NOTE: The flash point value is absolute and no value less than 60^{O}C is permissible.		
5.	Cloud Point	ASTM D 2500	-1.1^{O}C (30^{O}F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40^{O}C	ASTM D 445	1.7 - 4.5 cst
7.	Color	ASTM D 1500	3 max.
	NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted if red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.		
8.	Density @ 15^{O}C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524	0.35 mass % max.
		ASTM D 189	
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294, ASTM D 1552, or ASTM D 2622	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	GRADE RMB-10 (IFO 60)	GRADE RME-25 (IFO-180)	GRADE RMG-35 (IFO 380)	TEST METHOD
Density @15°C, kg/m^3, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

ATTACHMENT 7

POTABLE WATER SPECIFICATIONS

The following are Potable Water specifications used for this contract.

NATIONAL PRIMARY DRINKING WATER REGULATIONS (NPDWR) BUREAU OF MEDICINE AND SURGERY (BUMED) TREATED WATER QUALITY STANDARDS /ENVIRONMENTAL PROTECTION AGENCY

CONTAMINANT	MCLG (mg/L) [1]	MCL (mg/L)	AL (mg/L [2])

FLUORIDE	4	4	

(1) **Maximum contaminant level goal (MCLG).** The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are no enforceable health goals.

(2) **Action level (AL)**. Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90th percentile" lead level is greater than 0.015 mg/L).

Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

Heterotrophic plate count	n/a	TT[3]
Legionella	0	TT[3]
Total Coliforms (including fecal coliform and E. Coli)	zero	5.0%[4]
Turbidity	n/a	TT[3]
Viruses (enteric)	zero	TT[3]

Note:
[1] Definitions:
Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to MCLGs as feasible using the best available treatment technology and taking cost into consideration. MCLs are enforceable standards.
Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety and are non-enforceable public health goals.
Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
Treatment Technique - A required process intended to reduce the level of a contaminant in drinking water.

[2] Units are in milligrams per liter (mg/L) unless otherwise noted. Milligrams per liter are equivalent to parts per million.

[3] EPA's surface water treatment rules require systems using surface water or ground water under the direct influence of surface water to (1) disinfect their water, and (2) filter their water or meet criteria for avoiding filtration so that the following contaminants are controlled at the following levels:

- Cryptosporidium: (as of January 1, 2002) 99% removal/inactivation
- Giardia lamblia: 99.9% removal/inactivation
- Viruses: 99.99% removal/inactivation
- Legionella: No limit, but EPA believes that if Giardia and viruses are removed/inactivated, Legionella will also be controlled.
- Turbidity: At no time can turbidity (cloudiness of water) go above 5 nephelolometric turbidity units (NTU); systems that filter must ensure that the turbidity go no higher than 1 NTU (0.5 NTU for conventional or direct filtration) in at least 95% of the daily samples in any month. As of January 1, 2002, turbidity may never exceed 1 NTU, and must not exceed 0.3 NTU in 95% of daily samples in any month.
- HPC: No more than 500 bacterial colonies per milliliter.

[4] No more than 5.0% samples total coliform-positive in a month. (For water systems that collect fewer than 40 routine samples per month, no more than one sample can be total coliform-positive). Every sample that has total coliforms must be analyzed for fecal coliforms. There may not be any fecal coliforms or E. coli.

[5] Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Disease-causing microbes (pathogens) in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. These pathogens may pose a special health risk for infants, young children, and people with severely compromised immune systems.

Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites which are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Sampling requirements for the Navy public water system apply.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Auto analysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the Multiple-Tube Fermentation (MTF) Technique; and the Membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use applies.

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-

positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, unless the Contracting Officer on a case-by-case basis waives this requirement.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the Contracting Officer may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before.

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms, or E. coli testing on total coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements which apply when a sample is fecal coliform-positive.

Turbidity: The MCL for turbidity applies to both community water systems and non community water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at Contracting Officer option).

b. Five turbidity units (maximum) average for 2 consecutive days.

The MCL for Radiological Contaminants are:
Gross alpha particle activity including radium 226 but excluding
radon and uranium . . . . . 15 pCi/L
Beta particles and photon emitters ……4 millirems / year
Combined radium 226 and radium 228 . . . . . .5 pCi/L
Tritium . . . . . 20,000 pCi/L
Strontium-90. . . . . 8 pCi/L
Uranium …….. 30ug/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

National Secondary Drinking Water Regulations (NSDWR) The Secondary Maximum Contaminant Levels (MCLs)

CONTAMINANT	MCL (mg/L)
ALUMINUM	0.05 TO 0.02
CHLORIDE	250
COLOR	15 COLOR UNITS
COPPER	1
CORROSIVITY	NONCORROSIVE
FLUORIDE	2

FOAMING AGENTS	0.5
IRON	0.3
MANGANESE	0.05
ODOR	3 THRESHOLD ODOR NUMBER
PH	6.5 - 8.5
SILVER	0.10
SULFATE	250
TOTAL DISSOLVED SOLIDS (TDS)	500
ZINC	5

Note: The contaminants covered by this regulation are those that may adversely affect the aesthetic quality of the drinking water. These secondary levels represent goals for drinking water quality but are not Federally enforceable.

(3) The reception, handling, storage, and delivery of potable water to ship's water systems shall be carried out under completely sanitary conditions.

(4) For pierside berthing, delivery shall be made by hose from the pier whenever possible. If barge service is deemed necessary, the Contractor shall ascertain from the ship's Supply Officer the exact amount needed prior to making delivery.

(5) The Contractor shall make deliveries during normal working hours, unless otherwise approved by the ship's Supply Officer or his/her authorized representative.

(6) All equipment, trucks and barges used by the Contractor in performance of these services shall be subject to inspection and test by an authorized representative of the U.S. Government as the Contracting Officer may specify. Final inspection/acceptance shall be subject to approval by the ship's Chief Engineer or his/her authorized representative. The U.S. Government inspectors shall be entitled to inspect the equipment, trucks, and barges at all reasonable times, as often as they may deem necessary, and at such reasonable place or places as the U.S. Government may specify.

(7) The Contractor shall, without cost to the U.S. Government, furnish the necessary personnel and facilities to conduct such test and examination of samples of water and barges used hereunder as the Government inspector may designate, to determine the extent or possibility of contamination of such water, equipment, and barges. The Contractor may, at its option and cost, have the tests conducted by a recognized Sanitary Inspector provided that the performance of the tests and examinations by such Sanitary Inspection has been approved in advance and in writing by the U.S. Government Inspector.

(8) All tests and examinations, whether performed by or on behalf of the Contractor, shall be conducted in the presence of the U.S. Government Inspector.

(9) The Contractor agrees to furnish such reports and execute such forms as the U.S. Government may require in connection with services performed under this contract and further agrees that requests for such reports and execution of such forms will be executed promptly.

ATTACHMENT 8

WATER TAXI SPECIFICATIONS

The following are Commander 7th Fleet (COMSEVENTHFLT) Water Taxi specifications used for this contract.

1. Compliance - The Contractor shall comply fully with all applicable laws, ordinances, statutes, regulations, and licensing requirements for every task, and subtask, under this contract, whether performing with its own personnel or with subcontractors. The Contractor shall be fully liable for all aspects of performance listed in Schedule of Supplies/Services which the ship requires, although they may be subcontracted in part or full.

2. Quality of Equipment - All equipment provided must meet COMSEVENTHFLT water taxie specifications, meet all safety standards required by local law, and have any required current insurance certifications. Passenger compartments must be presented in a clean condition so as not to soil the passengers, their clothing or possessions, and be free of debris, grease and oil.

3. Quality of Services - The quality of all services rendered hereunder shall conform to the highest standards in the relevant profession, trade, or field of endeavor. Individuals fully qualified and licensed in the relevant profession, trade, or field shall render all services. Without additional expense to the Government, the Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work. Further, the Contractor is responsible for ensuring that proper safety and health precautions are taken to protect the work, the worker, the public, and the property of others.

4. Inspection and Acceptance - The Contractor shall pre-inspect the provided boats using the COMSEVENTHFLT specifications set forth below. Boats failing the inspection will not be used. The Contractor shall provide a list of boats (including their name, registration number, capacity, etc.) meeting the specifications to the designated NRCC Singapore Logistics Support Center (LSC) Water Taxi Inspector. The LSC Inspector will use this specification for both pre-contract and periodic Contracting Officer/authorized representative inspections of the boats. Additionally, the LSC Inspector shall provide ships, prior to their arrival in port, a message list of boats that have been inspected. Should ships find discrepancies between the boats provided and this specification, the ship will immediately notify the Contractor, the FISC Det Singapore Contracting Officer (KO), and the LSC Inspector. An info message will be sent to Commander Logistics Western Pacific (COMLOGWESTPAC) and the operational chain of command up to and including COMPACFLT.

5. COMSEVENTHFLT Specifications:

5.1. Boat requirements: Boats furnished under this contract shall be watertight, staunch, strong, seaworthy, in sound mechanical condition, free of debris, and fitted for service required. Maintenance, safety, and other periodical inspections shall be performed as required by the applicable laws and regulations of (insert country). Notwithstanding compliance with local laws and regulations, the contractor shall meet all additional requirements as set forth throughout Section 5.

5.1.1. Each boat shall be equipped with at least one clean and serviceable life jacket for each passenger and crew member, and all jackets shall be stowed in a readily accessible place.

5.1.2. Each boat shall be capable of transporting a minimum of (see Schedule of Services) passengers. (Weight restrictions may also be set forth, if appropriate.)

5.1.3. The following information shall be conspicuously posted in both English and (the appropriate foreign language):

5.1.3.1. Current Operator’s/Captain's license and boat names.

5.1.3.2. Passenger/weight capacity limit notice.

5.1.3.3. Location of life jackets and other life saving equipment.

5.1.3.4. Location of all exits indicated in large letters.

5.1.3.5. Emergency procedures

5.1.4. Emergency lighting, both permanent and hand held, shall be available and in working order at all times.

5.1.5. Operation of the boat shall be in a safe and seaworthy manner.

5.1.6. The consumption of alcoholic beverages shall not be permitted aboard the boat.

5.2. Operator qualifications: All personnel or employees of the contractor operating boats providing subject services shall have all certification required and issued by (insert country) for the operation of the type class, or size of boat being operated by such personnel. In addition, all such personnel shall have requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner.

5.3. Security: During the term of this contract the ship(s) to be serviced (insert ship name if purchase order) agree(s) to provide adequate and sufficient security personnel for the purpose of maintaining the orderly transportation of its personnel and such civilians who may be transported. Such naval personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat--SOPA when more than one ship is in port). When embarked in a contractor operated boat, a boat officer will be responsible for the good order and discipline of naval personnel onboard. He/she will also have the authority from the Commanding Officer of the serviced ship (or SOPA) to refuse the contracted boat to be boarded and/or sail under conditions the boat officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

5.4. Boat capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factor affecting safety.

5.5. Inspection/Acceptance: Each boat to be used in the performance of this contract shall be inspected by the (Contracting officer or Husbanding Agent, as appropriate), or authorized representative prior to acceptance. This inspection shall include but not be limited to:

5.5.1. Hull

5.5.1.1. Watertight integrity of weatherdecks, bulkheads, watertight closures and interior hull structures.

5.5.1.2. Superstructure, including masts and stacks.

5.5.1.3. Railings, bulwarks and their attachment to the hull, especially guardrails and lifelines.

5.5.1.4. Provisions for drainage of sea water from exposed decks over the side and not into the bilges.

5.5.1.5. Access/egress points- adequacy of number and location.

5.5.2. Machinery

5.5.2.1. 2-way radio or other reliable means of electronic communications (i.e., cellular phone) plus an additional battery back-up is required.

5.5.2.2. Main propulsion and auxiliary machinery essential to operation of boat.

5.5.2.3. Sea and bulkhead closure valves.

5.5.2.4. Bilge auction strainers and dewatering systems-bilge pump to be tested by operation

5.5.2.5. Bilges free of flammable liquids

5.5.3. Electrical

5.5.3.1. Cables.

5.5.3.2. Navigation, deck, and emergency lights.

5.5.3.3. Rotating electrical machinery; e.g., generators and motors --Storage batteries

5.5.4. Lifesaving equipment

5.5.4.1. Life preservers - sufficient number for maximum capacity of boat, accessible and in satisfactory condition.

5.5.4.2. Life raft(s) and hydrostatic release (where applicable) – sufficient for maximum boat capacity.

5.5.4.3. First aid kits, life rings and distress lights.

5.5.4.4. Distress signaling devices

5.5.5. Fire fighting equipment

5.5.5.1. Fire pump - test by subjecting fire hose(s) to fire pump pressure.

5.5.5.2. Portable fire extinguishers.

5.5.5.3. Fixed systems, e.g., C02 cylinders.

5.5.6. Steering apparatus

5.5.7. Miscellaneous systems and equipment

5.5.7.1. Harbor charts.

5.5.7.2. Ground tackle and mooring lines.

5.5.7.3. Whistle/fog horn, bell.

5.5.7.4. Lighted compass.

5.5.7.5. Radar.

5.5.7.6. 2-way radio capable of Bridge-to-Bridge communications.

5.5.7.7. Current license.

5.5.7.8. Operator qualifications.

5.6. Only approved boats shall be used in performance of this contract. The (LSC Inspector or Husbanding Services contractor, as appropriate) will provide each ship with a list of pre-approved boats. If the LSC Inspector or Husbanding Services contractor is not available for inspection and pre-approval of the boats, then the only inspection requirement-is that contained in paragraph 4.7 below. A complete inspection or verification by the ship designated representative of all items in this paragraph, however, is not precluded.

5.7. Notwithstanding the pre-approval contemplated above, the ship will as a minimum conduct a complete inspection of all contractor boats prior to acceptance and periodically thereafter. This inspection shall include but is not limited to the following:

5.7.1. Safety of operations. Insure the following are present and in working condition:

5.7.1.1. Navigation lights, area charts, lighted compass, distress signals, and a fog signal device.

5.7.1.2. Fire extinguishers sufficient for the size of the vessel operated.

5.7.1.3. Radio (with battery backup) capable of Bridge-to-Bridge communications.

5.7.1.4. Anchor/chain sufficiency for the size of the vessel operated.

5.7.1.5. Verify weather deck drains are free from obstructions and vent overboard vice into bilge.

5.7.2. Hazards to passengers. Conduct topside visual inspection for safe conditions of the following:

5.7.2.1. Establish that life jackets sufficient in quality, quantity, and readily accessible with locations marked in English.

5.7.2.2. Verify decks, railings, doors and seats are structurally sound, latched, and tightened as appropriate.

5.7.2.3. Ensure no bare or exposed electrical wires or connections are located in the passenger area.

5.7.2.4. Validate that sufficient unobstructed exits are present and marked in English.

5.7.2.5. Verify that no missile hazards, gear adrift, or trip hazards exist.

5.7.3. The following shall be conspicuously displayed, in English:

5.7.3.1. Passenger/weight capacity.

5.7.3.2. Location and number of life jackets.

5.7.3.3. Location of life saving equipment.

5.7.3.4. Locations of exits (if not obvious).

5.8. Critical safety equipment: In the event an item critical to safety is missing from the boat offered for service, the ship's Commanding Officer or designated representative will have the option of furnishing the missing item. In all cases where government furnished property is provided due to the contractor's failure to meet requirements of the contract, the Contracting officer should be notified immediately of the circumstances surrounding the deficiency so that appropriate action can be taken. If the Contracting officer is not on site, notification will be by message.

5.9. If applicable, FAR 52.245-4, Government-furnished Property (short form) (APR 1984), is incorporated by reference into this (contract or purchase order, as appropriate).

6. Onboard Security: The ship being serviced may provide security personnel for the purpose of maintaining the orderly transportation of their personnel. Such security personnel will be assigned at the discretion of the serviced ship's Commanding Officer (or Senior Officer Present Afloat (SOPA) when more than one ship is in port). When embarked in a Contractor operated boat, a Boat Officer will be responsible for the good order and discipline of personnel onboard. He/she will also have the authority from the Commanding Officer/SOPA to refuse the contracted boat to be boarded and/or sail under conditions the Boat Officer considers to be unsafe and, once the contracted boat is underway, to direct its return to its previous mooring due to conditions deemed unsafe.

7. Boat Capacity: Actual passenger capacity at the time of the rendering of services will be determined by the ship's Commanding Officer or his designated representative; notwithstanding the advertised or licensed passenger capacity. Determination of actual passenger capacity will be based on the consideration of many factors, including, but not limited to, the condition of the boat as determined through an inspection, local weather or sea conditions, and any other factors affecting safety.

8. Deficient Boat - In the event the boat is determined unacceptable or deficiencies are found, the Contractor shall replace the boat or correct the deficiencies within one hour after receipt of notification. Failure to replace or correct the deficiencies may result in the reduction of the contract price or termination of the contract for default.

9. Government Furnished Property - In all cases where Government-furnished property is provided due to the Contractor's failure to meet requirements of the contract, the Contractor shall notify the KO and provide information about the circumstances surrounding the deficiency. If appropriate, a reduction in contract price may be made.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
J	1 | 15

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO.(If applicable)
P00003	09-Mar-2007	N4034506RCSG0029	

6. ISSUED BY	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
U.S. FLEET AND INDUSTRIAL SUPPLY CENTER DET SINGAPORE BUILDING 7-4 PSA SEMBAWANG TERMINAL DEPTFORD ROAD SINGAPORE 759657	N40345	**See Item 6**	

8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		
GLENN DEFENSE MARINE (ASIA) PTE LTD MR. LEONARD FRANCIS 15D PANDAN ROAD SINGAPORE 609266		9A. AMENDMENT OF SOLICITATION NO.
		9B. DATED (SEE ITEM 11)
	X	10A. MOD. OF CONTRACT/ORDER NO. N40345-06-D-1005
CODE QB341 FACILITY CODE	X	10B. DATED (SEE ITEM 13) 29-Sep-2006

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) Mutual Agreement

E. IMPORTANT: Contractor ☐ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzsnk020710545

1. This modification is issued to revise the language in the following section:

   a. Under Section C2 - Statement of Work (SOW), Task 1. Management Services (CLINs XX01 and XX02), paragraph 1.3 is revised as per attached.

2. The revised language is highlighted in yellow of this contract.

3. All other terms and conditions remained unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)
		(b)(6), (b)(7)(C) CONTRACTING OFFICER TEL: (b)(6), (b)(7)(C)
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY (Signature of Contracting Officer)
(Signature of person authorized to sign)		16C. DATE SIGNED 08-Mar-2007

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Det Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.8. RESERVED – (Interpreter Services)

1.2.9. Mail Delivery Service

1.2.9.1. The Contractor shall provide mail pick-up and delivery service for the ships. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers the port then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Det Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the AGR prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3 The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.13.4. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or FISC Det Singapore Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competion to the maximum extent practicable to obtain supplies and services from the sources whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $2,500, the Contractor shall provide information on the results of competition conducted by providing name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for the decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, paragraph 14: Standard for Professional Services, paragraph 14.1 and 14.2.

1.3.3. No later than 60 days after contract award, the contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.4.1. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.4.2. Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.4.3. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

1.5. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.5.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be from approved sources and must be in accordance with Quality Assurance Provisions in Attachment 9. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.5.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Singapore Contracting Officer within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.5.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Corps. A listing of approved sources is available via the U.S. Army Veterinary Command (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided per Attachment 10. The U.S. Army Veterinary Command requires 90 days advance notice to arrange for inspection of new facilities.

1.5.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.5.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED (CAMELS) - (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

7.4. The Contractor shall provide Prepaid International Calling Cards.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Det Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at FISC Det Singapore and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB AND CIN XX12AC)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AD THROUGH CLINXX12AF)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 4.

12.6. Perimeter Fencing (CLIN XX12AG AND CLIN XX12AH)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AJ THROUGH CLIN XX12AM)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AN AND CLIN XX12AP)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations.

12.9. RESERVED (Portable Latrine) - (CLIN XX12AQ)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AR)

12.10.1 The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards on Picket Boat (CLIN XX12AS)

12.11.1. The Contractor shall provide security guards to patrol in picket boats. The Contractor shall comply with Attachment 5 for security guard operations.

12.12. Security Guards Pierside (CLIN XX12AT AND CLIN XX12AU)

12.12.1 The Contractor shall provide security guards Pierside to ensure only authorized personnel, vehicles, and material are allowed into restricted areas.

12.12.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.13. Two Way Radios (CLIN XX12AV) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

12.14. Handheld Explosive Detectors (CLIN XX12AW AND CLIN XX12AX) The Contractor shall provide handheld explosive explosive detectors capable of detecting explosives.

12.15. Handheld Wand Metal Detectors, High Sensitivity Type (CLINXX 12AY AND CLIN XX12AZ) The Contractor shall provide handheld metal detectors capable of detecting metal.

12.16. X-ray machines with high resolution color (CLIN XX12BA) The Contractor shall provide X-ray machines that are capable of X-raying hand carried luggage and bags to determine its contents.

12.17. Walk thru Metal Detectors with high sensitivity four zones (CLIN XX12BB) The Contractor shall provide walk thru metal detectors capable of detecting metal.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 7 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. LINESBOATS (CLIN XX16) The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED (MANLIFT) - (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. If an operator is not provided, the Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19) LIGHTERAGE (CLIN XX19AL, XX19AM & XX19AN)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled "SHIP'S SPARE IN TRANSIT"

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship'sarrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT' and addressed to the ship's Commanding Officer of the Unit, care of The Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the packge to the ship after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. RESERVED (MISCELLANEOUS) - (CLIN XX20)

21. RESERVED (OIL BOOMS) - (CLIN XX21)

21.1. Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. RESERVED (OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL) - (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste Barges / Trucks when necessary, in accordance with Force protection or other requirements.

23. RESERVED (PAINT FLOAT) - (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED (PRATIQUE) - (CLIN XX26) The Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

27. RESERVED (REEFER CONTAINER) - (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED (SHORE POWER) - (CLIN XX28)

28.1. The Contractor shall provide diesel generators with fuel along side the ship to supply shore power to the vessel. Generators shall emit sound levels of less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED (SHORE STEAM) - (CLIN XX29) - The Contractor shall provide Shore Steam to the ship.

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX 35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the FISC Det Contracting Officer or designated representative within five working days of each ship's departure.

(End of Summary of Changes)

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship and FISC Det Singapore Contracting Officer a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services

1.2.7.1. The contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.8. RESERVED – (Interpreter Services)

1.2.9. Mail Delivery Service

1.2.9.1. The Contractor shall provide mail pick-up and delivery service for the ships. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services:

1.2.10.1. The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.2. If an ITT contract has been awarded which covers the port then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Only MWR may sell, offer, offer to sell, or collect a fee for booking or providing accommodation, tours, travel, recreation or entertainment to the ship's crew. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. Passing Ship's Orders: The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth. The HS Contractor shall also arrange for these contractors invoicing and payments by the ship. The HS contractor must have a mutual agreement with the other contractors to perform these services for them. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor and FISC Det Singapore.

1.2.12. Customs & Immigration: The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the AGR prior to arrival to ascertain how many personnel will require assistance.

1.2.13. The Contractor shall facilitate the ship's timely departure.

1.2.13.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.13.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.13.3 The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.13.4. The Contractor shall remove all provided equipment.

1.3. ARRANGING SUPPLIES AND SERVICES

1.3.1. When requirements exist for items not priced in the Schedule of Supplies and Services, the Contractor shall assist the Supply Officer of the vessel in obtaining information from, and delivering information to, reliable sources for these items by identifying responsible sources, performing market surveys, providing pricing information from at least three sources whenever feasible, and delivering Government orders. In obtaining or delivering this information, the Contractor shall inform the potential sources that it is solely obtaining and delivering information for the U.S. Navy, and is not entering into any contractual commitment. The information obtained shall be submitted to the ship's Supply Officer and courtesy copy to FISC Det Singapore Contracting Officer who shall issue appropriate contractual documents. The Contractor shall deliver to the vendor the Supply Officer's or Contracting Officer's order to purchase the supplies or services. This order shall be in writing (facsimile and electronic transmission included) and signed by the Supply Officer or Contracting Officer specifying the price, item(s), quantity, and delivery requirements of the order. The Contractor shall facilitate receipt of the items by the ship. The Contractor is not required to arrange unofficial requirements or personal requests from individual crewmembers. In certain cases (i.e. Fuel, FFV, Bread and Eggs) the contractor shall use the SOWs furnished herein when arranging supplies and services.

1.3.2. In the event the above process cannot be followed by the Supply Officer, the Contractor is still responsible for promoting competion to the maximum extent practicable to obtain supplies and services from the sources whose offer is the most advantageous to the Government. In addition, if the supply or service required is greater than $2,500, the Contractor shall provide information on the results of competition conducted by providing name of the sources contacted, amount of each offer received (indicating the items ordered, quantity, unit price and total price) and rational for the decision. This information must be provided to FISC Det Singapore Contracting Officer during the ship visit or no later than 7 days after the ship's departure from the visited port. The Contractor's responsibility to promote competition as indicated in this paragraph will be evaluated based on the criteria established in Section III, paragraph 14: Standard for Professional Services, paragraph 14.1 and 14.2.

1.3.3. No later than 60 days after contract award, the contractor is required to submit written policy and procedures on Arranging Supplies and Services (to include purchasing procedures). The Contracting Officer will review the plan for acceptability, and may require revisions to the policy. When the Contracting Officer deems the written policy and procedures acceptable to the Government, the Contracting Officer will approve the plan.

1.4. Pre-Sailing Visit: The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship's departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later.

1.4.1. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship's Supply Officer.

1.4.2. Copies of all invoices presented to the ship shall be provided to FISC Det Singapore Contracting Officer within 5 working days from the departure of the visiting vessel.

1.4.3. The Contractor shall relay at that time any late information on pilot and tug schedule changes, and any additional information applicable to the ship and its departure. The Contractor's point of contact for this information shall be the Command Duty Officer, Supply Officer, or his designated representative.

1.5. FRESH FRUITS AND VEGETABLES (FF&V), BREAD, EGGS, AND OTHER SUBSISTENCE ITEMS

1.5.1. When requested by the ship, the husbanding contractor shall assist in arranging for the timely provision of FFV, Bread and Eggs and other subsistence items. FFV shall be of good quality and meet the following specific standards: 1) Shall not be grown (cultivated) using nightsoil; 2) Shall be free of pest and insect infestation; and 3) Shall be fresh yet not overripe. Bread and Eggs must be from approved sources and must be in accordance with Quality Assurance Provisions in Attachment 9. The husbanding services contractor shall assure that the provider of items arranged under this line item furnish to the Supply Officer invoices showing quantities furnished; unit price in U.S. dollars and total price in U.S. dollars (Example: 10 pounds tomatoes @ $1.00 USD per pound = $10.00 USD). Any delivery charges shall already been part of the price and should not be shown separately.

1.5.2. In all cases where the total cost of FFV and subsistence items received by a ship exceeds $10,000.00 for a port visit, the contractor, in addition to the CRAFT reports, shall submit a report via e-mail to FISC Det Singapore Contracting Officer within ten (10) days after the visit. The report shall provide a breakdown of the FFV and subsistence delivered, detailing items purchased, quantities, unit price, and total price (Example: 8 pounds Tomatoes @ $1.00 per pound = $8.00). In addition, the contractor shall provide copies of all quotes obtained.

1.5.3. The husbanding contractor is responsible for ensuring that the sources recommended to the ship's SUPPO for supply of bread, eggs and other subsistence items, such as meat and dairy products, have been approved by the U.S. Army Veterinary Corps. A listing of approved sources is available via the U.S. Army Veterinary Command (USA VETCOM) Domino Web Page at: http://vets.amedd.army.mil/vetcom/directory.htm (DOD Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement. Information on how to request and obtain sanitary inspection is provided per Attachment 10. The U.S. Army Veterinary Command requires 90 days advance notice to arrange for inspection of new facilities.

1.5.4. Husbanding contractors shall consider this requirement for inspection of sources when recommending or selecting suppliers of subsistence items. Under no circumstances should the contractor recommend or offer for acceptance subsistence items from non-approved sources.

1.5.5. The Contractor shall comply with the Quality Assurance Provisions as per Attachment 9.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED (CAMELS) - (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

7.4. The Contractor shall provide Prepaid International Calling Cards.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state "Restricted Area & Do Not Enter"
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC Det Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at FISC Det Singapore and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB AND CIN XX12AC)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AD THROUGH CLINXX12AF)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 4.

12.6. Perimeter Fencing (CLIN XX12AG AND CLIN XX12AH)

12.6.1. The contractor shall provide an adequate Perimeter Fence around the pier area. The purpose of the perimeter fencing is to keep unauthorized individuals from easily gaining access to the Port area and the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep people out. If the Port has an outer perimeter fence with controlled vehicle access then that will normally be sufficient. If not, or if additional fencing is required to control access to the pier, then the Contractor will provide portable chain link fencing with vehicle and walk up entrances.

12.6.2. The perimeter fence provided by the Contractor must meet the following specifications:

Material: Chain link of aluminum or other durable metallic material
Height: Minimum height of 2.5 meters (7 feet)
Base: Temporarily set in pier or with sufficient concrete base to keep from being easily moved
Entry Point: Entry available for vehicles and personnel.

12.7. Physical Security Barriers (CLIN XX12AJ THROUGH CLIN XX12AM)

12.7.1. The contractor shall provide physical security barriers to completely close off the pier area around the ship. There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The most common form is the Water Filled Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determine the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats (CLIN XX12AN AND CLIN XX12AP)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations.

12.9. RESERVED (Portable Latrine) - (CLIN XX12AQ)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. Portable Lighting (CLIN XX12AR)

12.10.1 The Contractor shall provide portable flood lights to provide additional lighting at pierside or to light the water around ships. The purpose of the lighting is to provide adequate lighting when the Ports installed lighting is not sufficient. Lights may be positioned on the pier or onboard the ship.

12.10.2. The floodlights shall be portable with their own generator power source. Each floodlight shall contain a minimum of 1,500 Watts of lighting.

12.11. Security Guards on Picket Boat (CLIN XX12AS)

12.11.1. The Contractor shall provide security guards to patrol in picket boats. The Contractor shall comply with Attachment 5 for security guard operations.

12.12. Security Guards Pierside (CLIN XX12AT AND CLIN XX12AU)

12.12.1 The Contractor shall provide security guards Pierside to ensure only authorized personnel, vehicles, and material are allowed into restricted areas.

12.12.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.13. Two Way Radios (CLIN XX12AV) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

12.14. Handheld Explosive Detectors (CLIN XX12AW AND CLIN XX12AX) The Contractor shall provide handheld explosive explosive detectors capable of detecting explosives.

12.15. Handheld Wand Metal Detectors, High Sensitivity Type (CLINXX 12AY AND CLIN XX12AZ) The Contractor shall provide handheld metal detectors capable of detecting metal.

12.16. X-ray machines with high resolution color (CLIN XX12BA) The Contractor shall provide X-ray machines that are capable of X-raying hand carried luggage and bags to determine its contents.

12.17. Walk thru Metal Detectors with high sensitivity four zones (CLIN XX12BB) The Contractor shall provide walk thru metal detectors capable of detecting metal.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 7 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. LINESBOATS (CLIN XX16) The Contractor shall provide Linesboats to assist in docking line handling operations.

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED (MANLIFT) - (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. If an operator is not provided, the Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19) LIGHTERAGE (CLIN XX19AL, XX19AM & XX19AN)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.1.1. The Contractor shall use counter-to-counter delivery and charge by each Bill of Lading.

19.1.2. All material shipped shall be labeled "SHIP'S SPARE IN TRANSIT"

19.1.3. Material shipped shall be arranged so as to have the material arrive at least 2 working days prior to ship'sarrival.

19.1.4. Shipping documents shall be labeled 'SHIP'S SPARE(S) IN TRANSIT' and addressed to the ship's Commanding Officer of the Unit, care of The Contractor.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall provide Lighterage (water transportation) services for material handling items to include required barges and personnel.

19.4. The Contractor shall use forklifts and cranes from The Schedule.

19.5. The Contractor shall receive the package from the carrier and clear it through customs when the ship has arrived and berthed or anchored in the respective port. Any damages must be noted prior to acceptance.

19.6. The Contractor shall deliver the packge to the ship after arrival in port or the following morning.

19.7. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

19.8. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

19.9. The Contractor shall store the package so that it will not be damaged and forward to the next port of call or otherwise directed by the ship.

20. RESERVED (MISCELLANEOUS) - (CLIN XX20)

21. RESERVED (OIL BOOMS) - (CLIN XX21)

21.1. Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. RESERVED (OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL) - (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste Barges / Trucks when necessary, in accordance with Force protection or other requirements.

23. RESERVED (PAINT FLOAT) - (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED (PRATIQUE) - (CLIN XX26) The Contractor shall provide for quarantine services to include equipment and personnel inspections as required by local authorities.

27. RESERVED (REEFER CONTAINER) - (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. RESERVED (SHORE POWER) - (CLIN XX28)

28.1. The Contractor shall provide diesel generators with fuel along side the ship to supply shore power to the vessel. Generators shall emit sound levels of less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. RESERVED (SHORE STEAM) - (CLIN XX29) - The Contractor shall provide Shore Steam to the ship.

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

35. CRAFT REPORT (CLIN XX 35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the FISC Det Contracting Officer or designated representative within five working days of each ship's departure.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

☐ A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

☐ B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).

X C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
OPTION TO EXTEND SERVICES (FAR 52.217-8) (NOV 1999) (MODIFIED)

☐ D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzsnk02075171

1. The purpose of the modification is to extend the performance of services for the above numbered contract through six months. The expiration date of the contract is changed from 1 Jan 2007 through 30 Jun 2007.

2. There is no increased in the estimated total amount of the contract as a result of this extension.

3. All Other Terms and Conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) - ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(c) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(d) Cancellation Of Orders

(1) Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled “Termination for the Government’s Convenience”, as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

(2) In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government’s Convenience clause as stated above.

(3) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(e) Invoices And Payments

(1) Payment will be made by the ship prior to departure from the port.

(2) If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Office, U.S. Naval Regional Contracting Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury Check.

(3) It is the Contractor’s responsibility to provide documents with all required information. Payment will only be made after delivery and acceptance of services.

(f) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(g) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(h) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(i) Contract Type. The resulting contract will be a Fixed Price Requirements contract.

(j) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the

Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(k) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(l) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(m) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(n) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(o) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(p) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address:	U.S. Fleet & Industrial Supply Center Detachment Singapore PSA Sembawang Terminal Deptford Road, Building 7-4, Unit 2-9 Singapore 759657
Military Address:	PSC 470, Box 2150 FPO AP 96534-2150
FAX Numbers:	(65)-6-750-2639

(q) Provision for Wood Products (NRCC SINGAPORE) (MAR 2003) - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material

(1) Definition. ‘Pinewood nematode’ as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(r) Freedom of Information Act (FOIA) (U.S. CODE/552) – Contract prices may be released under a FOIA request.

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (FEB 2006) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (FEB 2006) (46 U.S.C. Appx 1241(b) and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

252.212-7001 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS APPLICABLE TO DEFENSE ACQUISITIONS OF COMMERCIAL ITEMS (MAR 2006) (DEVIATION)

(a) In addition to the clauses listed in paragraph (b) of the Contract Terms and Conditions Required to Implement Statutes or Executive Orders--Commercial Items clause of this contract (FAR 52.212-5 (JUL 2005) (DEVIATION), the Contractor shall include the terms of the following clause, if applicable, in subcontracts for commercial items or commercial components, awarded at any tier under this contract:

252.225-7014	Preference for Domestic Specialty Metals, Alternate I (APR 2003) (10 U.S.C. 2533a).
252.232-7019	Training for Contractor Personnel Interacting with Detainees (SEP 2005) (Section 1092 of Pub. L. 108-375).
252.247-7023	Transportation of Supplies by Sea (MAY 2002) (10 U.S.C. 2631)
252.247-7024	Notification of Transportation of Supplies by Sea (MAR 2000) (10 U.S.C. 2631)

(End of clause)

Section Descriptions and Specification

OVERVIEW SECTION III
OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services U.S. Navy ships visiting the port of Chennai, India.

2. SCOPE

2.1. This contract is for Husbanding Services (HS). It is to provide services and supplies requested by the ships while in port.

2.2. The contract may be subdivided into Lots. Lots may be for individual Ports or they may include several Ports under one Lot. For this contract, there are no Lots.

2.3. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.4. There is also a requirement to assist the ship in obtaining unforeseen additional items relating to husbanding of the ship in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for three months and will commence 26 Jun 2006 through 25 Sep 2006. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is twelve (12) months if the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting locations covered under this contract are required to use this contract if HSs are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.
- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. RESERVED - MULTIPLE SHIP VISITS

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. RESERVED

10. RESERVED

11. RESERVED - SHIPYARDS

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. COOPERATION - The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. CONTRACTOR PROVIDED EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. All local Government taxes are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices - (See Exhibit B - Port Tariffs) Items listed as PT where a port or local government type organization controls the price will be paid at the current published rates. For example, if a port provides the Tug boat then the Contractor can only charge the U.S. Government what was charged for the Tug by the port.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

DY Day
EA Each
GL Gallon (3.785 Liters)

HR Hour
JB Job
LO Lot
NSP Not Separately Priced
PT Port Tariff
TP Trip
PK Package
LT Litres

21. ORDERING ITEMS ON CONTRACT

21.1. Authorized Ordering. Only Authorized Government Representatives (AGRs) can placed orders against this contract. AGRs for this contract are;

Warranted Ship Supply Officers (SUPPOs) of the ship visiting the port.
FISC Detachment Singapore Logistics Support Center (LSC) personnel authorized to issue Logistics Requirements (LOGREQs)
Any FISC Detachment Singapore warranted Contracting Officer.

21.2. Written Orders. All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155. Orders should be given as soon as possible but no later than 48 hours prior to ship arrival.

21.3. Oral Orders. AGR oral orders are authorized for less than $100,000.00 Written confirmation of the oral order must be provided to the Contractor within ten (10) working days.

21.4. LOGREQ Orders. Issuance of a LOGREQ shall constitute placement of an order. The AGR will need to confirm the LOGREQ order with a Task or Delivery Order prior to invoicing.

21.5. Short Notice Orders. Occasionally, there may be short notice orders of less than 24 hours which the Contractor should support if possible. If the Contractor cannot support these requirements then AGR may solicit other companies to perform the work.

21.6. Method of Ordering. Orders may be issued by phone, facsimile or by E-mail.

22. ORDERING NON-CONTRACTS ITEMS

22.1. Non-Contract items may be requested using standard procurement procedures. Once requested, the contractor will assist in obtaining the item.

22.2. The contractor will provide a separate invoice for all Non-Contract Items with supporting documentation to the ship SUPPO for payment.

23. CANCELLATIONS

23.1. Orders may be cancelled orally or in writing. Oral cancellations will be followed-up with a written confirmation to the Contractor within ten (10) working days.

23.2. An order may be cancelled 24 hours before the start of the service or delivery of the supply item and the government will not be liable for any charges. For an order not cancelled at least twenty-four (24) hours in advance, the AGR is responsible for cancellations costs to be negotiated under the “Termination for the

Government's Convenience" (FAR 52.212-4(1)) section included in this contract. In all cases, the HS contractor is responsible for mitigating any damage or termination costs incurred because of the cancellation.

23.3. In extreme cases where an order was cancelled 24 hours in advance but the contractor incurred costs because the item had to be ordered early due to a long lead time, then the Contractor may request reimbursement of those costs. This will also be negotiated under the FAR 52.212-4 (1) clause.

24. PAYMENTS

24.1. The ship SUPPO or Disbursing Officer will pay all bills prior to ship departure with the exceptions listed below.

24.2. The Contractor shall prepare the invoice with supporting documentation for contract items and present it to the ship SUPPO with sufficient time prior to departure to allow payment. The Contractor will estimate usage for PT or To Be Determined (TBD) items if not known. The ship will pay the invoice using a U.S. Treasury check, cash, or credit card.

24.3. Credit Cards - The Contractor must accept the U.S. Government Commercial Purchase Card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPR is MasterCard.

24.4. In some cases, such as where the ship had to depart early or bills came in after the ship departed, NRCC Singapore will pay unpaid invoices (for U.S. Navy ships only). However, it is the Contractor's responsibility to ensure that the proper information is on the invoice and supporting documentation is provided. The Contractor must contact the ship to get missing information.

25. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform vessel/s of this fact so that additional yokohama type pnematic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOVERNMENT TAX: Government tax is a levy on goods and services made in the local country. The tax rate will vary from with the location. U.S. Navy is usually exempt from Government Taxes.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not seperately priced. Cost of the item should be factored into the Mangement Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS
Title of Individual:	MANAGING DIRECTOR
Mailing Address:	GLENN BLDG, NO. 404 TELOK BLANGAH ROAD 098840 SINGAPORE
Tel No. (Work)	+65-62727937
Fax No. (Work)	+65-62729481
Mobile:	+65 97983155 / 97983163
E-mail address:	leonard@glennmarinegroup.com glenncom@glennmarinegroup.com

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship's arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated "additional" costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché' at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship's arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. Laundry Services:

1.2.7.1 The Contractor shall arrange for laundry and dry cleaning services for the ship. Service will be available for
the ship's laundry and for individual crewmember usage. Crewmembers will settle their own bills. Vendors will be required to start service the first day of the ship arrival and ensure all items are returned to the ship prior to ship departure.

1.2.7.2 The Contractor shall assist in resolving vendor billing discrepancies.

1.2.8. RESERVED – (Interpreter Services)

1.2.9. Mail Delivery Service: The Contractor shall provide mail pick-up and delivery service for the ship. The ship must provide military members to escort the mail.

1.2.10. Moral Welfare and Recreation (MWR) Services: The Contractor shall assist ship personnel in booking MWR trips, tours, hotel accommodations, or other MWR type items if there is no other U.S. Navy authorized Information, Ticket and Tours (ITT) contractor servicing the ship.

1.2.10.1 If an ITT contract has been awarded which covers this Port location then the HS Contractor must refer all MWR requests to the authorized ITT contractor. If awarded, the ITT contractor is the U.S. Navy's sole representative for this service. Under no circumstances will the Contractor assist crew personnel in booking these services if an ITT representative is servicing the ship.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services after ships arrival. This includes passing orders and coordinating delivery requirements. Any disputes or discrepancies arising from the order will be resolved directly between the ship and the other contractor(s) with assistance from the HS Contractor.

1.2.12. The Contractor shall facilitate the ship's timely departure.

1.2.12.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.12.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.12.3. The Contractor shall remove all provided equipment.

1.2.13. The Contractor shall assist ship personnel with immigration and customs requirements into their country. This includes providing Visa and Customs application forms. The Contractor shall contact the ship prior to arrival to ascertain how many personnel will require assistance.

1.2.14. Invoicing. The Contractor shall meet the following invoicing objectives:

1.2.14.1 Provide accurate invoices of delivered supplies and services rendered to the ship. Invoices shall be submitted to the ship's SUPPO no later than 24 hours prior to the ship's departure.

2. RESERVED - Not to be used.

3. RESERVED (BREASTING AND FENDERING BARGE) - (CLIN XX03)

4. BROW (CLIN XX04) - The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not damage the surface of the pier.

4.1. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. RESERVED (CAMELS) - (CLIN XX05)

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

7.4. The Contractor shall provide Prepaid International Calling Cards.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate

with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. DOCKAGE AND WHARFAGE FEE (CLIN XX09) - The Contractor shall provide pier and wharf usage.

10. RESERVED (FENDERS) - (CLIN XX10)

11. RESERVED (FLEET LANDING) - (CLIN XX11)

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 Warning Signs: The Contractor shall procure FP Warning Signs and post them in conspicuous places around the perimeter of the ship so they can easily be seen.

12.1.7.1. Purpose: The purpose of the warning signs is to delineate the secure area around ships and to warn unauthorized personnel not to enter. A clear warning must be given that the use of deadly force may be authorized by the local security guards or police force.

12.1.7.2. Sign Specifications:

- Language: Must be in the local language(s) as well as English.
- Wording: Must state “Restricted Area & Do Not Enter”
- Picture: Must depict the image of a person with a gun if weapons are allowed to be carried.
- Color: Yellow or white with black lettering
- Visibility: Must be highly visible from a distance of 400 feet (125 meters)
- Durability: Must withstand inclement weather for extended periods (minimum six continuous days)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the FISC DET SINGAPORE KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at FISC DET SINGAPORE and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. Beach Guard Office or Tent (CLIN XX12AA)

12.3.1. The Contractor shall provide an office area or a tent for a Beach Guard Office at the pier for docked ships and at the Fleet Landing area for anchored ships. The purpose of the tent is to provide a shelter for contracted security guards, local police, and ships personnel while performing security checks on personnel, baggage, and vehicles.

12.3.2. The office or tent will be large enough to accommodate a minimum of 5 people. Tents will have at least three roll down sides to protect people from the elements. The office or tent will be equipped with a table, two to four chairs as required, and a fan or heater depending on the weather conditions. The office or tent shall be well lighted and identified for its intended use. The contractor will ensure that there is a communication system with the ship such as a landline, two way radio, or cell phone in the office or tent. A fully charged, 20 lb, CO2 fire extinguisher will be provided and kept fully charged.

12.3.3. Warning signs will be posted in the immediate area of the office or tent in English and HN language warning personnel of security measures.

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. RESERVED (FLOATING PERIMETER) - (CLIN XX12AC AND XX12AD)

12.6. RESERVED (PERIMETER FENCING) - (CLIN XX12AE)

12.7. Physical Security Barriers – (CLIN XX12AF AND XX12AG)

12.7.1. The Contractor shall provide physical security barriers to completely close off the pier area around the ship.
There will be one vehicle and one personnel entry point. The purpose of the physical barriers is to keep unauthorized vehicles from easily gaining access to the Pier. It is designed to provide a safety barrier or standoff distance from the docked ship and to keep unauthorized vehicles from gaining access to the ship.

12.7.2. The barriers may be of different design and material as long as they are approved by the FP personnel. The
most common form is the Water Filler Barrier (WFB) such as is used in road construction. Empty 20 ft or 40 ft shipping containers may also be used. As well as concrete block barriers. Availability will determined the requested type of barrier. A combination of barriers may also be used.

12.7.3. A vehicle entry point must be established through the barriers for vehicles servicing the ship. The entry point should be a series of zig zag patterns to control the speed of access.

12.7.4. A personnel entry point must be established through the barriers.

12.7.5. Barriers may also be used to seal off secondary Port gates.

12.7.6. All barriers must be placed prior to a ships arrival. The ship's FP Officer will have final approval of positioning of the barriers and of the entry points.

12.8. Picket Boats with Driver (CLIN XX12AK)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 3 for picket boat operations.

12.9. RESERVED (Portable Latrine) - (CLIN XX12AL)

12.10. RESERVED (Portable Lighting) - (CLIN XX12AM)

12.11. Armed and Unarmed Security Guard Services (CLIN XX12AN AND XX12AP)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pier side to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 4 for security guard operations.

12.12. Two Way Radios (CLIN XX12AQ) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. Normally, fuel is provided by the HN or by other U.S. Government bunkering contracts. However, if those sources are not available then the HS contractor may be required assist in obtaining the fuel. In that case, the Husbanding Contractor must comply with this paragraph and must ensure the attached specifications are met by the fuel provider.

14.2. If a ship requires the Husbanding Contractor to provide fuel, the Husbanding Contractor shall contact the bunkering contractor or HN source. If the HN or bunkering contractor can provide the fuel within the time needed, the Husbanding Agent shall so inform the ship. However, if the HN or US Government bunkering contractor cannot deliver the fuel when required by the ship, the Contractor shall so inform the SUPPO or NRCC and request approval to proceed. Only after this is done may the Contractor arrange for fuel delivery.

14.3. The Contractor shall only charge fuel at the daily commercial fuel rate established by the port or local authorities. The Contractor shall provide documentation of the daily rate to the SUPPO. The fuel price charged shall be free on board the ship whether at pier side or at anchor. Compensation for all husbanding efforts or costs associated with assisting in the acquisition and delivery of fuel (for instance, dealing with customs authorities) are included in, and otherwise covered by, the daily fixed husbanding services rates set out in the Schedule of Supplies/Services of this contract.

14.4. The Contractor shall provide documentation to the ship fuel officer that the fuel meets the specifications in Attachment 5 – Fuel Specifications.

14.5. The Contractor shall provide a fuel barge or truck to transport fuel to the ship.

14.6. The Contractor shall inspect the barge or truck prior to each use with an independent, certified, and licensed surveyor. The barge or truck will be clean and certified before loading the fuel. The inspection shall be in the presence of the barge or truck operator and the fuel supplier.

14.7. The Contractor shall load the ordered fuel and transport to the ship. The Contractor shall transfer the fuel from the fuel barge or truck to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.8. The Contractor shall ensure the fuel provider uses oil spill booms and other environmental safety equipment required by local laws. Fuel caught in oil booms will be properly disposed.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED (LINESBOATS) - (CLIN XX16)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. RESERVED (MANLIFT) - (CLIN XX18)

19. MATERIAL HANDLING (CLIN XX19)

19.1. The Contractor shall provide material handling services for the ship. They will receive material shipped to them to include clearing customs, store the items, report the status of the items, deliver to the ship, and forward the items if unable to deliver.

19.2. The Contractor shall provide Drayage (land transportation) services for material handling items to include required trucks and personnel.

19.3. The Contractor shall use forklifts and cranes from The Schedule.

19.4. Material Handling

19.4.1. Packages under 150 lbs (68.18 kl) will normally be priority airmailed via a government contract called WWX utilizing FEDEX, UPS, or DHL companies. The WWX contractor will bring the package into the country, clear customs, and deliver to the HS Contractor. The package might also be sent by regular airmail or by ship whereby the Contractor will have to clear the package through customs.

19.4.2. Packages over 150 lbs (68.18 kl) up to 20 tons will be sent via any commercial means but not by WWX. The Contractor will have to clear the package through customs.

19.4.3. The Contractor shall receive the package from the carrier and clear it through customs if other than WWX. Any damages must be noted prior to acceptance.

19.4.4. The Contractor shall store the package so that it will not be damaged.

19.4.5. The Contractor shall send status reports after receipt, after deliver, and if unable to deliver to a designated government representative.

19.4.6. The Contractor shall deliver the package to the ship after arrival in port.

19.4.7. The Contractor shall forward the package to a designated location if for any reason it cannot be delivered to the ship.

20. RESERVED (MISCELLANEOUS) - (CLIN XX20)

21. RESERVED (OIL BOOMS) - (CLIN XX21)

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

22.7. The Contractor shall pre-position Oily Waste Barges / Trucks when necessary, in accordance with Force protection or other requirements.

23. RESERVED (PAINT FLOAT) - (CLIN XX23)

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 6.

26. RESERVED (PRATIQUE) - (CLIN XX26)

27. RESERVED (REEFER CONTAINER) - (CLIN XX27)

28. RESERVED (SHORE POWER) - (CLIN XX28)

29. RESERVED (SHORE STEAM) - (CLIN XX29)

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to FISC Det Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. RESERVED (WATER TAXIS) - (CLIN XX34)

35. CRAFT REPORT (CLIN XX 35): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the FISC Det Singapore Contracting Officer or designated representative within five working days of each ship's departure.

CLAUSES INCORPORATED BY REFERENCE

52.212-4 Contract Terms and Conditions--Commercial Items SEP 2005

CLAUSES INCORPORATED BY FULL TEXT

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) - ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(c) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(d) Cancellation Of Orders (NRCC SINGAPORE) (MAR 2003)

(1) Unless otherwise provided herein, in the event an order is canceled at least 24 hours prior to the required delivery, the U.S. Government will not be liable for any charges. For any order not canceled at least 24 hours prior to the required delivery time, the Ordering activity shall be responsible for termination costs in accordance with the contract clause titled "Termination for the Government's Convenience", as negotiated. Any disagreements shall be subject to the Disputes clause in the contract.

(2) In rare cases where long lead items were ordered, the Government may negotiate cost reimbursement under the Termination for the Government's Convenience clause as stated above.

(3) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(e) Invoices And Payments (NRCC SINGAPORE) (MAR 2003)

(1) Payment will be made by the ship prior to departure from the port.

(2) If payment was unable to be made by the ship due to extenuating circumstances, the payment will be made by the Disbursing Office, U.S. Naval Regional Contracting Center, Singapore, PSA Sembawang Terminal, Deptford Road, Building 7-4, Singapore 759657. Payment will be in U.S. dollars through electronic funds transfer or U.S. Treasury Check.

(3) It is the Contractor's responsibility to provide documents with all required information. Payment will only be made after delivery and acceptance of services.

(f) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(g) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(h) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) *Minimum ordering amount.* When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) *Maximum ordering amount*. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;

(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or

(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(i) Contract Type (NRCC SINGAPORE) (MAR 2003). The resulting contract will be a Fixed Price Requirements contract.

(j) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(k) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(l) Option To Extend The Term Of The Contract (FAR 52.217-9) (MAR 2000)

(1) The Government may extend the term of this contract by written notice to the Contractor within 15 days prior to the expiration of the current performance period of the contract; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least sixty (60) days before the contract expires. The preliminary notice does not commit the Government to an extension.

(2) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(3) The total duration of this contract, including the exercise of any options under this clause, shall not exceed sixty-six (66) months.

(m) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(n) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(o) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(p) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(q) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address: U.S. Naval Regional Contracting Center
PSA Sembawang Terminal
Deptford Road, Building 7-4, Unit 2-9
Singapore 759657

Military Address: PSC 470, Box 2100
FPO AP 96534-2100

FAX Numbers: (65)-6-750-2639 or 2382

(r) Provision for Wood Products (NRCC SINGAPORE) (MAR 2003) - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material

(1) Definition. ‘Pinewood nematode’ as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood

shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(s) Freedom of Information Act (FOIA) (U.S. CODE/552) (NRCC SINGAPORE) (MAR 2003) – Contract prices may be released under a FOIA request.

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL ITEMS (SEP 2005) (DEVIATION)

(a) Comptroller General Examination of Record. The Contractor agrees to comply with the provisions of this paragraph (a) if the contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, and does not contain the clause at 52.215-2, Audit and Records-Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to the right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(b) Notwithstanding the requirements of any other clause in this contract, the Contractor is not required to flow down any FAR clause, other than those in paragraphs (i) through (vii) of this paragraph in a subcontract for commercial items. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause--

(i) 52.219-8, Utilization of Small Business Concerns (MAY 2004) (15 U.S.C. 637(d)(2) and (3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceeds $500,000 ($1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.222-39, Notification of Employee Rights Concerning Payment of Union Dues or Fees (DEC 2004) (E.O. 13201)

(vi) 52.222-41, Service Contract Act of 1965, as Amended (JUL 2005), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vii) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Apr 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(c) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

9A Exhibit B - Port Tariff Type Costs

Exhibit B – Port Tariff Type Costs

ATTACHMENT 1

REFUSE SERVICE DEFINITIONS

The following are Refuse Definitions used for this contract:

(A) **"Refuse"** includes all garbage, ashes, debris, rubbish and other similar waste material, and anything else delivered to the ship, but not taken onboard due to spoilage, etc., even though such refuse was not aboard the vessel when it arrived in port. Not included are explosives and incendiary waste and contaminated waste from medical and radiological processes.

(B) **"Garbage"** means animal and vegetable waste (and containers thereof) resulting from the handling, preparation, cooking, and consumption of foods. Edible, or hog food, garbage is the portion of waste food, which has been segregated for salvage.

(C) **"Ashes"** means the residue from burned wood, coal, coke, and other combustible material.

(D) "**Debris**" means grass cuttings, tree trimmings, stumps, street sweepings, rooting and construction wastes, and similar waste material.

(E) "**Rubbish**" means a variety of unsalvageable waste material such as metal, glass, crockery, floor sweepings, paper, wrappings, containers, cartons, and similar articles not used in preparing or dispensing food. Rubbish is further subdivided into:

(F) "**Combustible Rubbish**" which can be burned readily in an incinerator or burning pit.

(G) "**Noncombustible Rubbish**" which cannot be burned at ordinary incinerator temperatures (800 to 1,800 degrees F.)

(H) "**Receptacles**" or "**Containers**" means cans, drums, bins, or similar receptacles, which can be handled easily, and multiple containers, which are handled by mechanical truck-mounted hoists. A **"bin"** is defined as a standard garbage bin used for this service which can vary in size. Size will be identified in The Schedule Sub-CLINs.

1. The draft, length and beam of all ships are expressed in terms of feet and parenthetically in terms of meters. In converting from feet to meters, all figures are rounded to the nearest meter.

2. Displacement is expressed in tons and represents fully loaded displacement.

3. The "Maximum Crew" column represents the total number of accommodations on board. The actual number of personnel on the ship may be expected to be 10% to 20% less than this figure. For amphibious ships (those with ship type abbreviations beginning with "L"), the manning figure includes troop berthing.

4. There may be certain variances between the data in this appendix and the actual configuration of ships deployed as part of the U.S. Seventh Fleet. However, such variances will be relatively minor.

ATTACHMENT 3

PICKET BOAT OPERATIONS & SPECIFICATIONS

The following are the Picket Boat operating instructions and specifications used for this contract:

5. The contractor shall provide a Picket Boat with a driver to continuously patrol 24 hours a day around ships at pierside or at anchorage. The purpose of the picket boat is to keep unauthorized watercraft from approaching US ships. The picket boat shall establish a waterborne exclusion zone and keep all unauthorized watercraft from entering this zone.

6. The Contractor will arrange and manage picket boat services. At no time will coverage be allowed to lapse. If a Picket Boat has to refuel or come back for any reason then the contractor will ensure a replacement boat is provided for relief. The Picket Boats will not be allowed to leave the patrol area until their relief is on site.

7. Ships at anchorage will normally require two Picket Boats.

8. The Picket Boat will meet the minimum standards as set forth below. Services shall include a driver and any helpers or crew-members as required, insurance required by local law, maintenance, fuel, and any other operating items. All equipment used in the boat shall be in safe and mechanically sound condition and meet all standards as required by local laws and regulations. Two armed or unarmed security Guards will be provided to ride in the Picket Boat under a separate CLIN in the contract.

9. The Picket Boat will patrol outside of a final demarcation line or floating perimeter (usually about 100 meters from ship). The patrol zones will be coordinated and approved by the ship's Captain or Force Protection (FP) officer.

10. The Picket Boat shall intercept any unauthorized vessels attempting to approach the ship and the security guard will warn them away with a loudhailer. If the unauthorized vessel continues towards the ship, the security guard will warn the ship via two-way radio. The Picket Boat will circle the unauthorized vessel or

attempt to block its approach. The Picket Boat will not ram the unauthorized vessel. If the unauthorized watercraft still continues toward the ship, the Picket Boat will stand off and let the ship deal with the threat. If the Picket Boat has Police authority they can use the local law enforcement Rules of Engagement to include armed force. The intent is to prevent unauthorized watercraft from getting close to US ships.

11. The Picket Boat will meet the following requirements:

7.1. Licensed for commercial operations by local country Department of Transportation.

7.2. Meet all safety standards and be seaworthy. All material effectively stowed. Free of potential flying hazards (missile hazards), debris and gear adrift.

7.3. Piloted by a qualified driver with Certifications and licenses required by the local Government for the operation of the type, class or size of boat being operated. The driver will have the requisite experience, skill, knowledge, and familiarity with the water area in which the boats are to be operated to ensure the boats are operated in a safe and seaworthy manner. Driver must speak and understand English fluently.

7.4. If a deckhand crewmember is required, only qualified personnel are used.

7.5. Suitable for all weather operations to include protection from elements for crew and security guards.

7.6. Minimum length of 8 meters and capable of carrying three people.

7.7. Minimum 18 knots speed.

7.8. Capable of operating for 8 hours without refueling.

7.9. Have toilet facilities on board.

7.10. Have minimum one meter high guardrails for security guard use.

7.11. Additional required equipment:

7.11.1. Two-way radio for communication with ship and authorities

7.11.2. Portable loudhailer or megaphone

7.11.3. Portable air horn

7.11.4. Portable Spotlight

ATTACHMENT 4

SECURITY GUARD OPERATIONS

The following are to be used for Security Guard operations for this contract:

1. General

1.1. The Contractor shall provide security guards for pierside or picket patrol boat operations. The purpose of the security guards is to provide a continuous, around-the-clock security presence to control access to the ship and warn the ship of any danger. The guards shall be on duty from the time the ship arrives until the ship departs. The security presence should ensure only authorized personnel, vehicles and vessels have access to the restricted area.

1.2. Security guards may be provided through private security firms or through local police officials.

1.3. There are two types of security guard services. One is for providing guards pierside to control access of personnel, vehicles, and material on or near the ship. The second type is to provide guards for picket or dive boats to control access of unauthorized swimmers or watercraft from approaching the ship.

1.4. The contractor shall coordinate security guard operations with boat operators and port authorities.

1.5. The contractor shall ensure security guards are qualified and have all necessary equipment, including firearms and ammunition if armed, for them to perform their service.

2. Security Guards – At Pierside: (CLIN XX25AC)

2.1. Contractor shall man the pier with armed or unarmed security guards as specified in each LOGREQ and Task Order.

2.2. All pierside guard services will be performed within the parameters of local Laws and Regulations.

2.3. Overview. The purpose of the pierside security guards is to identify and deter any unauthorized personnel from gaining access to US ships or contracted water taxies. The ship will request the number of guards and required locations. The guards will establish patrol zones or an entry point to control access to the ship. They will check identification cards (IDs) and personal bags of all personnel wanting to board the ship or water taxi. They will report all contraband found in bags to the ship. They will stop and direct unauthorized vehicles and personnel away from the ship. They will warn the ship and then detain any individuals who continue towards the ship or water taxi. If armed, as a last resort they should use their armed authority to protect the ship or water taxi. They should not allow unauthorized individuals access to a ship or water taxi.

2.4. Patrol zones or entry points will be at the landward access point to the ship or water taxi. Security Guard locations must be discussed and agreed upon by the ship's Commanding Officer/Master prior to start of service. The ship will give specific instructions to the Security Guard at an Arrival/Boarding Briefing for allowing guests and vendors to board the ship or water taxi. Security Guards must be present at all times during pierside operations.

2.5. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

2.6. The following equipment will be required as a minimum for each guard:

2.6.1. Uniform as provided by contractor or authorities;

2.6.2. If armed, firearm and ammunition (standard authorities issue);

2.6.3. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

2.6.4. Mirror on long handle for checking undersides of vehicles.

2.6.5. Flashlight for nighttime inspections.

2.6.6. Any locally required equipment to perform their job.

2.7. ROEs Pierside

2.7.1. Unauthorized Individuals. When an unauthorized individual is identified the following ROEs are to be followed:

2.7.1.1. Verbally direct the unauthorized individual away from the restricted area.

2.7.1.2. If the warning is ignored, the security guard will immediately notify the ship of the threat via their communication device.

2.7.1.3. If the individual continues towards the ship or water taxi the Guard should position themselves to block access and use other necessary means to divert the person away from the area.

2.7.1.4. If armed, as a last resort, the security guard will use their armed authority to deter the unauthorized individual from gaining access to the ship or water taxi. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local Laws.

2.7.2. Baggage Search. When a suspicious item or contraband is discovered during inspection of individual bags the Security Guard will report the violation to the ship and detain the individual until the ship's Watch Officer or Duty Officer arrives and takes charge. They will also notify local police authorities if appropriate.

2.7.3. Other Incidents. The security guard will report to the ship any incidents where access to the ship was refused or any suspicious incidents occur.

3. Security Guards – In Picket Boats: (CLIN XX25AJ)

3.1. The Contractor will man each Picket Boat or Dive Boat with two (2) armed or unarmed security guards unless specified differently by the ship.

3.2. All waterborne guard services will be performed within the parameters of local Laws and Regulations.

3.3. Overview. The purpose of the security guards on board Picket Boats or Dive Boats is to identify and deter any waterborne threats to US ships. The security guards will patrol in picket boats provided under CLIN XX25AL. The guards will identify any unauthorized watercraft in the vicinity of US ships and verbally direct them away. If the watercraft continues towards the US ship the security guard will immediately notify the ship of the threat, deter the watercraft from proceeding, and as a last resort, if armed, use their armed authority to protect the ship from the danger. They should not allow unauthorized watercraft to arrive alongside the ship under any circumstances. Security guard must be present at all times on board the boats while in operation.

3.4. Patrol zones will vary depending on vessel size and location. Picket Boat locations or patrol zones must be discussed and agreed upon by the ship's Commanding Officer or Master prior to start of service.

3.5. Picket boat Security Guards must report their status verbally to the ship every half hour via a communication device.

3.6. The Security Guard must be proficient in the English language and communicate well when conversing with ship personnel.

3.7. The following equipment will be required as a minimum for each guard:

3.7.1. If armed, firearm with ammunition (standard authorities issue);

3.7.2. Uniform as provided by contractor or authorities.

3.7.3. Foul weather clothing such as rubber boots or rain gear.

3.7.4. Means of communication to the ship and to local law enforcement personnel (such as cell phone, two way radios, or VHF radio).

3.7.5. Shipboard equipment including a Megaphone (loud hailer), search light, and binoculars.

3.7.6. Any other locally required equipment to perform their job.

3.8. ROEs for Boat Operations

3.8.1. Unauthorized Swimmer or Watercraft. When an unauthorized swimmer or watercraft is identified the following Rules of Engagement (ROEs) are to be followed:

3.8.1.1 Verbally direct the unauthorized swimmer or watercraft away from the US ship using the mega phone.

3.8.1.2 If the first warning is ignored, the security guard will immediately notify the ship of the threat.

3.8.1.3 The boat will circle around the unauthorized swimmer or watercraft and use any necessary means to divert them away from the ship.

3.8.1.4 As a last resort if armed, the security guard will use their armed authority to deter the unauthorized swimmer or watercraft from arriving alongside the ship. Firing of a weapon is an individual security guard responsibility and determination. Discharge of weapons shall be in accordance with existing local country laws.

3.8.2. Suspicious Watercraft. If a watercraft is spotted taking pictures or acting suspiciously, the security guard will contact the pertinent Maritime authorities such as Harbor Police or Coast Guard to request the craft be boarded and inspected. The security guard will not under any circumstance board suspicious watercraft.

FUEL SPECIFICATIONS

The following are the Fuel Specifications for this contract:

SAMPLE OF MIL-F16884J

TABLE I. Physical and Chemical Requirements

Physical Requirements		
Characteristics	**Requirement**	**Text Method**
Appearance, @ 25ºC or ambient temperature whichever is higher	Clear, bright and free of visible particulates	D 4176 1/
Demulsification, @ 25ºC, minutes (max)	10	D 1401 2/
Density, @ 15ºC, kg/m^3 (max)	876	D 1298 (R), D 4052, D 287
Distillation, 10 % point, ºC 50% point, ºC 90% point, ºC, (max) end point, ºC, (max) Residue º Loss, % vol., (max)	 Record Record 357ºC 385ºC 3.0	D 86 3/
Cloud Point, ºC, (max)	-1ºC	D 2500
Color, (max)	3	D1500
Flash Point, ºC, (min)	60ºC	D 93 4/
Particulate Contamination, mg/liter, (max)	10	D 5432 5/
Pour Point, ºC, (max)	-6ºC	D 97
Viscosity, @ 40ºCm mm^2/second	- 1.7 - 4.3	D 445
Chemical Requirements		
Accelerated Storage Stability, total insolubles, mg/100ml, (max)	1.5	D5304 (R), D 2274 6/
Acid Number, mg KOH/100 ml, (max)	0.30	D 974 (R), D 664
Aniline Point, ºC, (min)	60ºC	D 611
Ash, % wt., (max)	0.005	D 482
Carbon Residue, on 10% bottoms, % wt., (max)	0.20	D 524 (R), D4530, D 189 7/
Corrosion, @ 100ºC, (max)	No. 1 ASTM	D 130
Hydrogen Content, % wt., (min)	12.5	D 4808
Ignition Quality, Cetane Number, (min) Cetane Index, (min)	42	D 613 (R), D 976 8/
Sulfur Content, % wt. (max)	1.0	D 4294 (R), D 129, D 1552, D 2622
Trace Metals, ppm, (max) Calcium Lead Sodium plus Potassium Vanadium	 1.0 0.5 1.0 0.5	D 3605 9/
Additive Names and Dosages	Record	

1. If the sample fails ASTM D 4176 because a slight haze was observed, the product must meet the requirement of ASTM D 2709, 0.05 percent volume maximum. A slight haze is acceptable if the water and sediment (ASTM D 2709) does not exceed 0.05 percent volume. If the sample fails, ASTM D 4176 because it contains

visible sediment or particulate matter, but meets the requirement of 10 mg/1 (max) (ASTM D 5452), the fuel is considered acceptable, provided all other requirements are met.

2. The demulsification text shall be conducted in accordance with the following exceptions:

   (a) Synthetic sea water prepared in accordance with ASTM D 1141 shall be used as the emulsifying fluid.

   (b) The test temperature shall be 25ºC.

   (c) The demulsification time shall be that required for separation into two layers with no cuff at the interface. A lacy emulsion which does not form a band or cuff on the wall of the cylinder shall be disregarded. The fuel, water and emulsion layer volumes shall be recorded at one minute intervals and the demulsification time reported shall be to the nearest minute.

3. As the end point of the distillation is approached, if either a thermometer reading of 385ºC or a decomposition point is observed, discontinue the heating and resume the procedure as directed in ASTM D 86.

4. The flash point value is the absolute and no value less than 60ºC is permissible.

5. A one-liter minimum sample shall be used.

6. ASTM D 2274 may be used as an alternate method for testing storage stability provided the test time is extended from 16 hours to 40 hours.

7. When the finished fuel contains a cetane improver, the carbon residue requirement specified in Table I shall apply to the base fuel, without the cetane improver.

8. Either cetane number (ASTM D 613) or cetane index (ASTM D976) shall be reported. The cetane index requirement specified in Table I shall apply to the base fuel without cetane improving additives. Where cetane index is reported, the value shall be reported as the cetane index.

9. Any quantitative spectroscopic method may be employed if correlation to ASTM D 3605 is demonstrated to the satisfaction of the inspection authority.

Minimum Requirements for Purchases of Commercial Distillate Fuels ((Navy) Marine Gas Oil) for Bunkers

The following minimum requirements have been established for use when buying fuel (gas oil - 100% distillate) from commercial sources when F76 is not available. Marine Gas Oil is not acceptable as cargo fuel on Navy Oilers.

TEST	METHOD	REQUIREMENTS
1. Cetane Number	ASTM D 613	45 min
or		
Cetane Index	ASTM D 976	45 min

Note: A cetane index of 41 or above, but less than 45, is acceptable provided the 90% Distillation Point does not exceed a maximum of 338ºC. A cetane number of 40 or above, but less than 45, is acceptable provided the 90%

Distillation Point does not exceed a maximum of 338°C.

2. Appearance @ 21ºC or ambient temperature (whichever higher)	Visual	Clear & Bright
or		
Water and Sediment	ASTM D 2709	0.05% max
3. Distillation. 90% Point	ASTM D 86	375ºC max
4. Flash Point	ASTM D 93	60ºC min
5. Pour Point	ASTM D 97	Report
6. Cloud Point	ASTM D 2500	-1.1ºC (30 °F)
7. Viscosity @ 40ºC	ASTM D 455	1.7 - 4.5 CST
8. Color	ASTM D 1500	3 max
9. Gravity	ASTM D 1298, D 287	Record
10. Carbon Residue	ASTM D 524	0.35% max
11. Ash	ASTM D 482	0.01% max
12. Sulfur	ASTM D 129, D 1552 D2622	1.00% max
13. Copper Corrosion	ASTM D 130	3 max

C16.23-2 COMMERCIAL MARINE GAS OIL MINIMUM SPECIFICATION REQUIREMENTS (DESC JAN 1998)

Offered product shall conform to the following requirements which are suitable for Marine Gas Turbine.

	TEST REQUIREMENTS	METHOD	
1.	Cetane Number	ASTM D 613	42 min
	or		
	Cetane Index	ASTM D 976	43 min

NOTE: A Cetane Number of 40 minimum, or a Cetane Index of 41 minimum, is acceptable provided the 90 Percent Distillation Point does not exceed a maximum of 338^{O}C.

2.	Appearance @ 21^{O}C or ambient temp. (whichever higher)	Visual	Clear & Bright
	or		
	Water & Sediment	ASTM D 2709	0.05 vol % max.
3.	Distillation, 90% point	ASTM D 86	357^{O}C max.

4.	Flash Point	ASTM D 93	60^{O}C min
	NOTE: The flash point value is absolute and no value less than 60^{O}C is permissible.		
5.	Cloud Point	ASTM D 2500	-1.1^{O}C (30^{O}F) max.
	NOTE: Cloud Point results will be evaluated based upon bunkering location.		
6.	Viscosity @ 40^{O}C	ASTM D 445	1.7 - 4.5 cst
7.	Color	ASTM D 1500	3 max.
	NOTE FOR DOMESTIC ITEMS: This Color test requirement is deleted if red dye has been added in compliance with U.S. Environmental Protection Agency or Internal Revenue Service regulations; however, the resulting fuel/dye blend must have a red tint. It shall not be visually brown or darker in appearance.		
8.	Density @ 15^{O}C	ASTM D 1298	876 kg/m^3 max.
9.	Carbon Residue on 10% bottoms	ASTM D 524	0.35 mass % max.
		ASTM D 189	
10.	Ash	ASTM D 482	0.01 mass % max.
11.	Sulfur	ASTM D 4294, ASTM D 1552, or ASTM D 2622	1.0 mass % max.
12.	Corrosion	ASTM D 130	3 max.
13.	Distillate Fuel (fuel shall contain no residual)	None	100%

C36 FUEL OIL, INTERMEDIATE, GRADES RMB-10 (IFO 60)/RME-25 (IFO 180)/RMG-35 (IFO 380) (DESC MAY 1997)

Product shall conform to ISO 8217:1996 or ASTM D 2069-91. Product conforming to ASTM D 2069-91 shall meet the following additional requirements:

REQUIREMENTS	**GRADE RMB-10 (IFO 60)**	**GRADE RME-25 (IFO-180)**	**GRADE RMG-35 (IFO 380)**	**TEST METHOD**
Density @15^{o}C, kg/m^3, max	981.0	991.0	991.0	ISO 3675/12185
Aluminum plus silicon, mg/kg, max	80	80	80	ISO 10478
Total Sediment, potential, %(m/m), max	0.10	0.10	0.10	ISO 10307-2

ATTACHMENT 6

POTABLE WATER SPECIFICATIONS

The following are Potable Water specifications used for this contract.

NATIONAL PRIMARY DRINKING WATER REGULATIONS (NPDWR) BUREAU OF MEDICINE AND SURGERY (BUMED) TREATED WATER QUALITY STANDARDS /ENVIRONMENTAL PROTECTION AGENCY

CONTAMINANT	**MCLG (mg/L)** [1]	**MCL (mg/L)**	**AL (mg/L** [2]**)**

FLUORIDE	4	4	

(1) **Maximum contaminant level goal (MCLG).** The maximum level of a contaminant in drinking water at which no known or anticipated adverse effect on the health of persons would occur, and which allows an adequate margin of safety. MCLGs are no enforceable health goals.

(2) **Action level (AL)**. Concentrations of lead or copper in water that determine, in some cases, whether a water system must install corrosion control treatment, monitor source water, replace lead service lines, and undertake a public education program.

(3) The copper action level is exceeded if the concentration of copper in more than 10 percent of tap water samples properly collected during any monitoring period is greater than 1.3 mg/L (i.e., if the "90th percentile" copper level is greater that 1.3 mg/L).

(4) The lead action level is exceeded if the concentration of lead in more that 10 percent of tap water samples properly collected during any monitoring period is greater that 0.015 mg/L (i.e., if the "90th percentile" lead level is greater than 0.015 mg/L).

Contaminant levels for volatile organic chemicals (VOCs) (effective 01 January 1993)

TOTAL TRIHALOMETHANES (THE SUM OF THE CONCENTRATIONS OF BROMODICHLOROMETHANE, DIBROMOCHLOROMETHANE, TRIBROMOMETHANE (BROMOFORM), AND TRICHLOROMETHANE (CHLOROFORM)		0.10[(1)]

Note:
(1) The MCL for total trihalomethanes applies only to water systems serving 10,000 or more individuals and which add a disinfectant to the water. For systems serving less than 10,000 individuals, individual States or BUMED (in overseas locations) may adopt an effective date for the MCL.

Microorganisms	**MCLG[1] (mg/L)[2]**	**MCL or TT[1] (mg/L)[2]**
Cryptosporidium	as of 01/01/02:0	as of 01/01/02:TT 3
Giardia lamblia	0	TT[3]
Heterotrophic plate count	n/a	TT[3]
Legionella	0	TT[3]
Total Coliforms (including fecal coliform and E. Coli)	zero	5.0%[4]
Turbidity	n/a	TT[3]
Viruses (enteric)	zero	TT[3]

Note:
[1] Definitions:
Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to MCLGs as feasible using the best available treatment technology and taking cost into consideration. MCLs are enforceable standards.
Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety and are non-enforceable public health goals.
Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
Maximum Residual Disinfectant Level Goal (MRDLG) - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
Treatment Technique - A required process intended to reduce the level of a contaminant in drinking water.

[2] Units are in milligrams per liter (mg/L) unless otherwise noted. Milligrams per liter are equivalent to parts per million.

[3] EPA's surface water treatment rules require systems using surface water or ground water under the direct influence of surface water to (1) disinfect their water, and (2) filter their water or meet criteria for avoiding filtration so that the following contaminants are controlled at the following levels:

- Cryptosporidium: (as of January 1, 2002) 99% removal/inactivation
- Giardia lamblia: 99.9% removal/inactivation
- Viruses: 99.99% removal/inactivation
- Legionella: No limit, but EPA believes that if Giardia and viruses are removed/inactivated, Legionella will also be controlled.
- Turbidity: At no time can turbidity (cloudiness of water) go above 5 nephelolometric turbidity units (NTU); systems that filter must ensure that the turbidity go no higher than 1 NTU (0.5 NTU for conventional or direct filtration) in at least 95% of the daily samples in any month. As of January 1, 2002, turbidity may never exceed 1 NTU, and must not exceed 0.3 NTU in 95% of daily samples in any month.
- HPC: No more than 500 bacterial colonies per milliliter.

[4] No more than 5.0% samples total coliform-positive in a month. (For water systems that collect fewer than 40 routine samples per month, no more than one sample can be total coliform-positive). Every sample that has total coliforms must be analyzed for fecal coliforms. There may not be any fecal coliforms or E. coli.

[5] Fecal coliform and E. coli are bacteria whose presence indicates that the water may be contaminated with human or animal wastes. Disease-causing microbes (pathogens) in these wastes can cause diarrhea, cramps, nausea, headaches, or other symptoms. These pathogens may pose a special health risk for infants, young children, and people with severely compromised immune systems.

Coliform Bacteria

a. The MCL for coliform bacteria (also called total coliforms) is based on the presence or absence of total coliforms in a sample rather than on an estimate of coliform density.

b. The MCL for potable water systems analyzing at least 40 samples each month: No more than 5.0 percent of the monthly samples may be total coliform-positive.

c. The MCL for systems analyzing fewer than 40 samples each month: No more than one sample each month may be total coliform-positive.

d. Monitoring and Analytical Requirements

(1) Public water systems must collect total coliform samples at sites which are representative of water through the distribution system. Sampling must be accomplished according to a written sampling plan. The monitoring frequency and number of routine samples required for total coliform monitoring are based on the population served by the system and the type of water source, i.e., groundwater, surface water, etc. Sampling requirements for the Navy public water system apply.

(2) The standard sample volume for microbiological analyses must be 100 milliliters.

(3) Approved methods of microbiological analysis include the Auto analysis Coliert System, also called the Minimum Media ONPG-MUG (MMO-MUG) Test; the Presence-Absence (PA) Coliform Test; the Multiple-Tube Fermentation (MTF) Technique; and the Membrane Filter (MF) Technique. A step-by-step microbiological test procedure for shipboard use applies.

e. Repeat Monitoring

(1) A set of three repeat samples for each total coliform-positive routine sample must be collected. One repeat sample must be collected from the same tap as the original total coliform-positive sample, the other repeat samples must be collected from within five service connections of the original total coliform-positive sample. At least one sample must be upstream and the other downstream. These repeat samples must be collected within 24 hours of being notified of the positive result of the original sample, unless the Contracting Officer on a case-by-case basis waives this requirement.

(2) If a total coliform-positive sample is at the end of the distribution system, or one service connection away from the end of the distribution system, the Contracting Officer may waive the requirement to collect at least one sample upstream or downstream of the original positive sampling site.

(3) If total coliforms are detected in any repeat sample, the system must collect another set of repeat samples, as before.

(4) If any routine or repeat sample is total coliform-positive, it must also be analyzed to determine if fecal coliforms are present, except that the system may test for E. coli in lieu of fecal coliforms, or E. coli testing on total

coliform-positive samples if the system treats every total coliform-positive sample as fecal coliform positive or E. coli positive and complies with all requirements which apply when a sample is fecal coliform-positive.

Turbidity: The MCL for turbidity applies to both community water systems and non community water systems using surface water sources in whole or in part. The MCL for turbidity in drinking water measured at representative entry points to the distribution system is:

a. One turbidity unit for monthly average (5 turbidity units monthly may apply at Contracting Officer option).

b. Five turbidity units (maximum) average for 2 consecutive days.

The MCL for Radiological Contaminants are:
Gross alpha particle activity including radium 226 but excluding
radon and uranium . . . . . 15 pCi/L
Beta particles and photon emitters ……4 millirems / year
Combined radium 226 and radium 228 . . . . . .5 pCi/L
Tritium . . . . . 20,000 pCi/L
Strontium-90. . . . . 8 pCi/L
Uranium …….. 30ug/L

Note: Screening indicators have been established for radiological contaminants. Gross Alpha present at less than or equal to 5 pCi/L, as an indicator, eliminates the need to analyze for radium 226 and 228. Gross beta present at less than or equal to 8 pCi/L, as an indicator, eliminates the need to analyze for tritium and strontium-90.

Sodium and Corrosivity. No MCLs have been published; however, monitoring is required.

National Secondary Drinking Water Regulations (NSDWR) The Secondary Maximum Contaminant Levels (MCLs)

CONTAMINANT	MCL (mg/L)
ALUMINUM	0.05 TO 0.02
CHLORIDE	250
COLOR	15 COLOR UNITS
COPPER	1
CORROSIVITY	NONCORROSIVE
FLUORIDE	2
FOAMING AGENTS	0.5
IRON	0.3
MANGANESE	0.05
ODOR	3 THRESHOLD ODOR NUMBER
PH	6.5 - 8.5
SILVER	0.10
SULFATE	250
TOTAL DISSOLVED SOLIDS (TDS)	500
ZINC	5

Note: The contaminants covered by this regulation are those that may adversely affect the aesthetic quality of the drinking water. These secondary levels represent goals for drinking water quality but are not Federally enforceable.

(3) The reception, handling, storage, and delivery of potable water to ship's water systems shall be carried out under completely sanitary conditions.

(4) For pierside berthing, delivery shall be made by hose from the pier whenever possible. If barge service is deemed necessary, the Contractor shall ascertain from the ship's Supply Officer the exact amount needed prior to making delivery.

(5) The Contractor shall make deliveries during normal working hours, unless otherwise approved by the ship's Supply Officer or his/her authorized representative.

(6) All equipment, trucks and barges used by the Contractor in performance of these services shall be subject to inspection and test by an authorized representative of the U.S. Government as the Contracting Officer may specify. Final inspection/acceptance shall be subject to approval by the ship's Chief Engineer or his/her authorized representative. The U.S. Government inspectors shall be entitled to inspect the equipment, trucks, and barges at all reasonable times, as often as they may deem necessary, and at such reasonable place or places as the U.S. Government may specify.

(7) The Contractor shall, without cost to the U.S. Government, furnish the necessary personnel and facilities to conduct such test and examination of samples of water and barges used hereunder as the Government inspector may designate, to determine the extent or possibility of contamination of such water, equipment, and barges. The Contractor may, at its option and cost, have the tests conducted by a recognized Sanitary Inspector provided that the performance of the tests and examinations by such Sanitary Inspection has been approved in advance and in writing by the U.S. Government Inspector.

(8) All tests and examinations, whether performed by or on behalf of the Contractor, shall be conducted in the presence of the U.S. Government Inspector.

(9) The Contractor agrees to furnish such reports and execute such forms as the U.S. Government may require in connection with services performed under this contract and further agrees that requests for such reports and execution of such forms will be executed promptly.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer ☐ is extended, ☐ is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).
X	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: OPTION TO EXTEND SERVICES (FAR 52.217-8) (NOV 1999) (MODIFIED)
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☒ is not, ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)
Modification Control Number: nzzsnk02075012

1. The purpose of this modification is to extend the performance of services for the above numbered contract through three months. The expiration date of the contract is changed from 26 Dec 2006 through 25 Mar 2007.
2. There is no increased in the estimated total amount of the contract as a result of this extension.
3. All Other Terms and Conditions remain unchanged.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been added by full text:

SECTION C1

OVERVIEW OF CONTRACT

1. OBJECTIVE - The objective of this contract is to obtain husbanding services U.S. Navy ships visiting Singapore.

2. SCOPE

2.1. This contract is for Husbanding Services (HS) at any berthing or anchoring location in Singapore.

2.2. The individual HS items provided under this contract are listed in Section B, Schedule of Supplies and Services (referred to as The Schedule). The items are listed as separate Contract Line Item Numbers (CLINs).

2.3. The Contractor is required, when requested, to assist the ship in obtaining additional items the vessel may require while in port.

2.4. The holder of this contract is a US Navy contractor and not an Agent of the US Navy.

3. TYPE OF CONTRACT - This is a Firm-Fixed-Price Requirements contract. The Contractor agrees to furnish the services or supplies at the fixed price listed in the Schedule of Services.

4. DURATION OF CONTRACT - This contract is for one (1) base year. Also, the contract will have four options available under FAR 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT. Additionally, the contract will include FAR 52.217-8 OPTION TO EXTEND SERVICES clause. The possible contract duration is sixty-six (66) months if all available options are exercised under FAR 52.217-9 for the maximum duration, and the six (6) month extension of services is exercised under FAR 52.217-8.

5. CONTRACT USERS

5.1. Mandatory Users - U.S. Navy ships visiting Singapore are required to use this contract if Husbanding Services are requested (with the exceptions noted below). Ship classifications are listed in Attachment 2.

5.2. Optional Users - The following types of U.S. ships are not required to use this contract but may use it if desired. The Contractor is obligated to provide the service or supply at the same rates listed in The Schedule:

- Military Sealift Command Ships (USNS)
- U.S. Coast Guard (USCG) Ships
- U.S. Army Ships
- DoD Chartered Ships
- U.S. Government personnel conducting business in locations under this contract.

5.3. Exceptions: The Government has the choice to use or not use this contract under the following types of situations:

- During U.S. Military Exercises or Operations.

- When Host Nation provided support is available.
- When U.S. Government owned supplies or services are available.
- When ship repair work is being done in conjunction with the Port Visit.

6. MULTIPLE SHIP VISITS - The contractor is required to be able to simultaneously Husband a maximum of 10 ships at one time.

7. ESTIMATED QUANTITIES - The number of ship visits and required services or supplies are only estimates. There is no guarantee that the government will meet or exceed the estimates. The ship is not obligated to use all items in The Schedule.

8. ORDER OF PRIORITY OF USAGE - The HS Contractor must first use Host Nation (HN) support or U.S. Government owned equipment if available, then local Port Authorities, or finally provide it themselves to include subcontractors. The Schedule lists what items are available through HN and Port Authorities.

9. MARK V (HSIC) SPECIAL OPERATIONS CRAFT - Mark V (HSIC) Special Operations Craft may be in port or in the direct vicinity for up to 90 days conducting operations. The Contractor will normally only board the vessels upon arrival and prior to departure to arrange their required support. Occasionally, they may have to provide follow-up support. Mark V vessels shall be exempt from all Management Fees at Sembawang Port and shall only be charged Class IA Management Fees for First and Subsequent days at Changi Naval Base or other Singapore government controlled locations. Attachment 2 provides details.

10. LONG TERM SHIP VISITS – For any ship which is in port in excess of ten (10) consecutive calendar days, the Subsequent Day Management Fee shall be reduced to 20% per day. An example would be, if a vessel was in port for 15 days and the first day management fee was $300 and the subsequent day fee was $100. The contractor would charge $300 for the first day, $100 for the subequent nine (9) days and $20 per day for the five (5) days in excess of ten (10) days. The total charge for management fees would be ($300+$900+$100) $1,300 for the 15 day port visit. During the period of reduction, the Contractor is relieved of all husbanding requirements specified by the Contracting Officer, Ordering Officer and / or AGR as unnecessary; and shall continue to provide only those services specifically authorized by the Contracting / Ordering Officer via verbal and /or written modification of the delivery order (CHT, trash removal, potable water etc).

11. SHIPYARDS - U.S. Navy Ships in shipyards may order off of this contract without incurring Management Fees.

12. OTHER PERSONNEL – Other U.S. personnel conducting business at locations covered by this contract may order off of the contract without incurring Management Fees. These orders do not involve continuous management of husbanding services and maybe for items such as vehicles, phones or other services.

13. CORRESPONDENCE IN ENGLISH - All correspondence shall be in English.

14. STANDARDS FOR PROFESSIONAL SERVICES

14.1. The quality of all services or supplies provided shall conform to the highest standards in the relevant profession, trade, or field of endeavor. All services shall be performed by individuals fully qualified and licensed in their relevant area.

14.2. The Contractor shall be responsible for obtaining any necessary insurance, licenses and permits, and for complying with any applicable laws, codes, and regulations, in connection with the performance of the work at no additional cost to the Government.

14.3. The Contractor is responsible for ensuring that proper safety and health precautions are taken to protect personnel, the general public, and property of others.

14.4. The Contractor will ensure that subcontractors comply with these requirements.

14.5. The Contractor is reminded that it must comply with all applicable laws and regulations pertaining to Ethics and Standards of Conduct. The Contractor shall refrain from providing gratuities, upgrades, entertainment, food, parties and any other prohibited items.

15. HEIGHTENED VIGILANCE - The contractor has an obligation to be alert at all times in order to contribute to the protection of the ship and its crew. The contractor shall immediately report to the ship's command duty officer, or nearest available Navy official or Host Nation (HN) representative, any signs of suspicious activity in or around the site of performance. Suspicious activities include, but are not limited to, unauthorized personnel or vehicles in the vicinity of the site of performance, unusual equipment or movement of persons or supplies, and any other activity that may be perceived as a threat to United States forces. The contractor also has an obligation to report any such activity perceived outside the site of performance, if such activity could reasonably have an impact on the site of performance or could be perceived as a threat to United States forces.

16. The Contractor will fully partner with U.S. Navy representatives in all matters that could impact the effectiveness of Force Protection services that are provided for or arranged under this contract to protect U.S. Navy Ships, Units and Personnel. Upon request the Contractor will identify to Navy Force Protection Personnel and NCIS representatives the host country Law Enforcement, Military, Security counterparts, or other persons utilized by the Contractor for the purpose of providing Force Protection or other services to U.S. Navy Ships and forces. The Contractor will arrange introductions to these host counterparts if requested and make available for review any agreements pertaining to Force Protection arrangements or other services with the Host counterparts.

17. EQUIPMENT - All vehicles, watercraft, and equipment provided under this contract must be in sound mechanical condition, be in compliance with local laws and specifications under this contract, meet all local safety standards, and have all required current certifications and insurance.

18. RESERVED – (GOVERNMENT PROVIDED EQUIPMENT OR MATERIAL (GFE or GFM))

19. CONTRACT PRICING

19.1. Contract Currency – All contract prices are in U.S. Dollars (US$).

19.2. Fixed Price - Prices are firm-fixed-price per unit and are inclusive of ALL costs.

19.2.1. Each unit price includes all direct and indirect costs unless stated otherwise in the CLIN. Costs included in the unit price are such items as labor, materials, overhead General and Administrative (G&A) expenses, government taxes, and profit.

19.2.2. Mobilization and Demobilization (Mob & Demob). All Mob & Demob costs and time shall be included in the unit price as part of the direct cost unless authorized by a separate CLIN in The Schedule. This includes all associated equipment and labor required to satisfy vessel and port requirements.

19.2.3. Pre-Positioning / Pre-Staging. All Pre-Positioning or Pre-Staging cost and time for the purpose of vetting operations or otherwise shall be included in the unit price as part of the direct cost. This shall include all associated equipment and labor required to satisfy vessel and port requirements. Pre-staging or pre-positioning for vetting operations typically occurs one or two days prior to the arrival of the visiting vessel/s.

19.2.4. Repositioning equipment. All repositioning of equipment when required shall be included in the unit price unless authorized by a separate CLIN in The Schedule.

19.2.5. Singapore Goods and Services Tax (GST) are included in the unit cost.

19.3. Port Tariff (PT) or other controlled prices – (See Exhibit B – Port Tariff Type Costs) Items listed as PT for Port Authority or other government type organizations will be paid at the current published rates. For example, at Sembawang Wharves the Royal Navy Liaison Officer (RNLO) is the relevant authority for the management of some

Sembawang Naval Basin berths. RNLO will provide items such as tugs, line handlers, brows, landline telephones, and cranes. They will be listed as PT in The Schedule. The Contractor can only charge the U.S. Government at what was charged by RNLO.

19.4. Time Calculations. Several services are based on hourly or daily rates. Time will begin being measured once the equipment and /or labor is along side the vessel and capable of operations. Travel time to the location of performance shall not be charged.

19.5. Demurrage. Demurrage charges shall only be charged if the Contractor's equipment / service is unduly delayed due to the fault of the government for more than 1 hour from the requested time of commencement of an operation. Example, if the vessel requested a CHT truck at 1300 hrs, the truck arrives at 1300 hrs to start pumping, but was not attended to until 1500 hrs when pumping begins. The contractor will be able to charge for one hour of demurrage (1400 hrs – 1500 hrs). Demurrage charges will be charged as stated in the schedule of supplies and services. This only applies to CLINS that have demurrage charges as sub-CLINs.

20. ABBREVIATIONS - The abbreviations found within the contract Schedule are listed below:

DY Day
EA Each
GL Gallon (3.785 Liters)
HR Hour
JB Job
LO Lot
NSP Not Separately Priced
PT Port Tariff
TP Trip

21. DEFINITIONS

- AGR: Authorized Government Representative. The AGR may place orders against this contract for any supply or service.

- CAMELS: See Fenders

- CLIN: Contract Line Item Number (CLIN). A separate line item for each service or supply required in the contract.

- CLIN NUMBERING: CLINs consist of four numeric digits and two optional alpha letters. The first numeric digit indicates the year of the contract. The base year is zero (0), the first Option Year is one (1), and the second Option Year is two (2). (For example a base year would be 0XXX, and the first Option Year is 1XXX, and the second Option Year is 2XXX.) The second digit indicates the Lot number. (For example Lot 1 would be X1XX, Lot II would be X2XX) If there are no Lots in the contract then the second digit will be zero. (For example X0XX) The third and fourth digits are the service or supply item number. (For example XX01 is the first item, XX02 is the second item, and so forth.) If a CLIN needs to be subdivided into two or more separate items then two alpha letters will be used for each item starting with AA. (For example CLIN XX12 for Force Protection could be divided into XX12AA for Beach Guard Office and XX12AB Dive and Vetting Operations, and so forth)

- CONTRACTING OFFICER (KO): Government representative that holds a contracting warrant and is authorized to sign a contract or place an order.

- DAY: A calendar day.

- Delivery Order (D.O.): A delivery order is an order for supplies placed against an established contract or with Government sources.

- EXCLUSION ZONE: The restricted area between the ship and the seaward boundary for pier side ships, as determined by the ship's Commanding Officer.

- FENDERS: (Also called Camels) Device used to buffer the ship from the pier or for placing between barges and the ship. Device shall have sufficient cushion so as to keep the ship from impacting the pier or barge. Commercial or commonly used self-fendering devices normally consist of car and/or truck tires. These may not be sufficient for U.S. Navy purposes. The Contractor is to inform visiting vessel/s of this fact so that additional yokohama type pneumatic fenders may be ordered when and if required.

- FORCE PROTECTION (FP). Security measures to protect a ship and their crew from dangerous situations such as terrorist actions. FP includes taking as many steps as possible to deter an attack. The HS contractor is responsible for contract FP items.

- GARBAGE: See Attachment 1 – Refuse Definitions.

- GOVERNMENT FURNISHED EQUIPMENT OR MATERIAL: Items fully transferred to the Contractor's control for use on this contract. The item must be fully accounted for, properly stored, and properly maintained in accordance with Government directives.

- GOODS AND SERVICE TAX (GST): GST is a tax on the supply of goods and services made in Singapore by a taxable person carried in the course of their business and on the importation of goods into Singapore. A taxable person is a person who is required to register or is registered for GST. A taxable person includes an individual, partnership, company, club, association, society, management corporation or non-profitable organization. A person is usually required to register for GST when their annual taxable supplies exceed or is expected to exceed S$1 million. In general, all goods sold or services performed in Singapore are taxable.

- HOST NATION: The country, which is being visited by the U.S. ship.

- HUSBAND: To provide all supplies and services requested by a ship during a port visit. This includes pre-arrival and post-arrival actions. It involves management and coordination of port services, ensuring Force Protection measures are implemented, facilitating other contractors work with the ship, assisting with Non-Contract item requests, and generally taking care of all the needs of the ship and personnel on board. It should utilize commercial shipping practices.

- MOBILIZATION AND DEMOBILIZATION:

§ Mobilization: Moving a piece of equipment from a storage or previous work location to the new required work location.

§ Demobilization: The reverse of Mobilization. Moving a piece of equipment from a current work location back to the storage location.

- NOT SEPERATELY PRICED (NSP): Item that is not seperately priced. Cost of the item should be factored into the Mangement Fee.

- POINT OF CONTACT (POC): A designated individual who is responsible for an item and is a single interface. The individual must be knowledgeable of the item and be able to answer questions and make decisions or obtain a decision when required.

- PORT TARIFF: Services or Supplies that are provided by Port Authorities, HN, military, or other government type organizations where the price is pre-established and controlled. Examples are pilot services, tugs, security guards, and potable water. The Contractor has no control over the price and the ship will pay the prevailing rate at the time of service.

- PROVIDE: To source, order, transport, stage, set up, install, take down, remove, and store, as applicable. It includes everything and everyone necessary to perform the task such as labor, tools, equipment, materials, accessories, cables, and lines.

- REPOSITIONING: Moving a piece of equipment, such as a crane, to another required work location after it has been set up for work. This involves tear down and new set up actions.

- RESERVED: An item not used in this contract.

- RUBBISH: See Attachment 1 – Refuse Definitions.

- SUPPO: A ship's Supply Officer. The SUPPO may hold a limited contracting warrant and is authorized to sign contracts and place orders.

- Task Order (T.O.): A task order is an order for services placed against an established contract or with Government sources.

- TRASH: See Attachment 1 – Refuse Definitions.

22. CONTRACTOR REPRESENTATIVE – The Government shall contact the following Contractor person(s) for prompt contract management:

Name of Individual:	LEONARD G. FRANCIS
Title of Individual:	MANAGING DIRECTOR
Mailing Address:	GLENN DEFENSE MARINE (ASIA) PTE LTD 404 TELOK BLANGAH ROAD, GLENN BLDG. 098840 SINGAPORE
Tel No. (Work):	(65) 6272-9481
Fax No. (Work):	(65) 6272-9481
Mobile:	(65) 979-3155 / (65) 979-3163
E-mail address:	leonard@glennmarinegroup.com

SECTION I - CONTRACT CLAUSES

The following have been modified:

CONTRACT TERMS AND CONDITIONS-COMMERCIAL ITEMS (FAR 52.212-4) (OCT 2003) – ADDENDUM

(a) Paragraph "(c)" of FAR 52-212-4. Does not apply to this solicitation.

(b) ORDERING ITEMS ON CONTRACT- Authorized Ordering. Only Authorized Government Representatives (AGRs) can place orders against this contract. AGRs for this contract are;

- Warranted ship Supply Officers (SUPPOs) and Assistant Supply Officers (ASUPPOs) of the ship visiting the port.
- Any NRCC Singapore warranted KO or their authorized representative.
- U.S. Fleet and Industrial Supply Center (FISC) Detachment (DET) Singapore warranted KO or their authorized representative.
- SUBGROUP SEVEN Authorized Ordering Officers.

(b) Oral Orders (Indefinite Delivery Contracts) (SUP 5252.216-9402) (JAN 1999). Oral orders may be placed, provided the following conditions are complied with:

(1) No oral order will exceed $100,000 or such lesser amount as may be specified elsewhere in the schedule of this contract.

(2) The Contractor will furnish with each shipment a delivery ticket, in triplicate, showing: contract number, order number under the contract, date order was placed, name and title of person placing order, an itemized listing of supplies or services furnished, unit price and extension of each item, and delivery or performance date.

(3) Invoices for supplies or services furnished in response to total orders will be accompanied with a received copy of each related delivery ticket.

(4) The ordering activity shall designate in writing the names of individuals authorized to place oral orders and will furnish a copy thereof to the Contractor.

(5) Written confirmation of oral orders will be issued as a means of documenting the oral order within 10 working days or oral orders will be confirmed twice a month, in writing, when more than one (1) oral order is consolidated for a single confirmation.

(c) Written Orders (Indefinite-Delivery Contracts) (SUP 5252.216-9403) (JAN 1992). All requests for Services and Supplies must be documented by an AGR with a written Task or Delivery Order using a SF 1449 or DD Form 1155. The order should be given as soon as possible but no later than 48 hours prior to ship arrival. Written orders on Standard Form 1449/DD Form 1155 will contain the following information, consistent with the terms of the contract:

(1) Date of order;
(2) Contract number and order number;
(3) Item number and description, quantity, and unit price;
(4) Delivery or performance date;
(5) Place of delivery or performance (including consignee);
(6) Packaging, packing, and shipping instructions, if any;
(7) Accounting and appropriation data;
(8) Any other pertinent information.

(d) LOGREQ Orders. US Government personnel may release a ship LOGREQ to the Contractor. However, a LOGREQ does not constitute placement of an order unless provided by a Supply Officer. Otherwise, an AGR will need to confirm the LOGREQ order with a Task or Delivery Order prior to invoicing.

(e) ORDERING NON-CONTRACT ITEMS (NCI)

(1) NCIs may be requested using standard procurement procedures. Once requested, the contractor will assist in obtaining the item.

(2) The Contractor shall provide a separate invoice for all Non-Contract Items with supporting documentation to the ship SUPPO for payment in accordance with standard procurement procedures.

(3) If payment is to be made by NRCC Singapore on behalf of the procuring vessel, the Contractor shall obtain all required documentation from the ship in order for payment to be effected.

(f) Short Notice Orders. Occasionally, there may be short notice orders of less then 48 hours, which the contractor should support if possible. If the Contractor cannot support these requirements then AGR may solicit them from other companies.

(g) Method of Ordering. Orders may be issued by phone, facsimile or by E-mail.

(h) Substitutions. Substitution of ordered CLINs shall not be allowed unless authorized and accepted in writing by the AGR and requiring activity. If accepted by the AGR or requiring vessel, substituted CLINs shall only be charged at the rate of the originally ordered CLIN. An example would be if a 20-pax bus was ordered, but was not available and substituted with two 10-pax vans. The Contractor will only be able to charge for one 20 pax bus not two 10 pax vans. If the requiring activity and AGR agree to rates of the substituted CLINs, then it is not considered to be a substitution but a change to the requirement.

(i) Cancellation Of Orders (NRCC SINGAPORE) (MAR 2003)

(1) Orders may be cancelled orally or in writing. Oral cancellations will be followed-up with a written confirmation to the Contactor within 3 working days.

(2) An order may be cancelled 24 hours before the start of the service or delivery of the supply item and the government will not be liable for any charges. For an order not cancelled at least 24 hours in advance, the AGR is responsible for cancellation costs to be negotiated under the "Termination for the Government's Convenience" (FAR 52.212-4)(FEB 2002)(ADDENDUM) section included in this contract. In all cases, the HS contractor is responsible for mitigating any damage or termination costs incurred because of the cancellation. Any disagreements shall be subject to the Disputes clause in the contract.

(3) In extreme cases where an order was cancelled 24 hours in advance but the contractor incurred costs because the item had to be ordered early due to a long lead time, then the Contractor may ask for reimbursement of those costs. This will also be negotiated under the Far 52.212-4 (1) clause

(5) In all cases, the Contractor is responsible for taking all necessary steps to mitigate any damages or termination costs on behalf of the U.S. Government.

(j) Invoices And Payments (NRCC SINGAPORE) (MAR 2003)

(1) NRCC Singapore or Ship's Disbursing Office will pay all bills.

(2) The Contractor shall prepare the invoice with supporting documentation and present it to NRCC Singapore or Ship for payment. NRCC Singapore or Ship will pay the entire amount to include GST. However, the Contractor must show the GST separately on the invoice so that either NRCC Singapore or Ship can request a refund from the Singapore Government.

(3) The contractor must accept the U.S. Government Commercial Purchase Card (GCPC). It will be up to the AGR to decide what payment method they use. Currently the U.S. Navy GCPC is MasterCard.

(k) Payment by Third Party (FAR 52.232.36*)* (MAY 1999) - This clause is incorporated by reference.

(l) Ordering (FAR 52.216-18) (OCT 1995)

(1) Any supplies and services to be furnished under this contract shall be ordered by issuance of task/delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from contract award to final day of the contract.

(2) All task/delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a task/delivery order or task order and this contract, the contract shall control.

(3) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

(m) Order Limitations (FAR 52.216-19) (OCT 1995)

(1) Minimum ordering amount. When the Government requires supplies or services covered by this contract in an amount of less than US $50.00, the Government is not obligated to order, nor is the Contractor obligated to furnish, those supplies or services under this contract.

(2) Maximum ordering amount. The Contractor is not obligated to honor --

(i) Any order for a single item in excess of the estimated quantity for that item, which is identified in the pricing schedule of this contract;
(ii) Any single order for a combination of items in excess of the total estimated dollar value for the applicable performance period of this contract; or
(iii) A series of orders from the Government within 120 days that together call for quantities exceeding the estimated quantities identified in the pricing schedule by more than two hundred percent (200%).

(3) This is a requirements contract (which incorporates FAR 52.216-21), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(4) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum ordering limitations in paragraph (b), unless the order(s) is returned to the ordering office within 3 days after issuance, with written notice stating the Contractor's intent not to furnish the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the required supplies or services from another source.

(n) Contract Type (NRCC SINGAPORE) (MAR 2003). The resulting contract will be a Fixed Price Requirements contract.

(o) Requirements (FAR 52.216-21) (OCT 1995)-(ALTERNATE I) (APR 1984)

(1) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(3) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(4) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(5) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after thirty (30) days beyond the expiration of the contract.

(p) Option To Extend Services (FAR 52.217-8) (NOV 1999) (MODIFIED). In order to maintain continuity of service, the Government may require continued performance of any services within the limits and at the rates specified in the contract. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed six (6) months. The Contracting Officer may exercise this option by written notice to the contractor within fifteen (15) days before the contract expires.

(q) Option To Extend The Term Of The Contract (FAR 52.217-9) (MAR 2000)

(1) The Government may extend the term of this contract by written notice to the Contractor within 15 days prior to the expiration of the current performance period of the contract; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least sixty (60) days before the contract expires. The preliminary notice does not commit the Government to an extension.

(2) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(3) The total duration of this contract, including the exercise of any options under this clause, shall not exceed sixty-six (66) months.

(r) Inconsistency Between English Version & Translation Of Contract (FAR 52.225-14) (FEB 2000). In the event of inconsistency between any terms of this contract and any translation into another language, the English language meaning shall control.

(s) Taxes – Foreign Fixed Price Contracts (FAR 52.229-6) (JUN 2003). Incorporated by reference.

(t) Payment by Electronic Funds Transfer--Central Contractor Registration (FAR 52.232-33) (OCT 2003). Incorporated by reference.

(u) Changes – Fixed Price (AUG 1987) (FAR 52.243-1) - (ALTERNATE II) (APR 1984)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(1) Description of services to be performed.

(2) Time of performance (i.e., hours of the day, days of the week, etc.).

(3) Place of performance of the services.

(4) Drawings, designs, or specifications when the supplies to be furnished are to be specially manufactured for the Government, in accordance with the drawings, designs, or specifications.

(5) Method of shipment or packing of supplies.

(6) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(v) Authorized Changes Only By The Contracting Officer (SUP 5252.243-9400) (JAN 1992)

(1) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicates with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(2) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(3) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract, and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely the Contracting Officer's. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and FAX telephone number of the Procuring Contracting Officer (PCO) are:

Commercial Address:	U.S. Naval Regional Contracting Center PSA Sembawang Terminal Deptford Road, Building 7-4, Unit 2-9 Singapore 759657
Military Address:	PSC 470, Box 2100 FPO AP 96534-2100
Fax Numbers:	(65)-6-750-2639 or 2382

(w) Provision for Wood Products (NRCC SINGAPORE) (MAR 2003) - Pinewood Nematode (microscopic roundworm) Free Non-Manufactured Wood Pacing (NMWP) Material

(1) Definition. ‘Pinewood nematode’ as used in this provision, means a microscopic roundworm that has infested coniferous (softwood) trees.

(2) All non-manufactured wood lumber, pallets boxes, crates, containers, reels blocking and bracing, dunnage, drums, etc. for all shipments are required to be certified pest- (pinewood nematode) free. All wood pallets, boxes, crates, containers, reels, blocking and bracing, dunnage, drums, etc. ordered/delivered from vendors/suppliers

shall be heat-treated and marked to the American Lumber Standards Committee (ALSC), NMWP policy and enforcement standards. The approved method for ensuring NMWP material is pinewood nematode free is as follows:

(i) Heat-treated to a minimum core temperature of 56°C(133°F) for at least 30-minutes in a closed chamber that has been tested evaluated, and approved officially for this purpose. In addition, the susceptible wood shall display an officially approved heat-treated marking enabling the identification of where and by whom the above treatment has been carried out.

(3) All bulk lumber procured for the fabrication of pallets, boxes, crates, containers, reels, skids, blocking and bracing, dunnage, drums, etc., shall be certified and marked as a part of the fabrication process, to the ALSC NMWP policy and enforcement standards. Vendors/Suppliers using ALSC-certified lumber to make or repair wooden boxes, crates, skids, containers, pallets, reels, drums, etc., must have formal processing procedures and documentation to ensure that only certified lumber leaves their fabrication point.

(4) This provision is self-deleting if the material or supplies are not shipped in NMWP material.

(x) Freedom of Information Act (FOIA) (U.S. CODE/552) (NRCC SINGAPORE) (MAR 2003) – Contract prices may be released under a FOIA request.

(y) Disputes. This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. 601-613). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated in full text. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

SUMMARY OF CHANGES

SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0001
The PROG code S10 has been added.
The MDAP/MAIS Code 276 has been added.

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship's Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. RESERVED – (Laundry Services)

1.2.8. RESERVED – (Interpreter Services)

1.2.9. RESERVED – (Mail Delivery Service)

1.2.10. The Contractor shall refer all inquiries about tours, travel, recreation or entertainment to the NRCC Singapore Morale, Welfare & Recreation (MWR) Office or designated contractor. Only MWR may sell, offer to sell, or collect a fee for booking or providing accommodations, tours, travel, recreation or entertainment to the ship's crew.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall facilitate the ship's timely departure.

1.2.12.1. The Contractor shall schedule and make a pre-sailing visit to the ship at least one day prior to its departure date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. If necessary, the Contractor will obtain a valid requisition, including accounting data, for any future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor's best estimate and an adjustment will be made later . The Contractor shall obtain receipt from any authorized ship personnel accepting all services or supplies provided.

1.2.12.2. The Contractor shall also present any invoices based on the Contractor's best estimate for all port tariff items for certification by the ship's Supply Officer. The ship shall provide payment for port tariff invoices to the Contractor based on the estimate along with the ship's payment for all other port services provided and received

during the port visit. If the Contractor is unable to reconcile or resolve any over/under port tariff payments directly with the ship, the Contracting Officer will assist with resolution of required over/under payment.

1.2.12.3. Copies of all invoices presented to the ship shall be provided to the Contracting Officer, within five working days from the departure of the visiting vessel.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services at Sembawang Shipyard. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. RESERVED – (CLIN XX09 - DOCKAGE AND WHARFAGE FEE)

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 RESERVED – (Warning Signs)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. RESERVED – (CLIN XX12AA - Beach Guard Office or Tent)

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AC)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 4.

12.6. RESERVED – (CLIN XX12AD - Perimeter Fencing)

12.7. RESERVED – (CLIN XX12AE, XX12AF, XX12AG, XX12AH - Physical Security Barriers)

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. RESERVED – (CLIN XX12AL - Portable Lighting)

12.11. Armed and Unarmed Security Guard Services (CLIN XX12AM, XX12AN, XX12AP, XX12AQ, XX12AR, XX12AS. XX12AT, XX12AU)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pier side to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.12. Armed Escort and Transportation of Weapons and Ammunition (CLIN XX12AV, XX12AW, XX12AX AND XX12AY). The Contractor shall provide armed escort and transportation of weapons and ammunitions in accordance with Attachment 6.

12.13. Storage of Controlled Weapons and Ammunitions (CLIN XX12AZ) The Contractor shall provide storage services for controlled weapons and ammunitions in accordance with Attachment 9.

12.14. Two Way Radios (CLIN XX12BA) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

12.15. Handheld Explosive Detectors (CLIN XX12BB) The Contractor shall provide handheld explosive explosive detectors capable of detecting explosives.

12.16. Handheld Metal Detectors (CLINXX 12BC) The Contractor shall provide handheld metal detectors capable of detecting metal.

12.17. Walk thru Metal Detectors (CLIN XX12BD) The Contractor shall provide walk thru metal detectors capable of detecting metal.

12.18. X-ray machines (CLIN XX12BE) The Contractor shall provide X-ray machines that are capable of X-raying hand carried luggage and bags to determine its contents.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. The Contractor shall provide fuel barges in accordance with CLIN XX14 to support fueling and de-fueling operations between Sembawang Terminal and the requesting vessel. All barges provided shall have suitable fendering to prevent damage to the ship.

14.2. The Contractor shall load the ordered fuel at Sembawang Terminal and transport to the ship. The Contractor shall transfer the fuel from the fuel barge to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.3. The Contractor shall use an independent, certified, and licensed surveyor to (i) inspect the fuel barge for cleanliness prior to loading; (ii) survey quality and quantity of fuel loaded onto the fuel barge and; (iii) survey the quantity of fuel discharged to the receiving vessel and any quantity remaining in the fuel barge.

14.3.1. The Contractor shall in the presence of the barge operator and the fuel supplier inspect the fuel barge for cleanliness prior to the loading of fuel. The Contractor shall coordinate the loading program. Volume and weight determination shall be made to ensure that correct quantity and quality of fuel ordered is loaded onto the barge. The fuel shall be locked and sealed to ensure the integrity of the quantity and quality when received by receiving vessel.

14.3.2. The Contractor shall coordinate the discharge of fuel from the fuel barge to the receiving vessel.

14.4. Disposition of U.S. Government Fuel de-fueled or not taken by requesting vessel.

14.4.1. Upon notification by the Contractor's barge operator that there is Government fuel remaining in the fuel barge, or when fuel is taken out of a vessel to undergo maintenance or repair work, the procedure in this paragraph shall apply. The Contractor shall use the independent, certified and licensed surveyor to survey the fuel barge to determine quantity of fuel left in the barge and shall within 24 hours inform NRCC Fuel Specialist and Contracting Officer of the quantity remaining. The Contractor shall then follow the guidelines in Para. 14.4.2. for the disposition of the remaining fuel unless otherwise instructed by the Contracting Officer.

14.4.2. The following guidelines shall be followed for the disposition of fuel:

14.4.2.1. Under certain circumstances, it is not practicable for the Contractor to sell the fuel and reimburse the proceeds to the Government, because small amounts of fuel cost more to dispose than the revenue produced. Accordingly, the Contractor is authorized to dispose of remaining fuel and to retain any proceeds as a disposal fee under the following conditions:

14.4.2.1.1. Sub-CLINs XX14 AB, AC, AD fuel barge were used and the quantity of fuel remaining is less than 2,500 gal.

14.4.2.1.2. Sub-CLINs XX14 AE fuel barge were used and the quantity of fuel remaining is less than 8,000 gal.

14.4.2.1.3. Sub-CLINs XX14 AG or AH fuel barge were used and the quantity of fuel remaining is less than 12,000 gal.

14.4.2.2. If for any of the Sub-CLINs, the quantity of fuel remaining in the barge exceeds the limits set in paragraphs 14.4.2.1., the Contractor shall return the remaining fuel to Sembawang Terminal. If the Terminal refuses to take the fuel back for any reason, the Contractor is authorized to and shall dispose of the remaining fuel in accordance with Paragraph 14.4.3. Documentation of the Terminal's refusal to accept the fuel shall be retained by the contractor and provided with the reimbursement documents described in Paragraph 14.4.3.2.

14.4.3. The Contractor is authorized to and shall sell the remaining fuel in the open market within a maximum of one working day from the date of discharge to the receiving U.S. Navy vessel and return the proceeds to the U.S. Government.

14.4.3.1. The Contractor shall obtain 3 quotes as specified in the following web site http://www.singaporemaritimeportal.com/ and sell the fuel at a competitive rate that represents the best value to the U.S. Government.

14.4.3.2. The Contractor shall reimburse the full amount received from the sale of the fuel back to NRCC Singapore within three (3) days upon receipt of payment for the transaction. NRCC shall ensure that amounts received will be credited to DESC. Documentation of obtaining three (3) quotes and the prevailing rate used for the sale shall be submitted with the reimbursement.

14.4.3.3. The Contractor is entitled to a disposal fee for the sale of the fuel.

14.4.3.4. The Contractor shall be responsible to minimize fuel barge rental cost when effecting the sale of the remaining fuel.

14.5. The Contractor shall retain surveyor reports for all fuel operations. They shall include at a minimum the certification of cleanliness of the barge; quantity loaded onto the fuel barge; quantity discharged to the receiving vessel; quantity remaining in the fuel barge after discharge, if any; and disposition of any remaining fuel. These reports shall be made available to the Government upon their request.

14.6. After receipt of proper order for fuel barge operations, the Contractor shall provide the barge and crew details to the NRCC ordering officer at least 24 hours prior to start of work in order to coordinate PSA Sembawang Wharf clearance and berthing availability.

14.7. All costs associated with de-fueling and/or fueling shall be the responsibility of the requesting vessel. This shall include cost of the independent fuel surveyor, rental of the fuel barge and the cost of the sale of excess fuel.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED – (CLIN XX16 - LINESBOATS)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (WITHOUT OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19) LIGHTERAGE (CLIN XX19AA, XX19AB & XX19AC) The Contractor shall provide lighterage (water transportation) services for cargo and provisions between Changi Naval Base and Man-of-War anchorage. All material handling items shall include required barges (with adequate self-fendering equipment and personnel.

19.1. A trip (TP) is defined as a single trip from point A to point B. An example would be for lighterage services from Changi Naval Base to Vessel at Man-of-War Anchorage.

19.2. The Contractor shall use forklifts and cranes from The Schedule.

20. MISCELLANEOUS (CLIN XX20)

20.1. TOILET CLEANING (CLIN XX20AA)

20.1.1. The Contractor shall provide toilet cleaning three times daily at Clifford Pier.

20.1.2. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

20.2. RESERVED – (CLIN XX20AB - VARIOUS)

21. OIL BOOMS (CLIN XX21)

21.1. Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED – (CLIN XX26 - PRATIQUE)

27. REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide diesel generators with fuel along side the ship to supply shore power to the vessel. Generators shall emit sound levels of less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. SHORE STEAM (CLIN XX29) - The Contractor shall provide Shore Steam to the ship.

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

34.4. The Contractor shall also provide Outer Port Limit (OPL) water taxis to transfer ship personnel to and from the ship and the pier per Attachment 8. OPL water taxi unit price shall be inclusive of launch, berthage, crew security, porterage, custom, and all other charges.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (CLIN XX 35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship's departure.

35.2. QUARTERLY REPORT (CLIN XXAB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in the currency of the contract, and in U.S. Dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed against this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been modified:

SECTION C2 – STATEMENT OF WORK

TASKS: The Contractor shall perform the following tasks when ordered by an AGR.

1. MANAGEMENT SERVICES (CLINs XX01 and XX02) (Attachment 2 – Classifications of Navy Ships)

1.1. PRE-ARRIVAL HUSBANDING DUTIES

1.1.1. The Contractor shall communicate with the ship to coordinate requirements.

1.1.2. The Contractor shall order requested services and supplies.

1.1.3. The contractor shall furnish to each ship a CRAFT cost estimate in response to the receipt of a ship's Logistic Requirements' (LOGREQ) message. This estimate will be prepared using the CRAFT spreadsheet format, and will include estimated quantities and prices for all items submitted on the ship's LOGREQ whether pre-priced in the contract or non-contract items. It will not be sufficient to simply say that the estimated price is "per contract" or "per Port Tariff". This estimate shall be provided to the ship within two (2) working days after receipt of the LOGREQ but no later than 24 hours prior to the ship’s arrival, shall also include cost saving or avoidance recommendations, and will explain any anticipated “additional” costs.

1.1.4. These estimates shall be provided for all US Navy, Military Sea-lift Command (MSC), US Coast Guard, and any other US Government ship visiting the port.

1.1.5. The LOGREQ cost estimate does not replace the Husbanding Contractor's requirement to respond to the activity authorized to pass a LOGREQ on behalf of the ship, such as the Port Services Officer or the Naval Attaché’ at the U. S. Defense Attaché Office.

1.1.6. The Contractor shall prepare and stage all required supplies and equipment prior to the ship’s arrival. Staging may be as required by each location.

1.1.7. The Contractor shall coordinate with other US government contractors in performing their required services. This includes passing orders and coordinating delivery requirements. For example, the HS Contractor would coordinate Provisioning contractors delivery dates, times, forklifts, cranes, stevedores, inspections, or any other item needed for them to perform their work at the berth.

1.1.8. The Contractor shall assist the ship’s Advance Party to include planning and coordination meetings.

1.2. POST-ARRIVAL HUSBANDING DUTIES

1.2.1. The Contractor shall Husband the ship when at the berthing location.

1.2.2. The Contractor shall install all equipment upon ship arrival. Examples are brows, platforms, shore power cables, mooring lines, fenders, curb caps, steps, and telephones.

1.2.3. The Contractor shall board each ship as soon as practicable after arrival, but in no case more than two (2) hours after the ship's arrival.

1.2.4. The Contractor shall brief the designated ship representative about Contractor provided services upon arrival. This briefing shall include what was ordered, cost information, and scheduled times and dates for delivery. Also, the contractor will provide their POC information with 24-hour contact phone numbers.

1.2.5. The Contractor shall provide a copy of Overview, The Schedule and SOW to the SUPPO.

1.2.6. Money Exchange Services

1.2.6.1. Moneychangers: The Contractor shall arrange for authorized moneychangers to exchange ship personnel U.S. dollars with local currency. The moneychangers may include a nominal commission of no more than plus or minus 1.5% difference from the Official Rate as stated below.

1.2.6.2. The Contractor shall determine an Official Exchange Rate based on local bank published exchange rates for U.S. dollars for that day. This Official Rate will be used for financial conversions not covered by payments in U.S. dollars.

1.2.7. RESERVED – (Laundry Services)

1.2.8. RESERVED – (Interpreter Services)

1.2.9. RESERVED – (Mail Delivery Service)

1.2.10. The Contractor shall refer all inquiries about tours, travel, recreation or entertainment to the NRCC Singapore Morale, Welfare & Recreation (MWR) Office or designated contractor. Only MWR may sell, offer to sell, or collect a fee for booking or providing accommodations, tours, travel, recreation or entertainment to the ship's crew.

1.2.11. The Contractor shall coordinate with other US Government contractors in performing their required services. Example would be coordinating provisioning contractor delivery times, dates, and equipment needed.

1.2.12. The Contractor shall facilitate the ship's timely departure.

1.2.12.1. The Contractor shall provide a cost estimate of provided services and supplies to the ship SUPPO prior to departure.

1.2.12.2. The Contractor must obtain an acceptable written receipt from an authorized ship personnel accepting all services or supplies provided.

1.2.12.3. The Contractor shall remove all provided equipment.

1.3. The Contractor shall schedule and make a visit to the ship one day prior to its sailing date at a time permitting the presentation of invoices. At that time, the Contractor shall present an invoice for services provided under this contract which can be certified for receipt and finalized for payment. The Contractor will obtain a valid requisition, including accounting data, for any outstanding ship obligations which cannot be liquidated prior to ship’s departure, for future modification by the Ordering Officer. The invoices for services not yet liquidated will be processed as the Contractor’s best estimate and an adjustment will be made later.

1.3.1. The Contractor shall also provide any invoices for port tariff items which have been completed for certification by the ship’s Supply Officer.

1.3.2. Copies of all invoices presented to the ship shall be provided to the Contracting Officer, within five working days from the departure of the visiting vessel.

2. RESERVED - Not to be used.

3. BREASTING AND FENDERING BARGE (CLIN XX03)

3.1. The Contractor shall provide a breasting barge alongside the ship. The barge shall be able to tie up water taxis, have a non-slip surface for passengers entering or leaving water taxis, and have a surface smooth enough to allow the accommodation ladder to roll freely. The barge shall have suitable self-fendering to prevent damage to the ship and have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

3.2. The Contractor shall place fenders between the breasting barge and the ship.

3.3. The Contractor shall provide a barge to use as a buffer or as part of a fendering system between the ship and the pier or between other ships. The barge shall have a minimum of four (4) mooring lines suitable to withstand extreme weather conditions.

4. BROW (CLIN XX04)

4.1. The Contractor shall provide brows for entry to and from the pier. Metal planking should also be used as necessary in order to not to damage the surface of the pier.

4.2. Due to the dramatic height difference between the submarine deck and pier, the contractor provided submarine brow must afford personnel a smooth and safe transit when entering or exiting the submarine deck. Also, the submarine brow must be capable of supporting shore power cables without damaging the cable.

5. CAMELS (CLIN XX05) - The Contractor shall provide camels as fenders for the ship.

6. COLLECTION, HOLDING AND TRANSFER (CHT) SEWAGE REMOVAL AND DISPOSAL (CLIN XX06)

6.1. The Contractor shall remove sewage from the ship commencing within one (1) hour of the ship's arrival and up to one (1) hour before the ship's departure.

6.2. The Contractor shall pump sewage from the ship to Contractor provided equipment. If a holding tank is used it will be emptied prior to reaching 90% full capacity.

6.3. The Contractor shall accurately measure sewage removed from the ship. The ship duty engineer shall verify in writing the amount of discharged CHT.

6.4. The contractor shall provide CHT hoses of sufficient length from contractor equipment to the ship with either 2.5” or 4” quick disconnect camlock fittings.

6.5. When collection of CHT is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to vessel and with a minimum of four (4) mooring lines to secure alongside the ship.

6.6. The Contractor shall properly dispose of all sewage in accordance with C1. Paragraph 14. Standards For Professional Services.

6.7. A port surcharge may be levied for CHT services at Sembawang Shipyard. The applicable surcharge will be calculated using the total cost of CHT services. An example would be where a surcharge of 15% is levied. If the total cost of CHT removal and disposal is US$5,000.00 then the surcharge would be US$750.00.

7. COMMUNICATION SERVICES & EQUIPMENT (CLIN XX07)

7.1. The Contractor shall arrange for landlines to be installed aboard the ship.

7.2. The Contractor shall provide fully charged, mobile hand phones with charges capable of using dual voltage.

7.3. The Contractor shall provide activation, auto-roaming, long distance accounts, and airtime for land and hand phones.

8. CRANE (CLIN XX08) - The Contractor shall provide cranes with operators, required assistant personnel, and support equipment such as slings, lifting bars, and nets. When ordered, the Contractor is required to provide mobile crane services (shore crane and floating crane) with operator. The Contractor shall co-ordinate with local Port Authorities as necessary to ensure that the services are available as required and at the times requested. The cranes provided shall be in sound mechanical condition and shall meet all applicable safety laws and regulations. The cranes shall be suitable for their intended use and shall be operated with due care and within all operating safety limits.

9. RESERVED – (CLIN XX09 - DOCKAGE AND WHARFAGE FEE)

10. FENDERS (CLIN XX10) - The Contractor shall provide Yokohama-type fenders with a minimum of two (2) mooring lines.

11. FLEET LANDING (CLIN XX11) - The Contractor shall provide a Fleet Landing site at designated piers. The Fleet Landing includes a water taxi drop off point and should be large enough to conduct FP operations.

12. FORCE PROTECTION (CLIN XX12)

12.1. General: (CLINs XX01 & XX02) The Contractor is responsible for providing or coordinating listed Force Protection services as part of their Management Services. The Contractor will follow the requirements below unless directed differently by the ship's Security Officer, Advance Party FP Officer, or AGR.

12.1.1. Access Points: The Contractor shall establish a single entry and exit point to the pier area.

12.1.2. Security Clearance: Under no circumstances shall any services be substituted due to inability to obtain security clearances.

12.1.3. Personnel Identification: The Contractor shall positively identify all personnel before allowing access to the pier area and be able to easily identify them while working.

12.1.3.1. Background Checks. The Contractor shall run security background checks on employees with local or national police departments or other government organizations. The Contractor shall not use employees who fail this background investigation.

12.1.3.2. The Contractor shall issue photo identification badges to their personnel and ensure subcontractor personnel have photo identification badges. Badges should be standardized and have a passport type photo, name of the company, individuals name, identification number, and date of birth. Personnel will wear the badge to be visible at all times.

12.1.3.3. The Contractor shall ensure that their employees and subcontractor employees wear appropriate uniform items to identify them as contractor personnel. Examples would be similar T-shirts, trousers, or coveralls with company names printed on the clothing.

12.1.4. Access Lists: The contractor shall develop a daily list of authorized personnel, vehicles and vessels who may have access to the ship area. This list will be given to ship FP officers, security guards, and other contractors as required.

12.1.4.1. For individuals, the list will include their full name, identification number, company, time and duration of visit, and purpose of their work.

12.1.4.2. For vehicles, the list will include a description of the vehicle, license plate number, drivers name, time and duration of visit, and purpose of their work.

12.1.4.3. For vessels, the list shall include the master's name, vessel name, type, color, time and duration of visit, and purpose of their work.

12.1.5. Inspections. The Contractor shall inform company and sub-contractor personnel that Security Guards or U.S. FP personnel shall physically inspect all individuals, personal belongings, vehicles, and vessels prior to entering the work area. Upon completion of inspection, the individual, vehicle, or craft is to remain in a controlled environment. If they go outside the controlled area they must be re-inspected before continuing their work.

12.1.6. Stand-Off Distances:

12.1.6.1. Objects: The Contractor shall move all objects such as cars, crates, and trash bins at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.1.6.2. Unloading Zones: The Contractor shall establish unloading zones at least 400 feet (125 meters) away from the ship or to the maximum extent practicable.

12.1.7 RESERVED – (Warning Signs)

12.2. Non-Contract FP Measures: The contractor is prohibited from providing any requested FP measures that are not included in this contract unless approval is obtained from the NRCC Singapore KO. The Contractor must explain what the FP service will entail and why it is being required. The KO will coordinate this requirement with appropriate FP personnel at NRCC and COMLOGWESTPAC. Once a decision is made then the contractor will be either authorized to proceed with the service at an agreed upon price or instructed to cancel the requirement.

12.3. RESERVED – (CLIN XX12AA - Beach Guard Office or Tent)

12.4. Dive and Vetting Operations (CLIN XX12AB)

12.4.1. The Contractor shall arrange for divers to conduct underwater inspections of the pier area, the ship's hull, and supporting watercraft. The purpose of the divers is to detect any explosive devices attached to the ship's hull or around the pier area. If the diver discovers an explosive device, they shall not attempt to defuse or remove the device. They shall immediately report the device to the ship and local authorities.

12.4.2. The pier will be vetted prior to the ships arrival.

12.4.3. The Contractor shall vet all watercraft at least 400 feet (125 meters) from the ship or to the maximum extent practicable.

12.4.4. The dive team will have a minimum of three (3) divers including a supervisor, will have all required equipment, and will provide their own boat with driver capable of holding a minimum of seven personnel.

12.4.5. The Contractor may provide two armed or unarmed guards to be in the boat for the vetting operation. Purpose of the guards is similar to guards in Picket Boats.

12.5. Floating Line of Demarcation (CLIN XX12AC)

12.5.1. The Contractor shall provide a Floating Line of Demarcation (FLD) to identify a restricted area in the water of approximately 400 feet (125 meters) distance around docked or anchored ships. The purpose of the FPM is to establish a visual reference final demarcation line that unauthorized swimmers or watercraft should not be entering. The Picket Boats will patrol outside of this visual reference. The FPM is not designed to stop approaching unauthorized watercraft by fouling their propellers. Rather it is to help identify a safe standoff zone.

12.5.2. The Contractor shall comply with the specification of the FLD in Attachment 4.

12.6. RESERVED – (CLIN XX12AD - Perimeter Fencing)

12.7. RESERVED – (CLIN XX12AE, XX12AF, XX12AG, XX12AH - Physical Security Barriers)

12.8. Picket Boats (CLIN XX12AJ)

12.8.1. The Contractor shall provide picket boats to protect the ship from all waterborne threats whether above or below the water. They shall immediately warn the ship of all perceived threats and keep unauthorized vessels or personnel out of the exclusion zone.

12.8.2. The Contractor shall comply with Attachment 4 for picket boat operations.

12.9. Portable Latrine (CLIN XX12AK)

12.9.1. The Contractor shall provide portable, water-flushed or chemical-type latrines with hand-washing facilities, toilet paper, hand soap, and paper towels.

12.9.2. The Contractor shall empty the holding tank prior to it reaching 90% full capacity and provide water as required.

12.9.3. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

12.9.4. The Contractor shall clean latrines twice daily.

12.10. RESERVED – (CLIN XX12AL - Portable Lighting)

12.11. Armed and Unarmed Security Guard Services (CLIN XX12AM, XX12AN, XX12AP, XX12AQ, XX12AR, XX12AS. XX12AT, XX12AU)

12.11.1. The Contractor shall provide security guards to patrol in picket boats and at pier side to ensure that only authorized personnel, vehicles, watercraft and material are allowed into restricted areas.

12.11.2. The Contractor shall comply with Attachment 5 for security guard operations.

12.12. Armed Escort and Transportation of Weapons and Ammunition (CLIN XX12AV, XX12AW, XX12AX AND XX12AY). The Contractor shall provide armed escort and transportation of weapons and ammunitions in accordance with Attachment 6.

12.13. Storage of Controlled Weapons and Ammunitions (CLIN XX12AZ) The Contractor shall provide storage services for controlled weapons and ammunitions in accordance with Attachment 9.

12.14. Two Way Radios (CLIN XX12BA) The Contractor shall provide two way radio sets capable of communicating with the ship to designated individuals.

12.15. Handheld Explosive Detectors (CLIN XX12BB) The Contractor shall provide handheld explosive explosive detectors capable of detecting explosives.

12.16. Handheld Metal Detectors (CLINXX 12BC) The Contractor shall provide handheld metal detectors capable of detecting metal.

12.17. Walk thru Metal Detectors (CLIN XX12BD) The Contractor shall provide walk thru metal detectors capable of detecting metal.

12.18. X-ray machines (CLIN XX12BE) The Contractor shall provide X-ray machines that are capable of X-raying hand carried luggage and bags to determine its contents.

13. FORKLIFT WITH OPERATOR (CLIN XX13) The Contractor shall provide forklifts with operators for loading and unloading operations. Sizes in the schedule indicate the maximum lifting capacity of the forklift.

14. FUEL (CLIN XX14)

14.1. The Contractor shall provide fuel barges in accordance with CLIN XX14 to support fueling and de-fueling operations between Sembawang Terminal and the requesting vessel. All barges provided shall have suitable fendering to prevent damage to the ship.

14.2. The Contractor shall load the ordered fuel at Sembawang Terminal and transport to the ship. The Contractor shall transfer the fuel from the fuel barge to the ship. The Contractor shall provide sufficient hoses with proper fittings or connections to effect fuel transfer operations.

14.3. The Contractor shall use an independent, certified, and licensed surveyor to (i) inspect the fuel barge for cleanliness prior to loading; (ii) survey quality and quantity of fuel loaded onto the fuel barge and; (iii) survey the quantity of fuel discharged to the receiving vessel and any quantity remaining in the fuel barge.

14.3.1. The Contractor shall in the presence of the barge operator and the fuel supplier inspect the fuel barge for cleanliness prior to the loading of fuel. The Contractor shall coordinate the loading program. Volume and weight determination shall be made to ensure that correct quantity and quality of fuel ordered is loaded onto the barge. The fuel shall be locked and sealed to ensure the integrity of the quantity and quality when received by receiving vessel.

14.3.2. The Contractor shall coordinate the discharge of fuel from the fuel barge to the receiving vessel.

14.4. Disposition of U.S. Government Fuel de-fueled or not taken by requesting vessel.

14.4.1. Upon notification by the Contractor's barge operator that there is Government fuel remaining in the fuel barge, or when fuel is taken out of a vessel to undergo maintenance or repair work, the procedure in this paragraph shall apply. The Contractor shall use the independent, certified and licensed surveyor to survey the fuel barge to determine quantity of fuel left in the barge and shall within 24 hours inform NRCC Fuel Specialist and Contracting Officer of the quantity remaining. The Contractor shall then follow the guidelines in Para. 14.4.2. for the disposition of the remaining fuel unless otherwise instructed by the Contracting Officer.

14.4.2. The following guidelines shall be followed for the disposition of fuel:

14.4.2.1. Under certain circumstances, it is not practicable for the Contractor to sell the fuel and reimburse the proceeds to the Government, because small amounts of fuel cost more to dispose than the revenue produced. Accordingly, the Contractor is authorized to dispose of remaining fuel and to retain any proceeds as a disposal fee under the following conditions:

14.4.2.1.1. Sub-CLINs XX14 AB, AC, AD fuel barge were used and the quantity of fuel remaining is less than 2,500 gal.

14.4.2.1.2. Sub-CLINs XX14 AE fuel barge were used and the quantity of fuel remaining is less than 8,000 gal.

14.4.2.1.3. Sub-CLINs XX14 AG or AH fuel barge were used and the quantity of fuel remaining is less than 12,000 gal.

14.4.2.2. If for any of the Sub-CLINs, the quantity of fuel remaining in the barge exceeds the limits set in paragraphs 14.4.2.1., the Contractor shall return the remaining fuel to Sembawang Terminal. If the Terminal refuses to take

the fuel back for any reason, the Contractor is authorized to and shall dispose of the remaining fuel in accordance with Paragraph 14.4.3. Documentation of the Terminal's refusal to accept the fuel shall be retained by the contractor and provided with the reimbursement documents described in Paragraph 14.4.3.2.

14.4.3. The Contractor is authorized to and shall sell the remaining fuel in the open market within a maximum of one working day from the date of discharge to the receiving U.S. Navy vessel and return the proceeds to the U.S. Government.

14.4.3.1. The Contractor shall obtain 3 quotes as specified in the following web site http://www.singaporemaritimeportal.com/ and sell the fuel at a competitive rate that represents the best value to the U.S. Government.

14.4.3.2. The Contractor shall reimburse the full amount received from the sale of the fuel back to NRCC Singapore within three (3) days upon receipt of payment for the transaction. NRCC shall ensure that amounts received will be credited to DESC. Documentation of obtaining three (3) quotes and the prevailing rate used for the sale shall be submitted with the reimbursement.

14.4.3.3. The Contractor is entitled to a disposal fee for the sale of the fuel.

14.4.3.4. The Contractor shall be responsible to minimize fuel barge rental cost when effecting the sale of the remaining fuel.

14.5. The Contractor shall retain surveyor reports for all fuel operations. They shall include at a minimum the certification of cleanliness of the barge; quantity loaded onto the fuel barge; quantity discharged to the receiving vessel; quantity remaining in the fuel barge after discharge, if any; and disposition of any remaining fuel. These reports shall be made available to the Government upon their request.

14.6. After receipt of proper order for fuel barge operations, the Contractor shall provide the barge and crew details to the NRCC ordering officer at least 24 hours prior to start of work in order to coordinate PSA Sembawang Wharf clearance and berthing availability.

14.7. All costs associated with de-fueling and/or fueling shall be the responsibility of the requesting vessel. This shall include cost of the independent fuel surveyor, rental of the fuel barge and the cost of the sale of excess fuel.

15. GARBAGE AND TRASH REMOVAL & DISPOSAL (CLIN XX15)

15.1. The Contractor shall remove and dispose of garbage and trash from the ship.

15.2. The Contractor shall provide dedicated refuse bins to the ship.

15.3. If collection is done by sea, the Contractor shall provide a trash barge 24 hours a day with suitable fendering to prevent damage to the ship, and at least four (4) mooring lines to secure alongside the ship.

15.4. The Contractor shall collect all loose refuse placed adjacent to refuse bins.

15.5. The Contractor shall immediately clean up any spilled refuse.

15.6. The Contractor shall properly dispose of all collected refuse.

16. RESERVED – (CLIN XX16 - LINESBOATS)

17. LINE HANDLERS (CLIN XX17)

17.1. The Contractor shall provide line handlers to secure and unsecure mooring lines from the ship to the pier.

17.2. Line handlers shall have all required safety equipment to perform the job. Examples are floating vests, gloves, and hard hats.

18. MANLIFT (WITHOUT OPERATOR) (CLIN XX18)

18.1. The Contractor shall provide a manlift with a full fuel tank.

18.2. The contractor shall replenish the fuel and perform daily maintenance checks on the manlift prior to 0730 each morning.

18.3. The Contractor shall conduct training on safety and operating procedures during the turnover with ship personnel. The Contractor shall maintain documentation of ship personnel acknowledgement of the training.

19. MATERIAL HANDLING (CLIN XX19) LIGHTERAGE (CLIN XX19AA, XX19AB & XX19AC) The Contractor shall provide lighterage (water transportation) services for cargo and provisions between Changi Naval Base and Man-of-War anchorage. All material handling items shall include required barges (with adequate self-fendering equipment and personnel.

19.1. A trip (TP) is defined as a single trip from point A to point B. An example would be for lighterage services from Changi Naval Base to Vessel at Man-of-War Anchorage.

19.2. The Contractor shall use forklifts and cranes from The Schedule.

20. MISCELLANEOUS (CLIN XX20)

20.1. TOILET CLEANING (CLIN XX20AA)

20.1.1. The Contractor shall provide toilet cleaning three times daily at Clifford Pier.

20.1.2. The Contractor shall restock toilet paper, hand soap, and paper towels daily.

20.2. RESERVED – (CLIN XX20AB - VARIOUS)

21. OIL BOOMS (CLIN XX21)

21.1. Contractor shall provide oil booms to be used for containment, concentration, diversion and exclusion of oil floating on water.

21.2. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

21.3. The Contractor shall dispose all oil waste caught in the Oil Boom.

21.4. Oil Booms provided shall have a flotation device at the top, a skirt below, a tension device, and a ballast device at the bottom.

22. OILY WASTE AND AGGREGATE WATER REMOVAL & DISPOSAL (CLIN XX22)

22.1. The Contractor shall remove oily waste and aggregate water from the ship.

22.2. The Contractor shall pump oily waste and aggregate water from the ship to Contractor provided equipment.

22.3. The Contractor shall accurately measure oily waste and aggregate water removed from the ship. The ship duty engineer shall verify in writing the amount removed.

22.4. The contractor shall provide hoses of sufficient length from contractor equipment to the ship with either 2.5" or 4" quick disconnect camlock fittings.

22.5. When removal is done via barge, the Contractor shall provide a barge with suitable self-fendering to prevent damage to the ship and a minimum of four (4) mooring lines to secure alongside the ship.

22.6. The Contractor shall properly dispose of all oily waste and aggregate water.

23. PAINT FLOAT (CLIN XX23)

23.1. The Contractor shall provide paint floats to hold personnel painting the ship.

23.2. The paint float deck shall be between two (2) to three (3) meters above the waterline and the scaffolding shall be no higher than 3.5 meters from the deck.

23.3. The ship is responsible to secure the paint float to the ship if rented for more than one day.

24. PILOTS (CLIN XX24) - The Contractor shall provide pilots to navigate the ship to and from the berthing locations.

25. POTABLE WATER (CLIN XX25) - The Contractor shall deliver fresh, potable water to the intake hose of the requesting ship in accordance with Attachment 7.

26. RESERVED – (CLIN XX26 - PRATIQUE)

27. REEFER CONTAINER (CLIN XX27)

27.1. The Contractor shall provide reefer containers with power source for refrigerated storage.

27.2. The Contractor shall provide diesel generators with fuel and properly sized to operate reefers continuously. Generators shall emit sound levels of less than 84 decibels.

27.3. The Contractor shall make all power connections between the generator and reefer.

27.4. The Contractor shall operate the reefer at the temperature specified by the ship.

28. SHORE POWER (CLIN XX28)

28.1. The Contractor shall provide diesel generators with fuel along side the ship to supply shore power to the vessel. Generators shall emit sound levels of less than 84 decibels.

28.2. The Contractor shall provide all cables and make all power connections between the generator and ship.

29. SHORE STEAM (CLIN XX29) - The Contractor shall provide Shore Steam to the ship.

30. STEVEDORES (CLIN XX30) - The Contractor shall provide stevedores and supervisors for general labor.

31. TENT WITH EQUIPMENT FOR SPECIAL EVENTS (CLIN XX31)

31.1. The Contractor shall provide tents with accessory equipment. The tent package shall include a tent, lighting, ceiling fans, tables and chairs, electrical hookups, cable for power supply, and a generator with fuel that emits sound levels of less than 84 decibels.

31.2. The Contractor shall provide daily cleaning of the tent and a three-meter perimeter around the tent. Cleaning includes removing trash, sweeping, and mopping up spills.

32. TRANSPORTATION VEHICLES (CLIN XX32)

32.1. The Contractor shall provide vehicle service with drivers for official government business.

32.2. The Contractor shall provide one-way transfer vehicles with drivers to transfer personnel between a designated pick-up point and a specified destination.

32.3. The Contractor shall provide covered trucks with driver. The covered truck shall have a hydraulic lift to facilitate loading and off loading. The driver shall assist with loading and off loading.

32.4. The Contractor shall provide drivers who can speak and understand English clearly.

32.5. The Contractor shall provide only vehicles with air conditioning.

32.6. The Contractor shall jointly inspect each vehicle with an authorized ship's representative, before and after each use.

32.7. The Contractor shall return all items left in rental vehicles to the ship's SUPPO or to NRCC Singapore LSC if the ship has departed.

32.8. The Contractor shall obtain written acknowledgement of vehicle service or one-way transportation service by an authorized ship representative. Trip tickets shall be used to document arrival and departure times, destinations, and type of vehicle.

33. TUGS (CLIN XX33)

33.1. The Contractor shall provide tugs to bring ships to and from berthing locations.

33.2. Tugs shall have a minimum towing capacity of 2,500 horsepower and not less than 35 tons bollard pull.

33.3. Towropes shall be synthetic ropes with a minimum strength of at least 80 tons.

34. WATER TAXIS (CLIN XX34)

34.1. The Contractor shall provide water taxis to transfer ship personnel to and from the ship and the pier in accordance with Attachment 8.

34.2. The Contractor shall return all items left in water taxis to the ship's SUPPO.

34.3. The Contractor shall obtain written acknowledgement of water taxi service by an authorized ship representative. Logs shall be used to document arrival and departure times.

34.4. The Contractor shall also provide Outer Port Limit (OPL) water taxis to transfer ship personnel to and from the ship and the pier per Attachment 8. OPL water taxi unit price shall be inclusive of launch, berthage, crew security, porterage, custom, and all other charges.

35. REPORTS (CLIN XX35)

35.1. CRAFT REPORT (CLIN XX 35AA): The Contractor shall prepare and submit a Cost Reporting and Forecasting Tool (CRAFT) Report for each ship visit showing what services or supplies were ordered from the contract and what was actually provided. The report format is provided in Exhibit C – CRAFT Report. The report

shall be submitted to the NRCC Contracting Officer or designated representative within five working days of each ship's departure.

35.2. QUARTERLY REPORT (CLIN XXAB): The Contractor shall submit a QUARTERLY report to the Contracting Officer, summarizing ports visited, ships visiting, days in port, by item and sub-line item the amount in the currency of the contract, and in U.S. Dollars, paid under each task order (T.O.) during each reporting period. A copy of each T.O. placed against this contract during the reporting period will be included as an enclosure. The reports shall be presented in the CRAFT format of this contract.

(End of Summary of Changes)
